WARRANTY

Trailers sold by NT Trailers are covered by a structural warranty for a period of 12 months (12 months for commercial use). This warranty period is valid from the date of original purchase and covers all products against defective materials or workmanship (jockey wheel, bearings, tires, wheels, brake pads & wearable parts are excluded).

FINANCE

Take advantage of our flexible financing options tailored to your needs—whether for personal use or business. Simply select your preferred method of contact—email, call, or send us a message on Instagram—and our team will guide you to secure the best rates available. We're here to make your trailer purchase as smooth and affordable as possible.

TRAILER DESCRIPTION

The Essential Builders Trailer is designed for tradespeople who need a tough, practical and heavy-duty trailer without unnecessary extras. Built on the same strong platform as the Advanced Builders Trailer, the Essential model delivers serious storage capacity, durability and everyday worksite practicality in a simple open-layout design.

Inside, the Essential Builders Trailer features a wide-open internal body. This gives you flexible storage space for tools, materials, equipment and larger trade gear. It is ideal for trades who want a blank-canvas trailer that they can organise or customise their own way.

Externally, the trailer includes the same practical side drawer, front toolbox and rear door access as the Advanced Builders Trailer. These features make it easy to access frequently used gear without needing to climb through the main body. The builders rack also provides extra storage for ladders, lengths of material and oversized items.

Built with a galvanneal steel and aluminium heavy-duty body, 8-leaf rocker roller suspension, a high-strength 50mm solid axle and 3000KG GVM, the Essential Builders Trailer is made for tough work conditions and everyday trade use. It is a simple, strong and reliable work companion for builders, contractors and tradespeople.
