WARRANTY

Trailers sold by NT Trailers are covered by a structural warranty for a period of 12 months (13 months for commercial use). This warranty period is valid from the date of original purchase and covers all products against defective materials or workmanship (jockey wheel, bearings, tires, wheels, brake pads & wearable parts are excluded).

FINANCE

Take advantage of our flexible financing options tailored to your needs—whether for personal use or business. Simply select your preferred method of contact—email, call, or send us a message on Instagram—and our team will guide you to secure the best rates available. We're here to make your trailer purchase as smooth and affordable as possible.

TRAILER DESCRIPTION

Built with a strong galvanized steel frame, the B-5 tradesman trailer is designed to withstand the toughest conditions, making it an ideal choice for professionals who need durability and reliability. Its high-quality construction ensures long-lasting performance, so you can trust it to handle all your hauling needs with ease.

Inside, the 8x5 tradesman trailer boasts a thoughtfully designed storage system featuring multiple drawers and compartments. Whether you're organizing small tools or larger equipment, this trailer offers ample space to keep everything neatly arranged and easily accessible.

Security is a top priority, and this trailer is equipped with advanced features such as an integrated alarm and a central locking system. These additions ensure your valuable tools and equipment remain safe, providing peace of mind no matter where your job takes you.

Power management is effortless with the built-in advanced Electrical Management System (EMS). Complete with high-capacity batteries, solar panels, and inverters, this system provides dependable power for your devices and equipment, even in remote areas.

Engineered for Australia's rugged terrain, the 8x5 tradesman trailer features a robust suspension system that delivers a smooth ride, even when fully loaded. Its high-strength axle and superior suspension are designed to handle heavy loads while ensuring exceptional stability and performance.

Meeting strict Australian Design Regulations (ADR) and Safety Standards (AS), this trailer is a testament to quality and safety. Built for professionals, the B+S tradesman trailer is the ultimate solution for those who demand a versatile and dependable trailer to support their work.
