We're here to make your trailer purchase as smooth and affordable as possible.

TRAILER DESCRIPTION

The Advanced Builders Trailer is designed for tradespeople who require a heavy-duty, all-in-one solution for transporting tools, materials, and power on the go. With an 8+5 size and 3000KG GVM, this trailer offers exceptional durability and versatility for any job site. Built with an 8-leaf rocker roller suspension, all-terrain tyres, and a high-strength 50mm solid axle (rated 3.5T), it provides a smooth towing experience while carrying heavy loads with ease.

The Advanced Builders trailer is packed with smart features like a large 2400mm x 1500mm builders rack, with the option to extend to 3600mm, ensuring ample space for long materials. The integrated 120W solar panel, two 100AH sealed lead acid batteries, and 2000W pure sine wave inverter provide a reliable power source, while 3x 10A GPOs and built-in RCD protection ensure safe electrical access on-site.

Designed for practicality, the trailer includes interior 12V strip lighting, a fridge slide with power access, making it perfect for long workdays. Secure storage is provided by set shelving and three underbody drawers, keeping tools and equipment organized.

Built for the toughest conditions, this trailer features a fully welded, heavy-duty frame, checker plate flooring, and twin 10mm safety chains for added security. It comes in a sleek powder-coated black, white, or silver finish, ensuring both style and durability. Available for delivery Australia-wide, the Advanced Builders Trailer is the ultimate work companion for any tradesperson.
