TRAILER DESCRIPTION

The Apex Toy Hauler is built for adventure, designed to carry your toys, fuel your weekends, and take you wherever the road ends. Every element has been engineered for performance and freedom, combining rugged capability with refined practicality to create the ultimate companion for life outdoors.

Constructed on a heavy-duty chassis with fully independent off-road suspension, the Apex Toy Hauler is made to handle Australia's toughest terrain. The spacious rear deck provides the perfect platform for motorbikes, ATVs, and adventure gear, while the enclosed front section offers secure storage for everything you need on the journey ahead.

When it's time to unwind, the slide-out kitchen brings convenience to the wild, complete with a stainless-steel sink and a Dometic gas stove top for cooking under the stars. The Apex is also ready for roof-top tents and awnings, transforming it into a comfortable, self-contained base camp wherever you pull up.

Equipped with a full 12V and 240V electrical setup, built-in lighting, and integrated speakers, the Apex Toy Hauler brings comfort and atmosphere to any location. Whether you're charging gear, lighting up camp, or playing your favourite tracks after a long ride, it's all powered and ready to go.

Finished in a durable powder coat with sleek lines and purposeful design throughout, the Apex Toy Hauler isn't just a trailer. It's your ticket to adventure without limits.
