Convenient shipping to all locations

WARRANTY

Trailers sold by NT Trailers are covered by a structural warranty for a period of 12 months (3 months for commercial use).
This warranty period is valid from the date of original purchase and covers all products against defective materials or workmanship (jockey wheel, bearings, tires, wheels, brake pads & wearable parts are excluded).

FINANCE

Take advantage of our flexible financing options tailored to your needs–whether for personal use or business. Simply select your preferred method of contact–email, call, or send us a message on Instagram–and our team will guide you to secure the best rates available. We're here to make your trailer purchase as smooth and affordable as possible.

TRAILER DESCRIPTION

Bold, clean, and built with presence, the Enclosed/Motorbike Trailer turns heads before it even hits the road. Its sharp body lines and smooth steel panels give it a tough, modern edge, while every weld and finish speaks to precision and strength.

Inside, the enclosed design creates a secure and weather-proof space that is just as practical for tools and equipment as it is for bikes and gear. The full rear ramp door makes loading simple, while the solid floor and tie-down points keep everything in place during transit. Each trailer comes complete with a custom-fit shelving and storage layout, designed to maximise usable space and keep your setup organised, whether you are heading to a job site or a weekend ride.

Finished in your choice of colour, with LED lighting and premium hardware throughout, this trailer does not just carry what you own, it represents what you do.

SPECIFICATIONS

Model:	Enclosed/Motorbike Trailer - Dual Axle
Style:	Galvanised Steel and Aluminium Heavy Duty Build
Aggregate Trailer Mass (GVM):	3400KG
Tare Mass:	1350KG
Body Colour:	Black or Silver
Tow Ball Diameter:	Φ50mm
Safety Chain:	2 x 12mm – AKR 4177.4 – 1994 Compliant
Tyres:	235 75 15
Rims:	Alloy XD Series 15"
Suspension:	7-leaf Rocker Roller Suspension
Axle:	High-strength 50mm Solid Axle (Rated 3.5T)
Solar Panels:	1 x 100W, 18V, 10A Monocrystalline Cells for independent power
Solar Controller:	20A PWM 12V/24V Solar Controller for efficient energy management
Batteries:	2 x 100AH Sealed Lead Acid Batteries for long-lasting power
Battery Charger:	30A ACDC Smart 9-Stage Charger for optimal battery performance
Inverter:	2000W Pure Sine Wave with Added In-Rush Current Protection
Interior Lighting:	12V Strip lighting for bright and efficient illumination
240V Input:	1 x 15A Clipsal Inlet Socket – 435VFS15
240V Output:	2 x 10A GPO's for powering devices
Circuit Protection:	Built-in Current Leakage Protection (RCD's) for safety
Tank Capacity:	70L Fresh Water Tank
Water Pump:	12V EPDM Self-Priming

FEATURES

Enclosed/Motorbike Model:	Durable and spacious trailer with a 3400kg GVM
15" Alloy XD Rims & 235/75 Tyres:	Built for stability and smooth towing
Dual 100Ah Batteries:	Reliable power storage for extended trips
100W Solar Panel:	Off-grid power solution for tools and devices
2000W Pure Sine Wave Inverter:	Efficient power conversion for electronics
