TRAILER DESCRIPTION

Available in two sizes, the Hydraulic Tipper Trailer combines a hydraulic tipping system with a fully welded, hot-dipped galvanised body.

Both sizes include removable cage sides and heavy-duty load ramps. The battery-powered tipping system is supplied with a battery setup and solar panel.

Choose the tray size that suits your loads. Internal tray dimensions and prices for each size are shown alongside.

STRUCTURAL WARRANTY

12-month structural warranty covering major structural components and workmanship defects under normal use, in accordance with Australian Consumer Law.
