PRECAUTIONARY BOIL WATER ADVISORY

Date Issued: November 26, 2026
Time issued: 9:30 AM EST
Affected Area: Archies Road and Edwards Road

Please be advised that a Precautionary Boil Water Advisory is now in effect for all residents and businesses located on Archies Road and Edwards Road, effective November 26, 2026.

This advisory has been issued following community flow testing activities, during which a loss of water pressure was reported in the Archies Rd area. As a precautionary measure and in accordance with drinking water safety protocols, residents are advised to boil their tap water before consuming it until further notice.

Water Must Be Boiled Before Being Used For:

- Drinking
- Cooking and food preparation
- Making juice, drinks, or infant formula
- Brushing teeth or cleaning dentures and retainers
- Washing fruits and vegetables
- Making soup, tea, or coffee
- Making ice cubes

Bring water to a rolling boil for at least one (1) minute before using it for any of the purposes listed above.

Tap Water May Still Be Used For:

- Hand washing
- Washing dishes
- Laundry
- Bathing and showering (adults and older children)

Infants and toddlers should be sponge bathed, as they may accidentally swallow the water.

If you require more water during the Precautionary Boil Water Advisory ONLY please contact or Pick up at the Food Bank.
