

Central Institute of Family Medicine

Excellence in Family Medicine Education and Promotion

Building capacity and career of fresh medical graduates, medical officers at BHUs, RHCs, Dispensaries, family physicians, doctors working in corporate sector, GDMOs in Armed Forces and non-practicing lady doctors

Vision Statement

To be the leading institute in promoting excellence in family medicine through innovative education, training, and research, ultimately enhancing the quality of healthcare for masses across Pakistan.

Mission Statements

Our mission is to advance family medicine by:

1. Providing comprehensive education and training programs for family physicians.
2. Facilitating continuous professional development and lifelong learning through CME and CPD initiatives.
3. Supporting family physicians in practice management and the establishment of clinics.
4. Collaborating with other institutions to elevate the standards of family medicine.
1. Promoting research and scholarly activities to drive evidence-based practice and innovation in family medicine.
2. Ensuring high-quality training environments through rigorous inspection and affiliation of clinics and hospitals.

Central Institute of Family Medicine

The Central Institute of Family Medicine (CIFM) is a registered organization under the Securities and Exchange Commission of Pakistan (SECP), established to advance family medicine and support the education and professional growth of family physicians. Headquartered in Lahore, CIFM operates through its district chapters across Pakistan, ensuring accessibility to its programs nationwide.

The institute's scope includes organizing training sessions for family physicians, providing Continuing Medical Education (CME) and Continuous Professional Development (CPD), conducting Train-the-Trainer courses, and offering preparatory programs for postgraduate family medicine examinations. Additionally, CIFM plays a pivotal role in teaching undergraduate students, establishing family physicians' clinics, and facilitating practice management.

It also inspects clinics and hospitals for accreditation as family medicine training centers and trains and recruits faculty for family medicine programs across Pakistan. Moreover, the institute offers consultancy to government and non-government medical teaching institutions on matters related to family medicine and provides capacity-building courses for postgraduate trainees in research, synopsis and dissertation writing, and publications.

Academic Council

Academic Council

The Academic Council is the apex body for the approval of academic programs. It consists of at least six professors of Family Medicine. The chair is selected by the members of the committee for a period of three years.

Academic Council members are:

Prof. Rukhsana Zuberi

Prof. Marie Andrades

Prof. Saima Iqbal

Prof. Nasir Shah

Prof. Tayyaba Samad (AFPP)

Prof. Mazhar-ul-Islam (PAFP)

Prof. Basharat Ali (PSFP)

Prof. Shahid Shahab (FMEC)

Management

The organization is managed by the Chief Executive Officer and Directors. The CEO is mainly responsible for the overall operations of the organization and the policy making for the organization. The CEO acts as a secretary to the Academic Council and the Advisory Council. The Director Administration is responsible for day-to-day administrative matters, marketing, human resource, finances and record keeping.

Advisory Council

The advisory council consists of renowned health care professionals from Pakistan and abroad who advice to the college on educational and collaborative matters.

The Family Medicine members of Advisory Council are:

Prof. Waris Qidwai

Prof. Abdul Naeem

Prof. Tariq Mahmood Mian

Prof. Aftab Iqbal

Prof. Altaf Cheema

Prof. Arshad Humayun

Prof. Fazeel-uz-Zaman Alvi

Prof. Ijaz Anwar

Prof. Manzoor Janjua

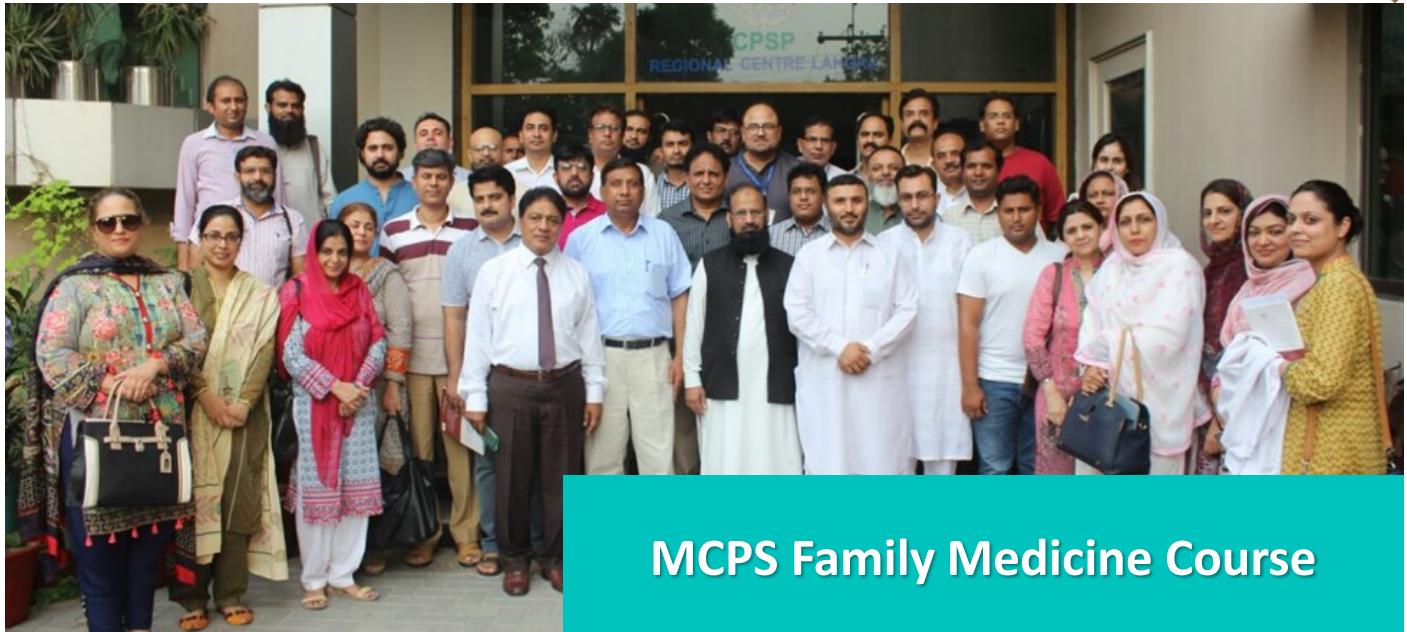

Prof. Nadeem Khawaja

Prof. Noor Akhtar

Prof. Shaharyar Bhatti

Prof. Tariq Aziz

Dr. Jamshaid Ahmed (WHO)

MCPS Family Medicine Course

MCPS Family Medicine is the most popular course of CIFM. It is a blended learning course with both online component and hands on course.

Duration : One year

Start Date : January of every year

Eligibility : MBBS, House Job, PMC certificate, 3 year experience as GP, MO, WMO, CMO, GDMO

Salient Features :

More than 100 updated lectures on syllabus of MCPS Family Medicine

Videos of Physical Examinations of all systems

Videos of Procedures related to Family Medicine

Videos of real patients with findings for clinical exposure

Videos of Consultations Skills

FAQs on diseases in the form of dialogue between patient and doctors

Latest updated MCQs on all Family Medicine topics

Quiz after every educational videos and reading material

Hands on Workshops for skills development

MRCGP [INT] is the oldest course of CIFM. It is a blended learning course with both online component and hands on course.

Duration : One year

Start Date : January of every year

Eligibility : MBBS, House Job, PMC certificate, 5 year experience as GP, MO, WMO, CMO, GDMO

Examination By : MRCGP South Asia accredited with Royal College of GPs, UK

Salient Features :

More than 100 updated lectures on syllabus of MRCGP [INT]

Videos of Physical Examinations of all systems

Videos of Procedures related to Family Medicine

Videos of real patients with findings for clinical exposure

Videos of Consultations Skills

FAQs on diseases in the form of dialogue between patient and doctors

Latest updated MCQs on all Family Medicine topics

Quiz after every educational video and reading material

Hands on Workshops for skills development

Family Medicine OSCE/TOACS Course

This course is specially designed for the candidates of practical exams of Family Medicine like TOACS of MCPS, OSCE of MRCGP [INT] or any other practical examination of Family Medicine. It consists of practical tips about the practical exams and provides a rich audio-visual resource along with scenarios. The course also provides excellent guidance about real life clinical practice. The cases are performed by experienced teachers of Family Medicine.

Highlights about OSCE/TOACS course:

Breaking Bad News

Dealing With Angry Patient

Counseling Skills

Focus Physician Examination Skills

Focus History Taking Skills

Interpretation of Lab Investigation

Interpretation of X-ray

Spot Diagnosis in Skin Diseases

Mock OSCE/TOACS Cases

Use of Clinical Equipment

Certificate in Clinical Teaching and Assessment

This course is specially designed for family physicians who have pasted MCPS or MRCP (INT) and want to become faculty of family medicine.

The purpose of the course is to impact the practical skills of teaching assessment of the faculty. It consists of workshops and assignments. It is one of the most practical medical education courses for ambulatory teaching.

MODULES :

Teaching and presentation skills

Assessment

Communication skills

Physical examination and use of equipment

Research and Publication Course

This course is specially designed to foster research mindset and inculcate basic research skills in post graduate trainees. It enables postgraduate trainees to prepare their own synopsis, thesis and dissertation under supervision of research facilitators and learn genuine research.

It is conducted practically hands-on.

The research teachers take the PG trainees all along the course of synopsis/thesis/dissertation starting from topic till final draft of submission taking full ownership of the trainee. This also share the load of their clinical supervisors and allows their clinical supervisors to focus on clinical education.

Online Diploma in Family Medicine

This course is designed for fresh MBBS graduates who want to start their independent practice. It provides post-graduate level training to fresh graduates so that they have the confidence and the competence required for independent clinical practice.

Duration : One year

Start Date : January of every year

Eligibility : MBBS, House Job, PMC certificate, no experience required

Salient Features

Clinical attachments

More than 100 updated lectures on syllabus of MCPS Family Medicine

Videos of Physical Examinations of all systems

Videos of Procedures related to Family Medicine

Videos of real patients with findings for clinical exposure

Videos of Consultations Skills

FAQs on diseases in the form of dialogue between patient and doctors

Latest updated MCQs on all Family Medicine topics

Quiz after every educational videos and reading material

Hands on Workshops for skills development

Family Medicine Residency Programs

These are full time structured residency programs based on the international curricula of Family Medicine residency programs of the United Kingdom, Australia and Canada. These residency programs consist of clinical rotations in different specialties, placement at community based family medicine clinics, hands-on workshops, online sessions, access to online educational repository, reflective learning activities, leadership activities, portfolio, workplace based assessments and annual examinations.

The structured residency programs are customized to the practice and learning needs of the trainees. There are three structured residency programs;

- 1) 4-year residency program leading to M.D. in Family Medicine
- 2) 2-year residency program leading to Masters in Family Medicine
- 3) 1-year residency program leading to Diploma in Family Medicine

At the completion of training, the participants will receive their portfolio and a training transcript in addition to the degree.

1-year Residency in Family Medicine

This is a one-year residency program for fresh medical graduates in accordance with the WHO EMRO resolution EM/RC63/R.2, October 2016 to achievement of targets of SGD 3 . All the basic clinical rotations and family medicine training will be completed in one year.

Any MBBS doctors after completing house job can apply for this residency program

The training will consist of highest level of training based on the modern principles of medical education. The passing out candidates will have a Diploma in Family Medicine, a complete transcript of training and a portfolio.

The final certificate will be provided by HEC recognized medical universities of Pakistan. In addition doctors with prior two year experience can also appear in MRCGP [INT] final examination based on this 1-year residency program.

2-year Residency in Family Medicine

The aim of this training is to prepare competent and safe family physicians who can provide high quality healthcare to individuals and families across all ages, genders and presenting with any disease, both at national and international level.

This is a full time structured residency program leading to Masters in Family Medicine. The training consists of clinical attachments, workplace based assessment, reflective learning, leadership activities, summative assessments and hands on workshops.

The scheme of training is shown in the following table

| Training component/area | Duration | Credit |
|----------------------------------|----------------------|----------|
| Family Medicine (3 months) | 3 months | 6 |
| Medicine and allied (11 months) | Internal Medicine | 3 months |
| | Cardiology | 1 month |
| | Pulmonology | 1 month |
| | Gastroenterology | 1 month |
| | Pediatrics | 3 months |
| | Dermatology | 1 month |
| | Psychiatry | 1 month |
| Surgery and allied (6 months) | Obs-Gyne/Gen Surgery | 3 months |
| | Emergency | 1 month |
| | ENT | 1 month |
| | Orthopedics | 1 month |
| Electives (clinical disciplines) | Trainee's discretion | 1 month |
| Family Medicine (3 months) | Last 3 months | 6 |

4-year Residency in Family Medicine

This is a four-year residency program. All the basic clinical rotations and family medicine training will be completed in first two years. The first two years mainly focus on core family medicine competencies.

The third and fourth years of training will have family medicine training throughout the year in addition to 6-month clinical rotations in specialties of interest of trainees. The third and fourth years mainly focuses on consolidation of family medicine training and excelling in the area of interest. The scheme of training is shown in the following table.

| Year 1 | Family Medicine (3 months) | Speciality rotations (9 months) | |
|--------|-----------------------------------|-----------------------------------|-----------------------------------|
| Year 2 | Speciality rotations (9 months) | | Family Medicine (3 months) |
| Year 3 | Family Medicine (12 months) | | |
| | Rotation of interest 1 (6 months) | Rotation of interest 2 (6 months) | |
| Year 4 | Family Medicine (12 months) | | Rotation of interest 4 (6 months) |
| | Rotation of interest 3 (6 months) | | |

Workplace Based Assessments

| Workplace - Based Assessments (WPBA) | Year 1 | Year 2 | Year 3 | Year 4 |
|---|--------|--------|--------|--------|
| Mini clinical exercise (Mini CEx) | 4 | 4 | 4 | 4 |
| Online Case-based discussions (Group CBD) | 12 | 12 | 12 | 12 |
| 1 on 1 Case Based Discussions (CBD) | 4 | 4 | 4 | 4 |
| Consultation Observation Tool (COT) | 2 | 2 | 6 | - |
| Care Assessment Tools (CAT) | - | - | - | 4 |
| Clinical Examination and Procedural skills (CEPS) | 4 | 4 | 2 | 2 |
| 360° Multisource feedback (MSF) | 1 | 1 | 1 | 1 |
| Prescribing assessment (20 prescriptions) | - | - | 1 | 1 |
| Clinical Supervisor Report (CSR) | 4-6 | 4-6 | 2-3 | 2-3 |
| Educational Supervisor's Report (ESR) | 2 | 2 | 2 | 2 |

4-year Residency in Family Medi-

Syllabus/Curriculum

1. Principles of Family Medicine
2. Special aspects in family practice
3. Emergencies in family practice
4. Undifferentiated conditions in family practice
5. Infectious Diseases
6. Common Medical Conditions, including:
 - a) Cardiovascular
 - b) Respiratory
 - c) Endocrine
 - d) Gastroenterological and Liver
 - e) Neurological
 - f) Hematological
 - g) Dermatological
7. Common Surgical Conditions, including:
 - a) General Surgical
 - b) Musculoskeletal
 - c) Ear Nose and Throat
 - d) Genitourinary
 - e) Eye
8. Mother and Child Health
 - a) Pediatric and adolescent health
 - b) Conditions in Obstetrics and Gynecology
9. Mental Health

4-year Residency in Family Medi-

| Reflective Learning Activities | Year 1 | Year 2 | Year 3 | Year 4 |
|---|--------|--------|--------|--------|
| Patient Satisfaction Questionnaire (PSQ) | - | - | 1 | 1 |
| Personal Development Plan (PDP) | 1 | 1 | 1 | 1 |
| Placement Planning Meeting (PPP) | 4-6 | 4-6 | 2 | 2 |
| Reflective Learning logs per year | 50 | 50 | 50 | 50 |
| Significant event analysis per year (SEA) | +/- 1 | +/- 1 | +/- 1 | +/- 1 |
| Learning event analysis per year (LEA) | 1 | 1 | 1 | 1 |

| Summative Assessment | |
|--|----------------|
| Mid Term Exam (100 MCQs Passing score 60 %) | 25 % weightage |
| Mid Term OSCE (12 stations Passing score 60 %) | |
| Portfolio | 25 % weightage |
| Final Exam (100 MCQs Passing score 60 %) | 50 % weightage |
| Final OSCE (12 stations Passing score 60 %) | |

Core Curriculum weekly meeting

Once a week all the trainees gather along with the assigned faculty members face to face. The core curriculum sessions will consist of case-based discussions, presentations on important topics, clinical practice guidelines, physical examination skills, use of clinical equipment, communication skills, critical appraisal of research articles and practice management related topics.

The day assigned for core curriculum will be a protected time for the trainees and they will be relieved from their postings to attend core curriculum meetings.

4-year Residency in Family Medi-

| Workshops | Duration |
|--|----------|
| Principles and practice of Family Medicine | 0.5 day |
| Communication/consultation Skills | 2 days |
| Difficult consultations | 1 day |
| Professionalism | 1 day |
| Leadership skills | 0.5 day |
| Teamwork | 0.5 day |
| Focused Clinical Assessment | 2 days |
| Use of clinical equipment and charts | 2 days |
| Interpretation of common X-rays | 1 day |
| Interpretation of common laboratory investigations | 2 days |
| Minor Surgical/office Procedures | 2 days |
| Injection techniques including IM, IV, intraarticular, intralesional | 1 day |
| Slings, POP slabs and casts, splints | 1 day |
| Basic Life Support / Cardiac First Responder | 1 day |
| Medical and Professional documentation | 1 day |
| Orientation to Clinical Audit | 1 day |
| Patient safety in health care | 0.5 day |
| Evidence based medicine | 0.5 day |
| Basics of clinical research | 2 days |
| Critical appraisal of a research article | 1 day |
| Practice Management | 0.5 day |
| Electronic Medical Records | 0.5 day |
| Use of IT and AI in medicine | 0.5 day |
| Presentation skills | 1 day |
| Reflective learning | 0.5 day |
