

Frequently Asked Questions

What is Soleran Oro?

Soleran's next-gen platform for facility operations and compliance.

What makes Soleran Oro different?

It combines true no-code configurability, full integration, automated workflows, and a scalable Soleran Oro Marketplace of apps.

Does Soleran Oro require coding?

No. Soleran Oro is built for user configurability without custom development.

Does Soleran Oro have integrations?

Yes. The entire Soleran ecosystem of apps is fully integrated, plus we can connect your existing systems to any Soleran solution using our Integration Manager.

Can Soleran Oro scale with us?

Yes. Start with what you need and expand over time through the Soleran Oro Marketplace.

Who is Soleran Oro built for?

Facility teams that need a more connected, flexible, and scalable platform.
