HOW DO I SIGN UP?

1. Contact us at info@llkobe.com!
2. New families will have a free consultation with a Lab teacher.
3. Families will be provided with recommendations for private lessons, including a schedule and learning plan for each child.

PRICING

(for 1 hour lesson*)

1-on-1 (1人): from ¥9,460 per child
Pair (2人): from ¥5,940 per child
Group (3人+): from ¥4,950 per child

** Lessons available for 60, 90 and 120 minutes*

My Toddler & Me

Ages 1 to 3

Music Class

Develop musicality and early English language skills through activities led by our resident music specialist, Ms. Ava. Each class features sing-with-me songs, rhythm exercises and a weekly read-aloud to help tune little ears to the sounds of English.

This is our first parent and child class offered at Learning Lab, and we are so excited to meet the babies of Suma and their parents!

Literacy 4 Ages 5-8 Littles

Dive into stories that inspire the imagination to nurture a lifelong love of reading!

Through weekly read alouds, learners build visualization techniques and use context clues to make inferences and predictions. While deepening comprehension skills, we also learn to embrace mistakes in our pre-writing and writing exercises

Attack the building blocks of reading comprehension while exploring the exciting world of books!

Writing Workshop

*Become confident writers
by mastering the drafting process
and self-management skills!*

Ages 7-9

The Writing Workshop uses an innovative approach to create passionate, independent writers. While guiding writers through the planning, drafting, and editing processes of writing, teachers help learners develop healthy ways to manage the frustrations inherent to writing.

Learning units alternate between non-fiction and fiction genres and target the full range of writing styles used in the classroom.

Writing Workshop nurtures learners in developing attitudes and processes that support a successful lifelong pursuit of learning.

Mondays, 5:00-7:00 pm

Pre-Calculus

Calculus

Math Hour is a weekly study session held for high school students in grades 9 to 11. Each student will follow an individualized curriculum focusing on their intended outcomes including, but not limited to: middle school review, IB Math AI and AA instruction, and SAT Math preparation. The maximum class size will be 4 students.

Songwriting is a skill that can be honed. This club ventures through genre to identify the hallmarks of great music.

Young musicians will expand their musical toolbox as they familiarize themselves with harmony, melody and form. Working through guided, creative exercises, students will develop their musicality and work towards their own individual compositional goals.

Get into the classics in our weekend book club!
Gain an appreciation for literature
through group reading
and discussion.

Reading is the foundation for academic success, but it can be difficult to find time for reading. In this weekly club, teens will read popular and classic literature.

They will get a taste of appreciating works of fiction and non-fiction outside of school to build a pathway towards lifelong learning.

The Anti-Perfectionism Sketchbook Club

Ages 5 to ∞

Mistakes make us stronger. There is no better way to learn resilience than through art and writing.

In this all-ages class--yes, adults are welcome too!--document your journey of self-exploration through self-expression by journaling in your very own sketchbook!

All art materials provided without additional cost!

Saturdays, 2:00-3:00 pm

Fall Writing & STEM Intensive

Five mornings of Writing Workshop followed by afternoons of mathematics, science and engineering!

October 26 to 30

9:00am ~ 3:30pm

Full Week: ¥58,300

One day: ¥15,400

More details at lkobe.com

Fall Intensive is a unique program designed for children in international learning environments.

Our curricula are designed specifically to target the concepts, skills, and attitudes children need to thrive in IB and other international schools.

Learning Without Boundaries

「国境を越えた学び」

Learning Lab Kobe, or “The Lab,” was founded in 2017 by Ms. Lee, a U.S. certified classroom teacher and literacy specialist, as a learning center for children from international families and communities.

In Summer 2026, we began the process of expanding to include a new Learning Lab Suma, which will allow us to serve younger groups of learners.

Our progressive teaching philosophy centers on building personalized programs and lasting support systems that encourage children to develop independence, empathy and responsibility from kindergarten to the end of high school.

What do we do when we have
Writer's Block?

Masha: taking a break
dreaming

Mr. Kirby: taking a break to go outside
exercise

Samira: stretching and reflecting

Ms. Kate: reading
taking a walk
thinking

What is writer's Block?

Writer's Block is when a writer
hits a tricky part in their writing
and they have trouble writing more

How does it feel?

[Colorful sticky notes are attached to the board]
