

KATHRYN WILLIAMS

Website Designer & Developer | UX/UI Designer

kathryncwilliams298@gmail.com • www.linkedin.com/in/kathryn-c-williams • www.kathrynwilliams-design.com • Atlanta, GA

Summary

Digital designer specializing in visually driven, user-centered websites for organizations of all size, with additional experience in app design, branding, and product design. I create and execute clear, intuitive digital experiences by combining strong visual design and thoughtful structure, taking projects from concept through launch in close collaboration with clients and stakeholders.

Experience

Kurbople

Remote

Web Design Lead

06/2024 - 01/2026

Marketing Agency

- Lead end-to-end website redesigns and builds for large companies, partnering with clients to audit and restructure complex, content-heavy websites from information architecture and site mapping through launch.
- Translate approved mockups into fully functional, responsive websites, owning all design and development beyond initial concept.
- Serve as the primary WordPress developer on projects, building dynamic, database-driven content systems that support scalability, maintainability, and evolving client needs.
- Collaborate with designers, marketers, and strategists to deliver high-quality work on tight timelines while maintaining brand consistency and alignment with business and client goals.
- Apply SEO, accessibility, and performance best practices to ensure high-quality experiences across devices and browsers.

Self-Employed

Remote

Freelance Web Designer/Developer

2024 - Present

- Design and build custom websites for small businesses and organizations, creating new sites from scratch or redesigning existing platforms to improve visual identity, usability, and performance.
- Work directly with clients to define goals, translate requirements into design solutions, and deliver polished, responsive websites from concept through launch.

Next Breath

Remote

Lead UX/UI Designer

07/2024 - Present

- Lead the end-to-end UX/UI design of a digital health application, translating clinical research into intuitive, accessible product experiences through user research, testing, and iterative prototyping.
- Oversee the creative direction across all brand and product touchpoints including the app, videography, and marketing materials.
- Collaborate closely with developers and stakeholders to ensure a cohesive, high-quality experience.

Friends of the American University of Afghanistan

Washington, DC

Marketing & Communications Manager

07/2021 - 11/2024

Nonprofit Organization

- Redesigned the FAUAF website with a focus on usability, mission promotion, maintainability, and a streamlined donor experience.
- Revitalized Mailchimp marketing campaigns, resulting in a new donation revenue stream and a 25% increase in engagement.
- Created marketing materials including impact reports, infographics, and event materials.

Education

UX/UI Bootcamp | George Washington University

05/2023 - 11/2023

- Completed a 24-week course during which I mastered various UX/UI and design skills and built user-centric experiences, apps, and websites.

Washington and Lee University

Lexington, VA

Bachelor of Arts in Politics | Minor in Poverty & Human Capability
