Exciting Things Are Happening

For over 40 years, The Jewelry Building has been Houston's go to source for custom pieces, engagement rings, necklaces and watches. Now our first floor is becoming a high end, high traffic retail corridor to rival New York and LA.

- New floor, wall and ceiling finishes with a grand chandelier, plus new entry doors, a grand new entryway and signage
- Our historic bank vault door, preserved to look just as it did when built 60 years ago, as the corridor's new centerpiece
- A stylish shared break room and new restrooms
- **NEW** Dozens of exclusive tenant parking spaces, in addition to unlimited mall parking for your customers for ease of access
- Concierge chauffeur with armed guard escort
- **NEW** Watch and jewelry repair kiosk driving more foot traffic and more idle time for browsing other stores
