

● Become a member
of the Mobility Alliance

From above, the connections are clear. The Mobility Alliance zooms out to see the full ecosystem and zooms in where collaboration can create impact.

Who we are

The **Mobility Alliance** is a neutral, independent platform guiding the mobility sector towards integrated and user-centric solutions.

With a holistic view of the ecosystem, the Alliance supports public and private stakeholders in turning ideas into deployable, repeatable and resilient outcomes.

We serve as a neutral enabler and facilitator — acting as the glue and compass for the mobility ecosystem.

Our focus is facilitating mobility within a broader **Open Mobility Ecosystem**, ensuring policy, standards, data, traffic management and services work together in practice.

Our unique value proposition

The **Mobility Alliance** provides a unified voice that connects and aligns stakeholders across the mobility sector. By championing knowledge sharing, best practices and collaboration, the Alliance:

Accelerates the adoption of integrated and interoperable solutions

Supports stakeholders in overcoming regulatory, commercial and technical barriers

Minimises duplicity of efforts across initiatives

Delivers real value to end users and society

Our fact-based, collective approach ensures members benefit from shared expertise and achieve outcomes that are deployable and scalable.

Why join the Mobility Alliance?

Find

- **Business partners** across the full international mobility value chain
- **Direct connections** with public authorities, operators and solution providers

Collaborate

- **Contribute** to the development of standards, governance models and business frameworks
- **Engage** in peer-to-peer knowledge exchange
- **Align** mobility and traffic management domains

Influence

- **Representation** through a unified, neutral voice in European and global policy forums
- **Engagement** in regulatory consultations and expert groups
- **Contribution** to shaping open standards and normalisation

Access

- **Early access** to research, deep-dives and lessons learned
- **Deployment toolkits and playbooks** applicable to tenders and projects
- **Insights** into EU programmes, cross-border use cases and innovation calls
- **Structured knowledge hub and collaborative platform**

Deliver

- **Practical frameworks** for integrated mobility governance
- **Procurement guidance** for digital mobility solutions
- **Tools** supporting interoperability and MaaS deployment

Stand out

- **Visibility** through events, newsletters, webinars & socials
- **Speaking opportunities** at international conferences
- **Positioning** as a contributor to integrated, interoperable mobility

Our member community

The **Mobility Alliance** brings together public and private market players, including:

Authorities and regulators

Public transport operators

Mobility service providers

Technology and platform providers

Data providers and data users

Research institutions and innovation partners

Together, we facilitate an **Open Mobility Ecosystem** that supports:

B2G

Public Mobility

B2B

Corporate Mobility

B2C

Destination Mobility

Across local, regional, national and cross-border contexts.

Join a neutral platform guiding the mobility ecosystem towards integration, interoperability and user-centric delivery.
