Recall #: CANR80 | R80 - Remedy Notice - Certain 2015 - 2017MY Yaris - Front Door Wire Harness Recall Date: 2019 Apr 23

Recall Description

The subject vehicles are equipped with side airbag sensors installed in each of the front doors and wire harnesses that connect these sensors to the airbag control unit. These wire harnesses could corrode over time which could cause the airbag warning light to come on. In addition,

the front seat side airbags and curtain shield airbags could be deactivated or not deploy properly. Non-deployment or improper deployment of these airbags can increase the risk of injury in the event of a crash.

Remedy

Based on production records, any authorized Toyota dealer will replace the wire harness assembly in one or both doors, as necessary, with an improved one FREE OF CHARGE.
