ECO ARMOR

Folio Case for iPad with
keyboard & MFI Smart Connector

This iPad case is meticulously designed to meet the needs of educators and students, offering unmatched protection and versatility. Built with durability and functionality in mind, it ensures your iPad is equipped for any classroom challenge. The sealed keys protect against spills and crumbs, while the Smart Connector Technology provides instant power and pairing without the hassle of cables or Bluetooth. With five versatile use modes you can easily adapt to any task or learning activity.

The case includes integrated storage for your Logitech Crayon Apple (1st gen) & EcoArmor Pencil, ensuring your tools are always within reach. An asset-tagging window allows for easy identification with student asset tags or namecards. Exceeding MIL SPEC 810H standard drop tests, this case offers military-grade protection against shocks and drops. Its custom-fit design guarantees full access to the camera, ports, and connections, making it both protective and practical.

Designed with educators and students in mind, this shock-resistant case streamlines classroom management by combining protection with functionality. Enhance your educational experience with a case that delivers on all fronts.
