

Investors Exchange Product Information Circular 2023 - 0297

Date: October 30, 2023

Re: NEOS ETF Trust

This Information Circular is being issued to advise you that the following securities have been approved for trading pursuant to unlisted trading privileges ("UTP") on the Investors Exchange ("IEX" or the "Exchange") as UTP Derivative Securities pursuant to IEX Rule 16.160. Compliance and supervisory personnel should note that, among other things, this Information Circular discusses the need to deliver a prospectus to customers purchasing shares of the exchange-traded funds. Please forward this Information Circular to interested persons within your organization.

Exchange-Traded Fund / Symbol

Kurv Yield Premium Strategy Microsoft (MSFT) ETF	MSFY
Kurv Yield Premium Strategy Amazon (AMZN) ETF	AMZP
Kurv Yield Premium Strategy Google (GOOGL) ETF	GOOP

Issuer/Trust: Kurv Investment Management/ NEOS ETF Trust

Issuer Website: www.kurvinvest.com

Primary Listing Exchange: Cboe BZX Exchange, Inc.

The purpose of this information circular is to outline various rules and policies that will be applicable to trading in these new products pursuant to the Exchange's unlisted trading privileges, as well as to provide certain characteristics and features of the products. For a more complete description of the Issuer, the securities and the underlying market instruments or indexes, visit the Issuer Website, consult the Prospectus available on the Issuer Website or examine the Issuer Registration Statement or review the most current information bulletin issued by the Primary Listing Exchange.

Background Information on the Funds

NEOS ETF Trust (the "Trust") is a management investment company registered under the Investment Company Act of 1940, as amended (the "1940 Act"), consisting of several investment portfolios. This circular relates only to the Funds listed above (each, a "Fund" and together, the "Funds"). The shares of the Fund are referred to herein as "Shares".

Kurv Yield Premium Strategy Microsoft (MSFT) ETF - The Fund is an actively managed exchange traded fund that seeks current income while maintaining the opportunity for exposure to the share price (i.e., the price returns) of the common stock of Microsoft Corporation ("MSFT"); however the strategy limits potential investment gains related to share price appreciation. The Fund seeks to employ its investment strategy as it relates to MSFT in all market, economic, or other conditions. The Fund uses a synthetic covered call strategy to provide (1) income derived from options premiums and (2) exposure to the share price returns of MSFT, subject to a limit on potential share price returns on MSFT as a result of the nature of the options strategy it employs. To replicate the returns of the underlying stock, the SubAdviser will purchase at the money call

options and sell put options with the same expiration date and the same strike price that may range from 1-12 months from expiry. The Fund from time to time may also invest directly in shares of MSFT. In implementing the strategy, the SubAdviser actively manages the direct and synthetic long position of the Fund, deciding among other things the pricing and expiry of the call and put options used. The combined exposure to MSFT shares created by synthetic long positions achieved through options and any direct investment in shares will not exceed 100% of the net assets of the fund. In addition, the SubAdviser makes active decisions for the Fund regarding how to gain long exposure via long stock positions or synthetic long positions or a combination of both. Options contracts must be exercised or traded to close within a specified time frame before the options contract expires. The Fund may hold cash and cash equivalents and/or the underlying stock from time to time when there are disruptions in the options markets making it difficult or impractical to employ a covered call strategy to synthetically track the underlying stock. In such situations, the Fund may better track the performance of the underlying stock by holding it directly until disruptions in the options markets cease. In addition to achieving a long position in MSFT stock, either synthetically or through purchasing shares, the fund will hold positions in MSFT options contracts as described below.

Kurv Yield Premium Strategy Amazon (AMZN) ETF - The Fund is an actively managed exchange traded fund that seeks current income while maintaining the opportunity for exposure to the share price (i.e., the price returns) of the common stock of Amazon.com, Inc. ("AMZN"); however the strategy limits potential investment gains related to share price appreciation. The Fund seeks to employ its investment strategy as it relates to AMZN in all market, economic, or other conditions. The Fund uses a synthetic covered call strategy to provide (1) income derived from options premiums and (2) exposure to the share price returns of AMZN, subject to a limit on potential share price returns on AMZN as a result of the nature of the options strategy it employs. To replicate the returns of the underlying stock, the SubAdviser will purchase at the money call options and sell put options with the same expiration date and the same strike price that may range from 1-12 months from expiry. The Fund from time to time may also invest directly in shares of AMZN. In implementing the strategy, the SubAdviser actively manages the direct and synthetic long position of the Fund, deciding among other things the pricing and expiry of the call and put options used. The combined exposure to AMZN shares created by synthetic long positions achieved through options and any direct investment in shares will not exceed 100% of the net assets of the fund. In addition, the SubAdviser makes active decisions for the Fund regarding how to gain long exposure via long stock positions or synthetic long positions or a combination of both. Options contracts must be exercised or traded to close within a specified time frame before the options contract expires. The Fund may hold cash and cash equivalents and/or the underlying stock from time to time when there are disruptions in the options markets making it difficult or impractical to employ a covered call strategy to synthetically track the underlying stock. In such situations, the Fund may better track the performance of the underlying stock by holding it directly until disruptions in the options markets cease. In addition to achieving a long position in AMZN stock, either synthetically or through purchasing shares, the fund will hold positions in AMZN options contracts as described below.

Kurv Yield Premium Strategy Google (GOOGL) ETF - The Fund is an actively managed exchange traded fund that seeks current income while maintaining the opportunity for exposure to the share price (i.e., the price returns) of the common stock of Alphabet Inc. ("GOOGL"); however the strategy limits potential investment gains related to share price appreciation. The Fund seeks to employ its investment strategy as it relates to GOOGL in all market, economic, or other conditions. The Fund uses a synthetic covered call strategy to provide (1) income derived from

options premiums and (2) exposure to the share price returns of GOOGL, subject to a limit on potential share price returns on GOOGL as a result of the nature of the options strategy it employs. To replicate the returns of the underlying stock, the Sub-Adviser will purchase at the money call options and sell put options with the same expiration date and the same strike price that may range from 1-12 months from expiry. The Fund from time to time may also invest directly in shares of GOOGL. In implementing the strategy, the Sub-Adviser actively manages the direct and synthetic long position of the Fund, deciding among other things the pricing and expiry of the call and put options used. The combined exposure to GOOGL shares created by synthetic long positions achieved through options and any direct investment in shares will not exceed 100% of the net assets of the fund. In addition, the Sub-Adviser makes active decisions for the Fund regarding how to gain long exposure via long stock positions or synthetic long positions or a combination of both. Options contracts must be exercised or traded to close within a specified time frame before the options contract expires. The Fund may hold cash and cash equivalents and/or the underlying stock from time to time when there are disruptions in the options markets making it difficult or impractical to employ a covered call strategy to synthetically track the underlying stock. In such situations, the Fund may better track the performance of the underlying stock by holding it directly until disruptions in the options markets cease. In addition to achieving a long position in GOOGL stock, either synthetically or through purchasing shares, the fund will hold positions in GOOGL options contracts as described below.

For more information regarding the Funds' investment strategies, please read the prospectus for the Fund.

As described more fully in the Prospectus and Statement of Additional Information, each Fund will issue and redeem Shares on a continuous basis at their net asset value ("NAV") only in large blocks of 10,000 Shares (each, a "Creation Unit"). Creation Units will be issued and redeemed principally in-kind for securities included in the underlying index. Except when aggregated in Creation Units, the Shares may not be redeemed with the Funds.

Shares are held in book-entry form, which means that no Share certificates are issued. The Depository Trust Company or its nominee is the record owner of all outstanding Shares of the Funds and is recognized as the owner of all Shares for all purposes.

The NAV per Share for each Fund is computed by dividing the value of the net assets of the Fund (i.e., the value of its total assets less total liabilities) by the total number of Shares outstanding. Expenses and fees are accrued daily and taken into account for purposes of determining NAV. The NAV of each Fund is determined each business day after the close of trading (ordinarily 4:00 p.m., Eastern Time or "ET") of the New York Stock Exchange. Any assets or liabilities denominated in currencies other than the U.S. dollar are converted into U.S. dollars at the current market rates on the date of valuation as quoted by one or more sources.

The registration statement for the Funds describes the various fees and expenses for the Funds' Shares.

For a more complete description of the Funds visit the Issuer Website.

Purchases and Redemptions in Creation Unit Size

IEX Members are hereby informed that procedures for purchases and redemptions of Shares in Creation Units are described in the Trust's Prospectus and SAI and that Shares are not

individually redeemable but are redeemable only in Creation Unit aggregations or multiples thereof.

Principal Risks

As with any investment, you could lose all or part of your investment in the Funds, and the Funds' performance could trail that of other investments. These Funds are subject to the principal risks noted below, any of which may adversely affect the Funds' net asset value per share ("NAV"), trading price, yield, total return and ability to meet its investment objective. Interested persons are referred to the discussion in the prospectus for the Funds of the principal risks of an investment in the Funds. These include but are not limited to Tesla risk, active management risk, Authorized Participants, Market Makers and Liquidity Providers concentration risk, Call writing strategy risk, counterparty risk, Covered Call Option writing risk, credit risk, cybersecurity risk, derivatives risk, distribution risk, equity risk, Exchange-Traded Fund structure risk, Fixed Income securities risk, interest rate risk, liquidity risk, market and geopolitical risk, Money Market instrument risk, NAV erosion risk due to distributions, new adviser risk, new fund risk, non-diversified risk, operational risk, options risk, pandemics risk, portfolio turnover risk, price participation risk, sector risk, a single issuer risk, tax risk, U.S. Treasury risk and valuation risk.

Exchange Rules Applicable to Trading in the Shares

Trading in the Shares on IEX is subject to IEX trading rules.

Trading Hours

The value of the Index underlying the Shares will be disseminated to data vendors every 15 seconds during the Regular Trading Session. The Shares will trade on IEX between 8:00 a.m. and 5:00 p.m. Please note that trading in the Shares during the Exchange's Pre-Market and Post-Market Sessions ("Extended Market Sessions") may result in additional trading risks which include: (1) that the current underlying indicative value may not be updated during the Extended Market Sessions, (2) lower liquidity in the Extended Market Sessions may impact pricing, (3) higher volatility in the Extended Market Sessions may impact pricing, (4) wider spreads may occur in the Extended Markets Sessions, and (5) because the indicative value is not calculated or widely disseminated during the Extended Market Sessions, an investor who is unable to calculate an implied value for the Shares in those sessions may be at a disadvantage to market professionals.

Delivery of a Prospectus

Exchange Members should be mindful of applicable prospectus delivery requirements under the federal securities laws with respect to transactions in the Fund. Prospectuses may be obtained through the Fund's website. The Prospectus for the Fund does not contain all of the information set forth in the Funds Registration Statement (including the exhibits to the Registration Statement), parts of which have been omitted in accordance with the rules and regulations of the SEC. For further information about the Fund, please refer to its Registration Statement.

In the event that the Fund relies upon an order by the SEC exempting the Shares from certain prospectus delivery requirements under Section 24(d) of the 1940 Act and in the future make available a written product description, Exchange Rules require that Exchange Members provide to all purchasers of Shares a written description of the terms and characteristics of such securities, in a form prepared by the Issuer of the Fund, no later than the time a confirmation of

the first transaction in the Shares is delivered to such purchaser. In addition, Exchange Members shall include such a written description with any sales material relating to the Shares that is provided to customers or the public. Any other written materials provided by an IEX member to customers or the public making specific reference to the Shares as an investment vehicle must include a statement in substantially the following form: "A circular describing the terms and characteristics of [the UTP Derivative Securities] has been prepared by the [open-ended management investment company name] and is available from your broker. It is recommended that you obtain and review such circular before purchasing [the UTP Derivative Securities]."

An Exchange member carrying an omnibus account for a non-member broker-dealer is required to inform such non-member that execution of an order to purchase Shares for such omnibus account will be deemed to constitute agreement by the non-member to make such written description available to its customers on the same terms as are directly applicable to such Exchange member under this rule. Upon request of a customer, Exchange Members also shall provide a copy of the Prospectus.

Suitability

Trading in the securities on the Exchange will be subject to the provisions of IEX Rule 3.170 and other applicable suitability rules. Members recommending transactions in the securities to customers should make a determination that the recommendation is suitable for the customer.

Trading Halts

The Exchange will halt trading in the Shares of a security in accordance with the Exchange's Rules. The grounds for a halt include a halt because the intraday indicative value of the security and/or the value of its underlying index are not being disseminated as required, a halt for other regulatory reasons or due to other conditions or circumstances deemed to be detrimental to the maintenance of a free and orderly market.

Exemptive, Interpretive and No-Action Relief Under Federal Securities Regulations

The Securities and Exchange Commission (the "SEC") has issued letters granting exemptive, interpretive and no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 for exchange- traded securities listed and traded on a registered national securities exchange that meet certain criteria.

AS WHAT FOLLOWS IS ONLY A SUMMARY OF THE RELIEF OUTLINED IN THE NO-ACTION LETTERS REFERENCED ABOVE, THE EXCHANGE ADVISES INTERESTED PARTIES TO CONSULT THE NO-ACTION LETTERS FOR MORE COMPLETE INFORMATION REGARDING THE MATTERS COVERED THEREIN AND THE APPLICABILITY OF THE RELIEF GRANTED IN RESPECT OF TRADING IN SECURITIES. INTERESTED PARTIES SHOULD ALSO CONSULT THEIR PROFESSIONAL ADVISORS.

Regulation M Exemptions

Generally, Rules 101 and 102 of Regulation M prohibit any "distribution participant" and its "affiliated purchasers" from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to

underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of Shares of the above-mentioned Fund to engage in secondary market transactions in such Shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Fund (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Fund for redemption does not constitute a bid for or purchase of any of the Funds' securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

Rule 14e-5

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

1. such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchase; or
2. purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
3. such bids or purchases are not effected for the purpose of facilitating such tender offer.

SEC Rule 15c1-5 and 15c1-6

The SEC has taken a no-action position with respect to Rule 15c1-5 and Rule 15c1-6 as to the required disclosure of control by a broker or dealer with respect to creations and redemptions of Fund Shares and secondary market transactions therein. (See letter from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.)

This Information Circular is not a statutory prospectus. Members should consult the Prospectus for a security and the security's website for relevant information.

Please contact IEX Regulation at 646-343-2000 with any inquiries regarding this Information Circular.
