Background Information on the Notes

The Professionally Managed Portfolios (the “Trust”) is a management investment company registered under the Investment Company Act of 1940, as amended (the “1940 Act”), consisting of several investment portfolios. This circular relates only to the Otter Creek Focus Strategy ETF (the “Fund”). The shares of the Fund are referred to herein as “Shares.”

The Fund seeks long-term capital appreciation. The Fund invests in U.S.-listed equity securities of small- and mid-capitalization companies.

Please read the Fund’s prospectus for more information regarding its investment objectives.

As described more fully in the Trust’s prospectus and Statement of Additional Information, the Fund will issue and redeem Shares on a continuous basis at their net asset value (“NAV”) only in large blocks of Shares called a “Creation Unit”, or multiples thereof (typically 20,000 to 100,000 Shares). Creation Units will be issued and redeemed principally in-kind for securities included in the underlying index. Except when aggregated in Creation Units, the Shares may not be redeemed with the Fund.

Shares are held in book-entry form, which means that no Share certificates are issued. The Depository Trust Company or its nominee is the record owner of all outstanding Shares of the Funds and is recognized as the owner of all Shares for all purposes.

The NAV per Share for the Fund is computed by dividing the value of the net assets of the Fund (i.e., the value of its total assets less total liabilities) by the total number of Shares outstanding. Expenses and fees are accrued daily and taken into account for purposes of determining NAV. The NAV of each Fund is determined each business day after the close of trading (ordinarily 4:00 p.m., Eastern Time or “ET”) of the New York Stock Exchange. Any assets or liabilities denominated in currencies other than the U.S. dollar are converted into U.S. dollars at the current market rates on the date of valuation as quoted by one or more sources. A major market data vendor will disseminate the Intraday Indicative Value (IIV) for the Shares of the fund through regular trading hours.

The registration statement for the Fund describes the various fees and expenses for the Fund's Shares. For a more complete description of the Fund and the underlying Index, visit the Fund's website.

Investment Risks

Interested persons are referred to the discussion in the prospectus for the Fund of the principal risks of an investment in the Fund. These may include, but are not limited to, asset class risk, authorized participant concentration risk, concentration risk, currency risk, cyber security risk, equity securities risk, fluctuation of net asset value risk (NAV), index risk, industry/sector risk, issuer risk, management risk, market maker risk, market risk, market trading risk, non-correlation risk, non-diversification risk, passive investment risk, replication management risk, securities lending risk, tracking error risk, trading issues risk, and valuation risk.

In addition, the market prices of the Shares will fluctuate in accordance with changes in NAV as well as the supply and demand for the Shares. As a result, the Shares may trade at market prices that may differ from their NAV. The NAV of the Shares of the Fund will fluctuate with changes in the market value of the Fund's holdings.

Trading Hours

The ETNs will trade on IEX between 8:00 a.m. and 5:00 p.m. Please note that trading in the ETNs during the Exchange's Pre-Market and Post-Market Sessions ("Extended Market Sessions") may result in additional trading risks which include: (1) that the current underlying indicative value may not be updated during the Extended Market Sessions, (2) lower liquidity in the Extended Market Sessions may impact pricing, (3) higher volatility in the Extended Market Sessions may impact pricing, (4) wider spreads may occur in the Extended Markets Sessions, and (5) because the indicative value is not calculated or widely disseminated during the Extended Market Sessions, an investor who is unable to calculate an implied value for the Notes in those sessions may be at a disadvantage to market professionals.
