

Investors Exchange Product Information Circular 2025 - 0311

Date: June 25, 2025

Re: Horizon Funds

This Information Circular is being issued to advise you that the following securities have been approved for trading pursuant to unlisted trading privileges (“UTP”) on the Investors Exchange (“IEX” or the “Exchange”) as UTP Derivative Securities pursuant to IEX Rule 16.160. Compliance and supervisory personnel should note that, among other things, this Information Circular discusses the need to deliver a prospectus to customers purchasing shares of the exchange-traded funds. Please forward this Information Circular to interested persons within your organization.

Exchange-Traded Fund / Symbol

Horizon Dividend Income ETF	DIVN
Horizon Core Equity ETF	STOX
Horizon Managed Risk ETF	STFY

Issuer/Trust: Horizon Funds

Issuer/Trust Website: www.horizonmutualfunds.com

Primary Listing Exchange: Cboe BZX Exchange, Inc

The purpose of this information circular is to outline various rules and policies that will be applicable to trading in these new products pursuant to the Exchange’s unlisted trading privileges, as well as to provide certain characteristics and features of the products. For a more complete description of the Issuer, the securities and the underlying market instruments or indexes, visit the Issuer Website, consult the Prospectus available on the Issuer Website or examine the Issuer Registration Statement or review the most current information bulletin issued by the Primary Listing Exchange.

Background Information on the Funds

Horizon Funds (the “Trust”) is a management investment company registered under the Investment Company Act of 1940, as amended (the “1940 Act”), consisting of several investment portfolios. This circular relates only to the Funds listed above (each, a “Fund” and together, the “Funds”). The shares of the Fund are referred to herein as “Shares”.

Horizon Dividend Income ETF - The investment objective of the Horizon Dividend Income ETF (the “Dividend Income Fund” or the “Fund”) is capital appreciation and current income.

The Fund, advised by Horizon Investments, LLC (“Horizon”), is an actively managed exchange-traded fund that seeks to achieve its objective primarily by: (i) investing in dividend-paying equity securities of U.S. large-capitalization companies (“Dividend Strategy”); and (ii) tactically utilizing options to generate income to the Fund (“Options Strategy”).

Dividend Strategy: As a part of the Dividend Strategy, the Dividend Income Fund invests in equity securities of U.S. large capitalization companies (companies having a market capitalization in excess of \$10 billion at the time of purchase) that either (i) have paid a dividend in the prior 12-calendar months or (ii) are reasonably likely, in Horizon’s view, to pay a dividend within the 12-

calendar months following the Fund's acquisition of the security ("Dividend Paying Securities"). Under normal circumstances, the Dividend Income Fund will invest not less than 80% of the value of its net assets (plus the amount of borrowings for investment purposes) in Dividend Paying Securities.

Horizon selects and weights securities using a flexible approach that combines active management with quantitative models. The Dividend Income Fund's portfolio is allocated primarily among Dividend-Paying Securities that Horizon believes offer attractive potential returns for a given amount of risk. In selecting securities, Horizon seeks diversification across Dividend-Paying Securities that exhibit one or more of the following fundamental characteristics:

- High profitability and stable earnings
- Low price variability
- Low fundamental valuation measures
- Positive price trends

In constructing the portfolio, Horizon may consider industry and position constraints to ensure sufficient diversification, as determined by Horizon. The Dividend Income Fund may engage in frequent trading to achieve its objective and, depending on Horizon's outlook and market conditions, may focus its investments in particular sectors or areas of the economy.

Horizon Core Equity ETF - The Horizon Core Equity ETF (the "Core Equity Fund" or the "Fund") seeks capital appreciation

The Core Equity Fund is an actively managed exchange-traded fund ("ETF") that seeks to achieve its investment objective by investing primarily in equity securities, including common stocks of U.S. companies, Real Estate Investment Trusts ("REITs"), and American Depository Receipts ("ADRs") representing non-U.S. companies.

The Fund's investment adviser, Horizon Investments, LLC ("Horizon"), employs a flexible approach that combines active management and quantitative models to allocate the Fund's portfolio among issuers, sectors, and/or factors (such as growth, value, momentum, quality, size, and volatility). Horizon selects securities believed to offer the highest projected return for a given level of risk, using a multi-disciplinary approach that includes economic, quantitative, and fundamental analysis. Horizon selects portfolio investments without restriction as to the issuer's market capitalization.

Under normal circumstances, the Core Equity Fund will invest not less than 80% of the value of its net assets (plus the amount of borrowings for investment purposes) in equity securities. The Fund may engage in frequent trading to achieve its objective and, depending on Horizon's outlook and market conditions, may focus its investments in particular sectors or areas of the economy.

Horizon Managed Risk ETF - The Horizon Managed Risk ETF (the "Managed Risk Fund" or the "Fund") seeks to capture the majority of U.S. large-cap equity market returns while mitigating downside risk through a "Risk Assist[®]" strategy.

The Fund is an actively managed exchange-traded fund ("ETF") that seeks to achieve its investment objective by utilizing two primary strategies: (1) the Equity Strategy, and (2) the Risk Assist[®] Strategy.

Equity Strategy: The Managed Risk Fund's Equity Strategy invests primarily in equity securities, including common stocks of U.S. companies and Real Estate Investment Trusts ("REITs"), and American Depositary Receipts ("ADRs").

The Managed Risk Fund's investment adviser, Horizon Investments, LLC ("Horizon"), employs a flexible approach that combines active management and quantitative models to allocate the Fund's portfolio among issuers, sectors, and/or factors (such as growth, value, momentum, quality, size, and volatility). Horizon selects securities believed to offer the highest projected return for a given level of risk, using a multi-disciplinary approach that includes economic, quantitative, and fundamental analysis. Horizon selects portfolio investments without restriction as to the issuer's market capitalization. The Fund may engage in frequent trading to achieve its objective and, depending on Horizon's outlook and market conditions, may focus its investments in particular sectors or areas of the economy.

Risk Assist® Strategy: The Managed Risk Fund's Risk Assist® Strategy seeks to reduce downside risk by adjusting the Fund's exposure to equity markets during periods of increased market volatility or heightened risk, as determined by Horizon. Horizon will opportunistically allocate Fund assets between the Equity Strategy and the Risk Assist® Strategy in an effort to reduce downside risk. Although Horizon may elect to allocate 100% of the Fund's assets to the Risk Assist® strategy, it is not required to. Instead, Horizon generally employs the Risk Assist® strategy in stages, and Horizon may elect to allocate between 0% and 100% of the Fund's assets to the Risk Assist® strategy, depending on Horizon's determination of current market risk.

Under the Risk Assist® strategy, Horizon continually monitors market conditions with a specific focus on indicators of abnormal or severe risk, such as rising market volatility and declining global equity values. Based on its proprietary process, Horizon may then initiate a portfolio risk reduction when certain thresholds are met.

Horizon typically implements this risk reduction by reallocating some portion (up to 100%) of the Fund's portfolio to U.S. Treasury Securities or other Cash Equivalents (each as defined below). U.S. Treasury Securities may include, without limitation, Treasury bonds, Treasury notes, and Treasury Inflation-Protected Securities (TIPS); exchange-traded options on such securities; and repurchase agreements fully collateralized by them. Cash Equivalents may include money market instruments such as obligations of U.S. and foreign banks, corporate obligations, U.S. government and municipal securities, asset-backed securities, and repurchase agreements, each paying a fixed, variable, or floating interest rate. The Fund may also invest in money market funds or ETFs that primarily hold Cash Equivalents. There is no limitation on the maturity or duration of the U.S. Treasury Securities in which the Fund may invest.

For more information regarding the Funds' investment strategies, please read the prospectus for the Fund.

As described more fully in the Prospectus and Statement of Additional Information, each Fund will issue and redeem Shares on a continuous basis at their net asset value ("NAV") only in large blocks of 10,000 Shares (DIVN, SFTY) and 20,000 Shares (STOX) (each, a "Creation Unit"). Creation Units will be issued and redeemed principally in-kind for securities included in the underlying index. Except when aggregated in Creation Units, the Shares may not be redeemed with the Funds.

Shares are held in book-entry form, which means that no Share certificates are issued. The Depository Trust Company or its nominee is the record owner of all outstanding Shares of the Funds and is recognized as the owner of all Shares for all purposes.

The NAV per Share for each Fund is computed by dividing the value of the net assets of the Fund (i.e., the value of its total assets less total liabilities) by the total number of Shares outstanding. Expenses and fees are accrued daily and taken into account for purposes of determining NAV. The NAV of each Fund is determined each business day after the close of trading (ordinarily 4:00 p.m., Eastern Time or “ET”) of the New York Stock Exchange. Any assets or liabilities denominated in currencies other than the U.S. dollar are converted into U.S. dollars at the current market rates on the date of valuation as quoted by one or more sources.

The registration statement for the Funds describes the various fees and expenses for the Funds’ Shares.

For a more complete description of the Funds visit the Issuer Website.

Purchases and Redemptions in Creation Unit Size

IEX Members are hereby informed that procedures for purchases and redemptions of Shares in Creation Units are described in the Trust’s Prospectus and SAI and that Shares are not individually redeemable but are redeemable only in Creation Unit aggregations or multiples thereof.

Principal Risks

As with any investment, you could lose all or part of your investment in the Funds, and the Funds’ performance could trail that of other investments. These Funds are subject to the principal risks noted below, any of which may adversely affect the Funds’ net asset value per share (“NAV”), trading price, yield, total return and ability to meet its investment objective. Interested persons are referred to the discussion in the prospectus for the Funds of the principal risks of an investment in the Funds. These include but are not limited to equity investing risk, asset class risk, concentration risk, industry/sector risk, issuer risk, liquidity risk, market risk, asset class risk, interest rate risk, tax risk and valuation risk.

Exchange Rules Applicable to Trading in the Shares

Trading in the Shares on IEX is subject to IEX trading rules.

Trading Hours

The value of the Index underlying the Shares will be disseminated to data vendors every 15 seconds during the Regular Trading Session. The Shares will trade on IEX between 8:00 a.m. and 5:00 p.m. Please note that trading in the Shares during the Exchange’s Pre-Market and Post-Market Sessions (“Extended Market Sessions”) may result in additional trading risks which include: (1) that the current underlying indicative value may not be updated during the Extended Market Sessions, (2) lower liquidity in the Extended Market Sessions may impact pricing, (3) higher volatility in the Extended Market Sessions may impact pricing, (4) wider spreads may occur in the Extended Markets Sessions, and (5) because the indicative value is not calculated or widely disseminated during the Extended Market Sessions, an investor who is unable to calculate an implied value for the Shares in those sessions may be at a disadvantage to market professionals.

Delivery of a Prospectus

Exchange Members should be mindful of applicable prospectus delivery requirements under the federal securities laws with respect to transactions in the Fund. Prospectuses may be obtained through the Fund's website. The Prospectus for the Fund does not contain all of the information set forth in the Funds Registration Statement (including the exhibits to the Registration Statement), parts of which have been omitted in accordance with the rules and regulations of the SEC. For further information about the Fund, please refer to its Registration Statement.

In the event that the Fund relies upon an order by the SEC exempting the Shares from certain prospectus delivery requirements under Section 24(d) of the 1940 Act and in the future make available a written product description, Exchange Rules require that Exchange Members provide to all purchasers of Shares a written description of the terms and characteristics of such securities, in a form prepared by the Issuer of the Fund, no later than the time a confirmation of the first transaction in the Shares is delivered to such purchaser. In addition, Exchange Members shall include such a written description with any sales material relating to the Shares that is provided to customers or the public. Any other written materials provided by an IEX member to customers or the public making specific reference to the Shares as an investment vehicle must include a statement in substantially the following form: "A circular describing the terms and characteristics of [the UTP Derivative Securities] has been prepared by the [open-ended management investment company name] and is available from your broker. It is recommended that you obtain and review such circular before purchasing [the UTP Derivative Securities]."

An Exchange member carrying an omnibus account for a non-member broker-dealer is required to inform such non-member that execution of an order to purchase Shares for such omnibus account will be deemed to constitute agreement by the non-member to make such written description available to its customers on the same terms as are directly applicable to such Exchange member under this rule. Upon request of a customer, Exchange Members also shall provide a copy of the Prospectus.

Suitability

Trading in the securities on the Exchange will be subject to the provisions of IEX Rule 3.170 and other applicable suitability rules. Members recommending transactions in the securities to customers should make a determination that the recommendation is suitable for the customer.

Trading Halts

The Exchange will halt trading in the Shares of a security in accordance with the Exchange's Rules. The grounds for a halt include a halt because the intraday indicative value of the security and/or the value of its underlying index are not being disseminated as required, a halt for other regulatory reasons or due to other conditions or circumstances deemed to be detrimental to the maintenance of a free and orderly market.

Exemptive, Interpretive and No-Action Relief Under Federal Securities Regulations

The Securities and Exchange Commission (the "SEC") has issued letters granting exemptive, interpretive and no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 for exchange- traded securities listed and traded on a registered national securities exchange that meet certain criteria.

AS WHAT FOLLOWS IS ONLY A SUMMARY OF THE RELIEF OUTLINED IN THE NO-ACTION LETTERS REFERENCED ABOVE, THE EXCHANGE ADVISES INTERESTED PARTIES TO

CONSULT THE NO-ACTION LETTERS FOR MORE COMPLETE INFORMATION REGARDING THE MATTERS COVERED THEREIN AND THE APPLICABILITY OF THE RELIEF GRANTED IN RESPECT OF TRADING IN SECURITIES. INTERESTED PARTIES SHOULD ALSO CONSULT THEIR PROFESSIONAL ADVISORS.

Regulation M Exemptions

Generally, Rules 101 and 102 of Regulation M prohibit any “distribution participant” and its “affiliated purchasers” from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of Shares of the above-mentioned Fund to engage in secondary market transactions in such Shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Fund (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Fund for redemption does not constitute a bid for or purchase of any of the Funds’ securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

Rule 14e-5

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

1. such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchase; or
2. purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
3. such bids or purchases are not effected for the purpose of facilitating such tender offer.

SEC Rule 15c1-5 and 15c1-6

The SEC has taken a no-action position with respect to Rule 15c1-5 and Rule 15c1-6 as to the required disclosure of control by a broker or dealer with respect to creations and redemptions of Fund Shares and secondary market transactions therein. (See letter from Catherine McGuire, Chief

Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.)

This Information Circular is not a statutory prospectus. Members should consult the Prospectus for a security and the security's website for relevant information.

Please contact IEX Regulation at 646-343-2000 with any inquiries regarding this Information Circular.
