ADDITIONAL COMMENTS OR REQUEST NOTES

ORDER AUTHORIZATION

MPID(s) / Company Name:

Authorized Contact (Please Print):

Authorized Signature:

Date:

*Users who wish to enable routing must complete and submit a Securities Routing Agreement found in the [User Agreement](#).

**If unspecified, default treatment for orders is to be SUMed with only order info (no Capacity or MPID) exposed.

***For Market Maker Quoting Sessions, “Unsolicited Restatement Messages” include receipt of Quote Restated messages.

****AIQ is an optional functionality that enables a User to prevent two of its orders from executing against each other. A User can set default AIQ functionality by logical port. Please refer to the IEX Binary Options Protocol Specification for further details on this behavior.

^A “set” is defined as 10 total ports, wherein each individual port is provisioned to each of the 10 trading rings supported by the IEX Options Trading System.

All services and products requested on this form are governed by the terms in the User Agreement and the Exchange Rules.

If you do not receive a written confirmation from IEX within 3 business days that your request has been received and processed, please contact Market Operations at 646.343.2310 or OptionsMktOps@iextrading.com. Please refer to the IEX Fee Schedule posted at <http://www.iex.io> or the latest price list.
