The relief described in this paragraph (a) shall be provided only to a person registered with a Member and only while the person remains on active military duty. Further, the Member with which such person is registered shall promptly notify the Exchange in such manner as the Exchange may specify of such person's return to active employment with the Member.

(b) Inactive Status of Sole Proprietorships

A Member that is a sole proprietor who temporarily closes his or her business by reason of volunteering for or being called into active duty in the Armed Forces of the United States, shall be placed, after proper notification to the Exchange, on inactive status while the Member remains on active military duty.

The relief described in this paragraph (b) shall be provided only to a sole proprietor Member and only while the person remains on active military duty. Further, the sole proprietor shall promptly notify the Exchange in such manner as the Exchange may specify of his or her return to active participation in the investment banking or securities business of the Member relating to activity that occurs on the Exchange.

(c) *Status of Formerly Registered Persons*

If a person who was formerly registered with a Member volunteers for or is called into active duty in the Armed Forces of the United States at any time within two years after the date the person ceased to be registered with a Member, the Exchange shall defer the lapse of registration requirements set forth in Rule 2.160(o) (i.e., toll the two-year expiration period for representative and principal qualification examinations) and the lapse of the SIE (i.e., toll the four-year expiration period for the SIE). The Exchange shall defer the lapse of registration requirements and the SIE commencing on the date the person begins actively serving in the Armed Forces of the United States, provided that the Exchange is properly notified of the person's period of active military service within 90 days following his or her completion of active service or upon his or her re-registration with a Member, whichever occurs first. The deferral will terminate 90 days following the person's completion of active service in the Armed Forces of the United States. Accordingly, if such person does not re-register with a Member within 90 days following his or her completion of active service in the Armed Forces of the United States, the amount of time in which the person must become re-registered with a Member without being subject to a representative or principal qualification examination or the SIE shall consist of the standard two-year period for representative and principal qualification examinations or the standard four-year period for the SIE, whichever is applicable, as provided in Rule 2.160(o) reduced by the period of time between the person's termination of registration and beginning of active service in the Armed Forces of the United States.

If a person placed on inactive status while serving in the Armed Forces of the United States ceases to be registered with a Member, the Exchange shall defer the lapse of registration requirements set forth in Rule 2.160(o) (i.e., toll the two-year expiration period for representative and principal qualification examinations) and the lapse of the SIE (i.e., toll the four-year expiration period for the SIE) during the pendency of his or her active service in the Armed Forces of the United States. The Exchange shall defer the lapse of registration requirements based on existing information in the CRD system, provided that the Exchange is properly notified of the person's period of active military service within two years following his or her completion of active service or upon his or her re-registration with a Member, whichever occurs first. The deferral shall terminate 90 days following the person's completion of active service in the Armed Forces of the United States. Accordingly, if such person does not re-register with a Member within 90 days following his or her completion of active service in the Armed Forces of the United States, the amount of time in which the person must become re-registered with a Member without being subject to a representative or principal qualification examination or the SIE shall consist of the standard two-year period for representative and principal qualification examinations or the standard four-year period for the SIE, whichever is applicable, as provided in Rule 2.160(o).

-
- (f) The Exchange may require the successful completion of a written proficiency examination to enable it to examine and verify that prospective Members and associated persons of Members have adequate training, experience, and competence to comply with IEX Rules and policies of the Exchange.
- (g) If the Exchange requires the completion of such proficiency examinations, the Exchange may, in exceptional cases and where good cause is shown, pursuant to IEX Rule Series 9.600, waive such proficiency examinations as are required by the exchange upon written request of the applicant and accept other standards as evidence of an applicant's qualifications. Advanced age, physical infirmity, or experience in fields ancillary to the securities business will not individually of themselves constitute sufficient grounds to waive a proficiency examination.

Supplementary Material

As used in this Supplementary Material .01, a "financial services industry affiliate of a Member" is a legal entity that controls, is controlled by or is under common control with a Member and is regulated by the SEC, CFTC, state securities authorities, federal or state banking authorities, state insurance authorities, or substantially equivalent foreign regulatory authorities.

Effective December 9, 2022, the Exchange will not accept any new initial designations for individuals under the waiver program set forth in Supplementary Material .01 of this Rule.

-
- (h) Before the registration of a qualifying person as a representative can be effective, such person shall pass the Securities Industry Essentials ("SIE") examination and the appropriate representative qualifying examination. The Exchange requires the General Securities Representative Examination ("Series 7") or an equivalent foreign examination module approved by the Exchange in qualifying persons seeking registration as General Securities Representatives, including as Authorized Traders, on behalf of Members. For those persons seeking limited registration as Securities Traders as described in paragraph (k) below, the Exchange requires the Securities Traders Qualification Examination ("Series 57"), other than any person associated with a Member whose trading activities are conducted principally on behalf of an investment company that is registered with the SEC pursuant to the Investment Company Act and that controls, is controlled by or is under common control, with the Member. The Exchange uses the Uniform Application for Securities Industry Registration or Transfer ("Form U4") as part of its procedure for registration and oversight of Member personnel.

Supplementary Material

- (i) The Exchange requires each Member other than a Member with only one associated person or a proprietary trading firm with 25 or fewer Authorized Traders ("Limited Size Proprietary Firm") to register at least two Principals with the Exchange. In addition, the Exchange may waive the two Principal requirement in situations that indicate conclusively that only one Principal associated with the Member should be required. A Limited Size Proprietary Firm is required to register at least one Principal with the Exchange. For purposes of this paragraph (i), a "Principal" shall be any individual responsible for supervising the activities of a Member's Authorized Traders and each person designated as

a Chief Compliance Officer on Schedule A of Form BD. This paragraph (i) shall not apply to a Member that solely conducts business on the Exchange as an Options Member, however, Options Members must comply with the registration requirements set forth in Rule 18.110. Each Principal is required to have successfully completed the General Securities Principal Examination (“Series 24”). The Exchange uses Form U4 as part of its procedure for registration and oversight of Member personnel.

The Exchange will accept the Series 14 Compliance Official Examination in lieu of the Series 24 to satisfy the above requirement for any person designated as a Chief Compliance Officer. Individuals that supervise the activities of General Securities Representatives must have successfully completed the Series 7 or an equivalent foreign examination module, as well as the SIE, as a prerequisite to the Series 24 or Series 14 and shall be referred to as General Securities Principals. The Exchange will require the Series 57, as well as the SIE, as a prerequisite to the Series 24 or Series 14 for those Principals whose supervisory responsibilities are limited to overseeing the activities of Series 57 qualified Securities Traders. These limited representative Principals shall be referred to as Securities Trader Principals. Each Principal with responsibility over securities trading activities on the Exchange shall become qualified and registered as a Securities Trader Principal.

A Financial/Operations Principal of a Member may be a full-time employee of the Member or may be a part-time employee or independent contractor of the Member.

- (k) The Exchange recognizes the Series 57 qualification for Authorized Traders that engage solely in trading on the Exchange, on either an agency or principal basis.

Any person whose registration has been revoked pursuant to Rule 8.310 and any person who has a continuing education deficiency for a period of two years as provided in subparagraph (a) of Rule 2.160(p) shall be required to pass a representative or principal qualification examination appropriate to his or her category of registration as specified in paragraphs (h), (i), (j), (k), (l) and (n) of Rule 2.160 to be eligible for registration with the Exchange. For purposes of this paragraph, an application shall not be considered to have been received by the Exchange if that application does not result in a registration.

(p) Continuing Education Requirements.

This Rule prescribes requirements regarding the continuing education of specified persons subsequent to their initial registration with the Exchange. The requirements shall consist of a Regulatory Element and a Firm Element as set forth below. This Rule also sets forth continuing education programs through which specified persons may maintain their qualification in a representative or principal registration category following the termination of that registration category.

(a) Regulatory Element

(1) Requirements.

Each associated person registered with the Exchange (each a “Registered Person” for purposes of this subparagraph (a)), including any person who is permissively registered pursuant to Supplementary Material .01 to Rule 2.160(e) and any person who is designated as eligible for a waiver pursuant to Supplementary Material .01 to Rule 2.160(g), shall comply with the requirement to complete the Regulatory Element for each representative or principal registration category that they hold as specified in this rule.

Each Registered Person registered with the Exchange immediately preceding January 1, 2023 shall complete the Regulatory Element of the continuing education program for the registration category annually by December 31, 2023 and by December 31 of every year thereafter in which the person remains registered, or as otherwise prescribed by FINRA. Each Registered Person registering with the Exchange in a representative or principal registration category for the first time on or after January 1, 2023 shall complete the Regulatory Element for the registration category annually by December 31 of the subsequent calendar year following the calendar year in which the person becomes registered and by December 31 of every year thereafter in which the person remains registered, or as otherwise prescribed by FINRA. Nothing in this paragraph shall prohibit a Member from requiring its Registered Persons to complete their Regulatory Element for their registration categories at any time during the calendar year. A Registered Person qualified solely as a Securities Trader shall comply with the continuing education requirements appropriate for the Series 57. All other Registered Persons shall comply with the continuing education requirements applicable to their particular registration. The content of the Regulatory Element for a person designated as eligible for a waiver pursuant to Supplementary Material .01 to Rule 2.160(g) shall be determined based on the person’s most recent registration status, and the Regulatory Element shall be completed based on the same cycle had the person remained registered.

(2) Failure to Complete.

Unless otherwise determined by the Exchange, Registered Persons who have not completed the Regulatory Element of the continuing education program within the prescribed calendar year in which the Regulatory Element is due will have their registration(s) deemed inactive until such time as they complete all required Regulatory Elements, including any Regulatory Element that becomes due while their registration(s) is deemed inactive. Further, such person shall not be permitted to be registered in another registration category under Rule 2.160 with that Member or to be registered in any registration category under Rule 2.160 with another Member, until the person has satisfied the deficiency. Any person whose registration has been deemed inactive under this IEX Rule shall cease all activities as a Registered Person and is prohibited from functioning in any capacity requiring registration with the Exchange. Further, such person may not accept or solicit business or receive any compensation for the purchase or sale of securities. However, such person may receive trail or residual commissions resulting from transactions completed before the inactive status, unless the Member with which such person is associated has a policy prohibiting such trail or residual commissions. A registration that remains inactive for a period of two consecutive years will be administratively terminated. A person whose registration(s) is so terminated or who otherwise fails to complete the required Regulatory Element for two consecutive years may reactivate the registration only by reapplying for registration and satisfying applicable registration and qualification requirements of the Exchange's Rules. The two-year period under this paragraph is calculated from the date a person's registration(s) is calculated from the date a person's registration(s) is deemed inactive. The Exchange may, upon written application, with supporting documentation, and a showing of good cause, allow for additional time for a Registered Person to satisfy the Regulatory Element requirements. If a person designated as eligible for a waiver pursuant to Supplementary Material .01 to Rule 2.160(g) fails to complete the Regulatory Element within the prescribed time frames, the person shall no longer be eligible for such a waiver.

(3) Disciplinary Actions.

A Registered Person, other than a person designated as eligible for a waiver pursuant to Supplementary Material .01 to Rule 2.160(g), may be required to complete assigned continuing education as prescribed by the Exchange in the event such person:

- (A) is subject to any statutory disqualification as defined in Section 3(a)(39) of the Exchange Act,
- (B) is subject to suspension or to the imposition of a fine of \$5,000 or more for violation of any provision of any securities law or regulation, or any agreement with or rule or standard of conduct of any securities governmental agency, securities self-regulatory organization, or as imposed by any such regulatory or self-regulatory organization in connection with a disciplinary proceeding, or
- (C) is ordered as a sanction in a disciplinary action to complete continuing education by any securities governmental agency or securities self-regulatory organization.

Such Registered Person must complete any continuing education required under this paragraph within 120 days of the Registered Person becoming subject to the statutory disqualification, in the case of 3(A) above, or the disciplinary action becoming final, in the case of 3(B) or (C) above.

(4) Reregistration

Any Registered Person who reregisters shall complete the Regulatory Element content for the registration annually by December 31 of the subsequent calendar year following the calendar year in which the person becomes reregistered and by December 31 of every year thereafter in which the person remains registered, or as otherwise prescribed by the Exchange, provided that they have already completed Regulatory Element content for that registration category for the calendar year in which they are registering by having passed an examination for that registration category, or they are reregistering by having obtained an unconditional examination waiver for that registration category.

Any Registered Person who is reregistering in a representative or principal registration category without having completed any Regulatory Element content for that registration calendar in which he or she is reregistering or without having passed an examination for that registration category or without having obtained an unconditional examination waiver for that registration category shall complete the Regulatory Element content for that registration category annually by December 31 of every year thereafter in which he or she remains registered, or as otherwise prescribed by the Exchange.

If a Registered Person has not completed any Regulatory Element content for a registration category in the calendar year(s) prior to the reregistering, the Exchange would not approve a registration request for that category until they complete that Regulatory Element content or they pass an examination for that registration category or they obtain an unconditional examination waiver for that registration category, whichever is applicable.

Nothing in this paragraph shall prohibit a Member from requiring Registered Persons for their registration categories at any time during the calendar year.

(5) Reserved.

(6) Delivery of the Regulatory Element

The Regulatory Element shall be administered through Web-based delivery or such other technological manner and format as specified by FINRA.

(3) Participation in the Firm Element

Registered persons must take all appropriate and reasonable steps to participate in continuing education programs under this subparagraph as required by the Member.

(4) Specific Training Requirements

The Exchange may require a Member, individually or as part of a larger group, to provide specific training to its registered persons in such areas as the Exchange deems appropriate. Such a requirement may stipulate the class of registered persons for which it is applicable, the time period in which the requirement must be satisfied and, where appropriate, the actual training content.

(c) Continuing Education Program for Persons Maintaining Their Qualification Following the Termination of a Registration Category.

A person who terminates any of his or her representative or principal registration categories with FINRA may maintain his or her qualification for any of the terminated registration categories for a period of five years following the termination of the registration category, subject to the following conditions:

(a) Applications for membership shall be made to the Exchange and shall contain the following:

- (1) An agreement to abide by, comply with, and adhere to the provisions of the Exchange's Certificate of Formation, its Operating Agreement, IEX Rules, the policies, interpretations and guidelines of the Exchange and all orders and decisions of the Exchange's Board and penalties imposed by the Board, and any duly authorized committee; provided, however, that such agreement shall not be construed as a waiver by the applicant of any right to appeal as provided in the Act.
- (2) An agreement to pay such dues, assessments, and other charges in the manner and amount as shall from time to time be fixed by the Exchange.
- (3) An agreement that the Exchange and its officers, employees, and Members of its Board and of any Board committee shall not be liable, except for willful malfeasance, to the applicant or to any other person, for any action taken by such director, officer or Member in his, her or its official capacity, or by any employee of the Exchange while acting within the scope of his or her employment, in connection with the administration or enforcement of any of the provisions of the Certificate of Formation, Operating Agreement, IEX Rules, policies, interpretations or guidelines of the Exchange or any penalty imposed by the Exchange, its Board, or any duly authorized Board committee.
- (4) An agreement that, in cases where the applicant fails to prevail in a lawsuit or administrative adjudicative proceeding instituted by the applicant against the Exchange or any of its officers, directors, committee Members, employees, or agents, to pay the Exchange or any of its officers, directors, committee Members, employees, or agents, all reasonable expenses, including attorneys' fees, incurred by the Exchange in the defense of such proceeding, but only in the event that such expenses exceed Fifty Thousand Dollars (\$50,000.00); provided, however, that such payment obligation shall not apply to internal disciplinary actions by the Exchange or administrative appeals.
- (5) An agreement to maintain and make available to the Exchange, its authorized employees and its Board or Board committee Members such books and records as may be required to be maintained by the Commission or IEX Rules.
- (6) Such other reasonable information with respect to the applicant as the Exchange may require.

(b) Applications for association with a Member shall be made on Form U4 and such other forms as the Exchange may prescribe, and shall be delivered to the Exchange in such manner as designated by the Exchange.

(c) If the Exchange is satisfied that the applicant is qualified for membership pursuant to the provisions of this Chapter, the Exchange shall promptly notify, in writing, the applicant of such determination, and the applicant shall be a Member.

(d) If the Exchange is not satisfied that the applicant is qualified for membership pursuant to the provisions of this Chapter, the Exchange shall promptly notify the applicant of the grounds for denying the applicant. The Board on its own motion may reverse the determination that the applicant is not qualified for membership. If a majority of the

Board specifically determines to reverse the determination to deny membership, the Board shall promptly notify Exchange staff, who shall promptly notify the applicant of the Board's decision and shall grant membership to the applicant. An applicant who has been denied membership may appeal such decision under IEX Rule Series 9.500, which govern adverse action.

(e) In considering applications for membership, the Exchange shall adhere to the following procedures:

- (1) Where an application is granted, the Exchange shall promptly notify the applicant.
- (2) The applicant shall be afforded an opportunity to be heard on the denial of membership pursuant to IEX Rules Series 9.500, which govern adverse action.

(f) Except where, pursuant to Section 17(d) of the Act, the Exchange has been relieved of its responsibility to review and act upon applications for associated persons of a Member, the procedure set forth in this Chapter shall govern the processing of any such applications.

(g) Each applicant shall file with the Exchange a list and descriptive identification of those persons associated with the applicant who are its executive officers, directors, principal shareholders, and general partners. Such persons shall file with the Exchange a Uniform Application for Securities Industry Registration or Transfer ("Form U4"). Applicants approved as Members of the Exchange must keep such information current with the Exchange.

Rule 2.180. Revocation of Membership or Association with a Member

Members or associated persons of Members may effect approved securities transactions on the Exchange's trading facilities only so long as they possess all the qualifications set forth in IEX Rules. Except where, pursuant to Section 17(d) of the Act, the Exchange has been relieved of its responsibility to monitor the continued qualifications of a Member or an associated person of a Member, when the Exchange has reason to believe that a Member or associated person of a Member fails to meet such qualifications, the Exchange may act to revoke such Member or associated person of a Member's membership or association with the Exchange. Such action shall be instituted under, and governed by, Chapter 8 of IEX Rules and may be appealed under IEX Rules Series 9.500, which govern adverse action. In connection with any revocation of rights as a Member or voluntary termination of rights as a Member pursuant to IEX Rule 2.190 below, the Member's membership in the Exchange shall be canceled.

Rule 2.190. Voluntary Termination of Rights as a Member

A Member may voluntarily terminate its rights as a Member by submitting a written resignation to the Exchange's Secretary or another officer designated by the Exchange. A termination will not be effective until the terminating Member has: (a) made any outstanding filings required under the Rules; and (b) paid any outstanding fees, assessments, charges, fines, or other amounts due to the Exchange, the Commission or the Securities Investor Protection Corporation.

(Amended by SR-IEX-2026-02 eff. January 22, 2026)

Rule 2.200. Dues, Assessments and Other Charges

The Exchange may prescribe such reasonable assessments, dues, or other charges as it may, in its discretion, deem appropriate. Such assessments and charges shall be equitably allocated among Members, issuers, and other entities or persons using the Exchange's facilities.

Rule 2.210. No Affiliation between Exchange and any Member

- (a) Without the prior approval of the Commission, the Exchange or any entity with which it is affiliated shall not, directly or indirectly, acquire, or maintain an ownership interest in a Member. In addition, without the prior approval of the Commission, a Member shall not be or become an affiliate of the Exchange, or an affiliate of any affiliate of the Exchange. The term affiliate shall have the meaning specified in Rule 12b-2 under the Act. Nothing in this IEX Rule 2.210 shall prohibit a Member or its affiliate from acquiring or holding an equity interest in IEX Group, Inc. that is permitted by the ownership and voting limitations contained in the Certificate of Incorporation and Bylaws of IEX Group, Inc. In addition, nothing in this IEX Rule 2.210 shall prohibit a Member from being or becoming an affiliate of the Exchange, or an affiliate of any affiliate of the Exchange, solely by reason of such Member or any officer, director, manager, managing member, partner, or affiliate of such Member being or becoming either (a) a Director (as such term is defined in the Operating Agreement of the Exchange) pursuant to the Operating Agreement of the Exchange, or (b) a Director serving on the Board of Directors of IEX Group, Inc.

Rule 2.220. IEX Services LLC as Outbound Router

The highlighted portions below of this rule are not yet operative. IEX will issue a trader alert announcing implementation timing. The relevant approval order is available [here](#).

- (a) All outbound routing by the System shall be performed by the Exchange's affiliated broker-dealer, IEX Services LLC ("IEX Services"), which, in turn, shall route orders directly to other securities exchanges, facilities of securities exchanges, automated trading systems, electronic communications networks, or other brokers or dealers (collectively, "away trading centers") as directed by the Exchange. **When routing options orders, as set forth in IEX Rule 22.180, IEX Services will transmit such orders to one or more routing brokers that are not affiliated with the Exchange; the routing brokers will in turn route the applicable options orders to other securities exchanges that trade options.** The Exchange will determine the logic that provides when, how, and where orders are routed ("System routing logic") and IEX Services will receive routing instructions from the Exchange, to route orders to away trading centers and report such executions back to the Exchange ("System routing instructions"). For so long as IEX Services is affiliated with the Exchange and is providing outbound routing of orders from the Exchange to away trading centers (such function of IEX Services is referred to as the "Outbound Router"), each of the Exchange and IEX Services shall undertake as follows:
- (1) The Exchange will regulate the Outbound Router function of IEX Services as a facility (as defined in Section 3(a)(2) of the Act), subject to Section 6 of the Act. In particular, and without limitation, under the Act, the Exchange will be responsible for filing with the Commission rule changes and fees relating to the IEX Services Outbound Router function and IEX Services will be subject to exchange non-discrimination requirements.
 - (2) FINRA will carry out oversight and enforcement responsibilities as the examining authority designated by the Commission pursuant to Rule 17d-1 of the Act with the responsibility for examining IEX Services for compliance with applicable financial responsibility rules.
 - (3) A Member's use of IEX Services to route orders to an away trading center will be optional. Any Member that does not want to use IEX Services may use other routers to route orders to away trading centers.
 - (4) IEX Services will not engage in any business other than (a) its Outbound Router function, (b) its usage of an error account in compliance with paragraph (a)(8) below, and (c) any other activities it may engage in as approved by the Commission.

(5) The Exchange shall establish and maintain procedures and internal controls reasonably designed to adequately restrict the flow of confidential and proprietary information between the Exchange and its facilities (including IEX Services), and any other entity, including any affiliate of IEX Services, and, if IEX Services or any of its affiliates engages in any other business activities other than providing routing services to the Exchange, between the segment of IEX Services or its affiliate that provides the other business activities and the routing services.

(6) The Exchange or IEX Services may cancel orders as either deems to be necessary to maintain fair and orderly markets if a technical or systems issue occurs at the Exchange, IEX Services, or a routing destination. (8) IEX Services shall maintain an error account for the purpose of addressing positions that are the result of an execution or executions that are not clearly erroneous under IEX Rule 11.270 or an obvious error under IEX Rule 21.150 and result from a technical or systems issue at IEX Services, the Exchange, a routing destination, or a non-affiliate third-party routing broker that affects one or more orders (“Error Positions”).

(A) For purposes of this IEX Rule 2.220(a)(8), an Error Position shall not include any position that results from an order submitted by a Member to the Exchange that is executed on the Exchange and automatically processed for clearance and settlement on a locked-in basis.

- (C) If a technical or systems issue results in the Exchange not having valid clearing instructions for a Member to a trade, IEX Services may assume that Member's side of the trade so that the trade can be automatically processed for clearance and settlement on a locked-in basis.
- (D) In connection with a particular technical or systems issue, IEX Services or the Exchange shall either (1) assign all resulting Error Positions to Members in accordance with subparagraph (i) below, or (2) have all resulting Error Positions liquidated in accordance with subparagraph (ii) below. Any determination to assign or liquidate Error Positions, as well as any resulting assignments, shall be made in a non-discriminatory fashion.
 - (i) IEX Services or the Exchange shall assign all Error Positions resulting from a particular technical or systems issue to the Members affected by that technical or systems issue if IEX Services or the Exchange:

In liquidating such Error Positions, IEX Services shall:
 - (a) Provide complete time and price discretion for the trading to liquidate the Error Positions to a third-party broker-dealer and shall not attempt to exercise any influence or control over the timing or methods of such trading; and
 - (b) Establish and enforce policies and procedures that are reasonably designed to restrict the flow of confidential and proprietary information between the third-party broker-dealer and IEX Services/the Exchange associated with the liquidation of the Error Positions.
- (E) IEX Services and the Exchange shall make and keep records to document all determinations to treat positions as Error Positions and all determinations for the assignment of Error Positions to Members or

Nothing in these Rules shall preclude officers, agents, directors, or employees of the Exchange from also serving as officers, agents, directors, and employees of IEX Services.

Any Member or person associated with a Member shall continue to be subject to the disciplinary jurisdiction of the Exchange following the termination of such person's membership or association with a Member with respect to matters that occurred prior to such termination; provided that written notice of the commencement of an inquiry into such matters is given by the Exchange to such former Member or former associated person within one year of receipt by the Exchange of the latest written notice of the termination of such person's status as a Member or person associated with a Member. The foregoing notice requirement does not apply to a person who at any time after a termination again subjects himself or herself to the disciplinary jurisdiction of the Exchange by becoming a Member or a person associated with a Member.

Rule 2.240. Fidelity Bonds

- (a) Each Member required to join the Securities Investor Protection Corporation who has employees and who is a Member in good standing of another self-regulatory organization shall follow the applicable fidelity bond rule of the self-regulatory organization to which it is designated by the Commission for financial responsibility pursuant to Section 17 of the Act and SEC Rule 17d-1 thereunder.
- (b) A Member designated to the Exchange for oversight pursuant to SEC Rule 17d-1 shall comply with FINRA Rule 4360 as if such Rule were part of the Exchange's Rules.
- (c) For purposes of this IEX Rule 2.240, references to a "member" shall be construed as references to a "Member."
- (d) Pursuant to IEX Rule Series 9.600 of the IEX Rules, any Member subject to paragraph (d) of FINRA Rule 4360, through the application of paragraph (b) above, may apply to the Exchange for an exemption from such requirements. The exemption may be granted upon a showing of good cause, including a substantial change in the circumstances or nature of the Member's business that results in a lower net capital requirement. The Exchange may issue an exemption

subject to any condition or limitation upon a Member's bonding coverage that is deemed necessary to protect the public and serve the purposes of this IEX Rule.

Rule 2.250. Mandatory Participation in Testing of Backup Systems

- (a) Pursuant to Regulation SCI and with respect to the Exchange's business continuity and disaster recovery plans, including its backup systems, the Exchange is required to establish standards for the designation of Members that the Exchange reasonably determines are, taken as a whole, the minimum necessary for the maintenance of fair and orderly markets in the event of the activation of such plans. The percentage of volume that the Exchange considers to be meaningful for purposes of this IEX Rule 2.250 will be determined by the Exchange and will be published in a circular distributed to Members. The Exchange will also individually notify all Members quarterly that are subject to paragraph (b) of this IEX Rule 2.250 based on the prior calendar quarter's volume. If a Member has not previously been subject to the requirements of paragraph (b) of this IEX Rule 2.250, such Member will have until the next calendar quarter before such requirements are applicable.

Rule 3.210. Publication of Transactions and Quotations

No Member shall publish or circulate, or cause to be published or circulated, any notice, circular, advertisement, newspaper article, investment service, or communication of any kind which purports to report any transaction as a purchase or sale of any security unless such Member believes that such transaction was a bona fide purchase or sale of such security; or which purports to quote the bid price or asked price for any security, unless such Member believes that such quotation represents a bona fide bid for, or offer of, such security.

Rule 3.220. Offers at Stated Prices

No Member shall make an offer to buy from or sell to any person any security at a stated price unless such Member is prepared to purchase or sell, as the case may be, at such price and under such conditions as are stated at the time of such offer to buy or sell.

Rule 3.230. Payments Involving Publications that Influence the Market Price of a Security

- (a) Except as provided in paragraph (b), no Member shall directly or indirectly, give, permit to be given, or offer to give anything of value to any person, or intimidate any person for the purpose of influencing or rewarding the action of such person in connection with the publication or circulation in any electronic or other public media, including any investment service or similar publication, Web site, newspaper, magazine or other periodical, radio, or television program of any matter which has, or is intended to have, an effect upon the market price of any security;

(d) Exceptions

This IEX Rule shall not apply to:

- (1) discretion as to the price at which or the time when an order given by a customer for the purchase or sale of a definite amount of a specified security shall be executed, except that the authority to exercise time and price discretion will be considered to be in effect only until the end of the business day on which the customer granted such discretion, absent a specific, written contrary indication signed and dated by the customer. This limitation shall not apply to time and price discretion exercised in an institutional account, as defined in IEX Rule 5.110 pursuant to valid Good-Till-Canceled instructions issued on a "not-held" basis. Any exercise of time and price discretion must be reflected on the order ticket;

Rule 3.270. Improper Use of Customers' Securities or Funds; Prohibition Against Guarantees and Sharing in Accounts

(a) Improper Use

No Member or person associated with a Member shall make improper use of a customer's securities or funds.

(b) Prohibition Against Guarantees

No Member or person associated with a Member shall guarantee a customer against loss in connection with any securities transaction or in any securities account of such customer.

(c) Sharing in Accounts; Extent Permissible

- (1) (A) Except as provided in paragraph (c)(2), no Member or person associated with a Member shall share directly or indirectly in the profits or losses in any account of a customer carried by the Member or any other Member; provided, however, that a Member or person associated with a Member may share in the profits or losses in such an account if:
 - (i) such person associated with a Member obtains prior written authorization from the Member employing the associated person;

- (ii) such Member or person associated with a Member obtains prior written authorization from the customer; and
 - (iii) such Member or person associated with a Member shares in the profits or losses in any account of such customer only in direct proportion to the financial contributions made to such account by either the Member or person associated with a Member.
- (B) Exempt from the direct proportionate share limitation of paragraph (c)(1)(A)(iii) are accounts of the immediate family of such Member or person associated with a Member. For purposes of this IEX Rule, the term "immediate family" shall include parents, mother-in-law or father-in-law, husband or wife, children, or any relative to whose support the Member or person associated with a Member otherwise contributes directly or indirectly.
- (2) Notwithstanding the prohibition of paragraph (c)(1), a Member or person associated with a Member that is acting as an investment adviser may receive compensation based on a share in profits or gains in an account if:
- (A) such person associated with a Member seeking such compensation obtains prior written authorization from the Member employing the associated person;
 - (B) such Member or person associated with a Member seeking such compensation obtains prior written authorization from the customer; and
 - (C) all of the conditions in Rule 205-3 of the Investment Advisers Act (as the same may be amended from time to time) are satisfied.

Rule 3.280. Communications with Customers and the Public

Exchange Members and persons associated with a Member shall comply with FINRA Rule 2210 (except FINRA Rule 2210(c)) as if such FINRA Rule were part of the Exchange's Rule. The Exchange and FINRA are parties to the Regulatory Contract pursuant to which FINRA has agreed to perform certain functions on behalf of the Exchange. Therefore, Exchange Members are complying with this IEX Rule 3.280 by complying with FINRA Rule 2210 as written. In addition, functions performed by FINRA, FINRA departments, and FINRA staff under this IEX Rule 3.280 are being performed by FINRA on the Exchange's behalf.

Rule 3.290. Customer Disclosures

No member may accept an order from a customer for execution in the Pre-Market Session or Post-Market Session without disclosing to such customer that extended hours trading involves material trading risks, including the possibility of lower liquidity, high volatility, changing prices, unlinked markets, an exaggerated effect from news announcements, wider spreads, and any other relevant risk. The absence of an updated underlying index value or intraday indicative value is an additional trading risk in extended hours for Derivative Securities Products.

The disclosures required pursuant to this IEX Rule may take the following form or such other form as provides substantially similar information:

- (a) Risk of Lower Liquidity. Liquidity refers to the ability of market participants to buy and sell securities. Generally, the more orders that are available in a market, the greater the liquidity. Liquidity is important because with greater

liquidity it is easier for investors to buy or sell securities, and as a result, investors are more likely to pay or receive a competitive price for securities purchased or sold. There may be lower liquidity in extended hours trading as compared to regular market hours. As a result, your order may only be partially executed, or not at all.

- (b) Risk of Higher Volatility. Volatility refers to the changes in price that securities undergo when trading. Generally, the higher the volatility of a security, the greater its price swings. There may be greater volatility in extended hours trading than in regular market hours. As a result, your order may only be partially executed, or not at all, or you may receive an inferior price in extended hours trading than you would during regular market hours.
- (c) Risk of Changing Prices. The prices of securities traded in extended hours trading may not reflect the prices either at the end of regular market hours, or upon the opening of the next morning. As a result, you may receive an inferior price in extended hours trading than you would during regular market hours.
- (d) Risk of Unlinked Markets. Depending on the extended hours trading system or the time of day, the prices displayed on a particular extended hours system may not reflect the prices in other concurrently operating extended hours trading systems dealing in the same securities. Accordingly, you may receive an inferior price in one extended hours trading system than you would in another extended hours trading system.
- (e) Risk of News Announcements. Normally, issuers make news announcements that may affect the price of their securities after regular market hours. Similarly, important financial information is frequently announced outside of regular market hours. In extended hours trading, these announcements may occur during trading, and if combined with lower liquidity and higher volatility, may cause an exaggerated and unsustainable effect on the price of a security.
- (f) Risk of Wider Spreads. The spread refers to the difference in price between what you can buy a security for and what you can sell it for. Lower liquidity and higher volatility in extended hours trading may result in wider than normal spreads for a particular security.
- (g) Risk of Lack of Calculation or Dissemination of Underlying Index Value or Intraday Indicative Value ("IIV"). For certain Derivative Securities Products, an updated underlying index value or IIV may not be calculated or publicly disseminated in extended system hours. Since the underlying index value and IIV are not calculated or widely disseminated during the Pre-Market Session and Post-Market Session an investor who is unable to calculate implied values for certain Derivative Securities Products in those sessions may be at a disadvantage to market professionals.

A gift of any kind is considered a gratuity.

(c) Internal Inspections

- (1) Each Member shall conduct a review, at least annually (on a calendar-year basis), of the businesses in which it engages. The review shall be reasonably designed to assist the Member in detecting and preventing violations of, and achieving compliance with, applicable securities laws and regulations, and with applicable IEX Rules.  - (B) Each Member shall inspect at least every three years every branch office that does not supervise one or more non-branch locations. In establishing how often to inspect each non-supervisory branch office, the Member shall consider whether the nature and complexity of the securities activities for which the location is responsible, the volume of business done at the location, and the number of associated persons assigned to the location require the non-supervisory branch office to be inspected more frequently than every three years. If a Member establishes a more frequent inspection cycle, the Member must ensure that at least every three years, the inspection requirements enumerated in paragraph (c)(2) have been met. The Member's written supervisory and inspection procedures shall set forth the non-supervisory branch office examination cycle, an explanation of the factors the Member used in determining the frequency of the examinations in the cycle, and the manner in which a Member will comply with paragraph (c)(2) if using more frequent inspections than every three years.
 - (C) Each Member shall inspect on a regular periodic schedule every non-branch location. In establishing such schedule, the Member shall consider the nature and complexity of the securities activities for which the location is responsible and the nature and extent of contact with customers. The Member's written supervisory and inspection procedures shall set forth the schedule and an explanation regarding how the Member determined the frequency of the examination.
- (2) An inspection and review by a Member pursuant to paragraph (c)(1) must be reduced to a written report and kept on file by the Member for a minimum of three years, unless the inspection is being conducted pursuant to paragraph (c)(1)(C) and the regular periodic schedule is longer than a three-year cycle, in which case the report must be kept on file at least until the next inspection report has been written.
 - (A) If applicable to the location being inspected, that location's written inspection report must include, without limitation, the testing and verification of the Member's policies and procedures, including supervisory policies and procedures in the following areas:

- (i) safeguarding of customer funds and securities;
- (ii) maintaining books and records;
- (iii) supervision of supervisory personnel;

- (v) changes of customer account information, including address and investment objectives changes and validation of such changes.

(B) The policies and procedures required by paragraph (c)(2)(A)(iv) must include a means or method of customer confirmation, notification, or follow-up that can be documented. Members may use reasonable risk-based criteria to determine the authenticity of the transmittal instructions.

(C) The policies and procedures required by paragraph (c)(2)(A)(v) must include, for each change processed, a means or method of customer confirmation, notification, or follow-up that can be documented and that complies with Rules 17a-3(a)(17)(i)(B)(2) and 17a-3(a)(17)(i)(B)(3) of the Act.

(D) If a Member does not engage in all of the activities enumerated in paragraphs (c)(2)(A)(i) through (v) at the location being inspected, the Member must identify those activities in the Member's written supervisory procedures or the location's written inspection report and document in the Member's written supervisory procedures or the location's written inspection report that supervisory policies and procedures for such activities must be in place at that location before the Member can engage in them.

(3) For each inspection conducted pursuant to paragraph (c), a Member must:

(A) have procedures reasonably designed to prevent the effectiveness of the inspections required pursuant to paragraph (c)(1) of this IEX Rule 5.110 from being compromised due to the conflicts of interest that may be present with respect to the location being inspected, including but not limited to, economic, commercial, or financial interests in the associated persons and businesses being inspected; and

(B) ensure that the person conducting an inspection pursuant to paragraph (c)(1) is not an associated person assigned to the location or is not directly or indirectly supervised by, or otherwise reporting to, an associated person assigned to the location.

(C) If a Member determines that compliance with paragraph (c)(3)(B) is not possible either because of a Member's size or its business model, the Member must document in the inspection report both the factors the Member used to make its determination and how the inspection otherwise complies with paragraph (c)(1).

(d) Transaction Review and Investigation

- (1) Each Member shall include in its supervisory procedures a process for the review of securities transactions that are reasonably designed to identify trades that may violate the provisions of the Exchange Act, the rules thereunder, or IEX Rules prohibiting insider trading and manipulative and deceptive device that are effected for the:

 - (A) within ten business days of the end of each calendar quarter, a written report describing each internal investigation initiated in the previous calendar quarter pursuant to paragraph (d)(2), including the identity of the Member, the date each internal investigation commenced, the status of each open internal investigation, the resolution of any internal investigation reached during the previous calendar quarter, and, with respect to each internal investigation, the identity of the security, trades, accounts, associated persons of the Member, or associated person of the Member's family members holding a covered account, under review, and that includes a copy of the Member's policies and procedures required by paragraph (d)(1).
 - (B) within five business days of completion of an internal investigation pursuant to paragraph (d)(2) in which it was determined that a violation of the provisions of the Exchange Act, the rules thereunder, or IEX Rules prohibiting insider trading and manipulative and deceptive devices had occurred, a written report detailing the completion of the investigation, including the results of the investigation, any internal disciplinary action taken, and any referral of the matter to another self-regulatory organization, the SEC, or any other federal, state, or international regulatory authority.

Each member shall ascertain by investigation the good character, business reputation, qualifications and experience of an applicant before the member applies to register that applicant with IEX and before making a representation to that effect on the application for registration.

If the applicant previously has been registered with IEX or another self-regulatory organization, the member shall review a copy of the applicant's most recent Form U5, including any amendments thereto, within 60 days of the filing date of an application for registration, or demonstrate to IEX that it has made reasonable efforts to do so. In conducting its review of the Form U5, the member shall take such action as may be deemed appropriate.

The member shall also review an applicant's employment experience to determine if the applicant has been recently employed by a Futures Commission Merchant or an Introducing Broker that is notice-registered with the SEC pursuant to Section 15(b)(11) of the Exchange Act. In such a case, the member shall also review a copy of the applicant's most recent CFTC Form 8-T, including any amendments thereto, within 60 days of the filing date of an application for registration, or demonstrate to IEX that it has made reasonable efforts to do so. In conducting its review of a Form 8-T, the member shall take such action as may be deemed appropriate.

In addition, each member shall establish and implement written procedures reasonably designed to verify the accuracy and completeness of the information contained in an applicant's initial or transfer Form U4 no later than 30 calendar days after the form is filed with IEX. Such procedures shall, at a minimum, provide for a search of reasonably available public records to be conducted by the member, or a third-party service provider, to verify the accuracy and completeness of the information contained in the applicant's Form U4.

A Member's main office location is required to be registered and designated as a branch office or OSJ if it meets the definitions of a "branch office" or "office of supervisory jurisdiction" as set forth in IEX Rule 5.110(f). .03 Supervision of Multiple OSJs by a Single Principal.

Rule IEX 5.110 (a)(4) requires a Member to designate one or more appropriately registered principals in each OSJ with the authority to carry out the supervisory responsibilities assigned to that office ("on-site principal"). The designated on-site principal for each OSJ must have a physical presence, on a regular and routine basis, at each OSJ for which the principal has supervisory responsibilities. Consequently, there is a general presumption that a principal will not be designated and assigned to be the on-site principal pursuant to IEX Rule 5.110(a)(4) to supervise more than one OSJ. If a Member determines it is necessary to designate and assign one appropriately registered principal to be the on-site principal pursuant to IEX Rule 5.110(a)(4) to supervise two or more OSJs, the Member must take into consideration, among others, the following factors:

- (a) whether the on-site principal is qualified by virtue of experience and training to supervise the activities and associated persons in each location;*
- (b) whether the on-site principal has the capacity and time to supervise the activities and associated persons in each location;*
- (c) whether the on-site principal is a producing registered representative;*
- (d) whether the OSJ locations are in sufficiently close proximity to ensure that the on-site principal is physically present at each location on a regular and routine basis; and*
- (e) the nature of activities at each location, including size and number of associated persons, scope of business activities, nature and complexity of products and services offered, volume of business done, the disciplinary history of persons assigned to such locations, and any other indicators of irregularities or misconduct.*

The Member must establish, maintain, and enforce written supervisory procedures regarding the supervision of all OSJs. In all cases where a Member designates and assigns one on-site principal to supervise more than one OSJ, the Member must document in the Member's written supervisory and inspection procedures the factors used to determine why the Member considers such supervisory structure to be reasonable and the determination by the Member will be subject to scrutiny.

.04 Annual Compliance Meeting.

A Member is not required to conduct in-person meetings with each registered person or group of registered persons to comply with the annual compliance meeting (or interview) required by IEX Rule 5.110(a)(7). A Member that chooses to conduct compliance meetings using other methods (e.g., on-demand webcast or course, video conference, interactive classroom setting, telephone, or other electronic means) must ensure, at a minimum, that each registered person attends the entire meeting (e.g., an on-demand annual compliance webcast would require each registered person to use a unique user ID and password to gain access and use a technology platform to track the time spent on the webcast, provide click-as-you go confirmation, and have an attestation of completion at the end of a webcast) and is able to ask questions regarding the presentation and receive answers in a timely fashion (e.g., an on-demand annual compliance webcast that allows registered persons to ask questions via an email to a presenter or a centralized address or via a telephone hotline and receive timely responses directly or view such responses on the Member's intranet site).

.05 Risk-based Review of Member's Investment Banking and Securities Business.

A Member may use a risk-based review system to comply with Rule 5.110(b)(2)'s requirement that a registered principal review, all transactions relating to the investment banking or securities business of the Member. A Member is not required to conduct detailed reviews of each transaction if a Member is using a reasonably designed risk-based review system that provides a Member with sufficient information that permits the Member to focus on the areas that pose the greatest numbers and risks of violation.

.06 Risk-based Review of Correspondence and Internal Communications.

By employing risk-based principles, a Member must decide the extent to which additional policies and procedures for the review of:

(a) *incoming and outgoing written (including electronic) correspondence that fall outside of the subject matters listed in IEX Rule 5.110(b)(4) are necessary for its business and structure. If a Member's procedures do not require that all correspondence be reviewed before use or distribution, the procedures must provide for:*

- (1) *the education and training of associated persons regarding the firm's procedures governing correspondence;*
- (2) *the documentation of such education and training; and*
- (3) *surveillance and follow-up to ensure that such procedures are implemented and followed.*

(b) *internal communications that are not of a subject matter that require review under IEX Rules and federal securities laws are necessary for its business and structure.*

.07 Evidence of Review of Correspondence and Internal Communications.

The evidence of review required in IEX Rule 5.110(b) must be chronicled either electronically or on paper and must clearly identify the reviewer, the internal communication or correspondence that was reviewed, the date of review, and the actions taken by the Member as a result of any significant regulatory issues identified during the review. Merely opening a communication is not sufficient review.

.08 Delegation of Correspondence and Internal Communication Review Functions.

In the course of the supervision and review of correspondence and internal communications required by IEX Rule 5.110(b)(4), a supervisor/principal may delegate certain functions to persons who need not be registered. However, the supervisor/principal remains ultimately responsible for the performance of all necessary supervisory reviews, irrespective of whether he or she delegates functions related to the review. Accordingly, supervisors/principals must take reasonable and appropriate action to ensure delegated functions are properly executed and should evidence performance of their procedures sufficiently to demonstrate overall supervisory control.

.09 Retention of Correspondence and Internal Communications.

Each Member shall retain the internal communications and correspondence of associated persons relating to the Member's investment banking or securities business for the period of time and accessibility specified in SEA Rule 17a-4(b). The names of the persons who prepared outgoing correspondence and who reviewed the correspondence shall be ascertainable from the retained records, and the retained records shall be readily available to IEX, upon request.

.10 Supervision of Supervisory Personnel.

A Member's determination that it is not possible to comply with paragraphs (b)(6)(C)(i) or (b)(6)(C)(ii) of IEX Rule 5.110 prohibiting supervisory personnel from supervising their own activities and from reporting to, or otherwise having compensation or continued employment determined by, a person or persons they are supervising generally will arise in instances where:

- (a) *the Member is a sole proprietor in a single-person firm;*
- (b) *a registered person is the Member's most senior executive officer (or similar position); or*
- (c) *a registered person is one of several of the Member's most senior executive officers (or similar positions).*

.11 Use of Electronic Media to Communicate Written Supervisory Procedures.

A Member may use electronic media to satisfy its obligation to communicate its written supervisory procedures, and any amendment thereto, pursuant to IEX Rule 5.110(b)(7), provided that: (1) the written supervisory procedures have been promptly communicated to, and are readily accessible by, all associated persons to whom such supervisory procedures apply based on their activities and responsibilities through, for example, the Member's intranet system; (2) all amendments to the written supervisory procedures are promptly posted to the Member's electronic media; (3) associated persons are notified that amendments relevant to their activities and responsibilities have been made to the written supervisory procedures; (4) the Member has reasonable procedures to monitor

and maintain the security of the material posted to ensure that it cannot be altered by unauthorized persons; and (5) the Member retains current and prior versions of its written supervisory procedures in compliance with the applicable record retention requirements of SEA Rule 17a-4(e)(7).

.12 Standards for Reasonable Review.

In fulfilling its obligations under IEX Rule 5.110(c), each Member must conduct a review, at least annually, of the businesses in which it engages. The review must be reasonably designed to assist in detecting and preventing violations of and achieving compliance with applicable securities laws and regulations and with IEX rules. Each Member shall establish and maintain supervisory procedures that must take into consideration, among other things, the firm's size, organizational structure, scope of business activities, number and location of the firm's offices, the nature and complexity of the products and services offered by the firm, the volume of business done, the number of associated persons assigned to a location, the disciplinary history of registered representatives or associated persons, and any indicators of irregularities or misconduct (i.e., "red flags"), etc. The procedures established and reviews conducted must provide that the quality of supervision at remote locations is sufficient to ensure compliance with applicable securities laws and regulations and with IEX rules. A Member must be especially diligent in establishing procedures and conducting reasonable reviews with respect to a non-branch location where a registered representative engages in securities activities. Based on the factors outlined above, Members may need to impose reasonably designed supervisory procedures for certain locations or may need to provide for more frequent reviews of certain locations.

.13 General Presumption of Three-Year Limit for Periodic Inspection Schedules.

IEX Rule 5.110(c)(1)(C) requires a Member to inspect on a regular periodic schedule every non-branch location. In establishing a non-branch location inspection schedule, there is a general presumption that a non-branch location will be inspected at least every three years, even in the absence of any indicators of irregularities or misconduct (i.e., "red flags"). If a Member establishes a longer periodic inspection schedule, the Member must document in its written supervisory and inspection procedures the factors used in determining that a longer periodic inspection cycle is appropriate.

.14 Exception to Persons Prohibited from Conducting Inspections.

A Member's determination that it is not possible to comply with IEX Rule 5.110(c)(3)(B) with respect to who is not allowed to conduct a location's inspection will generally arise in instances where:

- (a) the Member has only one office; or*
- (b) the Member has a business model where small or single-person offices report directly to an OSJ manager who is also considered the offices' branch office manager.*

** Where such office of convenience is located on bank premises, signage necessary to comply with applicable federal and state laws, rules and regulations and applicable rules and regulations of other self-regulatory organizations, and securities and banking regulators may be displayed and shall not be deemed "holding out" for purposes of this section.*

.15 Temporary Relief to Allow Remote Inspections for Calendar Years 2021, 2022, 2023, and Through the Earlier of the Effective Date of the Remote Inspections Pilot Program or June 30, 2024.

(a) Use of Remote Inspections. Each Member obligated to conduct an inspection of an office of supervisory jurisdiction, branch office or non-branch location in the calendar years specified in this supplementary material pursuant to, as applicable, paragraphs (c)(1)(A), (B) and (C) under Rule 5.110 may, subject to the requirements of this Supplementary Material .15, satisfy such obligation by conducting the applicable inspection remotely, without an on-site visit to the office or location. Inspections for calendar year 2021 must have been completed on or before December 31, 2021, inspections for calendar year 2022 must have been completed on or before December 31, 2022, and inspections for calendar year 2023 must have been completed on or before December 31, 2023. With respect to a Member's obligation to conduct an inspection of an office or location in calendar year 2024, a Member has the option to conduct those inspections remotely through the earlier of the effective date of the Remote Inspections Pilot Program proposed in File No. SR-FINRA-2023-007, or June 30, 2024. Notwithstanding this Supplementary Material .15, a Member shall remain subject to the other requirements of Rule 5.110(c).

(b) Written Supervisory Procedures for Remote Inspections. Consistent with a Member's obligation under Rule 5.110(b)(1), a Member that elects to conduct its inspections remotely for any of the calendar years specified in this supplementary material must amend or supplement its written supervisory procedures to provide for remote inspections that are reasonably designed to assist in detecting and preventing violations of and achieving compliance with applicable securities laws and regulations, and with applicable IEX rules. Reasonably designed procedures for conducting remote inspections of offices or locations should include, among other things: (1) a description of the methodology, including technologies permitted by the Member, that may be used to conduct remote inspections; and (2) the use of other risk-based systems employed generally by the Member to identify and prioritize for review those areas that pose the greatest risk of potential violations of applicable securities laws and regulations, and of applicable IEX rules.

(c) Effective Supervisory System. The requirement to conduct inspections of offices and locations is one part of the Member's overall obligation to have an effective supervisory system and therefore, the Member must continue with its ongoing review of the activities and functions occurring at all offices and locations, whether or not the Member conducts inspections remotely. A Member's use of a remote inspection of an office or location will be held to the same standards for review as set forth under Rule 5.110, Supplementary Material .12. Where a Member's remote inspection of an office or location identifies any indicators of irregularities or misconduct (i.e., "red flags"), the Member may need to impose additional supervisory procedures for that office or location or may need to provide for more frequent monitoring of that office or location, including potentially a subsequent physical, on-site visit on an announced or unannounced basis when the Member's operational difficulties associated with COVID-19 abate, nationally or locally as relevant, and the challenges a Member is facing in light of the public health and safety concerns make such on-site visits feasible using reasonable best efforts. The temporary relief provided by this Supplementary Material .15 does not extend to a Member's inspection requirements beyond the earlier of the effective date of the Remote Inspections Pilot Program proposed in File No. SR-FINRA-2023-007, or June 30, 2024 and such inspections must be conducted in compliance with Rule 5.110(c).

(d) Documentation Requirement. A Member must maintain and preserve a centralized record for the calendar years specified in this Supplementary Material, that separately identifies: (1) all offices or locations that had inspections that were conducted remotely; and (2) any offices or locations for which the Member determined to impose additional supervisory procedures or more frequent monitoring, as provided in Supplementary Material .15(c). A Member's documentation of the results of a remote inspection for an office or location must identify any additional supervisory procedures or more frequent monitoring for that office or location that were imposed as a result of the remote inspection.

.16 Remote Inspections Pilot Program

Members that are obligated to conduct an inspection of an office of supervisory jurisdiction, branch office or non-branch location pursuant to, as applicable, paragraphs (c)(1)(A), (B) and (C) under IEX Rule 5.110 may satisfy such obligation by participating in the FINRA Remote Inspections Pilot Program, as set forth in FINRA Rule 3110.18. The FINRA Remote Inspections Pilot Program shall cover required inspections of such offices or locations for a period of three years starting on September 4, 2024 ("pilot period"), and such pilot period shall expire on July 1, 2027. If the pilot period is not extended, this Supplementary Material will automatically sunset on July 1, 2027. Members will not be able to participate in the FINRA Remote Inspections Pilot Program after such date.

.17 Residential Supervisory Location

Notwithstanding any other provisions of IEX Rule 5.110(f), a location that is the private residence of a person associated with a Member where supervisory activities are conducted, including those described in IEX Rule 5.110(f)(1)(D) through (G) or IEX Rule 5.110(f)(2)(B), which satisfies the conditions for designation as a Residential Supervisory Location set forth in FINRA Rule 3110.19 shall also be considered a nonbranch location for those activities pursuant to IEX's Rules.

(Amended by SR-IEX-2016-12 eff. August 11, 2016; amended by SR-IEX-2021-09 eff. June 11, 2021; amended by SR-IEX-2022-12 eff. Dec. 7, 2022; amended by SR-IEX-2022-14 eff. Dec. 23, 2022; amended by SR-IEX-2024-02 eff. January 8, 2024; amended by SR-IEX-2024-16 eff. September 3, 2024; amended by SR-IEX-2024-19 eff. September 20, 2024).

Rule 5.120. Supervisory Control System

- (a) Each Member shall designate and specifically identify to IEX one or more principals who shall establish, maintain, and enforce a system of supervisory control policies and procedures that:
- (1) test and verify that the Member's supervisory procedures are reasonably designed with respect to the activities of the Member and its associated persons, to achieve compliance with applicable securities laws and regulations, and with applicable IEX Rules; and
 - (2) create additional or amend supervisory procedures where the need is identified by such testing and verification. The designated principal or principals must submit to the Member's senior management no less than annually, a report detailing each Member's system of supervisory controls, the summary of the test results and significant identified exceptions, and any additional or amended supervisory procedures created in response to the test results.
- (b) Each report provided to senior management pursuant to paragraph (a) in the calendar year following a calendar year in which a Member reported \$200 million or more in gross revenue must include, to the extent applicable to the Member's business:
- (1) a tabulation of the reports pertaining to customer complaints and internal investigations made to IEX during the preceding year; and
 - (2) discussion of the preceding year's compliance efforts, including procedures and educational programs, in each of the following areas:
 - (A) trading and market activities;
 - (B) investment banking activities;
 - (C) antifraud and sales practices;
 - (D) finance and operations;
 - (E) supervision; and
 - (F) anti-money laundering.
- (c) For purposes of paragraph (b), "gross revenue" is defined as:
- (1) total revenue as reported on FOCUS Form Part II or IIA (line item 4030) less commodities revenue (line item 3990), if applicable; or
 - (2) total revenue as reported on FOCUS Form Part II CSE (line item 4030) less, if applicable, (A) commissions on commodity transactions (line item 3991); and (B) commodities gains or losses (line items 3924 and 3904).

Rule 5.130. Annual Certification of Compliance and Supervisory Processes

- (a) IEX Members and persons associated with a member shall comply with FINRA Rule 3130 as if such Rule were part of IEX's Rules.

(b) For purposes of this IEX Rule:

- (1) references to "FINRA Rules" shall be construed as references to "IEX Rules," and
- (2) references to "MSRB rules" shall be deleted.

Rule 5.140. Reserved.

Rule 5.150. Prevention of the Misuse of Material, Non-Public Information

Each Member must establish, maintain and enforce written procedures reasonably designed, taking into consideration the nature of such Member's business, to prevent the misuse of material, non-public information by such Member or persons associated with such Member. Members for whom the Exchange is the Designated Examining Authority that are required to file SEC form X-17A-5 with the Exchange on an annual or more frequent basis must file contemporaneously with the submission for the calendar year end Insider Trading and Securities Fraud Enforcement Act of 1988 compliance acknowledgements stating that the procedures mandated by this IEX Rule have been established, enforced and maintained. Any Member or associated person of a Member who becomes aware of a possible misuse of material, non-public information must notify the IEX Regulation.

(a) For purposes of this IEX Rule 5.150, conduct constituting the misuse of material, non-public information includes, but is not limited to, the following:

- (1) Trading in any securities issued by a corporation, or in any related securities or related options or other derivative securities, while in possession of material, non-public information concerning that issuer; or
- (2) Trading in a security or related options or other derivative securities, while in possession of material non-public information concerning imminent transactions in the security or related securities; or
- (3) Disclosing to another person or entity any material, non-public information involving a corporation whose shares are publicly traded or an imminent transaction in an underlying security or related securities for the purpose of facilitating the possible misuse of such material, non-public information.

(b) This IEX Rule 5.150 provides that, at a minimum, each Member establish, maintain, and enforce the following policies and procedures:

- (1) All associated persons of the Member must be advised in writing of the prohibition against the misuse of material, non-public information;
- (2) All associated persons of the Member must sign attestations affirming their awareness of, and agreement to abide by the aforementioned prohibitions. These signed attestations must be maintained for at least three years, the first two years in an easily accessible place;
- (3) Each Member must receive and retain copies of trade confirmations and monthly account statements for each account in which an associated person has a direct or indirect financial interest or makes investment decisions. The activity in such brokerage accounts should be reviewed at least quarterly by the Member for the purpose of detecting the possible misuse of material, non-public information;

- (4) All associated persons must disclose to the Member whether they, or any person in whose account they have a direct or indirect financial interest, or make investment decisions, are an officer, director, or 10% shareholder in a company whose shares are publicly traded. Any transaction in the stock (or option thereon) of such company shall be reviewed to determine whether the transaction may have involved a misuse of material non-public information.

Maintenance of the foregoing policies and procedures will not, in all cases, satisfy the requirements and intent of this IEX Rule 5.150; the adequacy of each Member's policies and procedures will depend upon the nature of such Member's business.

Rule 5.160. Anti-Money Laundering Compliance Program

Each Member shall develop and implement a written anti-money laundering program reasonably designed to achieve and monitor the Member's compliance with the requirements of the Bank Secrecy Act (31 U.S.C. 5311, et seq.), and the implementing regulations promulgated thereunder by the Department of the Treasury. Each Member's anti-money laundering program must be approved, in writing, by a Member of senior management. The anti-money laundering programs required by this IEX Rule 5.160 shall, at a minimum:

- (a) Establish and implement policies and procedures that can be reasonably expected to detect and cause the reporting of transactions required under 31 U.S.C. 5318(g) and the implementing regulations thereunder;
- (b) Establish and implement policies, procedures, and internal controls reasonably designed to achieve compliance with the Bank Secrecy Act and the implementing regulations thereunder;
- (c) Provide for annual (on a calendar-year basis) independent testing for compliance to be conducted by Member personnel or by a qualified outside party, unless the Member does not execute transactions for customers or otherwise hold customer accounts or act as an introducing broker with respect to customer accounts (e.g., engages solely in proprietary trading or conducts business only with other broker-dealers), in which case such "independent testing" is required every two years (on a calendar-year basis);
- (d) Designate and identify to IEX (by name, title, mailing address, e-mail address, telephone number, and facsimile number) an individual or individuals responsible for implementing and monitoring the day-to-day operations and internal controls of the program (such individual or individuals must be an associated person of the Member) and provide prompt notification to IEX regarding any change in such designation(s);
- (e) Provide ongoing training for appropriate personnel; and
- (f) Include appropriate risk-based procedures for conducting ongoing customer due diligence, to include, but not be limited to:
 - (i) Understanding the nature and purpose of customer relationships for the purpose of developing a customer risk profile; and
 - (ii) Conducting ongoing monitoring to identify and report suspicious transactions and, on a risk basis, to maintain and update customer information. For purposes of paragraph (f)(ii), customer information shall include information regarding the beneficial owners of legal entity customers (as defined in 31 CFR 1010.230(e)).

• • • **Supplementary Material** • • •

.01 Independent Testing Requirements

- (a) *All members should undertake more frequent testing than required if circumstances warrant.*
- (b) *Independent testing, pursuant to IEX Rule 5.160(c), must be conducted by a designated person with a working knowledge of applicable requirements under the Bank Secrecy Act and its implementing regulations.*
- (c) *Independent testing may not be conducted by:*
 - (1) *a person who performs the functions being tested,*
 - (2) *the designated anti-money laundering compliance person, or*
 - (3) *a person who reports to a person described in either subparagraphs (1) or (2) above.*

.02 Review of Anti-Money Laundering Compliance Person Information

Each member must identify, review, and, if necessary, update the information regarding its anti-money laundering compliance person designated pursuant to IEX Rule 5.160(d) in the manner prescribed by IEX Rule 2.170(g)

(Amended by SR-IEX-2018-22 eff. November 20, 2018).

Rule 5.170. Transactions for or by Associated Persons

Members and persons associated with a Member shall comply with FINRA Rule 3210 as if such Rule were part of IEX's Rules.

(Amended by SR-IEX-2018-04 eff. February 27, 2018).

CHAPTER 6. MISCELLANEOUS PROVISIONS

Rule 6.110. Comparison and Settlement Requirements

- (a) Every Member who is a Member of a registered clearing agency shall implement comparison and settlement procedures under the rules of such entity.
- (b) For purposes of this IEX Rule, a registered clearing agency shall mean a clearing agency (as defined in the Act) which has agreed to supply the Exchange with data reasonably requested in order to permit the Exchange to enforce compliance by its Members and Member organizations with the provisions of the Act, the rules and regulations thereunder, and the Rules of the Exchange.
- (c) Anything contained in paragraph (a) to the contrary notwithstanding, the Board may extend or postpone the time of the delivery of an Exchange transaction whenever, in its opinion, such action is called for by the public interest, by

just and equitable principles of trade or by the need to meet unusual conditions. In such case, delivery shall be effected at such time, place and manner as directed by the Board.

Rule 6.120. Failure to Deliver and Failure to Receive

- (a) Borrowing and deliveries shall be effected in accordance with Rule 203 of Regulation SHO, under the Exchange Act. The Exchange incorporates by reference Rules 200 and 203 of Regulation SHO, to this IEX Rule 6.120, as if they were fully set forth herein.

Rule 6.130. Forwarding of Proxy and Other Issuer-Related Materials; Proxy Voting

- (a) A Member when so requested by an issuer and upon being furnished with: (1) sufficient copies of proxy material, annual reports, information statements or other material required by law to be sent to security holders periodically, and (2) satisfactory assurance that it will be reimbursed by such issuer for all out-of-pocket expenses, including reasonable clerical expenses, shall transmit promptly to each beneficial owner of securities (or the beneficial owner's designated investment adviser) of such issuer which are in its possession and control and registered in a name other than the name of the beneficial owner all such material furnished. In the event of a proxy solicitation, such material shall include a signed proxy indicating the number of shares held for such beneficial owner and bearing a symbol identifying the proxy with proxy records maintained by the Member, and a letter informing the beneficial owner (or the beneficial owner's designated investment adviser) of the time limit and necessity for completing the proxy form and forwarding it to the person soliciting proxies prior to the expiration of the time limit in order for the shares to be represented at the meeting. A Member shall furnish a copy of the symbols to the person soliciting the proxies and shall also retain a copy thereof pursuant to the provisions of Exchange Act Rule 17a-4. This paragraph shall not apply to beneficial owners residing outside of the U.S. though Members may voluntarily comply with the provisions hereof in respect of such persons if they so desire.
- (b) No Member shall give a proxy to vote stock that is registered in its name, unless: (i) such Member is the beneficial owner of such stock; (ii) such proxy is given pursuant to the written instructions of the beneficial owner; or (iii) such proxy is given pursuant to the rules of any national securities exchange or association of which it is a Member provided that the records of the Member clearly indicate the procedure it is following.
- (c) Notwithstanding the foregoing, a Member that is not the beneficial owner of a security registered under Section 12 of the Exchange Act is prohibited from granting a proxy to vote the security in connection with a shareholder vote on the election of a Member of the board of directors of an issuer (except for a vote with respect to uncontested election of a Member of the board of directors of any investment company registered under the Investment Company Act of 1940), executive compensation, or any other significant matter, as determined by the Commission, by rule, unless the beneficial owner of the security has instructed the Member to vote the proxy in accordance with the voting instructions of the beneficial owner.
- (d) Notwithstanding the foregoing, a Member may give a proxy to vote any stock registered in its name if such Member holds such stock as executor, administrator, guardian, trustee, or in a similar representative or fiduciary capacity with authority to vote. A Member that has in its possession or within its control stock registered in the name of another Member and that desires to transmit signed proxies pursuant to the provisions of paragraph (a) of this IEX Rule 6.130, shall obtain the requisite number of signed proxies from such holder of record. Notwithstanding the foregoing: (1) any Member designated by a named Employee Retirement Income Security Act of 1974 (as amended) ("ERISA") Plan fiduciary as the investment manager of stock held as assets of the ERISA Plan may vote the proxies in accordance

with the ERISA Plan fiduciary responsibilities if the ERISA Plan expressly grants discretion to the investment manager to manage, acquire, or dispose of any plan asset and has not expressly reserved the proxy voting right for the named ERISA Plan fiduciary; and (2) any designated investment adviser may vote such proxies.

(e) Designated Investment Advisor

For purposes of this IEX Rule 6.130, the term “designated investment adviser” is a person registered under the Investment Advisers Act of 1940, or registered as an investment adviser under the laws of a state, who exercises investment discretion pursuant to an advisory contract for the beneficial owner and is designated in writing by the beneficial owner to receive proxy and related materials and vote the proxy, and to receive annual reports and other material sent to security holders.

(f) For purposes of this IEX Rule 6.130, the term “state” shall have the meaning given to such term in Section 202(a)(19) of the Investment Advisers Act (as the same may be amended from time to time).

(g) The written designation must be signed by the beneficial owner; be addressed to the Member; and include the name of the designated investment adviser.

(h) Members that receive such a written designation from a beneficial owner must ensure that the designated investment adviser is registered with the SEC pursuant to the Investment Advisers Act, or with a state as an investment adviser under the laws of such state, and that the investment adviser is exercising investment discretion over the customer’s account pursuant to an advisory contract to vote proxies and/or to receive proxy soliciting material, annual reports and other material. Members must keep records substantiating this information.

(i) Beneficial owners have an unqualified right at any time to rescind designation of the investment adviser to receive materials and to vote proxies. The rescission must be in writing and submitted to the Member.

Rule 6.140. Assigning of Registered Securities in Name of a Member or Member Organization

(a) A Member may authorize one or more persons who are its employees to assign registered securities in the name of such Member and to guarantee assignments of registered securities with the same effect as if the name of such Member had been signed under like circumstances by one of the partners of the Member firm or by one of the authorized officers of the Member corporation by executing and filing with the Exchange, in a form prescribed by it, a separate Power of Attorney for each person so authorized.

Rule 6.150. Commissions

Nothing in IEX Rules, the Operating Agreement or the Exchange practices shall be construed to require, authorize or permit any Member, or any person associated with a Member, to agree or arrange, directly or indirectly, for the charging of fixed rates of commission for transactions effected on, or effected by the use of the facilities of, the Exchange.

Rule 6.160. Off-Exchange Transactions

No rule, stated policy or practice of this Exchange shall prohibit or condition, or be construed to prohibit or condition or otherwise limit, directly or indirectly, the ability of any Member to effect any transaction otherwise than on this Exchange with another person in any security listed on this Exchange or to which unlisted trading privileges on this Exchange have been extended.

Rule 6.170. Regulatory Services Agreement

The Exchange may enter into one or more agreements with another self-regulatory organization to provide regulatory services to the Exchange to assist the Exchange in discharging its obligations under Section 6 and Section 19(g) of the Exchange Act. Any action taken by another self-regulatory organization, or its employees or authorized agents, acting on behalf of the Exchange pursuant to a regulatory services agreement shall be deemed to be an action taken by the Exchange; provided, however, that nothing in this provision shall affect the oversight of such other self-regulatory organization by the Commission. Notwithstanding the fact that the Exchange may enter into one or more regulatory services agreements, the Exchange shall retain ultimate legal responsibility for, and control of, its self-regulatory responsibilities, and any such regulatory services agreement shall so provide.

Rule 6.180. Transactions Involving IEX Employees

- (a) When a Member has actual notice that an IEX employee has a financial interest in, or controls trading in, an account, the Member shall promptly obtain and implement an instruction from the employee directing that duplicate account statements be provided by the Member to IEX.
- (b) No Member shall directly or indirectly make any loan of money or securities to any IEX employee. Provided, however, that this prohibition does not apply to loans made in the context of disclosed, routine banking and brokerage agreements, or loans that are clearly motivated by a personal or family relationship.

(a) Form, Service, Notice

Pursuant to IEX Rule 9.133, each Respondent named in a complaint shall serve an answer to the complaint on all other Parties within 25 days after service of the complaint on such Respondent, and at the time of service shall file such answer with the Office of Hearing Officers pursuant to IEX Rules 9.135, 9.136 and 9.137. When a Respondent intends to deny only part of an allegation, the Respondent shall specify so much of it as is admitted and

deny only the remainder. A statement of lack of information shall be deemed a denial. Any allegation not denied in whole or in part shall be deemed admitted. Any affirmative defense shall be asserted in the answer.

(c) Motion for More Definite Statement

A Respondent may file with an answer a motion for a more definite statement of specified matters of fact or law to be considered or determined. Such motion shall state why each such matter of fact or law should be required to be made more definite. If the motion is granted, the order granting such motion shall set the periods for filing such a statement and any answer thereto.

(d) Amendments to Answer

Upon motion by a Respondent, the Hearing Officer may, after considering good cause shown by the Respondent and any unfair prejudice which may result to any other Party, permit an answer to be amended.

(e) Extension of Time to Answer Amended Complaint

If a complaint is amended pursuant to IEX Rule 9.212(b), the time for filing an answer or amended answer shall be the greater of the original time period within which the Respondent is required to respond, or 14 days after service of the amended complaint. If any Respondent has already filed an answer, such Respondent shall have 14 days after service of the amended complaint, unless otherwise ordered by the Hearing Officer, within which to file an amended answer.

(f) Failure to Answer, Default

If a Respondent does not file an answer or make any other filing or request related to the complaint with the Office of Hearing Officers within the time required, the Department of Enforcement or the Department of Market Regulation shall send a second notice to such Respondent requiring an answer within 14 days after service of the second notice. The second notice shall state that failure of the Respondent to reply within the period specified shall allow the Hearing Officer, in the exercise of his or her discretion, pursuant to IEX Rule 9.269 to: (1) treat as admitted by the Respondent the allegations in the complaint; and (2) issue a default decision against the Respondent. If the Respondent fails to file an answer with the Office of Hearing Officers within the time required, the Hearing Officer may issue a default decision against the Respondent pursuant to IEX Rule 9.269.

Rule 9.216. Acceptance, Waiver, and Consent; Plan Pursuant to Exchange Act Rule 19d-1(c)(2)

The

letter shall describe the act or practice engaged in or omitted, the rule, regulation, or statutory provision violated, and the sanction or sanctions to be imposed. Unless the letter states otherwise, the effective date of any sanction(s) imposed will be a date to be determined by IEX Regulation staff.

- (2) (A) If a Member or person associated with a Member submits an executed minor rule violation plan letter, by the submission such Member or person associated with a Member also waives:

(b) Appointment of Hearing Officers and Hearing Panel

- (1) As soon as practicable after the Exchange initiates a suspension proceeding, a Hearing Panel shall be assigned in accordance with IEX Rules 9.231 and 9.232.
- (2) If at any time a Hearing Officer determines that he or she has a conflict of interest or bias or circumstances otherwise exist where his or her fairness might reasonably be questioned, or if a Party files a motion to disqualify a Hearing Officer, the recusal and disqualification proceeding shall be conducted in accordance with IEX Rule Series 9.200 except that:

(d) Issuance of Suspension Order by Hearing Panel

- (1) Basis for Issuance. The Hearing Panel shall issue a written decision stating whether a suspension order shall be imposed. The Hearing Panel shall issue the decision not later than ten days after receipt of the hearing transcript, unless otherwise extended by the Chief Hearing Officer with the consent of the Parties for good cause shown. With the filing of any Respondent’s answer, such Respondent may:

- (1) request a hearing;
- (2) propose an appropriate location for the hearing; and
- (3) propose, if applicable, an Extended Hearing Panel as described in IEX Rule 9.231.

If a Respondent requests a hearing, a hearing shall be granted. A Respondent who fails to request a hearing with the filing of his or her answer waives the right to a hearing unless a Hearing Officer, Hearing Panel, or, if applicable, an Extended Hearing Panel, grants, for good cause shown, a later filed motion by such Respondent requesting a hearing.

(b) Hearing Officer Order Requiring Hearing

In the absence of a request for a hearing from any Respondent, the Hearing Officer may order any complaint set down for hearing.

(c) Authority of Hearing Panel, Extended Hearing Panel to Order Hearing

If all Respondents waive a hearing, and the Hearing Officer does not order a hearing on his or her own motion, the Hearing Panel or, if applicable, the Extended Hearing Panel, may order a hearing or may consider the matter on the record, as defined in IEX Rule 9.267. If fewer than all Respondents waive a hearing, the Hearing Officer, the Hearing Panel, or, if applicable, the Extended Hearing Panel, may, in the exercise of its discretion, order that a hearing be held as to all Respondents. Alternatively, the Hearing Officer, the Hearing Panel, or, if applicable, the Extended Hearing Panel, may conduct a hearing as to only those Respondents who requested a hearing and consider the matter on the record as to those Respondents who waived a hearing.

(d) Notice of Hearing

The Hearing Officer shall issue a notice stating the date, time, and place of the hearing, and whether the hearing shall be held before a Hearing Panel or an Extended Hearing Panel, and shall serve such notice on the Parties at least 28 days before the hearing, unless:

- (1) in the discretion of the Hearing Officer, he or she determines that extraordinary circumstances require a shorter notice period; or
- (2) the Parties waive the notice period.

Rule 9.222. Extensions of Time, Postponements, and Adjournments

(a) Availability

At any time prior to the issuance of the decision of the Hearing Panel or, if applicable, the Extended Hearing Panel, the Hearing Officer may, for good cause shown, extend or shorten any time limits prescribed by the Code for the filing of any papers and may, consistent with paragraph (b), postpone or adjourn any hearing.

(b) Limitations on Postponements, Adjournments, and Extensions

A hearing shall begin at the time and place ordered, unless the Hearing Officer, for good cause shown, changes the place of the hearing, postpones the commencement of the hearing, or adjourns a convened hearing for a reasonable period of time, subject to the limitations in paragraph (b)(2) below.

(1) Additional Considerations

In considering a motion for the postponement of the start of a hearing or, adjournment once a hearing has begun, the Hearing Officer shall consider:

- (A) the length of the proceeding to date;
- (B) the number of postponements, adjournments, or extensions already granted;
- (C) the stage of the proceedings at the time of the request;

(D) potential harm to the investing public if an extension of time, adjournment, or postponement is granted; and

(E) such other matters as justice may require.

(2) Time Limit

Postponements, adjournments, or extensions of time for filing papers shall not exceed 28 days unless the Hearing Officer states on the record or provides by written order the reasons a longer period is necessary.

- (2) The Department of Enforcement or the Department of Market Regulation shall promptly inform the Hearing Officer and each other Party if, after the issuance of a complaint, requests for information under IEX Rule 8.210 are issued under the same investigative file number under which the investigation leading to the institution of disciplinary proceedings was conducted. If Interested Staff receive Documents pursuant to a request for information under IEX Rule 8.210 after Documents have been made available to a Respondent for inspection and copying as set forth in paragraph (a), and if such Documents are material and relevant to the disciplinary proceeding in which such Respondent is a Party, the additional Documents shall be made available to the Respondent not later than 14 days after the Interested Staff receives such Documents. If a hearing on the merits is scheduled to begin, Interested Staff shall make the additional Documents available to the Respondent not less than ten days before the hearing. If Interested Staff receives such Documents ten or fewer days before a

hearing on the merits is scheduled to begin or after such hearing begins, Interested Staff shall make the additional Documents available immediately to the Respondent.

- (3) Nothing in paragraph (a)(1) above shall limit the discretion of the Department of Enforcement or the Department of Market Regulation to make available any other Document or the authority of the Hearing Officer to order the production of any other Document.

(b) Withheld Documents

- (1) The Department of Enforcement or the Department of Market Regulation may withhold a Document if:
 - (A) the Document is privileged or constitutes attorney work product;
 - (B) the Document is an examination or inspection report, an internal memorandum, or other note or writing prepared by a FINRA or IEX employee that shall not be offered in evidence;

Upon review, the Hearing Officer may order the Department of Enforcement or the Department of Market Regulation to make the list or any Document withheld available to the other Parties for inspection and copying unless federal law prohibits disclosure of the Document or its existence. A motion to require the Department of Enforcement or the Department of Market Regulation to produce a list of Documents withheld pursuant to paragraph (b) shall be based upon some reason to believe that a Document is being withheld in violation of the Code.

(d) Timing of Inspection and Copying

The Hearing Officer shall determine the schedule of production of documents pursuant to this IEX Rule. Unless otherwise ordered by the Hearing Officer, the Department of Enforcement or the Department of Market Regulation shall commence making Documents available to a Respondent for inspection and copying pursuant to this IEX Rule not later than 21 days after service of the Respondent's answer or, if there are multiple Respondents, not later than 21 days after the last timely answer is filed. If a Respondent in a multi-Respondent case fails to answer, the Department of Enforcement or the Department of Market Regulation shall make Documents available to all other Respondents not later than the later of:

Documents subject to inspection and copying pursuant to this IEX Rule 9.251 shall be made available to the Respondent for inspection and copying at the IEX or FINRA office where they are ordinarily maintained, or at such other FINRA office as the Hearing Officer, in his or her discretion, shall designate, or as the Parties otherwise agree. A Respondent shall be given access to the Documents at IEX's or FINRA's offices during normal business hours. A Respondent shall not be given custody of the Documents or be permitted to remove the Documents from IEX's or FINRA's offices.

(g) Failure to Make Documents Available — Harmless Error

In the event that a Document required to be made available to a Respondent pursuant to this IEX Rule is not made available by the Department of Enforcement or the Department of Market Regulation, no rehearing or amended decision of a proceeding already heard or decided shall be required unless the Respondent establishes that the failure to make the Document available was not harmless error. The Hearing Officer, or, upon appeal or review, the IEX Appeals Committee, shall determine whether the failure to make the document available was not harmless error, applying applicable IEX, FINRA, SEC, and federal judicial precedent.

Rule 9.252. Requests for Information

(a) Content and Timing of Requests

A Respondent who requests that IEX invoke IEX Rule 8.210 to compel the production of Documents or testimony at the hearing shall do so in writing and serve copies on all Parties. Such request shall: be submitted to the Hearing Officer no later than 21 days before the scheduled hearing date; describe with specificity the Documents, the category or type of Documents, or the testimony sought; state why the Documents, the category or type of Documents, or the testimony are material; describe the requesting Party's previous efforts to obtain the Documents, the category or type of Documents, or the testimony through other means; and state whether the custodian of each Document, or the custodian of the category or type of Documents, or each proposed witness is subject to IEX's jurisdiction.

(b) Standards for Issuance

A request that IEX compel the production of Documents or testimony shall be granted only upon a showing that: the information sought is relevant, material, and non-cumulative; the requesting Party has previously attempted in good faith to obtain the desired Documents and testimony through other means but has been unsuccessful in such efforts; and each of the persons from whom the Documents and testimony are sought is subject to IEX's jurisdiction. In addition, the Hearing Officer shall consider whether the request is unreasonable, oppressive, excessive in scope, or unduly burdensome, and whether the request should be denied, limited, or modified.

(c) Limitations on Requests

If, after consideration of all the circumstances, the Hearing Officer determines that a request submitted pursuant to this IEX Rule is unreasonable, oppressive, excessive in scope, or unduly burdensome, he or she shall deny the request, or grant it only upon such conditions as fairness requires. In making the foregoing determination, the Hearing Officer may inquire of the other Parties whether they shall stipulate to the facts sought to be proved by the Documents or testimony sought. If the Hearing Officer grants the request, the Hearing Officer shall order that requested Documents be produced to all Parties not less than ten days before the hearing, and order that witnesses whose testimony was requested appear and testify at the hearing. If the Hearing Officer grants the request ten or fewer days before a hearing on the merits is scheduled to begin or after such hearing begins, the Documents or testimony shall be produced immediately to all Parties.

- (2) A Respondent in a disciplinary proceeding may also file a motion requesting that the Department of Enforcement or the Department of Market Regulation produce for inspection and copying any contemporaneously written statement made by an Interested Staff member during a routine examination or inspection about the substance of oral statements made by a non-IEX person when (a) either the Interested Staff member or non-IEX person is called as a witness by the Department of Enforcement or the Department of Market Regulation, and (b) that portion of the statement for which production is sought directly relates to the Interested Staff member's testimony or the testimony of the non-IEX witness.

(b) Failure to Produce — Harmless Error

In the event that a statement required to be made available for inspection and copying by a Respondent is not provided by the Department of Enforcement or the Department of Market Regulation, there shall be no rehearing of a proceeding already heard, or issuance of an amended decision in a proceeding already decided, unless the Respondent establishes that the failure to provide the statement was not harmless error. The Hearing Officer, or upon

appeal or review, the IEX Appeals Committee, shall determine whether the failure to provide any statement was not harmless error, applying applicable IEX, FINRA, SEC, and federal judicial precedent.

No later than ten days before the hearing, or at such earlier date as may be specified by the Hearing Officer, each Party shall submit to all other Parties and to the Hearing Officer copies of documentary evidence and the names of the witnesses each Party intends to present at the hearing. The documentary evidence submitted by the Parties prior to the hearing pursuant to this paragraph shall not become part of the record, unless the Hearing Officer, Hearing Panel, or Extended Hearing Panel orders some or all of it included pursuant to IEX Rule 9.267(a)(8). The Hearing Officer may order each Party to refrain from submitting its documentary evidence to the Hearing Officer.

(b) Party's Right to Be Heard

If a hearing is held, a Party shall be entitled to be heard in person, by counsel, or by the Party's representative. Upon a determination that proceeding in person may endanger the health or safety of the participants or would be impracticable, or upon consideration of a joint motion of the Parties for good cause shown, the Chief Hearing Officer or Deputy Chief Hearing Officer may, in the exercise of reasonable discretion, order the hearing to be conducted, in whole or in part, by video conference.

(c) Request to Submit Additional Evidence

Notwithstanding paragraph (a), a Party, for good cause shown, may seek to submit any additional evidence at the hearing as the Hearing Officer, in his or her discretion, determines may be relevant and necessary for a complete record.

(Amended by SR-IEX-2026-06 eff. February 23, 2026).

Rule 9.264. Motion for Summary Disposition

(a) Pre-hearing

After a Respondent's answer has been filed and Documents have been made available to that Respondent for inspection and copying pursuant to IEX Rule 9.251, the Respondent or the Department of Enforcement or the Department of Market Regulation, without leave of the Hearing Officer, may make a motion for summary disposition of any or all the causes of action in the complaint with respect to that Respondent, as well as any defense raised in a Respondent's answer. All pre-hearing motions for summary disposition and supporting papers shall be filed at least 21 days before the time set for the hearing, or at such earlier time as ordered by the Hearing Officer. Notwithstanding the provisions of IEX Rule 9.146(d), any opposition or response to a pre-hearing motion for summary disposition shall be filed at least seven days before the time set for the hearing.

(b) After Commencement of Hearing on Merits

After a hearing on the merits has commenced, a Respondent or the Department of Enforcement or the Department of Market Regulation may make a motion for summary disposition of any or all of the causes of action in the complaint with respect to that Respondent or defenses raised in that Respondent's answer only with leave of the Hearing Officer.

(c) Case Not Fully Adjudicated on Motion

If on motion under this IEX Rule a decision is not rendered upon the whole case or for all the relief asked and a hearing is necessary, the Hearing Panel or, if applicable, the Extended Hearing Panel, at the hearing of the motion, by examining the pleadings and the evidence before it and by questioning counsel, shall, if practicable, ascertain what material facts exist without substantial controversy and what material facts are actually and in good faith controverted. It shall thereupon make an order specifying the facts that appear without substantial controversy, and directing such further proceedings in the action as are just. Upon the hearing of the action the facts so specified shall be deemed established, and the hearing shall be conducted accordingly.

(d) Form of Papers

A motion for summary disposition pursuant to paragraph (a) shall be accompanied by the following: a statement of undisputed facts; a supporting memorandum of points and authorities; and affidavits or declarations that set forth such facts as would be admissible at the hearing and show affirmatively that the affiant is competent to testify to the matters stated therein. A memorandum of points and authorities in support or opposition shall not exceed 35 pages.

(e) Rulings on Motion

The Hearing Officer may promptly deny or defer decisions on any motion for summary disposition, however, only the Hearing Panel or, if applicable, the Extended Hearing Panel, may grant a motion for summary disposition, except the Hearing Officer may grant motions for summary disposition with respect to questions of jurisdiction. The Hearing Panel or, if applicable, the Extended Hearing Panel, may grant the motion for summary disposition if there is no genuine issue with regard to any material fact and the Party that files the motion is entitled to summary disposition as a matter of law. If a Party files a motion under paragraph (a), the facts alleged in the pleadings of the Party against whom the motion is made shall be taken as true, except as modified by stipulations or admissions made by the non-moving Party, by uncontested affidavits or declarations, or by facts officially noticed pursuant to IEX Rule 9.145. If a Party opposing a motion for summary disposition made under paragraph (a) cannot present, by affidavit prior to the

The proceeding shall conclude as of the date the order of acceptance is issued. The order of acceptance shall constitute final disciplinary action of IEX. The sanction shall take effect as set forth in the order.

(h) Uncontested Offer of Settlement Not Accepted

If an uncontested offer of settlement or an order of acceptance is not accepted by the Office of Disciplinary Affairs, the Hearing Panel or, if applicable, the Extended Hearing Panel, the Respondent shall be notified in writing and the offer of settlement and proposed order of acceptance shall be deemed withdrawn. An offer and proposed order of acceptance shall not constitute a part of the record in any proceeding against the Respondent making the offer.

(i) Disciplinary Proceeding With Multiple Respondents

When a disciplinary proceeding names multiple Respondents, settlement offers may be accepted or rejected as to any one or all of the Respondents submitting offers. The proceedings shall thereafter be terminated as to those Respondents whose offers of settlement are accepted, but such Respondents may be required to participate in any hearing conducted as to those Respondents that did not submit offers of settlement or whose offers of settlement were rejected.

(j) No Prejudice from Rejected Offer of Settlement

If an offer of settlement is rejected by the Office of Disciplinary Affairs, a Hearing Panel or, if applicable, an Extended Hearing Panel, the Respondent shall not be prejudiced by the offer, which may not be introduced into evidence in connection with the determination of the issues involved in the pending complaint or in any other proceeding.

Rule 9.280. Contemptuous Conduct

(a) Persons Subject to Sanctions

If a Party, attorney for a Party, or other person authorized to represent others by IEX Rule 9.141, engages in conduct in violation of an order of a Hearing Officer, a Hearing Panel or, if applicable, an Extended Hearing Panel, or other contemptuous conduct during a proceeding, a Hearing Officer, Hearing Panel or, if applicable, an Extended Hearing Panel, may:

- (1) subject the Party, attorney for a Party, or other person authorized to represent others by IEX Rule 9.141, to the sanctions set forth in paragraph (b); and
- (2) exclude an attorney for a Party, or other person authorized to represent others by IEX Rule 9.141, under IEX Rule 9.150.

(b) Sanctions Other Than Exclusion

A Hearing Officer, Hearing Panel or, if applicable, an Extended Hearing Panel, may make such orders as are just in regard to a Party, an attorney for a Party, or other person authorized to represent others by IEX Rule 9.141.

- (1) Such orders may include:
 - (A) an order providing that the matters on which the order is made or any other designated facts shall be taken to be established for the purposes of the disciplinary proceeding in accordance with the claim of the Party obtaining the order;
 - (B) an order providing that the disobedient Party may not support or oppose designated claims or defenses, or may not introduce designated matters in evidence;

- (C) an order providing that pleadings or a specified part of the pleading shall be stricken, or an order providing that the proceeding shall be stayed until the Party subject to the order obeys it;
 - (D) in lieu of any of the foregoing orders or in addition thereto, an order providing that contemptuous conduct includes the failure to obey any order; and
 - (E) an order as provided in subparagraphs (A), (B), and (C) where a Party has failed to comply with an order to produce a person for examination, unless the Party failing to comply shows that such Party is unable to produce such person for examination.
- (2) A Party that without substantial justification fails to disclose information required by IEX Rules 9.240 and 9.250 or otherwise required by order of the Hearing Officer, Hearing Panel or, if applicable, the Extended Hearing Panel, shall not, unless such failure is harmless, be permitted to use as evidence at a hearing, in a motion or in any other filing of papers, or in oral argument, any witness or information not so disclosed. In addition to, or in lieu of this sanction, the Hearing Officer, Hearing Panel or, if applicable, the Extended Hearing Panel, on motion and after affording an opportunity to be heard, may impose other appropriate sanctions. These sanctions may include any of the sanctions provided for in paragraphs (b)(1)(A) through (C) above.

(c) Review of Exclusions

If an attorney for a Party, or other person authorized to represent others by IEX Rule 9.141, is excluded from a disciplinary hearing or conference, or any portion thereof, such attorney or other person may seek review of the exclusion by filing a motion to vacate with the Chief Hearing Officer. Such motion to vacate shall be filed and served on all Parties within five days after service of the exclusion order. Any response shall be filed with the Chief Hearing Officer and served on all Parties within five days after the service of the motion to vacate. The Chief Hearing Officer shall consider such motion on an expedited basis and promptly issue a written order. The filing of a motion to vacate shall stay all aspects of the disciplinary proceeding until at least seven days after service of the order of the Chief Hearing Officer. The review proceedings shall be conducted on the basis of the written record without oral argument.

(d) Adjournment

The hearing, conferences, or other activities relating to the disciplinary proceeding shall be stayed pending the review by the Chief Hearing Officer of an exclusion order in paragraph (c). In the event that the Chief Hearing Officer upholds an exclusion of an attorney or other person authorized to represent others by IEX Rule 9.141, the Hearing Officer may, upon motion by a Party represented by an attorney or other person subject to an order of exclusion, grant an adjournment to allow the retention of new counsel or selection of a new representative. In determining whether to grant an adjournment or the length of an adjournment, the Hearing Officer shall consider whether there are other counsel or representatives of record on behalf of the Party, the availability of other counsel or other members of an excluded attorney's firm, or the availability of other representatives for the Party, and any other relevant factors.

Rule 9.290. Expedited Disciplinary Proceedings

For any disciplinary proceeding, the subject matter of which also is subject to a temporary cease and desist proceeding initiated pursuant to IEX Rule 9.810 or a temporary cease and desist order, hearings shall be held and decisions shall be rendered at the earliest possible time. An expedited hearing schedule shall be determined at a pre-hearing conference held in accordance with IEX Rule 9.241.

Rule Series 9.300. REVIEW OF DISCIPLINARY PROCEEDING BY IEX BOARD; APPLICATION FOR SEC REVIEW

Rule Series 9.310. APPEAL TO OR REVIEW BY THE IEX BOARD

Rule 9.311. Appeal by Any Party; Cross-Appeal

(a) Time to File Notice of Appeal

A Respondent or the Department of Enforcement or the Department of Market Regulation may file a written notice of appeal with the Secretary of IEX, which states the basis and reasons for such review within 25 days after service of a decision issued pursuant to IEX Rules 9.268 or 9.269, except that a decision concerning an IEX Member that is an affiliate may not be appealed to the Board.

(b) Effect

An appeal to the Board from a decision issued pursuant to IEX Rules 9.268 or 9.269 shall be heard by the IEX Appeals Committee of the Board, and shall operate as a stay of that decision until a decision is issued pursuant to IEX Rule 9.349 or, in cases called for discretionary review by the Board, until a decision is issued pursuant to IEX Rule 9.351. Any such appeal, however, will not stay a decision, or that part of a decision, that imposes a permanent cease and desist order.

(c) Notice of Appeal Content and Signature Requirements

A Party appealing pursuant to this IEX Rule 9.311 shall file a written notice of appeal with the Office of Hearing Officers and serve the notice on the Parties. The notice of appeal shall be signed by the appealing Party, or his or her counsel or representative, and shall contain:

- (1) the name of the disciplinary proceeding;
- (2) the disciplinary proceeding docket number;
- (3) the name of the Party on whose behalf the appeal is made;
- (4) a statement on whether oral argument before the IEX Appeals Committee is requested; and
- (5) a brief statement of the findings, conclusions, or sanctions as to which exceptions are taken.

(d) Notice of Cross-Appeal

A Party who is served with a notice of appeal may file a written notice of cross-appeal and serve the notice of cross-appeal on the Parties. The notice of cross-appeal shall be filed within five days after service of the notice of appeal. The notice of cross-appeal shall be signed by the Party cross-appealing, or his or her counsel, and shall contain the information set forth in paragraphs (c)(1), (c)(2), (c)(4), and (c)(5), and the name of the Party on whose behalf the cross-appeal is made.

(e) Waiver of Issues Not Raised

The IEX Appeals Committee may, in its discretion, deem waived any issue not raised in the notice of appeal or cross-appeal. The IEX Appeal Committee or the General Counsel shall provide the Parties with notice of, and an opportunity to submit briefs on, any issue that shall be considered by the IEX Appeals Committee if such issue was not previously set forth in the notice of appeal. Parties may submit motions to the IEX Appeals Committee challenging requests for briefing made by the General Counsel under this IEX Rule of issues that were not previously set forth in the notice of appeal.

(f) Withdrawal of Notice of Appeal or Cross-Appeal

A Party may withdraw a notice of appeal or a notice of cross-appeal filed by him or her at any time by filing a written notice of withdrawal of appeal or cross-appeal with the Office of Hearing Officers and serving notice thereof on the Parties. The notice of withdrawal of appeal or cross-appeal shall contain: the name of the disciplinary proceeding; the disciplinary proceeding docket number; and the name of the Party on whose behalf the notice of appeal or cross-appeal was filed previously. The notice of withdrawal of appeal or cross-appeal shall be signed by the Party, or his or her counsel or representative. Upon the withdrawal of a notice of appeal, any outstanding cross-appeal shall be treated as an appeal unless it is withdrawn.

Rule 9.312. Review Proceeding Initiated by the IEX Board

(a) Call for Review

(1) Rule 9.268 Decision

A decision issued pursuant to IEX Rule 9.268 may be subject to a call for review by any member of the Board. A decision issued pursuant to IEX Rule 9.268 shall be subject to a call for review within 45 days after the date of service of the decision. If called for review, such decision shall be reviewed by the IEX Appeals Committee.

(2) Rule 9.269 Decision

A default decision issued pursuant to IEX Rule 9.629 shall be subject to a call for review by the Chief Regulatory Officer, on his or her own motion within 25 days after the date of service of the decision. If called for review, such decision shall be reviewed by the IEX Appeals Committee.

(b) Effect

Institution of review by a member of the Board on his or her own motion or the Chief Regulatory Officer, on his or her own motion, shall operate as a stay of a final decision issued pursuant to IEX Rules 9.268 or 9.629 as to all Parties subject to the notice of review, until the IEX Appeals Committee issues a decision pursuant to IEX Rule 9.349, or, in cases called for discretionary review by the Board, until a decision is issued pursuant to IEX Rule 9.351. Institution of any such review, however, will not stay a decision, or that part of a decision, that imposes a permanent cease and desist order.

(c) Requirements

(1) If a member of the Board, or, for a disciplinary proceeding decided under IEX Rule 9.269, the Chief Regulatory Officer determines to call a case for review, a written notice of review shall be served promptly on each Party to the proceeding and filed with the Office of Hearing Officers. Such notice of review shall contain:

(A) the name of the disciplinary proceeding;

- (B) the disciplinary proceeding docket number; and
- (C) a brief statement of the findings, conclusions, or sanctions with respect to which the Board or the Chief Regulatory Officer determined that a call for review was necessary.

- (2) The statement contained in the notice of review shall not limit the scope of the Board's authority under IEX Rule 9.346 to review any issues raised in the record. The Board or the Chief Regulatory Officer shall provide the Parties with notice of, and an opportunity to submit briefs on, any issue that shall be considered by the IEX Appeals Committee if such issue was not previously set forth in the notice of review. Parties may submit motions to the IEX Appeals Committee requests for briefing made by the General Counsel under this IEX Rule 9.312 of issues that were not previously set forth in the notice of appeal.

(d) Effect of Withdrawal of Notice of Appeal, Cross-Appeal

If the review of a disciplinary proceeding by the IEX Appeals Committee is terminated before the IEX Appeals Committee issues a decision on the merits because all appealing Parties file a notice of withdrawal of appeal and no Party previously filed a notice of cross-appeal, or all Parties who previously filed a notice of cross-appeal file a notice of withdrawal of cross-appeal:

- (1) a member of the Board shall have the right to call for review a decision issued pursuant to IEX Rule 9.268 in accordance with IEX Rule 9.312(a)(1), except that the 45 day period during which a call for review may be made shall begin on the day IEX receives the last filed notice of withdrawal of appeal or, if applicable, the last filed notice of withdrawal of cross-appeal; and,
- (2) the Chief Regulatory Officer shall have the right to call for review a decision issued pursuant to IEX Rule 9.269 in accordance with IEX Rule 9.312(a)(2), except that the 25-day period during which a call for review may be made shall begin on the day IEX receives the last filed notice of withdrawal of appeal or, if applicable, the last filed notice of withdrawal of cross-appeal.

Rule 9.313. Counsel to IEX Board and Appeals Committee

(a) Authority

A Counsel to the Board and Appeals Committee shall have authority to take ministerial and administrative actions to further the efficient administration of a proceeding, including the authority to:

- (1) direct the Office of Hearing Officers to complete and transmit a record of a disciplinary proceeding to the IEX Appeals Committee in accordance with IEX Rule 9.267;
- (2) establish or amend a briefing schedule under IEX Rule 9.347(b) but not shorten a briefing schedule except with the consent of the Parties;
- (3) permit a brief or any other document required to be filed to vary from the requirements of IEX Rule 9.130 as provided in IEX Rule 9.347(a);
- (4) establish the date, time, and location of an oral argument and provide for notice of the hearing under IEX Rule 9.341;

- (5) for other than a Party and counsel or a person acting in a representative capacity, determine who may attend a hearing;
- (6) rule on a motion by a Party to request to lengthen or shorten a period of time prescribed by the Code for the filing of any papers, or request that a hearing be postponed or adjourned under IEX Rule 9.322, except that a period may not be shortened and a hearing may not be postponed or adjourned without the consent of the Parties;
- (7) create and maintain the official record of the disciplinary proceeding on appeal or review; and
- (8) establish the number of copies of all papers that shall be filed with the Adjudicator under IEX Rule 9.136.

(b) Review

A Party seeking the review of a decision of a Counsel to the Board or Appeals Committee may make a motion to the IEX Appeals Committee.

Rule 9.321. Transmission of Record

Within 21 days after the filing of a notice of appeal or notice of review, or at such later time as the IEX Appeals Committee may designate, the Office of Hearing Officers shall assemble and prepare an index to the record, transmit the record and the index to the IEX Appeals Committee, and serve copies of the index upon all Parties. The Office of Hearing Officers may serve the index by electronic mail. Service by electronic mail shall be deemed complete upon sending of the index. The Hearing Officer who participated in the disciplinary proceeding, or the Chief Hearing Officer, shall certify that the record transmitted to the IEX Appeals Committee is complete.

(Amended by SR-IEX-2023-04 eff. Apr. 3, 2023).

Rule 9.322. Extensions of Time, Postponements, Adjournments

(a) Availability

At any time prior to the issuance of a decision pursuant to IEX Rule 9.349, the IEX Appeals Committee or Counsel to the IEX Appeals Committee, for good cause shown, may extend or shorten a period prescribed by the Code for the filing of any papers, except that Counsel to the IEX Appeals Committee may shorten a period so prescribed only with the consent of the Parties. The IEX Appeals Committee or Counsel to the IEX Appeals Committee, for good cause shown, may postpone or adjourn a hearing consistent with paragraph (b), except that Counsel to the IEX Appeals Committee may postpone or adjourn a hearing only with the consent of the Parties.

(b) Limitations on Postponements, Adjournments, and Changes in Location

Oral argument shall begin at the time and place ordered, unless the IEX Appeals Committee or Counsel to the IEX Appeals Committee, for good cause shown, postpones, adjourns, or changes the location of the oral argument, except that Counsel to the IEX Appeals Committee may postpone or adjourn the oral argument only with the consent of the Parties. In considering a motion for the postponement or adjournment of an oral argument, the IEX Appeals Committee or Counsel to the IEX Appeals Committee shall consider, in addition to any other relevant factors:

- (1) the length of time the disciplinary proceeding has been pending to date, and the timeliness of the request for a postponement, an adjournment, or an extension;

- (2) the number of postponements, adjournments, or extensions already granted;
- (3) the stage of the proceedings at the time of the request;
- (4) the prejudice to the other Parties;
- (5) the potential harm to the investing public if an extension of time, an adjournment, or a postponement is granted; and
- (6) any other matter that justice may require.

Rule 9.331. Reserved.

Rule 9.332. Disqualification and Recusal

(a) Recusal, Withdrawal of Member or Panelist

If at any time a member of the IEX Appeals Committee or a Counsel to the IEX Appeals Committee determines that the member or the Counsel to the IEX Appeals Committee has a conflict of interest or bias or circumstances otherwise exist where the fairness of the member or the Counsel to the IEX Appeals Committee might reasonably be questioned, the member or the Counsel to the IEX Appeals Committee shall notify the Chair of the IEX Appeals Committee who shall issue and serve on the Parties a notice stating that the member or the Counsel to the IEX Appeals Committee has withdrawn from the matter. In the event that a member of the IEX Appeals Committee withdraws, is incapacitated, or is otherwise unable to continue service after assignment, the Chair of the Board shall appoint another member of the Board to serve on the IEX Appeals Committee for the limited purpose of considering the issues raised in the disciplinary proceeding in which the withdrawal action was taken. In the event that a Counsel to the IEX Appeals Committee withdraws, is incapacitated, or is otherwise unable to continue service after assignment, the General Counsel shall assign a replacement Counsel to the IEX Appeals Committee.

(b) Motion for Disqualification

A Party may move for the disqualification of a member of the IEX Appeals Committee or a Counsel to the IEX Appeals Committee. All such motions shall be based upon a reasonable, good faith belief that a conflict of interest or bias exists or circumstances otherwise exist where the fairness of the member or the Counsel to the IEX Appeals Committee might reasonably be questioned, and shall be accompanied by an affidavit setting forth in detail the facts alleged to constitute grounds for disqualification, and the dates on which the Party learned of those facts. Such motions shall be filed not later than 15 days after the later of:

- (1) when the Party learned of the facts believed to constitute the disqualification; or
- (2) when the Party was notified of the composition of the IEX Appeals Committee or the assignment to the disciplinary proceeding of the Counsel to the IEX Appeals Committee.

(c) Disposition of Disqualification Motions: Challenges to Single Member of IEX Appeals Committee, or Counsel to the IEX Appeals Committee

Motions for disqualification of a member of the IEX Appeals Committee, or a Counsel to the IEX Appeals Committee shall be decided by the Chair of the IEX Appeals Committee (unless the member in question is the Chair in which case

a majority of the other members of the IEX Appeals Committee shall make the determination), who shall promptly determine whether disqualification is required and issue a written ruling on the motion. If a member of the IEX Appeals Committee is disqualified, the Chair of the IEX Appeals Committee (or a majority of the other members of the IEX Appeals Committee if the Chair is disqualified) shall appoint another member of the Board to serve on the IEX Appeals Committee for the limited purpose of considering the issues raised in the disciplinary proceeding in which the motion was made. If a Counsel is disqualified, the General Counsel shall assign a replacement Counsel to the IEX Appeals Committee.

(d) Disposition of Disqualification Motions: Challenges to Multiple Members or Panelists

If a Party files a motion to disqualify more than one member of the IEX Appeals Committee, the Chair of the IEX Appeals Committee shall promptly determine whether disqualification is required, and shall issue a written ruling on the matter. In the event of such disqualification, the remaining members of the IEX Appeals Committee shall consider the review or appeal of the disciplinary matter.

Rule Series 9.340. PROCEEDINGS

Rule 9.341. Oral Argument

(a) Request for Oral Argument

A Party may request oral argument before the IEX Appeals Committee. Oral argument shall be requested in writing either in the Party's notice of appeal or cross-appeal or within 15 days after service of the IEX Appeal Committee's notice of review. Subject to the limitations of IEX Rules 9.342 and 9.344, oral argument shall be granted if timely requested. The right to oral argument set forth in this IEX Rule is unaffected by a Party's waiver of, or failure to request, a hearing pursuant to IEX Rule Series 9.200. The IEX Appeals Committee may cancel in writing a previously scheduled oral argument for good cause shown due to abandonment or similar unreasonable availability.

(b) Discretion to Proceed With or Without Oral Argument

In the absence of a request for oral argument, the IEX Appeals Committee, in its discretion, may order that a matter be set down for oral argument or may consider the matter on the basis of the record.

(c) Notice Regarding Oral Argument

If oral argument is held, a notice stating the date, time, and location of the oral argument shall be served on the Parties at least 21 days before the hearing and may be served by electronic mail. Service by electronic mail shall be deemed complete upon sending of the notice. The Parties may agree in writing to waive the notice period or, in extraordinary circumstances, the IEX Appeals Committee or Counsel to the IEX Appeals Committee may provide for a shorter notice period, except that Counsel to the IEX Appeals Committee may provide for a shorter notice period only with the consent of the Parties.

(d) Mode of Oral Argument

The Parties shall make oral arguments before the IEX Appeals Committee. Unless otherwise agreed to by all of the Parties, all members of the IEX Appeals Committee shall participate in the oral argument. The IEX Appeals Committee may, in the exercise of reasonable discretion, order oral argument by video conference, in whole or in part, (i) upon a determination that proceeding in person may endanger the health or safety of the participants or would be

impracticable; or (ii) upon a determination, on its own or on motion of a Party, that oral argument should occur by video conference for other reasons, unless any Party demonstrates that conducting oral argument by video conference would materially disadvantage that Party.

(e) Time Limits

Unless the IEX Appeals Committee orders otherwise for good cause shown, each Party's oral argument shall be limited to a total of 30 minutes.

(f) Recordation; Transcript Correction

- (1) Oral arguments shall be recorded by a court reporter and a transcript shall be prepared.
- (2) A transcript of a hearing shall be available to a Party for purchase from the court reporter at prescribed rates. A witness may purchase a transcript of his or her own testimony from the court reporter.
- (3) Prior to the filing of post-hearing briefs or within such earlier time as reasonably ordered by the IEX Appeals Committee a Party or witness may seek to correct his or her transcript. A proposed correction of the transcript shall be submitted by affidavit to the IEX Appeals Committee. Upon notice to all Parties to the disciplinary proceeding, the IEX Appeals Committee may order the correction to the transcript as requested or sua sponte.

(Amended by SR-IEX-2023-04 eff. Apr. 3, 2023; amended by SR-IEX-2026-06 eff. February 23, 2026).

Rule 9.342. Failure to Appear at Oral Argument

A Party who requests oral argument but fails to appear after being duly notified shall be deemed to have waived any opportunity for oral argument provided under IEX Rule Series 9.300. The IEX Appeals Committee shall permit argument to go forward as to those Parties who appear. The IEX Appeals Committee, in the exercise of its discretion, may consider the matter on the basis of the record without oral argument as to those Parties who failed to appear.

Rule 9.343. Disposition without Oral Argument

If an oral argument is not held, the matter shall be considered by the IEX Appeals Committee, on the basis of the record, as defined in IEX Rule 9.267, and supplemented by any written materials submitted to or issued by the IEX Appeals Committee in connection with the appeal, cross-appeal, or call for review.

Rule 9.344. Failure to Participate Below; Abandonment of Appeal

(a) Failure to Participate Below

If an appealing Party did not participate in the disciplinary proceeding before a Hearing Officer, a Hearing Panel or, if applicable, an Extended Hearing Panel, and fails to show good cause for the failure to participate, the matter shall be considered by the IEX Appeals Committee on the basis of the record and other documents, as provided in IEX Rules 9.346 and 9.347. When good cause is shown, the IEX Appeals Committee shall remand the disciplinary proceeding with instructions. For purposes of this paragraph, failure to participate shall include failure to file an answer or otherwise respond to a complaint, or failure to appear at a scheduled hearing, but shall not include failure to request a hearing pursuant to IEX Rule 9.221.

(b) Abandonment of Appeal

If an appealing Party fails to advise the IEX Appeals Committee of the basis for seeking review or otherwise fails to provide information or submit a written brief in response to a request pursuant to IEX Rules 9.346 and 9.347, the IEX Appeals Committee may dismiss the appeal as abandoned, and the decision of the Hearing Officer, the Hearing Panel or, if applicable, the Extended Hearing Panel, shall become the final disciplinary action of IEX. If a cross-appealing Party fails to advise the IEX Appeals Committee of the basis for seeking review or otherwise fails to provide information or submit a written brief in response to a request pursuant to IEX Rules 9.346 and 9.347, the IEX Appeals Committee may dismiss the cross-appeal as abandoned. Upon a showing of good cause, the IEX Appeals Committee may withdraw any dismissal entered pursuant to this IEX Rule.

Rule 9.345. Reserved.

Rule 9.346. Evidence in IEX Appeals Committee Proceedings

(a) Scope of Review

Except as otherwise set forth in this paragraph, the IEX Appeals Committee's review shall be limited to consideration of:

- (1) the record, as defined in IEX Rule 9.267, supplemented by briefs and other papers submitted to the IEX Appeals Committee; and
- (2) any oral argument permitted under this Code.

A Party may introduce additional evidence only with prior approval of the IEX Appeals Committee, upon a showing that extraordinary circumstances exist under paragraph (b) below. If an appealing Party shows good cause for failure to participate in the disciplinary proceeding below, the IEX Appeals Committee may hear evidence and consider the disciplinary proceeding pursuant to IEX Rule 9.344(a).

(b) Leave to Introduce Additional Evidence

A Party may apply to the IEX Appeals Committee for leave to introduce additional evidence by motion filed not later than 30 days after the Office of Hearing Officers transmits to the IEX Appeals Committee and serves upon all Parties the index to the record, pursuant to IEX Rule 9.321. The motion shall describe each item of proposed new evidence, demonstrate that there was good cause for failing to introduce it below, demonstrate why the evidence is material to the proceeding, and be filed and served. The Party may attach the documentary evidence as an exhibit to the motion. By a motion filed in accordance with IEX Rule 9.146, a Party may request an extension of the period during which a Party may file a motion for leave to introduce additional evidence. A Party shall demonstrate that there was good cause for failing to file the motion for leave to introduce additional evidence during the period prescribed.

(c) Motion In Opposition; Motion to Introduce Rebuttal Evidence

A Party may file an opposition to a motion, as provided in IEX Rule 9.146(d), for leave to introduce new evidence, and may move for leave to introduce rebuttal evidence in response to the proposed new evidence. A Party who moves to introduce rebuttal evidence in response to the proposed new evidence of another Party shall describe each item of proposed rebuttal evidence and explain why the evidence is material to the proceeding, and shall file and serve such motion.

(d) Discretion Regarding Review of Additional Evidence

Upon consideration of any motion to introduce additional evidence and any opposition thereto, the IEX Appeals Committee may permit the evidence to be introduced into the record on review, or may remand the disciplinary proceeding for further proceedings consistent with its ruling or for further fact finding.

(e) Requirements for Submitting Additional Documentary Evidence

A Party that is permitted to introduce additional documentary evidence before the IEX Appeals Committee pursuant to paragraph (d) shall make copies of the evidence available to the IEX Appeals Committee and to all Parties at such time as the IEX Appeals Committee may specify.

(f) Additional Evidence

On its own motion, the IEX Appeals Committee may order that the record be supplemented with such additional evidence as it may deem relevant. Among other things, the IEX Appeals Committee may order a Respondent who asserts his or her inability to pay a monetary sanction to file a sworn financial statement and to keep such statement current as ordered by the IEX Appeals Committee.

(g) Rules of Evidence Not Applicable

The formal rules of evidence shall not apply.

(h) Testimony

A person who is subject to the jurisdiction of IEX shall testify under oath or affirmation. The oath or affirmation shall be administered by a court reporter or a notary public.

Rule 9.347. Filing of Papers in IEX Appeals Committee Proceedings

(a) Briefs; Reply Briefs; Requirements

Parties may file briefs in connection with proceedings governed by IEX Rule Series 9.300. Briefs shall be confined to the particular matters at issue. An exception to findings, conclusions, or sanctions shall be supported by citation to the relevant portions of the record, including references to specific pages relied upon, and by concise argument, including citation of such statutes, decisions, and other authorities as may be relevant. If an exception relates to the admission or exclusion of evidence, the substance of the evidence admitted or excluded shall be set forth in the brief, an appendix thereto, or by citation to the record. Parties may file reply briefs. If a Party files a reply brief, such brief shall be limited to matters in reply. All briefs shall conform to the requirements of IEX Rule Series 9.130, and, except with advance leave of the IEX Appeals Committee, or Counsel to the IEX Appeals Committee, exclusive of pages containing tables of contents or tables of authorities, a brief other than a reply brief shall not exceed 25 double-spaced pages, and a reply brief shall not exceed 12 double-spaced pages.

(b) Timely Filing of Briefs

Briefs shall be due upon dates established by the IEX Appeals Committee, or Counsel to the IEX Appeals Committee in a scheduling order. Unless the IEX Appeals Committee, or Counsel to the IEX Appeals Committee specifies otherwise, opening briefs shall be submitted not less than 21 days from the date of the scheduling order, and answering briefs shall be submitted 21 days thereafter. When reply briefs are submitted, such briefs shall be filed not later than ten days after service of the answering brief. Counsel to the IEX Appeals Committee may not shorten a period

previously established for the filing of briefs except with the consent of the Parties. The time periods listed in this provision are only applicable to the filing of opening briefs, answering briefs, and reply briefs.

Rule 9.348. Powers of the IEX Appeals Committee on Review

In any appeal or review proceeding pursuant to IEX Rule Series 9.300, the IEX Appeals Committee may affirm, dismiss, modify, or reverse with respect to each finding, or remand the disciplinary proceeding with instructions. The IEX Appeals Committee may affirm, modify, reverse, increase, or reduce any sanction, or impose any other fitting sanction.

Rule 9.349. IEX Appeals Committee Formal Consideration; Decision

(a) Decision of IEX Appeals Committee, Including Remand

In an appeal or review of a disciplinary proceeding governed by IEX Rule Series 9.300 that is not withdrawn or dismissed prior to a decision on the merits, the IEX Appeals Committee, after considering all matters presented in the appeal or review, may affirm, dismiss, modify or reverse the decision of the Hearing Panel or, if applicable, Extended Hearing Panel, with respect to each Respondent who has appealed or cross-appealed or is subject to a call for review. The IEX Appeals Committee may affirm, modify, reverse, increase, or reduce any sanction, or impose any other fitting sanction. Alternatively, the IEX Appeals Committee may remand the disciplinary proceeding with instructions. The IEX Appeals Committee shall prepare a proposed written decision pursuant to paragraph (b) below.

(b) Contents of Decision

The decision shall include:

- (1) a statement describing the investigative or other origin of the disciplinary proceeding, if not otherwise contained in the record;
- (2) the specific statutory or rule provisions that were alleged to have been violated;
- (3) a statement setting forth the findings of fact with respect to any act or practice the Respondent was alleged to have committed or omitted;
- (4) the conclusions as to whether the Respondent violated any provision alleged in the complaint;
- (5) a statement in support of the disposition of the principal issues raised in the proceeding; and
- (6) a statement describing any sanction imposed, the reasons therefor, and, pursuant to IEX Rule 9.360, the date upon which such sanction shall become effective.

(c) Issuance of Decision After Expiration of Call for Review Period

If the Board does not call the disciplinary proceeding for review, the proposed written decision of the IEX Appeals Committee shall become final, and the IEX Appeals Committee shall serve its written decision on the Parties and provide a copy to each member of IEX with which a Respondent is associated. The IEX Appeals Committee may serve its written decision by electronic mail. Service by

electronic mail shall be deemed complete upon sending the decision. The decision shall constitute the final disciplinary action of IEX for purposes of Rule 19d-1(c)(1) of the Act, unless the IEX Appeals Committee remands the proceeding.

(Amended by SR-IEX-2023-04 eff. Apr. 3, 2023).

The Board shall issue and serve its written decision on the Parties and provide a copy to each Member of IEX with which a Respondent is associated. A bar, an expulsion, or a permanent cease and desist order shall become effective upon service of the decision constituting final disciplinary action of IEX, unless otherwise specified therein. IEX shall serve the decision on a Respondent by courier, facsimile or other means reasonably likely to obtain prompt service when the sanction is a bar, an expulsion, or a permanent cease and desist order.

(a) Appeal to SEC; Effect

A Respondent aggrieved by final disciplinary action pursuant to IEX Rule Series 9.200 or 9.300 may apply for review by the SEC pursuant to Section 19(d)(2) of the Exchange Act. The notice shall specify the grounds for such disqualification or ineligibility. IEX staff shall not issue such written notice to Members or applicants for membership under IEX Rule 2.160(d) with respect to disqualifications arising solely from findings or orders specified in Section 15(b)(4)(D), (E), or (H) of the Exchange Act or arising under Section 3(a)(39)(E) of the Exchange Act, unless the Member or applicant for membership under IEX Rule 2.160(d) is required to file an application pursuant to Supplementary Material .01 to this IEX Rule 9.522.

(2) Notice Regarding a Member

A notice issued to a disqualified Member shall state that the disqualified Member may apply for relief by filing an application or, in the case of a matter set forth in IEX Rule 9.522(e)(1), a written request for relief, within ten business days after service of the notice. (d) Ex Parte Communications

The prohibitions against ex parte communications set forth in IEX Rule 9.143 shall become effective under the IEX Rule 9.520 when IEX staff has initiated the eligibility proceeding and IEX staff has knowledge that a Member intends to file an application or written request for relief pursuant to IEX Rule 9.520.

(e) Member Regulation Consideration

- (1) Matters that may be Approved by IEX Regulation without the Filing of an Application

IEX Regulation, as it deems consistent with the public interest and the protection of investors, is authorized to approve a written request for relief from the eligibility requirements by a disqualified Member or a sponsoring Member without the filing of an application by such disqualified Member or sponsoring Member if a disqualified Member or disqualified person is subject to one or more of the following conditions but is not otherwise subject to disqualification:

- (A) a disqualified Member or disqualified person is subject to a disqualification based on an injunction that was entered ten or more years prior to the proposed admission or continuance by order, judgment, or decree of any court of competent jurisdiction from acting as an investment adviser, underwriter, broker, dealer, municipal securities dealer, government securities broker, government securities dealer, transfer

agent, foreign person performing a function substantially equivalent to any of the above, entity or person required to be registered under the Commodity Exchange Act, or any substantially equivalent foreign statute or regulation, or as an affiliated person or employee of any investment company, bank, insurance company, foreign entity substantially equivalent to any of the above, or entity or person required to be registered under the Commodity Exchange Act or any substantially equivalent foreign statute or regulation, or from engaging in or continuing any conduct or practice in connection with any such activity, or in connection with the purchase or sale of any security.

- (B) a sponsoring Member makes a request to change the supervisor of a disqualified person; or
- (C) a disqualified Member or sponsoring Member is a Member of both IEX and another self-regulatory organization; and:
 - (i) the other self-regulatory organization intends to file a Notice under Exchange Act Rule 19h-1 approving the membership continuance of the disqualified Member or, in the case of a sponsoring Member, the proposed association or continued association of the disqualified person; and
 - (ii) IEX Regulation concurs with that determination.

(2) Matters that may be Approved by IEX Regulation after the Filing of an Application

IEX Regulation, as it deems consistent with the public interest and the protection of investors, is authorized to approve an application filed by a disqualified Member or sponsoring Member if the disqualified Member or disqualified person is subject to one or more of the following conditions but is not otherwise subject to disqualification (other than a matter set forth in paragraph (e)(1)):

- (A) The disqualified person is already a participant in, a Member of, or a person associated with a Member of, a self-regulatory organization (other than IEX), and the terms and conditions of the proposed admission to IEX are the same in all material respects as those imposed or not disapproved in connection with such person's prior admission or continuance pursuant to an order of the SEC under Exchange Act Rule 19h-1 or other substantially equivalent written communication;
- (B) IEX Regulation finds, after reasonable inquiry, that except for the identity of the employer concerned, the terms and conditions of the proposed admission or continuance are the same in all material respects as those imposed or not disapproved in connection with a prior admission or continuance of the disqualified person pursuant to an order of the SEC under Exchange Act Rule 19h-1 or other substantially equivalent written communication, and that there is no intervening conduct or other circumstance that would cause the employment to be inconsistent with the public interest or the protection of investors;
- (C) The disqualification previously was a basis for the institution of an administrative proceeding pursuant to a provision of the federal securities laws, and was considered by the SEC in determining a sanction against such disqualified person in the proceeding; and the SEC concluded in such proceeding that it would not restrict or limit the future securities activities of such disqualified person in the capacity now proposed, or, if it imposed any such restrictions or limitations for a specified time period, such time period has elapsed;

- (D) The disqualification consists of a court order or judgment of injunction or conviction, and such order or judgment:
 - (i) expressly includes a provision that, on the basis of such order or judgment, the SEC will not institute a proceeding against such person pursuant to Section 15(b) or 15B of the Exchange Act or that the future securities activities of such persons in the capacity now proposed will not be restricted or limited; or
 - (ii) includes such restrictions or limitations for a specified time period and such time period has elapsed;
 - (E) The disqualified person's functions are purely clerical and/or ministerial in nature; or
 - (F) The disqualification arises from findings or orders specified in Section 15(b)(4)(D), (E), or (H) of the Exchange Act or arises under Section 3(a)(39)(E) of the Exchange Act.
- (3) Rights of Disqualified Member, Sponsoring Member, Disqualified Person, and IEX Regulation
- (A) In the event IEX Regulation does not approve a written request for relief from the eligibility requirements pursuant to paragraph (e)(1), the disqualified Member or sponsoring Member may file an application, and such Member shall have the right to proceed under IEX Rules 9.523 or 9.524, as applicable. IEX Regulation may require a disqualified Member or sponsoring Member to file an application with RAD, notwithstanding the provisions of paragraph (e)(1).
 - (B) In the event IEX Regulation does not approve an application pursuant to paragraph (e)(2), the disqualified Member or sponsoring Member shall have the right to proceed under IEX Rules 9.523 or 9.524, as applicable.

.01 Membership Application Requirements for Members and Persons Associated with a Member Who Are or Become Subject to a Statutory Disqualification.

This Supplementary Material describes when an IEX Member or Person Associated with a Member who is or becomes subject to a Statutory Disqualification must file a membership application.

(a) Statutory Disqualifications Arising from Willful Violations or Failure to Supervise (Exchange Act Section 15(b)(4)(D) or (E). With respect to disqualifications arising solely from findings specified in Exchange Act Section 15(b)(4)(D) or (E) by the SEC, CFTC or an SRO as defined in the Uniform Forms (i.e., Form U4, Form U5 and Form BD), a member shall file an application with IEX Regulation ("IEX Regulation") if the sanction is still in effect and:

- (1) the disqualified member or person is seeking admission or readmission to the securities industry; or*
- (2) the disqualified member or person is seeking to continue in membership or association with a member, unless*
 - (A) such member or person was as of March 17, 2009, a member of, or an associated person of another SRO* and was, as of March 17, 2009, subject to the disqualification, in which event the member shall file an application with IEX Regulation only if there is a change in employer or if the member makes an application for the registration of the person as a principal pursuant to IEX rules.*

(b) *Statutory Disqualifications Arising from Sarbanes-Oxley Act (Exchange Act Section 15(b)(4)(H)). With respect to disqualifications arising solely from orders specified in Exchange Act Section 15(b)(4)(H)(i) and (ii), a member shall file an application with IEX Regulation if:*

- (1) *the disqualified member or person is seeking admission or readmission to, or continuance in, the securities industry, unless:*
 - (A) *such member or person is subject to a final order pursuant to Section 15(b)(4)(H)(ii)9**; and*
 - (B) *the sanctions do not involve licensing or registration revocation or suspension (or analogous sanctions), and the sanctions are no longer in effect, in which event an application need not be filed; or*
 - (C) *the sanctions do involve licensing or registration revocation or suspension (or analogous sanctions), the sanctions are no longer in effect, and the order was entered 10 or more years ago, in which event an application need not be filed.*

However, if the disqualified member or person was, as of March 17, 2009, a member of, or an associated person of a member of, another SRO and was, as of March 17, 2009, subject to a final order as described in Section 15(b)(4)(H)(ii) and:*

- (2) *the sanctions do not involve licensing or registration revocation or suspension (or analogous sanctions), and the sanctions are still in effect, the member shall file an application with IEX Regulation only if there is a change in employer, or if the member makes an application for the registration of the person as a principal pursuant to IEX rules; or*
- (3) *the sanctions do involve licensing or registration revocation or suspension (or analogous sanctions), and the sanctions are no longer in effect, and the order was entered within the prior 10 years, the member shall file an application with IEX Regulation only if there is a change in employer, or if the member makes an application for the registration of the person as a principal pursuant to IEX rules.*

Moreover, where such member or person was, as of March 17, 2009, a member of, or an associated person of a member of another SRO and was, as of March 17, 2009, subject to a bar as described in Exchange Act Section 15(b)(4)(H)(i), and the bar is still in effect*** (and is not related to fraudulent, manipulative, or deceptive conduct), the member shall file an application with IEX Regulation only if there is a change in employer or if the member makes an application for the registration of the person as a principal pursuant to IEX rules.*

(c) *Statutory Disqualifications under Exchange Act Section 3(a)(39)(E) – Certain Affiliated Relationships*

With respect to disqualifications arising solely under Section 3(a)(39)(E) of the Exchange Act, a member shall file an application with IEX Regulation if:

- (1) *the disqualified member or person is seeking admission or readmission to, or continuance in, the securities industry and the disqualified member or person is subject to a statutory disqualification under Exchange Act Section 3(a)(39)(E), solely because such member or person has associated with him any person who is known, or in the exercise of reasonable care should be known, to the disqualified member or person to be a person described by Exchange Act Section 3(a)(39)(A), (B), (C) or (D), and the associated person:*
 - (A) *controls such disqualified member or person, is a general partner or officer (or person occupying a similar status or performing similar functions) of such disqualified member, is an employee, who, on behalf of such disqualified member, is engaged in securities advertising, public relations, research, sales, trading, or training or supervision of other employees who engage or propose to engage in such activities, except clerical and ministerial persons engaged in such activities, or is an employee with access to funds, securities or books and records, or*
 - (B) *is a broker or dealer not registered with the SEC, or controls such (unregistered) broker or dealer, or is a general partner or officer (or person occupying a similar status or performing similar functions) of such broker or dealer.*

However, the disqualified member or person seeking to continue in the securities industry is not required to file an application where such member or person was, as of March 17, 2009, a member of, or an associated person of a member of another SRO and was, as of March 17, 2009, subject to the disqualification.

* An associated person for purposes of IEX Rule 9.522 would include a person that was associated with a member of another SRO within 45 days prior to March 17, 2009, provided that the person was associated with another member of another SRO within 45 days after March 17, 2009.

** This would include a finding of aiding and abetting a violation of such laws.

*** A person would no longer be subject to a statutory disqualification when the time limitation of a bar or license revocation has expired, provided that (1) application for reentry is not required or has been granted; (2) the bar or revocation has no continuing effect; and (3) the bar was not issued in connection with a final order based on violations of laws or regulations prohibiting fraudulent, manipulative or deceptive conduct, as described in Exchange Act Section 15(b)(4)(H)(ii). As an example, a person subject to a statutory disqualification based on a three-month bar (or three-year bar) that ends automatically and has no continuing effect would no longer be subject to a statutory disqualification at the end of the three months (or three years) under Exchange Act Section 15(b)(4)(H)(i), unless the bar was issued in connection with a final order based on violations of laws or regulations prohibiting fraudulent, manipulative or deceptive conduct, as described in Exchange Act Section 15(b)(4)(H)(ii).

(Amended by SR-IEX-2023-04 eff. Apr. 3, 2023).

Rule 9.523. Acceptance of IEX Regulation Recommendations and Supervisory Plans by Consent Pursuant to Exchange Act Rule 19h-1

- (a) With respect to all disqualifications, except those arising solely from findings or orders specified in Section 15(b)(4)(D), (E) or (H) of the Exchange Act or arising under Section 3(a)(39)(E) of the Exchange Act, after an application is filed, IEX Regulation may recommend the membership or continued membership of a disqualified Member or sponsoring Member or the association or continuing association of a disqualified person pursuant to a supervisory plan where the disqualified Member, sponsoring Member, and/or disqualified person, as the case may be, consent to the recommendation and the imposition of the supervisory plan. The disqualified Member, sponsoring Member, and/or disqualified person, as the case may be, shall execute a letter consenting to the imposition of the supervisory plan.
- (1) If a disqualified Member, sponsoring Member, and/or disqualified person submitted an executed letter consenting to a supervisory plan, by the submission of such letter, the disqualified Member, sponsoring Member and/or disqualified person waive:
- (A) the right to a hearing before a Hearing Panel and any right of appeal to the IEX Appeals Committee, the SEC, and the courts, or otherwise challenge the validity of the supervisory plan, if the supervisory plan is accepted.
 - (B) any right of the disqualified Member, sponsoring Member, and/or disqualified person to claim bias or prejudgment by IEX Regulation, the Chief Regulatory Officer, the IEX Appeals Committee, or any Member of the IEX Appeals Committee, in connection with such person's or body's participation in discussions regarding the terms and conditions of IEX Regulation's recommendation or the supervisory plan, or other consideration of the recommendation or supervisory plan, including acceptance or rejection of such recommendation or supervisory plan; and

- (C) any right of the disqualified Member, sponsoring Member, and/or disqualified person to claim that a person violated the ex parte prohibitions of IEX Rule 9.143 or the separation of functions prohibitions of IEX Rule 9.144, in connection with such person's or body's participation in discussions regarding the terms and conditions of the recommendation or supervisory plan, or other consideration of the recommendation or supervisory plan, including acceptance or rejection of such recommendation or supervisory plan.
 - (2) If a recommendation or supervisory plan is rejected, the disqualified Member, sponsoring Member, and/or disqualified person shall be bound by the waivers made under paragraph (a)(1) for conduct by persons or bodies occurring during the period beginning on the date the supervisory plan was submitted and ending upon the rejection of the supervisory plan and shall have the right to proceed under this IEX Rule and IEX Rule 9.524, as applicable.
 - (3) If the disqualified Member, sponsoring Member, and/or disqualified person execute the letter consenting to the supervisory plan, it shall be submitted to the Office of General Counsel by IEX Regulation with a proposed Notice under Exchange Act Rule 19h-1, where required. The Office of General Counsel shall forward the supervisory plan and proposed Notice under Exchange Act Rule 19h-1, if any, to the Chair of IEX Appeals Committee, acting on behalf of the Board. The Chair of the IEX Appeals Committee may accept or reject the recommendation of IEX Regulation.
 - (4) If the recommendation and supervisory plan is accepted by the IEX Appeals Committee, it shall be deemed final and, where required, the proposed Notice under Exchange Act Rule 19h-1 will be filed by IEX. If the recommendation and supervisory plan are rejected by the IEX Appeals Committee, IEX may take any other appropriate action with respect to the disqualified Member, sponsoring Member, and/or disqualified person. If the recommendation and supervisory plan are rejected, the disqualified Member, sponsoring Member, and/or disqualified person shall not be prejudiced by the execution of the letter consenting to the supervisory plan under this paragraph (a) and the letter may not be introduced into evidence in any proceeding.
- (b) With respect to disqualifications arising solely from findings or orders specified in Section 15(b)(4)(D), (E) or (H) of the Exchange Act or arising under Section 3(a)(39)(E) of the Exchange Act, after an application is filed, in approving an application under IEX Rule 9.522(e)(2)(F), IEX Regulation is authorized to accept the Membership or continued Membership of a disqualified Member or sponsoring Member or the association or continuing association of a disqualified person pursuant to a supervisory plan where the disqualified Member, sponsoring Member, and/or disqualified persons, as the case may be, consent to the imposition of the supervisory plan. The disqualified Member, sponsoring Member, and/or disqualified person, as the case may be, shall execute a letter consenting to the imposition of the supervisory plan. IEX Regulation shall prepare a proposed Notice under Exchange Act Rule 19h-1, where required, and IEX shall file such Notice.
- (1) If a disqualified Member, sponsoring Member, and/or disqualified person submitted an executed letter consenting to a supervisory plan, by the submission of such letter, the disqualified Member, sponsoring Member and/or disqualified person waive:
 - (A) the right to a hearing before a Hearing Panel and any right of appeal to the IEX Appeals Committee, the SEC, and the courts, or otherwise challenge the validity of the supervisory plan, if the supervisory plan is accepted;

- (B) any right of the disqualified Member, sponsoring Member, and/or disqualified person to claim bias or prejudgment by IEX Regulation or the Chief Regulatory Officer in connection with such person's or body's participation in discussions regarding the terms and conditions of IEX Regulation's recommended supervisory plan, or other consideration of the supervisory plan, including acceptance or rejection of such recommendation or supervisory plan; and
 - (C) any right of the disqualified Member, sponsoring Member, and/or disqualified person to claim that a person violated the ex parte prohibitions of IEX Rule 9.143 or the separation of functions prohibitions of IEX Rule 9.144, in connection with such person's or body's participation in discussions regarding the terms and conditions of the supervisory plan, or other consideration of the supervisory plan, including acceptance or rejection of such supervisory plan.
- (2) If the supervisory plan is rejected, the disqualified Member, sponsoring Member, and/or disqualified person shall be bound by the waivers made under paragraph (b)(1) for conduct by persons or bodies occurring during the period beginning on the date the supervisory plan was submitted and ending upon the rejection of the supervisory plan and shall have the right to proceed under IEX Rule 9.524.

Rule 9.524. IEX Appeals Committee Consideration

(2) Notice of Hearing

The disqualified Member or sponsoring Member, as the case may be, and IEX Regulation shall be notified via mail, facsimile, or overnight courier of the location, time, and date of the hearing not less than fourteen business days before the hearing, unless the parties agree to shorten the time period.

(3) Transmission of Documents

- (A) Upon receipt of an application, RAD shall gather all of the information necessary to process the application, including (i) RAD records for the disqualified Member, sponsoring Member, and/or disqualified person, as the case may be, and the proposed supervisor; and (ii) all of the information submitted by the disqualified Member or sponsoring Member in support of the application. RAD will prepare an index of these documents, and simultaneously provide this index and copies of the documents to the disqualified Member or sponsoring Member, as the case may be, the Office of the General Counsel, and IEX Regulation. Such documents shall be served on the disqualified Member or sponsoring Member, as the case may be, by electronic mail, mail, facsimile, or overnight courier as soon as practicable. IEX Regulation, or FINRA on its behalf, shall serve its recommendation and its supporting documents on the Office of General Counsel and the disqualified Member or sponsoring Member, as the case may be, within ten business days of the hearing, unless the Parties agree otherwise. Such documents shall be served by electronic mail, unless an alternative method of service is ordered by the Adjudicator. The disqualified Member or sponsoring Member, as the case may be, shall serve its documents on the Office of General

Counsel and IEX Regulation within ten business days of the hearing, unless the Parties agree otherwise. Such documents shall be served by electronic mail, unless an alternative method of service is ordered by the Adjudicator. The Office of General Counsel shall forward all documents transmitted to it pursuant to this paragraph (a)(3) to the Hearing Panel.

- (B) Not less than ten business days before the hearing, IEX Regulation, or FINRA on its behalf, which shall act as a Party in the eligibility proceeding, and the disqualified Member or sponsoring Member, as the case may be, shall serve proposed exhibit and witness lists on each other and the Office of General Counsel. When acting on behalf of IEX Regulation as a Party in the eligibility proceeding, FINRA shall serve its exhibit and witness lists by electronic mail, facsimile, or overnight courier. IEX Regulation and the disqualified member or sponsoring organization, as the case may be, shall serve its exhibit and witness lists by electronic mail, unless an alternative method of service is ordered by the Adjudicator.

(4) Rights of Disqualified Member, Sponsoring Member, Disqualified Person, and Department of Member Regulation

The disqualified Member, sponsoring Member, and/or disqualified person, as the case may be, and, IEX Regulation, or FINRA on its behalf, shall be entitled to be heard in person, to be represented by an attorney, and to submit any relevant evidence. Upon a determination that proceeding in person may endanger the health or safety of the participants or would be impracticable, or upon consideration of a joint motion of the Parties for good cause shown, the Hearing Panel may, in the exercise of reasonable discretion, order the hearing to be conducted, in whole or in part, by video conference.

(5) Extensions of Time, Postponements, and Adjournments

At any time prior to the issuance of the decision of the Hearing Panel, after obtaining consent of all the Parties, the Hearing Panel may shorten any time limits prescribed by the Code for the filing of any papers and may postpone or adjourn any hearing. The notice shall be accompanied by:

- (1) a declaration of facts, signed by a person with knowledge of the facts contained therein, that specifies the acts or omissions that constitute the alleged violation; and
- (2) a proposed order that contains the required elements of a temporary cease and desist order (except the date and hour of the order's issuance), which are set forth in IEX Rule 9.840(b).

(c) Filing of Underlying Complaint

If the Department of Enforcement or the Department of Market Regulation has not issued a complaint under IEX Rule 9.211 against the Respondent relating to the subject matter of the temporary cease and desist proceeding and alleging violations of the rule or statutory provision specified in the notice described in paragraph (b), the Department of Enforcement or the Department of Market Regulation shall serve and file such a complaint with the notice initiating the temporary cease and desist proceeding.

Rule 9.820. Appointment of Hearing Officer and Hearing Panel

- (a) As soon as practicable after the Department of Enforcement or the Department of Market Regulation files a copy of the notice initiating a temporary cease and desist proceeding with the Office of Hearing Officers, the Chief Hearing Officer shall assign a Hearing Officer to preside over the temporary cease and desist proceeding. The Chief Hearing Officer shall appoint two Panelists to serve on a Hearing Panel with the Hearing Officer.

(b) If at any time a Hearing Officer or Hearing Panelist determines that he or she has a conflict of interest or bias or circumstances otherwise exist where his or her fairness might reasonably be questioned, or if a Party files a motion to disqualify a Hearing Officer or Hearing Panelist, the recusal and disqualification proceeding shall be conducted in accordance with IEX Rules 9.233 and 9.234, except that:

- (1) a motion seeking disqualification of a Hearing Officer or Hearing Panelist must be filed no later than 5 days after the later of the events described in paragraph (b) of IEX Rules 9.233 and 9.234; and
- (2) the Chief Hearing Officer shall appoint a replacement Panelist as specified in paragraph (a) of this IEX Rule.

Rule 9.830. Hearing

(a) When Held

The hearing shall be held not later than 15 days after service of the notice and filing initiating the temporary cease and desist proceeding, unless otherwise extended by the Hearing Officer with the consent of the Parties for good cause shown. If a Hearing Officer or Hearing Panelist is recused or disqualified, the hearing shall be held not later than five days after a replacement Hearing Officer or Hearing Panelist is appointed. Upon a determination that proceeding in person may endanger the health or safety of the participants or would be impracticable, or upon consideration of a joint motion of the Parties for good cause shown, the Chief Hearing Officer or Deputy Chief Hearing Officer may, in the exercise of reasonable discretion, order the hearing to be conducted, in whole or in part, by video conference.

(b) Service of Notice of Hearing

The Office of Hearing Officers shall serve a notice of date, time, and place of the hearing on the Department of Enforcement or the Department of Market Regulation and the Respondent not later than seven days before the hearing, unless otherwise ordered by the Hearing Officer. Service shall be made by personal service, overnight commercial courier, or facsimile. If service is made by facsimile, the Office of Hearing Officers shall send an additional copy of the notice by overnight commercial courier. The notice shall be effective upon service.

(c) Authority of Hearing Officer

The Hearing Officer shall have authority to do all things necessary and appropriate to discharge his or her duties as set forth under IEX Rule 9.235.

(d) Witnesses

A person who is subject to the jurisdiction of IEX shall testify under oath or affirmation. The oath or affirmation shall be administered by a court reporter or a notary public.

(e) Additional Information

At any time during its consideration, the Hearing Panel may direct a Party to submit additional information. Any additional information submitted shall be provided to all Parties at least one day before the Hearing Panel renders its decision.

(f) Transcript

The hearing shall be recorded by a court reporter and a written transcript thereof shall be prepared. A transcript of the hearing shall be available to the Parties for purchase from the court reporter at prescribed rates. A witness may

purchase a copy of the transcript of his or her own testimony from the court reporter at prescribed rates. Proposed corrections to the transcript may be submitted by affidavit to the Hearing Panel within a reasonable time determined by the Hearing Panel. Upon notice to all the Parties to the proceeding, the Hearing Panel may order corrections to the transcript as requested or sua sponte.

(g) Record and Evidence Not Admitted

The record shall consist of the notice initiating the proceeding, the declaration, and the proposed order described in IEX Rule 9.810(b); the transcript of the hearing; all evidence considered by the Hearing Panel; and any other document or item accepted into the record by the Hearing Officer or the Hearing Panel. The Office of Hearing Officers shall be the custodian of the record. Proffered evidence that is not accepted into the record by the Hearing Panel shall be retained by the custodian of the record until the date when IEX's decision becomes final or, if applicable, upon the conclusion of any review by the SEC or the federal courts.

(h) Failure to Appear at Hearing

If a Respondent fails to appear at a hearing for which it has notice, the allegations in the notice and accompanying declaration may be deemed admitted, and the Hearing Panel may issue a temporary cease and desist order without further proceedings. If the Department of Enforcement or Department of Market Regulation fails to appear at a hearing for which it has notice, the Hearing Panel may order that the temporary cease and desist proceeding be dismissed.

(Amended by SR-IEX-2026-06 eff. February 23, 2026).

Rule 9.840. Issuance of Temporary Cease and Desist Order by Hearing Panel

(a) Basis for Issuance

The Hearing Panel shall issue a written decision stating whether a temporary cease and desist order shall be imposed. The Hearing Panel shall issue the decision not later than ten days after receipt of the hearing transcript, unless otherwise extended by the Hearing Officer with the consent of the Parties for good cause shown. A temporary cease and desist order shall be imposed if the Hearing Panel finds:

- (1) by a preponderance of the evidence that the alleged violation specified in the notice has occurred; and
- (2) that the violative conduct or continuation thereof is likely to result in significant dissipation or conversion of assets or other significant harm to investors prior to the completion of the underlying disciplinary proceeding under IEX Rule Series 9.200 and 9.300.

(b) Content, Scope, and Form of Order

A temporary cease and desist order shall:

- (1) be limited to ordering a Respondent to cease and desist from violating a specific rule or statutory provision, and, where applicable, to ordering a Respondent to cease and desist from dissipating or converting assets or causing other harm to investors;
- (2) set forth the alleged violation and the significant dissipation or conversion of assets or other significant harm to investors that is likely to result without the issuance of an order;
- (3) describe in reasonable detail the act or acts the Respondent is to take or refrain from taking; and

(4) include the date and hour of its issuance.

(c) Duration of Order

A temporary cease and desist order shall remain effective and enforceable until the issuance of a decision under IEX Rule 9.268 or 9.269.

(d) Service

The Office of Hearing Officers shall serve the Hearing Panel's decision and any temporary cease and desist order by personal service, overnight commercial courier, or facsimile. If service is made by facsimile, the Office of Hearing Officers shall send an additional copy of the Hearing Panel's decision and any temporary cease and desist order by overnight commercial courier. The temporary cease and desist order shall be effective upon service.

Rule 9.850. Review by Hearing Panel

At any time after the Office of Hearing Officers serves the Respondent with a temporary cease and desist order, a Party may apply to the Hearing Panel to have the order modified, set aside, limited, or suspended. The application shall set forth with specificity the facts that support the request. The Hearing Panel shall respond to the request in writing within ten days after receipt of the request, unless otherwise extended by the Hearing Officer with the consent of the Parties for good cause shown. The Hearing Panel's response shall be served on the Respondent via personal service, overnight commercial courier, or facsimile. If service is made by facsimile, the Office of Hearing Officers shall send an additional copy of the temporary cease and desist order by overnight commercial courier. The filing of an application under this IEX Rule shall not stay the effectiveness of the temporary cease and desist order.

Rule 9.860. Violation of Temporary Cease and Desist Orders

A Respondent who violates a temporary cease and desist order imposed under this IEX Rule Series may have its association or membership suspended or canceled under IEX Rule 9.556. IEX's Chief Regulatory Officer must authorize the initiation of any such proceeding in writing.

Rule 9.870. Application to SEC for Review

Temporary cease and desist orders issued pursuant to this IEX Rule Series constitute final and immediately effective disciplinary sanctions imposed by IEX. The right to have any action under this IEX Rule Series reviewed by the SEC is governed by Section 19 of the Exchange Act. The filing of an application for review shall not stay the effectiveness of the temporary cease and desist order, unless the SEC otherwise orders.

CHAPTER 10. TRADING PRACTICE RULES

Rule Series 10.100. PROHIBITED TRADING PRACTICES

Rule 10.110. Market Manipulation

(a) No Member shall execute or cause to be executed or participate in an account for which there are executed purchases of any security at successively higher prices, or sales of any security at successively lower prices, or otherwise engage

in activity, for the purpose of creating or inducing a false, misleading or artificial appearance of activity in such security on the Exchange or for the purpose of unduly or improperly influencing the market price for such security or for the purpose of establishing a price which does not reflect the true state of the market in such security.

- (b) All orders must be entered for the purpose of executing bona fide transactions, including, without limitation:
- (1) No Member shall enter or cause to be entered, an order with the intent, at the time of order entry, to cancel the order before execution, or to modify the order to avoid execution.
 - (2) No Member shall enter or cause to be entered an executable or non-executable order or orders with the intent to mislead other market participants.
 - (3) No Member shall enter or cause to be entered an executable or non-executable order with the intent to overload, delay, or disrupt the performance of the systems of the Exchange, its Members, other exchanges, National Market System Plans, or market participants.
 - (4) No Member shall enter or cause to be entered executable or non-executable orders with intent to disrupt the orderly conduct of trading or the fair execution of transactions on the Exchange or elsewhere in the National Market System.
 - (5) These provisions shall apply at all times the Exchange System is available to Members without exception.

Additionally, all non-executable orders must be entered in good faith for legitimate purposes.

Rule 10.120. Fictitious Transactions

- (a) No Member, for the purpose of creating or inducing a false or misleading appearance of activity in a security traded on the Exchange or creating or inducing a false or misleading appearance with respect to the market in such security shall:
- (1) execute any transaction in such security which involves no change in the beneficial ownership thereof, or
 - (2) enter any order or orders for the purchase of such security with the knowledge that an order or orders of substantially the same size, and at substantially the same price, for the sale of such security, has been or will be entered by or for the same or different parties, or
 - (3) enter any order or orders for the sale of any such security with the knowledge that an order or orders of substantially the same size, and at substantially the same price, for the purchase of such security, has been or will be entered by or for the same or different parties.
- (b) Transactions in a security resulting from the unintentional interaction of orders originating from the same firm that involve no change in the beneficial ownership of the security, (“self-trades”) generally are bona fide transactions for purposes of this IEX Rule 10.120; however, Members must have policies and procedures in place that are reasonably designed to review their trading activity for, and prevent, a pattern or practice of self-trades resulting from orders originating from a single algorithm or trading desk, or related algorithms or trading desks. Transactions resulting from orders that originate from unrelated algorithms or separate and distinct trading strategies within the same firm would generally be considered bona fide self-trades. Algorithms or trading strategies within the most discrete unit of an

effective system of internal controls at a member firm are presumed to be related. This subsection (b) does not change Members' existing obligations under IEX Rule 3.110 and IEX Rule 5.110.

Rule 10.130. Excessive Sales by a Member

- (a) No Member shall execute purchases or sales in any security traded on the Exchange for any account in which such Member is directly or indirectly interested, which purchases or sales are excessive in view of the Member's financial resources or in view of the market for such security.

Rule 10.140. Manipulative Transactions

- (a) No Member shall participate or have any interest, directly or indirectly, in the profits of a manipulative operation or knowingly manage or finance a manipulative operation.
- (b) Any pool, syndicate or joint account organized or used intentionally for the purpose of unfairly influencing the market price of a security shall be deemed to be a manipulative operation.
- (c) The solicitation of subscriptions to or the acceptance of discretionary orders from any such pool, syndicate or joint account shall be deemed to be managing a manipulative operation.
- (d) The carrying on margin of a position in such security or the advancing of credit through loans to any such pool, syndicate or joint account shall be deemed to be financing a manipulative operation.
- (e) No member shall offer that a transaction or transactions to buy or sell a designated security will influence the closing transaction in that security.

Rule 10.150. Dissemination of False Information

- (a) No Member shall make any statement or circulate and disseminate any information concerning any security traded on the Exchange which such Member knows or has reasonable grounds for believing is false or misleading or would improperly influence the market price of such security.

Rule 10.160. Prohibition Against Trading Ahead of Customer Orders

- (a) Except as provided herein, a Member that accepts and holds an order in an equity security from its own customer or a customer of another broker-dealer without immediately executing the order is prohibited from trading that security on the same side of the market for its own account at a price that would satisfy the customer order, unless it immediately thereafter executes the customer order up to the size and at the same or better price at which it traded for its own account.
- (b) A Member must have a written methodology in place governing the execution and priority of all pending orders that is consistent with the requirements of this IEX Rule. A Member also must ensure that this methodology is consistently applied.
- (c) Large Orders and Institutional Account Exceptions

With respect to orders for customer accounts that meet the definition of an "institutional account" or for orders of 10,000 shares or more (unless such orders are less than \$100,000 in value), a Member is permitted to trade a security

on the same side of the market for its own account at a price that would satisfy such customer order, provided that the Member has provided clear and comprehensive written disclosure to such customer at account opening and annually thereafter that:

- (1) discloses that the Member may trade proprietarily at prices that would satisfy the customer order, and
- (2) provides the customer with a meaningful opportunity to opt in to the IEX Rule 10.160 protections with respect to all or any portion of its order.

If the customer does not opt in to the IEX Rule 10.160 protections with respect to all or any portion of its order, the Member may reasonably conclude that such customer has consented to the Member trading a security on the same side of the market for its own account at a price that would satisfy the customer's order.

In lieu of providing written disclosure to customers at account opening and annually thereafter, a Member may provide clear and comprehensive oral disclosure to and obtain consent from the customer on an order-by-order basis, provided that the Member documents who provided such consent and such consent evidences the customer's understanding of the terms and conditions of the order.

For purposes of this IEX Rule, "institutional account" shall mean the account of:

- (A) a bank savings and loan association, insurance company or registered investment company;
- (B) an investment adviser registered either with the SEC under Section 203 of the Investment Advisers Act or with a state securities commission (or any agency or office performing like functions); or
- (C) any other person (whether a natural person, corporation, partnership, trust or otherwise) with total assets of at least \$50 million.

(d) No-Knowledge Exception

- (1) With respect to NMS stocks (as defined in Rule 600 under of the Securities and Exchange Commission's Regulation NMS), if a Member implements and utilizes an effective system of internal controls, such as appropriate information barriers, that operate to prevent one trading unit from obtaining knowledge of customer orders held by a separate trading unit, those other trading units trading in a proprietary capacity may continue to trade at prices that would satisfy the customer orders held by the separate trading unit. A Member that structures its order handling practices in NMS stocks to permit its proprietary and/or market-making desk to trade at prices that would satisfy customer orders held by a separate trading unit must disclose in writing to its customers, at account opening and annually thereafter, a description of the manner in which customer orders are handled by the Member and the circumstances under which the Member may trade proprietarily at its proprietary and/or market-making desk at prices that would satisfy the customer order.
- (2) If a Member implements and utilizes appropriate information barriers in reliance on this exception, the Member must uniquely identify such information barriers in place at the department within the Member where the order was received or originated. Appropriate information barriers must, at minimum, comply with the requirements set forth in IEX Rule 5.150.
- (3) Members must maintain records that indicate which orders rely on the No-Knowledge Exception and submit these records to the Exchange upon request.

(e) Riskless Principal Exception

The obligations under this IEX Rule shall not apply to a Member's proprietary trade if such proprietary trade is for the purposes of facilitating the execution, on a riskless principal basis, of an order from a customer (whether its own customer or the customer of another broker-dealer) (the "facilitated order"), provided that the Member:

- (1) submits a report, contemporaneously with the execution of the facilitated order, identifying the trade as riskless principal to the Exchange (or another self-regulatory organization if not required under IEX Rules); and
- (2) has written policies and procedures to ensure that riskless principal transactions for which the Member is relying upon this exception comply with applicable IEX Rules. At a minimum these policies and procedures must require that the customer order was received prior to the offsetting principal transaction, and that the offsetting principal transaction is at the same price as the customer order exclusive of any markup or markdown, commission equivalent or other fee and is allocated to a riskless principal or customer account in a consistent manner and within 60 seconds of execution.

A Member must have supervisory systems in place that produce records that enable the Member and the Exchange to reconstruct accurately, readily, and in a time-sequenced manner all facilitated orders for which the Member relies on this exception.

(f) ISO Exception

A Member shall be exempt from the obligation to execute a customer order in a manner consistent with this IEX Rule with regard to trading for its own account that is the result of an inter-market sweep order ("ISO") routed in compliance with Rule 600(b)(38)(ii) of Regulation NMS where the customer order is received after the Member routed the ISO. Where a Member routes an ISO to facilitate a customer order and that customer has consented to not receiving the better prices obtained by the ISO, the Member also shall be exempt with respect to any trading for its own account that is the result of the ISO with respect to the consenting customer's order.

(g) Odd Lot and Bona Fide Error Transaction Exceptions

The obligations under this IEX Rule shall not apply to a Member's proprietary trade that is (1) to offset a customer order that is in an amount less than a normal unit of trading; or (2) to correct a bona fide error. Members are required to demonstrate and document the basis upon which a transaction meets the bona fide error exception. For purposes of this IEX Rule, a bona fide error is:

- (1) the inaccurate conveyance or execution of any term of an order, including, but not limited to, price, number of shares or other unit of trading; identification of the security; identification of the account for which securities are purchased or sold; lost or otherwise misplaced order tickets; short sales that were instead sold long or vice versa; or the execution of an order on the wrong side of a market;
- (2) the unauthorized or unintended purchase, sale, or allocation of securities or the failure to follow specific client instructions;
- (3) the incorrect entry of data into relevant systems, including reliance on incorrect cash positions, withdrawals, or securities positions reflected in an account; or

- (4) a delay, outage, or failure of a communication system used to transmit market data prices or to facilitate the delivery or execution of an order.

(h) Minimum Price Improvement Standards

The minimum amount of price improvement necessary for a Member to execute an order on a proprietary basis when holding an unexecuted limit order in that same security, and not be required to execute the held limit order is as follows:

- (1) For customer limit orders priced greater than or equal to \$1.00, the minimum amount of price improvement required is \$0.01 for NMS stocks;
- (2) For customer limit orders priced greater than or equal to \$0.01 and less than \$1.00, the minimum amount of price improvement required is the lesser of \$0.01 or one-half (1/2) of the current inside spread;
- (3) For customer limit orders priced less than \$0.01 but greater than or equal to \$0.001, the minimum amount of price improvement required is the lesser of \$0.001 or one-half (1/2) of the current inside spread;
- (4) For customer limit orders priced less than \$0.001 but greater than or equal to \$0.0001, the minimum amount of price improvement required is the lesser of \$0.0001 or one-half (1/2) of the current inside spread;
- (5) For customer limit orders priced less than \$0.0001 but greater than or equal to \$0.00001, the minimum amount of price improvement required is the lesser of \$0.00001 or one-half (1/2) of the current inside spread;
- (6) For customer limit orders priced less than \$0.00001, the minimum amount of price improvement required is the lesser of \$0.000001 or one-half (1/2) of the current inside spread; and
- (7) For customer limit orders priced outside the best inside market, the minimum amount of price improvement required must either meet the requirements set forth above or the Member must trade at a price at or inside the best inside market for the security.

In addition, if the minimum price improvement standards above would trigger the protection of a pending customer limit order, any better-priced customer limit order(s) must also be protected under this IEX Rule, even if those better-priced limit orders would not be directly triggered under the minimum price improvement standards above.

(i) Order Handling Procedures

A Member must make every effort to execute a marketable customer order that it receives fully and promptly. A Member that is holding a customer order that is marketable and has not been immediately executed must make every effort to cross such order with any other order received by the Member on the other side of the market up to the size of such order at a price that is no less than the best bid and no greater than the best offer at the time that the subsequent order is received by the Member and that is consistent with the terms of the orders. In the event that a Member is holding multiple orders on both sides of the market that have not been executed, the Member must make every effort to cross or otherwise execute such orders in a manner that is reasonable and consistent with the objectives of this IEX Rule and with the terms of the orders. A Member can satisfy the crossing requirement by contemporaneously buying from the seller and selling to the buyer at the same price.

(j) Trading Outside Normal Market Hours

Members generally may limit the life of a customer order to the period of normal market hours of 9:30 a.m. to 4:00 p.m. Eastern Time. However, if the customer and Member agree to the processing of the customer's order outside normal market hours, the protections of this IEX Rule shall apply to that customer's order at all times the customer order is executable by the Member.

(Amended by SR-IEX-2023-14 eff. December 22, 2023).

Rule 10.170. Joint Activity

- (a) No Member, directly or indirectly, shall hold any interest or participation in any joint account for buying or selling in a security traded on the Exchange, unless such joint account is promptly reported to the Exchange. The report should contain the following information for each account:
- (1) the name of the account, with names of all participants and their respective interests in profits and losses;
 - (2) a statement regarding the purpose of the account;
 - (3) the name of the Member carrying and clearing the account; and
 - (4) a copy of any written agreement or instrument relating to the account.

Rule 10.180. Influencing the Consolidated Tape

- (a) No Member shall attempt to execute a transaction or transactions to buy or sell a security for the purpose of influencing any report appearing on the Consolidated Tape.

Rule 10.190. Trade Shredding

No Member or associated person of a Member may engage in "trade shredding". Trade shredding is conduct that has the intent or effect of splitting any order into multiple smaller orders for execution or any execution into multiple smaller executions for the primary purpose of maximizing a monetary or in-kind amount to be received by the Member or associated person of a Member as a result of the execution of such orders or the transaction reporting of such executions. For purposes of this IEX Rule 10.190, "monetary or in-kind amount" shall be defined to include, but not be limited to, any credits, commissions, gratuities, payments for or rebates of fees, or any other payments of value to the Member or associated person of a Member.

Rule Series 10.200. TRADING OBLIGATIONS

Rule 10.210. Options

- (a) No Member shall initiate the purchase or sale on the Exchange for its own account, or for any account in which it is directly or indirectly interested, of any stock of any issuer in which it holds or has granted any put, call, straddle or option; provided, however, that this prohibition shall not be applicable in respect of any option issued by The Options Clearing Corporation.
- (b) No Member acting as an odd-lot dealer shall become interested directly or indirectly, in a pool dealing or trading in the stock of any issuer in which it is an odd-lot dealer, nor shall it acquire or grant directly or indirectly, any option to

buy or sell, receive or deliver shares of stock of any issuer in which such Member is an odd-lot dealer, unless such option is issued by The Options Clearing Corporation.

Rule 10.220. Best Execution and Interpositioning

(a) Best Execution

- (1) In any transaction for or with a customer or a customer of another broker-dealer, a Member and persons associated with a Member shall use reasonable diligence to ascertain the best market for the subject security and buy or sell in such market so that the resultant price to the customer is as favorable as possible under prevailing market conditions. Among the factors that will be considered in determining whether a Member has used "reasonable diligence" are:
 - (A) the character of the market for the security (e.g., price, volatility, relative liquidity, and pressure on available communications);
 - (B) the size and type of transaction;
 - (C) the number of markets checked;
 - (D) accessibility of the quotation; and
 - (E) the terms and conditions of the order which result in the transaction, as communicated to the Member and persons associated with the Member.
- (2) In any transaction for or with a customer or a customer of another broker-dealer, no Member or person associated with a Member shall interject a third party between the Member and the best market for the subject security in a manner inconsistent with paragraph (a)(1) of this IEX Rule 10.220.

- (b) When a Member cannot execute directly with a market but must employ a broker's broker or some other means in order to ensure an execution advantageous to the customer, the burden of showing the acceptable circumstances for doing so is on the Member.
- (c) Failure to maintain or adequately staff a department assigned to execute customers' orders cannot be considered justification for executing away from the best available market; nor can channeling orders through a third party as described above as reciprocation for service or business operate to relieve a Member of its obligations under this IEX Rule.
- (d) A Member through which an order is channeled and that knowingly is a party to an arrangement whereby the initiating Member has not fulfilled its obligations under this IEX Rule, will also be deemed to have violated this IEX Rule 10.220.
- (e) The obligations described in paragraphs (a) through (d) above exist not only where the Member acts as agent for the account of its customer but also where transactions are executed as principal.
- (f) **Execution of Marketable Customer Orders**

A Member must make every effort to execute a marketable customer order that it receives fully and promptly.

(g) Definition of “Market”

For the purposes of IEX Rule 10.220, the term “market” or “markets” is to be construed broadly, and it encompasses a variety of different venues, including, but not limited to, trading centers that are trading a particular security. This expansive interpretation is meant to both inform broker-dealers as to the breadth of the scope of venues that must be considered in the furtherance of their best execution obligations and to promote fair competition among broker-dealers, exchange markets, and markets other than exchange markets, as well as any other venue that may emerge, by not mandating that certain trading venues have less relevance than others in the course of determining a firm’s best execution obligations.

(h) Best Execution and Executing Brokers

A Member’s duty to provide best execution in any transaction “for or with a customer of another broker-dealer” does not apply in instances when another broker-dealer is simply executing a customer order against the Member’s quote. The duty to provide best execution to customer orders received from other broker-dealers arises only when an order is routed from the broker-dealer to the Member for the purpose of order handling and execution. This clarification is intended to draw a distinction between those situations in which the Member is acting solely as the buyer or seller in connection with orders presented by a broker-dealer against the Member’s quote, as opposed to those circumstances in which the Member is accepting order flow from another broker-dealer for the purpose of facilitating the handling and execution of such orders.

(i) Use of a Broker’s Broker

Paragraph (b) of this IEX Rule 10.220 provides that when a Member cannot execute directly with a market but must employ a broker’s broker or some other means in order to ensure an execution advantageous to the customer, the burden of showing the acceptable circumstances for doing so is on the Member. Examples of acceptable circumstances are where a customer’s order is “crossed” with another firm that has a corresponding order on the other side, or where the identity of the firm, if known, would likely cause undue price movements adversely affecting the cost or proceeds to the customer.

(j) Orders Involving Securities with Limited Quotations or Pricing Information

Although the best execution requirements in this IEX Rule 10.220 apply to orders in all securities, markets for securities differ dramatically. One of the areas in which a Member must be especially diligent in ensuring that it has met its best execution obligations is with respect to customer orders involving securities for which there is limited pricing information or quotations available. Each Member must have written policies and procedures in place that address how the Member will determine the best inter-dealer market for such a security in the absence of pricing information or multiple quotations and must document its compliance with those policies and procedures. For example, a Member should analyze pricing information based on other data, such as previous trades in the security, to determine whether the resultant price to the customer is as favorable as possible under prevailing market conditions. In these instances, a Member should generally seek out other sources of pricing information or potential liquidity, which may include obtaining quotations from other sources (e.g., other firms that the Member previously has traded within the security).

(k) Customer Instructions Regarding Order Handling

If a Member receives an unsolicited instruction from a customer to route that customer’s order to a particular market for execution, the Member is not required to make a best execution determination beyond the customer’s specific instruction. Members are, however, still required to process that customer’s order promptly and in accordance with

the terms of the order and its instructions. Where a customer has directed that an order be routed to another specific broker-dealer that is also a FINRA Member, the receiving broker-dealer to which the order was directed would be required to meet the requirements of FINRA Rule 5310 with respect to its handling of the order.

(l) Regular and Rigorous Review of Execution Quality

No Member can transfer to another person its obligation to provide best execution to its customers' orders. A Member that routes customer orders to other broker-dealers for execution on an automated, non-discretionary basis, as well as a Member that internalizes customer order flow, must have procedures in place to ensure the Member periodically conducts regular and rigorous reviews of the quality of the executions of its customers' orders if it does not conduct an order-by-order review. The review must be conducted on a security-by-security, type-of-order basis (e.g., limit order, market order, and market on open order). At a minimum, a Member must conduct such reviews on a quarterly basis; however, Members should consider, based on the firm's business, whether more frequent reviews are needed.

(m) In conducting its regular and rigorous review, a Member must determine whether any material differences in execution quality exist among the markets trading the security and, if so, modify the Member's routing arrangements or justify why it is not modifying its routing arrangements. To assure that order flow is directed to markets providing the most beneficial terms for their customers' orders, the Member must compare, among other things, the quality of the executions the Member is obtaining via current order routing and execution arrangements (including the internalization of order flow) to the quality of the executions that the Member could obtain from competing markets. In reviewing and comparing the execution quality of its current order routing and execution arrangements to the execution quality of other markets, a Member should consider the following factors:

- (1) price improvement opportunities (i.e., the difference between the execution price and the best quotes prevailing at the time the order is received by the market);
- (2) differences in price disimprovement (i.e., situations in which a customer receives a worse price at execution than the best quotes prevailing at the time the order is received by the market);
- (3) the likelihood of execution of limit orders;
- (4) the speed of execution;
- (5) the size of execution;
- (6) transaction costs;
- (7) customer needs and expectations; and
- (8) the existence of internalization or payment for order flow arrangements.

(n) A Member that routes its order flow to another Member that has agreed to handle that order flow as agent for the customer (e.g., a clearing firm or other executing broker-dealer) can rely on that Member's regular and rigorous review as long as the statistical results and rationale of the review are fully disclosed to the Member and the Member periodically reviews how the review is conducted, as well as the results of the review.

.01 Best Execution and Information Leakage

In FINRA Regulatory Notice 15-46, FINRA provides guidance, among other things, on best execution obligations in equity markets. FINRA notes that in conducting a review of execution quality in any security, a firm should consider a variety of relevant factors. For a firm that routinely routes a customer order to multiple trading centers, one such factor that is highlighted is information leakage and the impact of information leakage on execution quality. In particular, FINRA notes that: “[f]irms should consider the risk of information leakage by routing orders to a particular venue in light of the fill rates achieved at that venue and carefully assess whether the risks outweigh the potential for an execution.”

IEX’s order execution and routing methodology are designed to substantially reduce potential information leakage related to executions on IEX.

Rule 10.230. Publication of Transactions and Changes

- (a) The Exchange shall cause to be disseminated for publication on the Consolidated Tape all last sale price reports of transactions executed through the facilities of the Exchange pursuant to the requirements of an effective transaction reporting plan approved by the Commission.
- (b) To facilitate the dissemination of such last sale price reports, each Member shall cause to be reported to the Exchange, as promptly as possible after execution, all information concerning each transaction required by the effective transaction reporting plan.
- (c) An official of the Exchange shall approve any corrections to reports transmitted over the consolidated tape. Any such corrections shall be made within one day after detection of the error.

Rule 10.240. Trading Ahead of Research Reports

- (a) No Member shall establish, increase, decrease or liquidate an inventory position in a security or a derivative of such security based on non-public advance knowledge of the content or timing of a research report in that security.
- (b) Members must establish, maintain and enforce policies and procedures reasonably designed to restrict or limit the information flow between research department personnel, or other persons with knowledge of the content or timing of a research report, and trading department personnel, so as to prevent trading department personnel from utilizing non-public advance knowledge of the issuance or content of a research report for the benefit of the Member or any other person.

Rule 10.250. Obligation to Honor System Trades

If a Member, or clearing member acting on a Member’s behalf, is reported by the System, or shown by the activity reports generated by the System, as constituting a side of a System trade, such Member, or clearing member acting on its behalf, shall honor such trade on the scheduled settlement date.

Rule 10.260. Front Running of Block Transactions

- (a) Members and persons associated with a Member shall comply with FINRA Rule 5270 as if such Rule were part of the Exchange’s rules.
- (b) Front Running of Non-Block Transactions. Although the prohibitions in FINRA Rule 5270 are limited to imminent block transactions, the front running of other types of orders that place the financial interests of the Member or

persons associated with a Member ahead of those of its customer or the misuse of knowledge of an imminent customer order may violate other IEX Rules, including Rule 3.110 and Rule 10.160, or provisions of the federal securities laws.

Rule 10.270 Disruptive Quoting and Trading Activity Prohibited

No Member shall engage in or facilitate disruptive quoting and trading activity on the Exchange, as described in Supplementary Material .01 and .02 of this Rule, including acting in concert with other persons to effect such activity.

• • • Supplementary Material • • •

.01 For purposes of this Rule, disruptive quoting and trading activity shall include a frequent pattern in which the following facts are present:

(a) Disruptive Quoting and Trading Activity Type 1:

(1) a party enters multiple limit orders on one side of the market at various price levels (the “Displayed Orders”); and

(2) following the entry of the Displayed Orders, the level of supply and demand for the security changes; and

(3) the party enters one or more orders on the opposite side of the market of the Displayed Orders (the “Contra-Side Orders”) that are subsequently executed; and

(4) following the execution of the Contra-Side Orders, the party cancels the Displayed Orders.

(b) Disruptive Quoting and Trading Activity Type 2:

(1) a party narrows the spread for a security by placing an order inside the NBBO; and

(2) the party then submits an order on the opposite side of the market that executes against another market participant that joined the new inside market established by the order described in paragraph (b)(1).

.02 Applicability. For purposes of this Rule, disruptive quoting and trading activity shall include a frequent pattern in which the facts listed above are present. Unless otherwise indicated, the order of the events indicating the pattern does not modify the applicability of the Rule. Further, disruptive quoting and trading activity includes a pattern or practice in which all of the quoting and trading activity is conducted on the Exchange as well as a pattern or practice in which some portion of the quoting or trading activity is conducted on the Exchange and the other portions of the quoting or trading activity is conducted on one or more other exchanges.

- (d) A Member must have reasonable procedures to ensure that the ATs maintain the physical security of the equipment for accessing the facilities of the Exchange to prevent the improper use or access to the systems, including unauthorized entry of information into the systems.
- (e) To be eligible for registration as an AT of a Member a person must successfully complete the General Securities Representative Examination (Series 7) or the Securities Traders Qualification Examination (Series 57), or an equivalent foreign examination module approved by the Exchange as defined in Rule 2.160(h) and (i), and any other training and/or certification programs as may be required by the Exchange.

Rule 11.150. Registration as a Market Maker

- (a) Quotations and quotation sizes may be entered into IEX only by a Member registered as an IEX Market Maker or other entity approved by IEX to function in a market-making capacity.
- (b) An IEX Market Maker may become registered in an issue by entering a registration request via an IEX approved electronic interface with IEX's systems or by contacting IEX Market Operations. Registration shall become effective on the day the registration request is entered.
- (c) An IEX Market Maker's registration in an issue shall be terminated by IEX if the market maker fails to enter quotations in the issue within five (5) business days after the market maker's registration in the issue becomes effective.

Rule 11.151. Market Maker Obligations

A Member registered as a Market Maker shall engage in a course of dealings for its own account to assist in the maintenance, insofar as reasonably practicable, of fair and orderly markets in accordance with this IEX Rule.

(a) Quotation Requirements and Obligations

- (1) **Two-Sided Quote Obligation.** For each security in which a Member is registered as a Market Maker, the Member shall be willing to buy and sell such security for its own account on a continuous basis during regular market hours and shall enter and maintain a two-sided trading interest ("Two-Sided Obligation") that is identified to the Exchange as the interest meeting the obligation and is displayed in the Exchange's quotation at all times. Interest eligible to be considered as part of a Market Maker's Two-Sided Obligation shall have a displayed quotation size of at least one normal unit of trading (or a larger multiple thereof); provided, however, that a Market Maker may augment its Two-Sided Obligation size to display limit orders priced at the same price as the Two-Sided Obligation. Unless otherwise designated, a "normal unit of trading" shall be 100 shares. After an execution against its Two-Sided Obligation, a Market Maker must ensure that additional trading interest exists in the Exchange to satisfy its Two-Sided Obligation either by immediately entering new interest to comply with this obligation to maintain continuous two-sided quotations or identify to the Exchange current resting interest that satisfies the Two-Sided Obligation.
- (2) **Pricing Obligations.** For NMS stocks (as defined in Rule 600 under Regulation NMS) a Market Maker shall adhere to the pricing obligations established by this IEX Rule during the Regular Market Session; provided, however, that such pricing obligations (i) shall not commence during any trading day until after the first regular way transaction on the primary listing market in the security, as reported by the responsible single plan processor, and (ii) shall be suspended during a trading halt, suspension, or pause, and shall not re-commence until after the first regular way transaction on the primary listing market in the security following such halt, suspension, or pause, as reported by the responsible single plan processor.
- (3) **Bid Quotations.** At the time of entry of bid interest satisfying the Two-Sided Obligation, the price of the bid interest shall be not more than the Designated Percentage lower than the then current National Best Bid, or if no National Best Bid, not more than the Designated Percentage lower than the last reported sale from the responsible single plan processor. In the event that the National Best Bid (or if no National Best Bid, the last reported sale) increases to a level that would cause the bid interest of the Two-Sided Obligation to be more than the Defined Limit lower than the National Best Bid (or if no National Best Bid, the last reported sale), or if the bid is executed or canceled, the Market Maker shall enter new bid interest at a price not more than the

Designated Percentage lower than the then current National Best Bid (or if no National Best Bid, the last reported sale), or identify to the Exchange current resting interest that satisfies the Two-Sided Obligation.

- (4) Offer Quotations. At the time of entry of offer interest satisfying the Two-Sided Obligation, the price of the offer interest shall be not more than the Designated Percentage higher than the then current National Best Offer, or if no National Best Offer, not more than the Designated Percentage higher than the last reported sale received from the responsible single plan processor. In the event that the National Best Offer (or if no National Best Offer, the last reported sale) decreases to a level that would cause the offer interest of the Two-Sided Obligation to be more than the Defined Limit higher than the National Best Offer (or if no National Best Offer, the last reported sale), or if the offer is executed or canceled, the Market Maker shall enter new offer interest at a price not more than the Designated Percentage higher than the then current National Best Offer (or if no National Best Offer, the last reported sale), or identify to the Exchange current resting interest that satisfies the Two-Sided Obligation.
- (5) The National Best Bid and Offer shall be determined by the Exchange in accordance with its procedures for determining protected quotations under Rule 600 under Regulation NMS.
- (6) For purposes of this IEX Rule, the "Designated Percentage" shall be eight (8) percentage points for securities that are included in the S&P 500®, Russell 1000® Index, or a pilot list of Exchange Traded Products; 28% for securities with a price equal to or greater than \$1 per share that are not included in the S&P 500®, Russell 1000® Index, or a pilot list of Exchange Traded Products; and 30% for securities with a price less than \$1 per share that are not included in the S&P 500® Index, Russell 1000® Index, or a pilot list of Exchange Traded Products; except that between 9:30 a.m. and 9:45 a.m. and between 3:35 p.m. and the close of trading, the Designated Percentage shall be 20% for securities that are included in the S&P 500®, Russell 1000® Index, or a pilot list of Exchange Traded Products, 28% for securities with a price equal to or greater than \$1 per share that are not included in the S&P 500®, Russell 1000® Index, or a pilot list of Exchange Traded Products, and 30% for securities with a price less than \$1 per share that are not included in the S&P 500® Index, Russell 1000® Index, or a pilot list of Exchange Traded Products. The Designated Percentage for rights and warrants shall be 30%.
- (7) For purposes of this IEX Rule, the "Defined Limit" shall be 9.5% for securities that are included in the S&P 500®, Russell 1000® Index, or a pilot list of Exchange Traded Products; 29.5% for with a price equal to or greater than \$1 per share that are not included in the S&P 500®, Russell 1000® Index, or a pilot list of Exchange Traded Products; and 31.5% for securities with a price less than \$1 per share that are not included in the S&P 500® Index, Russell 1000® Index, or a pilot list of Exchange Traded Products; except that between 9:30 a.m. and 9:45 a.m. and between 3:35 p.m. and the close of trading, the Defined Limit shall be 21.5% for securities that are included in the S&P 500®, Russell 1000® Index, or a pilot list of Exchange Traded Products; 29.5% for securities with a price equal to or greater than \$1 per share that are not included in the S&P 500®, Russell 1000® Index, or a pilot list of Exchange Traded Products; and 31.5% for securities with a price less than \$1 per share that are not included in the S&P 500® Index, Russell 1000® Index, or a pilot list of Exchange Traded Products.
- (8) Reserved.
- (9) Reserved.
- (10) Nothing in this IEX Rule shall preclude a Market Maker from quoting at price levels that are closer to the National Best Bid and Offer than the levels required by this IEX Rule.

- (11) The minimum quotation increment for quotations of \$1.00 or above in all System Securities shall be \$0.01. The minimum quotation increment in the System for quotations below \$1.00 in System Securities shall be \$0.0001.
- (12) The individual Market Participant Identifier ("MPID") assigned to a Member to meet its Two-Sided Obligation pursuant to subparagraph (a)(1) of this IEX Rule shall be referred to as the Member's "Primary MPID." Market Makers may request the use of additional MPIDs that shall be referred to as "Supplemental MPIDs." A Market Maker that ceases to meet the obligations appurtenant to its Primary MPID in any security shall not be permitted to use a Supplemental MPID for any purpose in that security.
- (13) Market Makers that are permitted the use of Supplemental MPIDs pursuant to subparagraph (12) above of this IEX Rule are subject to the same rules applicable to the Members' first quotation, with one exception: the continuous two-sided quote requirement and excused withdrawal procedures described in IEX Rule 11.152 do not apply to Market Makers' Supplemental MPIDs. Supplemental MPIDs may be identified to the Exchange as interest to satisfy a Market Maker's two-sided obligation, in which case in order to be satisfactory, the Supplemental MPID's interest must be no more than the Designated Percentage from the NBBO as described and defined in this IEX Rule 11.151(a).

(b) Firm Quotations

- (1) All quotations and orders to buy and sell entered into the System by IEX Market Makers are firm and automatically executable for their displayed and non-displayed size in the System by all Users. A particular IEX Market Maker's quotations may be canceled rather than executed if part of the same AIQ group as an opposite side order, as set forth in IEX Rule 11.190(e). Notwithstanding the foregoing, Market Makers may not use AIQ functionality to evade the firm quotation obligation.

(c) Impaired Ability to Enter or Update Quotations.

- (1) In the event that an IEX Market Maker's ability to enter or update quotations is impaired, the market maker shall immediately contact IEX Market Operations to request the withdrawal of its quotations.
- (2) In the event that an IEX Market Maker's ability to enter or update quotations is impaired and the market maker elects to remain in IEX, the IEX Market Maker shall execute an offer to buy or sell received from another Member at its quotations as disseminated through the Exchange.

(d) Reserved.

(e) Locked and Crossed Markets.

- (1) Locked and Crossed Markets within the System: Any quotes or orders that are entered into the System that would lock or cross another order in the System will be executed by the System. For displayed orders only, this processing, set forth in IEX Rule 11.190(h)(1), ensures that no locked or crossed markets can exist within the System and that price improvement is allocated fairly.
- (2) Inter-market Locked and Crossed Markets.
 - (A) Definitions. For purposes of this IEX Rule, the following definitions shall apply:

- (i) The terms automated quotation, effective national market system plan, intermarket sweep order, manual quotation, NMS stock, protected quotation, the Regular Market Session, and trading center shall have the meanings set forth in Rule 600(b) of Regulation NMS under the Securities Exchange Act of 1934.
 - (ii) The term “Crossing Quotation” shall mean the display of a bid for an NMS stock during the Regular Market Session at a price that is higher than the price of an offer for such NMS stock previously disseminated pursuant to an effective national market system plan, or the display of an offer for an NMS stock during the Regular Market Session at a price that is lower than the price of a bid for such NMS stock previously disseminated pursuant to an effective national market system plan.
 - (iii) The term “Locking Quotation” shall mean the display of a bid for an NMS stock during the Regular Market Session at a price that equals the price of an offer for such NMS stock previously disseminated pursuant to an effective national market system plan, or the display of an offer for an NMS stock during the Regular Market Session at a price that equals the price of a bid for such NMS stock previously disseminated pursuant to an effective national market system plan.
- (B) Prohibition. Except for quotations that fall within the provisions of paragraph (C) of this IEX Rule, IEX Members shall reasonably avoid displaying, and shall not engage in a pattern or practice of displaying any quotations that lock or cross a protected quotation, and any manual quotations that lock or cross a quotation previously disseminated pursuant to an effective national market system plan.
- (C) Exceptions.
- (i) The locking or crossing quotation was displayed at a time when the trading center displaying the locked or crossed quotation was experiencing a failure, material delay, or malfunction of its systems or equipment.
 - (ii) The locking or crossing quotation was displayed at a time when a Protected Bid was higher than a Protected Offer in the NMS stock.

(Amended by SR-IEX-2019-14 eff. December 13, 2019).

Rule 11.152. Withdrawal of Quotations

- (a) Except as provided in paragraph (b) of this IEX Rule, a market maker that wishes to withdraw quotations in a security shall contact IEX Regulation to obtain excused withdrawal status prior to withdrawing its quotations. Withdrawals of quotations shall be granted by IEX Regulation only upon satisfying one of the conditions specified in this IEX Rule.
- (b) An IEX Market Maker that wishes to obtain excused withdrawal status based on a market maker’s systemic equipment problems, such as defects in an IEX Market Maker’s software or hardware systems or connectivity problems associated with the circuits connecting Exchange systems with the IEX Market Maker’s systems, shall contact IEX Market Operations. IEX Market Operations may grant excused withdrawal status based on systemic equipment problems for up to five (5) business days, unless extended by IEX Market Operations.
- (c)

- (1) For IEX-listed securities, excused withdrawal status based on circumstances beyond the IEX Market Maker's control, other than systemic equipment problems, may be granted for up to five (5) business days, unless extended by IEX Regulation. Excused withdrawal status based on demonstrated legal or regulatory requirements, supported by appropriate documentation and accompanied by a representation that the condition necessitating the withdrawal of quotations is not permanent in nature, may, upon notification, be granted for not more than sixty (60) days (unless such request is required to be made pursuant to paragraph (e) below). Excused withdrawal status based on religious holidays may be granted only if written notice is received by IEX one business day in advance and is approved by IEX. Excused withdrawal status based on vacation may be granted only if:
 - (A) The written request for withdrawal is received by IEX one business day in advance, and is approved by IEX
 - (B) The request includes a list of securities for which withdrawal is requested; and
 - (C) The request is made by an IEX Market Maker that meets the definition of a "Small Firm Member" pursuant to Definition Y of the FINRA Restated Certification of Incorporation, even if the IEX Market Maker is not a FINRA member.

The withdrawal of quotations because of pending news, a sudden influx of orders or price changes, or to effect transactions with competitors shall not constitute acceptable reasons for granting excused withdrawal status.

- (2) For securities listed on exchanges other than IEX, an IEX Market Maker that wishes to withdraw quotations shall contact IEX Regulation to obtain excused withdrawal status prior to withdrawing its quotations. Excused withdrawal status based on illness, vacations or physical circumstances beyond the Market Maker's control may be granted for up to five (5) business days, unless extended by IEX Regulation. Excused withdrawal status based on investment activity or advice of legal counsel, accompanied by a representation that the condition necessitating the withdrawal of quotations is not permanent in nature, may, upon written request, be granted for not more than sixty (60) days. The withdrawal of quotations because of pending news, a sudden influx of orders or price changes, or to effect transactions with competitors shall not constitute acceptable reasons for granting excused withdrawal status.
- (d) Excused withdrawal status may be granted to an IEX Market Maker that fails to maintain a clearing arrangement with a registered clearing agency or with a Member of such an agency and is withdrawn from participation in the trade reporting service of the Exchange, thereby terminating its registration as an IEX Market Maker. Provided however, that if IEX finds that the IEX Market Maker's failure to maintain a clearing arrangement is voluntary, the withdrawal of quotations will be considered voluntary and unexcused pursuant to IEX Rule 11.153 and the Rule 11 Series governing the Exchange. IEX Market Makers that fail to maintain a clearing relationship will have their Exchange system status set to "suspend" and be thereby prevented from entering, or executing against, any quotes/orders in the System.
 - (e) Excused withdrawal status may be granted to an IEX Market Maker that is a distribution participant or an affiliated purchaser in order to comply with SEC Rule 101 or 104 under the Act on the following conditions:
 - (1) A member acting as a manager (or in a similar capacity) of a distribution of a security that is a subject security or reference security under SEC Rule 101 and any member that is a distribution participant or an affiliated purchaser in such a distribution that does not have a manager shall provide written notice to IEX Regulation and the Market

Regulation Department of FINRA no later than the business day prior to the first entire trading session of the one-day or five-day restricted period under SEC Rule 101, unless later notification is necessary under the specific circumstances.

- (A) The notice required by subparagraph (e)(1) of this Rule shall be provided by submitting a completed Underwriting Activity Report that includes a request on behalf of each IEX Market Maker that is a distribution participant or an affiliated purchaser to withdraw the IEX Market Maker's quotations and includes the contemplated date and time of the commencement of the restricted period.
 - (B) The managing underwriter shall advise each IEX Market Maker that it has been identified as a distribution participant or an affiliated purchaser to IEX Regulation and that its quotations will be automatically withdrawn, unless a market maker that is a distribution participant (or an affiliated purchaser of a distribution participant) notifies IEX Regulation as required by subparagraph (e)(2), below.
- (2) An IEX Market Maker that has been identified to IEX Regulation as a distribution participant (or an affiliated purchaser of a distribution participant) shall promptly notify IEX Regulation and the manager of its intention not to participate in the prospective distribution in order to avoid having its quotations withdrawn.
- (3) If an IEX Market Maker that is a distribution participant withdraws its quotations in an IEX-listed security in order to comply with any provision of SEC Rules 101 or 104 and promptly notifies IEX Regulation of its action, the withdrawal shall be deemed an excused withdrawal. Nothing in this subparagraph shall prohibit IEX from taking such action as is necessary under the circumstances against a Member and its associated persons for failure to contact IEX Regulation to obtain an excused withdrawal as required by subparagraphs (a) and (e) of this Rule.
- (4) Reserved.
- (5) A member acting as a manager (or in a similar capacity of a distribution subject to subparagraph (e)(1)) of this Rule shall submit a request to IEX Regulation and the Market Regulation Department of FINRA to rescind the excused withdrawal status of distribution participants and affiliated purchasers, which request shall include the date and time of the pricing of the offering, the offering price, and the time the offering terminated, and, if not in writing, shall be confirmed in writing no later than the close of business the day the offering terminates. The request by this subparagraph may be submitted on the Underwriting Activity Report.
- (f) The IEX Appeals Committee shall have jurisdiction over proceedings brought by IEX Market Makers seeking review of the denial of an excused withdrawal pursuant to this IEX Rule, or the conditions imposed on their re-entry.
- (g) An IEX Market Maker that wishes to reinstate its quotations in a security after an excused withdrawal pursuant to IEX Rule 11.152 shall contact IEX to notify IEX of its intention to be reinstated. Upon confirmation by IEX that the market maker is reinstated, the market maker will have no longer than ten minutes to meet its market making obligations under IEX Rule 11.152.

(Amended by SR-IEX-2017-37 eff. October 23, 2017).

Rule 11.153. Voluntary Termination of Registration

- (a) An IEX Market Maker may voluntarily terminate its registration in a security by withdrawing its two-sided quotation from the Exchange. An IEX Market Maker that voluntarily terminates its registration in a security may not re-register

as a market maker in that security for twenty (20) business days in the case of IEX-listed securities or for one (1) business day in the case of other securities. Withdrawal from participation as an IEX Market Maker in the Exchange shall constitute termination of registration as a market maker in that security for purposes of this IEX Rule; provided, however, that an IEX Market Maker that fails to maintain a clearing arrangement with a registered clearing agency or with a Member of such an agency and is withdrawn from participation in the Exchange and thereby terminates its registration as an IEX Market Maker may register as an IEX Market Maker at any time after a clearing arrangement has been reestablished unless IEX finds that the IEX Market Maker's failure to maintain a clearing arrangement is voluntary, in which case the withdrawal of quotations will be considered voluntary and unexcused.

(b) Notwithstanding the above, an IEX Market Maker that accidentally withdraws as an IEX Market Maker may be reinstated if:

- (1) The IEX Market Maker notified Regulation of the accidental withdrawal as soon as practicable under the circumstances, but within at least one hour of such withdrawal, and immediately thereafter provided written notification of the withdrawal and reinstatement request;
- (2) It is clear that the withdrawal was inadvertent and the IEX Market Maker was not attempting to avoid its market making obligations; and
- (3) The IEX Market Maker's firm would not exceed the following reinstatement limitations:
 - (A) For firms that simultaneously made markets in less than 250 stocks during the previous calendar year, the firm can receive no more than two (2) reinstatements per year;
 - (B) For firms that simultaneously made markets in 250 or more but less than 500 stocks during the previous calendar year, the firm can receive no more than three (3) reinstatements per year; and
 - (C) For firms that simultaneously made markets in 500 or more stocks during the previous calendar year, the firm can receive no more than six (6) reinstatements per year.

(c) Factors that IEX will consider in granting a reinstatement under paragraph (b) of this IEX Rule include, but are not limited to:

- (1) The number of accidental withdrawals by the IEX Market Maker in the past, as compared with IEX Market Makers making markets in a comparable number of stocks;
- (2) The similarity between the symbol of the stock that the IEX Market Maker intended to withdraw from and the symbol of the stock that the IEX Market Maker actually withdrew from;
- (3) Market conditions at the time of the withdrawal;
- (4) Whether, given the market conditions at the time of the withdrawal, the withdrawal served to reduce the exposure of the Member's position in the security at the time of the withdrawal to market risk; and
- (5) The timeliness with which the IEX Market Maker notified Regulation of the error.

- (d) For purposes of paragraph (a) of this IEX Rule, a Market Maker shall not be deemed to have voluntarily terminated its registration in a security by voluntarily withdrawing its two-sided quotation from the Exchange if the IEX Market Maker's two-sided quotation in the subject security is withdrawn by IEX's systems due to issuer corporate action related to a dividend, payment or distribution, or due to a trading halt, and one of the following conditions is satisfied:
- (1) The IEX Market Maker enters a new two-sided quotation prior to the close of the
 - (2) Regular Market Session on the same day when IEX's systems withdrew such a quotation;
 - (3) The IEX Market Maker enters a new two-sided quotation on the day when trading resumes following a trading halt, or, if the resumption of trading occurs when the market is not in regular session, the IEX Market Maker enters a new two-sided quotation prior to the opening of the next Regular Market Session; or
 - (4) Upon request from the market maker, IEX Regulation authorizes the market maker to enter a new two-sided quotation, provided that IEX Regulation receives the market maker's request prior to the close of the Regular Market Session on the next regular trading day after the day on which the Market Maker became eligible to re-enter a quotation pursuant to subparagraph (d)(1) or (d)(2) hereof and determines that the IEX Market Maker was not attempting to avoid its market making obligations by failing to re-enter such a quotation earlier.
- (e) The IEX Appeals Committee shall have jurisdiction over proceedings brought by IEX Market Makers seeking review of their denial of a reinstatement pursuant to paragraphs (b) or (d) of this IEX Rule.

Rule 11.154. Suspension and Termination of Quotations

Such notice shall be provided no later than the close of business the next business day following the pricing of the distribution, unless later notification is necessary under specific circumstances.

If no Member is acting as a manager (or in a similar capacity) of such distribution, then each Member that is a distribution participant or an affiliated purchaser shall provide the notice required under this paragraph (d), unless another Member has assumed responsibility in writing for compliance therewith.

Rule 11.190. Orders and Modifiers

The gray highlighted portions of this rule are not yet operative. IEX will issue a trader alert announcing implementation timing. The relevant notice of filing and immediate effectiveness is available [here](#).

Users may enter into the System the types of orders listed in this IEX Rule 11.190, subject to the limitations set forth in this IEX Rule or elsewhere in the IEX Rules. Order, modifier, and parameter combinations which are disallowed by the Exchange may be rejected, ignored, or overridden by the Exchange, as determined by the Exchange to facilitate the most orderly handling of User instructions.

(a) General Order Types.

- (1) Limit Order. An order to buy or sell a stated amount of a security at a specified price (“limit price”) or better. A “marketable” limit order is a limit order to buy (sell) at or above (below) the lowest (highest) Protected Offer (Bid) for the security. A limit order:
- (A) May have any time-in-force (“TIF”) supported by the System as described in paragraph (c) of this IEX Rule.

Market orders shall not trade through Protected Quotations. Any portion of a market order that is designated as "IEX Only" will be canceled if, upon receipt by the System, it cannot be executed by the Exchange in accordance with Rules 11.230 and 11.230(a). Any portion of a market order that is not designated as "IEX Only," i.e. routable orders as described in IEX Rule 11.230(b), and that cannot be executed in full in accordance with Rule 11.230(a)(1) and 11.230(a) on the Exchange when reaching the Exchange will be eligible for routing away pursuant to IEX Rule 11.230(a)(2). A routable market order will trade at increasingly aggressive prices, fully satisfying all Protected Quotations, until the order is fully filled, reaches the LULD Price Band, or reaches the Router Constraint, as defined in IEX Rule 11.190(f)(2). A market order:

Market orders marked DAY are eligible to trade or route during the Regular Market Session and treated by the System as having a TIF of IOC.
 - (iv) Market orders marked GTT are rejected.
 - (v) Market orders marked GTX are rejected.
 - (vi) Market orders marked SYS are rejected.
 - (F) May be a MQTY, as defined in paragraph (b)(11) below.

(G) Market orders are never displayable.

(3) Pegged Order. A non-displayed order that upon entry into the System and while resting on the Order Book, is pegged to a reference price based on the NBBO and the price of the order is automatically adjusted by the System in response to changes in the NBBO. A User can specify to peg the order to one of the following reference prices: one (1) MPV less aggressive than the primary quote (i.e., the NBB for buy orders and NBO for sell orders) while resting, and available for execution against opposing orders to its discretionary price (i.e., from the resting price to the primary quote) ("primary peg"); the midpoint of the NBBO ("midpoint peg" and "fixed midpoint peg"); the midpoint of the NBBO upon entry, the inside quote on the same side of the market while resting, and available for execution against opposing orders within its discretionary range (i.e. from the resting price to the Midpoint Price or the order's limit, whichever is less aggressive) at a price that uses the minimum amount of discretion necessary to execute the order against an active order ("Discretionary Peg"); the primary quote plus or minus an offset amount ("Offset Peg"); or the NBO (NBB) for buy (sell) orders minus (plus) an optional offset amount ("Market Peg"). A pegged order may have a limit price beyond which the order shall not be executed. A midpoint pegged order, a Discretionary Peg order, or a fixed midpoint pegged order may be executed in sub-pennies if necessary to obtain a Midpoint Price. A pegged order:

(A) May have any TIF described in paragraph (c) of this IEX Rule. Offset Peg orders may not have a TIF of IOC or FOK.

(B) Is not eligible for routing pursuant to IEX Rule 11.230(b) and (c)(2).

(C) May not be an ISO, as defined in paragraph (b)(12) below.

(D) May be submitted with a limit price or without a limit price (an "unpriced pegged order").

(E) May ~~only trade~~ be entered during the Pre-Market Session, Regular Market Session, and Post-Market Session, except Corporate Discretionary Peg orders, as set forth in paragraphs (b)(16), and Market Maker Peg orders, as set forth in (b)(17) below. Pegged orders submitted in the Pre-Market Session may queue for the Opening Process as defined below. ~~Pegged orders submitted during the Post-Market Session will be rejected by the System.~~

(i) Pegged orders marked IOC are ~~rejected~~ accepted and eligible to trade during the Pre-Market Session, Regular Market Session, and Post-Market Session. ~~Pegged orders (except for Offset Peg orders) marked IOC are accepted and eligible to trade during the Regular Market Session.~~ Offset Peg orders marked IOC are always rejected.

(ii) Pegged orders marked FOK are ~~rejected~~ accepted and eligible to trade during the Pre-Market Session, Regular Market Session, and Post-Market Session. ~~Pegged orders (except for Offset Peg orders) marked FOK are accepted and eligible to trade during the Regular Market Session.~~ Offset Peg orders marked FOK are always rejected.

(iii) Pegged orders marked DAY submitted before the open of the Regular Market Session are queued by the System until the Regular Market Session Opening Process, pursuant to IEX Rule 11.231. Pegged orders marked DAY submitted during the Regular Market Session are accepted and begin trading immediately. Pegged orders entered into the System marked DAY, if not fully executed or canceled

by the User, expire at the end of the Regular Market Session. Pegged orders marked DAY are rejected during the Post-Market Session.

- (iv) Pegged orders marked GTT are ~~rejected~~ accepted and eligible to trade during the Pre-Market Session, Regular Market Session, and Post-Market Session. Pegged orders marked GTT submitted during the Pre-Market Session, Regular Market Session, and the Post-Market Session are accepted and begin trading immediately. Pegged orders entered into the System marked GTT, if not fully executed or canceled by the User, expire at the earlier of the expiration time assigned by the User or the end of the Regular Post-Market Session.
- (v) Pegged orders marked GTX are ~~rejected~~ submitted during the Pre-Market Session may queue for the Opening Process and Post-Market Session. Pegged orders marked GTX submitted during the Regular Market Session and Post-Market Session are accepted and begin trading immediately. Pegged orders entered into the System marked GTX, if not fully executed or canceled by the User, expire at the end of the Regular Post-Market Session.
- (vi) Pegged orders marked SYS are ~~rejected~~ accepted and eligible to trade during the Pre-Market Session, Regular Market Session, and Post-Market Session. Pegged orders marked SYS submitted during the Pre-Market Session, Regular Market Session, and the Post-Market Session are accepted and begin trading immediately. Pegged orders entered into the System marked SYS, if not fully executed or canceled by the User, expire at the end of the Regular Post-Market Session.

(F) May be a MQTY, as defined in paragraph (b)(11) below.

(G) Is not eligible to display. Pegged orders are always non-displayed.

(4) All Orders are processed, prioritized, time-stamped, and managed as described in IEX Rule 11.220.

(b) Order Parameters.

(1) Displayed Order. An order with its full quantity displayed. Limit orders, other than those marked IOC or FOK, may have their unexecuted portions posted on the Order Book. All such orders are considered fully displayed by the System, except those orders marked otherwise by Users, or prohibited from being displayed by the Rules. Displayed orders and displayed portions of orders may be referred to as “quotations” of the Exchange. All Exchange quotations are firm, which means they are automatically executable for their displayed size in the System. All Exchange quotations compete for priority as displayed orders pursuant to IEX Rule 11.220. A displayed order:

- (A) Must be a limit order.
- (B) Must have a TIF of DAY, GTX, SYS, or GTT.
- (C) May be either IEX Only or routable.
- (D) May not be an ISO, as defined in paragraph (12) below.
- (E) Must be submitted with a limit price.

(F) May be submitted during the Pre-Market Session, Regular Market Session, and Post-Market Session.

(G) May not be a MQTY, as defined in paragraph (11) below.

(H) May be an odd lot, round lot, or mixed lot.

(I) Is not eligible to be invited by the System to Recheck as described in IEX Rule 11.230(a)(4)(D).

(J) A displayed, non-routable, round or mixed lot limit order may include a Post Only instruction, as defined in paragraph (20) below.

(2) Reserve Order. An order with a portion of the quantity displayed (“display quantity”) and with a non-displayed reserve portion of the quantity (“reserve quantity”). The User instructed display quantity may be a fixed or random number of shares; and an odd, mixed, or round lot quantity. An incoming reserve order is first processed as a single order of its full, unexecuted share size as it checks the Order Book for eligible resting contra interest. If it is not fully executed, it will be posted to the Order Book and effectively be treated as two discrete orders: one displayed for the User instructed fixed or random replenishments quantity (“displayed portion”), and one non-displayed for all other remaining, unexecuted shares (“non-displayed portion”). For the purposes of pricing reserve orders on the Order Book, displayed portions are treated as displayed orders and non-displayed portions are treated as non-displayed orders. As described in IEX Rule 11.190(h), it is possible for the non-displayed portion to rest at a different price than the displayed portion, since the non-displayed portion is subject to non-displayed price sliding while the displayed portion is subject to display-price sliding. The User must specify a base display quantity (“Max Floor”) and may enter a replenishment value as described in subparagraph (2)(A) of this Rule 11.190(b). If the reserve order has a Max Floor of at least one round lot and the displayed portion of the reserve order is decremented such that less than one round lot would be displayed, the displayed portion of the reserve order shall be replenished from the non-displayed portion pursuant to subparagraph (2)(A) of this Rule 11.190(b) (the “replenishment process”) or by the entire reserve quantity, if the total number of unexecuted shares in the order is smaller than the replenishment quantity determined by the replenishment process. If a reserve order has a Max Floor that is less than a round lot, and the displayed portion of the reserve order is decremented to zero shares, the displayed portion of the reserve order shall be replenished from the non-displayed portion pursuant to the replenishment process, or by the entire reserve quantity, if the total number of unexecuted shares in the order is smaller than replenishment quantity determined by the replenishment process. Each time the displayed portion of the order is replenished from the reserve quantity, that portion is prioritized behind other existing displayed orders; the priority of the non-displayed portion, however, is unchanged by the replenishment process. A reserve order has the following attributes:

(A) Replenishment Options. The following replenishment options determine the size of the displayed quantity for any reserve order that does not fully execute on entry.

(i) Random Replenishment. An optional instruction a User may attach to a reserve Order where initial and replenishment displayed quantities for the order are randomly determined by the System within a replenishment range specified by the User. Specifically, the User must specify a replenishment value and a Max Floor (which may be either a round lot multiple or less than one round lot, but may not be a single round lot or a mixed lot). The display quantity will be determined by the System randomly selecting a number of shares as follows:

- (a) If the Max Floor is equal to a round lot multiple, the User must select a replenishment value in a round lot or multiple thereof that is less than the Max Floor. The System will determine the initial and replenishment displayed quantity each time the order is subject to replenishment by randomly selecting a round lot number of shares that is between: (i) the Max Floor minus the replenishment value; and (ii) the Max Floor plus the replenishment value.
 - (b) If the Max Floor is less than one round lot, the User must select a replenishment value of one or more shares that is less than the Max Floor. The System will determine the initial and replenishment displayed quantity each time the order is subject to replenishment by randomly selecting a number of shares that is between: (i) the Max Floor minus the replenishment value; and (ii) the Max Floor plus the replenishment value (provided that if the Max Floor plus the replenishment value equals a round lot or greater, the high end of the replenishment range will be one share less than a round lot).
- (ii) Fixed Replenishment. For an order for which the random replenishment instruction has not been selected, the displayed replenishment quantity will be equal to the Max Floor.
- (B) Must be a limit order, including a Discretionary Limit order.
- (C) Must have a TIF of DAY, GTX, SYS, or GTT.
- (D) May be either IEX Only or routable.
- (E) May not be an ISO, as defined in paragraph (12) below.
- (F) Must be submitted with a limit price.
- (G) May be submitted during the Pre-Market Session, Regular Market Session, and Post-Market Trading Session, with the exception of Discretionary Limit reserve orders, which may only be submitted as set forth in IEX Rule 11.190(b)(7)(F)(v).
- (H) May not be a MQTY, as defined in paragraph (11) below.
- (I) Displayed portions of reserve orders are not eligible to be invited by the System to Recheck as described in IEX Rule 11.230(a)(4)(D).
- (J) Non-displayed portions of reserve orders will include a Trade Now instruction, as defined in paragraph (21) below.
- (3) Non-Displayed Order. An order for which no portion is displayed on the Exchange. A non-displayed order:
 - (A) May be a market order, limit order, or pegged order. Note that pegged orders must be non-displayed. Additionally, note that market orders are never eligible to rest on the Order Book, and are therefore considered by definition to be non-displayable.
 - (B) May have any TIF described in section (c) of this IEX Rule. Note that IOC and FOK orders are never eligible to rest on the Order Book, and are therefore considered by definition to be non-displayable.

- (C) May be either IEX Only or routable.
 - (D) May be an ISO, as defined in paragraph (12) below. ISOs may only be marked with a TIF of IOC.
 - (E) May be submitted with a limit price, but not required if a market order or pegged order.
 - (F) May be submitted during the Pre-Market Session, Regular Market Session, and Post-Market Session.
 - (G) May be a MQTY, as defined in paragraph (11) below.
 - (H) May be an odd lot, round lot, or mixed lot.
 - (I) Is eligible to be invited by the System to Recheck as described in IEX Rule 11.230(a)(4)(D).
- (4) Odd Lot Order. An order to buy or sell an odd lot as defined by Rule 11.180. Odd lot orders marked for display are only eligible to be Protected Quotations if aggregated to form at least a round lot.
 - (5) Mixed Lot Order. An order to buy or sell a mixed lot as defined by Rule 11.180. Odd lot portions of mixed lot orders marked for display are only eligible to be Protected Quotations if aggregated to form a round lot.
 - (6) IEX Only Order. An order that is to be ranked and executed on the Exchange pursuant to IEX Rule 11.220 and IEX Rule 11.230(a)(1) or canceled, without routing away to an away trading center. An IEX Only order posting to the Order Book, will be subject to the price sliding process as set forth in paragraph (h).
 - (7) Discretionary Limit Order. A displayed, nondisplayed, or partially displayed Limit order that upon entry and when posting to the Order Book, is priced to be equal to and ranked at the order's limit price, except under the following circumstances:
 - (A) Upon entry during periods of quote instability, as defined in Rule 11.190(g)(1), if a Discretionary Limit buy order has a limit price equal to or higher than the quote instability determination price level in effect and the order was submitted with an optional instruction to allow for a price adjustment on entry, the price of the order will be automatically adjusted by the System to one (1) MPV lower than the quote instability determination price level in effect.
 - (B) Upon entry during periods of quote instability, as defined in Rule 11.190(g)(1), if a Discretionary Limit sell order has a limit price equal to or lower than the quote instability determination price level in effect and the order was submitted with an optional instruction to allow for a price adjustment on entry, the price of the order will be automatically adjusted by the System to one (1) MPV higher than the quote instability determination price level in effect.
 - (C) While unexecuted shares of a Discretionary Limit buy order are posted to the Order Book, if a quote instability determination is made, and such shares are ranked and displayed (in the case of a displayed order or the displayed portion of a reserve order) by the System at a price equal to or higher than the quote instability determination price level, the price of the order will be automatically adjusted by the System to one (1) MPV lower than the quote instability determination price level.

- (D) While unexecuted shares of a Discretionary Limit sell order are posted to the Order Book, if a quote instability determination is made, and such shares are ranked and displayed (in the case of a displayed order or the displayed portion of a reserve order) by the System at a price equal to or lower than the quote instability determination price level, the price of the order will be automatically adjusted by the System to one (1) MPV higher than the quote instability determination price level.
- (E) Cancel/Re-price Functionality. Users may attach an optional instruction to a Discretionary Limit order to either re-price or cancel an order that was price adjusted pursuant to subparagraphs (A)-(D) above if the buy (sell) order is resting at a price that is less aggressive than the NBB (NBO) ten (10) milliseconds after the most recent quote instability determination, pursuant to paragraph (g) of this IEX Rule 11.190, that resulted in the order being price adjusted pursuant to subparagraphs (A)-(D) above, as set forth in subparagraph (i) or (ii) below.
- (i) Re-price. A buy (sell) order with the optional re-price instruction will be automatically re-priced to the less aggressive of the order's limit price or the NBB (NBO).
 - (ii) Cancel. An order with the optional cancel instruction will be automatically cancelled.
- (F) Once the price of a Discretionary Limit order that has been posted to the Order Book is automatically adjusted by the System, the order will continue to be ranked and displayed (in the case of a displayed order or the displayed portion of a reserve order) at the adjusted price, unless subject to another automatic adjustment pursuant to subparagraphs (C) - (D) above, or the optional re-price functionality described in subparagraph (E), above. When the price of a Discretionary Limit order is adjusted, the order will receive a new time priority. If multiple Discretionary Limit orders are adjusted at the same time, their relative time priority will be maintained. A Discretionary Limit order:
- (i) Must be submitted with a limit price.
 - (ii) May have a TIF of DAY, GTX, SYS or GTT.
 - (iii) Is not eligible for routing pursuant to IEX Rule 11.230(b) and (c)(2).
 - (iv) May not be an ISO, as defined in paragraph (12) below.
 - (v) ~~Is eligible to trade only~~ May be entered during the Pre-Market Session, Regular Market Session, and Post-Market Session. A D-Limit order marked with a TIF of DAY or GTX that is submitted to the System before the opening of the Regular Market Session will be queued by the System until the start of the Regular Market Session; ~~if marked with a TIF other than DAY the D-Limit order will be rejected when submitted to the System during the Pre-Market Session.~~ A D-Limit order submitted into the System after the closing of the ~~Regular Post-~~Market Session will be rejected.
 - (vi) Non-displayed Discretionary Limit orders may be a MQTY, as defined in paragraph (11) below. Displayed and partially displayed (i.e., reserve) Discretionary Limit orders may not be a MQTY, as defined in paragraph (11) below.
 - (vii) May be an odd lot, round lot, or mixed lot.

- (viii) Displayed Discretionary Limit orders, including the displayed portion of a Discretionary Limit reserve order, are not eligible to be invited by the System to Recheck as described in IEX Rule 11.230(a)(4)(D).
 - (ix) Discretionary Limit orders are subject to the Price Sliding provisions of IEX Rule 11.190(h).
 - (x) A displayed round or mixed lot Discretionary Limit order may include a Post Only instruction, as defined in paragraph (20) below.
 - (xi) A non-displayed Discretionary Limit order will include a Trade Now instruction, as defined in paragraph (21) below.
- (8) Primary Peg Order. A pegged order that upon entry and when posting to the Order Book, the price of the order is automatically adjusted by the System to be equal to and ranked at the less aggressive of one (1) MPV less aggressive than the primary quote (i.e. the NBB for buy orders and NBO for sell orders) or the order's limit price, if any. While resting on the Order Book, the order is automatically adjusted by the System in response to the changes in the NBB (NBO) for buy (sell) orders up (down) to the order's limit price, if any. In order to meet the limit price of active orders on the Order Book, a primary peg order will exercise price discretion to its discretionary price (defined as the primary quote), except during periods of quote instability as defined in paragraph (g)(1) below or during periods of quote imbalance as defined in paragraph (g)(2) below, as selected by the User, or where the primary peg order is resting at its limit price, if any. When exercising price discretion, a primary peg order maintains time priority at its resting price and is prioritized behind any non-displayed interest resting at the discretionary price for the duration of that book processing action. If multiple primary peg orders are exercising price discretion during the same book processing action, they maintain their relative time priority at the discretionary price. A primary peg order:
- (A) Must be a pegged order.
 - (B) May have any TIF described in IEX Rule 11.190(a)(3).
 - (C) Is not eligible for routing pursuant to IEX Rule 11.230(b) and (c)(2).
 - (D) May not be an ISO, as defined in paragraph (12) below.
 - (E) May be submitted with a limit price or without a limit price (an "unpriced pegged order").
 - (F) ~~Is eligible to trade only~~ May be entered during the Pre-Market Session, Regular Market Session, and Post-Market Session. ~~As provided in IEX Rule 11.190(a)(3)(E)(iii), any pegged order, marked with a TIF of DAY that is submitted to the System before the opening of the Regular Market Session will be queued by the System until the start of the Regular Market Session; any pegged order that is marked with a TIF other than DAY will be rejected when submitted to the System during the Pre-Market Session.~~ Any pegged order submitted into the System after the closing of the ~~Regular~~ Post-Market Session will be rejected.
 - (G) May be a MQTY, as defined in paragraph (11) below.
 - (H) Is not eligible to display. Pegged orders are always non-displayed.

- (I) May be an odd lot, round lot, or mixed lot.
 - (J) Is eligible to be invited by the System to Recheck the Order Book to trade against eligible resting contra-side interest as described in IEX Rule 11.230(a)(4)(D).
 - (K) Is eligible to exercise price discretion to its discretionary price, except during periods of quote instability or quote imbalance, as specified in paragraph (g) below.
 - (i) If the System determines the NBB for a particular security to be an unstable quote in accordance with paragraph (g)(1) below or an imbalanced quote in accordance with paragraph (g)(2) below, it will restrict buy primary peg orders in that security from exercising price discretion to trade against interest at the NBB. The System will restrict a primary peg order from exercising such price discretion even if the current NBB is different than the price upon which the determination was based.
 - (ii) If the System determines the NBO for a particular security to be an unstable quote in accordance with paragraph (g)(1) below or an imbalanced quote in accordance with paragraph (g)(2) below, it will restrict sell primary peg orders in that security from exercising price discretion to trade against interest at the NBO. The System will restrict a primary peg order from exercising such price discretion even if the current NBO is different than the price upon which the determination was based.
- (9) Midpoint Peg Order. A pegged order that upon entry and when posting to the Order Book, the price of the order is automatically adjusted by the System to be equal to and ranked at the less aggressive of the Midpoint Price or the order's limit price, if any. While resting on the Order Book, the order is automatically adjusted by the System in response to changes in the midpoint of the NBBO as allowed by the order's limit price, if any. A midpoint peg order:
- (A) Must be a pegged order.
 - (B) May have any TIF described in paragraph (c) of this IEX Rule and as described in IEX Rule 11.190(a)(3).
 - (C) Is not eligible for routing pursuant to IEX Rule 11.230(b) and (c)(2).
 - (D) May not be an ISO, as defined in paragraph (12) below.
 - (E) May be submitted with a limit price or without a limit price (an "unpriced pegged order").
 - (F) ~~Is eligible to trade only~~ May be entered during the Pre-Market Session, Regular Market Session, and Post-Market Session. ~~As provided in IEX Rule 11.190(a)(3)(E)(iii), any pegged order marked with a TIF of DAY that is submitted to the System before the opening of the Regular Market Session will be queued by the System until the start of the Regular Market Session; any pegged order that is marked with a TIF other than DAY will be rejected when submitted to the System during the Pre-Market Session.~~ Any pegged order submitted into the System after the closing of the ~~Regular~~ Post-Market Session will be rejected.
 - (G) May be a MQTY, as defined in paragraph (11) below.
 - (H) Is not eligible to display. Pegged orders are always non-displayed.

- (I) May be an odd lot, round lot, or mixed lot.
 - (J) Is eligible to be invited by the System to Recheck the Order Book to trade against eligible resting contra-side interest as described in IEX Rule 11.230(a)(4)(D).
 - (K) May include a Trade Now instruction, as defined in paragraph (21) below.
- (10) Discretionary Peg Order. A pegged order that upon entry into the System, the price of the order is automatically adjusted by the System to be equal to the less aggressive of the Midpoint Price or the order's limit price, if any. When unexecuted shares of such order are posted to the Order Book, the price of the order is automatically adjusted by the System to be equal to and ranked at the less aggressive of one (1) MPV less aggressive than the primary quote (i.e., the NBB for buy orders and NBO for sell orders) or the order's limit price and is automatically adjusted by the System in response to changes in the NBB (NBO) for buy (sell) orders up (down) to the order's limit price, if any. In order to meet the limit price of active orders on the Order Book, a Discretionary Peg order will exercise the least amount of price discretion necessary from the Discretionary Peg order's resting price to its discretionary price (defined as the less aggressive of the Midpoint Price or the Discretionary Peg order's limit price, if any, or as set forth in IEX Rule 11.190(h)(2)(B)), except during periods of quote instability as defined in paragraph (g)(1) or during periods of quote imbalance as defined in paragraph (g)(2) below, as selected by the User, when a Discretionary Peg order is only eligible to trade at its resting price. When exercising price discretion, a Discretionary Peg order maintains time priority at its resting price and is prioritized behind any non-displayed interest at the discretionary price for the duration of that book processing action. If multiple Discretionary Peg orders are exercising price discretion during the same book processing action, they maintain their relative time priority at the discretionary price. A Discretionary Peg order:
- (A) Must be a pegged order.
 - (B) May have any TIF described in paragraph (c) of this IEX Rule and as described in IEX Rule 11.190(a)(3).
 - (C) Is not eligible for routing pursuant to IEX Rule 11.230(b) and (c)(2).
 - (D) May not be an ISO, as defined in paragraph (12) below.
 - (E) May be submitted with a limit price or without a limit price (an "unpriced pegged order").
 - (F) ~~Is eligible to trade only~~ May be entered during the Pre-Market Session, Regular Market Session, and Post-Market Session. ~~As provided in IEX Rule 11.190(a)(3)(E)(iii), any pegged order marked with a TIF of DAY that is submitted to the System before the opening of the Regular Market Session will be queued by the System until the start of the Regular Market Session; any pegged order which is marked with a TIF other than DAY will be rejected when submitted to the System during the Pre-Market Session.~~ Any pegged order submitted into the System after the closing of the ~~Regular~~ Post-Market Session will be rejected.
 - (G) May be a MQTY, as defined in paragraph (11) below.
 - (H) Is not eligible to display. Pegged orders are always non-displayed.
 - (I) May be an odd lot, round lot, or mixed lot.

- (J) Is eligible to be invited by the System to Recheck the Order Book to trade against eligible resting contra-side interest as described in IEX Rule 11.230(a)(4)(D).
- (K) Is eligible to exercise price discretion to its discretionary price, except during periods of quote instability or quote imbalance, as specified in paragraph (g) below.
 - (i) If the System determines the NBB for a particular security to be an unstable quote in accordance with paragraph (g)(1) below or an imbalanced quote in accordance with paragraph (g)(2) below, it will restrict buy Discretionary Peg orders in that security from exercising price discretion to trade against interest at or above the NBB. The System will restrict the Discretionary Peg order from exercising such price discretion even if the current NBB is different than the price upon which the determination was based.
 - (ii) If the System determines the NBO for a particular security to be an unstable quote in accordance with paragraph (g)(1) below or an imbalanced quote in accordance with paragraph (g)(2) below, it will restrict sell Discretionary Peg orders in that security from exercising price discretion to trade against interest at or below the NBO. The System will restrict the Discretionary Peg order from exercising such price discretion even if the current NBO is different than the price upon which the determination was based.
- (11) Minimum Quantity Order (“MQTY”). A non-displayed, non-routable order which must have at least the minimum indicated share size satisfied in order to execute. Upon order entry or order amendment by the User the “effective minimum quantity” of an order is equal to the lesser of the submitted minimum quantity or the total share size of the order. A MQTY:
 - (A) May be a market order, limit order, or pegged order.
 - (B) May have any TIF described in paragraph (c) of this IEX Rule, except a TIF of FOK. A MQTY submitted to the System with a TIF of FOK will be rejected.
 - (C) Is not eligible for routing pursuant to IEX Rule 11.230(b) and (c)(2).
 - (D) May not be an ISO, as defined in paragraph (12) below.
 - (E) May be submitted with or without a limit price.
 - (F) May be entered during the Pre-Market Session, Regular Market Session, and Post-Market Session. MQTY are not eligible to participate in the Opening Process pursuant to IEX Rule 11.231.
 - (G) Based on User instruction, the Exchange utilizes one of the following methods to determine satisfaction of the minimum quantity parameter for an order:
 - (i) Methods. A MQTY must be marked Composite, Minimum Execution Size with Cancel Remaining (“MinExec with Cancel Remaining”), or Minimum Execution Size with All-or-None Remaining (“MinExec with AON Remaining”).
 - (ii) When a MQTY has fewer remaining unexecuted shares than its effective minimum quantity.

- (a) If marked MinExec with Cancel Remaining, the System will cancel the order back to the User.
- (b) Otherwise, the System will treat the order as having an effective minimum quantity equal to its number of unexecuted shares.

(iii) When a MQTY is active (i.e. an active order).

- (a) If marked Composite, it executes against all willing resting orders of any size, provided that the aggregate execution size is equal to or greater than its effective minimum quantity.
- (b) If marked MinExec with Cancel Remaining or MinExec with AON Remaining, it executes against each willing resting order in priority, provided that each individual execution size meets its effective minimum quantity. Upon reaching a resting order that would trade with the MQTY, but does not satisfy its effective minimum quantity, the MQTY will post to the Order Book or cancel back to the User as per the order's instructions.
- (c) Any incoming MQTY order that would otherwise be executable against a resting non-displayed order but for the MQTY order's specific conditions will be booked and ranked by the System at the less aggressive of the incoming MQTY order's limit price, if any, or the contra-side protected quotation (i.e. the NBO for buy orders and NBB for sell orders) unless the Exchange's Protected Bid (for offers) or Protected Offer (for bids) is equal to the current NBB (for offers) or current NBO (for bids), in which case the incoming MQTY order is booked and ranked on the Order Book non-displayed one (1) MPV below the current NBO (for bids) or one (1) MPV above the current NBB (for offers).

(iv) When a MQTY is resting on the Order Book (i.e. a resting order).

- (a) The MQTY executes against a willing active order provided the active order's remaining unexecuted shares are equal to or greater than the MQTY's effective minimum quantity.
- (b) Any incoming MQTY order that would otherwise be executable against the resting MQTY order, but for either MQTY order's specific conditions, will be booked and ranked by the System at the less aggressive of the incoming MQTY order's limit price, if any, or the contra-side protected quotation (i.e. the NBO for buy orders and NBB for sell orders). Such order will not be eligible to trade at a price above (below) any non-displayed sell (buy) orders that are priced below (above) the price of such MQTY order. If the Exchange's Protected Bid (for offers) or Protected Offer (for bids) is equal to the current NBB (for offers) or current NBO (for bids), the incoming MQTY order will be booked and ranked on the Order Book non-displayed one (1) MPV below the current NBO (for bids) or one (1) MPV above the current NBB (for offers).

(H) May be an odd lot, round lot, or mixed lot.

- (12) Inter-market Sweep Orders. The System will accept incoming Inter-market Sweep Orders ("ISO") (as such term is defined in Regulation NMS). In order to be eligible for treatment as an Inter-market Sweep Order, the limit order must be marked "ISO" and the User entering the order must simultaneously route one or more additional limit orders marked "ISO," as necessary, to away markets to execute against the full displayed size of any

Protected Quotation for the security with a price that is superior to the limit price of the Inter-market Sweep Order entered in the System. Such orders, if they meet the requirements of the foregoing sentence, may be executed at one or multiple price levels in the System without regard to Protected Quotations at away markets consistent with Regulation NMS (i.e., may trade through such quotations). The Exchange relies on the marking of an order as an ISO order when handling such order, and thus, it is the entering User's responsibility, not the Exchange's responsibility, to comply with the requirements of Regulation NMS relating to Inter-market Sweep Orders. An ISO:

- (A) Must be a limit order.
 - (B) Must have a TIF of IOC.
 - (C) Is not eligible for routing pursuant to IEX Rule 11.230(b) and (c)(2).
 - (D) Must be submitted with a limit price.
 - (E) May be submitted during the Pre-Market Session, Regular Market Session, and Post-Market Session.
 - (F) May not be a MQTY.
 - (G) May be an odd lot, round lot, or mixed lot.
- (13) Offset Peg Order. A pegged order that upon entry and when posting to the Order Book, the price of the order is automatically adjusted by the System to be equal to and ranked at the less aggressive of the primary quote (i.e. the NBB for buy orders and NBO for sell orders) plus or minus an offset amount or the order's limit price, if any. While resting on the Order Book, (i) a buy order is automatically adjusted by the System in response to the changes in the NBB plus or minus the offset amount up to the order's limit price, if any; and (ii) a sell order is automatically adjusted by the System in response to changes in the NBO plus or minus the offset amount down to the order's limit price, if any. An Offset Peg order:
- (A) Must be a pegged order.
 - (B) Must have a TIF of DAY, GTT, GTX, or SYS, as described in IEX Rule 11.190(a)(3).
 - (C) Is not eligible for routing pursuant to IEX Rule 11.230(b) and (c)(2).
 - (D) May not be an ISO, as defined in paragraph (12) above.
 - (E) May be submitted with a limit price or without a limit price (an "unpriced pegged order").
 - (F) ~~Is eligible to trade only~~ May be entered during the Pre-Market Session, Regular Market Session, and Post-Market Session. ~~As provided in IEX Rule 11.190(a)(3)(E)(iii), any pegged order, marked with a TIF of DAY that is submitted to the System before the opening of the Regular Market Session will be queued by the System until the start of the Regular Market Session; any pegged order that is marked with a TIF other than DAY will be rejected when submitted to the System during the Pre-Market Session.~~ Any pegged order submitted into the System after the closing of the ~~Regular~~ Post-Market Session will be rejected.

- (G) May be a MQTY, as defined in paragraph (11) below.
- (H) Is not eligible to display. Pegged orders are always non-displayed.
- (I) May be an odd lot, round lot, or mixed lot.
- (J) Is eligible to be invited by the System to Recheck as described in IEX Rule 11.230(a)(4)(D).
- (K) Will not be eligible to trade when the market is locked or crossed.
- (L) May be submitted with an offset amount that is either aggressive or passive compared to the primary quote. If the offset amount would result in the price of an Offset Peg order being more aggressive than the contra-side protected quotation, the offset amount will be reduced so that the order is booked and ranked on the Order Book non-displayed at the contra-side protected quotation (i.e. the NBO for buy orders and NBB for sell orders), unless the Exchange's Best Bid (for offers) or Best Offer (for bids) is equal to the current NBB (for offers) or current NBO (for bids), in which case the order is booked and ranked on the Order Book non-displayed one (1) MPV below the current NBO (for bids) or one (1) MPV above the current NBB (for offers), as set forth in IEX Rule 11.190(h)(2), until such time as the full value of the offset amount will not result in the price of the Offset Peg order being more aggressive than the contra-side protected quotation, except when the order is an active order. If no offset amount is specified, the System will consider the offset amount to be zero.
- (M) May include a Trade Now instruction, as defined in paragraph (21) below.

.01 Reserve Orders

As stated in paragraph (b)(2) of this IEX Rule, if a reserve order is not fully executed on entry, it will be posted to the Order Book and effectively treated as two discrete orders: one displayed quantity based on the replenishment options set forth in paragraph (b)(2)(A) of this IEX Rule ("displayed portion"), and one non-displayed quantity for all other remaining, unexecuted shares ("non-displayed portion"). For the purposes of pricing reserve orders on the Order Book, displayed portions are treated as displayed orders and non-displayed portions are treated as non-displayed orders. As described in IEX Rule 11.190(h), it is possible for the non-displayed portion of a reserve order to rest at a different price than the displayed portion of the reserve order, since the non-displayed portion is subject to non-displayed price sliding while the displayed portion is subject to display-price sliding.

For example, NBBO is \$10.01 x \$10.02, and IEX does not have any orders resting at the NBBO.

IEX receives a non-routable, reserve DAY buy order for 1000 shares with a limit of \$10.02 and a User instructed display quantity of 50 shares. After testing the Order Book at \$10.02 and receiving no execution, the order is split into the displayed portion, a displayed DAY buy order for 50 shares with a limit of \$10.02, and the non-displayed portion, a non-displayed DAY buy order for 950 shares with a limit of \$10.02. The displayed portion, subject to display-price sliding, is booked and ranked on the Order Book displayed at a price equal to one (1) MPV below the current NBO, which is \$10.01. The non-displayed portion, subject to non-displayed price sliding, is booked and ranked on the Order Book non-displayed at a price equal to the NBO, which is \$10.02.

D-Limit reserve orders function like any other reserve order, except they can only trade during the Regular Market Session, and if a D-Limit reserve order has been subject to an automatic price adjustment pursuant to paragraphs (b)(7)(C) and (D) of this IEX Rule, both the displayed and non-displayed portions of the D-Limit reserve order will continue to be ranked and displayed (in the case of the displayed portion) at the adjusted price. The adjusted price functions as an effective limit price for both the displayed and non-displayed portions of the D-Limit reserve order if one or both portions of the D-Limit reserve order are subsequently price adjusted pursuant to the Price Sliding provisions of paragraph (h) of this IEX Rule.

.02 Priority of Non-Display Portions of Reserve Orders.

When initially posting to the Order Book, the non-displayed portion of a reserve order will be prioritized behind any pre-existing non-displayed interest at the price at which it is posted as a result of its having a newer timestamp. This holds true even if any such interest is re-priced as a consequence of the displayed portion of that reserve order being posted to the Order Book (i.e. having tightened the spread).

.03 Minimum Quantity Orders.

Composite. When taking liquidity, minimum quantity size for a MQTY marked Composite is satisfied by one or more orders on the IEX Book, provided the amount traded in aggregate will at least equal the order's effective minimum quantity. For a resting MQTY marked Composite, if the specified minimum quantity of shares is not satisfied by a given contra side active order, the order will surrender its priority position only for the duration of processing said active order against the Order Book.

For example, NBBO is \$10.01 x \$10.02. IEX PBBO is \$10.01 x \$10.03.

IEX receives three non-routable, non-displayed DAY sell orders: the first order, ORDER#1, for 200 shares with a limit of \$10.02 is booked and ranked at the offer; the second order, ORDER#2, for 400 shares with a limit of \$10.02, joins the offer at IEX and is ranked behind ORDER#1; the third order, ORDER#3, for 500 shares with a limit of \$10.02, joins the offer at IEX and is ranked behind ORDER#2.

Next, IEX receives a non-routable, non-displayed DAY buy MQTY for 7,500 shares marked Composite with a limit price of \$10.02 and minimum quantity size of 1,000 shares, ORDER#4. Since the aggregate size of all three sell orders exceeds the minimum quantity size of ORDER#4, three discrete executions representing a cumulative 1,100 shares occur in one single atomic action, i.e. a single book processing action, in which ORDER#4 removes the resting sell interest. The first execution is for 200 shares at \$10.02, which fully fills the oldest resting sell limit order on the offer, ORDER#1. The second execution is for 400 shares at \$10.02, and fully fills the next oldest resting sell limit order on the offer, ORDER#2. The third execution is for 500 shares at \$10.02, and fully fills the youngest resting sell limit order on the offer, ORDER#3. As a result of this event, ORDER#4 is decremented to a quantity of 6,400 shares from the original 7,500 shares and booked at its limit price, \$10.02.

MinExec with Cancel Remaining. When taking liquidity, minimum quantity size for a MQTY marked MinExec with Cancel Remaining must be satisfied by each order on the IEX Book that will execute against the MQTY. If the active MQTY reaches a resting order that would trade with it, but such order does not satisfy its minimum quantity size, the MQTY will post to the IEX Book or be cancelled back to the User as per the order's TIF instructions.

For example NBBO is \$10.01 x \$10.02.

IEX receives ORDER#1, a DAY midpoint peg buy MQTY for 900 shares marked MinExec with Cancel Remaining with a limit price of \$10.05 and minimum quantity size of 500 shares. ORDER#1 is booked and ranked at the Midpoint Price, \$10.015.

IEX receives a DAY midpoint peg sell order for 200 shares with a limit price of \$9.99, ORDER#2, which is booked at the prevailing Midpoint Price of \$10.015.

IEX receives another DAY midpoint peg sell order for 600 shares with a limit price of \$10.00, ORDER#3. Order #3 will execute 600 shares against Order #1 because it meets the minimum quantity requirement of Order #1. The remaining 300 shares of Order #1 will cancel back to the User.

MinExec with AON Remaining. The only variation in behavior between MinExec with Cancel Remaining and AON Remaining in the example above is that ORDER#1's 300 remaining shares would remain on the Order Book and be treated as having an effective minimum quantity of 300 shares.

-
- (14) **Retail Liquidity Provider Order.** A Midpoint Peg order that may not be a MQTY, as defined in paragraph (11) above, and is only eligible to execute against Retail orders through the execution process described in Rule 11.232(e).

- (15) **Retail Order.** An order submitted by a Retail Member Organization (as defined in Rule 11.232) and designated with a “Retail order” modifier. A Retail order must be an agency order, or riskless principal order that satisfies the criteria of FINRA Rule 5320.03. A Retail order must reflect trading interest of a natural person with no change made to the terms of the underlying order of the natural person with respect to price (except in the case of a market order that is changed to a marketable limit order) or side of market and that does not originate from a trading algorithm or any other computerized methodology (a “retail customer”). An order from a retail customer can include orders submitted on behalf of accounts that are held in a corporate legal form - such as an Individual Retirement Account, Corporation, or a Limited Liability Company - that have been established for the benefit of an individual or group of related family members, provided that the order is submitted by an individual.
- (16) **Corporate Discretionary Peg Order.** A Discretionary Peg buy order that upon entry into the System, the price of the order is automatically adjusted by the System to be equal to the less aggressive of the Midpoint Price, the consolidated last sale price, or the order’s limit price, if any. When unexecuted shares of such order are posted to the Order Book, the price of the order is automatically adjusted by the System to be equal to and ranked at the less aggressive of one (1) MPV less than the NBB, the consolidated last sale price, or the order’s limit price and is automatically adjusted by the System in response to changes in the NBB and consolidated last sale price up to the order’s limit price, if any (the order’s “resting price”). In order to meet the limit price of active orders on the Order Book, a Corporate Discretionary Peg order will exercise the least amount of price discretion necessary from the order’s resting price to its discretionary price (defined as the less aggressive of the Midpoint Price, consolidated last sale price, or the order’s limit price, if any, or as set forth in IEX Rule 11.190(h)(2)(B)), except during periods of quote instability as defined in paragraph (g)(1) below when a Corporate Discretionary Peg order is only eligible to trade at its resting price. When exercising price discretion, a Corporate Discretionary Peg order maintains time priority at its resting price and is prioritized behind any non-displayed interest at the discretionary price for the duration of that book processing action. If multiple Corporate Discretionary Peg orders are exercising price discretion during the same book processing action, they maintain their relative time priority at the discretionary price. A Corporate Discretionary Peg order:
- (A) Must be a pegged order.
 - (B) May have any TIF described in paragraph (c) of this IEX Rule and as described in IEX Rule 11.190(a)(3).
 - (C) Is not eligible for routing pursuant to IEX Rule 11.230(b) and (c)(2).
 - (D) May not be an ISO, as defined in paragraph (12) below.
 - (E) May be submitted with a limit price or without a limit price (an “unpriced pegged order”).
 - (F) Is eligible to trade only during the Regular Market Session and after at least one consolidated last sale eligible trade in the security has occurred on the current day. As provided in IEX Rule 11.190(a)(3)(E)(iii), any pegged order marked with a TIF of DAY that is submitted to the System before the opening of the Regular Market Session will be queued by the System until the start of the Regular Market Session; any pegged order which is marked with a TIF other than DAY will be rejected when submitted to the System during the Pre-Market Session. Any pegged order submitted into the System after the closing of the Regular Market Session will be rejected.
 - (G) May be a MQTY, as defined in paragraph (11) below.
 - (H) Is not eligible to display. Pegged orders are always non-displayed.
 - (I) May be an odd lot, round lot, or mixed lot.

- (J) Is eligible to be invited by the System to Recheck the Order Book to trade against eligible resting contra-side interest as described in IEX Rule 11.230(a)(4)(D).
 - (K) Is eligible to exercise price discretion to its discretionary price, except during periods of quote instability, as specified in paragraph (g) below. If the System determines the NBB for a particular security to be an unstable quote in accordance with paragraph (g), it will restrict Corporate Discretionary Peg orders in that security from exercising price discretion to trade against interest at or above the NBB. The System will restrict the Corporate Discretionary Peg order from exercising such price discretion even if the current NBB is different than the price upon which the determination was based.
- (17) **Market Maker Peg Order.** A limit order that, upon entry or at the beginning of the Regular Market Session, as applicable, the entered bid or offer is automatically priced by the System at the Market Maker Peg Designated Percentage (as defined in IEX Rule 11.190(b)(17)(A)) away from the then current NBB or NBO, as applicable, or if there is no NBB or NBO, at the Market Maker Peg Designated Percentage away from the last reported sale from the responsible single plan processor in order to comply with the quotation requirements for Market Makers set forth in Rule 11.151(a). For example, if the NBB is \$10 and the Market Maker Peg Designated Percentage for the security is 8%, the displayed price of a Market Maker Peg Order to buy would be \$9.20. Users may submit Market Maker Peg orders to the Exchange starting at the beginning of the Pre-Market Session, but the order will not be executable or automatically priced until the beginning of the Regular Market Session, and will expire at the end of the Regular Market Session. Upon reaching the Market Maker Peg Defined Limit (as defined in IEX Rule 11.190(b)(17)(B)), the price of a Market Maker Peg order bid or offer will be adjusted by the System to the Market Maker Peg Designated Percentage away from the then current NBB or NBO, or, if there is no NBB or NBO, the order will, by default, be the Market Maker Peg Designated Percentage away from the last reported sale from the responsible single plan processor. In the foregoing example, if the Market Maker Peg Defined Limit is 9.5% and the NBB increased to \$10.17, such that the displayed price of the Market Maker Peg Order would be more than 9.5% away, the Order will be repriced to \$9.36, or 8% away from the NBB. If a Market Maker Peg order bid or offer moves a specified number of percentage points away from the Market Maker Peg Designated Percentage towards the then current NBB or NBO, which number of percentage points will be determined and published in a circular distributed to Members from time to time, the price of such bid or offer will be adjusted by the System to the Designated Percentage away from the then current NBB or NBO, as applicable. If there is no NBB or NBO, as applicable, the order will be adjusted by the System to the Market Maker Peg Designated Percentage away from the last reported sale from the responsible single plan processor. In the event that pricing a Market Maker Peg order at the Market Maker Peg Designated Percentage away from the then current NBB and NBO, or, if no NBB or NBO, to the Market Maker Peg Designated Percentage away from the last reported sale from the responsible single plan processor, would result in the order exceeding its limit price, the order will be cancelled or rejected. If, after entry, the Market Maker Peg order is priced based on the last reported sale from the single plan processor and such Market Maker Peg order is established as the NBB or NBO, the Market Maker Peg order will not be subsequently adjusted in accordance with this rule until either there is a new consolidated last sale, or a new NBB or NBO is established by a national securities exchange. Market Maker Peg orders are not eligible for routing pursuant to Rule 11.230(b) and are always displayed on the Exchange. Notwithstanding the availability of Market Maker Peg order functionality, a Market Maker remains responsible for entering, monitoring, and resubmitting, as applicable, quotations that meet the requirements of Rule 11.151. Each time a Market Maker Peg order is automatically adjusted by the System in accordance with this rule, it is subject to 350 microseconds of latency prior to posting on the Order Book at the adjusted price. In addition, a new timestamp is created for the order each time that it is automatically adjusted by the System in accordance with this rule. Market Maker Peg orders may only be entered by a registered Market Maker.

- (A) For purposes of this IEX rule, the “Market Maker Peg Designated Percentage” shall be eight (8) percentage points for all securities, except that between 9:30 a.m. and 9:45 a.m. and between 3:35 p.m. and the close of trading, the Market Maker Peg Designated Percentage shall be twenty (20) percentage points.
 - (B) For purposes of this IEX rule, the “Market Maker Peg Defined Limit” shall be nine and one half (9.5) percentage points for all securities, except that between 9:30 a.m. and 9:45 a.m. and between 3:35 p.m. and the close of trading, the Market Maker Peg Defined Limit shall be twenty-one and one half (21.5) percentage points.
- (18) Market Peg Order. A pegged order that upon entry and when posting to the Order Book, the price of the order is automatically adjusted by the System to be equal to and ranked at the less aggressive of the contra-side primary quote (i.e., the NBO for buy orders and NBB for sell orders) minus (plus) an offset amount for buy (sell) orders, if any, or the order’s limit price, if any. While resting on the Order Book, the order is automatically adjusted by the System in response to the changes in the NBO (NBB) for buy (sell) orders, minus (plus) an offset amount for buy (sell) orders, if any, up (down) to the order’s limit price, if any. A Market Peg order:
- (A) Must be a pegged order.
 - (B) May have any TIF described in IEX Rule 11.190(a)(3).
 - (C) Is not eligible for routing pursuant to IEX Rule 11.230(b) and (c)(2).
 - (D) May not be an ISO, as defined in paragraph (12) above.
 - (E) May be submitted with a limit price or without a limit price (an “unpriced pegged order”).
 - (F) ~~Is eligible to trade only~~ May be entered during the Pre-Market Session, Regular Market Session, and Post-Market Session. ~~As provided in IEX Rule 11.190(a)(3)(E)(iii), any pegged order marked with a TIF of DAY that is submitted to the System before the opening of the Regular Market Session will be queued by the System until the start of the Regular Market Session; any pegged order that is marked with a TIF other than DAY will be rejected when submitted to the System during the Pre-Market Session.~~ Any pegged order submitted into the System after the closing of the ~~Regular~~ Post-Market Session will be rejected.
 - (G) May be a MQTY, as defined in paragraph (11) above.
 - (H) Is not eligible to display. Pegged orders are always non-displayed.
 - (I) May be an odd lot, round lot, or mixed lot.
 - (J) Is eligible to be invited by the System to Recheck the Order Book to trade against eligible resting contra-side interest as described in IEX Rule 11.230(a)(4)(D).
 - (K) Will not be eligible to trade when the market is locked or crossed.
 - (L) May be submitted with an offset amount that is passive compared to the contra-side primary quote. If the offset amount would result in the price of a Market Peg order being more aggressive than the contra-side protected quotation, the offset amount will be disregarded, so that the order is booked and ranked on the Order Book non-displayed at the contra-side protected quotation. If no offset amount is specified, the System will consider the offset amount to be zero.
 - (M) May include a Trade Now instruction, as defined in paragraph (21) below.
- (19) Fixed Midpoint Peg Order. A pegged order that upon entry and when posting to the Order Book, the price of the order is automatically adjusted by the System to be equal to and ranked at the less aggressive of the

Midpoint Price or the order's limit price, if any. However, an incoming fixed midpoint peg order will be canceled by the System if it is received when there is no NBB or NBO, or the NBBO is crossed. The price of a fixed midpoint peg order will not thereafter be repriced based on changes to the NBBO. However, a resting fixed midpoint peg order will be canceled back to the User if any of the following conditions are met:

- The fixed midpoint peg order to buy (sell) is entered either without a limit price, or with a limit price that is equal to or above (below) the Midpoint Price and is ranked at the Midpoint Price; thereafter, the NBBO changes so that the Midpoint Price changes;
- The fixed midpoint peg order to buy (sell) is entered at a limit price that is equal to or below (above) the Midpoint Price and is ranked at its limit price; thereafter, the NBBO changes so that the Midpoint Price is lower (higher) than the limit price of the fixed midpoint peg order;
- The fixed midpoint peg order to buy (sell) is entered either without a limit price, or with a limit price that is equal to or above (below) the Midpoint Price and is ranked at the Midpoint Price; thereafter the NBBO becomes crossed, such that the Midpoint Price is considered indeterminable as set forth in IEX Rule 11.190(h)(3)(D)(i). However, if the crossing price (NBO for buys/NBB for sells) is equal to the fixed midpoint peg's resting price, the order will not be canceled, but it will be ineligible to trade.

A fixed midpoint peg order:

- (A) Must be a pegged order.
- (B) May have any TIF described in paragraph (c) of this IEX Rule and as described in IEX Rule 11.190(a)(3).
- (C) Is not eligible for routing pursuant to IEX Rule 11.230(b) and (c)(2).
- (D) May not be an ISO, as defined in paragraph (12) below.
- (E) May be submitted with a limit price or without a limit price (an "unpriced pegged order").
- (F) ~~Is eligible to trade only~~ May be entered during the Pre-Market Session, Regular Market Session, and Post-Market Session. ~~As provided in IEX Rule 11.190(a)(3)(E)(iii), any pegged order marked with a TIF of DAY that is submitted to the System before the opening of the Regular Market Session will be queued by the System until the start of the Regular Market Session; any pegged order that is marked with a TIF other than DAY will be rejected when submitted to the System during the Pre-Market Session.~~ Any pegged order submitted into the System after the closing of the ~~Regular~~ Post-Market Session will be rejected.
- (G) May not be a MQTY, as defined in paragraph (11) below.
- (H) Is not eligible to display. Pegged orders are always non-displayed.
- (I) May be an odd lot, round lot, or mixed lot.
- (J) Is eligible to be invited by the System to Recheck the Order Book to trade against eligible resting contra-side interest as described in IEX Rule 11.230(a)(4)(D).
- (K) May include a Trade Now instruction, as defined in paragraph (21) below.

- (20) Post Only Order. A displayed, non-routable order that will not remove liquidity from the IEX Order Book, other than as described below.

- (A) A Post Only order will remove contra-side liquidity from the IEX Order Book if the order is an order to buy or sell a security priced below \$1.00.
 - (B) A Post Only order will remove contra-side liquidity from the IEX Order Book if the order would receive price improvement (as measured against the less aggressive of the order's limit price or the contra-side Protected Quotation) of at least \$0.01.
 - (C) If not designated by the User to cancel, a Post Only order that, at time of entry, would lock or cross a Protected Quotation of an external market will be ranked and displayed by the System at one (1) MPV below the current NBO (for bids) or one (1) MPV above the current NBB (for offers).
 - (D) If not designated by the User to cancel, any untraded quantity of a Post Only order will be subject to display-price sliding as set forth in IEX Rule 11.190(h)(1).
 - (E) Post Only orders must be a round or mixed lot sized order.
 - (F) Post Only orders must have a TIF of DAY, GTX, SYS, or GTT.
 - (G) Post Only orders may not be an ISO, as defined in paragraph (12) above.
- (21) Trade Now. An instruction on an order resting on the IEX Order Book that, when locked by an incoming Post Only order that does not remove liquidity pursuant to paragraph (20) of this Rule, causes such order to be converted to an executable order that removes liquidity against such incoming order.

(c) Time-in-Force.

Orders must have one of the following time-in-force terms.

- (1) Immediate-or-Cancel ("IOC"). Orders entered into the System marked IOC are executed on the Exchange or routed to an away venue, in whole or in part, as soon as such order is received, and the portion not so executed is canceled. Orders marked IOC are never posted to the Order Book and considered by definition to be non-displayable orders.
- (2) Fill or Kill ("FOK"). Orders entered into the System marked FOK are immediately executed on the Exchange for their full quantity or otherwise canceled. Orders marked FOK are never posted to the Order Book and considered by definition to be non-displayable orders. Routable orders marked FOK are rejected.
- (3) Day ("DAY"). Orders entered into the System marked DAY may queue during the Pre-Market Session. When queued, orders will participate in the Opening Process before becoming available for the Regular Market Session. Orders marked DAY are only available for trading or routing during the Regular Market Session and expire at the end of the Regular Market Session.
- (4) Good 'til Extended Day ("GTX"). Orders entered into the System marked GTX may queue during the Pre-Market Session. When queued, orders will participate in the Opening Process before becoming available for the Regular Market Session. Orders marked GTX are available for trading or routing during both the Regular Market Session and Post-Market Session, and expire at the end of the Post-Market Session.

- (5) System Session (“SYS”). Orders entered into the System marked SYS may trade or route during System Hours and expire at the end of the Post-Market Session.
- (6) Good ‘til Time (“GTT”). Orders entered into the System marked GTT may trade or route during System Hours and expire at the earlier of the User specified expire time or the end of the Post-Market Session.

(d) Cancel and Cancel/Replace (“Order Amendment”) Messages.

A User may, by appropriate entry in the System, cancel or replace an existing order entered by the User, subject to the following limitations.

- (1) Orders may only be replaced if the order has a time-in-force term other than IOC or FOK and if the order has not yet been fully executed. Market orders may not be replaced.
- (2) If an order has been routed to an away trading center, the order will be placed in a “Pending” state until the routing process is completed. Executions that are completed when the order is in the “Pending” state will be processed normally.
- (3) Supported Fields. Only the limit price, the order quantity, and the minimum quantity size of the order may be changed by a Replace Message and are considered supported fields. Unpriced pegged orders may have a limit price added to the order by a Replace Message, however the limit price may never be removed from an order. If a User desires to change any other terms of an existing order the existing order must be canceled and a new order must be entered.
- (4) Invalid Fields. Symbol, side, execution instruction, order type, and TIF are considered invalid fields. If a User attempts modify an invalid field by submitting a Replace Message, the order amendment will be rejected by the Exchange. If a User desires to modify an invalid field on an order, the existing order must be canceled and a new order must be entered.
- (5) Unsupported Fields. All fields not listed in paragraphs (3) and (4) above are considered unsupported fields. If a User desires to modify an unsupported field, the existing order must be canceled and a new order must be entered.
- (6) If an order amendment contains an invalid field, defined in paragraph (4) above, alone or in conjunction with a supported field, defined in paragraph (3) above, the Exchange will reject the amendment. If an order amendment contains an unsupported field alone, defined in paragraph (5) above, the Exchange will reject the amendment. If an order amendment contains an unsupported field and a supported field, the Exchange will amend the supported field and ignore the unsupported field. The Exchange will periodically update its FIX Specification to specify supported fields, invalid fields, and unsupported fields.
- (7) Cancel and Cancel/Replace messages will be processed in the order in which they are received by the System.
- (8) Notwithstanding anything to the contrary in these IEX Rules, no cancellation or replacement of an order will be effective until such message has been received and processed by the System.

(e) Anti-Internalization Group Identifier (“AIQ”) Functionality.

Any active order that is part of the same AIQ group will be prevented from executing against a resting opposite side order that is part of the same AIQ group. The AIQ modifier on the order with the newer timestamp will control the interaction between the two orders in an AIQ group. Determination of “newer” and “older” is based upon each order’s timestamp, as specified in IEX Rule 11.220(a)(1)(C).

(1) Definitions.

- (A) The term AIQ identifier means a unique User-supplied identifier included on an order message designating the order as subject to anti-internalization.
- (B) The term AIQ group means orders that are designated with the same AIQ identifier and originating from the same market participant identifier (“MPID”), Exchange User, or Member Affiliates, as specified by the User.
 - (i) For purposes of subparagraph (e)(1)(B) of this Rule 11.190, the term “Member Affiliates” shall mean Members that are affiliated with each other pursuant to Rule 12b-2 under the Act.
- (C) The term AIQ modifier means the User-designated modifier that determines the interaction between two orders within the same AIQ group that would otherwise execute against each other. The AIQ modifiers are specified in subparagraph (e)(2) of this IEX Rule 11.190.

(2) AIQ Modifiers.

- (A) Cancel Oldest (“CO”). If the newer order is marked or designated with the CO AIQ modifier, then the older order will be canceled back to the originating User. In accordance with User instructions, the newer order will be cancelled back to the originating User or remain on or post to the Order Book.
- (B) Cancel Newest (“CN”). If the newer order is marked or designated with the CN AIQ modifier, then the newer order will be cancelled back to the originating User. The older order will remain on the Order Book.
- (C) Cancel Both (“CB”). If the newer order is marked or designated with the CB AIQ modifier, then the entire size of both orders will be cancelled back to the originating User.
- (D) Cancel Smallest (“CS”). If the newer order is marked or designated with the CS AIQ modifier, and if both orders are equivalent in size, then both orders will be cancelled back to the originating User. If the orders are not equivalent in size, then the smaller of the two orders will be cancelled back to the originating User and the larger order will remain on or post to the Order Book.
- (E) Decrement Larger – Original Order Quantity (“DLO”). If the newer order is marked with the DLO AIQ modifier, the following describes the manner in which such orders will interact:
 - (i) If both orders are equivalent in size, then both orders will be cancelled back to the originating User.
 - (ii) If the newer order is larger than the older order, then the size of the larger order will be decremented by the size of the smaller order, and the smaller order will be cancelled back to the originating User.

(iii) If the newer order is smaller than the older order, and:

- (a) the older order is also marked with the DLO AIQ modifier, then the size of the older order will be decremented by the size of the newer order, and the newer order will be canceled back to the originating User.
- (b) the older order is marked or designated with any AIQ modifier other than DLO, and the User did not provide a standing instruction for the Exchange to disregard the AIQ modifier of the older order if the newer order is marked with the DLO AIQ modifier, then both orders will be canceled back to the originating User.
- (c) the older order is marked or designated with any AIQ modifier other than DLO, the User provided a standing instruction for the Exchange to disregard the AIQ modifier of the older order if the newer order is marked with the DLO AIQ modifier, and:
 - 1. the older order is not routable, then the size of the older order will be decremented by the size of the newer order, and the newer order will be cancelled back to the originating User.
 - 2. the older order is routable, then both orders will be cancelled back to the originating User.

- (3) Default Order Marking. Based on User instruction, the Exchange may mark orders with a default AIQ identifier by FIX session, i.e., order entry port. Principal and Agency/Riskless Principal orders may have different default settings.
- (4) Free-to-Trade Identifier. Users may designate an order as available to match with opposite side orders within an AIQ group by marking the AIQ identifier of the order with the “free-to-trade” identifier.
- (5) Compatibility with Book Recheck, as described in IEX Rule 11.230(a)(4)(D). For purposes of this IEX Rule 11.190(e), an active order, (i.e., the order that has been invited to Recheck against the Order Book) subject to anti-internalization will be treated as older or newer based on its timestamp.
- (6) Compatibility with MQTY, as described in paragraph (b)(11) above. In the event an active order subject to anti-internalization is a MQTY or an order marked with a TIF of FOK, the Exchange will determine satisfaction of the size requirement without excluding any resting orders from the same User or MPID that would otherwise be canceled under anti-internalization. This may result in total executed shares being less than the minimum quantity size value in an amount equal to the shares prevented from executing resulting from anti-internalization.
- (7) If a User includes an AIQ identifier on an order, but not an AIQ modifier, the Exchange will designate such order with the CO AIQ modifier.
- (8) Routable orders designated with a DLO AIQ modifier will be rejected.

.01 Best Execution

IEX notes that use of the AIQ functionality does not relieve or otherwise modify the duty of best execution owed to orders received from customers. As such, market participants using the AIQ modifiers will need to take appropriate steps to ensure customer orders that do not execute because they were subject to anti-internalization ultimately receive the same execution price (or better) than they would have originally obtained if execution of the order was not inhibited by anti-internalization.

.02 Firm Quote Obligations

Market Makers and other Users must not use the AIQ functionality to evade the firm quotation obligation, as specified in IEX Rule 11.151(b).

.03 Just and Equitable Principles of Trade

The AIQ functionality must be used in a manner consistent with just and equitable principles of trade.

(f) Order Price Collars and Constraints

- (1) Order Collar. Except for orders that are eligible for the Cross Book pursuant to Rule 11.231 during the Opening Process for non-IEX-listed securities or the Auction Book pursuant to Rule 11.350(a)(1) during the auction process for IEX-listed securities, the Exchange Order Collar prevents any incoming order or order resting on the Order Book, including those marked ISO, from executing at a price outside the Order Collar price range, i.e. prevents buy orders from trading at prices above the collar and prevents sell orders from trading at prices below the collar. The Order Collar price range is calculated using the numerical guidelines for clearly erroneous executions. Executions are permitted at prices within the Order Collar price range, inclusive of the boundaries. Any portion of a market order that would execute at a price beyond the Order Collar is canceled. Any remainder of a limit or pegged order that would execute at a price beyond the Order Collar is posted to the Order Book or canceled as per User instructions. Both displayed and non-displayed portions of limit orders or pegged orders may post on the Order Book at the Order Collar Price, but never more aggressive. Such orders may be re-priced to a compliant price within or at the Order Collar as the Order Collar price changes due to changing market conditions.
 - (A) The Order Collar Reference Price is equal to the most current of the following:
 - (i) Consolidated last sale price disseminated during the Regular Market Session on trade date.
 - (ii) Last trade price disseminated outside of the Regular Market Session (Form T, as communicated by the relevant SIP) on trade date which other than for the Form T designation would have been considered a valid last sale price.
 - (iii) If neither (i) or (ii) are available, prior day's Official Closing Price from the listing exchange, adjusted to account for corporate actions, news events, etc.
 - (B) In the absence of an Order Collar Reference Price, the Exchange will either prevent trading in a security (by rejecting orders for the security) or suspend the Order Collar function, in the interest of maintaining a fair and orderly market in the impacted security.
 - (C) The Exchange calculates the Order Collar price range for a security by applying the Numerical Guideline for the appropriate market session and reference price (see table below) to the Order Collar Reference

Price, as defined in paragraph (A) above. The result is added to the Order Collar Reference Price to determine the Order Collar Price for buy orders, while the result is subtracted from the Order Collar Reference Price to determine the Order Collar Price for sell orders. The appropriate Order Collar Price is assigned to all orders upon entry and enforced throughout the life of an order; the Order Collar Price is updated each time the Order Collar Reference Price is updated by the System.

(D) The Numerical Guideline used in the Order Collar Price calculation is based on the table below:

Order Collar Reference Price	Regular Market Session Numerical Guidelines	Pre-Market and Post-Market Sessions Numerical Guidelines
Greater than \$0.00 up to and including \$25.00	10%	20%
Greater than \$25.00 up to and including \$50.00	5%	10%
Greater than \$50.00	3%	6%

These percentages are based upon the numerical guidelines for clearly erroneous executions under IEX Rule 11.270.

(2) Router Constraint. Except for orders that are eligible for the Cross Book pursuant to Rule 11.231 during the Opening Process for non-IEX-listed securities or the Auction Book pursuant to Rule 11.350(a)(1)(A)(ii) during the auction process for IEX-listed securities, the Exchange Router Constraint prevents any order from routing at prices more aggressive than the Router Constraint price range. The Router Constraint price range is calculated using the numerical guidelines for clearly erroneous executions. Orders are permitted to route at prices within the Router Constraint price range, inclusive of the boundary. Any portion of an order that would have executed at a price more aggressive than the Router Constraint is canceled back to the User. While resting on the Order Book, routable orders are subject to the Order Collar, as defined in IEX Rule 11.190(f)(1). Any time a routable order would route at a price beyond the Router Constraint Price, the System will instead cancel the order back to the User.

(A) The Router Constraint Reference Price is equal to the most current of the following:

- (i) Consolidated last sale price disseminated during the Regular Market Session on trade date.
- (ii) Last trade price disseminated outside of the Regular Market Session (Form T, as communicated by the relevant SIP) on trade date which other than for the Form T designation would have been considered a valid last sale price.
- (iii) If neither (i) or (ii) are available, prior day's Official Closing Price from the listing exchange, adjusted to account for corporate actions, news events, etc.

(iv) Notwithstanding subparagraphs (i)-(iii) above, in the event a security is subject to a trading halt or trading pause, the Router Constraint Reference Price is invalid.

- (B) In the absence of a valid Router Constraint Reference Price, the Exchange will reject any routable orders for the security.
- (C) The Exchange calculates the Router Constraint Price for a routable order by applying the Numerical Guideline for the appropriate market session and reference price (see table below) to the Router Constraint Reference Price, as defined in paragraph (A) above. The result is added to the Router Constraint Reference Price to determine the Router Constraint Price for buy orders, while the result is subtracted from the latest Router Constraint Reference Price to determine the Router Constraint Price for sell orders. The Router Constraint Price is calculated at the start of a routing action, including a re-sweep, and remains unchanged until the order posts on the Order Book or is canceled as per User instructions.
- (D) The Numerical Guideline used in the Router Constraint Price calculation is based on the table below:

Router Constraint Reference Price	Regular Market Session Numerical Guidelines	Pre-Market and Post-Market Sessions Numerical Guidelines
Greater than \$0.00 up to and including \$25.00	10%	20%
Greater than \$25.00 up to and including \$50.00	5%	10%
Greater than \$50.00	3%	6%

These percentages are based upon the numerical guidelines for clearly erroneous executions under IEX Rule 11.270.

- (3) **Crossed Market Collar.** In the event that a Protected Bid is crossing a Protected Offer, the System does not execute any portion of an active buy order at a price more than the greater of five cents (\$0.05) or one half of a percent (0.5%) higher than the lowest Protected Offer, or any portion of an active sell order at a price more than the greater of five cents (\$0.05) or one half of a percent (0.5%) lower than the highest Protected Bid, unless such order is marked ISO. To the extent an incoming order is eligible to execute against an order resting on the Order Book because a Protected Bid is crossing a Protected Offer, but such incoming order is eligible for routing and there is a Protected Bid or Protected Offer available at an away trading center that is better priced than the bid or offer against which the order would execute on the System, the System first seeks to route the order to such better priced quotation pursuant to IEX Rule 11.230(b). When an order posts to or is resting on the Order Book while a Protected Bid is crossing a Protected Offer, the order will price slide in accordance with the price sliding process, pursuant to IEX Rule 11.190(h).

- (4) One-Sided Markets. One-Sided Markets are markets which lack either a Protected Bid or a Protected Offer.
- (A) In a One-Sided Market, non-displayed interest is handled in the following manner:
- (i) Non-displayed interest entering the System will first test for available displayed interest resting on the Order Book. Routable non-displayed interest may route to Protected Quotations on the opposite side of the market. Any unexecuted non-displayed interest will be unavailable to trade once it posts on the Order Book.
 - (ii) Resting non-displayed interest on IEX is unavailable to trade.
 - (iii) When a two-sided market returns, non-displayed orders become available at their relative priority.
- (B) In a One-Sided Market, displayable interest is handled in the following manner:
- (i) When IEX receives displayable interest on the same side of the market as the Protected Bid or Protected Offer:
 - (a) Displayable interest marked IEX Only posts and displays at the most aggressive allowable price.
 - (b) For routable displayable orders, the System will not route to away trading centers since there are no available contra-side Protected Quotations to access.
 - (ii) When IEX receives displayable interest on the side of the market opposite a best Protected Quote:
 - (a) Displayable interest marked IEX Only is eligible to trade with interest that is present on the Exchange and will post any unexecuted shares, order instructions allowing, subject to displayed-price sliding, as per paragraph (h)(1) below.
 - (b) For routable orders, the System will route the order consistent with Rule 11.230(b)(2).
- (5) Zero Markets. Zero Markets are markets in which neither a Protected Bid nor a Protected Offer exists.
- (A) In a Zero Market, resting non-displayed interest is unavailable to trade. Non-displayed orders are not eligible to route when Zero Markets exist. When a Two-Sided Market returns, non-displayed orders become available at their relative priority. When a contra-side Protected Quotation returns, the System will route routable orders consistent with Rule 11.230(b)(2), if eligible for re-sweep.
- (B) In a Zero Market, displayable interest will post and display at the most aggressive allowable price, and will not route to away trading centers since there are no available Protected Quotations to access. When a contra-side Protected Quotation returns, the system will route routable orders consistent with Rule 11.230(b)(2), if eligible for re-sweep.

(g) Quote Dynamics.

The Exchange utilizes real time relative quoting activity of Protected Quotations from eleven exchanges (ARCX, BATY, BATS, EDGA, EDGX, EPRL, MEMX, XBOS, XNGS, XNYS, XPHL) referred to as “Signal Exchanges”, and, as specified, the Exchange’s own Protected Quotation (collectively, with the Signal Exchanges, referred to as the “Input Exchanges”) to: (i) make quote instability determinations, as set forth in subparagraph (1) of Rule 11.190(g); or (ii) make quote imbalance determinations, as set forth in subparagraph (2) of IEX Rule 11.190(g).

- (1) Quote Instability. The Exchange utilizes nine proprietary mathematical calculations (“the Quote Instability Rules”) to assess the probability of an imminent change to the current Protected NBB to a lower price or a Protected NBO to a higher price for a particular security. Each Quote Instability Rule independently assesses the probability of an imminent change to the current Protected NBB to a lower price or Protected NBO to a higher price for a particular security. When the quoting activity meets one or more Quote Instability Rule’s predefined criteria and that Quote Instability Rule’s current activation value pursuant to this IEX Rule 11.190(g)(1) (“Activation Value”) is greater than the Exchange’s defined threshold (“Activation Threshold”) for that Quote Instability Rule, the System treats the quote as not stable (“quote instability” or a “crumbling quote”). During all other times, the quote is considered stable (“quote stability”). For each Quote Instability Rule, the Activation Value is initialized at 0.5 at the start of the Pre-Market Session, Regular Session, and Post-Market Session, and is updated during each trading session regular market hours as described in this IEX Rule 11.190(g)(1). During all other times, the quote is considered stable (“quote stability”).

When the System determines that either the Protected NBB or the Protected NBO in a particular security is unstable, the determination remains in effect at that price level for two (2) milliseconds (a “Quote Instability Determination”). Quote Instability Determinations are made separately for the Protected NBB and Protected NBO, so it is possible for zero, one or both of the Protected NBB and Protected NBO to be subject to a quote instability determination concurrently. A new Quote Instability Determination may be made after at least 250 microseconds has elapsed since a preceding Quote Instability Determination on the same side of the market in a particular security (i.e., Protected NBB or Protected NBO). If a new Quote Instability Determination is made, the Quote Instability Determination will be extended and in effect until two (2) milliseconds after the new Quote Instability Determination. Quote instability is determined by the System when:

- (A) The conditions set forth in one or more of the Quote Instability Rules are met and that Quote Instability Rule’s current Activation Value is greater than its Activation Threshold.
- (B) Quote Stability Variables. The Exchange uses the quote stability variables defined below to calculate whether the conditions set forth in each Quote Instability Rule set forth in subparagraph (1)(C) of this IEX Rule 11.190(g) are met.
- (i) “Signal Best Bid” means the highest Protected Bid of the Signal Exchanges, and for purposes solely of subparagraph (1) of Rule 11.190(g), means the highest Protected Bid of the Input Exchanges.
 - (ii) “Signal Exchange’s Best Bid Size” means the total shares (measured in round lot multiples) of a Signal Exchange displayed at the Signal Exchange’s Protected Bid.
 - (iii) “Aggregate Best Bid Size” means the aggregate total shares (measured in round lot multiples) of the Signal Exchanges displayed at the Signal Best Bid.

- (iv) “Bids” means the number of Signal Exchanges for which the highest Protected Bid is equal to the Signal Best Bid.
- (v) “Signal Best Offer” means the lowest Protected Offer of the Signal Exchanges, and for purposes solely of subparagraph (1) of Rule 11.190(g), means the lowest Protected Offer of the Input Exchanges.
- (vi) “Signal Exchange’s Best Offer Size” means the total shares (measured in round lot multiples) of a Signal Exchange displayed at the Signal Exchange’s Protected Offer.
- (vii) “Update” means any change to either the price or size of a Signal Exchange’s Protected Bid or Offer, including a change to the quote condition of a Signal Exchange’s Protected Bid or Protected Offer. For purposes solely of subparagraph (1) of Rule 11.190(g), “Update” means any change to either the price or size of an Input Exchange’s Protected Bid or Offer, including a change to the quote condition of an Input Exchange’s Protected Bid or Protected Offer.
- (viii) “Aggregate Best Offer Size” means the aggregate total shares (measured in round lot multiples) of the Signal Exchanges displayed at the Signal Best Offer.
- (ix) “Offers” means the number of Signal Exchanges for which the lowest Protected Offer is equal to the Signal Best Offer.
- (x) “Delta Bids” means the number of these three (3) exchanges (BATS, EDGX, and XNGS) that had a Protected Bid equal to the Signal Best Bid within the preceding one (1) millisecond (or within the time period since the start time of the current Signal Best Bid if shorter), but for which the exchange’s Protected Bid is no longer equal to the Signal Best Bid.
- (xi) “Delta Offers” means the number of these three (3) exchanges (BATS, EDGX, and XNGS) that had a Protected Offer equal to the Signal Best Offer within the preceding one (1) millisecond (or within the time period since the start time of the current Signal Best Offer if shorter), but for which the exchange’s Protected Offer is no longer equal to the Signal Best Offer.
- (xii) “Bid Pressure” means the number of Updates in the preceding two (2) millisecond period (or within the time period since the start time of the current Signal Best Bid if shorter) in which one or more of the following four events occurred at one or more of the Signal Exchanges:
 - (a) The Signal Exchange’s Protected Bid decreased, and its prior value was greater than or equal to the Signal Best Bid minus the Signal Spread;
 - (b) The Signal Exchange’s Protected Offer decreased, and its current value is less than or equal to the Signal Best Offer plus the Signal Spread;
 - (c) The Signal Exchange’s Best Bid Size decreased in size without a change to the price of the Signal Exchange’s Protected Bid, which is greater than or equal to the Signal Best Bid minus the Signal Spread; or

- (d) The Signal Exchange's Best Offer Size increased in size without a change to the price of the Signal Exchange's Protected Offer, which is less than or equal to the Signal Best Offer plus the Signal Spread.
- (xiii) "Offer Pressure" means the number of Updates in the preceding two (2) millisecond period (or within the time period since the start time of the current Signal Best Offer if shorter) in which one or more of the following four events occurred at any of the Signal Exchanges:
 - (a) The Signal Exchange's Protected Offer increased, and its prior value was less than or equal to the Signal Best Offer plus the Signal Spread;
 - (b) The Signal Exchange's Protected Bid increased, and its current value is greater than or equal to the Signal Best Bid minus the Signal Spread;
 - (c) The Signal Exchange's Best Offer Size decreased in size without a change to the price of the Signal Exchange's Protected Offer, which is less than or equal to the Signal Best Offer plus the Signal Spread; or
 - (d) The Signal Exchange's Best Bid Size increased in size without any change to the price of the Signal Exchange's Protected Bid, which is greater than or equal to the Signal Best Bid minus the Signal Spread.
- (xiv) "Signal Spread" means the Signal Best Offer minus the Signal Best Bid.
- (xv) "Signal Spread Bin Value" means the Signal Spread, rounded down to a full cent and restricted to a value between \$0.00 and \$0.04 so that values greater than \$0.04 are assigned a Signal Spread Bin Value of \$0.04 and values at or below \$0.00 are assigned a Signal Spread Bin Value of \$0.00.
- (xvi) "Lookback Average Signal Spread Bin Value" means the average of the Signal Spread Bin Value over the past twenty Updates.
- (xvii) "Previous Signal Best Bid" means the Signal Best Bid as of the last Update.
- (xviii) "Previous Aggregate Best Bid Size" means the aggregate total shares displayed among Signal Exchanges at the Previous Signal Best Bid as of the last Update.
- (xix) "Previous Signal Best Offer" means the Signal Best Offer as of the last Update.
- (xx) "Previous Aggregate Best Offer Size" means the aggregate total shares displayed among Signal Exchanges at the Previous Signal Best Offer as of the last Update.
- (C) Quote Instability Rules. The four (4) categories of rules designed to predict whether the Protected NBB (NBO) is unstable are set forth below. A determination that the Protected NBB for a particular security is unstable does not impact the System's ability to determine that the Protected NBO for that same security is also unstable, and vice versa.

(i) Disappearing bids (or offers) rules:

- (a) Rule DB1 (DO1) assesses whether Delta Bids (Offers) is greater than (1) one. The rule's Activation Threshold is 0.30.
- (b) Rule DB2 (DO2) assesses whether Delta Bids (Offers) is greater than (1) one and the product of Signal Best Bid (Offer) and Aggregate Best Bid (Offer) Size is less than \$60,000. The rule's Activation Threshold is 0.30.
- (c) Rule DB3 (DO3) assesses whether Delta Bids (Offers) is greater than or equal to (1) one and Bids (Offers) is less than or equal to (1) one. The rule's Activation Threshold is 0.30.
- (d) Rule DB4 (DO4) assesses whether Delta Bids (Offers) is greater than or equal to (1) one, Bids (Offers) is less than or equal to (1) one, and the product of Signal Best Bid (Offer) and Aggregate Best Bid (Offer) Size is less than \$60,000. The rule's Activation Threshold is 0.30.

(ii) Recent changes in quote size rules:

- (a) Rule SB1 (SO1) assesses whether Bids (Offers) is less than or equal to (1) one, Bid (Offer) Pressure is greater than or equal to Offer (Bid) Pressure, Aggregate Best Offer (Bid) Size is greater than Aggregate Best Bid (Offer) Size, and Bid (Offer) Pressure is greater than (2) two. The rule's Activation Threshold is 0.30.
- (b) Rule SB2 (SO2) assesses whether Bids (Offers) is less than or equal to (1) one, Bid (Offer) Pressure is greater than or equal to Offer (Bid) Pressure, Aggregate Best Offer (Bid) Size is greater than Aggregate Best Bid (Offer) Size, Bid (Offer) Pressure is greater than (1) one, and Signal Spread Bin Value is less than Lookback Average Signal Spread Bin Value. The rule's Activation Threshold is 0.30.

(iii) Locked or crossed market rules:

- (a) Rule LB (LO) assesses whether either of the following conditions are met: (A) Signal Best Offer (Bid) is less than (greater than) Previous Signal Best Offer (Bid) and Signal Best Bid is greater than or equal to Signal Best Offer; or (B) Aggregate Best Offer (Bid) Size is greater than Previous Aggregate Best Offer (Bid) Size, Aggregate Best Offer (Bid) Size is greater than Aggregate Best Bid (Offer) Size, and Signal Best Bid is greater than or equal to Signal Best Offer. The rule's Activation Threshold is 0.

(iv) Quotation changes rules:

- (a) Rule FB1 (FO1) assesses whether Signal Best Bid (Offer) is greater than Previous Signal Best Bid (Offer). The rule's Activation Threshold is 0.50.
- (b) Rule FB2 (FO2) assesses whether Signal Best Bid (Offer) is less than Previous Signal Best Bid (Offer). The rule's Activation Threshold is 0.50.

(D) Activation Value.

- (i) Whenever the conditions set forth in a Quote Instability Rule are met, the Exchange's proprietary quote instability calculation determines its new Activation Value by multiplying its current Activation Value by the decay factor. The Exchange utilizes an Activation Value of 0.5 at the start of the **Pre-Market Session**, **Regular Market Session**, and **Post-Market Session**, and a constant decay

factor of 0.94. If the new Activation Value is above the Activation Threshold for the applicable Quote Instability Rule, the System will generate a Quote Instability Determination in accordance with subparagraph (1)(A) of this IEX Rule 11.190(g).

- (a) However, notwithstanding the foregoing, if the conditions set forth in a Quote Instability Rule as described in subparagraph (i) above are met at a time that is 2 milliseconds or less since such conditions were met for the same Quote Instability Rule, and the PBB or PBO (as applicable) is unchanged, the System will use the prior Activation Value to determine whether to generate a Quote Instability Determination and will not modify the Activation Value by the decay factor.
 - (ii) Irrespective of whether or not a Quote Instability Determination was generated pursuant to subparagraph (i) above, the Activation Value for each Quote Instability Rule will also be modified during the **Pre-Market Session**, the **Regular Market Session**, and the **Post-Market Session** after the conditions set forth in a Quote Instability Rule were met, if within one second immediately thereafter, the next price change to the PBB or PBO (as applicable) is to a less aggressive price, in which case, a new Activation Value for that Quote Instability Rule will be calculated pursuant to the following formula: $(1 - \text{decay factor}) + \text{previous Activation Value}$.
- (2) Quote Imbalance. The Exchange utilizes three proprietary mathematical calculations (“the Quote Imbalance Rules”) to identify whether there is a quote imbalance in a security. When one or more of the Quote Imbalance Rule’s predefined criteria is satisfied, the System treats the quote as imbalanced (“quote imbalance”). During all other times, the quote is considered balanced (“quote balance”). The System will continually evaluate whether there is a quote imbalance for any symbol. When the predefined criteria for all three of the Quote Imbalance Rules are no longer satisfied, the System will no longer treat the quote as imbalanced.
- (A) Quote Imbalance Variables. The Exchange uses the quote imbalance variables defined below to calculate whether the conditions set forth in each Quote Imbalance Rule are met when making quote imbalance determinations.
 - (i) The terms “Signal Best Bid”, “Signal Best Offer”, “Aggregate Best Bid Size”, “Aggregate Best Offer Size”, “Previous Aggregate Best Bid Size”, “Previous Aggregate Best Offer Size”, “Previous Signal Best Bid”, “Previous Signal Best Offer”, “Signal Spread”, and “Update” have the meanings set forth in IEX Rule 11.190(g)(1)(B).
 - (ii) “Signal Bid Delta” is determined based on the relationship between the Signal Best Bid and the Previous Signal Best Bid. Specifically:
 - (a) If the Signal Best Bid is greater than the Previous Signal Best Bid, then the Signal Bid Delta is equal to the Aggregate Best Bid Size.
 - (b) If the Signal Best Bid is less than the Previous Signal Best Bid, then the Signal Bid Delta is equal to the Previous Aggregate Best Bid Size times negative one (1) (i.e., the negative value of the Previous Aggregate Best Bid Size).
 - (c) If the Signal Best Bid is equal to the Previous Signal Best Bid, then the Signal Bid Delta is equal to the Aggregate Best Bid Size minus the Previous Aggregate Best Bid Size.
 - (iii) “Signal Offer Delta” is calculated based on the relationship between the Signal Best Offer and the Previous Signal Best Offer. Specifically:

- (a) If the Signal Best Offer is less than the Previous Signal Best Offer, then the Signal Offer Delta is equal to the Aggregate Best Offer Size.
 - (b) If the Signal Best Offer is greater than the Previous Signal Best Offer, then the Signal Offer Delta is equal to the Previous Aggregate Best Offer Size times negative one (1) (i.e., the negative value of the Previous Aggregate Best Offer Size).
 - (c) If the Signal Best Offer is equal to the Previous Signal Best Offer, then the Signal Offer Delta is equal to the Aggregate Best Offer Size minus the Previous Aggregate Best Offer Size.
 - (iv) “Lookback Window” means: (i) the preceding 10 milliseconds if the Signal Spread is less than or equal to one cent (\$0.01); or (ii) the preceding 100 milliseconds if the Signal Spread is greater than one cent (\$0.01).
 - (v) “Bid Imbalance” is equal to the Signal Offer Delta minus the Signal Bid Delta. Bid Imbalance is measured each time there is an Update to the Quote during the Lookback Window.
 - (vi) “Signal Bid Delta Imbalance” is equal to the sum of the Bid Imbalance values calculated during the Lookback Window (considering only up to a maximum of the most recent 128 Updates during the Lookback Window).
 - (vii) “Offer Imbalance” is equal to the Signal Bid Delta minus the Signal Offer Delta. Offer Imbalance is measured each time there is an Update to the Quote during the Lookback Window.
 - (viii) “Signal Offer Delta Imbalance” is equal to the sum of the Offer Imbalance values calculated during the Lookback Window (considering only up to a maximum of the most recent 128 Updates during the Lookback Window).
 - (ix) “Delta Imbalance Threshold” is equal to twenty (20) times round lot multiples if the Signal Spread is less than or equal to one cent (\$0.01) or is equal to zero (0) if the Signal Spread is greater than one cent (\$0.01).
 - (x) “Bid Book Skew” is equal to the logarithm of the Aggregate Best Offer Size minus the logarithm of the Aggregate Best Bid Size.
 - (xi) “Offer Book Skew” is equal to the logarithm of the Aggregate Best Bid Size minus the logarithm of the Aggregate Best Offer Size.
 - (xii) “Book Skew Imbalance Threshold” is equal to 0.4 if the Signal Spread is less than or equal to one cent (\$0.01) or is equal to 0.7 if the Signal Spread is greater than one cent (\$0.01).
- (B) Quote Imbalance Rules. The three rules designed to identify whether a quote is imbalanced are set forth below. A determination that the Protected NBB for a particular security is imbalanced does not impact the System’s ability to determine that the Protected NBO for that same security is also imbalanced, and vice versa.
- (i) Rule Bid (Offer) BS indicates a period of quote imbalance if the Bid (Offer) Book Skew is greater than the Book Skew Imbalance Threshold.
 - (ii) Rule Bid (Offer) OFI indicates a period of quote imbalance if the Signal Bid (Offer) Delta Imbalance is greater than the Delta Imbalance Threshold.
 - (iii) Rule Bid (Offer) MS indicates a period of quote imbalance if the product of the Signal Best Bid (Offer) and the Aggregate Best Bid (Offer) Size is less than one thousand dollars (\$1,000).

- (3) The Exchange reserves the right to modify the proprietary mathematical calculations used to assess the probability of an imminent change to the current Protected NBB to a lower price or a Protected NBO to a higher price for a particular security, or to identify whether there is a quote imbalance in a security, subject to a filing of a proposed rule change with the SEC.

(h) Price Sliding.

The System will process orders pursuant to the “price sliding process,” which includes the following:

- (1) Display-Price Sliding.
- (A) An order eligible for display by the Exchange that, at the time of entry, would create a violation of Rule 610(d) of Regulation NMS by locking or crossing a Protected Quotation of an external market will be ranked and displayed by the System at one (1) MPV below the current NBO (for bids) or one (1) MPV above the current NBB (for offers) (“display-price sliding”).
 - (B) An order subject to display-price sliding will retain its limit price irrespective of the price at which such order is ranked and displayed. In the event the NBBO changes such that an order subject to display-price sliding would no longer lock or cross the Protected Quotation of an external market, the order will receive a new timestamp, and will be displayed at the most aggressive permissible price. Such orders may be re-priced once or multiple times, depending on changing market conditions and the order’s limit price.
 - (C) The following orders are subject to display-price sliding:
 - (i) IEX Only (non-routable) orders are always subject to display-price sliding, as applicable.
 - (ii) The displayed portion of a reserve order is always subject to the display-price sliding process when being refreshed from the non-displayed portion, as applicable.
 - (iii) Resting routable orders, including any portion of a routable order returning to the Exchange after routing, are subject to the display-price sliding process, as applicable, except in the case where the order, through the Outbound Router, has immediately prior to posting, satisfied all Regulation NMS Protected Quotations at prices better than, and prices equal to, the price at which the System intends to display such orders.
- (2) Non-Displayed Price Sliding. A non-displayed limit order posting to the Order Book which has a limit price more aggressive than the NBO (NBB) for bids (offers) is booked and ranked on the Order Book non-displayed at the contra-side protected quotation (i.e. the NBO for buy orders and NBB for sell orders), unless the Exchange’s Best Bid (for offers) or Best Offer (for bids) is equal to the current NBB (for offers) or current NBO (for bids), in which case the order is booked and ranked on the Order Book non-displayed one (1) MPV below the current NBO (for bids) or one (1) MPV above the current NBB (for offers) (“non-displayed price sliding”). To reflect changes to the NBBO, the order is automatically re-priced by the System in response to changes in the NBBO to be equal to the less aggressive of the order’s limit price or the contra-side protected quotation, unless the Exchange’s Best Bid (for offers) or Best Offer (for bids) is equal to the current NBB (for offers) or current NBO (for bids), in which case the order is automatically repriced to the less aggressive of the order’s limit price or one (1) MPV below the current NBO (for bids) or one (1) MPV above the current NBB (for offers).

Notwithstanding the foregoing, if a contra-side displayed odd lot order is booked and ranked on the Order Book at a price greater than or equal to the NBB (for bids) and less than or equal to the NBO (for offers):

- (A) Any incoming non-displayed order or non-displayed order resting on the Order Book (except for Discretionary Peg or Corporate Discretionary Peg orders) that would otherwise be executable against the contra-side displayed odd lot order, but for the non-displayed order's specific conditions, will be booked and ranked by the System at one (1) MPV less aggressive than the price of the contra-side displayed odd lot order.
- (B) Any resting Discretionary Peg or Corporate Discretionary Peg order that would otherwise be executable against the contra-side displayed odd lot order, but for the Discretionary Peg or Corporate Discretionary Peg order's specific conditions, will be booked and ranked by the System in the manner set forth in Rule 11.190(b)(10) or Rule 11.190(b)(16), respectively, but the discretionary price of the order will be the less aggressive of the limit price, if any, or one (1) MPV less aggressive than the price of the contra-side displayed odd lot order.

(3) Locked and Crossed Markets.

- (A) In the event that the market becomes locked, the System will observe the following practices for displayed orders:
 - (i) Resting orders that are displayed at the price of the locking quotation ("locking price") as defined in IEX Rule 11.310, and were originally displayed in compliance with rules and regulations of the Exchange and the Act will maintain their displayed price and quantity.
 - (ii) Displayable orders posting to the Order Book on the same side as an order which is locked and was originally displayed, as per paragraph (i) above, are not permitted to join the locking price. Such orders will be displayed and ranked by the System pursuant to the Exchange's display-price sliding practices described in paragraph (1) above.
- (B) In the event that the market becomes crossed, the System will observe the following practices for displayed orders:
 - (i) Resting orders that are displayed at a price which has become crossed and were originally displayed in compliance with rules and regulations of the Exchange and the Act will maintain their displayed price and quantity.
 - (ii) Displayable buy (sell) orders being posted to the Order Book during a crossed market will be displayed and ranked by the System one (1) MPV below (above) the lowest Protected Offer (highest Protected Bid).
- (C) In the event that the market becomes locked, the System will observe the following practices for non-displayed orders:
 - (i) In the event the market becomes locked, the Exchange shall consider the Midpoint Price to be equal to the locking price.

- (ii) In the event that the market becomes locked, primary peg orders and Discretionary Peg orders resting on or posting to the Order Book are priced one (1) MPV less aggressive than the locking price. If a Discretionary Peg order is submitted to the Exchange by a User while the market is locked, the order initially checks for available contra-side interest on the Order Book at the Midpoint Price (the locking price) before posting.
 - (iii) In the event that the market becomes locked, Offset and Market Peg orders are not eligible to trade and an Offset or Market Peg order that would otherwise be eligible to trade against an active order will surrender its precedence on the Order Book for the duration of the System processing the current active order, pursuant to IEX Rule 11.220(a)(5). Offset or Market Peg orders resting on or posting to the Order Book while the market is locked are priced at the less aggressive of the locking price plus or minus an offset amount or the order's limit price, if any. However, an Offset or Market Peg with an offset amount that would otherwise result in the order being priced more aggressive than the locking price will be priced at the locking price pursuant to non-displayed price sliding.
- (D) In the event that the market becomes crossed, the System will observe the following practices for non-displayed orders:
 - (i) In the event the market becomes crossed, the Exchange shall consider the Midpoint Price indeterminable. Midpoint peg orders, Discretionary Peg orders, Corporate Discretionary Peg orders and non-displayed orders, will be priced by the System to be no more aggressive than the crossing price, the lowest Protected Offer for buy orders and the highest Protected Bid for sell orders. Fixed midpoint peg orders will be canceled back to the User unless the crossing price is equal to the fixed midpoint peg order's resting price.
 - (ii) In the event that the market becomes crossed, primary peg orders and Discretionary Peg orders resting on or posting to the Order Book are priced one (1) MPV away from the crossing price, the lowest Protected Offer for buy orders and the highest Protected Bid for sell orders, before posting. If a Discretionary Peg order is submitted to the Exchange by a User while the market is crossed, the order initially checks for matches on the Order Book at the crossing price, the lowest Protected Offer for buy orders and the highest Protected Bid for sell orders, before posting. If a primary peg order is submitted to the Exchange by a User while the market is crossed, the order posts to the Order Book priced one (1) MPV less aggressive than the crossing price, the lowest Protected Offer for buy orders and the highest Protected Bid for sell orders.
 - (iii) In the event that the market becomes crossed, Offset, Market, and Fixed Midpoint Peg orders are not eligible to trade and an Offset, Market, or Fixed Midpoint Peg order that would otherwise be eligible to trade against an active order will surrender its precedence on the Order Book for the duration of the System processing the current active order, pursuant to IEX Rule 11.220(a)(5). Offset or Market Peg orders resting on or posting to the Order Book while the market is crossed are priced at the least aggressive of (1) the crossing price plus or minus an offset amount, (2) the crossing price (the lowest Protected Offer for buy orders and the highest Protected Bid for sell orders), or (3) the order's limit price, if any.
- (4) Short Sale Price Sliding. The re-pricing described in this sub-paragraph constitutes "short sale price sliding" for short sale orders.

- (A) For purposes of this IEX Rule, the terms "covered security", "listing market", and "national best bid" shall have the same meaning as in Rule 201 of Regulation SHO. The term Short Sale Period is defined in IEX Rule 11.290(d). The term Short Sale Price Test is defined in IEX Rule 11.290(b).
 - (B) During a Short Sale Period, any active short sale order not marked short exempt is prevented by the System from executing at or below the current NBB.
 - (C) A short sale order not marked short exempt that, at the time of entry, could not be executed or displayed in compliance with Rule 201 of Regulation SHO will be repriced and ranked by the System on the Order Book at a price equal to one MPV above the current NBB (the "Permitted Price"). To reflect declines in the NBB, the System will continue to re-price a resting short sale order not marked short exempt to be equal to the higher of the order's limit price or the Permitted Price. In the event the NBB changes such that the price of a non-displayed Order subject to Rule 201 of Regulation SHO would lock or cross the NBB, the order will receive a new timestamp, and will be re-priced by the System at the Permitted Price.
 - (D) During a Short Sale Period, the System may execute a displayed short sale order not marked short exempt (including the displayed portion of a short sale reserve order not marked short exempt) below the Permitted Display Price if, at the time of initial display of such short sale order, the order was displayed at a price above the then current NBB. This provision does not apply to shares refreshing from the non-displayed portion to the displayed portion of a short sale reserve order not marked short exempt; such displayed portion is subject to short sale price sliding.
 - (E) During a Short Sale Period, orders marked "short exempt" will not be subject to short sale price sliding. The System will accept orders marked "short exempt" at any time when the System is open for order entry, regardless of whether the Short Sale Price Test has been triggered.
- (5) Limit Up-Limit Down Price Constraint. For purposes of this IEX Rule the terms "Plan" and "Limit Up-Limit Down Plan" mean the Plan to Address Extraordinary Market Volatility Pursuant to Rule 608 of Regulation NMS. The term "Lower Price Band" and "Upper Price Band" shall be defined as per the Plan. An order that would post to the Order Book with a limit price more aggressive than the applicable Upper Price Band (for buy orders) or Lower Price Band (for sell orders) will be posted, and displayed if applicable, at the Price Band. An order subject to Limit Up-Limit Down Price Constraint will retain its limit price irrespective of the prices at which such order is ranked. In the event the Band Price changes such that an order subject to Limit Up-Limit Down Price Constraint would no longer be more aggressive than the Band Price, the order will be re-priced to the most aggressive allowable price and receive a new timestamp.

.01 Price Sliding and Time Priority.

Due to the way in which IEX processes actions to resting orders, specifically when re-pricing, orders' relative time priority is generally preserved. IEX assigns time priority, specifically a resting order's time priority, as the time when it is posted to the book at a given price, and each time the System re-prices an order, it necessarily receives a new time priority (i.e. timestamp).

For example, two midpoint peg buy orders with aggressive limit prices are posted to the Order Book at 10.105, the Midpoint Price of the NBBO of 10.10 x 10.11.

ORDER#1 is a buy with a limit price of 10.12 and is the older order.

ORDER#2 is a buy with a limit price of 10.15 and is the younger order.

When the NBBO changes to 10.10 x 10.12, IEX will re-price those 10.105 buys to 10.11, re-pricing ORDER#1 first and ORDER#2 second, preserving their relative time priority.

In the case where those same orders have different limit prices, it is possible for the relative time priority of orders to change if the market moves cause one to be re-priced but not the other.

Suppose in the above example, the NBBO now moves to 10.14 x 10.16; ORDER#2 will be resting at the Midpoint Price of 10.15 and ORDER#1 will be resting at 10.12, since the Midpoint Price is currently beyond its limit price.

Scenario #1: If the market moves back down from 10.14 x 10.16 to 10.11 x 10.13, ORDER#2 will be re-priced from 10.15, to the new Midpoint Price of 10.12, where ORDER#1 is already resting. ORDER#2 will receive a new timestamp and thus will be behind (newer timestamp) ORDER#1 in time priority at 10.12. In this scenario the relative time priority of these two orders has been preserved.

Note: In Scenario #1, had ORDER#2 been the older order, then that scenario reverses the relative time priority of these two orders.

Scenario #2: If instead the market moves from 10.14 x 10.16 to 10.10 x 10.13, both orders need to be re-priced to the new Midpoint Price of 10.115. ORDER#2 will be re-priced first, as it is currently ranked at a more aggressive price of 10.15, followed by ORDER#1. While both orders will receive new timestamps, since ORDER#1 will be re-priced second, it will be behind (newer timestamp) ORDER#2 at the new price of 10.115. In this scenario the relative time priority of these two orders has been reversed.

Note: In Scenario #2, had ORDER#2 been the older order, then that scenario maintains the relative time priority of these two orders.

Please note that except in the rare instance of Limit Up-Limit Down Band Prices and IEX Order Collars requiring it, IEX will otherwise never re-price a displayed order already posted on the Order Book to a less aggressive price. Displayed orders and displayed portions of orders already posted are otherwise only ever re-priced to more aggressive prices, as allowed by the prevailing market and the limit price indicated by Users on those orders.

.02 Price Sliding of Displayed Orders Resting on the Order Book.

Orders displayed on the Exchange which were displayed at a price compliant with Regulation NMS are generally permitted to maintain their displayed price in the event an away trading center locks or crosses the price of the IEX displayed order. If such IEX displayed resting order is eligible to "re-sweep" under the Exchange's routing options, the System will route the order, in whole or in part, to any Protected Quotations that are locking or crossing the resting order's booked limit price for up to their full displayed size, if possible. Once the Protected Quotations have been cleared, any remaining shares will post at the order's limit price in accordance with IEX Rules and the Act.

When a reserve order refreshes its displayed portion, the refreshing shares are not permitted to be displayed at a price that locks or crosses the price of a protected quotation on an away market and are subject to display-price sliding pursuant to IEX Rule 11.190(h)(1).

Rule Series 11.200. ORDER GUIDELINES

Rule 11.210. Minimum Price Variant (“MPV”)

(a) Bids, offers, orders or indications of interests in securities traded on the Exchange shall not be made in an increment smaller than:

- (1) \$0.01 if those bids, offers or indications of interests are priced equal to or greater than \$1.00 per share; or
- (2) \$0.0001 if those bids, offers or indications of interests are priced less than \$1.00 per share and the security is an NMS stock pursuant to Commission Rule 600(b)(55) and is trading on the Exchange; or
- (3) Any other increment established by the Commission for any security which has been granted an exemption from the minimum price increments requirements of Commission Rule 612(a) or 612(b).

(Amended by SR-LEX-2023-14 eff. December 22, 2023).

Rule 11.220. Priority of Orders

(a) Determination of Rank.

- (1) Orders resting in the Order Book shall be ranked and maintained based on the following priority:
 - (A) Price. Orders are ranked by the price at which they are resting on the Order Book (“Resting Price”). The best priced order (the highest priced resting order to buy or the lowest priced resting order to sell) shall have priority over all other orders to buy (or orders to sell) in all cases.
 - (B) Display. The System shall rank equally priced trading interest within the System by display. Displayed orders and displayed portions of orders will have precedence over non-displayed orders and non-displayed portions of orders at a given price.
 - (C) Time. The System shall rank equally priced trading interest with the same display within the System in time priority. Subject to the Execution Process described below, where orders to buy (or sell) are resting at the same price with the same display, the order clearly established as the oldest in the System at such particular price and display shall have precedence at that price and display, up to the number of shares

of stock specified in the order. Orders are ranked by the time at which they are posted to the Order Book at a given price, the first to be posted at a given price being the oldest. Orders maintain their time priority once booked until one of the following occur, at which time the order will receive a new timestamp:

- (i) Order is incremented by the User by means of a Cancel/Replace pursuant to IEX Rule 11.190(d).
- (ii) Order is re-priced by the User by means of a Cancel/Replace pursuant to IEX Rule 11.190(d).
- (iii) Minimum Quantity is amended by the User by means of a Cancel/Replace pursuant to IEX Rule 11.190(d).
- (iv) Order is incremented by the System, or is returned to the Order Book by the System after routing or re-routing pursuant to IEX Rule 11.230(b)(1).
- (v) The displayed portion of a reserve order is given a new timestamp when it is replenished by the System as set forth in IEX Rule 11.190(b)(2).
- (vi) Order is re-priced by the System pursuant to IEX Rule 11.190(h).
- (vii) Pursuant to IEX Rule 11.190(b)(10), when exercising price discretion, Discretionary Peg orders maintain time priority at their resting price, however they are prioritized behind any non-displayed interest at the discretionary price for the duration of that book processing action.

(2) Orders resting on the Order Book shall be ranked and maintained for the Opening Process based on the following priority:

- (A) Price. The best priced Cross Eligible Order (the highest priced resting order to buy or the lowest priced resting order to sell) has priority over all other orders to buy (or orders to sell) in all cases. Cross Eligible Orders resting on the Continuous Book are ranked by the price at which they are resting on the Continuous Book; Cross Eligible Orders resting on the Cross Book are ranked by the limit price defined by the User, if any, except in the case of pegged orders, which are ranked by their current booked price (in each case, the order's "resting price").
- (B) Display. Equally priced Cross Eligible Orders are ranked by display priority. Displayed orders and displayed portions of Cross Eligible Orders will have precedence over non-displayed orders and non-displayed portions of Cross Eligible Orders at a given price.
- (C) Time. Equally priced Cross Eligible Orders with the same display priority are ranked in time priority. Where Cross Eligible Orders to buy (or sell) are ranked at the same price with the same display priority, the oldest order at such price and display shall have precedence at that price and display. Orders are ranked by the time at which they are posted to the Order Book at a given price, the first to be posted at a given price being the oldest. Cross Eligible Orders maintain their time priority once booked until one of the following occur, at which time the order will receive a new timestamp:
 - (i) An order on the Cross Book is incremented by the User;
 - (ii) An order on the Cross Book is re-priced by the User;

- (iii) The Minimum Quantity instruction is removed from an order by the User, and therefore becomes a Cross Eligible Order;
 - (iv) A pegged order on the Cross Book is re-priced by the System in response to changes in the NBBO;
 - (v) Pursuant to IEX Rule 11.231(a)(1)(ii) and (iii), respectively, when exercising price discretion, primary peg and Discretionary Peg orders maintain time priority at their resting price, however they are prioritized behind any non-displayed interest at the Opening Match Price for the duration of the Opening Process; or
 - (vi) Any one of the events specified in IEX Rule 11.220(a)(1)(C) occurs to an order on the Continuous Book.
- (3) Decrementing Order Quantity and Priority. In the event that less than the full size of an order is executed, the unexecuted size of the order shall retain priority at the same resting price in accordance with paragraph (1) above. In the event that an order is decremented by the User by means of a Cancel/Replace pursuant to IEX Rule 11.190(d) the order will not receive a new timestamp except for routable orders queued for the Opening Process in accordance with paragraph (2)(A)(ii).
- (4) Price Sliding and Priority. Due to the way in which the Exchange processes re-pricing, orders' relative time priority is generally preserved. The Exchange assigns time priority, specifically a resting order's time priority, as the time when it is posted to the Order Book at a particular price, and each time the System re-prices an order, it necessarily receives a new time priority (i.e. timestamp).
- (5) Surrendering Precedence. In the event a resting order having precedence on the Order Book cannot be executed due to its specific conditions, the resting order surrenders its precedence in the Order Book only for the duration of the System processing the current active order. In the event a resting order having precedence on the Order Book cannot be executed due to the active order's specific conditions, that resting order does not surrender its precedence, and the active order stops executing for this book processing action.
- (6) Order Book Action Priority.
- (A) Order Book Actions are actions taken by the System on orders resting in the Order Book and include:
 - (i) Book Recheck invitations pursuant to IEX Rule 11.230(a)(4)(D).
 - (ii) Re-pricing of orders.
 - (iii) Refresh of displayed portions of reserve orders.
 - (B) Each time the System initiates a Book Action pursuant to IEX Rule 11.220(a)(5) on an order resting on the Order Book, it does so pursuant to the Order Book priority pursuant to IEX Rule 11.220(a)(1), with the timestamp of the order or the portion of the order upon which the action is taken being used to determine time priority, the display of the order or the portion of the order upon which the action is taken being used to determine display priority, and the order's Resting Price on the Order Book being used to determine price priority.

(7) Anti-Internalization. Pursuant to IEX Rule 11.190(e), Users may direct that orders entered into the System not execute against orders that are part of the same AIQ group. In such a case, as set forth in IEX Rule 11.190(e), the System will not permit such orders to execute against one another, regardless of priority ranking.

(8) Incoming Messages.

(A) New Orders, Cancel and Cancel/Replace messages received from Users, market data messages, and System component generated messages are processed by the System in strict time sequence.

(b) Dissemination. The best-ranked displayable order(s) are disseminated pursuant to IEX Rule 11.240(c)(1).

• • • **Supplementary Material** • • •

.01 Surrendering Precedence.

Scenario #1: In the event a resting order having precedence on the Order Book cannot be executed due to its specific conditions, the resting order surrenders its precedence in the Order Book only for the duration of the System processing the current active order.

For example, NBBO is \$10.01 x \$10.02.

IEX receives ORDER#1, a midpoint peg buy MQTY marked MinExec with Cancel Remaining for 1,000 shares with a minimum quantity size of 400 shares. ORDER#1 is booked and ranked at the Midpoint Price, \$10.015.

IEX receives ORDER#2, a second midpoint peg buy order for 500 shares, which is also booked and ranked at the Midpoint Price behind ORDER#1.

IEX receives ORDER#3, a sell limit order for 300 shares with a limit price of \$10.01. ORDER#1, the resting MQTY, surrenders precedence, because it cannot execute against the active order due to its minimum quantity condition. However, ORDER#3, the active sell limit order, executes 300 shares against next ranked order to buy, ORDER#2.

Scenario #2: In the event a resting order having precedence on the Order Book cannot be executed due to the active order's specific conditions, that resting order does not surrender its precedence, and the active order stops executing for this book processing action.

For example, NBBO is \$10.01 x \$10.02.

Resting on the Order Book are the following orders ranked in their respective order: (1) ORDER#1, buy limit order on the bid for 2,000 shares, (2) ORDER#2, buy limit order on the bid for 1,000 shares, and (3) ORDER#3, buy limit order on the bid for 2,000 shares.

IEX receives ORDER#4, a midpoint peg sell MQTY for 5,000 shares marked MinExec with AON Remaining with a minimum quantity size of 2,000 shares. ORDER#4 executes 2,000 shares against ORDER#1, but ORDER#2 does not meet the active order's condition (2,000 share minimum quantity size), so IEX posts the remaining 3,000 shares of ORDER#4 at the Midpoint Price.

Rule 11.230. Order Execution

Subject to the restrictions under these Exchange Rules or the Act and the rules and regulations thereunder, orders shall be matched for execution in accordance with this IEX Rule 11.230.

(a) Execution Against the IEX Order Book. For purposes of this IEX Rule 11.230 any order falling within the parameters of this paragraph shall be referred to as “executable.” An order will be canceled back to the User if, based on market conditions, User instructions, applicable IEX Rules and/or the Act and the rules and regulations thereunder, such order is not executable, cannot be routed to an away trading center pursuant to IEX Rule 11.230(b)(2) below and cannot be posted to the Order Book.

(1) Compliance with Rule 201 of Regulation SHO. For any execution of a short sale order to occur on the Exchange when a short sale price test restriction is in effect, the execution price must be higher than (i.e., above) the NBB, unless the sell order was initially displayed by the System at a price above the then current NBB or is marked “short exempt” pursuant to Regulation SHO. Short sale orders are subject to the short sale price sliding process pursuant to IEX Rule 11.190(h)(4), as well as any other applicable price sliding process.

(2) Compliance with Regulation NMS and Trade-Through Protection.

(A) Regular Market Session. For any execution to occur during the Regular Market Session, the price must be equal to or better than the Protected NBBO, unless the order is marked ISO or unless the execution falls within another exception set forth in Rule 611(b) of Regulation NMS.

(B) Pre-Market Session and Post-Market Session. For any execution to occur during the Pre-Market Session or Post-Market Session, the price must be equal to or better than the highest Protected Bid or lowest Protected Offer, unless the order is marked ISO or a Protected Bid is crossing a Protected Offer.

(C) Crossed Markets. Notwithstanding sub-paragraphs (A) and (B) above, in the event that a Protected Bid is crossing a Protected Offer, whether during or outside of the Regular Market Session, unless an order is marked ISO, the Exchange will enforce the Crossed Market Collar pursuant to IEX Rule 11.190(f)(3) and the price sliding process pursuant to IEX Rule 11.190(h)(3).

(3) Compliance with Limit Up-Limit Down Plan. For any executions to occur during the Regular Market Session, such executions must comply with the Plan, as set forth in IEX Rule 11.280(e) and the price sliding process pursuant to IEX Rule 11.190(h)(5).

(4) Execution against the IEX Order Book. An incoming non-routable order will attempt to be matched for execution against orders in the Order Book, as described below.

(A) Buy Orders. An incoming order to buy will be automatically executed to the extent that it is priced at an amount that equals or exceeds the resting price of any order to sell in the Order Book and is executable, as defined above. Such order to buy shall be executed at the price(s) of the lowest priced order(s) to sell having priority in the Order Book.

(B) Sell Orders. An incoming order to sell will be automatically executed to the extent that it is priced at an amount that equals or is less than the resting price of any other order to buy in the Order Book and is executable, as defined above. Such order to sell shall be executed at the price(s) of the highest priced order(s) to buy having priority in the Order Book.

(C) Consistent with Rule 11.190, orders are permitted to post non-displayed and rest non-displayed on the Order Book at prices that lock contra-side liquidity of the protected quotation of an away market (i.e. the

NBO for buy orders and NBB for sell orders) so long as IEX does not have a protected quotation at the same price, provided, however, that the System will never display a locked market. Subject to subparagraph (A) or (B) above, if an incoming order would execute against contra-side resting liquidity that would otherwise lock the NBB or NBO, the orders may execute if the resting order(s)' conditions are met.

- (D) Order Execution Recheck (“Book Recheck” or “Recheck”). Upon a change to the Order Book, the NBBO, or as part of the processing of inbound messages, the System may invite orders on one or both sides of its market to become active and check against the contra side (i.e. become the remover of liquidity) of the Order Book to determine if new executions can occur as a consequence of the change in the Order Book or prevailing market conditions. Orders resting on the Order Book may be eligible to trade against other orders on the Order Book that were ineligible for execution, or did not satisfy the order’s conditions (i.e. minimum quantity) when they were originally booked.
- (i) Resting orders are invited to Recheck according to the resting priority of each order.
 - (ii) To be eligible for Book Recheck, orders must be able to execute against resting contra-side liquidity. Orders invited to Recheck will be eligible to trade at their full limit price, adjusted by applicable peg instructions, market conditions and all applicable rules and regulations.
 - (iii) Additionally, for Primary Peg, Discretionary Peg, and Corporate Discretionary Peg orders to be eligible for Book Recheck, the System must consider the quote to be stable for the order in question pursuant to IEX Rules 11.190(b)(8), (10), and (16), respectively.
 - (iv) Displayed orders are not eligible for Book Recheck.
 - (v) No orders are eligible for Book Recheck during a crossed market.
- (E) In the case of a displayed order previously subject to price sliding as defined in Rule 11.190(h), upon a change to the Order Book or the NBBO that would result in the displayed order re-pricing to a more aggressive price that would lock or cross a resting unprotected displayed odd lot order, the re-pricing order and the displayed odd lot order will execute according to the priority of each order, and the remover of liquidity will be the order with the newest timestamp.

.01 Book Recheck.

Book Recheck invites resting orders to become active orders and recheck the Order Book for execution opportunities.

For example, NBBO is \$10.01 x \$10.02.

IEX receives ORDER#1, a non-routable, non-displayed buy MQTY marked Composite for 7,500 shares with a limit price of \$10.02 and minimum quantity size of 5,000 shares. ORDER#1 is booked and ranked at its limit price, \$10.02.

ORDER#2, a non-routable sell order for 3,000 shares joins the offer at \$10.02 (3,000 does not satisfy the ORDER#1’s 5,000 minimum quantity size).

ORDER#3, a second non-routable sell order for 2,000 shares joins the offer at \$10.02.

Since the 5,000 cumulative shares resting on the offer satisfy the ORDER#1's 5,000 minimum quantity, ORDER#1 is invited to Recheck the Order Book. Two executions for a cumulative 5,000 shares occur: the first execution for 3,000 shares at \$10.02, against ORDER#2, and the second execution for 2,000 shares at \$10.02, against ORDER#3. ORDER#1 is decremented to a quantity of 2,500 shares from 7,500.

(b) Routing. The Exchange will maintain connectivity and access, pursuant to IEX Rule 11.510, to all away trading centers offering a Protected Quotation as defined by Regulation NMS Rule 600(b)(71). Upon receipt of a routable order, the System will process the order in accordance with the applicable routing options, listed in paragraph (c) below.

- (1) Orders Eligible for Routing. A sell order marked "short" is not eligible to route during a Short Sale Period, but such order may post to the Order Book. If a sell order marked "short" is ineligible for routing during a Short Sale Period and such order is an IOC or a market order, then the order will be canceled. If a sell order marked "short" is ineligible for routing during a Short Sale Period and such order is not an IOC or market order, the Exchange will post the unfilled balance of the order to the Order Book, subject to the short sale price sliding process as defined in paragraph (h)(4) of IEX Rule 11.190), as well as any other applicable price sliding process. Sell orders marked long or short exempt pursuant to IEX Rule 11.290 are not subject to this paragraph.
- (2) Routing Process. With respect to an order that is eligible for routing (a) when routing to away accessible Protected Quotations, the System will designate outbound orders as IOCs and will cause such orders to be routed to one or more away trading centers (as defined in IEX Rule 2.220) displaying such Protected Quotations for potential execution in compliance with Rule 611 under Regulation NMS, and (b) when routing to the Order Book, the System will designate orders to the Order Book as either IOC or FOK, depending on market conditions, and will cause such orders to be routed to the Order Book for potential execution and compliance with Rule 611 of Regulation NMS via connectivity pursuant to Rule 11.510. After the System receives responses to orders that were routed, to the extent an order is not executed in full through the routing process, or in cases where there are no accessible Protected Quotations at the time of routing, the System will process the balance of such order as follows. Depending on parameters set by the User when the incoming order was originally entered, the System will either:
 - (A) Cancel the unfilled balance of the order back to the User;
 - (B) Post the unfilled balance of the order to the Order Book, subject to the price sliding process as defined in paragraph (h) of IEX Rule 11.190;
 - (C) Repeat the process described in this paragraph (b)(2) by executing against the Order Book and/or routing orders to away trading centers until the original, incoming order is executed in its entirety or it is no longer marketable. If the order is not executed in its entirety, the System will cancel back to the User (in the case of an IOC or market order) or post to the Order Book the unfilled balance of the order;
 - (D) Notwithstanding the foregoing, to the extent the System is unable to access a Protected Quotation at the NBBO and there are no other accessible Protected Quotations at the NBBO, the System will post the order or any remaining unexecuted shares on the Order Book, subject to the price sliding process, or cancel, as per User instruction, provided, however, that this provision will not apply to Protected Quotations published by an away trading center against which the Exchange has declared self-help pursuant to paragraph (d) below. To the extent the unfilled balance of an order has been posted to the

Order Book, should the booked limit price of the order subsequently be locked or crossed by an accessible away trading center, the System shall route the order, in part or in full, to such locking or crossing away trading center as described in paragraph (c)(3) below.

- (3) **Priority of Routed Orders.** Orders sent by the System to away trading centers do not retain time priority with respect to other orders in the System and the System shall continue to execute other orders while routed orders are at away trading centers. Once routed by the System, an order becomes subject to the rules and procedures of the destination market including, but not limited to, short-sale regulation and order cancellation. Requests from Users to cancel their orders while the order is routed away to an away trading center and remains outside the System shall be processed, subject to the applicable trading rules of such away trading center. If a routed order is subsequently returned, in whole or in part, that order, or its remainder, shall receive a new timestamp reflecting the time of its return to the System. Following the routing process described above, unless the terms of the order direct otherwise, any unfilled portion of the order originally entered into the System shall be ranked in the Order Book in accordance with the terms of such order under IEX Rule 11.220 and such order shall be eligible for execution under this IEX Rule 11.230.

(c) **Routing Options.** The System provides a variety of routing options. Routing options may be combined with all available order types and parameters, with the exception of order types and parameters whose terms are inconsistent with the terms of a particular routing option as described in IEX Rule 11.190. An order eligible for routing must have a TIF of DAY, SYS, GTX, GTT, or IOC. The System will consider the quotations only of accessible markets, in particular those not subject to self-help pursuant to IEX Rule 11.230(d). The term “System routing table” refers to the proprietary process for determining the specific trading venues, including the Order Book, to which the System routes orders and the order in which it routes them. The Exchange reserves the right to maintain a different System routing table for different routing options and to modify the System routing table at any time without notice. The System routing options are:

- (1) **Reserved.**
- (2) **Router.** Router is a routing option under which an order is sent to the Order Book to check for available shares and then any remainder is sent to destinations on the System routing table. If shares remain unexecuted after routing, they are posted on the Order Book or canceled, as per User instruction. Once posted on the Order Book, the unexecuted portion of such an order is eligible for the re-sweep behavior described in paragraph (3), market conditions permitting.
- (3) **Re-sweep Behavior.** Re-Sweep is a feature available to the routing options described in this IEX Rule 11.230 that allows for a resting order to route to Protected Quotations when the resting order’s limit price has been locked or crossed by the Protected NBBO, IEX Rules permitting. When an order is marked with a TIF of IOC, the order will not have an opportunity to re-sweep, i.e. there is no opportunity for a “re-sweep” because orders marked with a TIF of IOC do not rest on the Order Book.
 - (A) **Re-sweep when Order’s Limit is Locked by Protected NBBO.** If a resting order eligible for re-sweep has its booked limit price locked by the Protected NBO (for buy orders) or Protected NBB (for sell orders) for a minimum amount of time between 750 milliseconds and one (1) second, the System will route to the Protected Quotations at the locking NBO or NBB their full displayed size (or the remaining unexecuted shares on the order, if smaller). In the case that such resting order is a reserve order, the System will decrement first from the non-displayed portion, and then from the displayed portion. Any shares

unexecuted will be returned to the Order Book, either incrementing the resting order, or re-posting the order to the Order Book, receiving a new timestamp as per Rule 11.220(a). This cycle may be repeated, the order being re-routed to away trading centers multiple times, until the order is fully executed or canceled, subject to the limit price of the order.

- (B) Re-sweep when Order's Limit is Crossed by Protected NBBO. If a resting order eligible for re-sweep has its booked limit price crossed by the Protected NBO (for buy orders) or Protected NBB (for sell orders), i.e. the Protected NBO becomes lower than the limit price of a buy order, or the Protected NBB becomes higher than the limit price of a sell order, for a minimum amount of time between 750 milliseconds and one (1) second, the System will route the entire order to away trading centers as per this IEX Rule 11.230. Any shares unexecuted will be re-posted to the Order Book, receiving a new timestamp as per Rule 11.220(a). This cycle may be repeated, the order being re-routed to away trading centers multiple times, until the order is fully executed or canceled, subject to the limit price of the order.

- (d) Self-Help. The Exchange shall take advantage of the self-help provisions of Regulation NMS. Pursuant to the self-help provisions, the System may execute a transaction that would constitute a trade-through of a Protected Quotation displayed on an away trading center if such away trading center is experiencing a failure, material delay, or malfunction of its systems or equipment. If an away trading center publishing a Protected Quotation repeatedly fails to respond within one second to orders sent by the System to access such away trading center's Protected Quotation, the System may disregard those Protected Quotations when routing, displaying, canceling or executing orders on the Exchange. When invoking self-help, the Exchange will:

- (1) Notify the non-responding away trading center immediately after (or at the same time as) electing self-help; and
- (2) Assess whether the cause of the problem lies with the System and, if so, taking immediate steps to resolve the problem instead of invoking self-help.

- (e) Market Access. In addition to the IEX Rules regarding routing to away trading centers, IEX Services, as defined in IEX Rule 2.220, has, pursuant to Rule 15c3-5 under the Act, implemented certain checks designed to mitigate risks associated with providing the Exchange's Users with access to such away trading centers. Pursuant to the policies and procedures developed by IEX Services to comply with Exchange Act Rule 15c3-5, if an order or series of orders are deemed to be erroneous or duplicative, or are non-compliant with applicable pre-trade regulatory requirements (as defined in Exchange Act Rule 15c3-5), IEX Services will reject such orders prior to routing and/or seek to cancel any orders that have been routed.

Rule 11.231. Regular Market Session Opening Process for Non-IEX-Listed Securities

- (a) Order Entry and Cancellation before the Regular Market Session Opening Process ("Opening Process"). Prior to the beginning of Regular Market Hours, Users who wish to participate in the Opening Process may enter orders designated with a TIF of DAY and limit orders designated with a TIF of GTX, which shall queue in the System and are eligible for execution in the Opening Process (the "Cross Book"); interest resting on the Order Book in the Pre-Market Session

available for continuous trading (i.e., orders on the Continuous Book) are also eligible for execution in the Opening Process (collectively, “Cross Eligible Orders”). Orders with a Minimum Quantity as defined in Rule 11.190(b)(11) are not eligible for execution in the Opening Process, and therefore not Cross Eligible Orders.

(1) Orders on the Continuous Book and orders on the Cross Book (collectively, the Order Book) shall be ranked and maintained for the Opening Process pursuant to Rule 11.220(a)(2), as follows:

- (i) Midpoint peg orders, as defined in IEX Rule 11.190(b)(9), on the Cross Book are ranked and eligible for execution in the Opening Process at the less aggressive of the Midpoint Price or the order’s limit price, if any.
- (ii) Primary peg orders, as defined in IEX Rule 11.190(b)(8), on the Cross Book are ranked and eligible for execution in the Opening Process at the less aggressive of one (1) MPV below (above) the NBB (NBO) for buy (sell) orders or the order’s limit price, if any, but may exercise price discretion up (down) to the Opening Match Price, subject to the less aggressive of the NBB (NBO) or the order’s limit price, if any, except during periods of quote instability, as defined in IEX Rule 11.190(g). When exercising price discretion, primary peg orders are ranked behind any non-displayed interest at the Opening Match Price for the duration of the Opening Process. If multiple primary peg orders are exercising price discretion during the Opening Process, they maintain their relative time priority at the Opening Match Price.
- (iii) Discretionary Peg orders, as defined in IEX Rule 11.190(b)(10), on the Cross Book are ranked and eligible for execution in the Opening Process at the less aggressive of one (1) MPV below (above) the NBB (NBO) for buy (sell) orders or the order’s limit price, if any, but may exercise price discretion up (down) to the Opening Match Price, subject to the less aggressive of the Midpoint Price or the order’s limit price, if any, except during periods of quote instability, as defined in IEX Rule 11.190(g). When exercising price discretion, Discretionary Peg orders are ranked behind any non-displayed interest at the Opening Match Price for the duration of the Opening Process. If multiple Discretionary Peg orders are exercising price discretion during the Opening Process, they maintain their relative time priority at the Opening Match Price.
- (iv) Limit orders on the Cross Book are ranked and eligible for execution in the Opening Process at their limit price.
- (v) Non-displayed limit orders and non-displayed portions of reserve orders on the Continuous Book are ranked and eligible for execution in the Opening Process at the less aggressive of the contra-side protected quotation (i.e. the NBO for buy orders and NBB for sell orders) or the order’s limit price.
- (vi) Displayed limit orders on the Continuous Book are ranked and eligible for execution in the Opening Process at their resting price.

(b) Performing the Opening Process. The Exchange will attempt to perform the Opening Process beginning at the start of Regular Market Hours, in which the Exchange matches buy and sell Cross Eligible Orders that are executable at the Opening Match Price, as described in paragraph (c) below.

- (1) Execution Priority. Cross Eligible Orders will be processed in accordance with the Exchange’s determination of order priority pursuant to IEX Rule 11.220(a)(2). To the extent there is executable contra side interest, market orders will be executed at the Opening Match Price according to time priority. After the execution of all market

orders, the remaining Cross Eligible Orders priced more aggressively than the Opening Match Price will be executed in price – display – time priority at the Opening Match Price. All remaining Cross Eligible Orders priced equal to the Opening Match Price will execute in display – time priority at the Opening Match Price. Executions will occur until there is no remaining volume or there is an imbalance of Cross Eligible Orders (the process described above in this paragraph (b), collectively, being the “Opening Match”). All AIQ modifiers, as defined in Rule 11.190(e), will not be supported for executions in the Opening Match, but will be enforced on all unexecuted shares released to the Order Book following the Opening Match.

- (2) Transition to Regular Market Session. An imbalance of Cross Eligible Orders on the buy side or sell side may result in orders that are not executed in whole or in part. Unexecuted Cross Eligible Orders to buy (sell) that are priced at or above (below) the Cross Price Constraint (but remained unexecuted due to an imbalance of Cross Eligible Orders) will price slide pursuant to IEX Rule 11.190(h) and all remaining unexecuted Cross Eligible Orders, along with any orders that were either ineligible to participate in the Opening Process or too passive to be executed in the Opening Process, will be released to the Order Book for continuous trading or canceled in accordance with the terms of the order. Routable orders that are released to the Order Book will be routed in accordance with IEX Rule 11.230(c)(3) (Re-Sweep Behavior), subject to the order's instructions.

(c) Determination of the Opening Match Price.

(1) Definitions.

- (i) The term “Away Protected NBB” or “Away Protected NBO” shall mean the national best bid or offer, respectively, that is a Protected Quotation and not a quotation of the Exchange.
- (ii) The term “Away Protected Bid” or “Away Protected Offer” shall mean a Protected Bid or Protected Offer, respectively, that is not a quotation of the Exchange.
- (iii) The term “Cross Price Constraint” shall mean, collectively, the upper and lower threshold prices within which the Opening Match must occur, inclusive of the boundaries. During a crossed market, if the upper threshold price is below the lower threshold price when performing the Opening Process, no Opening Match will occur, orders eligible to post on the Order Book will price slide in accordance with the price sliding process pursuant to IEX Rule 11.190(h), and the security will open for trading on IEX in accordance with prevailing market session rules.
 - A. The upper threshold price of the Cross Price Constraint is equal to the lesser of the price of the Away Protected NBO or the upper threshold of the Order Collar price range for the Regular Market Session, calculated pursuant to Rule 11.190(f)(1)(C), except in the event that an Away Protected Bid is crossing an Away Protected Offer, the upper threshold price is equal to the greater of five cents (\$0.05) or one half of a percent (0.5%) higher than the lowest Away Protected Offer.
 - B. The lower threshold price of the Cross Price Constraint is equal to the greater of the price of the Away Protected NBB or the lower threshold of the Order Collar price range for the Regular Market Session, calculated pursuant to Rule 11.190(f)(1)(C), except in the event that an Away Protected Bid is crossing an Away Protected Offer, the lower threshold price is equal to the greater of five cents (\$0.05) or one half of a percent (0.5%) lower than the highest Away Protected Bid.

(iv) The term “Cross Tie Breaker” shall mean the price of the most current Order Collar Reference Price pursuant to IEX Rule 11.190(f), rounded to the nearest MPV or Midpoint Price calculated by the System at the start of the Opening Process, whichever is closer.

(2) The Opening Match Price in a Two-sided Market. When the Exchange performs the Opening Process for a security, if both an Away Protected Bid and Away Protected Offer exist for the subject security, the following process will be used to determine the Opening Match Price.

- (i) The Opening Match shall occur at the price that maximizes the number of shares of Cross Eligible Orders to be executed;
- (ii) If more than one price exists under subparagraph (i) resulting in a cross price range, the Opening Match shall occur at the price at or within such range that is not lower (higher) than the most aggressive unexecuted buy (sell) order;
- (iii) If more than one price exists under subparagraph (ii), the Opening Match shall occur at the price closest or equal to the Cross Tie Breaker; and
- (iv) If the Opening Match Price established by subparagraphs (i)-(iii) above is below (above) the lower (upper) threshold price of the Cross Price Constraint, the Opening Match shall occur at the lower (upper) threshold price of the Cross Price Constraint.

(3) The Opening Match Price in a One-Sided or Zero Market. When the Exchange performs the Opening Process for a security, if there is a lack of an Away Protected Bid and/or Away Protected Offer for the subject security, the following process will be used to determine the Opening Match Price.

- (i) The Opening Match shall occur at the price of the Cross Tie Breaker; and
- (ii) If the price that exists under subparagraph (i) is below (above) the lower (upper) threshold price of the Cross Price Constraint, the Opening Match shall occur at the lower (upper) threshold price of the Cross Price Constraint, if any.

(d) Opening Process Contingency Procedures.

(A) When a disruption occurs that prevents the execution of the Opening Process as set forth above, IEX shall apply the following Opening Process Contingency Procedures.

- (i) IEX will publicly announce that no Opening Process will occur. All orders on the Order Book will be canceled, and IEX will open the security for trading without an Opening Match.

(e) If a security is subject to a halt, suspension, or pause in trading during the Pre-Market Session, the Exchange will not accept orders in the security for queuing on the Cross Book and participation in the Opening Process or otherwise. Pursuant to IEX Rule 11.280, any order submitted during a halt will be rejected by the System. Any orders resting on the Order Book at the time of a trading halt will not be canceled by the System, and will be unavailable for trading or re-sweep during the trading halt, but will be available for cancellation by the submitting User. If the halt, suspension, or pause remains in effect at the start of Regular Market Hours, the Opening Process will not occur at the normally scheduled time. Instead, once the security resumes trading, the Exchange will conduct the Opening Process with any

Cross Eligible Orders that remain. Following the conclusion of the Opening Process, the Exchange will accept and execute orders as usual in accordance with prevailing market session rules.

- (f) Pursuant to Rule 611(b)(3) of Regulation NMS, and section VI(D)(6) of the Plan to Implement a Tick Size Pilot Program, orders executed in the Opening Process shall constitute a single-priced opening transaction by the Exchange and may trade-through or trade-at the price of any other Trading Center's Manual or Protected Quotations.

Rule 11.232. Retail Price Improvement Program

(a) Definitions.

- (1) **Retail Member Organization.** A "Retail Member Organization" is an IEX Member (or a division thereof) that has been approved by the Exchange under this Rule to submit Retail orders.
- (2) "Retail order" has the meaning specified in IEX Rule 11.190(b)(15) and will operate in accordance with paragraph (e) of this Rule 11.232. A Retail order must be a Discretionary Peg order or Midpoint Peg order with a Time-in-Force of IOC or FOK, and is only eligible to trade at a price between the NBB and the Midpoint Price (for bids) or between the NBO and the Midpoint Price (for offers).
- (3) "Retail Liquidity Provider order" has the meaning specified in IEX Rule 11.190(b)(14).

(b) Retail Member Organization Qualifications and Application.

- (1) To qualify as a Retail Member Organization, a Member must conduct a retail business or route retail orders on behalf of another broker-dealer. For purposes of this Rule, conducting a retail business shall include carrying retail customer accounts on a fully disclosed basis.
- (2) To become a Retail Member Organization, a Member must submit:
 - (A) An application form;
 - (B) Supporting documentation, which may include sample marketing literature, website screenshots, other publicly disclosed materials describing the Member's retail order flow, and any other documentation and information requested by the Exchange to confirm that the RMO applicant's order flow would meet the requirements of the Retail order definition; and
 - (C) An attestation, in a form prescribed by the Exchange, that substantially all orders submitted as Retail orders will qualify as such under IEX Rule 11.232(a)(2).
- (3) After an applicant submits the application form, supporting documentation, and attestation, the Exchange shall notify the applicant of its decision in writing.
- (4) A disapproved applicant may:

- (A) Request an appeal of such disapproval by the Exchange as provided in paragraph (d) below; and/or
 - (B) Reapply for Retail Member Organization status 90 days after the disapproval notice is issued by the Exchange.
- (5) A Retail Member Organization may voluntarily withdraw from such status at any time by giving written notice to the Exchange.
- (6) A Retail Member Organization must have written policies and procedures reasonably designed to assure that it will only designate orders as Retail orders if all requirements of a Retail order as specified in IEX Rule 11.190(b)(15) are met. Such written policies and procedures must require the Member to: (i) exercise due diligence before entering a Retail order to assure that entry as a Retail order is in compliance with the requirements of IEX Rule 11.190(b)(15), and (ii) monitor whether orders entered as Retail orders meet the applicable requirements. If a Retail Member Organization does not itself conduct a retail business but routes Retail orders on behalf of another broker-dealer, the Retail Member Organization's supervisory procedures must be reasonably designed to assure that the orders it receives from such other broker-dealer that are designated as Retail orders meet the definition of a Retail order. The Retail Member Organization must: (i) obtain an annual written representation, in a form acceptable to the Exchange, from each other broker-dealer that sends the Retail Member Organization orders to be designated as Retail orders that entry of such orders as Retail orders will be in compliance with the requirements of this Rule; and (ii) monitor whether Retail order flow routed on behalf of such other broker-dealers meets the applicable requirements.

(c) Failure of Retail Member Organization to Abide by Retail Order Requirements.

- (1) If a Retail Member Organization designates orders submitted to the Exchange as Retail orders and the Exchange determines, in its sole discretion, that such orders fail to meet any of the requirements set forth in paragraph (a) of this Rule, the Exchange may disqualify a Member from its status as a Retail Member Organization.
- (2) Disqualification Determinations. The Exchange shall determine if and when a Member is disqualified from its status as a Retail Member Organization. When disqualification determinations are made, the Exchange shall provide a written disqualification notice to the Member
- (3) Appeal and/or Reapplication for Retail Member Organization Status. A Retail Member Organization that is disqualified under this paragraph (c) may: (A) appeal such disqualification as provided in paragraph (d) below; and/or (B) reapply for Retail Member Organization status 90 days after the date of the disqualification notice from the Exchange.

(d) Appeal of Disapproval or Disqualification.

- (1) If a Member disputes the Exchange's decision to disapprove it under paragraph (b) above or disqualify it under paragraph (c) above, the Member ("Appellant") may request, within five business days after notice of the decision is issued by the Exchange, that the Retail Member Organization Panel ("RMO Panel") review the decision to determine if it was correct.

- (2) The RMO Panel shall consist of the Exchange's Chief Regulatory Officer ("CRO"), or a designee of the CRO, and two officers of the Exchange designated by the Exchange's Chief Operating Officer ("COO").
- (3) The RMO Panel shall review the facts and render a decision within the time frame prescribed by the Exchange.
- (4) The RMO Panel may overturn or modify an action taken by the Exchange under this Rule. A determination by the RMO Panel shall constitute final action by the Exchange.

(e) Priority and Order Execution.

- (1) Retail Liquidity Provider orders in the same security shall be ranked and allocated according to price then time of entry into the System.
- (2) Retail orders shall seek to execute upon entry into the System at the Midpoint Price, except that a Retail order to buy (sell) may also seek to execute against sell (buy) orders priced greater (less) than or equal to the NBB (NBO) and less (greater) than or equal to the Midpoint Price.
- (3) Retail orders shall execute against orders resting on the Order Book in price/time priority in accordance with IEX Rule 11.230 subject to the following:
 - (A) A Retail order to buy (sell) shall execute upon entry against sell (buy) orders resting on the Order Book in the following order:
 - (i) displayed sell (buy) orders at the NBO (NBB) during a locked or crossed market;
 - (ii) displayed sell (buy) odd lot orders priced to trade between the NBB (NBO) and the MidPoint Price;
 - (iii) non-displayed sell (buy) orders priced to trade between the NBB (NBO) and the Midpoint Price; and
 - (iv) Retail Liquidity Provider orders and nondisplayed orders priced to trade at the Midpoint Price.

Examples of priority and order allocation are as follows:

NBBO for security ABC is \$10.00 — \$10.10. It is not a period of quote instability as defined in Rule 11.190(g).

User 1 enters an unpriced Retail Liquidity Provider order to buy ABC for 500 shares

User 2 then enters an unpriced Discretionary Peg order to buy 500 shares of ABC

User 3 then enters a Midpoint Peg order to buy 500 shares of ABC at a limit price of \$10.04

Example 1: Retail Member Organization enters a Retail order to sell 800 shares of ABC. The order will first execute against the full size of User 1's buy order, and then execute against 300 shares of User 2's buy order, at which point the entire size of the Retail order to sell 800 shares is depleted. In this example the Retail order does not

execute against User 3's buy order because the order is not priced to execute at or above \$10.05, the current Midpoint Price.

Example 2: Assume the same facts above, except that User 2's unpriced Discretionary Peg order to buy ABC is for 100 shares. The incoming Retail order to sell 800 shares executes first against User 1's buy order for 500 shares at \$10.05, then against User 2's buy order for 100 shares at \$10.05. The Retail order still does not execute against User 3's buy order because the order is not priced to execute at or above \$10.05, the current Midpoint Price. The Retail order is filled for 600 shares and the balance of 200 shares is cancelled back to the Retail Member Organization.

Example 3: Assume the same facts as Example 1, except that User 3 enters a nondisplayed limit order to buy 300 shares of ABC at a limit price of \$10.05. The incoming Retail order to sell 800 shares executes first against User 1's order for 500 shares at \$10.05, then against User 3's order for 300 shares (because it has priority over User 2's Discretionary Peg order pursuant to IEX Rule 11.220(a)(1)(C)(vii)), completing the Retail order's 800 share quantity. User 2's buy order is not executed because it is ranked behind Users 1 and 3.

Example 4: Assume the same facts as Example 1, except that User 3 enters an unpriced Midpoint Peg order to buy 300 shares before User 1 enters an unpriced Retail Liquidity Provider order to buy 300 shares. The incoming Retail order to sell 800 shares executes first against User 3's order to buy 300 shares at \$10.05 (because it has priority over User 1's Retail Liquidity Provider order pursuant to IEX Rule 11.232(e)(3)(A)(iii)), then against User 1's buy order for 300 shares at \$10.05, and then against User 2's buy order for the remaining 200 shares at \$10.05, completing the Retail order's 800 share quantity.

Example 5: Assume the same facts as Example 1, except that User 3 enters a displayed odd lot limit order to buy 50 shares of ABC at a limit price of \$10.06. The incoming Retail order to sell 800 shares executes first against User 3's order for 50 shares at \$10.06, then against User 1's buy order for 500 shares at \$10.05, and then against User 2's buy order for the remaining 250 shares at \$10.05, completing the Retail order's 800 share quantity.

Example 6: Assume the same facts as Example 1, except that User 3 enters a nondisplayed limit order to buy 300 shares of ABC at \$10.06. The incoming Retail order to sell 800 shares executes first against User 3's order for 300 shares at \$10.06, and then against User 1's buy order for 500 shares at \$10.05, completing the Retail order's 800 share quantity. User 2's buy order is not executed because it is ranked behind Users 1 and 3.

- (f) Retail Liquidity Identifier. An identifier shall be disseminated through the Exchange's TOPS, DEEP, and DEEP+ data products (specified in IEX Rule 11.330) and through the appropriate securities information processor, when Retail Liquidity Provider order interest ("RLP Interest") aggregated to form at least one round lot for a particular security is available in the System ("Retail Liquidity Identifier"), provided that the RLP Interest is resting at the Midpoint Price and priced at least \$0.001 better than the NBB or NBO. The Retail Liquidity Identifier shall reflect the symbol for the particular security and the side (buy, sell, or buy and sell) of the RLP Interest, but shall not include the price or size of the RLP Interest.

Rule 11.240. Trade Execution, Reporting, and Dissemination of Quotations

- (a) Executions occurring as a result of orders matched against the Order Book shall be reported by the Exchange to an appropriate consolidated transaction reporting system to the extent required by the Act and the rules and regulations thereunder. Executions occurring as a result of orders routed away from the System shall be reported to an appropriate consolidated transaction reporting system by the relevant reporting away trading center. The Exchange shall promptly notify Users of all executions of their orders as soon as such executions take place.
- (b) The Exchange shall identify all trades executed pursuant to an exception or exemption from Rule 611 of Regulation NMS in accordance with specifications approved by the operating committee of the relevant national market system plan for an NMS stock. If a trade is executed pursuant to both the inter-market sweep order exception of Rule 611(b)(5) of Regulation NMS and the self-help exception of Rule 611(b)(1) of Regulation NMS, such trade shall be identified as executed pursuant to the inter-market sweep order exception.
- (c) Display of Automated Quotations. The System will be operated as an “automated market center” within the meaning of Regulation NMS, and in furtherance thereof, will display “automated quotations” within the meaning of Regulation NMS at all times except in the event that a systems malfunction renders the System incapable of displaying automated quotations.
- (1) Dissemination of Quotation Information. The aggregate of the best-ranked order(s) to buy and the best-ranked order(s) to sell, pursuant to IEX Rule 11.220, that are displayable in the Order Book shall be collected and made available to quotation vendors for dissemination pursuant to the requirements of Rule 602 of Regulation NMS.
- (2) Pursuant to Rule 602 of Regulation NMS, the Exchange will transmit for display to the appropriate securities information processor for each security:
- (A) the highest price to buy wherein the aggregate size of all displayed buy interest in the System greater than or equal to that price is one round lot or greater;
- (B) the aggregate size of all displayed buy interest in the System greater than or equal to the price in subparagraph (A), rounded down to the nearest round lot;
- (C) the lowest price to sell wherein the aggregate size of all displayed sell interest in the System less than or equal to that price is one round lot or greater; and
- (D) the aggregate size of all displayed sell interest in the System less than or equal to the price in subparagraph (C) above, rounded down to the nearest round lot.
- (d) Dissemination of Last Sale Information. Executions occurring as a result of orders matched against the Order Book, pursuant to IEX Rule 11.230, shall be collected and made available to last sale vendors for dissemination. The Exchange will maintain connectivity and access, pursuant to IEX Rule 11.510, to the SIPs for dissemination of last sale (i.e. execution) information.

(Amended by SR-IEX-2021-01 eff. January 6, 2021; amended by SR-IEX-2022-04 eff. April 29, 2022.)

Rule 11.250. Clearance and Settlement; Anonymity

- (a) Each User must either (1) be a member of a registered clearing agency that uses a continuous net settlement (“CNS”) system, or (2) clear transactions executed on the Exchange through another User that is a member of such a registered

clearing agency. The Exchange will maintain connectivity and access, pursuant to IEX Rule 11.510, to the Universal Trade Capture (“UTC”) of the National Securities Clearing Corporation (“NSCC”), a subsidiary of the Depository Trust & Clearing Corporation (“DTCC”), for transmission of executed transactions. If a Member clears transactions through another Member that is a member of a registered clearing agency (“clearing member”), such clearing member shall affirm to the Exchange in writing, through letter of authorization, letter of guarantee or other agreement acceptable to the Exchange, its agreement to assume responsibility for clearing and settling any and all trades executed by the Member designating it as its clearing firm. The rules of any such clearing agency shall govern with respect to the clearance and settlement of any transactions executed by the Member on the Exchange.

- (1) Solely at the discretion of the Exchange, a Member may clear transactions executed on the Exchange through a non-Member that is a Member of a foreign clearing agency with which a registered clearing agency has an agreement of mutual recognition, and is permitted to clear transactions of the Member in the registered clearing agency’s CNS system.
- (b) Each transaction executed within the System is executed on a locked-in basis and shall be automatically processed for clearance and settlement.
- (c) The transaction reports produced by the System will indicate the details of transactions executed in the System but shall not reveal contra party identities. Except as set forth in paragraph (d) below, transactions executed in the System will also be cleared and settled anonymously.
- (d) Except as required by any registered clearing agency, the Exchange will reveal the identity of a Member or Member’s clearing firm in the following circumstances:
 - (1) For regulatory purposes or to comply with an order of a court or arbitrator; or
 - (2) When a registered clearing agency ceases to act for a Member or the Member’s clearing firm, and determines not to guarantee the settlement of the Member’s trades.

Rule 11.260. LIMITATION OF LIABILITY

- (a) NEITHER THE EXCHANGE, IEX SERVICES, NOR ANY OF ITS AGENTS, EMPLOYEES, CONTRACTORS, OFFICERS, DIRECTORS, SHAREHOLDERS, COMMITTEE MEMBERS OR AFFILIATES (“EXCHANGE RELATED PERSONS”) SHALL BE LIABLE TO ANY USER, OR SUCCESSORS, REPRESENTATIVES OR CUSTOMERS THEREOF, OR ANY PERSONS ASSOCIATED THEREWITH, FOR ANY LOSS, DAMAGES, CLAIM OR EXPENSE:
 - (1) GROWING OUT OF THE USE OR ENJOYMENT OF ANY FACILITY OF THE EXCHANGE, INCLUDING, WITHOUT LIMITATION, THE SYSTEM; OR
 - (2) ARISING FROM OR OCCASIONED BY ANY INACCURACY, ERROR OR DELAY IN, OR OMISSION OF OR FROM THE COLLECTION, CALCULATION, COMPILATION, MAINTENANCE, REPORTING OR DISSEMINATION OF ANY INFORMATION DERIVED FROM THE SYSTEM OR ANY OTHER FACILITY OF THE EXCHANGE, RESULTING EITHER FROM ANY ACT OR OMISSION BY THE EXCHANGE OR ANY EXCHANGE RELATED PERSON, OR FROM ANY ACT CONDITION OR CAUSE BEYOND THE REASONABLE CONTROL OF THE EXCHANGE OR ANY EXCHANGE RELATED PERSON, INCLUDING, BUT NOT LIMITED TO, FLOOD, EXTRAORDINARY WEATHER CONDITIONS, EARTHQUAKE OR OTHER ACTS OF GOD, FIRE, WAR, TERRORISM, INSURRECTION, RIOT,

LABOR DISPUTE, ACCIDENT, ACTION OF GOVERNMENT, COMMUNICATIONS OR POWER FAILURE, OR EQUIPMENT OR SOFTWARE MALFUNCTION.

- (b) EACH MEMBER EXPRESSLY AGREES, IN CONSIDERATION OF THE ISSUANCE OF ITS MEMBERSHIP IN THE EXCHANGE, TO RELEASE AND DISCHARGE THE EXCHANGE, IEX SERVICES, AND ALL EXCHANGE OR IEX SERVICES RELATED PERSONS OF AND FROM ALL CLAIMS AND DAMAGES ARISING FROM THEIR ACCEPTANCE AND USE OF THE FACILITIES OF THE EXCHANGE (INCLUDING, WITHOUT LIMITATION, THE SYSTEM).
- (c) NEITHER THE EXCHANGE, IEX SERVICES, NOR ANY EXCHANGE OR IEX SERVICES RELATED PERSON MAKES ANY EXPRESS OR IMPLIED WARRANTIES OR CONDITIONS TO USERS AS TO RESULTS THAT ANY PERSON OR PARTY MAY OBTAIN FROM THE SYSTEM FOR TRADING OR FOR ANY OTHER PURPOSE, AND ALL WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE, TITLE, AND NON-INFRINGEMENT WITH RESPECT TO THE SYSTEM ARE HEREBY DISCLAIMED.
- (d) NOTWITHSTANDING PARAGRAPH (a) ABOVE, AND SUBJECT TO THE EXPRESS LIMITS SET FORTH BELOW, THE EXCHANGE MAY COMPENSATE MEMBERS FOR LOSSES DIRECTLY RESULTING FROM THE SYSTEMS' ACTUAL FAILURE TO CORRECTLY PROCESS AN ORDER, MESSAGE, OR OTHER DATA, PROVIDED THE EXCHANGE HAS ACKNOWLEDGED RECEIPT OF THE ORDER, MESSAGE OR DATA.
 - (1) AS TO ANY ONE OR MORE CLAIMS MADE BY A SINGLE MEMBER UNDER THIS IEX RULE ON A SINGLE TRADING DAY, THE EXCHANGE SHALL NOT BE LIABLE IN EXCESS OF THE LARGER OF \$100,000, OR THE AMOUNT OF ANY RECOVERY OBTAINED BY THE EXCHANGE UNDER ANY APPLICABLE INSURANCE MAINTAINED BY THE EXCHANGE.
 - (2) AS TO THE AGGREGATE OF ALL CLAIMS MADE BY ALL MEMBERS UNDER THIS IEX RULE ON A SINGLE TRADING DAY, THE EXCHANGE SHALL NOT BE LIABLE IN EXCESS OF THE LARGER OF \$250,000 OR THE AMOUNT OF ANY RECOVERY OBTAINED BY THE EXCHANGE UNDER ANY APPLICABLE INSURANCE MAINTAINED BY THE EXCHANGE.
 - (3) AS TO THE AGGREGATE OF ALL CLAIMS MADE BY ALL MEMBERS UNDER THIS IEX RULE DURING A SINGLE CALENDAR MONTH, THE EXCHANGE SHALL NOT BE LIABLE IN EXCESS OF THE LARGER OF \$500,000, OR THE AMOUNT OF ANY RECOVERY OBTAINED BY THE EXCHANGE UNDER ANY APPLICABLE INSURANCE MAINTAINED BY THE EXCHANGE.
- (e) IN THE EVENT THAT ALL OF THE CLAIMS MADE UNDER THIS IEX RULE CANNOT BE FULLY SATISFIED BECAUSE IN THE AGGREGATE THEY EXCEED THE APPLICABLE MAXIMUM LIMITATIONS PROVIDED IN THIS IEX RULE 11.260, THEN THE MAXIMUM PERMITTED AMOUNT WILL BE PROPORTIONALLY ALLOCATED AMONG ALL SUCH CLAIMS ARISING ON A SINGLE TRADING DAY OR DURING A SINGLE CALENDAR MONTH, AS APPLICABLE, BASED ON THE PROPORTION THAT EACH SUCH CLAIM BEARS TO THE SUM OF ALL SUCH CLAIMS.
- (f) ALL CLAIMS FOR COMPENSATION PURSUANT TO THIS IEX RULE SHALL BE IN WRITING AND MUST BE SUBMITTED NO LATER THAN THE OPENING OF TRADING ON THE NEXT BUSINESS DAY FOLLOWING THE DAY ON WHICH THE USE OF THE EXCHANGE GAVE RISE TO SUCH CLAIMS. ONCE IN RECEIPT OF A CLAIM, THE EXCHANGE WILL VERIFY THAT: (i) A VALID ORDER WAS ACCEPTED INTO THE EXCHANGE'S SYSTEMS; AND (ii) AN EXCHANGE SYSTEM FAILURE OR A NEGLIGENT ACT OR OMISSION OF AN EXCHANGE EMPLOYEE OCCURRED DURING THE EXECUTION OR HANDLING OF THAT ORDER.

Rule 11.270. Clearly Erroneous Executions

- (a) Definition. For purposes of this IEX Rule 11.270, the terms of a transaction executed on the Exchange are “clearly erroneous” when there is an obvious error in any term, such as price, number of shares or other unit of trading, or identification of the security. A transaction made in clearly erroneous error and canceled by both parties or determined by the Exchange to be clearly erroneous will be removed from the Consolidated Tape. Executions as a result of a Volatility Auction under Rule 11.350(f) are not eligible for a request to review as clearly erroneous under paragraph (b) of this Rule.
- (b) Request and Timing of Review. A Member that receives an execution on an order that was submitted erroneously to the Exchange for its own or customer account may request that the Exchange review the transaction under this IEX Rule 11.270. An Officer of the Exchange or such other employee designee of the Exchange (“Official”) shall review the transaction under dispute and determine whether it is clearly erroneous, with a view toward maintaining a fair and orderly market and the protection of investors and the public interest. Such request for review shall be made in writing via e-mail or other electronic means specified from time to time by the Exchange in a circular distributed to Members.
- (1) Requests for Review. Requests for review must be received by the Exchange within thirty (30) minutes of execution time and shall include information concerning the time of the transaction(s), security symbol(s), number of shares, price(s), side (bought or sold), and factual basis for believing that the trade is clearly erroneous. Upon receipt of a timely filed request that satisfies the guidelines set forth in this IEX Rule 11.270, the counterparty to the trade, if any, shall be notified by the Exchange as soon as practicable, but generally within thirty (30) minutes. An Official may request additional supporting written information to aid in the resolution of the matter. If requested, each party to the transaction shall provide any supporting written information as may be reasonably requested by the Official to aid resolution of the matter within thirty (30) minutes of the Official’s request. Either party to the disputed trade may request the supporting written information provided by the other party on the matter.
- (2) Routed Executions. Away trading centers will generally have an additional thirty (30) minutes from receipt of their participant’s timely filing, but no longer than sixty (60) minutes from the time of the execution at issue, to file with the Exchange for review of transactions routed to the Exchange from that away trading center and executed on the Exchange.
- (c) Clearly Erroneous Review.
- (1) Review of transactions occurring during Regular Market Hours. If the execution time of the transaction(s) under review is during Regular Market Hours, the transaction will not be reviewable as clearly erroneous unless the transaction:
- (A) is in an NMS Stock that is not subject to the Plan to Address Extraordinary Market Volatility Pursuant to Rule 608 of Regulation NMS under the Act (the “Limit Up-Limit Down Plan” or “LULD Plan”). In such case, the Numerical Guidelines set forth in paragraph (c)(2) of this Rule will be applicable to such NMS Stock;
- (B) was executed at a time when Price Bands under the LULD Plan were not available, or is the result of an Exchange technology or systems issue that results in the transaction occurring outside of the applicable LULD Price Bands pursuant to paragraph (g), or is executed after the primary listing market for the security declares

a regulatory trading halt, suspension, or pause pursuant to paragraph (i). A transaction subject to review pursuant to this paragraph shall be found to be clearly erroneous if the price of the transaction to buy (sell) that is the subject of the complaint is greater than (less than) the Reference Price, described in paragraph (d) below, by an amount that equals or exceeds the applicable Percentage Parameter defined in Appendix A to the LULD Plan (“Percentage Parameters”); or

(C) involved, in the case of (1) a corporate action or new issue or (2) a security that enters a Trading Pause pursuant to the LULD Plan and resumes trading without an auction, a Reference Price that is determined to be erroneous by an Officer of the Exchange because it clearly deviated from the theoretical value of the security. In such circumstances, the Exchange may use a different Reference Price pursuant to paragraph (d)(2) of this Rule. A transaction subject to review pursuant to this paragraph shall be found to be clearly erroneous if the price of the transaction to buy (sell) that is the subject of the complaint is greater than (less than) the new Reference Price, described in paragraph (d)(2) below, by an amount that equals or exceeds the Numerical Guidelines or Percentage Parameters, as applicable depending on whether the security is subject to the LULD Plan.

- (2) Review of transactions occurring during the Pre-Market or Post-Market Sessions, or eligible for review pursuant to paragraph (c)(1)(A).

(A) Subject to the additional factors described in paragraph (c)(2)(C) below, a transaction executed during the Pre-Market or Post-Market Session, or eligible for review pursuant to paragraph (c)(1)(A), shall be found to be clearly erroneous if the price of the transaction to buy (sell) that is the subject of the complaint is greater than (less than) the Reference Price by an amount that equals or exceeds the Numerical Guidelines set forth below.

Reference Price, Circumstance or Product	Regular Market Hours Numerical Guidelines for transactions eligible for review pursuant to paragraph (c)(1)(A) (Subject transaction's % difference from the Reference Price)	Pre-Market and Post-Market Session Numerical Guidelines (Subject transaction's % difference from the Reference Price)
Greater than \$0.00 up to and including \$25.00	10%	20%
Greater than \$25.00 up to and including \$50.00	5%	10%
Greater than \$50.00	3%	6%
Multi-Stock Event – Filings involving five or more, but less than twenty,	10%	10%

Reference Price, Circumstance or Product	Regular Market Hours Numerical Guidelines for transactions eligible for review pursuant to paragraph (c)(1)(A) (Subject transaction's % difference from the Reference Price)	Pre-Market and Post-Market Session Numerical Guidelines (Subject transaction's % difference from the Reference Price)
securities whose executions occurred within a period of five minutes or less		
Multi-Stock Event – Filings involving twenty or more securities whose executions occurred within a period of five minutes or less	30%, subject to the terms of paragraph (c)(2)(B) below	30%, subject to the terms of paragraph (c)(2)(B) below
Leveraged ETF/ETN	N/A	Regular Market Hours Numerical Guidelines multiplied by the leverage multiplier (<i>i.e.</i> , 2x)

(B) Multi-Stock Events Involving Twenty or More Securities. Multi- Stock Events involving twenty or more securities may be reviewable as clearly erroneous if they occur during the Pre-Market or Post Market Session or are eligible for review pursuant to paragraph (c)(1)(A). During Multi-Stock Events, the number of affected transactions may be such that immediate finality is necessary to maintain a fair and orderly market and to protect investors and the public interest. In such circumstances, the Exchange may use a Reference Price other than consolidated last sale. To ensure consistent application across trading centers when this paragraph is invoked, the Exchange will promptly coordinate with the away trading centers to determine the appropriate review period, which may be greater than the period of five minutes or less that triggered application of this paragraph, as well as select one or more specific points in time prior to the transactions in question and use transaction prices at or immediately prior to the one or more specific points in time selected as the Reference Price. The Exchange will nullify as clearly erroneous all transactions that are at prices equal to or greater than 30% away from the Reference Price in each affected security during the review period selected by the Exchange and other markets consistent with this paragraph.

(C) Additional Factors. Except in the context of a Multi-Stock Event involving five or more securities, an Official may also consider additional factors to determine whether an execution is clearly erroneous, provided the execution occurred during the Pre-Market or Post Market Session or are eligible for review pursuant to paragraph (c)(1)(A). Such additional factors include but are not limited to, system malfunctions or disruptions, volume and volatility for the security, derivative securities products that correspond to greater than 100% in the direction of a tracking index, news released for the security, whether trading in the security was recently halted/resumed, whether the security is an initial public offering, whether the security was subject to a stock-

split, reorganization, or other corporate action, overall market conditions, Pre-Market Session or Post-Market Session executions, validity of the consolidated tapes trades and quotes, consideration of primary market indications, and executions inconsistent with the trading pattern in the stock. Each additional factor shall be considered with a view toward maintaining a fair and orderly market and the protection of investors and the public interest.

(D) Outlier Transactions. In the case of an Outlier Transaction during the Pre-Market or Post Market Session or that is eligible for review pursuant to paragraph (c)(1)(A), an Official may, in his or her sole discretion, and on a case-by-case basis, consider requests received pursuant to paragraph (b) of this IEX Rule 11.270 after thirty (30) minutes, but not longer than sixty (60) minutes after the transaction in question, depending on the facts and circumstances surrounding such request.

(i) An “Outlier Transaction” means a transaction where the execution price of the security is greater than three times the current Numerical Guidelines set forth in paragraph (c)(2) of this IEX Rule 11.270.

(ii) If the execution price of the security in question is not within the Outlier Transaction parameters set forth in paragraph (c)(2)(D)(i) of this IEX Rule but breaches the 52-week high or 52-week low, the Exchange may consider Additional Factors as outlined in paragraph (c)(2)(C), in determining if the transaction qualifies for further review or if the Exchange shall decline to act.

(d) Reference Price. The Reference Price referred to in paragraphs (c)(1) and (c)(2) above will be equal to the consolidated last sale immediately prior to the execution(s) under review except for:

(1) in the case of Multi-Stock Events involving twenty or more securities, as described in paragraph (c)(2)(B) above;

(2) in the case of an erroneous Reference Price, as described in paragraph (c)(1)(C) above. In the case of (c)(1)(C)(1), the Exchange would consider a number of factors to determine a new Reference Price that is based on the theoretical value of the security, including but not limited to, the offering price of the new issue, the ratio of the stock split applied to the prior day's closing price, the theoretical price derived from the numerical terms of the corporate action transaction such as the exchange ratio and spin-off terms, and for an OTC up-listing, the price of the security as provided in the prior day's FINRA Trade Dissemination Service final closing report. In the case of (c)(1)(C)(2), the Reference Price will be the last effective Price Band that was in a limit state before the Trading Pause; or

(3) in other circumstances, such as, for example, relevant news impacting a security or securities, periods of extreme market volatility, sustained illiquidity, or widespread system issues, where use of a different Reference Price is necessary for the maintenance of a fair and orderly market and the protection of investors and the public interest, provided that such circumstances occurred during the Pre-Market or Post Market Session or are eligible for review pursuant to paragraph (c)(1)(A).

(e) Review Procedures.

(1) Determination by Official. Unless both parties to the disputed transaction agree to withdraw the initial request for review, the transaction under dispute shall be reviewed, and a determination shall be rendered by the Official. If the Official determines that the transaction is not clearly erroneous, the Official shall decline to take any action in connection with the completed trade. In the event that the Official determines that the transaction in dispute is clearly erroneous, the Official shall declare the transaction null and void. A determination shall be

made generally within thirty (30) minutes of receipt of the complaint, but in no case later than the start of the Regular Market Session on the following day. The parties shall be promptly notified of the determination.

(2) Appeals. If a Member affected by a determination made under this IEX Rule 11.270 so requests within the time permitted below, the Clearly Erroneous Execution Panel (“CEE Panel”) will review decisions made by the Official under this IEX Rule, including whether a clearly erroneous execution occurred and whether the correct determination was made; provided however that the CEE Panel will not review decisions made by an Officer under paragraph (g) of this IEX Rule 11.270 regarding transactions that occurred outside of the applicable Price Bands disseminated pursuant to the LULD Plan, and further provided that with respect to rulings made by the Exchange in conjunction with one or more away trading centers, the number of affected transactions is similarly such that immediate finality is necessary to maintain a fair and orderly market and to protect investors and the public interest and, hence, are also non-appealable.

(A) The CEE Panel will be comprised of the CRO, or a designee of the CRO, and representatives from two (2) Members.

(B) The Exchange shall designate at least ten (10) representatives of Members to be called upon to serve on the CEE Panel as needed. In no case shall a CEE Panel include a person affiliated with a party to the trade in question. To the extent reasonably possible, the Exchange shall call upon the designated representatives to participate on a CEE Panel on an equally frequent basis.

(C) A request for review on appeal must be made in writing via e-mail or other electronic means specified from time to time by the Exchange in a circular distributed to Members within thirty (30) minutes after the party making the appeal is given notification of the initial determination being appealed. The CEE Panel shall review the facts and render a decision as soon as practicable, but generally on the same trading day as the execution(s) under review. On requests for appeal received between 3:00 p.m. Eastern Time and the close of trading in the Post-Market Session, a decision will be rendered as soon as practicable, but in no case later than the trading day following the date of the execution under review.

(D) The CEE Panel may overturn or modify an action taken by the Official under this IEX Rule 11.270. All determinations by the CEE Panel shall constitute final action by the Exchange on the matter at issue.

(E) If the CEE Panel votes to uphold the decision made pursuant to paragraph (e)(1) above, the Exchange will assess a \$500.00 fee against the Member(s) who initiated the request for appeal. In addition, in instances where the Exchange, on behalf of a Member, requests a determination by an away trading center that a transaction is clearly erroneous, the Exchange will pass any resulting charges through to the relevant Member.

(F) Any determination by an Officer or by the CEE Panel shall be rendered without prejudice as to the rights of the parties to the transaction to submit their dispute to arbitration.

(f) Officer Acting on Own Motion. An Officer of the Exchange or senior level employee designee, acting on his or her own motion, may review potentially erroneous transactions occurring during the Pre-Market or Post Market Session or that are eligible for review pursuant to paragraph (c)(1) and declare trades null and void or shall decline to take any action in connection with the completed trade(s). In such events, the Officer of the Exchange or such other senior level employee designee will rely on the provisions of paragraph (c)(1) and (c)(2) of this IEX Rule. Absent

extraordinary circumstances, any such action of the Officer of the Exchange or other senior level employee designee shall be taken in a timely fashion, generally within thirty (30) minutes of the detection of the erroneous transaction. When extraordinary circumstances exist, any such action of the Officer of the Exchange or other senior level employee designee must be taken by no later than the start of Regular Market Hours on the trading day following the date of execution(s) under review. When such action is taken independently, each party involved in the transaction shall be notified as soon as practicable by the Exchange, and the party aggrieved by the action may appeal such action in accordance with the provisions of paragraph (e)(2) above.

- (g) Transactions Occurring Outside of LULD Plan Price Bands. If as a result of an Exchange technology or systems issue any transaction occurs outside of the applicable Price Bands disseminated pursuant to the LULD Plan, an Officer of the Exchange or senior level employee designee, acting on his or her own motion or at the request of a third party, shall review and declare any such trades null and void. Absent extraordinary circumstances, any such action of the Officer of the Exchange or other senior level employee designee shall be taken in a timely fashion, generally within thirty (30) minutes of the detection of the erroneous transaction. When extraordinary circumstances exist, any such action of the Officer of the Exchange or other senior level employee designee must be taken by no later than the start of Regular Market Hours on the trading day following the date on which the execution(s) under review occurred. Each Member involved in the transaction shall be notified as soon as practicable by the Exchange, and the party aggrieved by the action may appeal such action in accordance with the provisions of paragraph (e)(2) above. In the event that a single plan processor experiences a technology or systems issue that prevents the dissemination of Price Bands, the Exchange will make the determination of whether to nullify transactions based on paragraph (c)(1)(B) above.
- (h) Multi-Day Event. A series of transactions in a particular security on one or more trading days may be viewed as one event if all such transactions were effected based on the same fundamentally incorrect or grossly misinterpreted issuance information resulting in a severe valuation error for all such transactions (the “Event”). An Officer of the Exchange or senior level employee designee, acting on his or her own motion, shall take action to declare all transactions that occurred during the Event null and void not later than the start of trading on the day following the last transaction in the Event. If trading in the security is halted before the valuation error is corrected, an Officer of the Exchange or senior level employee designee shall take action to declare all transactions that occurred during the Event null and void prior to the resumption of trading. Notwithstanding the foregoing, no action can be taken pursuant to this paragraph with respect to any transactions that have reached settlement date or that result from an initial public offering of a security. To the extent transactions related to an Event occur on one or more away trading centers, the Exchange will promptly coordinate with such away trading center(s) to ensure consistent treatment of the transactions related to the Event, if practicable. Any action taken in connection with this paragraph will be taken without regard to the Percentage Parameters or Numerical Guidelines set forth in this IEX Rule. Each Member involved in a transaction subject to this paragraph shall be notified as soon as practicable by the Exchange, and the party aggrieved by the action may appeal such action in accordance with the provisions of paragraph (e)(2) above.
- (i) Trading Halts. In the event of any disruption or malfunction in the operation of the electronic communications and trading facilities of the Exchange, an away trading center or responsible single plan processor in connection with the transmittal or receipt of a regulatory trading halt, suspension or pause, an Officer of the Exchange or senior level employee designee, acting on his or her own motion, shall nullify any transaction in a security that occurs after the primary listing market for such security declares a regulatory trading halt, suspension or pause with respect to such security and before such regulatory trading halt, suspension or pause with respect to such security has officially ended according to the primary listing market. In addition, in the event a regulatory trading halt, suspension or pause is declared, then prematurely lifted in error and is then re-instituted, an Officer of the Exchange or senior level employee

designee shall nullify transactions that occur before the official, final end of the halt, suspension or pause according to the primary listing market. Any action taken in connection with this paragraph shall be taken in a timely fashion, generally within thirty (30) minutes of the detection of the erroneous transaction and in no circumstances later than the start of Regular Market Hours on the trading day following the date of execution(s) under review. Any action taken in connection with this paragraph will be taken without regard to the Percentage Parameters or Numerical Guidelines set forth in this IEX Rule. Each Member involved in a transaction subject to this paragraph shall be notified as soon as practicable by the Exchange, and the party aggrieved by the action may appeal such action in accordance with the provisions of paragraph (e)(2) above.

Rule 11.271. Trading Halts Due to Extraordinary Market Volatility (effectiveness pending)

- (a) The Exchange shall halt trading in all stocks and shall not reopen for the time periods specified in this IEX Rule 11.271 if there is a Level 1, 2, or 3 Market Decline.
- (1) For purposes of this IEX Rule 11.271, a Market Decline means a decline in price of the S&P 500® Index between 9:30 a.m. and 4:00 p.m. on a trading day as compared to the closing price of the S&P 500® Index for the immediately preceding trading day. The Level 1, Level 2, and Level 3 Market Declines that will be applicable for the trading day will be publicly disseminated before 9:30 a.m.
 - (2) A “Level 1 Market Decline” means a Market Decline of 7%.
 - (3) A “Level 2 Market Decline” means a Market Decline of 13%.
 - (4) A “Level 3 Market Decline” means a Market Decline of 20%.
- (b) Halts in Trading.
- (1) If a Level 1 Market Decline or a Level 2 Market Decline occurs after 9:30 a.m. Eastern Time and up to and including 3:25 p.m. Eastern Time, or in the case of an early scheduled close, 12:25 p.m. Eastern Time, the Exchange shall halt trading in all stocks for 15 minutes after a Level 1 or Level 2 Market Decline. The Exchange shall halt trading based on a Level 1 or Level 2 Market Decline only once per trading day. The Exchange will not halt trading if a Level 1 Market Decline or a Level 2 Market Decline occurs after 3:25 p.m. Eastern Time, or in the case of an early scheduled close, 12:25 p.m. Eastern Time.
 - (2) If a Level 3 Market Decline occurs at any time during the trading day, the Exchange shall halt trading in all stocks for the remainder of the trading day.
- (c) If a primary listing market halts trading in all stocks, the Exchange will halt trading in all stocks until trading has resumed on the primary listing market or notice has been received from the primary listing market that trading may resume. In the case of a halt resulting from a Level 1 or Level 2 Market decline, if the primary listing market does not reopen a security within 15 minutes following the end of the 15-minute halt period, the Exchange may resume trading in that security.
- (d) Nothing in this IEX Rule 11.271 should be construed to limit the ability of the Exchange to otherwise halt, suspend, or pause the trading in any stock or stocks traded on the Exchange pursuant to any other IEX Rule or policy.
- (e) Market-Wide Circuit Breaker (“MWCB”) Testing.

- (1) The Exchange will participate in all industry-wide tests of the MWCB mechanism. Members designated pursuant to paragraph (b) of Rule 2.250 to participate in Exchange back-up systems and mandatory testing are required to participate in at least one industry-wide MWCB test each year and to verify their participation in that test by attesting that they are able to or have attempted to:
 - (A) receive and process MWCB halt messages from the securities information processors (SIPs);
 - (B) receive and process resume messages from the SIPs following a MWCB halt;
 - (C) receive and process market data from the SIPs relevant to MWCB halts; and
 - (D) send orders following a Level 1 or Level 2 MWCB halt in a manner consistent with their usual trading behavior.
- (2) To the extent that a Member participating in a MWCB test is unable to receive and process any of the messages identified in paragraph (c)(1)(A)-(D) of this Rule, its attestation should notify the Exchange which messages it was unable to process and, if known, why.
- (3) Members not designated pursuant to standards established in paragraph (b) of Rule 2.250 are permitted to participate in any MWCB test.
- (f) In the event that a halt is triggered under this Rule following a Level 1, Level 2, or Level 3 Market Decline, the Exchange, together with other SROs and industry representatives (the “MWCB Working Group”), will review such event. The MWCB Working Group will prepare a report that documents its analysis and recommendations and will provide that report to the Commission within 6 months of the event.
- (g) In the event that there is (1) a Market Decline of more than 5%, or (2) an SRO implements a rule that changes its reopening process following a MWCB Halt, the Exchange, together with the MWCB Working Group, will review such event and consider whether any modifications should be made to this Rule. If the MWCB Working Group recommends that a modification should be made to this Rule, the MWCB Working Group will prepare a report that documents its analysis and recommendations and provide that report to the Commission.

Specifically, SIP Plan refers to any or all of the following national market system plans governing the collection, consolidation, and dissemination of quotation and transaction information for NMS stocks: i) the "Nasdaq UTP Plan"; ii) the Consolidated Tape Association and Consolidated Quotation Plan ("CTA/CQ Plan"); or the "CT Plan".

(12) “SIP Halt” has the same meaning as in the SIP Plan.

(b) Regulatory Halts

(1) Authority to Implement a Regulatory Halt.

(A) The Exchange shall implement a Regulatory Halt in the following circumstances, as applicable:

(i) Implementing a Trading Pause Declared by a Primary Listing Market Pursuant to the Limit Up-Limit Down Mechanism.

(a) Definitions for purposes of the Limit Up-Limit Down Mechanism.

(1) “LULD Plan” means the National Market System Plan to Address Extraordinary Market Volatility.

(2) All capitalized terms not otherwise defined in this Rule shall have the meanings set forth in the LULD Plan or Exchange rules, as applicable.

(b) Exchange Participation in the LULD Plan. The Exchange is a Participant in, and subject to the applicable requirements of, the LULD Plan, which establishes procedures to address extraordinary volatility in NMS Stocks.

(c) Member Compliance. Members shall comply with the applicable provisions of the LULD Plan.

(d) Exchange Compliance with the LULD Plan. The System shall not display or execute buy (sell) interest above (below) the Upper (Lower) Price Bands, unless such interest is specifically exempted under the LULD Plan.

(e) Re-pricing and Cancellation of Interest. Depending on a User’s instructions, the System shall re-price or cancel buy (sell) interest that is priced or could be executed above (below) the Upper (Lower) Price Band. When re-pricing resting orders because such orders are above (below) the Upper (Lower) Price Band, the Exchange will provide new timestamps to such orders. When re-priced to less-aggressive price levels such orders will have priority behind resting interest that was originally less aggressively priced but that was not re-priced, as such orders will retain their original timestamps.

(1) Market Orders and Orders with TIF of IOC or FOK. The System will only execute Market Orders or orders with a TIF of IOC or FOK at or within the Price Bands. Market Orders will be handled in accordance with Rule 11.190.

(2) Limit-priced Interest.

- (A) Displayed Limit-priced Interest. Displayed limit-priced interest will be cancelled on entry or when resting if a User has entered instructions not to use the re-pricing process or a User has included a reserve quantity and such interest to buy (sell) is priced above (below) the Upper (Lower) Price Band. If re-pricing is permitted based on a User's instructions, displayable incoming limit-priced interest to buy (sell) that is priced above (below) the Upper (Lower) Price Band shall be re-priced to the Upper (Lower) Price Band. The System shall re-price resting, displayed limit-priced interest to buy (sell) to the Upper (Lower) Price Band if Price Bands move such that the price of resting, displayed limit-priced interest to buy (sell) would be above (below) the Upper (Lower) Price Band. All other displayed limit interest repriced pursuant to this paragraph (e) will remain at its new price unless the Price Bands move such that the price of resting limit-priced interest to buy (sell) would again be above (below) the Upper (Lower) Price Band.
 - (B) Non-displayed Limit-priced Interest. Incoming limit-priced interest that is non-displayable will be cancelled by the System if such interest to buy (sell) is priced above (below) the Upper (Lower) Price Band. Resting, non-displayed limit priced interest will be cancelled if such interest to buy (sell) is priced above (below) the Upper (Lower) Price Band (i.e., aggressively priced through the applicable Price band) or if such interest is priced below (above) the Lower (Upper) Price Band (i.e., non-aggressively priced outside of the applicable Price Band).
 - (3) Pegged Interest. Pegged Orders to buy (sell) shall peg to the specified pegging price or the Upper (Lower) Price Band, whichever is lower (higher).
 - (4) Routable Orders. If routing is permitted based on a User's instructions, orders shall be routed away from the Exchange pursuant to Rule 11.230(b), provided that the System shall not route buy (sell) interest at a price above (below) the Upper (Lower) Price Band.
 - (5) Sell Short Orders. During a short sale price test restriction pursuant to Rule 201 of Regulation SHO, orders with a Short Sale instruction priced below the Lower Price Band shall be repriced to the higher of the Lower Price Band or the Permitted Price, as defined in Rule 11.190(h)(4)(C).
- (ii) The Exchange shall implement a trading halt due to extraordinary market volatility, as set forth in Rule 11.271.
 - (iii) The Exchange shall implement a trading halt when the Primary Listing Market declares a SIP Halt or a trading halt based on Extraordinary Market Activity, as defined in the SIP Plan.
 - (iv) The Exchange will halt trading for any security traded on the Exchange when the Primary Listing Market declares a Regulatory Halt for any such security. The following shall apply when implementing Regulatory Halts initiated by the Primary Listing Market:

- (a) Start Time. The start time of a Regulatory Halt is when the Primary Listing Market declares the halt, regardless of whether an issue with communications impacts the dissemination of the notice.

(2) Resumption of Trading After a Regulatory Halt.

(A) Resumption of Trading After a Regulatory Halt Other Than a SIP Halt

- (i) The Exchange may resume trading after the Exchange receives notification from the Primary Listing Market that the Regulatory Halt has been terminated.

(B) Resumption of Trading After a SIP Halt

- (i) For securities subject to a SIP Halt initiated by another exchange that is the Primary Listing Market, during Regular Trading Hours, the Exchange may resume trading after trading has resumed on the Primary Listing Market or notice has been received from the Primary Listing Market that trading may resume. During Regular Trading Hours, if the Primary Listing Market does not open a security within the amount of time specified by the rules of the Primary Listing Market after the SIP Halt Resume Time, the Exchange may resume trading in that security. Outside Regular Trading Hours, the Exchange may resume trading immediately after the SIP Halt Resume Time.

- (3) While a security is subject to a Regulatory Halt pursuant to this Rule the Exchange will not accept orders, and all orders resting on the Order Book will be unavailable for trading or re-sweep during the Regulatory Halt, but will be available for cancellation by the submitting User. At the end of the Regulatory Halt the Exchange shall re-open the security and again begin accepting orders.

(c) UTP Exchange Traded Products

- (1) The Exchange may halt trading in UTP Exchange Traded Products on the Exchange in the following circumstances, as applicable:

(A) Pre-Market Session. If a UTP Exchange Traded Product begins trading on the Exchange in the Pre-Market Session and subsequently a temporary interruption occurs in the calculation or wide dissemination of the Intraday Indicative Value ("IIV") or the value of the underlying index, as applicable, to such UTP Exchange Traded Product, by a major market data vendor, the Exchange may continue to trade the UTP Exchange Traded Product for the remainder of the Pre-Market Session.

(B) Regular Trading Hours. During the Regular Trading Hours, if a temporary interruption occurs in the calculation or wide dissemination of the applicable IIV or value of the underlying index by a major market data vendor and the Primary Listing Market halts trading in the UTP Exchange Traded Product, the Exchange, upon notification by the Primary Listing Market of such halt due to such temporary interruption, also shall immediately halt trading in the UTP Exchange Traded Product on the Exchange.

(C) Post-Market Session and Next Business Day's Pre-Market Session.

- (i) If the IIV or the value of the underlying index continues not to be calculated or widely available after the close of the Regular Trading Hours, the Exchange may trade the UTP Exchange Traded Product in the Post-Market Session only if the Primary Listing Market traded such securities until the close of its regular trading session without a halt.
- (ii) If the IIV or the value of the underlying index continues not to be calculated or widely available as of the commencement of the Pre-Market Session on the next business day, the Exchange shall not

commence trading of the UTP Exchange Traded Product in the Pre-Market Session that day. If an interruption in the calculation or wide dissemination of the IIV or the value of the underlying index continues, the Exchange may resume trading in the UTP Exchange Traded Product only if calculation and wide dissemination of the IIV or the value of the underlying index resumes or trading in the UTP Exchange Traded Product resumes in the Primary Listing Market

(d) Operational Halts

(1) Authority to Initiate an Operational Halt. The Exchange may declare an Operational Halt for any security trading on the Exchange:

(A) if it is experiencing Extraordinary Market Activity on the Exchange; or

(B) when otherwise necessary to maintain a fair and orderly market or in the public interest.

(2) Initiating an Operational Halt. The Exchange will notify the SIP if it has concerns about its ability to collect and transmit Quotation Information or Transaction Reports (as those terms are defined in the SIP Plan), or if it has declared an Operational Halt or suspension of trading in one or more Eligible Securities (as those terms are defined in the SIP Plan), pursuant to the procedures adopted by the Operating Committee. While a security is subject to an Operational Halt pursuant to this Rule the Exchange will not accept orders, and all orders resting on the Order Book will be unavailable for trading or re-sweep during the Operational Halt, but will be available for cancellation by the submitting User.

(3) Resumption of Trading After an Operational Halt.

(A) When the Exchange determines that trading may resume on its market in a fair and orderly manner and in accordance with its Rules it shall resume trading following an Operational Halt.

(B) During any Operational Halt, orders entered will not be accepted.

(C) Communications. Trading in a halted security shall resume at the time specified by the Exchange in a notice. The Exchange will notify all other Plan participants and the SIP of such an Operational Halt as well as provide notice that an Operational Halt has been lifted using such protocols and other emergency procedures as may be mutually agreed to between the Operating Committee and the Exchange. If the SIP is unable to disseminate notice of an Operational Halt or the Exchange is not open for trading, the Exchange will take reasonable steps to provide notice of an Operational Halt, which shall include both the type and start time of the Operational Halt. Each Plan participant shall continuously monitor communication protocols established by the Operating Committee and the Processor during market hours to disseminate notice of an Operational Halt, and the failure of a participant to do so shall not prevent the Exchange from initiating an Operational Halt in accordance with the procedures specified herein.

Rule 11.290. Short Sales

Marking. All sell orders entered into the Exchange must be marked long, short, or short exempt.

- (a) **Definitions.** For purposes of this IEX Rule, the terms "covered security," "listing market," and "national best bid" shall have the same meaning as in Rule 201 of Regulation SHO.
- (b) **Short Sale Price Test.** The System shall not execute, route to an away trading center, or display a short sale order not marked short exempt with respect to a covered security at a price that is less than or equal to the current national best bid if the price of that security decreases by 10% or more, as determined by the listing market for the covered security, from the covered security's closing price on the listing market as of the end of the Regular Market Session on the prior day (the "Trigger Price").
- (c) **Determination of Trigger Price.** For covered securities for which the Exchange is the listing market, the System shall determine whether a transaction in a covered security has occurred at a Trigger Price and shall immediately notify the responsible single plan processor.
- (1) The System will not calculate the Trigger Price of a covered security outside of the Regular Market Session.
- (2) If a covered security did not trade on the Exchange on the prior trading day (due to a trading halt, trading suspension, or otherwise), the Exchange's determination of the Trigger Price shall be based on the last sale price on the Exchange for that security on the most recent day on which the security traded.
- (d) **Duration of Short Sale Price Test.** If the Short Sale Price Test is triggered by the listing market with respect to a covered security, the Short Sale Price Test shall remain in effect on the Exchange until the close of the Post-Market Session on the next trading day, as provided for in Regulation SHO Rule 201(b)(1)(ii) (the "Short Sale Period").
- (1) If the Exchange determines pursuant to IEX Rule 11.270 that the Short Sale Price Test for a covered security was triggered because of a clearly erroneous execution, the Exchange may lift the Short Sale Price Test before the Short Sale Period ends for securities for which the Exchange is the listing market or, for securities listed on another market, notify the other market of the Exchange's determination that the triggering transaction was a clearly erroneous execution as soon as practicable following such determination. The Exchange may also lift the Short Sale Price Test before the Short Sale Period ends, for a covered security for which the Exchange is the listing market, if the Exchange has been informed by another exchange or a self-regulatory organization ("SRO") that a transaction in the covered security that occurred at the Trigger Price was a clearly erroneous execution, as determined by the rules of that exchange or SRO.
- (2) If the Exchange determines that the prior day's closing price for a listed security is incorrect in the System and resulted in an incorrect determination of the Trigger Price, the Exchange may correct the prior day's closing price and lift the Short Sale Price Test before the Short Sale Period ends.

 - (iv) Execution of a customer order to comply with IEX Rule 10.160 following the execution of a proprietary trade by the Member at an increment other than \$0.05, where such proprietary trade was permissible pursuant to an exception under the Plan.
- (D) Pilot Securities in Test Group Three will be subject to the following Trade-at Prohibition:
 - (i) "Trade-at Prohibition" means the prohibition against executions by a Trading Center of a sell order for a Pilot Security at the price of a Protected Bid or the execution of a buy order for a Pilot Security at the price of a Protected Offer.
 - (ii) Absent any of the exceptions listed in (iii) below, no Member may execute a sell order for a Pilot Security in Test Group Three at the price of a Protected Bid or execute a buy order for a Pilot Security in Test Group Three at the price of a Protected Offer.
 - (iii) Members may execute a sell order for a Pilot Security in Test Group Three at the price of a Protected Bid or execute a buy order for a Pilot Security in Test Group Three at the price of a Protected Offer if any of the following circumstances exist:
 - (a) The order is executed as agent or riskless principal by an independent trading unit, as defined under Rule 200(f) of Regulation SHO, of a Trading Center within a Member that has a displayed quotation as agent or riskless principal, via either a processor or an SRO Quotation Feed, at a price equal to the traded-at Protected Quotation, that was displayed before the order was received, but only up to the full displayed size of that independent trading unit's previously displayed quote;
 - (b) The order is executed by an independent trading unit, as defined under Rule 200(f) of Regulation SHO, of a Trading Center within a Member that has a displayed quotation for the account of that Trading Center on a principal (excluding riskless principal) basis, via either a processor or an SRO Quotation Feed, at a price equal to the traded-at Protected Quotation, that was displayed before the order was received, but only up to the full displayed size of that independent trading unit's previously displayed quote;
 - (c) The order is of Block Size at the time of origin and may not be:

- (A) an aggregation of non-block orders; or
 - (B) broken into orders smaller than Block Size prior to submitting the order to a Trading Center for execution.
- (d) The order is a Retail Investor Order executed with at least \$0.05 price improvement;
- (e) The order is executed when the Trading Center displaying the Protected Quotation that was traded at was experiencing a failure, material delay, or malfunction of its systems or equipment;
- (f) The order is executed as part of a transaction that was not a “regular way” contract;
- (g) The order is executed as part of a single-priced opening, reopening, or closing transaction on the Exchange;
- (h) The order is executed when a Protected Bid was priced higher than a Protected Offer in the Pilot Security;
- (i) The order is identified as a TA ISO;
- (j) The order is executed by a Trading Center that simultaneously routed TA ISO or ISO to execute against the full displayed size of the Protected Quotation that was traded at;
- (k) The order is executed as part of a Negotiated Trade;
- (l) The order is executed when the Trading Center displaying the Protected Quotation that was traded at had displayed, within one second prior to execution of the transaction that constituted the Trade-at, a Best Protected Bid or Best Protected Offer, as applicable, for the Pilot Security with a price that was inferior to the price of the Trade-at transaction;
- (m) The order is executed by a Trading Center which, at the time of order receipt, the Trading Center had guaranteed an execution at no worse than a specified price (a “stopped order”), where:
- (A) The stopped order was for the account of a customer;
 - (B) The customer agreed to the specified price on an order-by-order basis; and
 - (C) The price of the Trade-at transaction was, for a stopped buy order, equal to or less than the National Best Bid in the Pilot Security at the time of execution or, for a stopped sell order, equal to or greater than the National Best Offer in the Pilot Security at the time of execution, as long as such order is priced at an acceptable increment;
- (n) The order is for a fractional share of a Pilot Security, provided that such fractional share order was not the result of breaking an order for one or more whole shares of a Pilot Security into

orders for fractional shares or was not otherwise effected to evade the requirements of the Trade-at Prohibition or any other provisions of the Plan; or

- (o) The order is to correct a bona fide error, which is recorded by the Trading Center in its error account. A bona fide error is defined as:
 - (A) The inaccurate conveyance or execution of any term of an order including, but not limited to, price, number of shares or other unit of trading; identification of the security; identification of the account for which securities are purchased or sold; lost or otherwise misplaced order tickets; short sales that were instead sold long or vice versa; or the execution of an order on the wrong side of a market;
 - (B) The unauthorized or unintended purchase, sale, or allocation of securities, or the failure to follow specific client instructions;
 - (C) The incorrect entry of data into relevant systems, including reliance on incorrect cash positions, withdrawals, or securities positions reflected in an account; or
 - (D) A delay, outage, or failure of a communication system used to transmit market data prices or to facilitate the delivery or execution of an order.

(iv) No Member shall break an order into smaller orders or otherwise effect or execute an order to evade the requirements of the Trade-at Prohibition of this IEX Rule or any other provisions of the Plan.

(d) Exchange handling of orders during the Pilot Period for the Plan.

This section sets forth IEX's specific procedures for handling, executing, re-pricing and displaying of certain orders and modifiers applicable to Pilot Securities. Unless otherwise indicated, this section applies to orders in all three Test Group Pilot Securities.

- (1) All Orders. Any order in a security of any of the Test Groups that requires a price and does not otherwise qualify for an exemption, will not be accepted if it is in a minimum price increment other than \$0.05. This minimum price increment applies to repricing and rounding by the System, unless otherwise noted below.
- (2) TA ISOs. The Exchange will accept TA ISOs in all securities. A TA ISO entered in a security that is not in Test Group Three will be treated as an ISO in accordance with IEX Rule 11.190(b)(12). A TA ISO entered in a security in Test Group Three will be immediately and automatically executed against the displayed and non-displayed bid (offer) up to its full size in accordance with IEX Rule 11.230, and the portion not so executed will be immediately and automatically canceled. A TA ISO:
 - (A) Must be a limit order.
 - (B) Must have a TIF of IOC.
 - (C) Is not eligible for routing pursuant to IEX Rule 11.230(b) and (c)(2).
 - (D) Must be submitted with a limit price.

- (E) May be submitted during the Pre-Market Session, Regular Market Session, and Post-Market Session.
 - (F) May not be a MQTY.
 - (G) May be an odd lot, round lot, or mixed lot.
- (3) Order Price Collars and Restraints, as specified in IEX Rule 11.190(f), that are not in the trading MPV for the security will be rounded down (in the case of an order to buy) or up (in the case of an order to sell) to the nearest permissible price increment for that security.
- (4) For Pilot Securities in Test Group Three:
- (A) An incoming or active order to sell (buy) will trade with displayed orders to buy (sell) and route, if consistent with the terms of the order, to protected bids (offers) before trading with non-displayed orders at the same price. After trading or routing, or both, any remaining balance of an incoming order will trade with any non-displayed orders at the same price as specified in IEX Rule 11.230(a)(4), so long as the incoming order has satisfied all same price Protected Quotations or an exception to the Trade-at Prohibition applies.
 - (B) An ISO to buy (sell) will not trade with non-displayed interest to sell (buy) that is the same price as the protected offer (bid) unless the limit price of such ISO is higher (lower) than the price of the protected offer (bid) or another exception applies to the Trade-at Prohibition.
 - (C) Non-displayed Orders. If after being posted to the Order Book, the NBBO or PBBO changes so that a non-displayed order would no longer be executable at its posted price due to the requirements of Regulation NMS or the Plan, as applicable, the non-displayed order will be repriced consistent with this subparagraph and IEX Rule 11.190(h).
 - (i) Trade-At Prohibition for Same Side Protected Quotations. A non-displayed resting buy (sell) order (including the non-displayed portion of a reserve order) will not execute at the price of a Protected Bid (Offer) on an away trading center unless the incoming order qualifies for an exception to the Trade-at Prohibition.
 - (ii) Trade-At Prohibition for Opposite Side Protected Quotations. A non-displayable order (including the non-displayed portion of a reserve order) that, at the time of entry, could not be executed at its full limit price, adjusted by applicable peg instructions, if any, market conditions and all applicable rules and regulations, will be repriced and ranked by the System on the Order Book non-displayed pursuant to the non-displayed price sliding rules set forth in IEX Rule 11.190(h)(2) ("Permitted Non-Displayed Group 3 Book Price"). In situations where the resulting price for a buy (sell) order is equal to the lowest Protected Offer (highest Protected Bid), the Permitted Non-Displayed Group 3 Book Price will be equal to one (1) MPV below (above) the lowest Protected Offer (highest Protected Bid). Non-displayed orders (including non-displayed portions of reserve orders) resting on the Order Book whose booked price becomes locked or crossed by the PBBO will be re-priced by the System at a Permitted Non-Displayed Group 3 Book Price. To reflect increases (declines) in the lowest Protected Offer (highest Protected Bid), the System will continue to re-price a resting non-displayed buy (sell)

order to be equal to the higher (lower) of the order's limit price or a Permitted Non-Displayed Group 3 Book Price.

- (D) The Exchange will utilize the Block Size exception under the following circumstances:
- (i) A non-routable order is of at least Block Size and the resulting execution upon entry against the Order Book, in accordance with IEX Rule 11.230(a), is for at least Block Size.
 - (ii) A routable order of at least Block Size is sent to the Order Book pursuant to IEX Rule 11.230(b)(2) and the resulting execution upon entry to the Order Book, in accordance with IEX Rule 11.230(b)(2), is for at least Block Size.

.02 For purposes of the reporting requirement in Appendix B.II.(n), a Trading Center shall report "Y" to their DEA where it is relying upon the Retail Investor Order exception to Test Groups Two and Three, and "N" in all other instances.

.03 For purposes of Appendix B.I, the field "Affected by Limit-Up Limit-Down bands" shall be included. A Trading Center shall report a value of "Y" to their DEA when the ability of an order to execute has been affected by the Limit-Up Limit-Down (LULD) bands in effect at the time of order receipt. A Trading Center shall report a value of "N" to their DEA when the ability of an order to execute has not been affected by the LULD bands in effect at the time of order receipt. For purposes of Appendix B.I, the Participants shall classify all orders in Pilot and Pre-Pilot Securities that may trade in a foreign market as: (1) fully executed domestically or (2) fully or partially executed on a foreign market. For purposes of Appendix B.II, the Participants shall classify all orders in Pilot and Pre-Pilot Securities that may trade in a foreign market as: (1) directed to a domestic venue for execution; (2) may only be directed to a foreign venue for execution; or (3) fully or partially directed to a foreign venue at the discretion of the Member.

.04

(a) For purposes of Appendix B.I.a(14), B.I.a(15), B.I.a(21) and B.I.a(22), the time ranges shall be changed as follows:

- (1) Appendix B.I.a(14A): The cumulative number of shares of orders executed from 100 microseconds to less than 1 millisecond after the time of order receipt;*
- (2) Appendix B.I.a(15): The cumulative number of shares of orders executed from 1 millisecond to less than 100 milliseconds after the time of order receipt;*
- (3) Appendix B.I.a(21A): The cumulative number of shares of orders canceled from 100 microseconds to less than 1 millisecond after the time of order receipt; and*
- (4) Appendix B.I.a(22): The cumulative number of shares of orders canceled from 1 millisecond to less than 100 milliseconds after the time of order receipt.*

(b) For purposes of Appendix B.I.a(21) through B.I.a(27), unexecuted Immediate or Cancel orders shall be categorized separately irrespective of the duration of time after order receipt.

.05 For purposes of Appendix B.I.a(31)-(33), the relevant measurement is the time of order receipt.

.06 For purposes of Appendix B, the following order types and numbers shall be included and assigned the following numbers: “not held” orders (18); clean cross orders (19); auction orders (20); and orders that cannot otherwise be classified, including orders received when the NBBO is crossed (21); and limit orders priced more than \$0.10 away from the NBBO (22). For purposes of order types 12 – 14 in Appendix B, such order types shall include all orders and not solely “resting” orders.

.07 A Member shall not be deemed a Trading Center for purposes of Appendix B of the Plan where that Member only executes orders otherwise than on a national securities exchange for the purpose of: (i) correcting a bona fide error related to the execution of a customer order; (ii) purchases a security from a customer at a nominal price solely for purposes of liquidating the customer’s position; or (iii) completing the fractional share portion of an order.

.08 For purposes of Appendix B.IV, the count of the number of Market Makers used in the calculation of share (trade) participation shall be added to each category. For purposes of Appendix B.IV(b) and (c), share participation and trade participation shall be calculated by using a total count instead of a share-weighted average or a trade-weighted average. For purposes of Appendix B, B.IV(d) (cross-quote share (trade) participation), (e) (inside-the-quote share (trade) participation), (f) (at-the-quote share (trade) participation), and (g) (outside-the-quote share (trade) participation), shall be calculated by reference to the National Best Bid or National Best Offer in effect immediately prior to the trade.

.09 A Trading Center shall begin the data collection required pursuant to Appendix B.I.a(1) through B.II.(y) of the Plan and Item I of Appendix C of the Plan on April 4, 2016. The requirement that the Exchange or their DEA provide information to the SEC within 30 days following month end and make certain data publicly available on the Exchange’s or DEA’s web site pursuant to Appendix B and C of the Plan shall commence at the beginning of the Pilot Period. Notwithstanding the provisions of paragraphs (b)(2), (b)(3) and (b)(5) of this Rule, with respect to data for the Pre-Pilot Period and Pilot Period, the requirement that the Exchange or their DEA make Appendix B data publicly available on the Exchange’s or DEA’s website shall commence on April 28, 2017. Notwithstanding the provisions of paragraph (b)(4) of this Rule, the Exchange or DEA shall make Appendix C data for the Pre-Pilot Period through January 2017 publicly available on the Exchange’s web site by February 28, 2017.

.10 For purposes of Item I of Appendix C, the Participants shall calculate daily Market Maker realized profitability statistics for each trading day on a daily last in, first out (LIFO) basis using reported trade price and shall include only trades executed on the subject trading day. The daily LIFO calculation shall not include any positions carried over from previous trading days. For purposes of Item I.c of Appendix C, the Participants shall calculate daily Market Maker unrealized profitability statistics for each trading day on an average price basis. Specifically, the Participants must calculate the volume weighted average price of the excess (deficit) of buy volume over sell volume for the current trading day using reported trade price. The gain (loss) of the excess (deficit) of buy volume over sell volume shall be determined by using the volume weighted average price compared to the closing price of the security as reported by the primary listing exchange. In calculating unrealized trading profits, the Participant also shall report the number of excess (deficit) shares held by the Market Maker, the volume weighted average price of that excess (deficit), and the closing price of the security as reported by the primary listing exchange used in reporting unrealized profit.

.11 “Pre-Pilot Data Collection Securities” are the securities designated by the Participants for purposes of the data collection requirements described in Items I, II and IV of Appendix B and Item I of Appendix C of the Plan for the period beginning six months prior to the Pilot Period through thirty-one days prior to the Pilot Period. The Participants shall compile the list of Pre-Pilot Data Collection Securities by selecting all NMS stocks with a market capitalization of \$5 billion or less, a Consolidated Average Daily Volume (CADV) of 2 million shares or less and a closing price of \$1 per share or more. The market capitalization and the closing price thresholds shall be applied to the last day of the Pre-Pilot measurement period,

and the CADV threshold shall be applied to the duration of the Pre-Pilot measurement period. The Pre-Pilot measurement period shall be the three calendar months ending on the day when the Pre-Pilot Data Collection Securities are selected. The Pre-Pilot Data Collection Securities shall be selected thirty days prior to the commencement of the six-month Pre-Pilot Period.

.12 This Rule shall be in effect during a pilot period to coincide with the pilot period for the Plan (including any extensions to the pilot period for the Plan).

- (5) The term "Display Only Period" shall be in reference to the period of the time during which IEX disseminates IEX Auction Information for IPO, Halt, and Volatility Auctions. If more than one price maximizes the number of shares that will execute resulting in an auction price range, the Reference Price is set to the price at or within such range that is not lower (higher) than the most aggressive unexecuted buy (sell) order. If more than one price satisfies the above conditions, the Reference Price is set to the price closest or equal to either the Volume Based Tie Breaker (if such range includes prices in the Reference Price Range) or the Reference Price Range (if such range does not include prices in the Reference Price Range) at the time of dissemination. - (F) Auction Book Clearing Price: The single price at which orders on the Auction Book would match if the IEX Auction were to occur at the time of dissemination pursuant to the procedures for determining the clearing price set forth in the applicable auction rule, but shall not be constrained by the Opening/Closing Auction Collar, as applicable. The lower threshold of the Volatility Auction Collar for the Volatility Auction. For an IPO Auction, the most current Lower IPO Price Band published by the Exchange pursuant to Rule 11.280. An LOC order submitted as a pegged order will be rejected. An LOC order submitted with a User instructed display quantity pursuant to Rule 11.190(b)(2) will be accepted, but the instruction will not be supported.
- (21) The term “Limit-On-Open” or “LOO” shall mean a limit order that specifically requests execution at the IEX Official Opening Price (or the IEX Official IPO Opening Price in the case of an IPO Auction) and is designated for execution in the Opening Auction, IPO Auction, or Halt Auction when queued prior to Regular Market

Hours if a Pre-Market Session halt persists through the start of Regular Market Hours. An LOO order submitted as a pegged order will be rejected. An LOO order submitted with a User instructed display quantity pursuant to Rule 11.190(b)(2) will be accepted, but the instruction will not be supported.

- (22) The term “Lock-in Time” shall mean two (2) minutes prior to the Opening Auction match (i.e., 9:28 a.m.), and ten (10) minutes prior to the Closing Auction match (i.e., 3:50 p.m., or 10 minutes prior to the end of the Regular Market Session on days that IEX is subject to an early closing), at which time:
- (A) Auction Eligible Orders on the Auction Book may not be canceled or modified prior to the auction match (i.e., locked in);
 - (B) Hyper-aggressive Auction Orders are rejected upon receipt; and
 - (C) IEX begins to disseminate IEX Auction Information.
- (23) The term “Lock-out Time” shall mean ten (10) seconds prior to the Opening and Closing Auction match, at which time any new Auction Eligible Order otherwise eligible for the Auction Book is restricted from entering the Auction Book and is rejected upon receipt (i.e., locked out). Orders must be on the Auction Book prior to the Lock-out Time to guarantee eligibility for the auction. Orders submitted to the Continuous Book after the Lock-out Time remain eligible for execution on the Continuous Book, and in the upcoming Opening or Closing Auction match.
- (24) The term “Market-On-Close” or “MOC” shall mean a market order that specifically requests execution at the IEX Official Closing Price and is designated for execution in the Closing Auction, or in a Volatility Auction when such auction is determining the IEX Official Closing Price pursuant to Rule 11.350(f)(3). An MOC order submitted as a pegged order will be rejected. An MOC order submitted with a User instructed display quantity pursuant to Rule 11.190(b)(2) will be accepted, but the instruction will not be supported.
- (25) The term “Market-On-Open” or “MOO” shall mean a market order that specifically requests execution at the IEX Official Opening Price (or the IEX Official IPO Opening Price in the case of an IPO Auction) and is designated for execution in the Opening Auction, IPO Auction, or Halt Auction when queued prior to Regular Market Hours if a Pre-Market Session halt persists through the start of Regular Market Hours. An MOO order submitted as a pegged order will be rejected. An MOO order submitted with a User instructed display quantity pursuant to Rule 11.190(b)(2) will be accepted, but the instruction will not be supported.
- (26) The term “Maximum Percentage” will vary depending on the midpoint of the Protected NBBO (“Protected Midpoint Price”), and shall mean:
- (A) 5% if the Protected Midpoint Price is less than or equal to \$25.00;
 - (B) 2.5% if the Protected Midpoint Price is greater than \$25.00 but less than or equal to \$50.00; or
 - (C) 1.5% if the Protected Midpoint Price is greater than \$50.00.
- (27) The term “Opening/Closing Auction Collar” shall mean, collectively, the upper and lower threshold prices at or within which the Opening and Closing Auction match must occur. The Opening/Closing Auction Collar is established by taking the greater of fifty cents (\$0.50) or a default threshold percentage of ten percent

(10%) applied to the Opening/Closing Auction Collar Reference Price, which shall be added to (subtracted from) the Protected NBO (NBB) to establish the upper (lower) threshold of the Opening/Closing Auction Collar.

(A) If the Protected NBBO is crossed, the greater of fifty cents (\$0.50) or a default threshold percentage of ten percent (10%) applied to the Opening/Closing Auction Collar Reference Price, shall be added to (subtracted from) the IEX best offer (bid) to establish the upper (lower) threshold of the Opening/Closing Auction Collar.

(B) If the Protected NBBO, or, when utilized, the IEX best bid and best offer ("IEX BBO"), is not two-sided, the greater of fifty cents (\$0.50) or a default threshold percentage of ten percent (10%) applied to the Opening/Closing Auction Collar Reference Price, shall be added to (subtracted from) the Opening/Closing Auction Collar Reference Price to establish the upper (lower) threshold of the Opening/Closing Auction Collar.

(28) The term "Opening/Closing Auction Collar Reference Price" shall be the Volume Based Tie Breaker.

(29) The term "Order Acceptance Period" shall be in reference to the period of time during which IEX accepts orders submitted for participation in an IPO, Halt, or Volatility Auction. The Order Acceptance Period shall end when the applicable auction match occurs. The Order Acceptance Period shall begin:

(A) For an IPO Auction, 8:00 a.m., but is subject to change;

(B) For a Halt Auction, five (5) minutes prior to the scheduled auction match, or immediately after a Level 1 or Level 2 Market Decline pursuant to Rule 11.21(a)(1)-(3); and

(C) For a Volatility Auction, immediately after the pause dissemination.

(30) The term "Reference Price Range" is in reference to, for a Volatility Auction, the prices between and including the applicable Volatility Auction Collar, or, for an Opening or Closing Auction, the prices between and including the Protected NBB and Protected NBO for a particular security where the Protected NBBO is a Valid Protected NBBO. For an IPO Auction, the Reference Price Range is in reference to the prices between and including the most current IPO Price Band published by the Exchange. If the underwriter has not provided an IPO Price Band to the Exchange for publication, the Reference Price Range will be equal to the Volume Based Tie Breaker.

(A) The Protected NBBO is a "Valid Protected NBBO" where:

(i) There is both a Protected NBB and Protected NBO for the security;

(ii) The Protected NBBO is not crossed; and

(iii) The midpoint of the Protected NBBO is less than or equal to the Maximum Percentage away from both the Protected NBB and the Protected NBO.

(B) Where the Protected NBBO is not a Valid Protected NBBO, the IEX BBO will be used where the IEX BBO is a Valid IEX BBO.

(i) The IEX BBO is a “Valid IEX BBO” where:

(a) There is both an IEX best bid and an IEX best offer for the security; and

(b) The midpoint of the IEX BBO is less than or equal to the Maximum Percentage away from both the IEX best bid and the IEX best offer.

(C) If there is neither a Valid Protected NBBO nor a Valid IEX BBO and the market is one-sided, the Reference Price Range shall be equal to the price of the Final Consolidated Last Sale Eligible Trade, unless such price is:

(i) Lower than the Protected NBB, in which case the Reference Price Range shall be equal to the price of the Protected NBB; or

(ii) Higher than the Protected NBO, in which case the Reference Price Range shall be equal to the price of the Protected NBO.

(D) If there is neither a Valid Protected NBBO nor a Valid IEX BBO and the market is two-sided, the Reference Price Range shall be equal to the price of the Final Consolidated Last Sale Eligible Trade, unless:

(i) The Protected NBBO is not crossed and the price of the Final Consolidated Last Sale Eligible Trade is either:

(a) Lower than the Protected NBB, in which case the Reference Price Range shall be equal to the price of the Protected NBB; or

(b) Higher than the Protected NBO, in which case the Reference Price Range shall be equal to the price of the Protected NBO.

(ii) The Protected NBBO is crossed and the price of the Final Consolidated Last Sale Eligible Trade is either:

(a) Lower than the IEX best bid, in which case the Reference Price Range shall be equal to the price of the IEX best bid; or

(b) Higher than the IEX best offer, in which case the Reference Price Range shall be equal to the price of the IEX best offer.

(E) If there is neither a Protected NBBO nor an IEX BBO (i.e., a zero-sided market), the Reference Price Range will be the Final Consolidated Last Sale Eligible Trade.

(31) The term “Volatility Auction Collar” represents the range of prices at or within which the Volatility Auction match can occur, and shall mean:

(A) If the Volatility Auction Collar Reference Price is the Lower (Upper) Price Band, the initial lower (upper) threshold of the Volatility Auction Collar is 5% less (greater) than the Volatility Auction Collar Reference

Price, rounded to the nearest passive MPV, and the upper (lower) threshold of the Volatility Auction Collar is the Upper (Lower) Price Band; or

(B) For securities with a Volatility Auction Collar Reference Price of \$3.00 or less, the initial lower (upper) threshold of the Volatility Auction Collar is \$0.15 less (greater) than the Volatility Auction Collar Reference Price, rounded to the nearest passive MPV and the upper (lower) threshold of the Volatility Auction Collar is the Upper (Lower) Price Band.

(32) The term “Volatility Auction Collar Reference Price” shall mean the reference price for calculating the applicable Volatility Auction Collar, and shall equal the price of the Upper or Lower Price Band that triggered the LULD trading pause.

(33) The term “Volume Based Tie Breaker” shall mean, for an Opening or Closing Auction, the midpoint of the Reference Price Range. In an Opening or Closing Auction, when the Reference Price Range is equal to the IEX BBO for Pilot Securities in Test Groups 2 and 3 of the Tick Size Pilot Program, the Volume Based Tie Breaker will be rounded to the nearest MPV. If the Reference Price Range is a single price, the Volume Based Tie Breaker shall be equal to the Reference Price Range. In the case of a Halt Auction, or Volatility Auction that is not determining the IEX Official Closing Price, the Volume Based Tie Breaker shall be equal to the Latest Consolidated Last Sale Eligible Trade. In the case of a Volatility Auction that is determining the IEX Official Closing Price, the Volume Based Tie Breaker shall be equal to the Final Consolidated Last Sale Eligible Trade. In the case of an IPO Auction, the Volume Based Tie Breaker shall be equal to the issue price.

.01 Opening/Closing Auction Collar

For example, if the Protected NBBO is \$10.00 x \$11.00, then the Opening/Closing Auction Collar Reference Price equals \$10.50 and the threshold percentage is 10%, resulting in a threshold value of \$1.05 (10% of \$10.50 = \$1.05). This threshold value is then added to the Protected NBO and subtracted from the Protected NBB to obtain the auction’s Opening/Closing Auction Collar. In this example, it would result in a lower threshold of \$8.95 ($\$10.00 - \$1.05 = \8.95) and an upper threshold of \$12.05 ($\$11.00 + \$1.05 = \12.05), thus creating a range of \$8.95 to \$12.05, within which the auction can occur. This means \$8.95 is the lowest price at which the auction can occur and \$12.05 is the highest price at which it can occur. The Opening/Closing Auction Collar is dynamic; as the Protected NBBO changes, the Opening/Closing Auction Collar updates to reflect such changes.

.02 Volatility Auction Collar

For example, if the Lower and Upper Price Bands are \$10.00 and \$11.00, respectively, and a pause is triggered following a Limit State at the Lower Price Band, the Volatility Auction Collar Reference Price would be equal to the Lower Price Band, \$10.00. The lower threshold of the Volatility Auction Collar (“lower Volatility Auction Collar”) would be calculated by subtracting 5% of the Volatility Auction Collar Reference Price, or \$0.50 (5% of \$10.00 = \$0.50), from the Volatility Auction Collar Reference Price. The upper threshold of the Volatility Auction Collar (“upper Volatility Auction Collar”) would be equal to the Upper Price Band. In this example, it would result in a lower Volatility Auction Collar of \$9.50 ($\$10.00 - \$0.50 = \9.50) and an upper Volatility Auction Collar of \$11.00, thus creating a range of \$9.50 to \$11.00, within which the Volatility Auction can occur. This means \$9.50 is the lowest price at which the Volatility Auction can occur and \$11.00 is the highest price at which it can occur.

In this example, if the pause was triggered at 12:00 p.m., the above calculated Volatility Auction Collar would be in effect during the initial Order Acceptance Period from 12:00 until 12:05 p.m. To continue the example, if the Indicative Clearing Price was above the upper Volatility Auction Collar at the time of the scheduled auction match, 12:05 p.m., then the Volatility Auction would receive an extension of

5 minutes (the “Initial Extension Period”) and the upper Volatility Auction Collar would be updated by adding \$0.50 to the upper Volatility Auction Collar (which is equal to 5% of the original Volatility Auction Reference Price of \$10.00). The lower Volatility Auction Collar remains unchanged. In this example, it would result in an upper Volatility Auction Collar of \$11.50 ($\$11.00 + \$0.50 = \11.50) and a lower Volatility Auction Collar of \$9.50, thus creating a range of \$9.50 to \$11.50, within which the Volatility Auction can now occur. This means \$9.50 is the lowest price at which the Volatility Auction can occur and \$11.50 is the highest price at which it can now occur at the next scheduled auction match 5 minutes from now, at 12:10 p.m.

Furthermore, continuing the example, if the Indicative Clearing Price was below the lower Volatility Auction Collar at the time of the scheduled auction match of 12:10 p.m., then the Volatility Auction would receive an extension of 5 minutes (an “Additional Extension Period”) and the lower Volatility Auction Collar would be updated by subtracting \$0.50 from the lower Volatility Auction Collar (which is equal to 5% of the original Volatility Auction Reference Price of \$10.00). In this example, it would result in a lower Volatility Auction Collar of \$9.00 ($\$9.50 - \$0.50 = \9.00) and an upper Volatility Auction Collar of \$11.50, thus creating a range of \$9.00 to \$11.50 within which the Volatility Auction can now occur. This means \$9.00 is the lowest price at which the Volatility Auction can occur and \$11.50 is the highest price at which it can now occur, and the Exchange shall attempt to conduct a Volatility Auction every one (1) second during the course of each Additional Extension Period until the clearing price falls at or within the Volatility Auction Collar.

.03 Eligibility of Market Orders and Limit Orders with a TIF of DAY Outside Regular Market Hours

If a Volatility Auction originally scheduled to occur during Regular Market Hours receives an automatic extension which causes the auction to occur in the Post-Market Session, limit orders with a TIF of DAY and market orders which were submitted during the Order Acceptance Period within Regular Market Hours are included and are only canceled by the System after the auction match or if the auction is extended to the end of Post-Market Hours.

(b) IEX Auction Priority.

(1) Orders resting on the Order Book shall be ranked and maintained for the Opening, Closing, IPO, Halt, and Volatility Auction based on the following priority:

(A) Price. The best priced Auction Eligible Order (the highest priced resting order to buy or the lowest priced resting order to sell) has priority over all other orders to buy (or orders to sell) in all cases. Market orders have precedence over limit orders.

(i) Resting Price. Auction Eligible Orders resting on the Continuous Book are ranked by the price at which they are resting on the Continuous Book; Auction Eligible Orders resting on the Auction Book are ranked by the limit price defined by the User, if any (in either case, the order’s “resting price”), as follows:

(a) Midpoint peg orders are ranked and eligible for execution in the Closing Auction at the less aggressive of the Midpoint Price or the order’s limit price, if any.

(b) Primary peg orders are ranked and eligible for execution in the Closing Auction at the less aggressive of one (1) MPV below (above) the NBB (NBO) for buy (sell) orders or the order’s limit price, if any, but may exercise price discretion up (down) to the auction match price, subject to the less aggressive of the NBB (NBO) or the order’s limit price, if any, except during periods of quote instability, as defined in IEX Rule 11.190(g). When exercising price discretion, primary peg orders are ranked behind any non-displayed interest at the auction match price for the duration of the Closing Auction. If multiple

primary peg orders are exercising price discretion during the Closing Auction, they maintain their relative time priority at the auction match price.

- (c) Discretionary Peg orders are ranked and eligible for execution in the Closing Auction at the less aggressive of one (1) MPV below (above) the NBB (NBO) for buy (sell) orders or the order's limit price, if any, but may exercise price discretion up (down) to the auction match price, subject to the less aggressive of the Midpoint Price or the order's limit price, if any, except during periods of quote instability, as defined in IEX Rule 11.190(g). When exercising price discretion, Discretionary Peg orders are ranked behind any non-displayed interest at the auction match price for the duration of the Closing Auction. If multiple Discretionary Peg orders are exercising price discretion during the Closing Auction, they maintain their relative time priority at the auction match price.
- (d) Non-displayed limit orders and non-displayed portions of reserve orders on the Continuous Book are ranked and eligible for execution in the Opening/Closing Auction at the less aggressive of the Midpoint Price or the order's limit price.
- (e) Displayed limit orders on the Continuous Book are ranked and eligible for execution in the Opening/Closing Auction at the order's resting price.
- (f) Limit orders, including LOO and LOC orders, on the Auction Book are ranked and eligible for execution in an auction at the order's limit price.
- (ii) Halt or Volatility Auction. Displayed portions of limit orders on the Continuous Book at the time of a halt or pause dissemination are ranked on the Auction Book by the price at which such orders were resting on the Continuous Book at the time of the halt or pause dissemination.

(B) Display. Equally priced Auction Eligible Orders are ranked by display priority.

- (i) On-Open and On-Close orders are ranked with display priority.
- (ii) Limit orders with a TIF of IOC or FOK are ranked with display priority.
- (iii) Displayed orders (including On-Open and On-Close orders) and displayed portions of orders on the Auction Book and Continuous Book will have precedence over non-displayed orders and non-displayed portions of orders on the Auction Book and Continuous Book at a given price.

(C) Time. Equally priced Auction Eligible Orders with the same display priority are ranked in time priority.

- (i) Where orders to buy (or sell) are ranked at the same price with the same display priority, the oldest order at such price and display shall have precedence at that price and display. Orders are ranked by the time at which they are posted to the Order Book at a given price, the first to be posted at a given price being the oldest. Orders maintain their time priority once booked until one of the following occur, at which time the order will receive a new timestamp:

- (a) An order on the Auction Book is incremented by the User;
- (b) An order on the Auction Book is re-priced by the User;
- (c) Minimum Quantity for an order on the Auction Book is amended by the User; or
- (d) Any one of the events specified in IEX Rule 11.220(a)(1)(C) occurs to an order on the Continuous Book.

(c) Opening Auction.

(1) Order Entry and Cancellation Before Opening Auction

- (A) Users may submit orders to the Exchange at the beginning of the Pre-Market Session for participation in the Opening Auction. Any orders designated for the Opening Auction Book will be queued until the Opening Auction match. Auction Ineligible Orders that may rest on the Order Book will be queued and maintained prior to the auction match in accordance with Rule 11.220(a)(1); Auction Ineligible Orders with a TIF of IOC or FOK will be rejected prior to the auction match.
- (B) Between the Opening Auction Lock-in Time and the Opening Auction match, orders on the Opening Auction Book may not be canceled or modified, and Hyper-aggressive Auction Orders submitted to the Exchange will be rejected upon entry.
- (C) Orders eligible for the Opening Auction Book received by the Exchange between the Opening Auction Lock-out Time and the Opening Auction match will be rejected.
- (D) Orders on the Continuous Book and Auction Ineligible Orders may continue to be entered and canceled or modified at any time prior to execution.

(2) Opening Auction Process. The Exchange will conduct an Opening Auction for all IEX-listed securities.

- (A) Publication of IEX Auction Information. Beginning at the Opening Auction Lock-in Time, and updated every one second thereafter, IEX Auction Information associated with the Opening Auction will be disseminated via electronic means.
- (B) Determination of IEX Official Opening Price. The IEX Official Opening Price will be the price of the Opening Auction. In the event that there is no Opening Auction for an IEX-listed security, the security will be released for trading pursuant to section (3) below, and the IEX Official Opening Price will be the price of the Initial Last Sale Eligible Trade.
 - (i) The Opening Auction shall occur at the price that maximizes the number of shares of Auction Eligible Orders to be executed;
 - (ii) If more than one price exists under subparagraph (i) resulting in an auction price range, the Opening Auction shall occur at the price at or within such range that is not lower (higher) than the most aggressive unexecuted buy (sell) order;

(iii) If more than one price exists under subparagraph (ii), the Opening Auction shall occur at the price closest or equal to the Volume Based Tie Breaker; and

(iv) If the Opening Auction price established by subparagraphs (i) through (iii) is below (above) the lower (upper) threshold of the Opening/Closing Auction Collar in the Opening Auction, the IEX Official Opening Price will be the price at or within the range of prices between the lower (upper) threshold of the Opening/Closing Auction Collar and the lower (upper) threshold of the Reference Price Range that best satisfies the conditions of subparagraphs (i) through (iii).

(C) Execution Priority. Opening Auction execution priority occurs in accordance with IEX Auction Priority as described in section (b) above. Market and MOO orders have priority over all other Auction Eligible Orders, and to the extent there is executable contra side interest, such market and MOO orders will execute at the IEX Official Opening Price in accordance with time priority. After the execution of all market and MOO orders, the remaining Auction Eligible Orders with a resting price more aggressive than the IEX Official Opening Price will be executed in price – display – time priority at the IEX Official Opening Price. All remaining Auction Eligible Orders with a resting price equal to the IEX Official Opening Price shall execute in display – time priority at the IEX Official Opening Price. All AIQ modifiers as defined in Rule 11.190(e), and Minimum Quantity instructions as defined in Rule 11.190(b)(11), will not be supported in the Opening Auction, but will be enforced on all unexecuted shares released to the Continuous Book following the Opening Auction match.

(D) Pre-Market Session Halt. If an IEX-listed security is subject to a Pre-Market Session halt, all orders on the Opening Auction Book will remain open. Users may resume submission of new or modifications to existing Auction Eligible Orders for the halted security during the Order Acceptance Period. Users may cancel open Auction Eligible Orders at any time during the halt. If a halt persists through the start of Regular Market Hours, no Opening Auction will occur, orders on the Opening Auction Book will become part of the Halt Auction Book, and the Halt Auction will determine the IEX Official Opening Price in accordance with Rule 11.350(e) below.

(E) The Halt Auction will determine the IEX Official Opening Price for an IEX-listed security pursuant to Rule 11.350(e) below if a Halt Auction is scheduled to occur during the Regular Market Session, and IEX has not determined an IEX Official Opening Price due to:

(i) An overnight trading halt; or

(ii) A lack of crossing interest during the Opening Auction, there is no Initial Last Sale Eligible Trade, and the security is subsequently halted.

(F) The Volatility Auction will determine the IEX Official Opening Price for an IEX-listed security pursuant to Rule 11.350(f) below if IEX has not determined an IEX Official Opening Price due to:

(i) A lack of crossing interest during the Opening Auction, there is no Initial Last Sale Eligible Trade, and the security is subsequently paused.

(3) Transition to Regular Market Session.

- (A) LOO, MOO, and market orders that are not fully executed at the conclusion of the Opening Auction will be canceled immediately after the Opening Auction match. Limit orders to buy (sell) with a TIF of DAY or GTX and a limit price above (below) the upper (lower) threshold of the Opening/Closing Auction Collar that are not fully executed at the conclusion of the Opening Auction will be canceled immediately after the Opening Auction match;
- (B) All remaining shares from Auction Eligible Orders that are not canceled by the System immediately after the Opening Auction match, along with all Auction Ineligible Orders queued for trading in the Regular Market Session, shall be released to the Continuous Book for trading in the Regular Market Session, subject to the orders' instructions; and
- (C) Routable orders that are released to the Continuous Book will be routed in accordance with IEX Rule 11.230(c)(3) (Re-Sweep Behavior), subject to the orders' instructions.

(4) Opening Auction Contingency Procedures.

- (A) When a disruption occurs that prevents the execution of the Opening Auction as set forth above, IEX shall apply the following Opening Auction Contingency Procedures:
 - (i) IEX will publicly announce that no Opening Auction will occur. The price of the Initial Consolidated Last Sale Eligible Trade will be used for the IEX Official Opening Price. The IEX Official Opening Price will be published to the Consolidated Tape. All orders on the Order Book will be canceled, and IEX will open the security for trading without an auction.
 - (ii) If a security's IEX Official Opening Price cannot be determined based on this procedure, IEX will not publish an IEX Official Opening Price for the security.
 - (iii) The Regular Market Session shall begin either as scheduled, or upon resolution of the disruption that triggered IEX to operate the Opening Auction Contingency Procedures.

(d) Closing Auction.

(1) Order Entry and Cancellation Before Closing Auction

- (A) Users may submit orders to the Exchange at the beginning of the Pre-Market Session, or at the beginning of the Order Acceptance Period for an IPO Auction, for participation in the Closing Auction. Any MOC and LOC orders designated for the Closing Auction Book will be queued until the Closing Auction match.
- (B) Between the Closing Auction Lock-in Time and the Closing Auction match, orders on the Closing Auction Book may not be canceled or modified, and Hyper-aggressive Auction Orders submitted to the Exchange will be rejected upon entry.
- (C) Between the Closing Auction Lock-in Time and five (5) minutes before the Closing Auction match (e.g., 3:55 p.m.), On-Close orders can be canceled only if the User requests that IEX correct a legitimate error in the order (e.g., side, size, symbol, price, or duplication of an order). On-Close orders cannot be

canceled or modified at or after five (5) minutes before the Closing Auction match (e.g., 3:55 p.m.) for any reason.

(D) Orders eligible for the Closing Auction Book received by the Exchange between the Closing Auction Lock-out Time and the Closing Auction match will be rejected.

(E) Orders on the Continuous Book may continue to be entered and canceled or modified at any time prior to execution.

(2) Closing Auction Process. The Exchange will conduct a Closing Auction for all IEX-listed securities.

(A) Publication of IEX Auction Information. At the beginning of the Closing Auction Lock-in Time, and updated every one second thereafter, IEX Auction Information associated with the Closing Auction will be disseminated via electronic means.

(B) Determination of IEX Official Closing Price. The IEX Official Closing Price will be the price of the Closing Auction. In the event that there is no Closing Auction for an IEX-listed security, the IEX Official Closing Price will be the price of the Final Last Sale Eligible Trade, and the security will be released for trading pursuant to section (3) below.

(i) The Closing Auction shall occur at the price that maximizes the number of shares of Auction Eligible Orders to be executed;

(ii) If more than one price exists under subparagraph (i) resulting in an auction price range, the Closing Auction shall occur at the price at or within such range that is not lower (higher) than the most aggressive unexecuted buy (sell) order;

(iii) If more than one price exists under subparagraph (ii), the Closing Auction shall occur at the price closest or equal to the Volume Based Tie Breaker; and

(iv) If the Closing Auction price established by subparagraphs (i) through (iii) is below (above) the lower (upper) threshold of the Opening/Closing Auction Collar in the Closing Auction, the IEX Official Closing Price will be the price at or within the range of prices between the lower (upper) Opening/Closing Auction Collar and the lower (upper) threshold of the Reference Price Range that best satisfies the conditions of subparagraphs (i) through (iii).

(C) Execution Priority. Closing Auction execution priority occurs in accordance with IEX Auction Priority as described in section (b) above. MOC orders have priority over all other Auction Eligible Orders, and to the extent there is executable contra side interest, such MOC orders will execute at the IEX Official Closing Price in accordance with time priority. After the execution of all MOC orders, the remaining Auction Eligible Orders with a resting price more aggressive than the IEX Official Closing Price will be executed in price – display – time priority at the IEX Official Closing Price. All remaining Auction Eligible Orders with a resting price equal to the IEX Official Closing Price shall execute in display – time priority at the IEX Official Closing Price. All AIQ modifiers as defined in Rule 11.190(e), and Minimum Quantity instructions as defined in Rule 11.190(b)(11), will not be supported in the Closing Auction, but will be

enforced on all unexecuted shares released to the Continuous Book following the Closing Auction match.

- (D) If a halt is disseminated in an IEX-listed security prior to the Closing Auction, all orders on the Auction Book will remain open. Users may resume submission of new or modifications to existing Auction Eligible Orders for the halted security during the Order Acceptance Period. Users may cancel open Auction Eligible Orders at any time during the halt. If a halt persists through the end of Regular Market Hours, no Closing Auction will occur, all On-Open orders, On-Close orders, pegged orders, market orders, and limit orders with a TIF of DAY will be canceled at the conclusion of Regular Market Hours, and the Final Last Sale Eligible Trade will be the IEX Official Closing Price. However, where an IEX-listed security is paused pursuant to IEX Rule 11.280 at or after the Closing Auction Lock-in Time, or the Order Acceptance Period of a Volatility Auction for a security paused before the Closing Auction Lock-in Time pursuant to IEX Rule 11.280 would otherwise be extended by the Exchange to a time after the Closing Auction Lock-in Time, On-Close orders are added to the Volatility Auction and such auction will be used to determine the IEX Official Closing Price for the subject security at the conclusion of Regular Market Hours in accordance with Rule 11.350(f)(3) below.

(3) Transition to Post-Market Session.

- (A) LOC, MOC, and pegged orders, as well as limit orders with a TIF of DAY that are not fully executed at the conclusion of the Closing Auction will be canceled immediately after the Closing Auction match;
- (B) All remaining shares from Auction Eligible Orders that are not canceled immediately by the System after the Closing Auction match will be released to the Continuous Book for trading in the Post-Market Session, subject to the orders' instructions; and
- (C) Routable orders that are released to the Continuous Book will be routed in accordance with IEX Rule 11.230(c)(3) (Re-Sweep Behavior), subject to the orders' instructions.

(4) Closing Auction Contingency Procedures.

- (A) When a disruption occurs that prevents the execution of the Closing Auction as set forth above, IEX shall apply either the Primary Closing Auction Contingency Procedures pursuant to this paragraph (A), or the Secondary Closing Auction Contingency Procedures pursuant to paragraph (B) below. IEX will employ the Primary Closing Auction Contingency Procedures if at all possible, and it will employ the Secondary Closing Auction Contingency Procedures only if it determines that both the standard procedures and the Primary Closing Auction Contingency Procedures are unavailable. The determination to employ Primary or Secondary Closing Auction Contingency Procedures will be based upon all available information including the type of disruption, the system or sub-system disrupted, the availability of testing and diagnostic data, and observed Member and market impact. The determination to implement Primary or Secondary Closing Auction Contingency Procedures shall be made by the President of IEX or a senior level employee designated by the President. If such a disruption occurs, IEX shall publicly announce at the earliest possible time the initiation of Primary or Secondary Closing Auction Contingency procedures via system status alerts and email notification directories. If IEX determines to initiate the Primary Closing Auction Contingency Procedures, the following Provisions shall apply:

- (i) IEX will publicly announce that no Closing Auction will occur. The price of the Final Consolidated Last Sale Eligible Trade will be used for the IEX Official Closing Price. The IEX Official Closing Price will be published to the Consolidated Tape. IEX will execute orders on the Closing Auction Book at the IEX Official Closing Price to the extent executable buy and sell interest exists on the Closing Auction Book. All remaining orders on the Order Book will be canceled at the conclusion of the contingency process. IEX will report the resulting execution to the Consolidated Tape and deliver execution reports to Users. If a security's IEX Official Closing Price cannot be determined by this subsection, IEX will not publish an IEX Official Closing Price for the security and will cancel all orders on the Order Book. The Post Market Session shall begin either as scheduled, or upon resolution of the disruption that triggered IEX to operate the Primary Contingency Procedures.

(B) Secondary Closing Auction Contingency Procedures. When a determination to implement Secondary Closing Auction Contingency Procedures has been made by the President of IEX or a senior level employee designated by the President pursuant to paragraph (A) above, IEX shall publicly announce this determination at the earliest possible time via system status alerts and email notification directories. The following procedures shall apply:

- (i) If IEX determines to follow Secondary Closing Auction Contingency Procedures for one or more securities at or before 3:00 p.m., IEX shall cancel all open orders on the Order Book in the impacted securities to give Members the opportunity to route their orders to alternative execution venues. IEX will designate an alternate exchange, and the IEX Official Closing Price for those securities will be determined in accordance with the following procedures:
 - (a) The IEX Official Closing Price will be the official closing price established for the security under the rules of the designated back-up exchange;
 - (b) If there is no official closing price in a security on the designated back-up exchange, the IEX Official Closing Price will be the volume weighted average price ("VWAP") of the last sale eligible trades reported to the Consolidated Tape during the last five (5) minutes of Regular Market Hours on that trading day, including any closing transactions on an exchange and any trade breaks or corrections up to the time the VWAP is processed;
 - (c) If there are no last sale eligible trades reported to the Consolidated Tape during the last five (5) minutes of Regular Market Hours, the IEX Official Closing Price of such security will be the Final Consolidated Last Sale Eligible Trade for the security on that trading day;
 - (d) If there were no last sale eligible trades reported to the Consolidated Tape on that trading day, the IEX Official Closing Price will be the previous official closing price;
 - (e) If a security's IEX Official Closing Price cannot be determined under subsection (a), (b), (c), and (d) above, IEX will not publish an IEX Official Closing Price for the security; and
 - (f) The Post Market Session shall begin either as scheduled, or upon resolution of the disruption that triggered IEX to operate the Secondary Contingency Procedures.

(ii) If IEX determines to follow Secondary Closing Auction Contingency Procedures for one or more securities after 3:00 p.m., IEX shall cancel all open orders on the Order Book in the impacted securities to give Members the opportunity to route their orders to alternative execution venues, and the IEX Official Closing Price for those securities will be:

- (a) The IEX Official Closing Price will be the VWAP of the last sale eligible trades reported to the Consolidated Tape during the last five (5) minutes of Regular Market Hours on that trading day, including any closing transactions on an exchange and any trade breaks or corrections up to the time the VWAP is processed;
- (b) If there are no last sale eligible trades reported to the Consolidated Tape during the last five (5) minutes of Regular Market Hours, the IEX Official Closing Price of such security will be the Final Consolidated Last Sale Eligible Trade for the security on that trading day;
- (c) If there were no last sale eligible trades reported to the Consolidated Tape on that trading day, the IEX Official Closing Price will be the previous official closing price;
- (d) If a security's IEX Official Closing Price cannot be determined under subsection (a), (b), and (c) above, IEX will not publish an IEX Official Closing Price for the security; and
- (e) The Post Market Session shall begin either as scheduled, or upon resolution of the disruption that triggered IEX to operate the Secondary Contingency Procedures.

(e) IPO and Halt Auctions. For trading in an IEX-listed security in an initial public offering (an "IPO"), or the initial pricing of any other security pursuant to Rule 11.280, the Exchange will conduct an IPO Auction, as described below. Following a trading halt in an IEX-listed security pursuant to IEX Rule 11.280, the Exchange will conduct a Halt Auction, as described below.

(1) Order Entry and Cancellation Before an IPO or Halt Auction.

- (A) Users may submit Auction Eligible Orders to the Exchange at the beginning of the Order Acceptance Period for participation in an IPO or Halt Auction. All Auction Eligible Orders associated with an IPO or Halt Auction will be queued until the applicable auction match. All orders associated with an IPO or Halt Auction must be received prior to the auction match in order to be eligible to execute in the auction. Auction Ineligible Orders that may rest on the Order Book will be queued and maintained during the Order Acceptance Period in accordance with Rule 11.220(a)(1); Auction Ineligible Orders with a TIF of IOC or FOK will be rejected prior to the auction match.
- (B) Auction Eligible Orders associated with an IPO or Halt Auction may be canceled or modified at any time prior to the auction match.
- (C) At the conclusion of Regular Market Hours, On-Open orders, On-Close orders, pegged orders, market orders, and limit orders with a TIF of DAY will be canceled automatically by the System.

(D) In the event the Exchange cannot complete an IPO or Halt Auction before the end of Post-Market Hours, all open orders in the subject security on the Order Book will be canceled.

(2) IPO and Halt Auction Process.

(A) Publication of IEX Auction Information. At the start of the Display Only Period for a security and updated every one second thereafter, IEX Auction Information associated with the IPO or Halt Auction will be disseminated via electronic means.

(B) Extending the Order Acceptance Period. The Order Acceptance Period will be extended:

- (i) Automatically for one (1) minute for a Halt Auction when there are unmatched shares from market orders on the Auction Book associated with the auction at the time of the auction match;
- (ii) Automatically for one (1) minute for a Halt Auction when the Indicative Clearing Price differs by the greater of five percent (5%) or fifty cents (\$0.50) from any of the previous fifteen (15) Indicative Clearing Price disseminations at the time of the auction match;
- (iii) Automatically in an IPO Auction when the conditions set forth in Rule 11.280 are not satisfied, until all such conditions are satisfied; or
- (iv) Manually for an IPO Auction upon request for an extension from the underwriter.

(C) Determination of IEX IPO Opening Price and IEX Re-opening Trade. The IPO Auction price will be the IEX Official IPO Opening Price. The execution resulting from the Halt Auction will be the IEX Re-opening Trade. If there is insufficient trading interest in the System to execute a Halt Auction for that security, no Halt Auction will occur, and the security will be released for trading pursuant to section (3) below. Pursuant to Rule 11.350(c)(2)(D) or (E), as applicable, if IEX has not determined the IEX Official Opening Price for an IEX-listed security, and the Halt Auction is scheduled to occur during the Regular Market Session, the IEX Official Opening Price will be the price of the Halt Auction. If there is insufficient trading interest to complete the Halt Auction, the transition to the Regular Market Session shall be conducted pursuant to Rule 11.350(e)(3) below, no auction will occur, and the IEX Official Opening Price will be the price of the Initial Last Sale Eligible Trade.

- (i) The auction shall occur at the price that maximizes the number of shares of Auction Eligible Orders to be executed;
- (ii) If more than one price exists under subparagraph (i) resulting in an auction price range, the auction shall occur at the price at or within such range that is not lower (higher) than the most aggressive unexecuted buy (sell) order; and
- (iii) If more than one price exists under subparagraph (ii), the auction shall occur at the price closest or equal to the Volume Based Tie Breaker.

- (iv) If the IPO Auction price established by subparagraphs (i) through (iii) meets the condition for extending the Order Acceptance Period described in Rule 11.350(e)(2)(B)(iii), the Order Acceptance Period shall be extended accordingly; or
- (v) If the Halt Auction price established by subparagraphs (i) through (iii) meets the conditions for extending the Order Acceptance Period described in Rule 11.350(e)(2)(B)(i)-(ii), the Order Acceptance Period shall be extended accordingly.

(D) Execution Priority. IPO and Halt Auction execution priority occurs in accordance with IEX Auction Priority as described in section (b) above. Market and MOO orders have priority over all other Auction Eligible Orders in an IPO or Halt Auction. To the extent there is executable contra side interest, such market and MOO orders will be executed at the IEX Official IPO Price or the price of the IEX Re-Opening Trade according to time priority. After the execution of all market and MOO orders, the remaining Auction Eligible Orders with a resting price more aggressive than the IEX Official IPO Price or the price of the IEX Re-Opening Trade will be executed in price – display – time priority at the IEX Official IPO Price, or the price of the IEX Re-Opening Trade. All remaining Auction Eligible Orders with a resting price equal to the IEX Official IPO Price or the price of the IEX Re-Opening Trade shall execute in display – time priority at the IEX Official IPO Price, or the price of the IEX Re-Opening Trade. All AIQ modifiers as defined in Rule 11.190(e), and Minimum Quantity instructions as defined in Rule 11.190(b)(11), will not be supported in the IPO or Halt Auction, but will be enforced on all unexecuted shares released to the Continuous Book following the IPO or Halt Auction match.

(3) Transition to Continuous Trading.

- (A) LOO, MOO, and market orders, as well as Auction Eligible Orders with a TIF of FOK or IOC that are not fully executed at the conclusion of the IPO Auction will be canceled immediately after the IPO Auction match.
- (B) Auction Eligible Orders with a time-in-force of FOK or IOC and market orders (as well as On-Open orders when the Halt Auction is determining the IEX Official Opening Price) that are not fully executed at the conclusion of the Halt Auction will be canceled immediately after the Halt Auction match.
- (C) All remaining shares from Auction Eligible Orders that are not canceled immediately by the System after an IPO or Halt Auction match and Auction Ineligible Orders will be released to the Continuous Book for trading in the applicable market session, subject to the orders' instructions; and
- (D) Routable orders that are released to the Continuous Book will be routed in accordance with IEX Rule 11.230(c) (Re-Sweep Behavior), subject to the orders' instructions.

(4) Contingency Procedures. When a disruption occurs that prevents the execution of an IPO or Halt Auction as set forth above, IEX shall apply the following Contingency Procedures:

- (A) For an IPO Auction, IEX will publicly announce that the Order Acceptance Period for the IPO Auction will reset for the subject security. At which point, IEX will cancel all orders on the Order Book and disseminate a new scheduled time for the Order Acceptance Period and auction match.

- (B) For a Halt Auction, IEX will publicly announce that no Halt Auction will occur. All orders on the Order Book will be canceled, and IEX will open the security for trading without an auction.

• • • **Supplementary Material** • • •

.01 The Exchange will conduct an IPO Auction for securities that are the subject of an initial public offering. Pursuant to section 12(f)(1)(G)(i)-(ii) of the Securities and Exchange Act, a security is the subject of an initial public offering if the offering of the subject security is registered under the Securities Act of 1933, the issuer of the security, immediately prior to filing the registration statement with respect to the offering, was not subject to the reporting requirements of the Securities and Exchange Act, and the initial public offering of such security commences at the opening of trading on the day on which such security commences trading on the national securities exchange with which such security is registered. In addition, the Exchange will also conduct an IPO Auction for the initial pricing of any other security pursuant to Rule 11.280. Pursuant to Rule 11.280, the process for halting and initial pricing of a security that is the subject of an IPO shall also be available for the initial pricing of any other security that has not been listed on a national securities exchange or traded in the over-the-counter market pursuant to FINRA Form 211 immediately prior to the initial pricing, provided that a broker-dealer serving in the role of financial advisor to the issuer of the securities being listed is willing to perform the functions under IEX Rule 11.280 that are performed by an underwriter with respect to an initial public offering.

.02 Initial trading for an IEX-listed security that is not the subject of an IPO or otherwise being priced pursuant to Rule 11.280 will be eligible to begin trading in the Pre-Market Session and have an Opening Auction on IEX at the start of Regular Market Hours. For example, if an issuer with a class of common stock listed on IEX offers and lists a preferred class of securities on IEX, the offering of such securities would not constitute an initial public offering pursuant to section 12(f)(1)(G)(i) of the Securities and Exchange Act. Therefore, if the security does not qualify for the process of halting and initial pricing of a security pursuant to Rule 11.280 (e.g., because there is no broker-dealer serving in the role of financial advisor to the issuer of the securities being listed that is willing to perform the functions under IEX Rule 11.280 that are performed by an underwriter with respect to an initial public offering), such security will be eligible for trading in the Pre-Market Session and have an Opening Auction on IEX at the start of Regular Market Hours.

-
- (f) Volatility Auction. The Volatility Auction is used to re-open an IEX-listed security after such security is subject to an LULD trading pause pursuant to IEX Rule 11.280.

(1) Order Entry and Cancellation Before a Volatility Auction.

(A) Auction Eligible Orders may be submitted to the Exchange at the beginning of the five (5) minute Order Acceptance Period for participation in a Volatility Auction. However, when an IEX-listed security is paused pursuant to IEX Rule 11.280 at or after the Closing Auction Lock-in Time, or if the Order Acceptance Period of a Volatility Auction for a security paused before the Closing Auction Lock-in Time pursuant to IEX Rule 11.280 would be in effect at the Closing Auction Lock-in Time, the Order Acceptance Period shall continue to the end of the Regular Market Session.

(B) All Auction Eligible Orders will be queued until the auction match. All orders associated with a Volatility Auction must be received prior to the auction match in order to be eligible for execution in the auction. Auction Ineligible Orders that may rest on the Order Book will be queued and maintained during the

Order Acceptance Period in accordance with Rule 11.220(a)(1); Auction Ineligible Orders with a TIF of IOC or FOK will be rejected prior to the auction match.

(C) Auction Eligible Orders associated with a Volatility Auction may be canceled or modified at any time prior to the auction match.

(2) Volatility Auction Process.

(A) Publication of IEX Auction Information. At the start of the Display Only Period and updated every one second thereafter, IEX Auction Information associated with the Volatility Auction will be disseminated via electronic means.

(B) Volatility Auction Collar. The Volatility Auction match must occur at a price at or within the Volatility Auction Collar.

(C) Conditions for Extending the Order Acceptance Period. The Order Acceptance Period will be extended:

- (i) Automatically for five (5) minutes when the Indicative Clearing Price differs by the greater of five percent (5%) or fifty cents (\$0.50) from any of the previous fifteen (15) Indicative Clearing Price disseminations at the time of the auction match;
- (ii) Automatically for five (5) minutes when the Indicative Clearing Price, at the time of the auction match, is an Impermissible Price. Upon extension, the Volatility Auction Collar will be expanded in the direction of the Impermissible Price pursuant to section (D)(ii) below; the Volatility Auction will continue to be extended in five (5) minute increments and will continue to be expanded in the direction of the Impermissible Price until sufficient trading interest exists at an Indicative Clearing Price at or within the Volatility Auction Collar; or
- (iii) Automatically to the end of Regular Market Hours where an IEX-listed security is paused pursuant to IEX Rule 11.280 at or after the Closing Auction Lock-in Time, or the Order Acceptance Period of a Volatility Auction for a security paused before the Closing Auction Lock-in Time pursuant to IEX Rule 11.280 would be in effect at the Closing Auction Lock-in Time, in which case the IEX Official Closing Price will be determined by the Volatility Auction pursuant to section (3) below.

(D) Incremental Extensions of the Order Acceptance Period following a Trading Pause. Pursuant to section (a)(29)(C) above, the Order Acceptance Period for a Volatility Auction shall commence immediately after the Trading Pause. The Order Acceptance Period may be extended for five (5) minutes pursuant to section 11.350(f)(2)(C)(i) or (C)(ii) above (the "Initial Extension Period"). After the Initial Extension Period, the Order Acceptance Period may be extended for additional five (5) minute periods pursuant to section 11.350(f)(2)(C)(i) or (C)(ii) above (each an "Additional Extension Period") until a Volatility Auction occurs. The Exchange shall attempt to conduct a Volatility Auction every one (1) second during the course of each Additional Extension Period. Should the Order Acceptance Period for a Volatility Auction be extended to a time past the Closing Auction Lock-in Time (i.e., 10 minutes prior to the end of the Regular Market Session), the Volatility Auction shall be conducted pursuant to section (f)(3) of this Rule.

- i. At the beginning of the Order Acceptance Period, the Volatility Auction Collar Reference Price and the Volatility Auction Collar shall be determined in accordance with section (a)(32) and (a)(31) of the Rule, respectively.
- ii. At the beginning of the Initial Extension Period pursuant to section (C)(ii), the upper (lower) Volatility Auction Collar shall be increased (decreased) by five (5) percent of the original Volatility Auction Collar Reference Price in the direction of the Impermissible Price, rounded to the nearest passive MPV. For securities with a Volatility Auction Collar Reference Price of \$3.00 or less, the Volatility Auction Collar shall be increased (decreased) in \$0.15 increments in the direction of the Impermissible Price. At the beginning of each Additional Extension Period pursuant to section (C)(ii), the Volatility Auction Collar shall be widened in accordance with this paragraph by the same method as the Initial Extension Period.

(E) Determination of IEX Re-Opening Trade. The execution resulting from the Volatility Auction will be the IEX Re-opening Trade. If there is insufficient trading interest in the System to execute the Volatility Auction for that security, no Volatility Auction will occur, and the security will be released for trading pursuant to section (G) below. Pursuant to Rule 11.350(c)(2)(F), if IEX has not determined the IEX Official Opening Price for an IEX-listed security, and the security is subject to an LULD trading pause, the IEX Official Opening Price will be the price of the Volatility Auction.

- (i) The Volatility Auction shall occur at the price that maximizes the number of shares of Auction Eligible Orders to be executed;
- (ii) If more than one price exists under subparagraph (i) resulting in an auction price range, the Volatility Auction shall occur at the price at or within such range that is not lower (higher) than the most aggressive unexecuted buy (sell) order; and
- (iii) If more than one price exists under subparagraph (ii), the Volatility Auction shall occur at the price closest or equal to the Volume Based Tie Breaker.
- (iv) If the Volatility Auction price established by subparagraphs (i) through (iii) is outside the Volatility Auction Collar, the Order Acceptance Period shall be extended pursuant to 11.350(f)(2)(C)(ii) and the Volatility Auction Collars shall be updated pursuant to Rule 11.350(f)(2)(D)(ii), described above; or
- (v) If the Volatility Auction price established by subparagraphs (i) through (iii) meets the conditions for extending the Order Acceptance Period described in Rule 11.350(f)(2)(C)(i), the Order Acceptance Period shall be extended accordingly.

(F) Execution Priority. Volatility Auction execution priority occurs in accordance with IEX Auction Priority as described in section (b) above. Market orders have priority over all other Auction Eligible Orders in the Volatility Auction. To the extent there is executable contra side interest, such market orders will be executed at the price of the IEX Re-Opening Trade according to time priority. After the execution of all market orders, the remaining Auction Eligible Orders with a resting price more aggressive than the price of the IEX Re-Opening Trade will be executed in price – display – time priority at the price of the IEX Re-Opening Trade. All remaining Auction Eligible Orders with a resting price equal to the price of the IEX Re-

Opening Trade shall execute in display – time priority at the price of the IEX Re-Opening Trade. All AIQ modifiers as defined in Rule 11.190(e), and Minimum Quantity instructions as defined in Rule 11.190(b)(11), will not be supported in the Volatility Auction, but will be enforced on all unexecuted shares released to the Continuous Book following the Volatility Auction match.

(G) Transition to Regular Market Session.

- (i) Auction Eligible Orders with a TIF of FOK or IOC and market orders that are not fully executed in a Volatility Auction will be canceled immediately after the Volatility Auction match;
- (ii) All remaining shares from Auction Eligible Orders that are not canceled immediately by the System after a Volatility Auction match and Auction Ineligible Orders will be released to the Continuous Book for trading in the Regular Market Session, subject to the orders' instructions; and
- (iii) Routable orders that are released to the Continuous Book will be routed in accordance with IEX Rule 11.230(c) (Re-Sweep Behavior), subject to the orders' instructions.

(H) Contingency Procedures. When a disruption occurs that prevents the execution of a Volatility Auction as set forth above, IEX shall apply the following Volatility Auction Contingency Procedures:

- (i) IEX will publicly announce that no Volatility Auction will occur, and the Exchange will immediately notify the single plan processor responsible for consolidation of information for the security. All orders on the Order Book will be canceled, and IEX will open the security for trading without an auction after the single plan processor responsible for consolidation of information for the security has disseminated Price Bands.

(3) Closing with a Volatility Auction. Where an IEX-listed security is paused pursuant to IEX Rule 11.280 at or after the Closing Auction Lock-in Time, or the Order Acceptance Period of a Volatility Auction for a security paused before the Closing Auction Lock-in Time pursuant to IEX Rule 11.280 would otherwise be extended by the Exchange to a time after the Closing Auction Lock-in Time, no Closing Auction for the security will occur. Instead, the Exchange will conduct a Volatility Auction at the end of Regular Market Hours to determine the IEX Official Closing Price for the security.

(A) Order Entry and Cancellation Before Closing with a Volatility Auction.

- (i) Auction Eligible Orders may be submitted to the Exchange at the beginning of the Order Acceptance Period for participation in a Volatility Auction. All Auction Eligible Orders will be queued until the auction match. All orders associated with a Volatility Auction must be received prior to the auction match in order to be eligible for execution in the Volatility Auction. Auction Ineligible Orders will be rejected prior to the auction match.
- (ii) MOC and LOC orders queued for the Closing Auction will be incorporated into the Auction Book for the Volatility Auction.
- (iii) When an IEX-listed security is paused pursuant to IEX Rule 11.280(e) at or after the Closing Auction Lock-in Time, or the Order Acceptance Period of a Volatility Auction for a security paused before the Closing Auction Lock-in Time pursuant to IEX Rule 11.280(e) would

otherwise be extended by the Exchange to a time after the Closing Auction Lock-in Time, non-displayed interest with a TIF of DAY and pegged orders will be immediately canceled, in order to allow Users to re-enter such interest as Auction Eligible Orders.

- (iv) Auction Eligible Orders associated with a Volatility Auction may be canceled or modified at any time prior to the auction match.
- (v) In the event the Exchange cannot complete a Volatility Auction before the end of Post-Market Hours, all open orders in the subject security on the Order Book will be canceled.

(B) Process for Closing with a Volatility Auction.

- (i) Publication of IEX Auction Information. At the start of the Display Only Period and updated every one second thereafter, IEX Auction Information associated with the Volatility Auction will be disseminated via electronic means.
- (ii) Determination of IEX Official Closing Price. The IEX Official Closing Price will be the price of the Volatility Auction. If there is insufficient trading interest in the System to execute the Volatility Auction for that security, the Final Last Sale Eligible Trade shall be used as the IEX Official Closing Price in that security, and the security will be released for trading pursuant to section (C) below. Pursuant to Rule 11.350(c)(2)(F), if IEX has not determined the IEX Official Opening Price for an IEX-listed security, and the security is subject to an LULD trading pause, the IEX Official Opening Price will be the price of the Volatility Auction.
 - (a) The Volatility Auction shall occur at the price that maximizes the number of shares of Auction Eligible Orders to be executed;
 - (b) If more than one price exists under subparagraph (a) resulting in an auction price range, the Volatility Auction shall occur at the price at or within such range that is not lower (higher) than the most aggressive unexecuted buy (sell) order; and
 - (c) If more than one price exists under subparagraph (b), the Volatility Auction shall occur at the price closest or equal to the Volume Based Tie Breaker.
 - (d) If the Volatility Auction price established by subparagraphs (a) through (c) is outside the Volatility Auction Collar, the Order Acceptance Period shall be extended pursuant to 11.350(f)(2)(C)(ii) and the Volatility Auction Collars shall be updated pursuant to Rule 11.350(f)(2)(D)(ii), described above; or
 - (e) If the Volatility Auction price established by subparagraphs (a) through (c) meets the conditions for extending the Order Acceptance Period described in Rule 11.350(f)(2)(C)(i), the Order Acceptance Period shall be extended pursuant to 11.350(f)(2)(D).
- (iii) Execution Priority. Volatility Auction execution priority occurs in accordance with IEX Auction Priority as described in section (b) above. Market and MOC orders have priority over all other Auction Eligible Orders in the Volatility Auction. To the extent there is executable contra side interest, such market and MOC orders will be executed at the IEX Official Closing Price according

to time priority. After the execution of all market and MOC orders, the remaining Auction Eligible Orders with a resting price more aggressive than the IEX Official Closing Price will be executed in price – display – time priority at the IEX Official Closing Price. All remaining Auction Eligible Orders with a resting price equal to the IEX Official Closing Price shall execute in display – time priority at the IEX Official Closing Price. All AIQ modifiers as defined in Rule 11.190(e), and Minimum Quantity instructions as defined in Rule 11.190(b)(11), will not be supported in the Volatility Auction, but will be enforced on all unexecuted shares released to the Continuous Book following the Volatility Auction match.

(C) Transition to Post-Market Session.

- (i) LOC, MOC, and market orders, as well as all orders with a TIF of DAY, FOK, or IOC that are not fully executed at the conclusion of the Volatility Auction will be canceled immediately after the Volatility Auction match; and
- (ii) All remaining shares from Auction Eligible Orders that are not canceled immediately by the System after the Volatility Auction match will be released to the Continuous Book for trading in the Post-Market Session, subject to the orders' instructions.
- (iii) Routable orders that are released to the Continuous Book will be routed in accordance with IEX Rule 11.230(c) (Re-Sweep Behavior), subject to the orders' instructions.

(D) Contingency Procedures for Closing with a Volatility Auction.

- (i) When a disruption occurs that prevents the execution of the Volatility Auction as set forth above, IEX will utilize the Closing Auction Contingency Procedures as defined in IEX Rule 11.350(d)(4).

(g) Short Sale Order Handling.

- (1) For Opening, Closing, Halt, and Volatility Auctions for covered securities, when the Short Sale Price Test of Rule 201 of Regulation SHO is in effect, the Exchange will not execute or display short sale orders not marked short exempt at a price at or below the current NBB.

(A) When the Short Sale Price Test of Rule 201 of Regulation SHO is in effect during the auction match for covered securities, and the inclusion of one or more sell short orders not marked short exempt would push the auction match price to a price at or below the current NBB price at the time of the auction match (i.e., the time of execution of orders in the auction), then such sell short order not marked short exempt and all other sell short orders not marked short exempt with lesser priority shall not receive an execution in the auction match.

- (h) Whenever, in the judgment of the Exchange, the interests of a fair and orderly market so require, the Exchange may adjust the timing of or suspend the auctions set forth in this IEX Rule with prior notice to Users.
- (i) For purposes of Rule 611(b)(3) of Regulation NMS and section VI(D)(6) of the plan to Implement a Tick Size Pilot Program, orders executed pursuant to the Opening Auction, Closing Auction, IPO Auction, Halt Auction, and Volatility Auction may trade-through or trade-at the price of any other Trading Center's Manual or Protected

Quotations if the transaction that traded-at or constituted the trade-through was a single-priced opening, re-opening, or closing transaction by the trading center.

(j) For purposes of this Rule, all references to a.m. and p.m. times shall mean Eastern Time.

Rule 11.370. Reserved.

Rule 11.380. Risk Management

(a) Aggregate Risk Controls (“ARC”).

- (1) ARCs may be optionally elected by a Member or the clearing firm of a Member.
- (2) ARCs can be configured to accumulate Gross Notional Exposure, Net Notional Exposure, or both, as defined in subparagraphs (a)(2)(A) and (a)(2)(B), respectively (“ARC Limit”). ARC Limits can be configured for matched and routed trades for a Member or clearing firm’s broker correspondent across MPIDs, by MPID, by FIX session, or in combination, per clearing firm relationship or Member, as applicable. If an ARC Limit is exceeded new orders will be automatically rejected and all open orders will be cancelled. Any ARC Limit may be increased or decreased on an intra-day basis by a Member or the clearing firm of a Member, as applicable.
 - (A) “Gross Notional Exposure” is calculated as the absolute sum of the notional value of all buy and sell trades: equal to the value of executed buys plus the absolute value of executed long sells plus the absolute value of executed short sells. There is no netting of buys and sales in the same symbol or across symbols. Gross Notional Exposure resets for each new trading day.
 - (B) “Net Notional Exposure” is calculated as the absolute net sum of the notional value of all buy and sell trades: equal to the value of executed buys minus the absolute value of executed long sells minus the absolute value of executed short sells. Netting is calculated across symbols. Net Notional Exposure resets for each new trading day.
- (3) Notwithstanding the foregoing, after the Lock-in Time for the Opening (Closing) Auction and before the Opening (Closing) Auction match, if a Member exceeds their pre-determined ARC Limit as configured by the Member or their clearing firm, IEX will not cancel such Member’s orders that are on the Opening (Closing) Auction Book (“Locked-in Orders”). Immediately after the Opening (Closing) Auction match, any unexecuted portion of Locked-in Orders will be canceled.

(b) Members, including clearing firms, seeking to utilize ARC shall contact IEX Market Operations at marketops@iextrading.com.

- (1) Top of Book. IEX determines the Top of Book quotation for each away trading center to be equal to the price and size of the most current displayed best priced bid and displayed best priced offer of an away trading center in an Regulation NMS Covered Security (“covered security”) known to the System during system hours through the market data sources described in paragraph (2) below.
- (2) Proprietary Market Data Feeds. The Exchange utilizes the following data feeds for each of the away trading centers that produce Protected Quotations. The Exchange will maintain connectivity and access, pursuant to IEX Rule 11.510, to each away trading center for the receipt of such away trading center’s proprietary market data feeds. Proprietary market data feeds are the primary source from which the System determines the Top of Book quotation for each away trading center, except for LTSE, XCHI, XCIS, 24EQ, and TXSE for which applicable Securities Information Processor (“SIP”) market data is used. Proprietary market data feeds are also the primary source of NBBO, except for LTSE, XCHI, XCIS, 24EQ, and TXSE for which the applicable SIP market data is used, for certain reporting, regulatory and compliance systems within IEX. In the event of and during any issue or condition preventing the reliable use of proprietary market data feeds to determine Top of Book for an away trading center, the System may switch to the Top of Book quotation for that away trading center, for one or more of its covered securities, as disseminated by the applicable SIP.
 - (A) IEX aggregates odd and mixed lot quotations received via proprietary market data feeds into round lots for the purposes of determining each away trading center’s Top of Book consistent with the convention used by each away trading center in its publish of its own best priced quotations to each SIP.
- (3) SIP Market Data Feeds. IEX consumes SIP consolidated quotation and trade data feeds for each of the National Tape Plans for covered securities. The Exchange will maintain connectivity and access, pursuant to IEX Rule 11.510, to each SIP for the receipt of SIP feeds. SIP feeds are a secondary source of Top of Book information for each away trading center for which IEX has a proprietary market data feed, as well as being a primary source of administrative messages such as halts, unhalts, limit up-limit down reference prices, Regulation SHO short sale circuit breakers, and last sale information. SIP feeds are also the primary source of administrative messages for certain reporting, regulatory and compliance systems within IEX.
- (4) IEX Best Priced Quotation. IEX is aware of its own Top of Book, aggregated best priced, resting, displayed orders for which it is publishing a protected quotation, intrinsically within the IEX System. The IEX System is the primary source of the IEX Top of Book for the purposes of calculating quote related reference prices for the trading system. SIP feeds and the IEX proprietary market data feeds may be the, or one of the, primary

sources of IEX Top of Book information for certain reporting, regulatory, and compliance systems of the Exchange.

(b) Quote Related Reference Prices are derived from composite of Top of Book determined for each away trading center as per paragraph (a) above in the following manner:

- (1) Protected Quotations. Protected Bids and Offers are determined from all Top of Book information for away trading centers' quotations meeting the requirements defined in rules of Regulation NMS. IEX consumes the Protected Quotations from the away trading centers listed in this IEX Rule.
- (2) National Best Bid and Offer. The NBBO is equal to the highest bid and lowest offer among all valid Top of Book for each protected quotation in each covered security, including IEX's own quotation. Quotations of venues against which IEX has declared self-help as described in IEX Rule 11.230(d), are included in the determination of the NBBO.
- (3) Protected Best Bid and Offer. The Protected NBBO is equal to the highest bid and lowest offer among all valid Top of Book for each protected quotation in each covered security, including IEX's own quotation. Quotations of venues against which IEX has declared self-help as described in IEX Rule 11.230(d), are excluded in the determination of the PBBO.
- (4) Market Data Snapshot ("SNAP"). A SNAP is the most current Top of Book of each away trading center disseminating a Protected Quotation at the time requested by the System.

(c) Matching Engine Market Data Usage. The IEX Matching Engine uses the NBBO to determine price for pegged orders and the Regulation SHO Short Sale Price Test, and the Protected NBBO to determine the protected inside for the purpose of preventing locked and crossed markets, NMS price sliding, and trade through protection.

(d) Market Data Usage for Routing Decisions. The System uses the NBBO to determine marketability of orders it handles. The System generates a SNAP for all away trading centers. Quotations excluded from the Protected NBBO are similarly excluded by the System for purposes of determining the Protected Quotations of individual away trading centers in a covered security. The System uses each SNAP for no longer than allowed by Regulation NMS Rule 611 "flickering quote" rule. The System's own orders and the responses it receives from away trading centers displaying protected quotations to which it had routed will serve to inform the System's view of the Protected NBBO and contribute to the determination of Protected Quotations for purposes of routing that particular order to away trading centers.

Rule 11.510. Connectivity

- (a) General. All Participants and Extranet Providers, each as defined in IEX Rule 11.130(a), may only connect to, access, and interact with the System at a network address maintained by the Exchange at the IEX point-of-presence (the “POP”) as specified in the Exchange’s Connectivity Manual (“Connectivity Manual”). Inbound communications to the System from the POP are subject to an equivalent 350 microseconds of latency between the network access point of the POP and the System at the primary data center (due to traversing the physical distance provided by coiled optical fiber, the geographic distribution and network connectivity). Outbound communications from the System to the POP do not traverse the physical distance provided by coiled optical fiber.
- (1) The Exchange offers a variety of connectivity options outlined in the Connectivity Manual. IEX does not offer co-location services.
- (2) Participants and Extranet Providers may connect to, access, and interact with the backup System when the System at the primary data center is unavailable and the Exchange declares it will operate from the backup data center. Certain Members are required to connect to the Exchange’s backup System and participate in functional and performance testing as specified in IEX Rule 2.250. Neither inbound nor outbound communications with the backup System traverse the connectivity infrastructure between the System and the POP as connectivity to the backup System occurs directly at the backup data center.
- (b) IEX Connectivity Infrastructure. The System is available for entry and execution of orders only via connectivity at the POP by each Participant. Exchange data products are available for receipt only via connectivity at the POP by all Data Recipients. Inbound messages from Participants to the Exchange are subject to the inbound latency, as defined in paragraph (1) below. Notwithstanding the foregoing, connectivity between the System routing logic and the Order Book and the manner in which the System routing logic may receive Exchange data products are described in paragraph (c) below.
- (1) Inbound Latency. For inbound communication (including, without limitation, order messages and cancel messages found in the Exchange’s FIX Specification), the Exchange’s connectivity infrastructure is designed to provide all Participants with an equivalent 350 microseconds of latency from the Exchange-provided network interface at the IEX POP to the System at the primary data center (“inbound latency”).
- (c) System Connectivity.
- (1) Order Book Processes and Order Execution. Order Book processing and order execution on the Order Book occur within the System and do not traverse the connectivity infrastructure between the System and the POP. Notwithstanding the foregoing, in the case of a routable order the order is initially delivered to the System routing logic within the System, which will then route all or a portion of the order to the Order Book, in accordance with the System routing logic. All inbound communications (including, without limitation, order messages and cancel messages from the System routing logic to the Order Book are subject to 350 microseconds of latency between the System routing logic and the Order Book (which is in addition to the inbound latency described in paragraph (b)(1) of this IEX Rule 11.510). Furthermore, pursuant to Rule 11.190(b)(17), each time a Market Maker Peg order is automatically adjusted by the System, it is subject to 350 microseconds of latency prior to posting on the Order Book at the adjusted price.
- (2) System Receipt of Market Data.
- (A) Proprietary Market Data Feeds. Pursuant to IEX Rule 11.410(a)(2), the System connects to each away trading center’s primary data center for the receipt of proprietary market data feeds. Communications

with away trading centers do not traverse the connectivity infrastructure between the System and the POP.

- (i) The backup System shall not have connectivity to each away trading center's primary data center for the receipt of proprietary market data.

(B) SIP Feeds. Pursuant to IEX Rule 11.410(a)(3), the System connects to the SIPs for the receipt of SIP feeds. Communications with the SIPs do not traverse the connectivity infrastructure between the System and the POP.

(3) Outbound Communication from the System to Facilities and Away Trading Centers.

(A) Outbound Router. Pursuant to IEX Rule 11.230(b), the System connects to the Outbound Router for order entry and execution on away trading centers; the Outbound Router subsequently connects to each away trading center for order entry and execution on such away trading centers. Communications between the Outbound Router and away trading centers do not traverse the connectivity infrastructure between the System and the POP.

(B) Securities Information Processors. Pursuant to IEX Rule 11.240(c) and IEX Rule 11.240(d), the System connects to the SIPs to disseminate quotation and last sale (i.e. execution) information. Communications with the SIPs do not traverse the connectivity infrastructure between the System and the POP.

(C) National Securities Clearing Corporation. Pursuant to IEX Rule 11.250(a), the System connects to the NSCC to transmit executed transactions. Communications with the NSCC do not traverse the connectivity infrastructure between the System and the POP.

• • • **Supplementary Material** • • •

.01 Backup System Connectivity.

The Exchange does not offer connectivity from the IEX POP to the Exchange's backup System. The backup System consumes SIP feeds as the sole market data source, therefore the POP is not required in the backup System. Thus, the Exchange offers connectivity directly at the backup data center.

.02 Latency.

Due to force majeure events and acts of third parties, the Exchange does not guarantee that its connectivity infrastructure will always provide 350 microseconds of inbound latency, including the additional latencies for routable orders as described in Supplementary Material .03 below. The Exchange will periodically monitor such latency, and will make adjustments to the latency as reasonably necessary to achieve consistency with the latency targets as soon as commercially practicable. If the Exchange determines to increase or decrease either the inbound latency or the outbound latency it will submit a rule filing pursuant to Section 19 of the Act.

.03 Latency Experience for Users Sending Routable Orders.

All routable orders sent to the Exchange by Users traverse the 350 microseconds of latency from the POP to the System. Once the System routing logic determines the destinations to route such order, including the Order Book, the routed child orders are subject to the applicable latency to each venue. In the case of routing to the Order Book, the child order is subject to an additional 350 microseconds of latency from the System routing logic to the Order Book. In the case of routing to away trading centers, the child order is subject to the applicable latency from the System to each away trading center without traversing the infrastructure between

the System and the POP. All responses from away trading centers to the System routing logic do not traverse the connectivity infrastructure between the System and the POP.

Rule 11.620. Consolidated Audit Trail - Clock Synchronization

(a) Clock Synchronization

(1) Each Industry Member shall synchronize its Business Clocks, other than such Business Clocks used solely for Manual Order Events or used solely for the time of allocation on Allocation Reports, at a minimum to within a fifty (50) millisecond tolerance of the time maintained by the atomic clock of the National Institute of Standards and Technology ("NIST"), and maintain such synchronization.

(2) Each Industry Member shall synchronize (A) its Business Clocks used solely for Manual Order Events and (B) its Business Clocks used solely for the time of allocation on Allocation Reports at a minimum to within a one second tolerance of the time maintained by the NIST atomic clock, and maintain such synchronization.

(3) The tolerance for paragraphs (a)(1) and (2) of this Rule includes all of the following:

- (A) The difference between the NIST atomic clock and the Industry Member's Business Clock;
- (B) The transmission delay from the source; and
- (C) The amount of drift of the Industry Member's Business Clock.

(4) Business Clocks must be synchronized every business day before market open to ensure that timestamps for Reportable Events are accurate. To maintain clock synchronization, Business Clocks must be checked against the NIST atomic clock and re-synchronized, as necessary, throughout the day.

(b) Documentation

Industry Members must document and maintain their synchronization procedures for Business Clocks. Industry Members must keep a log of the times when they synchronize their Business Clocks and the results of the synchronization process. This log should include notice of any time a Business Clock drifts more than the applicable tolerance specified in paragraph (a) of this Rule. Such log must include results for a period of not less than five years ending on the then current date, or for the entire period for which the Industry Member has been required to comply with this Rule if less than five years.

(c) Certification

Each Industry Member shall certify to the Exchange that its Business Clocks satisfy the synchronization requirements set forth in paragraph (a) of this Rule periodically in accordance with the certification schedule established by the Operating Committee pursuant to the CAT NMS Plan.

(d) Violation Reporting

Each Industry Member with Business Clocks must report to the Plan Processor and the Exchange violations of paragraph (a) of this Rule pursuant to the thresholds set by the Operating Committee pursuant to the CAT NMS Plan.

CHAPTER 14. IEX LISTING RULES

Rule 14.001. The Qualification, Listing, and Delisting of Companies

Chapter 14 contains rules related to the qualification, listing and delisting of Companies on the Exchange

The IEX Rule Series 14.100 discusses IEX's general regulatory authority. The IEX Rule Series 14.200 sets forth the procedures and prerequisites for gaining a listing on IEX, as well as the disclosure obligations of listed Companies. The IEX Rule Series 14.300 contains the specific quantitative listing requirements. The corporate governance requirements are contained in the IEX Rule Series 14.400. The consequences of a failure to meet IEX's listing standards are contained in the IEX Rule Series 14.500. Company listing fees are described in the IEX Rule Series 14.600. Special listing requirements for securities other than common or preferred stock and warrants are contained in Chapter 16.

The Exchange exercises other authorities important to listed Companies pursuant to its Rules. For example, the Exchange may close markets upon request of the SEC (see IEX Rule 11.110(c)). It may also halt the trading of a Company's securities under certain circumstances and pursuant to established procedures (see IEX Rule 11.280). These authorities are exercised primarily by IEX Regulation and are contained in Chapter 11.

IEX and the Financial Industry Regulatory Authority, Inc. ("FINRA") are parties to a regulatory contract pursuant to which FINRA has agreed to perform certain functions described in the IEX Rules and on behalf of IEX. Notwithstanding the fact that IEX has entered into the regulatory contract with FINRA to perform some of IEX's functions, IEX shall retain ultimate legal responsibility for, and control of, such functions.

- (22) “Member” means a broker or dealer admitted to membership in the Exchange.
- (23) “Other Regulatory Authority” means: (i) in the case of a bank or savings authority identified in Section 12(i) of the Act, the agency vested with authority to enforce the provisions of Section 12 of the Act; or (ii) in the case of an insurance company that is subject to an exemption issued by the Commission that permits the listing of the security, notwithstanding its failure to be registered pursuant to section 12(b), the Commissioner of Insurance (or other officer or agency performing a similar function) of its domiciliary state.

However, a Reverse Merger does not include a business combination described in IEX Rule 14.102(a). In determining whether a Company is a shell company, the Exchange will look to a number of factors, including but not limited to: whether the Company is considered a “shell company” as defined in Rule 12b-2 under the Act; what percentage of the Company’s assets are active versus passive; whether the Company generates revenues, and if so, whether the revenues are passively or actively generated; whether the Company’s expenses are reasonably related to the revenues being generated; how many employees support the Company’s revenue-generating business operations; how long the Company has been without material business operations; and whether the Company has publicly announced a plan to begin operating activities or generate revenues, including through a near-term acquisition or transaction.
- (28) “Round Lot” or “Normal Unit of Trading” means 100 shares of a security unless, with respect to a particular security, the Exchange determines that a normal unit of trading shall constitute other than 100 shares. A Substitution Listing Event also includes the replacement of, or any significant modification to, the index, portfolio or Reference Asset underlying a security listed under Chapter 16 of the IEX Rules (including, but not limited to, a significant modification to the index methodology, a change in the index provider, or a change in control of the index provider).

Rule 14.100. IEX’s Regulatory Authority

Rule 14.101. IEX’s Regulatory Authority

The Exchange is entrusted with the authority to preserve and strengthen the quality of and public confidence in its market. The Exchange stands for integrity and ethical business practices in order to enhance investor confidence, thereby contributing to the financial health of the economy and supporting the capital formation process. Exchange Companies, from new public Companies to Companies of international stature, are publicly recognized as sharing these important objectives.

The Exchange, therefore, in addition to applying the enumerated criteria set forth in Chapters 14 and 16, has broad discretionary authority over the initial and continued listing of securities on the Exchange in order to maintain the quality, transparency and integrity of and public confidence in its market; to prevent fraudulent and manipulative acts and practices; to promote just and equitable principles of trade; to protect investors and the public interest; and to protect the safety and security of the Exchange and its employees. The Exchange may use such discretion to deny initial listing, apply additional or more stringent criteria for the initial or continued listing of particular securities, or suspend or delist particular securities based on any event, condition, or circumstance that exists or occurs that makes initial or continued listing of the securities on the Exchange inadvisable or unwarranted in the opinion of the Exchange, even though the securities meet all enumerated criteria for initial or continued listing on the Exchange. In the event that the Exchange Staff makes a determination to suspend or deny continued listing pursuant to its discretionary authority, the Company may seek review of that determination through the procedures set forth in the IEX Rule Series 14.500.

• • • **Supplementary Material** • • •

.01 Use of Discretionary Authority.

To further Companies' understanding of this IEX Rule, the Exchange has adopted this Supplementary Material .01 as a non-exclusive description of the circumstances in which the Rule is generally invoked.

The Exchange may use its authority under this IEX Rule to deny initial or continued listing to a Company when an individual with a history of regulatory misconduct is associated with the Company. Such individuals are typically an officer, director, Substantial Shareholder (as defined in IEX Rule 14.412(e)(3)), or consultant to the Company. In making this determination, the Exchange will consider a variety of factors, including:

- (a) the nature and severity of the conduct, taken in conjunction with the length of time since the conduct occurred;*
- (b) whether the conduct involved fraud or dishonesty;*
- (c) whether the conduct was securities-related;*
- (d) whether the investing public was involved;*
- (e) how the individual has been employed since the violative conduct;*
- (f) whether there are continuing sanctions (either criminal or civil) against the individual;*
- (g) whether the individual made restitution;*
- (h) whether the Company has taken effective remedial action; and*
- (i) the totality of the individual's relationship to the Company, giving consideration to:*
- (j) the individual's current or proposed position;*
- (k) the individual's current or proposed scope of authority;*
- (l) the extent to which the individual has responsibility for financial accounting or reporting; and*
- (m) the individual's equity interest.*

Based on this review, the Exchange may determine that the regulatory history rises to the level of a public interest concern, but may also consider whether remedial measures proposed by the Company, if taken, would allay that concern. Examples of such remedial measures could include any or all of the following, as appropriate:

- (1) the individual's resignation from officer and director positions, and/or other employment with the Company;*
- (2) divestiture of stock holdings;*
- (3) terminations of contractual arrangements between the Company and the individual; or*
- (4) the establishment of a voting trust surrounding the individual's shares.*

The Exchange staff is willing to discuss with Companies, on a case-by-case basis, what remedial measures may be appropriate to address public interest concerns, and for how long such remedial measures would be required. Alternatively, the Exchange may conclude that a public interest concern is so serious that no remedial measure would be sufficient to alleviate it. In the event that the Exchange staff denies continued listing based on such public interest considerations, the Company may seek review of that determination through the procedures set forth in the IEX Rule 14.500 Series. On consideration of such appeal, a listing qualifications

panel comprised of persons independent of the Exchange may accept, reject or modify the staff's recommendations by imposing conditions.

The Exchange may also use its discretionary authority, for example, when a Company files for protection under any provision of the federal bankruptcy laws or comparable foreign laws, when a Company's independent accountants issue a disclaimer opinion on financial statements required to be audited, or when financial statements do not contain a required certification.

In addition, pursuant to its discretionary authority, the Exchange will review the Company's past corporate governance activities. This review may include activities taking place while the Company is listed on the Exchange or an exchange that imposes corporate governance requirements, as well as activities taking place after a formerly listed company is no longer listed on the Exchange or such an exchange. Based on such review, and in accordance with the IEX Rule 14.500 Series, the Exchange may take any appropriate action, including placing restrictions on or additional requirements for listing, or denying listing of a security, if the Exchange determines that there have been violations or evasions of such corporate governance standards. Such determinations will be made on a case-by-case basis as necessary to protect investors and the public interest.

Although the Exchange has broad discretion under this IEX Rule to impose additional or more stringent criteria, this IEX Rule does not provide a basis for the Exchange to grant exemptions or exceptions from the enumerated criteria for initial or continued listing, which may be granted solely pursuant to IEX Rules explicitly providing such authority.

(Amended by SR-IEX-2017-14 eff. June 12, 2017).

Rule 14.102. Change of Control, Bankruptcy, Liquidation, and Reverse Mergers

(a) Business Combinations with non-IEX Entities Resulting in a Change of Control.

A Company must apply for initial listing in connection with a transaction whereby the Company combines with, or into, an entity that is not an IEX Company, resulting in a change of control of the Company and potentially allowing such entity to obtain an Exchange Listing. In determining whether a change of control has occurred, the Exchange shall consider all relevant factors including, but not limited to, changes in the management, board of directors, voting power, ownership, and financial structure of the Company. The Exchange shall also consider the nature of the businesses and the relative size of the IEX Company and the entity that is not an IEX Company. The Company must submit an application for the post-transaction entity with sufficient time to allow the Exchange to complete its review before the transaction is completed. If the Company's application for initial listing has not been approved prior to consummation of the transaction, the Exchange will issue a Staff Delisting Determination and begin delisting proceedings pursuant to IEX Rule 14.500.

(b) Bankruptcy and Liquidation.

The Exchange may use its discretionary authority under Chapter 14 to suspend or terminate the listing of a Company that has filed for protection under any provision of the federal bankruptcy laws or comparable foreign laws, or has announced that liquidation has been authorized by its board of directors and that it is committed to proceed, even though the Company's securities otherwise meet all enumerated criteria for continued listing on the Exchange. In the event that the Exchange determines to continue the listing of such a Company during a bankruptcy reorganization, the Company shall nevertheless be required to satisfy all requirements for initial listing, including the payment of initial listing fees, upon emerging from bankruptcy proceedings.

(c) Reverse Mergers

- (1) A Company that is formed by a Reverse Merger (a “Reverse Merger Company”) shall be eligible to submit an application for initial listing only if the combined entity has, immediately preceding the filing of the initial listing application:
 - (A) traded for at least one year in the U.S. over-the-counter market, on another national securities exchange, or on a regulated foreign exchange, following the filing with the Commission or Other Regulatory Authority of all required information about the transaction, including audited financial statements for the combined entity; and
 - (B) maintained a closing bid price of \$4 per share or higher for a sustained period of time, but in no event for less than 30 of the most recent 60 trading days.
- (2) In addition to satisfying all of the Exchange’s other initial listing requirements, a Reverse Merger Company will only be approved for listing if, at the time of approval, it has:
 - (A) timely filed all required periodic financial reports with the Commission or Other Regulatory Authority (Forms 10-Q, 10-K, or 20-F) for the prior year, including at least one annual report. The annual report must contain audited financial statements for a full fiscal year commencing after filing the information described in paragraph (1)(A) above; and
 - (B) maintained a closing bid price of \$4 per share or higher for a sustained period of time, but in no event for less than 30 of the most recent 60 trading days prior to approval.
- (3) A Reverse Merger Company will not be subject to the requirements of this IEX Rule if, in connection with its listing, it completes a firm commitment underwritten public offering where the gross proceeds to the Reverse Merger Company will be at least \$40 million. In addition, a Reverse Merger Company will no longer be subject to the requirements of this IEX Rule once it has satisfied the one-year trading requirement contained in paragraph (1)(A) above and has filed at least four annual reports with the Commission or Other Regulatory Authority containing all required audited financial statements for a full fiscal year commencing after filing the information described in that paragraph. In either case described in this paragraph (3), the Reverse Merger Company must satisfy all applicable requirements for initial listing, including the minimum bid price requirement and the requirement contained in IEX Rule 14.203(e) that the Company not be delinquent in its filing obligation with the Commission or Other Regulatory Authority.

Rule 14.200. General Procedures and Prerequisites for Initial and Continued Listing on the Exchange.

Rule 14.201. Confidential Pre-Application Review of Eligibility

- (a) A Company seeking the initial listing of one or more classes of securities on the Exchange must participate in a free confidential pre-application eligibility review by the Exchange in order to determine whether it meets the Exchange’s listing criteria. If, upon completion of this review, the Exchange determines that a company is eligible for listing, the Exchange will notify that company in writing (the “clearance letter”) that it has been cleared to submit an original listing application. A clearance letter is valid for nine months from its date of issuance. If a company does not list within that nine month period and wishes to list thereafter, the Exchange will perform another confidential listing

eligibility review as a condition to the issuance of a new clearance letter. Once a Company has cleared such review, it may file an original listing application pursuant to IEX Rule 14.202.

- (b) Preliminary discussions with the Exchange on important matters in connection with the confidential pre-application eligibility review may be undertaken by Company officials interested in listing with the assurance that careful security measures have been adopted by the Exchange to avoid revealing any confidential information which the Company may disclose.

The information needed for the purpose of conducting a confidential pre-eligibility review is set forth in IEX Rules 14.202, 14.203, and Chapter 14 generally.

Rule 14.202. The Applications and Qualifications Process

- (a) After receiving a clearance letter pursuant to IEX Rule 14.201, a company choosing to list must file an original listing application. To apply for listing on the Exchange, a Company shall execute a Listing Agreement and a Listing Application on the forms designated by the Exchange providing the information required by Section 12(b) of the Act.
- (b) A Company's compliance with the initial listing criteria will be determined on the basis of the Company's most recent information filed with the Commission or Other Regulatory Authority and information provided to the Exchange. The Company shall certify, at or before the time of listing, that all applicable listing criteria have been satisfied.
- (c) A Company's qualifications will be determined on the basis of financial statements that are either: (i) prepared in accordance with U.S. generally accepted accounting principles; or (ii) reconciled to U.S. generally accepted accounting principles as required by the Commission's rules; or (iii) prepared in accordance with International Financial Reporting Standards, as issued by the International Accounting Standards Board, for Companies that are permitted to file financial statements using those standards consistent with the Commission's rules.
- (d) A Company that has applied for initial listing on the Exchange shall file with the Exchange all reports and other documents filed or required to be filed with the Commission or Other Regulatory Authority. This requirement is satisfied by publicly filing documents through the EDGAR System. All required reports must be filed with the Exchange on or before the date they are required to be filed with the Commission or Other Regulatory Authority. Annual reports filed with the Exchange shall contain audited financial statements.
- (e) The Exchange may request any information or documentation, public or non-public, deemed necessary to make a determination regarding a security's initial listing, including, but not limited to, any material provided to or received from the Commission or Other Regulatory Authority. A Company's security may be denied listing if the Company fails to provide such information within a reasonable period of time or if any communication to the Exchange contains a material misrepresentation or omits material information necessary to make the communication to the Exchange not misleading.
- (f) All forms and applications relating to listing of securities on the Exchange referenced in Chapter 14 are available from the Exchange's Regulation Department.
- (g) The computation of Publicly Held Shares and Market Value of Publicly Held Shares shall be as of the date of application of the Company.

- (h) An account of a Member that is beneficially owned by a customer (as defined in IEX Rule 1.160(j)) will be considered a holder of a security upon appropriate verification by the Member.
- (i) A Company may withdraw its application for initial listing at any time.

Rule 14.203. Prerequisites for Applying to List on the Exchange

All Companies applying to list on IEX must meet the following prerequisites:

- (a) Registration under 12(b) of the Act. A security shall be eligible for listing on IEX provided that it is: (i) registered pursuant to Section 12(b) of the Act; or (ii) subject to an exemption issued by the Commission that permits the listing of the security notwithstanding its failure to be registered pursuant to Section 12(b).
- (b) Auditor Registration. Each Company applying for initial listing must be audited by an independent public accountant that is registered as a public accounting firm with the Public Company Accounting Oversight Board, as provided for in Section 102 of the Sarbanes-Oxley Act of 2002 [15 U.S.C. 7212].
- (c) Direct Registration Program. All securities initially listing on IEX, except securities which are book-entry only, must be eligible for a Direct Registration Program operated by a clearing agency registered under Section 17A of the Act. A foreign issuer, as defined under Rule 3b-4 under the Act, including a Foreign Private Issuer, shall not be subject to this requirement if it submits to IEX a written statement from an independent counsel in such Company's home country certifying that a law or regulation in the home country prohibits compliance.
- (d) Fees. The Company is required to pay all applicable fees as described in IEX Rule Series 14.600.
- (e) Good Standing. No security shall be approved for listing that is delinquent in its filing obligation with the Commission or Other Regulatory Authority or suspended from trading by the Commission pursuant to Section 12(k) of the Act or by the appropriate regulatory authorities of the Company's country of domicile.
- (f) Exchange Certification. Upon approval of a listing application, the Exchange shall certify to the Commission, pursuant to Section 12(d) of the Act and the rules thereunder, that it has approved the security for listing and registration. Listing can commence only upon effectiveness of the security's registration pursuant to Section 12(d).
- (g) Security Depository.
 - (1) "Securities Depository" means a securities depository registered as a clearing agency under Section 17A of the Act.
 - (2) For initial listing, a security shall have a CUSIP number or foreign equivalent identifying the securities included in the file of eligible issues maintained by a Securities Depository in accordance with the rules and procedures of such securities depository. This subparagraph shall not apply to a security if the terms of the security do not and cannot be reasonably modified to meet the criteria for depository eligibility at all Securities Depositories.
 - (3) A Security Depository's inclusion of a CUSIP number or foreign equivalent identifying a security in its file of eligible issues does not render the security "depository eligible" until:

- (A) in the case of any new issue distributed by an underwriting syndicate on or after the date a Securities Depository system for monitoring repurchases of distributed shares by the underwriting syndicate is available, the date of the commencement of trading in such security on the Exchange; or
- (B) in the case of any new issue distributed by an underwriting syndicate prior to the date a Securities Depository system for monitoring repurchases of distributed shares by the underwriting syndicate is available where the managing underwriter elects not to deposit the securities on the date of the commencement of trading in such security on the Exchange, such later date designated by the managing underwriter in a notification submitted to the Securities Depository; but in no event more than three (3) months after the commencement of trading in such security on the Exchange.

(h) Limited Partnerships. No security issued in a limited partnership rollup transaction (as defined by Section 14(h) of the Act), shall be eligible for listing unless:

- (1) the rollup transaction was conducted in accordance with procedures designed to protect the rights of limited partners as provided in Section 6(b)(9) of the Act, as it may from time to time be amended, and
- (2) a broker-dealer that is a member of a national securities association subject to Section 15A(b)(12) of the Act participates in the rollup transaction.

The Company shall further provide an opinion of counsel stating that such broker-dealer's participation in the rollup transaction was conducted in compliance with the rules of a national securities association designed to protect the rights of limited partners, as specified in the Limited Partnership Rollup Reform Act of 1993.

In addition to any other applicable requirements, each limited partnership listed on the Exchange shall have a corporate general partner or co-general partner that satisfies the Independent Director and audit committee requirements set forth in the IEX Rule 14.400 Series.

Note: The only currently existing national securities association subject to Section 15A(b)(12) of the Act is FINRA. Its rules designed to protect the rights of limited partners, pursuant to the Limited Partnership Rollup Reform Act of 1993, are specified in FINRA Rule 2310.

(i) Reverse Mergers. A security issued by a Company formed by a Reverse Merger shall be eligible for initial listing only if the conditions set forth in IEX Rule 14.102(c) are satisfied.

Rule 14.204. American Depositary Receipts

(a) Eligibility. American Depositary Receipts can be listed on the Exchange provided they represent shares in a non-Canadian foreign Company.

(b) Computations. In the case of American Depositary Receipts, annual income from continuing operations and Stockholders' Equity shall relate to the foreign issuer and not to any depository or any other person deemed to be an issuer for purposes of Form S-12 under the Securities Act of 1933. The underlying security will be considered when determining annual income from continuing operations, Publicly Held Shares, Market Value of Publicly Held Shares, Stockholders' Equity, Round Lot or Public Holders, operating history, Market Value of Listed Securities, and total assets and total revenue.

Rule 14.205. Additional Requirements for IEX-Listed Securities Issued by the Exchange or its Affiliates

(a) For purposes of this IEX Rule 14.205, the terms below are defined as follows:

- (1) "IEX Affiliate" means IEX and any entity that directly or indirectly, through one or more intermediaries, controls, is controlled by, or is under common control with IEX, where "control" means that the one entity possesses, directly or indirectly, voting control of the other entity either through ownership of capital stock or other equity securities or through majority representation on the board of directors or other management body of such entity.
- (2) "Affiliate Security" means any security issued by an IEX Affiliate, with the exception of Portfolio Depository Receipts and Index Fund Shares as defined in Chapter 16.

(b) Upon initial and throughout continued listing of the Affiliate Security on IEX, IEX shall

- (1) file a report quarterly with the Commission detailing IEX's monitoring of:
 - (A) the IEX Affiliate's compliance with the listing requirements contained in Chapter 14; and
 - (B) the trading of the Affiliate Security, which shall include summaries of all related surveillance alerts, complaints, regulatory referrals, trades canceled or adjusted pursuant to IEX Rule 11.270, investigations, examinations, formal and informal disciplinary actions, exception reports and trading data of such security.
- (2) engage an independent accounting firm once a year to review and prepare a report on the Affiliate Security to ensure that the IEX Affiliate is in compliance with the listing requirements contained in Chapter 14 and promptly forward to the Commission a copy of the report prepared by the independent accounting firm.

(c) In the event that IEX determines that the IEX Affiliate is not in compliance with any of the listing requirements contained in Chapter 14, IEX shall file a report with the Commission within five business days of providing notice to the IEX Affiliate of its non-compliance. The report shall identify the date of non-compliance, type of non-compliance and any other material information conveyed to the IEX Affiliate in the notice of non-compliance. Within five business days of receipt of a plan of compliance from the IEX Affiliate, IEX shall notify the Commission of such receipt, whether the plan of compliance was accepted by IEX or what other action was taken with respect to the plan and the time period provided to regain compliance with Chapter 14, if any.

Rule 14.206. Listing Requirements for Units

(a) Initial and Continued Listing Requirements

- (1) All units shall have at least one equity component. All components of such units shall satisfy the requirements for initial and continued listing as IEX Listed securities, or, in the case of debt components, satisfy the requirements of paragraph (a)(2) below.
- (2) All debt components of a unit, if any, shall meet the following requirements:

- (A) the debt issue must have an aggregate market value or principal amount of at least \$5 million;
 - (B) in the case of convertible debt, the equity into which the debt is convertible must itself be subject to real-time last sale reporting in the United States, and the convertible debt must not contain a provision which gives the company the right, at its discretion, to reduce the conversion price for periods of time or from time to time unless the company establishes a minimum period of ten business days within which such price reduction will be in effect.
- (3) All components of the unit shall be issued by the same issuer. All units and issuers of such units shall comply with the initial and continued listing requirements of the Exchange.

(b) Minimum Listing Period and Notice of Withdrawal

In the case of units, the minimum listing period of the units shall be 30 days from the first day of listing, except the period may be shortened if the units are suspended or withdrawn for regulatory purposes. Companies and underwriters seeking to withdraw units from listing must provide the Exchange with notice of such intent at least 15 days prior to withdrawal.

(c) Disclosure Requirements for Units

Each Exchange issuer of units shall include in its prospectus or other offering document used in connection with any offering of securities that is required to be filed with the Commission under the federal securities laws and the rules and regulations promulgated thereunder a statement regarding any intention to delist the units immediately after the minimum inclusion period. The issuer of a unit shall further provide information regarding the terms and conditions of the components of the unit (including information with respect to any original issue discount or other significant tax attributes of any component) and the ratio of the components comprising the unit. A Company shall also disclose when a component of the unit is separately listed on the Exchange. These disclosures shall be made on the Company's website, or if it does not maintain a website, in its annual report provided to unit holders. A Company shall also immediately make a public announcement by filing a Form 8-K, where required by SEC rules, or by issuing a press release disclosing, any change in the terms of the unit, such as changes to the terms and conditions of any of the components (including changes with respect to any original issue discount or other significant tax attributes of any component), or to the ratio of the components within the unit. Such public announcement shall be made as soon as practicable in relation to the effective date of the change.

(d) Market Makers

- (1) For initial inclusion, a unit shall have at least three registered and active Market Makers.
- (2) For continued listing, a unit shall have at least two registered and active Market Makers, one of which may be a Market Maker entering a stabilizing bid.

Rule 14.207. Obligations for Companies Listed on the Exchange

(a) Obligation to Provide Information to the Exchange

- (1) The Exchange may request any additional information or documentation, public or non-public, deemed necessary to make a determination regarding a Company's continued listing, including, but not limited to, any material provided to or received from the Commission or Other Regulatory Authority. A Company may be

denied continued listing if it fails to provide such information within a reasonable period of time or if any communication to the Exchange contains a material misrepresentation or omits material information necessary to make the communication to the Exchange not misleading. The Company shall provide full and prompt responses to requests by the Exchange or by FINRA acting on behalf of the Exchange for information related to unusual market activity or to events that may have a material impact on trading of its securities on the Exchange.

- (2) As set forth in IEX Rule 14.410, a Company must provide the Exchange with prompt notification after an Executive Officer of the Company becomes aware of any noncompliance by the Company with the requirements of the Rule 14.400 Series.

(b) Obligation to Make Public Disclosure

- (1) Disclosure of Material Information

Except in unusual circumstances, an Exchange-listed Company shall make prompt disclosure to the public through any Regulation FD compliant method (or combination of methods) of disclosure of any material information that would reasonably be expected to affect the value of its securities or influence investors' decisions. The Company shall, prior to the release of the information, provide notice of such disclosure to the Exchange's Regulation Department at least ten minutes prior to public announcement if the information involves any of the events set forth in Supplementary Material .01 to this IEX Rule and the public release of the material information is made during System Hours (as defined in IEX Rule 1.160(oo)). If the public release of the material information is made outside of System Hours, Exchange Companies must notify the Exchange's Regulation Department of the material information at least 10 minutes prior to the start of System Hours (as defined in IEX Rule 1.160(oo)). As described in Supplementary Material .01 to this IEX Rule, prior notice to the Exchange's Regulation Department must be made through the electronic disclosure submission system available at the Exchange's Web site, except in emergency situations.

- (2) Disclosure of Notification of Deficiency

As set forth in IEX Rule 14.501(c), a listed Company that receives a notification of deficiency from the Exchange is required to make a public announcement by filing a Form 8-K, where required by SEC rules, or by issuing a press release disclosing receipt of the notification and the Rule(s) upon which the deficiency is based, and describing each specific basis and concern identified by the Exchange in reaching its determination that the Company does not meet the listing standard. However, note that in the case of a deficiency related to the requirement to file a periodic report contained in IEX Rule 14.207(c)(1) or (2), the Company is required to make the public announcement by issuing a press release. As described in IEX Rule 14.207(b)(1) above and Supplementary Material .01 below, the Company must notify the Exchange's Regulation Department about the announcement through the electronic disclosure submission system available on the Exchange's Web site, except in emergency situations when notification may instead be provided by telephone or facsimile. If the public announcement is made during System Hours (as defined in IEX Rule 1.160(oo)), the Company must notify the Exchange's Regulation Department at least ten minutes prior to the announcement. If the public announcement is made outside of System Hours (as defined in IEX Rule 1.160(oo)), the Company must notify the Exchange's Regulation Department of the announcement at least ten minutes prior to the start of System Hours (as defined in IEX Rule 1.160(oo)).

- (3) Disclosure of Third Party Director and Nominee Compensation

Companies must disclose all agreements and arrangements in accordance with

this rule by no later than the date on which the Company files or furnishes a proxy or information statement subject to Regulation 14A or 14C under the Act in

connection with the Company's next shareholders' meeting at which directors are elected (or, if they do not file proxy or information statements, no later than when the Company files its next Form 10-K or Form 20-F).

- (A) A Company shall disclose either on or through the Company's website or in the proxy or information statement for the next shareholders' meeting at which directors are elected (or, if the Company does not file proxy or information statements, in its Form 10-K or 20-F), the material terms of all agreements and arrangements between any director or nominee for director, and any person or entity other than the Company (the "Third Party"), relating to compensation or other payment in connection with such person's candidacy or service as a director of the Company. A Company need not disclose pursuant to this rule agreements and arrangements that: (i) relate only to reimbursement of expenses in connection with candidacy as a director; (ii) existed prior to the nominee's candidacy (including as an employee of the other person or entity) and the nominee's relationship with the Third Party has been publicly disclosed in a proxy or information statement or annual report (such as in the director or nominee's biography); or (iii) have been disclosed under Item 5(b) of Schedule 14A of the Act or Item 5.02(d)(2) of Form 8-K in the current fiscal year. Disclosure pursuant to Commission rule shall not relieve a Company of its annual obligation to make disclosure under subparagraph (B).
- (B) A Company must make the disclosure required in subparagraph (A) at least annually until the earlier of the resignation of the director or one year following the termination of the agreement or arrangement.
- (C) If a Company discovers an agreement or arrangement that should have been disclosed pursuant to subparagraph (A) but was not, the Company must promptly make the required disclosure by filing a Form 8-K or 6-K, where required by SEC rules, or by issuing a press release. Remedial disclosure under this subparagraph, regardless of its timing, does not satisfy the annual disclosure requirements under subparagraph (B).
- (D) A Company shall not be considered deficient with respect to this paragraph for purposes of IEX Rule 14.501 if the Company has undertaken reasonable efforts to identify all such agreements or arrangements, including asking each director or nominee in a manner designed to allow timely disclosure, and makes the disclosure required by subparagraph (C) promptly upon discovery of the agreement or arrangement. In all other cases, the Company must submit a plan sufficient to satisfy Exchange staff that the Company has adopted processes and procedures designed to identify and disclose relevant agreements or arrangements.
- (E) A Foreign Private Issuer may follow its home country practice in lieu of the requirements of IEX Rule 14.207(b)(3) by utilizing the process described in IEX Rule 14.407(a)(3).

(c) Obligation to File Periodic Financial Reports

- (1) A Company shall timely file all required periodic financial reports with the Commission through the EDGAR System or with the Other Regulatory Authority. A Company that does not file through the EDGAR System shall supply to the Exchange two (2) copies of all reports required to be filed with the Other Regulatory Authority or email an electronic version of the report to the Exchange at continuedlisting@IEXtrading.com. All required

reports must be filed with the Exchange on or before the date they are required to be filed with the Commission or Other Regulatory Authority. Annual reports filed with the Exchange shall contain audited financial statements.

(2) Foreign Private Issuer Interim Reports

Each Foreign Private Issuer shall submit on a Form 6-K an interim balance sheet and income statement as of the end of its second quarter. This information, which must be presented in English, but does not have to be reconciled to U.S. GAAP, must be provided no later than six months following the end of the Company's second quarter. In the case of a Foreign Private Issuer that is a limited partnership, such information shall be distributed to limited partners if required by statute or regulation in the jurisdiction in which the limited partnership is formed or doing business or by the terms of the partnership's limited partnership agreement.

(3) Auditor Registration

Each listed Company shall be audited by an independent public accountant that is registered as a public accounting firm with the Public Company Accounting Oversight Board, as provided for in Section 102 of the Sarbanes-Oxley Act of 2002 [15 U.S.C. 7212].

(d) Distribution of Annual and Interim Reports

(1) Distribution of Annual Reports. Each Company (including a limited partnership) shall make available to Shareholders an annual report containing audited financial statements of the Company and its subsidiaries (which, for example, may be on Form 10-K, 20-F, 40-F or N-CSR) within a reasonable period of time following the filing of the annual report with the Commission. A Company may comply with this requirement either:

(A) by mailing the report to Shareholders;

(B) by satisfying the requirements for furnishing an annual report contained in Rule 14a-16 under the Act; or

(C) by posting the annual report to Shareholders on or through the Company's website (or, in the case of a Company that is an investment company that does not maintain its own website, on a website that the Company is allowed to use to satisfy the website posting requirement in Rule 16a-3(k) under the Act), along with a prominent undertaking in the English language to provide Shareholders, upon request, a hard copy of the Company's annual report free of charge. A Company that chooses to satisfy this requirement pursuant to this paragraph (C) must, simultaneous with this posting, issue a press release stating that its annual report has been filed with the Commission (or Other Regulatory Authority). This press release shall also state that the annual report is available on the Company's website and include the website address and that Shareholders may receive a hard copy free of charge upon request. A Company must provide such hard copies within a reasonable period of time following the request.

(2) Distribution of Interim Reports. Exchange Companies that distribute interim reports to Shareholders should distribute such reports to both registered and beneficial Shareholders. Exchange Companies are also encouraged to consider additional technological methods to communicate such information to Shareholders in a timely and less costly manner as such technology becomes available.

(3) Access to Quarterly Reports.

- (A) Each Company that is not a limited partnership (limited partnerships are governed by paragraph (B) below) and is subject to Rule 13a-13 under the Act shall make available copies of quarterly reports including statements of operating results to Shareholders either prior to or as soon as practicable following the Company's filing of its Form 10-Q with the Commission. If the form of such quarterly report differs from the Form 10-Q, the Company shall file one copy of the report with the Exchange in addition to filing its Form 10-Q pursuant to Rule 14.207(c)(1). The statement of operations contained in quarterly reports shall disclose, at a minimum, any substantial items of an unusual or non-recurrent nature and net income before and after estimated federal income taxes or net income and the amount of estimated federal taxes.
- (B) Each Company that is a limited partnership and is subject to Rule 13a-13 under the Act shall make available copies of quarterly reports including statements of operating results to limited partners either prior to or as soon as practicable following the partnership's filing of its Form 10-Q with the Commission. Such reports shall be distributed to limited partners if required by statute or regulation in the state in which the limited partnership is formed or doing business or by the terms of the partnership's limited partnership agreement. If the form of such quarterly report differs from the Form 10-Q, the Company shall file one copy of the report with the Exchange in addition to filing its Form 10-Q pursuant to IEX Rule 14.207(c)(1). The statement of operations contained in quarterly reports shall disclose, at a minimum, any substantial items of an unusual or non-recurrent nature and net income before and after estimated federal income taxes or net income and the amount of estimated federal taxes.

(4) Access to Interim Reports

- (A) Each Company that is not a limited partnership and is not subject to Rule 13a-13 under the Act and that is required to file with the Commission, or Other Regulatory Authority, interim reports relating primarily to operations and financial position, shall make available to Shareholders reports which reflect the information contained in those interim reports. Such reports shall be made available to Shareholders either before or as soon as practicable following filing with the appropriate regulatory authority. If the form of the interim report provided to Shareholders differs from that filed with the regulatory authority, the Company shall file one copy of the report to Shareholders with the Exchange in addition to the report to the regulatory authority that is filed with the Exchange pursuant to IEX Rule 14.207(c)(1).
- (B) Each Company that is a limited partnership that is not subject to Rule 13a-13 under the Act and is required to file with the Commission, or Other Regulatory Authority, interim reports relating primarily to operations and financial position, shall make available to limited partners reports which reflect the information contained in those interim reports. Such reports shall be distributed to limited partners if required by statute or regulation in the state in which the limited partnership is formed or doing business or by the terms of the partnership's limited partnership agreement. Such reports shall be distributed to limited partners either before or as soon as practicable following filing with the appropriate regulatory authority. If the form of the interim report provided to limited partners differs from that filed with the regulatory authority, the Company shall file one copy of the report to limited partners with the Exchange in addition to the report to the regulatory authority that is filed with the Exchange pursuant to IEX Rule 14.207(c)(1).

- (5) A Foreign Private Issuer may follow its home country practice in lieu of the requirements of IEX Rule 14.207(d)(1), (2), (3), or (4) or by utilizing the process described in IEX Rule 14.407(a)(3).

- (6) The Company shall comply with any obligation of any person regarding filing or disclosure of information material to the Company or the security, whether such obligation arises under the securities laws of the United States or the Company's country of domicile, or other applicable federal or state statutes or rules.
- (e) Exchange Notification Requirements. Various corporate events resulting in material changes will trigger the requirement for Companies to submit certain forms and applicable fees to the Exchange as specified below. All applicable forms can be found on the Exchange's Web site.
- (1) Change in Number of Shares Outstanding. The Company shall file, on a form designated by the Exchange no later than 10 days after the occurrence, any aggregate increase or decrease of any class of securities listed on the Exchange that exceeds 5% of the amount of securities of the class outstanding.
- (2) Listing of Additional Shares. A Company shall be required to notify the Exchange, except for a Company solely listing American Depositary Receipts, at least 15 calendar days prior to:
- (A) establishing or materially amending a stock option plan, purchase plan or other equity compensation arrangement pursuant to which stock may be acquired by officers, directors, employees, or consultants without shareholder approval; however the Exchange recognizes that when a Company makes an equity grant to induce an individual to accept employment, as permitted by the exception contained in IEX Rule 14.412(c)(4), it may not be practical to provide the advance notice otherwise required by this IEX Rule. Therefore, when a Company relies on that exception to make such an inducement grant without shareholder approval, it is sufficient to notify the Exchange about the grant and the use of the exception no later than the earlier of: (x) five calendar days after entering into the agreement to issue the securities; or (y) the date of the public announcement of the award required by IEX Rule 14.412(c)(4); or
 - (B) issuing securities that may potentially result in a change of control of the Company; or
 - (C) issuing any common stock or security convertible into common stock in connection with the acquisition of the stock or assets of another company, if any officer or director or Substantial Shareholder of the Company has a 5% or greater interest (or if such persons collectively have a 10% or greater interest) in the Company to be acquired or in the consideration to be paid; or
 - (D) issuing any common stock, or any security convertible into common stock in a transaction that may result in the potential issuance of common stock (or securities convertible into common stock) greater than 10% of either the total shares outstanding or the voting power outstanding on a pre- transaction basis.

The notifications required by this paragraph must be made on the Notification Form: Listing of Additional Shares and the Exchange encourages Companies to file this form as soon as practicable, even if all of the relevant terms are not yet known. The Exchange reviews these forms to determine compliance with applicable IEX Rules, including the shareholder approval requirements. Therefore, if a Company fails to file timely the form required by this paragraph, the Exchange may issue either a Public Reprimand Letter or a Delisting Determination (pursuant to IEX Rule 14.500).

- (3) Record Keeping Change
- (A) The Company shall file on a form designated by the Exchange notification of any change to its name, the par value or title of its security, its symbol, or a similar change, no later than 10 days after the change.

- (B) The Company shall also notify the Exchange promptly in writing, absent any fees, of any change in the general character or nature of its business and any change in the address of its principal executive offices.
- (4) Substitution Listing. The Company shall notify the Exchange of a Substitution Listing Event (other than a re-incorporation or a change to a Company's place of organization) no later than 15 calendar days prior to the implementation of such event by filing the appropriate form as designated by the Exchange. For a re-incorporation or change to a Company's place of organization, a Company shall notify the Exchange as soon as practicable after such event has been implemented by filing the appropriate form as designated by the Exchange.
- (5) Transfer Agent, Registrar, ADR Bank Changes. The issuer of any class of securities listed on the Exchange, except for American Depositary Receipts, shall notify the Exchange promptly in writing of any change in the Company's transfer agent or registrar.
- (6) Dividend Action or Stock Distribution. In the case of any dividend action or action relating to a stock distribution of a listed stock the Company shall, no later than 10 calendar days prior to the record date of such action:
 - (A) Notify the Exchange by filing the appropriate form as designated by the Exchange; and
 - (B) Provide public notice using a Regulation FD compliant method.
 - (C) Notice to the Exchange should be given as soon as possible after declaration and, in any event, no later than simultaneously with the public notice.
- (f) Obligation to Pay Fees. The Company is required to pay all applicable fees as described in the Rule 14.600 Series.

.01 Disclosure of Material Information

(a) General Disclosure Requirements

Rule 14.207(b)(1) requires that, except in unusual circumstances, Exchange Companies disclose promptly to the public through any Regulation FD compliant method (or combination of methods) of disclosure any material information that would reasonably be expected to affect the value of their securities or influence investors' decisions. Exchange Companies must notify the Exchange at least ten minutes prior to the release to the public of material information that involves any of the events set forth below when the public release of the information is made during System Hours (as defined in IEX Rule 1.160(oo)). If the public release of the material information is made outside of System Hours (as defined in IEX Rule 1.160(oo)), Exchange Companies must notify the Exchange's Regulation Department of the material information at least ten minutes prior to the start of System Hours (as defined in IEX Rule 1.160(oo)). Under unusual circumstances Companies may not be required to make public disclosure of material events; for example, where it is possible to maintain confidentiality of those events and immediate public disclosure would prejudice the ability of the Company to pursue its legitimate corporate objectives. However, the Exchange Companies remain obligated to disclose this information to the Exchange upon request pursuant to IEX Rule 14.207(a).

Whenever unusual market activity takes place in an Exchange Company's securities, the Company normally should determine whether there is material information or news which should be disclosed. If rumors or unusual market activity indicate that information on impending developments has become known to the investing public, or if information from a source other than the Company becomes known to the investing public, a clear public announcement may be required as to the state of negotiations or development of Company plans. Such an announcement may be required, even though the Company may not

have previously been advised of such information or the matter has not yet been presented to the Company's Board of Directors for consideration. In certain circumstances, it may also be appropriate to publicly deny false or inaccurate rumors, which are likely to have, or have had, an effect on the trading in its securities or would likely have an influence on investment decisions.

(b) Notification to the Exchange's Regulation Department

Companies must notify the Exchange's Regulation Department prior to the distribution of certain material news at least ten minutes prior to public announcement of the news when the public release of the information is made during System Hours (as defined in IEX Rule 1.160(oo)). If the public release of the material information is made outside of System Hours (as defined in IEX Rule 1.160(oo)), the Company must notify the Exchange's Regulation Department of the material information at least ten minutes prior to the start of System Hours (as defined in IEX Rule 1.160(oo)). Except in emergency situations, this notification must be made through the Exchange's electronic disclosure submission system available on the Exchange's Web site. In emergency situations, Companies may instead provide notification by telephone or facsimile. Examples of an emergency situation include: lack of computer or internet access; technical problems on the Exchange and a material development such that no draft disclosure document exists, but immediate notification to the Exchange's Regulation Department is important based on the material event.

If a Company repeatedly fails to either notify the Exchange at least ten minutes prior to the distribution of material news during System Hours (as defined in IEX Rule 1.160(oo)) or at least ten minutes prior to the start of System Hours (as defined in IEX Rule 1.160(oo)) for material news distributed outside of System Hours (as defined in IEX Rule 1.160(oo)), or repeatedly fails to use the electronic disclosure submission system when the Exchange finds no emergency situation existed, the Exchange may issue a Public Reprimand Letter (as defined in IEX Rule 14.500(b)(5)) or, in extreme cases, a Staff Delisting Determination (as defined in IEX Rule 14.500(b)(7)). In determining whether to issue a Public Reprimand Letter, the Exchange will consider whether the Company has demonstrated a pattern of failures, whether the Company has been contacted concerning previous violations, and whether the Company has taken steps to assure that future violations will not occur.

(c) Trading Halts

A trading halt benefits current and potential Shareholders by halting all trading in any Exchange securities until there has been an opportunity for the information to be disseminated to the public. This decreases the possibility of some investors acting on information known only to them. A trading halt provides the public with an opportunity to evaluate the information and consider it in making investment decisions. It also alerts the marketplace to the fact that news has been released.

The Exchange's Regulation Department monitors real time trading in all Exchange securities during the trading day for price and volume activity. In the event of certain price and volume movements, the Exchange's Regulation Department may contact a Company and its Market Makers in order to ascertain the cause of the unusual market activity. The Exchange's Regulation Department treats the information provided by the Company and other sources in a highly confidential manner, and uses it to assess market activity and assist in maintaining fair and orderly markets. An Exchange listing includes an obligation to disclose to the Exchange's Regulation Department information that the Company is not otherwise disclosing to the investing public or the financial community. On, occasion, changes in market activity prior to the Company's release of material information may indicate that the information has become known to the investing public. Changes in market activity also may occur when there is a release of material information by a source other than the Company, such as when an Exchange Company is subject to an unsolicited take-over bid by another company. Depending on the nature of the event and the Company's views regarding the business advisability of disclosing the information, the Exchange's Regulation Department may work with the Company to accomplish a timely release of the information. Furthermore, depending on the materiality of the information and the anticipated effect of the information on the price of the Company's securities, the Exchange's Regulation Department may advise the Company that a temporary trading halt is appropriate to allow for full dissemination of the information and to maintain an orderly market. The institution of a temporary trading halt pending the release of information is not a reflection on the value of the securities halted. Such trading halts are instituted, among other reasons, to insure that material information is fairly and adequately disseminated to the investing public and the marketplace, and to provide investors with the opportunity to evaluate the information in making investment decisions. A trading halt normally lasts one half hour but may last longer if a determination is made that news has not been adequately disseminated or that the original or an additional basis under IEX Rule 11.280 exists for continuing the trading halt.

The Exchange's Regulation Department is required to keep non-public information, confidential and to use such information only for regulatory purposes.

Companies are required to notify the Exchange's Regulation Department of the release of material information included in the following list of events at least ten minutes prior to the release of such information to the public when the public release of the information is made during System Hours (as defined in IEX Rule 1.160(oo)):

- (1) Financial-related disclosures, including quarterly or yearly earnings, earnings restatements, pre-announcements or "guidance."*
- (2) Corporate reorganizations and acquisitions, including mergers, tender offers, asset transactions and bankruptcies or receiverships.*
- (3) New products or discoveries, or developments regarding customers or suppliers (e.g., significant developments in clinical or customer trials, and receipt or cancellation of a material contract or order).*
- (4) Senior management changes of a material nature or a change in control.*
- (5) Resignation or termination of independent auditors, or withdrawal of a previously issued audit report.*
- (6) Events regarding the Company's securities — e.g., defaults on senior securities, calls of securities for redemption, repurchase plans, stock splits or changes in dividends, changes to the rights of security holders, or public or private sales of additional securities.*
- (7) Significant legal or regulatory developments. Regulation FD*
- (8) Any event requiring the filing of a Form 8-K.*

If the public release of the material information is made outside of System Hours (as defined in IEX Rule 1.160(oo)), Exchange Companies must notify the Exchange's Regulation Department of the material information at least 10 minutes prior to the start of System Hours (as defined in IEX Rule 1.160(oo)). It should also be noted that every development that might be reported to the Exchange in these areas would not necessarily be deemed to warrant a trading halt. In addition to the list of events set forth above, the Exchange encourages Companies to avail themselves of the opportunity for advance notification to the Exchange's Regulation Department in situations where they believe, based upon their knowledge of the significance of the information, that a temporary trading halt may be necessary or appropriate.

.02 Use of Regulation FD Compliant Methods in the Disclosure of Material Information

Regardless of the method of disclosure that a Company chooses to use, Companies are required to notify the Exchange's Regulation Department of the release of material information that involves any of the events set forth above at least ten minutes prior to its release to the public when the public release of the information is made during System Hours (as defined in IEX Rule 1.160 (mm)). If the public release of the material information is made outside of System Hours (as defined in IEX Rule 1.160(oo)), Exchange Companies must notify IEX Regulation of the material information at least 10 minutes prior to the start of System Hours (as defined in IEX Rule 1.160(oo)). When a Company chooses to utilize a Regulation FD compliant method for disclosure other than a press release or Form 8-K, the Company will be required to provide prior notice to the Exchange's Regulation Department of: 1) the press release announcing the logistics of the future disclosure event; and 2) a descriptive summary of the material information to be announced during the disclosure event if the press release does not contain such a summary.

Depending on the materiality of the information and the anticipated effect of the information on the price of the Company's securities, the Exchange's Regulation Department may advise the Company that a temporary trading halt is appropriate to allow for full dissemination of the information and to maintain an orderly market. The Exchange's Regulation Department will assess with Companies using methods of disclosure other than a press release or Form 8-K the timing within the disclosure event when the

Company will cover the material information so that the halt can be commenced accordingly. Companies will be responsible for promptly alerting the Exchange's Regulation Department of any significant changes to the previously outlined disclosure timeline. Companies are reminded that the posting of information on the company's website may not by itself be considered a sufficient method of public disclosure under Regulation FD and SEC guidance and releases thereunder, and as a result, under IEX Rules.

.03 Disclosure of Third Party Director and Nominee Compensation

IEX Rule 14.207(b)(3) requires listed companies to publicly disclose the material terms of all agreements and arrangements between any director or nominee and any person or entity (other than the Company) relating to compensation or other payment in connection with that person's candidacy or service as a director. The terms "compensation" and "other payment" as used in this rule are not limited to cash payments and are intended to be construed broadly.

Subject to exceptions provided in the rule, the disclosure must be made on or through the Company's website or in the proxy or information statement for the next shareholders' meeting at which directors are elected in order to provide shareholders with information and sufficient time to help them make meaningful voting decisions. A Company posting the requisite disclosure on or through its website must make it publicly available no later than the date on which the Company files a proxy or information statement in connection with such shareholders' meeting (or, if they do not file proxy or information statements, no later than when the Company files its next Form 10-K or Form 20-F). Disclosure made available on the Company's website or through it by hyperlinking to another website, must be continuously accessible. If the website hosting the disclosure subsequently becomes inaccessible or that hyperlink inoperable, the company must promptly restore it or make other disclosure in accordance with this rule.

IEX Rule 14.207(b)(3) does not separately require the initial disclosure of newly entered into agreements or arrangements, provided that disclosure is made pursuant to this rule for the next shareholders' meeting at which directors are elected. In addition, for publicly disclosed agreements and arrangements that existed prior to the nominee's candidacy and thus not required to be disclosed in accordance with IEX Rule 14.207(b)(3)(A)(ii) but where the director or nominee's remuneration is thereafter materially increased specifically in connection with such person's candidacy or service as a director of the Company, only the difference between the new and previous level of compensation or other payment obligation needs be disclosed.

All references in this rule to proxy or information statements are to the definitive versions thereof.

(Amended by SR-IEX-2016-19 eff. December 12, 2016).

Rule 14.208. Direct Registration Program

- (a) Except as indicated in paragraph (c) below, all securities listed on the Exchange (except securities which are book-entry only) must be eligible for a Direct Registration Program operated by a clearing agency registered under Section 17A of the Act.
- (b) If a Company establishes or maintains a Direct Registration Program for its Shareholders, the Company shall, directly or through its transfer agent, participate in an electronic link with a clearing agency registered under Section 17A of the Act to facilitate the electronic transfer of securities held pursuant to such program.
- (c) Exemption

A foreign issuer, as defined under Rule 3b-4 under the Act, including a Foreign Private Issuer shall not be subject to this requirement if it submits to the Exchange a written statement from an independent counsel in such Company's home country certifying that a law or regulation in its home country prohibits compliance.

Rule 14.300. Listings Requirements

Rule 14.301. General Listing Requirements

This section contains the initial and continued listing requirements and standards for listing a Company's Primary Equity Security on the Exchange. This section also contains the initial and continued listing requirements for Rights and Warrants, and Preferred and Secondary Classes of Common Stock on the Exchange.

In addition to meeting the quantitative requirements in this section, a Company must meet the requirements of IEX Rule Series 14.200, including the disclosure obligations set forth in IEX Rule 14.207, the Corporate Governance requirements set forth in the IEX Rule Series 14.400, and pay any applicable fees in the IEX Rule Series 14.600. A Company's failure to meet any of the continued listing requirements will be processed in accordance with the provisions set forth in IEX Rule Series 14.500.

For the requirements relating to other securities listed on the Exchange, see Chapter 16.

Rule 14.302. Definitions and Computations

- (a) A Company is affiliated with another Company if that other Company, directly or indirectly through one or more intermediaries, controls, is controlled by, or is under common control of the Company. Control, for these purposes, means having the ability to exercise significant influence. Ability to exercise significant influence will be presumed to exist where the parent or affiliated Company directly or indirectly owns 20% or more of the other Company's voting securities, and also can be indicated by representation on the board of directors, participation in policy making processes, material intercompany transactions, interchange of managerial personnel, or technological dependency.
- (b) In computing Cash Flows, IEX will rely on the net cash provided by operating activities, as reported in the Company's financial information as filed with the Commission in the Company's most recent periodic report and/or registration statement excluding changes in working capital or in operating assets and liabilities.
- (c) In computing income from continuing operations before income taxes, IEX will rely on a Company's financial information as filed with the Commission in the Company's most recent periodic report and/or registration statement.
- (d) In computing the number of Publicly Held Shares, IEX will not consider shares held by an officer, director or 10% or greater Shareholder of the Company.
- (e) In the case of a Company listing in connection with its initial public offering, compliance with the market capitalization requirements of IEX Rules 14.310(b)(2), (3), and (4) will be based on the Company's market capitalization at the time of listing.
- (f) A period of less than three months shall not be considered a Fiscal Year, even if reported as a stub period in the Company's publicly reported financial statements.
- (g) If a Company has less than three years of publicly reported financial data, it may qualify under IEX Rule 14.310(b)(1) if it has (1) reported aggregate income from continuing operations before income taxes of at least \$11 million, and (2) positive income from continuing operations before income taxes in each of the reported fiscal years.
- (h) If a Company has less than three years of publicly reported financial data, it may qualify under IEX Rule 14.310(b)(2) if it has (1) reported aggregate cash flows of at least \$27.5 million, and (2) positive cash flows in each of the reported fiscal years.

- (i) In computing total assets and stockholders' equity for purposes of IEX Rule 14.310(b)(4), IEX will rely on a Company's most recent publicly reported financial statements subject to the adjustments described below:
- (1) Application of Use of Proceeds - If a company is in registration with the SEC and is in the process of an equity offering, adjustments should be made to reflect the net proceeds of that offering, and the specified intended application(s) of such proceeds to:
- (A) Pay off existing debt or other financial instruments: The adjustment will include elimination of the actual historical interest expense on debt or other financial instruments classified as liabilities under generally accepted accounting principles being retired with offering proceeds of all relevant periods or by conversion into common stock at the time of an initial public offering occurring in conjunction with the company's listing. If the event giving rise to the adjustment occurred during a time-period such that pro forma amounts are not set forth in the SEC registration statement (typically, the pro forma effect of repayment of debt will be provided in the current registration statement only with respect to the last fiscal year plus any interim period in accordance with SEC rules), the company must prepare the relevant adjusted financial data to reflect the adjustment to its historical financial data, and its outside audit firm must provide a report of having applied agreed-upon procedures with respect to such adjustments. Such report must be prepared in accordance with the standards established by the American Institute of Certified Public Accountants.
- (B) Fund an acquisition:
- (i) The adjustments will include those applicable with respect to acquisition(s) to be funded with the proceeds. Adjustments will be made that are disclosed as such in accordance with Rule 3-05 "Financial Statements of Business Acquired or to be Acquired" and Article 11 of Regulation S-X. Adjustments will be made for all the relevant periods for those acquisitions for which historical financial information of the acquiree is required to be disclosed in the SEC registration statement; and
- (ii) Adjustments applicable to any period for which pro forma numbers are not set forth in the registration statement shall be accompanied by the relevant adjusted financial data to combine the historical results of the acquiree (or relevant portion thereof) and acquiror, as disclosed in the company's SEC filing. Under SEC rules, the number of periods disclosed depends upon the significance level of the acquiree to the acquiror. The adjustments will include those necessary to reflect (a) the allocation of the purchase price, including adjusting assets and liabilities of the acquiree to fair value recognizing any intangibles (and associated amortization and depreciation), and (b) the effects of additional financing to complete the acquisition. The company must prepare the relevant adjusted financial data to reflect the adjustment to its historical financial data, and its outside audit firm must provide a report of having applied agreed-upon procedures with respect to such adjustments. Such report must be prepared in accordance with the standards established by the American Institute of Certified Public Accountants.
- (2) Acquisitions and Dispositions - In instances other than acquisitions (and related dispositions of part of the acquiree) funded with the use of proceeds, adjustments will be made for those acquisitions and dispositions that are disclosed as such in a company's financial statements in accordance with Rule 3-05 "Financial Statements of Business Acquired or to be Acquired" and Article 11 of Regulation S-X. If the disclosure does not specify pre-tax earnings from continuing operations, minority interest, and equity in the earnings or losses of

investees, then such data must be prepared by the company's outside audit firm for the Exchange's consideration. In this regard, the audit firm would have to issue an independent accountant's report on applying agreed-upon procedures in accordance with the standards established by the American Institute of Certified Public Accountants.

Rule 14.400. Corporate Governance Requirements

Rule 14.401. Background

- (a) In addition to meeting applicable quantitative requirements in IEX Rule Series 14.300, Companies applying to list and listed on the Exchange must meet the qualitative requirements outlined in this IEX Rule Series 14.400. These requirements include rules relating to a Company's board of directors, including audit committees and Independent Director oversight of executive compensation and the director nomination process; code of conduct; shareholder meetings, including proxy solicitation and quorum; review of related party transactions; and shareholder approval, including voting rights. Exemptions to these rules are set forth in IEX Rule 14.407 below.

- (b) The Exchange maintains a website that provides guidance on the applicability of the corporate governance requirements by FAQs and published summaries of anonymous versions of previously issued staff interpretative letters. Companies are encouraged to contact IEX Regulation to discuss any complex issues or transactions. Companies can also submit a request for a written interpretation pursuant to paragraph (c) below.
- (c) Listed companies may request from IEX a written interpretation of the Rules contained in Chapter 14. A response to such request will generally be provided within one-week following receipt by IEX Regulation of all information necessary to respond to the request.

Rule 14.405. Board of Directors and Committees

(a) Definitions

- (1) "Executive Officer" means those officers covered in Rule 16a-1(f) under the Act.
- (2) "Independent Director" means a person other than an Executive Officer or employee of the Company or any other individual having a relationship which, in the opinion of the Company's board of directors, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. For purposes of this IEX Rule, "Family Member" means a person's spouse, parents, children and siblings, whether by blood, marriage or adoption, or anyone residing in such person's home. The following persons shall not be considered independent:
 - (A) a director who is, or at any time during the past three years was, employed by the Company;
 - (B) a director who accepted or who has a Family Member who accepted any compensation from the Company in excess of \$120,000 during any period of twelve consecutive months within the three years preceding the determination of independence, other than the following:
 - (i) compensation for board or board committee service;
 - (ii) compensation paid to a Family Member who is an employee (other than an Executive Officer) of the Company; or
 - (iii) benefits under a tax-qualified retirement plan, or non-discretionary compensation.

Provided, however, that in addition to the requirements contained in this paragraph (B), audit committee members are also subject to additional, more stringent requirements under IEX Rule 14.405(c)(2).

- (C) a director who is a Family Member of an individual who is, or at any time during the past three years was, employed by the Company as an Executive Officer;
- (D) a director who is, or has a Family Member who is, a partner in, or a controlling Shareholder or an Executive Officer of, any organization to which the Company made, or from which the Company received, payments for property or services in the current or any of the past three fiscal years that exceed 5% of the recipient's consolidated gross revenues for that year, or \$200,000, whichever is more, other than the following:
 - (i) payments arising solely from investments in the Company's securities; or

- (ii) payments under non-discretionary charitable contribution matching programs.
- (E) a director of the Company who is, or has a Family Member who is, employed as an Executive Officer of another entity where at any time during the past three years any of the Executive Officers of the Company serve on the compensation committee of such other entity; or
- (F) a director who is, or has a Family Member who is, a current partner of the Company's outside auditor, or was a partner or employee of the Company's outside auditor who worked on the Company's audit at any time during any of the past three years.
- (G) in the case of an investment company, in lieu of paragraphs (A)-(F), a director who is an "interested person" of the Company as defined in Section 2(a)(19) of the Investment Company Act of 1940, other than in his or her capacity as a member of the board of directors or any board committee.

.01 Definition of Independence

It is important for investors to have confidence that individuals serving as Independent Directors do not have a relationship with the listed Company that would impair their independence. The board has a responsibility to make an affirmative determination that no such relationships exist through the application of IEX Rule 14.405(a). IEX Rule 14.405(a) also provides a list of certain relationships that preclude a board finding of independence. These objective measures provide transparency to investors and Companies, facilitate uniform application of the rules, and ease administration. Because IEX does not believe that ownership of Company stock by itself would preclude a board finding of independence, it is not included in the aforementioned objective factors. It should be noted that there are additional, more stringent requirements that apply to directors serving on audit committees, as specified in IEX Rule 14.405(c).

The Rule's reference to the "Company" includes any parent or subsidiary of the Company. The term "parent or subsidiary" is intended to cover entities the Company controls and consolidates with the Company's financial statements as filed with the Commission (but not if the Company reflects such entity solely as an investment in its financial statements). The reference to Executive Officer means those officers covered in Rule 16a-1(f) under the Act. In the context of the definition of Family Member under IEX Rule 14.405(a)(2), the reference to marriage is intended to capture relationships specified in the Rule (parents, children and siblings) that arise as a result of marriage, such as "in-law" relationships.

The three year look-back periods referenced in paragraphs (A), (C), (E) and (F) of the Rule commence on the date the relationship ceases. For example, a director employed by the Company is not independent until three years after such employment terminates.

For purposes of paragraph (A) of the Rule, employment by a director as an Executive Officer on an interim basis shall not disqualify that director from being considered independent following such employment, provided the interim employment did not last longer than one year. A director would not be considered independent while serving as an interim officer. Similarly, for purposes of paragraph (B) of the Rule, compensation received by a director for former service as an interim Executive Officer need not be considered as compensation in determining independence after such service, provided such interim employment did not last longer than one year. Nonetheless, the Company's board of directors still must consider whether such former employment and any compensation received would interfere with the director's exercise of independent judgment in carrying out the responsibilities of a director. In addition, if the director participated in the preparation of the Company's financial statements while serving as an interim Executive Officer IEX Rule 14.405(c)(2)(A)(iii) would preclude service on the audit committee for three years.

Paragraph (B) of the Rule is generally intended to capture situations where a compensation is made directly to (or for the benefit of) the director or a Family Member of the director. For example, consulting or personal service contracts with a director or Family Member of the director would be analyzed under paragraph (B) of the Rule. In addition, political contributions to the campaign of a director or a Family Member of the director would be considered indirect compensation under paragraph (B). Non-preferential

payments made in the ordinary course of providing business services (such as payments of interest or proceeds related to banking services or loans by a Company that is a financial institution or payment of claims on a policy by a Company that is an insurance company), payments arising solely from investments in the Company's securities and loans permitted under Section 13(k) of the Act will not preclude a finding of director independence as long as the payments are non-compensatory in nature. Depending on the circumstances, a loan or payment could be compensatory if, for example, it is not on terms generally available to the public.

Paragraph (D) of the Rule is generally intended to capture payments to an entity with which the director or Family Member of the director is affiliated by serving as a partner, controlling Shareholder or Executive Officer of such entity. Under exceptional circumstances, such as where a director has direct, significant business holdings, it may be appropriate to apply the corporate measurements in paragraph (D), rather than the individual measurements of paragraph (B). Issuers should contact IEX Regulation if they wish to apply the Rule in this manner. The reference to a partner in paragraph (D) is not intended to include limited partners. It should be noted that the independence requirements of paragraph (D) of the Rule are broader than Rule 10A-3(e)(8) under the Act.

Under paragraph (D), a director who is, or who has a Family Member who is, an Executive Officer of a charitable organization may not be considered independent if the Company makes payments to the charity in excess of the greater of 5% of the charity's revenues or \$200,000. However, IEX encourages Companies to consider other situations where a director or their Family Member and the Company each have a relationship with the same charity when assessing director independence.

For purposes of determining whether a lawyer is eligible to serve on an audit committee, Rule 10A-3 under the Act generally provides that any partner in a law firm that receives payments from the issuer is ineligible to serve on that issuer's audit committee. In determining whether a director may be considered independent for purposes other than the audit committee, payments to a law firm would generally be considered under IEX Rule 14.405(a)(2), which looks to whether the payment exceeds the greater of 5% of the recipient's gross revenues or \$200,000; however, if the firm is a sole proprietorship, IEX Rule 14.405(a)(2)(B), which looks to whether the payment exceeds \$120,000, applies.

Paragraph (G) of the Rule provides a different measurement for independence for investment companies in order to harmonize with the Investment Company Act of 1940. In particular, in lieu of paragraphs (A)-(F), a director who is an "interested person" of the Company as defined in Section 2(a)(19) of the Investment Company Act of 1940, other than in his or her capacity as a member of the board of directors or any board committee, shall not be considered independent.

(b) Independent Directors

(1) Majority Independent Board

A majority of the board of directors must be comprised of Independent Directors as defined in IEX Rule 14.405(a)(2). The Company, other than a Foreign Private Issuer, must comply with the disclosure requirements set forth in Item 407(a) of Regulation S-K. A Foreign Private Issuer must disclose in its next annual report (e.g., Form 20-F or 40-F) those directors that the board of directors has determined to be independent under IEX Rule 14.405(a)(2).

(A) Cure Period for Majority Independent Board

If a Company fails to comply with this requirement due to one vacancy, or one director ceases to be independent due to circumstances beyond their reasonable control, the Company shall regain compliance with the requirement by the earlier of its next annual shareholders meeting or one year from the occurrence of the event that caused the failure to comply with this requirement; provided, however, that if the annual shareholders meeting occurs no later than 180 days following the event that caused the failure to comply with this requirement, the Company shall instead have 180 days from such event to regain compliance. A Company relying on this provision shall provide notice to IEX immediately upon learning of the event or circumstance that caused the noncompliance.

• • • **Supplementary Material** • • •

.02 Majority Independent Board

Independent Directors (as defined in IEX Rule 14.405(a)(2)) play an important role in assuring investor confidence. Through the exercise of independent judgment, they act on behalf of investors to maximize shareholder value in the Companies they oversee and guard against conflicts of interest. Requiring that the board be comprised of a majority of Independent Directors empowers such directors to carry out more effectively these responsibilities.

(2) Executive Sessions

Independent Directors must have regularly scheduled meetings at which only Independent Directors are present ("executive sessions").

• • • **Supplementary Material** • • •

.03 Executive Sessions of Independent Directors

Regularly scheduled executive sessions encourage and enhance communication among Independent Directors. It is contemplated that executive sessions will occur at least twice a year, and perhaps more frequently, in conjunction with regularly scheduled board meetings.

(c) Audit Committee Requirements

(1) Audit Committee Charter

Each Company must certify that it has adopted a formal written audit committee charter and that the audit committee will review and reassess the adequacy of the formal written charter on an annual basis. The charter must specify:

- (A) the scope of the audit committee's responsibilities, and how it carries out those responsibilities, including structure, processes and membership requirements;
 - (B) the audit committee's responsibility for ensuring its receipt from the outside auditors of a formal written statement delineating all relationships between the auditor and the Company, actively engaging in a dialogue with the auditor with respect to any disclosed relationships or services that may impact the objectivity and independence of the auditor and for taking, or recommending that the full board take, appropriate action to oversee the independence of the outside auditor;
 - (C) the committee's purpose of overseeing the accounting and financial reporting processes of the Company and the audits of the financial statements of the Company; and
 - (D) the specific audit committee responsibilities and authority set forth in IEX Rule 14.405(c)(3).
-

• • • **Supplementary Material** • • •

.04 Audit Committee Charter

Each Company is required to adopt a formal written charter that specifies the scope of its responsibilities and the means by which it carries out those responsibilities; the outside auditor's accountability to the audit committee; and the audit committee's responsibility to ensure the independence of the outside auditor. Consistent with this, the charter must specify all audit committee responsibilities set forth in Rule 10A-3(b)(2), (3), (4), and (5) under the Act. Rule 10A-3(b)(3)(ii) under the Act requires that each audit committee must establish procedures for the confidential, anonymous submission by employees of the listed Company of concerns regarding questionable accounting or auditing matters. The rights and responsibilities as articulated in the audit committee charter empower the audit committee and enhance its effectiveness in carrying out its responsibilities.

IEX Rule 14.405(c)(3) imposes additional requirements for investment company audit committees that must also be set forth in audit committee charters for these Companies.

(2) Audit Committee Composition

- (A) Each Company must have, and certify that it has and will continue to have, an audit committee of at least three members, each of whom must: (i) be an Independent Director as defined under IEX Rule 14.405(a)(2); (ii) meet the criteria for independence set forth in Rule 10A-3(b)(1) under the Act (subject to the exemptions provided in Rule 10A-3(c) under the Act); (iii) not have participated in the preparation of the financial statements of the Company or any current subsidiary of the Company at any time during the past three years; and (iv) be able to read and understand fundamental financial statements, including a Company's balance sheet, income statement, and cash flow statement. Additionally, each Company must certify that it has, and will continue to have, at least one member of the audit committee who has past employment experience in finance or accounting, requisite professional certification in accounting, or any other comparable experience or background which results in the individual's financial sophistication, including being or having been a chief executive officer, chief financial officer or other senior officer with financial oversight responsibilities.

(B) Non-Independent Director for Exceptional and Limited Circumstances

Notwithstanding paragraph (2)(A)(i), one director who: (i) is not an Independent Director as defined in IEX Rule 14.405(a)(2); (ii) meets the criteria set forth in Section 10A(m)(3) under the Act and the rules thereunder; and (iii) is not currently an Executive Officer or employee or a Family Member of an Executive Officer, may be appointed to the audit committee, if the board, under exceptional and limited circumstances, determines that membership on the committee by the individual is required by the best interests of the Company and its Shareholders. A Company, other than a Foreign Private Issuer, that relies on this exception must comply with the disclosure requirements set forth in Item 407(d)(2) of Regulation S-K. A Foreign Private Issuer that relies on this exception must disclose in its next annual report (e.g., Form 20-F or 40-F) the nature of the relationship that makes the individual not independent and the reasons for the board's determination. A member appointed under this exception may not serve longer than two years and may not chair the audit committee.

• • • Supplementary Material • • •

.05 Audit Committee Composition

Audit committees are required to have a minimum of three members and be comprised only of Independent Directors. In addition to satisfying the Independent Director requirements under IEX Rule 14.405(a)(2), audit committee members must meet the criteria for independence set forth in Rule 10A-3(b)(1) under the Act (subject to the exemptions provided in Rule 10A-3(c) under the Act): they must not accept any consulting, advisory, or other compensatory fee from the Company other than for board service, and they must not be an affiliated person of the Company. As described in Rule 10A-3(d)(1) and (2), a Company must disclose reliance on certain exceptions from Rule 10A-3 and disclose an assessment of whether, and if so, how, such reliance would materially adversely affect the ability of the audit committee to act independently and to satisfy the other requirements of Rule 10A-3. It is recommended also that a Company disclose in its annual proxy (or, if the Company does not file a proxy, in its Form 10-K or 20-F) if any director is deemed eligible to serve on the audit committee but falls outside the safe harbor provisions of Rule 10A-3(e)(1)(ii) under the Act. A director who qualifies as an audit committee financial expert under Item 407(d)(5)(ii) and (iii) of Regulation S-K is presumed to qualify as a financially sophisticated audit committee member under IEX Rule 14.405(c)(2)(A).

(3) Audit Committee Responsibilities and Authority

The audit committee must have the specific audit committee responsibilities and authority necessary to comply with Rule 10A-3(b)(2), (3), (4), and (5) under the Act (subject to the exemptions provided in Rule 10A-3(c) under the Act), concerning responsibilities relating to: (i) registered public accounting firms, (ii) complaints relating to accounting, internal accounting controls or auditing matters, (iii) authority to engage advisers, and (iv) funding as determined by the audit committee. Audit committees for investment companies must also establish procedures for the confidential, anonymous submission of concerns regarding questionable accounting or auditing matters by employees of the investment adviser, administrator, principal underwriter, or any other provider of accounting related services for the investment company, as well as employees of the investment company.

.06 The Audit Committee Responsibilities and Authority

Audit committees must have the specific audit committee responsibilities and authority necessary to comply with Rule 10A-3(b)(2), (3), (4), and (5) under the Act (subject to the exemptions provided in Rule 10A-3(c) under the Act), concerning responsibilities relating to registered public accounting firms; complaints relating to accounting; internal accounting controls or auditing matters; authority to engage advisers; and funding. Audit committees for investment companies must also establish procedures for the confidential, anonymous submission of concerns regarding questionable accounting or auditing matters by employees of the investment adviser, administrator, principal underwriter, or any other provider of accounting related services for the investment company, as well as employees of the investment company.

(4) Cure Periods for Audit Committee

- (A) If a Company fails to comply with the audit committee composition requirement under Rule 10A-3(b)(1) under the Act and IEX Rule 14.405(c)(2)(A) because an audit committee member ceases to be independent for reasons outside the member's reasonable control, the audit committee member may remain on the audit committee until the earlier of its next annual shareholders meeting or one year from the occurrence of the event that caused the failure to comply with this requirement. A Company relying

on this provision must provide notice to IEX immediately upon learning of the event or circumstance that caused the noncompliance.

- (B) If a Company fails to comply with the audit committee composition requirement under IEX Rule 14.405(c)(2)(A) due to one vacancy on the audit committee, and the cure period in paragraph (A) is not otherwise being relied upon for another member, the Company will have until the earlier of the next annual shareholders meeting or one year from the occurrence of the event that caused the failure to comply with this requirement; provided, however, that if the annual shareholders meeting occurs no later than 180 days following the event that caused the vacancy, the Company shall instead have 180 days from such event to regain compliance. A Company relying on this provision must provide notice to IEX immediately upon learning of the event or circumstance that caused the noncompliance.

(5) Exception

At any time when a Company has a class of common equity securities (or similar securities) that is listed on another national securities exchange or national securities association subject to the requirements of Rule 10A-3 under the Act, the listing of classes of securities of a direct or indirect consolidated subsidiary or an at least 50% beneficially owned subsidiary of the Company (except classes of equity securities, other than non-convertible, non-participating preferred securities, of such subsidiary) shall not be subject to the requirements of IEX Rule 14.405(c).

(d) Compensation Committee Requirements

(1) Compensation Committee Charter

Each Company must certify that it has adopted a formal written compensation committee charter and that the compensation committee will review and reassess the adequacy of the formal written charter on an annual basis. The charter must specify:

- (A) the scope of the compensation committee's responsibilities, and how it carries out those responsibilities, including structure, processes and membership requirements;
- (B) the compensation committee's responsibility for determining, or recommending to the board for determination, the compensation of the chief executive officer and all other Executive Officers of the Company;
- (C) that the chief executive officer may not be present during voting or deliberations on his or her compensation; and
- (D) the specific compensation committee responsibilities and authority set forth in IEX Rule 14.405(d)(3).

(2) Compensation Committee Composition

- (A) Each Company must have, and certify that it has and will continue to have, a compensation committee of at least two members. Each committee member must be an Independent Director as defined under IEX Rule 14.405(a)(2). In addition, in affirmatively determining the independence of any director who will serve on the compensation committee of a board of directors, the board of directors must consider all factors specifically relevant to determining whether a director has a relationship to the Company which

is material to that director's ability to be independent from management in connection with the duties of a compensation committee member, including, but not limited to:

- (i) the source of compensation of such director, including any consulting, advisory or other compensatory fee paid by the Company to such director; and
- (ii) whether such director is affiliated with the Company, a subsidiary of the Company or an affiliate of a subsidiary of the Company.

(B) Non-Independent Committee Member under Exceptional and Limited Circumstances

Notwithstanding IEX Rule 14.405(d)(2)(A) above, if the compensation committee is comprised of at least three members, one director who does not meet the requirements of IEX Rule 14.405(d)(2)(A) and is not currently an Executive Officer or employee or a Family Member of an Executive Officer, may be appointed to the compensation committee if the board, under exceptional and limited circumstances, determines that such individual's membership on the committee is required by the best interests of the Company and its Shareholders. A Company that relies on this exception must disclose either on or through the Company's website or in the proxy statement for the next annual meeting subsequent to such determination (or, if the Company does not file a proxy, in its Form 10-K or 20-F), the nature of the relationship and the reasons for the determination. In addition, the Company must provide any disclosure required by Instruction 1 to Item 407(a) of Regulation S-K regarding its reliance on this exception. A member appointed under this exception may not serve longer than two years.

(3) Compensation Committee Responsibilities and Authority

As required by Rule 10C-1(b)(2), (3) and (4)(i)-(vi) under the Act, the compensation committee must have the following specific responsibilities and authority.

- (A) The compensation committee may, in its sole discretion, retain or obtain the advice of a compensation consultant, legal counsel or other adviser.
- (B) The compensation committee shall be directly responsible for the appointment, compensation and oversight of the work of any compensation consultant, legal counsel and other adviser retained by the compensation committee.
- (C) The Company must provide for appropriate funding, as determined by the compensation committee, for payment of reasonable compensation to a compensation consultant, legal counsel or any other adviser retained by the compensation committee.
- (D) The compensation committee may select, or receive advice from, a compensation consultant, legal counsel or other adviser to the compensation committee, other than in-house legal counsel, only after taking into consideration the following factors:
 - (i) the provision of other services to the Company by the person that employs the compensation consultant, legal counsel or other adviser;

- (ii) the amount of fees received from the Company by the person that employs the compensation consultant, legal counsel or other adviser, as a percentage of the total revenue of the person that employs the compensation consultant, legal counsel or other adviser;
- (iii) the policies and procedures of the person that employs the compensation consultant, legal counsel or other adviser that are designed to prevent conflicts of interest;
- (iv) any business or personal relationship of the compensation consultant, legal counsel or other adviser with a member of the compensation committee;
- (v) any stock of the Company owned by the compensation consultant, legal counsel or other adviser; and
- (vi) any business or personal relationship of the compensation consultant, legal counsel, other adviser or the person employing the adviser with an Executive Officer of the Company.

Nothing in this IEX Rule shall be construed: (i) to require the compensation committee to implement or act consistently with the advice or recommendations of the compensation consultant, legal counsel or other adviser to the compensation committee; or (ii) to affect the ability or obligation of a compensation committee to exercise its own judgment in fulfillment of the duties of the compensation committee.

The compensation committee is required to conduct the independence assessment outlined in this IEX Rule with respect to any compensation consultant, legal counsel or other adviser that provides advice to the compensation committee, other than in-house legal counsel. However, nothing in this IEX Rule requires a compensation consultant, legal counsel or other compensation adviser to be independent, only that the compensation committee consider the enumerated independence factors before selecting, or receiving advice from, a compensation adviser. Compensation committees may select, or receive advice from, any compensation adviser they prefer, including ones that are not independent, after considering the six independence factors outlined above.

For purposes of this IEX Rule, the compensation committee is not required to conduct an independence assessment for a compensation adviser that acts in a role limited to the following activities for which no disclosure is required under Item 407(e)(3)(iii) of Regulation S-K: (a) consulting on any broad-based plan that does not discriminate in scope, terms, or operation, in favor of Executive Officers or directors of the Company, and that is available generally to all salaried employees; and/or (b) providing information that either is not customized for a particular issuer or that is customized based on parameters that are not developed by the adviser, and about which the adviser does not provide advice.

(4) Cure Period for Compensation Committee

If a Company fails to comply with the compensation committee composition requirement under IEX Rule 14.405(d)(2)(A) due to one vacancy, or one compensation committee member ceases to be independent due to circumstances beyond the member's reasonable control, the Company shall regain compliance with the requirement by the earlier of its next annual shareholders meeting or one year from the occurrence of the event that caused the failure to comply with this requirement; provided, however, that if the annual shareholders meeting occurs no later than 180 days following the event that caused the failure to comply with this requirement, the Company shall instead have 180 days from such event to regain compliance. A Company relying on this provision shall provide notice to IEX immediately upon learning of the event or circumstance that caused the noncompliance.

(5) Smaller Reporting Companies

A Smaller Reporting Company, as defined in Rule 12b-2 under the Act, is not subject to the requirements of IEX Rule 14.405(d), except that a Smaller Reporting Company must have, and certify that it has and will continue to have, a compensation committee of at least two members, each of whom must be an Independent Director as defined under IEX Rule 14.405(a)(2). A Smaller Reporting Company may rely on the exception in IEX Rule 14.405(d)(2)(B) and the cure period in IEX Rule 14.405(d)(4). In addition, a Smaller Reporting Company must certify that it has adopted a formal written compensation committee charter or board resolution that specifies the content set forth in IEX Rule 14.405(d)(1)(A) through (C). A Smaller Reporting Company does not need to include in its formal written compensation committee charter or board resolution the specific compensation committee responsibilities and authority set forth in IEX Rule 14.405(d)(3).

• • • **Supplementary Material** • • •

.07 Independent Director Oversight of Executive Compensation

Independent oversight of executive officer compensation helps assure that appropriate incentives are in place, consistent with the board's responsibility to act in the best interests of the corporation. Compensation committees are required to have a minimum of two members and be comprised only of Independent Directors as defined under IEX Rule 14.405(a)(2).

In addition, IEX Rule 14.405(d)(2)(A) includes an additional independence test for compensation committee members. When considering the sources of a director's compensation for this purpose, the board should consider whether the director receives compensation from any person or entity that would impair the director's ability to make independent judgments about the Company's executive compensation. Similarly, when considering any affiliate relationship a director has with the Company, a subsidiary of the Company, or an affiliate of a subsidiary of the Company, in determining independence for purposes of compensation committee service, the board should consider whether the affiliate relationship places the director under the direct or indirect control of the Company or its senior management, or creates a direct relationship between the director and members of senior management, in each case of a nature that would impair the director's ability to make independent judgments about the Company's executive compensation. In that regard, while a board may conclude differently with respect to individual facts and circumstances, IEX does not believe that ownership of Company stock by itself, or possession of a controlling interest through ownership of Company stock by itself, precludes a board finding that it is appropriate for a director to serve on the compensation committee. In fact, it may be appropriate for certain affiliates, such as representatives of significant stockholders, to serve on compensation committees since their interests are likely aligned with those of other stockholders in seeking an appropriate executive compensation program.

For purposes of the additional independence test for compensation committee members described in IEX Rule 14.405(d)(2)(A), any reference to the "Company" includes any parent or subsidiary of the Company. The term "parent or subsidiary" is intended to cover entities the Company controls and consolidates with the Company's financial statements as filed with the Commission (but not if the Company reflects such entity solely as an investment in its financial statements).

A Smaller Reporting Company must have a compensation committee with a minimum of two members. Each compensation committee member must be an Independent Director as defined under IEX Rule 14.405(a)(2). In addition, each Smaller Reporting Company must have a formal written compensation committee charter or board resolution that specifies the committee's responsibilities and authority set forth in IEX Rule 14.405(d)(1)(A)-(C). However, in recognition of the fact that Smaller Reporting Companies may have fewer resources than larger Companies, Smaller Reporting Companies are not required to adhere to the additional compensation committee eligibility requirements in IEX Rule 14.405(d)(2)(A), or to incorporate into their formal written compensation committee charter or board resolution the specific compensation committee responsibilities and authority set forth in IEX Rule 14.405(d)(3).

(e) Independent Director Oversight of Director Nominations

- (1) Director nominees must either be selected, or recommended for the Board's selection, either by:
 - (A) Independent Directors constituting a majority of the Board's Independent Directors in a vote in which only Independent Directors participate, or
 - (B) a nominations committee comprised solely of Independent Directors.
- (2) Each Company must certify that it has adopted a formal written charter or board resolution, as applicable, addressing the nominations process and such related matters as may be required under the federal securities laws.
- (3) Non-Independent Committee Member under Exceptional and Limited Circumstances

Notwithstanding IEX Rule 14.405(e)(1)(B) above, if the nominations committee is comprised of at least three members, one director, who is not an Independent Director as defined in IEX Rule 14.405(a)(2) and is not currently an Executive Officer or employee or a Family Member of an Executive Officer, may be appointed to the nominations committee if the board, under exceptional and limited circumstances, determines that such individual's membership on the committee is required by the best interests of the Company and its Shareholders. A Company that relies on this exception must disclose either on or through the Company's website or in the proxy statement for next annual meeting subsequent to such determination (or, if the Company does not file a proxy, in its Form 10-K or 20-F), the nature of the relationship and the reasons for the determination. In addition, the Company must provide any disclosure required by Instruction 1 to Item 407(a) of Regulation S-K regarding its reliance on this exception. A member appointed under this exception may not serve longer than two years.

- (4) Independent Director oversight of director nominations shall not apply in cases where the right to nominate a director legally belongs to a third party. However, this does not relieve a Company's obligation to comply with the committee composition requirements under IEX Rules 14.405(c), (d), and (e).
- (5) This IEX Rule 14.405(e) is not applicable to a Company if the Company is subject to a binding obligation that requires a director nomination structure inconsistent with this IEX Rule and such obligation pre-dates the approval date of this IEX Rule.

• • • **Supplementary Material** • • •

.08 Independent Director Oversight of Director Nominations

Independent Director oversight of nominations enhances investor confidence in the selection of well-qualified director nominees, as well as independent nominees as required by the rules. This IEX Rule is also intended to provide flexibility for a Company to choose an appropriate board structure and reduce resource burdens, while ensuring that Independent Directors approve all nominations.

This IEX Rule does not apply in cases where the right to nominate a director legally belongs to a third party. For example, investors may negotiate the right to nominate directors in connection with an investment in the Company, holders of preferred stock may be permitted to nominate or appoint directors upon certain defaults, or the Company may be a party to a shareholder's agreement that allocates the right to nominate some directors. Because the right to nominate directors in these cases does not reside with the Company, Independent Director approval would not be required. This IEX Rule is not applicable if the Company is subject to a binding obligation that requires a director nomination structure inconsistent with the rule and such obligation pre-dates the approval date of this IEX Rule.

Rule 14.406. Code of Conduct

Each Company shall adopt a code of conduct applicable to all directors, officers and employees, which shall be publicly available. A code of conduct satisfying this IEX Rule must comply with the definition of a "code of ethics" set out in Section 406(c) of the Sarbanes-Oxley Act of 2002 ("the Sarbanes-Oxley Act") and any regulations promulgated thereunder by the Commission. See 17 C.F.R. 228.406 and 17 C.F.R. 229.406. In addition, the code must provide for an enforcement mechanism. Any waivers of the code for directors or Executive Officers must be approved by the Board. Companies, other than Foreign Private Issuers, shall disclose such waivers within four business days by filing a current report on Form 8-K with the Commission or, in cases where a Form 8-K is not required, by distributing a press release. Foreign Private Issuers shall disclose such waivers either by distributing a press release or including disclosure in a Form 6-K or in the next Form 20-F or 40-F. Alternatively, a Company, including a Foreign Private Issuer, may disclose waivers on the Company's website in a manner that satisfies the requirements of Item 5.05(c) of Form 8-K.

.01 Code of Conduct

Ethical behavior is required and expected of every corporate director, officer and employee whether or not a formal code of conduct exists. The requirement of a publicly available code of conduct applicable to all directors, officers and employees of a Company is intended to demonstrate to investors that the board and management of IEX Companies have carefully considered the requirement of ethical dealing and have put in place a system to ensure that they become aware of and take prompt action against any questionable behavior. For Company personnel, a code of conduct with enforcement provisions provides assurance that reporting of questionable behavior is protected and encouraged, and fosters an atmosphere of self-awareness and prudent conduct.

IEX Rule 14.406 requires Companies to adopt a code of conduct complying with the definition of a "code of ethics" under Section 406(c) of the Sarbanes-Oxley Act of 2002 ("the Sarbanes-Oxley Act") and any regulations promulgated thereunder by the Commission. See 17 C.F.R. 228.406 and 17 C.F.R. 229.406. Thus, the code must include such standards as are reasonably necessary to promote the ethical handling of conflicts of interest, full and fair disclosure, and compliance with laws, rules and regulations, as specified by the Sarbanes-Oxley Act. However, the code of conduct required by Rule 14.406 must apply to all directors, officers, and employees. Companies can satisfy this obligation by adopting one or more codes of conduct, such that all directors, officers and employees are subject to a code that satisfies the definition of a "code of ethics."

As the Sarbanes-Oxley Act recognizes, investors are harmed when the real or perceived private interest of a director, officer or employee is in conflict with the interests of the Company, as when the individual receives improper personal benefits as a result of his or her position with the Company, or when the individual has other duties, responsibilities or obligations that run counter to his or her duty to the Company. Also, the disclosures a Company makes to the Commission are the essential source of information about the Company for regulators and investors — there can be no question about the duty to make them fairly, accurately and timely. Finally, illegal action must be dealt with swiftly and the violators reported to the appropriate authorities. Each code of conduct must require that any waiver of the code for Executive Officers or directors may be made only by the board and must be disclosed to Shareholders, along with the reasons for the waiver. All Companies, other than Foreign Private Issuers, must disclose such waivers within four business days by filing a current report on Form 8-K with the Commission, providing website disclosure that satisfies the requirements of Item 5.05(c) of Form 8-K, or, in cases where a Form 8-K is not required, by distributing a press release. Foreign Private Issuers must disclose such waivers either by providing website disclosure that satisfies the requirements of Item 5.05(c) of Form 8-K, by including disclosure in a Form 6-K or in the next Form 20-F or 40-F or by distributing a press release. This disclosure requirement provides investors the comfort that waivers are not granted except where they are truly necessary and warranted, and that they are limited and qualified so as to protect the Company and its Shareholders to the greatest extent possible.

Each code of conduct must also contain an enforcement mechanism that ensures prompt and consistent enforcement of the code, protection for persons reporting questionable behavior, clear and objective standards for compliance, and a fair process by which to determine violations.

Rule 14.407. Exemptions from Certain Corporate Governance Requirements

This IEX Rule provides the exemptions from the corporate governance rules afforded to certain types of Companies, and sets forth the phase-in schedules for initial public offerings, Companies emerging from bankruptcy, Companies transferring from other markets and Companies ceasing to be Smaller Reporting Companies. This IEX Rule also describes the applicability of the corporate governance rules to Controlled Companies and sets forth the phase-in schedule afforded to Companies ceasing to be Controlled Companies.

(a) Exemptions to the Corporate Governance Requirements

(1) Asset-backed Issuers and Other Passive Issuers

The following are exempt from the requirements related to Majority Independent Board (IEX Rule 14.405(b)), Audit Committee (IEX Rule 14.405(c)), Compensation Committee (IEX Rule 14.405(d)), Director Nominations (IEX Rule 14.405(e)), the Controlled Company Exemption (IEX Rule 14.407(c)(2)) and Code of Conduct (IEX Rule 14.406):

- (A)** asset-backed issuers; and
- (B)** issuers, such as unit investment trusts, including Portfolio Depositary Receipts, which are organized as trusts or other unincorporated associations that do not have a board of directors or persons acting in a similar capacity and whose activities are limited to passively owning or holding (as well as administering and distributing amounts in respect of) securities, rights, collateral or other assets on behalf of or for the benefit of the holders of the listed securities.

• • • Supplementary Material • • •

.01 Asset-backed Issuers Supplemental

Because of their unique attributes, IEX Rules 14.405 (b), (c), (d), (e), and 14.406 do not apply to asset-backed issuers and issuers, such as unit investment trusts, that are organized as trusts or other unincorporated associations that do not have a board of directors or persons acting in a similar capacity and whose activities are limited to passively owning or holding (as well as administering and distributing amounts in respect of) securities, rights, collateral or other assets on behalf of or for the benefit of the holders of the listed securities.

(2) Cooperatives

Cooperative entities, such as agricultural cooperatives, that are structured to comply with relevant state law and federal tax law and that do not have a publicly traded class of common stock are exempt from IEX Rules 14.405 (b), (d), (e), and 14.407(c)(2). However, such entities must comply with all federal securities laws, including without limitation those rules required by Section 10A(m) of the Act and Rule 10A-3 thereunder.

• • • **Supplementary Material** • • •

.02 Cooperatives Supplemental

Certain member-owned cooperatives that list their preferred stock are required to have their common stock owned by their members. Because of their unique structure and the fact that they do not have a publicly traded class of common stock, such entities are exempt from IEX Rule 14.405(b), (d), and (e).

(3) Foreign Private Issuers

- (A) A Foreign Private Issuer may follow its home country practice in lieu of the requirements of the IEX Rule 14.400 Series, the requirement to disclose third party director and nominee compensation set forth in IEX Rule 14.207(b)(3), and the requirement to distribute annual and interim reports set forth in IEX Rule 14.207(d), provided, however, that such a Company shall: comply with the Notification of Noncompliance requirement (IEX Rule 14.410), the Voting Rights requirement (IEX Rule 14.413), have an audit committee that satisfies IEX Rule 14.405(c)(3), and ensure that such audit committee's members meet the independence requirement in IEX Rule 14.405(c)(2)(A)(ii). Except as provided in this paragraph, a Foreign Private Issuer must comply with the requirements of Chapter 14.
- (B) Disclosure Requirements
 - (i) A Foreign Private Issuer that follows a home country practice in lieu of one or more of the IEX Listing Rules shall disclose in its annual reports filed with the Commission each requirement that it does not follow and describe the home country practice followed by the Company in lieu of such requirements. Alternatively, a Foreign Private Issuer that is not required to file its annual report with the Commission on Form 20-F may make this disclosure only on its website. A Foreign Private Issuer that follows a home country practice in lieu of the requirement in IEX Rule 14.405(d)(2) to have an independent compensation committee must disclose in its annual reports filed with the Commission the reasons why it does not have such an independent committee.
 - (ii) A Foreign Private Issuer making its initial public offering or first U.S. listing on IEX shall disclose in its registration statement or on its website each requirement that it does not follow and describe the home country practice followed by the Company in lieu of such requirements.

• • • **Supplementary Material** • • •

.03 Foreign Private Issuer Supplemental

A Foreign Private Issuer (as defined in IEX Rule 14.002) listed on IEX may follow the practice in such Company's home country (as defined in General Instruction F of Form 20-F) in lieu of the provisions of the IEX Rule Series 14.400, 14.207(b)(3), and IEX Rule 14.207(d), subject to several important exceptions. First, such an issuer shall comply with IEX Rule 14.410 (Notification of Noncompliance). Second, such a Company shall have an audit committee that satisfies IEX Rule 14.405(c)(3). Third, members of such audit committee shall meet the criteria for independence referenced in IEX Rule 14.405(c)(2)(A)(ii) (the criteria set forth in Rule 10A-3(b)(1) under the Act, subject to the exemptions provided in Rule 10A-3(c) under the Act). Finally, a Foreign Private Issuer that elects to follow home country practice in lieu of a requirement of IEX Rules 14.400, 14.207(b)(3), or 14.207(d) shall submit to IEX a written statement from an independent counsel in such Company's home country certifying that the Company's practices are not prohibited

by the home country's laws. In the case of new listings, this certification is required at the time of listing. For existing Companies, the certification is required at the time the Company seeks to adopt its first noncompliant practice. In the interest of transparency, the rule requires a Foreign Private Issuer to make appropriate disclosures in the Company's annual filings with the Commission (typically Form 20-F or 40-F), and at the time of the Company's original listing in the United States, if that listing is on IEX, in its registration statement (typically Form F-1, 20-F, or 40-F); alternatively, a Company that is not required to file an annual report on Form 20-F may provide these disclosures in English on its website in addition to, or instead of, providing these disclosures on its registration statement or annual report. The Company shall disclose each requirement that it does not follow and include a brief statement of the home country practice the Company follows in lieu of these corporate governance requirement(s). If the disclosure is only available on the website, the annual report and registration statement should so state and provide the web address at which the information may be obtained. Companies that must file annual reports on Form 20-F are encouraged to provide these disclosures on their websites, in addition to the required Form 20-F disclosures, to provide maximum transparency about their practices.

(4) Limited Partnerships

A limited partnership is not subject to the requirements of the IEX Rule Series 14.400, except as provided in this IEX Rule 14.407(a)(4). A limited partnership may request a written interpretation pursuant to IEX Rule 14.401(c).

- (A) No provision of this IEX Rule shall be construed to require any foreign Company that is a partnership to do any act that is contrary to a law, rule or regulation of any public authority exercising jurisdiction over such Company or that is contrary to generally accepted business practices in the Company's country of domicile. IEX shall have the ability to provide exemptions from applicability of these provisions as may be necessary or appropriate to carry out this intent.

(B) Corporate General Partner

Each Company that is a limited partnership shall maintain a corporate general partner or co-general partner, which shall have the authority to manage the day-to-day affairs of the partnership.

(C) Independent Directors/Audit Committee

The corporate general partner or co-general partner shall maintain a sufficient number of Independent Directors on its board to satisfy the audit committee requirements set forth in IEX Rule 14.405(c).

(D) Partner Meetings

A Company that is a limited partnership shall not be required to hold an annual meeting of limited partners unless required by statute or regulation in the state in which the limited partnership is formed or doing business or by the terms of the partnership's limited partnership agreement.

(E) Quorum

In the event that a meeting of limited partners is required pursuant to paragraph (D), the quorum for such meeting shall be not less than 33-1/3 percent of the limited partnership interests outstanding.

(F) Solicitation of Proxies

In the event that a meeting of limited partners is required pursuant to paragraph (D), the Company shall provide all limited partners with proxy or information statements and if a vote is required, shall solicit proxies thereon.

(G) Review of Related Party Transactions

Each Company that is a limited partnership shall conduct an appropriate review of all related party transactions on an ongoing basis and shall utilize the Audit Committee or a comparable body of the Board of Directors for the review of potential material conflict of interest situations where appropriate.

(H) Shareholder Approval

Each Company that is a limited partnership must obtain shareholder approval when a stock option or purchase plan is to be established or materially amended or other equity compensation arrangement made or materially amended, pursuant to which stock may be acquired by officers, directors, employees, or consultants, as would be required under IEX Rule 14.412(c) and Supplementary Material .01 to IEX Rule 14.412(c)

(I) Auditor Registration

Each Company that is a limited partnership must be audited by an independent public accountant that is registered as a public accounting firm with the Public Company Accounting Oversight Board, as provided for in Section 102 of the Sarbanes-Oxley Act of 2002 [15 U.S.C. 7212].

(J) Notification of Noncompliance.

Each Company that is a limited partnership must provide IEX with prompt notification after an Executive Officer of the Company, or a person performing an equivalent role, becomes aware of any noncompliance by the Company with the requirements of this IEX Rule Series 14.400.

(5) Management Investment Companies

Management investment companies (including business development companies) are subject to all the requirements of the Rule 14.400 Series, except that management investment companies registered under the Investment Company Act of 1940 are exempt from the Independent Directors requirement, the Compensation Committee requirement, the Independent Director Oversight of Director Nominations requirement, and the Code of Conduct requirement, set forth in IEX Rules 14.405(b), (d), and (e) and 14.406, respectively. In addition, management investment companies that issue Index Fund Shares, Managed Fund Shares, and Exchange-Traded Managed Fund Shares, as defined in Chapter 16 are exempt from the Audit Committee requirements set forth in IEX Rule 14.405(c), except for the applicable requirements of SEC Rule 10A-3.

• • • **Supplementary Material** • • •

.04 Management Investment Companies Supplemental

Management investment companies registered under the Investment Company Act of 1940 are already subject to a pervasive system of federal regulation in certain areas of corporate governance covered by the IEX Rule Series 14.400. In light of this, the Exchange exempts from IEX Rules 14.405(b), (d), and (e) and 14.406 management investment companies registered under the Investment Company Act of 1940. Business development companies, which are a type of closed- end management investment company defined

in Section 2(a)(48) of the Investment Company Act of 1940 that are not registered under that Act, are required to comply with all of the provisions of the Rule 14.400 Series. Management investment companies that are Index Fund Shares and Managed Fund Shares are exempt from the Audit Committee requirements set forth in IEX Rule 14.405(c), except for the applicable requirements of SEC Rule 10A-3.

(b) Phase-In Schedules

(1) Initial Public Offerings

A Company listing in connection with its initial public offering shall be permitted to phase in its compliance with the independent committee requirements set forth in IEX Rules 14.405(d)(2) and (e)(1)(B) on the same schedule as it is permitted to phase in its compliance with the independent audit committee requirement pursuant to Rule 10A-3(b)(1)(iv)(A) under the Act. Accordingly, a Company listing in connection with its initial public offering shall be permitted to phase in its compliance with the committee composition requirements set forth in IEX Rule 14.405(d)(2) and (e)(1)(B) as follows: (1) one member must satisfy the requirement at the time of listing; (2) a majority of members must satisfy the requirement within 90 days of listing; and (3) all members must satisfy the requirement within one year of listing. Furthermore, a Company listing in connection with its initial public offering shall have twelve months from the date of listing to comply with the majority independent board requirement in IEX Rule 14.405(b). It should be noted, however, that pursuant to Rule 10A-3(b)(1)(iii) under the Act investment companies are not afforded the exemptions under Rule 10A-3(b)(1)(iv) under the Act. Companies may choose not to adopt a nomination committee and may instead rely upon a majority of the Independent Directors to discharge responsibilities under IEX Rule 14.405(b). For purposes of the IEX Rule Series 14.400 other than IEX Rules 14.405(c)(2)(A)(ii) and 14.410, a Company shall be considered to be listing in conjunction with an initial public offering if, immediately prior to listing, it does not have a class of common stock registered under the Act. For purposes of IEX Rule 14.405(c)(2)(A)(ii) and IEX Rule 14.410, a Company shall be considered to be listing in conjunction with an initial public offering only if it meets the conditions in Rule 10A-3(b)(1)(iv)(A) under the Act, namely, that the Company was not, immediately prior to the effective date of a registration statement, required to file reports with the Commission pursuant to Section 13(a) or 15(d) of the Act.

(2) Companies Emerging from Bankruptcy

Companies that are emerging from bankruptcy shall be permitted to phase-in independent nomination and compensation committees and majority independent boards on the same schedule as Companies listing in conjunction with their initial public offering.

(3) Transfers from other Markets

Companies transferring from other markets with a substantially similar requirement shall be afforded the balance of any grace period afforded by the other market. Companies transferring from other listed markets that do not have a substantially similar requirement shall be afforded one year from the date of listing on IEX. This transition period is not intended to supplant any applicable requirements of Rule 10A-3 under the Act.

(4) Phase-In Schedule for a Company Ceasing to be a Smaller Reporting Company

Pursuant to Rule 12b-2 under the Act, a Company tests its status as a Smaller Reporting Company on an annual basis as of the last business day of its most recently completed second fiscal quarter (for purposes of this IEX

Rule, the "Determination Date"). A Company with a public float of \$75 million or more as of the Determination Date will cease to be a Smaller Reporting Company as of the beginning of the fiscal year following the Determination Date (the "Start Date").

By six months from the Start Date, a Company must comply with Rule 14.405(d)(3) and certify to IEX that: (i) it has complied with the requirement in IEX Rule 14.405(d)(1) to adopt a formal written compensation committee charter including the content specified in IEX Rule 14.405(d)(1)(A) through (D); and (ii) it has complied, or within the applicable phase-in schedule will comply, with the additional requirements in IEX Rule 14.405(d)(2)(A) regarding compensation committee composition.

A Company shall be permitted to phase in its compliance with the additional compensation committee eligibility requirements of IEX Rule 14.405(d)(2)(A) relating to compensatory fees and affiliation as follows: (i) one member must satisfy the requirements by six months from the Start Date; (ii) a majority of members must satisfy the requirements by nine months from the Start Date; and (iii) all members must satisfy the requirements by one year from the Start Date.

Since a Smaller Reporting Company is required to have a compensation committee comprised of at least two Independent Directors, a Company that has ceased to be a Smaller Reporting Company may not use the phase-in schedule for the requirements of IEX Rule 14.405(d)(2)(A) relating to minimum committee size or that the committee consist only of Independent Directors as defined under IEX Rule 14.405(a)(2).

During this phase-in schedule, a Company that has ceased to be a Smaller Reporting Company must continue to comply with Rule 14.405(d)(5).

(c) How the Rules Apply to a Controlled Company

(1) Definition

A Controlled Company is a Company of which more than 50% of the voting power for the election of directors is held by an individual, a group or another company.

(2) Exemptions Afforded to a Controlled Company

A Controlled Company is exempt from the requirements of IEX Rules 14.405(b), (d), and (e), except for the requirements of subsection (b)(2) which pertain to executive sessions of Independent Directors. A Controlled Company, other than a Foreign Private Issuer, relying upon this exemption must comply with the disclosure requirements set forth in Instruction 1 to Item 407(a) of Regulation S-K. A Foreign Private Issuer must disclose in its next annual report (e.g., Form 20-F or 40-F) that it is a Controlled Company and the basis for that determination.

(3) Phase-In Schedule for a Company Ceasing to be a Controlled Company

A Company that has ceased to be a Controlled Company within the meaning of IEX Rule 14.407(c)(1) shall be permitted to phase-in its independent nomination and compensation committees and majority independent board on the same schedule as Companies listing in conjunction with their initial public offering. It should be noted, however, that a Company that has ceased to be a Controlled Company within the meaning of IEX Rule 14.407(c)(1) must comply with the audit committee requirements of IEX Rule 14.405(c) as of the date it ceased to be a Controlled Company. Furthermore, the executive sessions requirement of IEX Rule 14.405(b)(2) applies to Controlled Companies as of the date of listing and continues to apply after it ceases to be controlled.

.05 Controlled Company Exemption

This exemption recognizes that majority Shareholders, including parent companies, have the right to select directors and control certain key decisions, such as executive officer compensation, by virtue of their ownership rights. In order for a group to exist for purposes of this IEX Rule, the Shareholders must have publicly filed a notice that they are acting as a group (e.g., a Schedule 13D). A Controlled Company not relying upon this exemption need not provide any special disclosures about its controlled status. It should be emphasized that this controlled company exemption does not extend to the audit committee requirements under IEX Rule 14.405(c) or the requirement for executive sessions of Independent Directors under IEX Rule 14.405(b)(2).

(Amended by SR-IEX-2016-19 eff. December 12, 2016).

Rule 14.408. Meetings of Shareholders

- (a) Each Company listing common stock or voting preferred stock, and their equivalents, shall hold an annual meeting of Shareholders no later than one year after the end of the Company's fiscal year-end, unless such Company is a limited partnership that meets the requirements of IEX Rule 14.407(a)(4)(D).

• • • **Supplementary Material** • • •

.01 Meetings of Shareholders or Partners

IEX Rule 14.408 requires that each Company listing common stock or voting preferred stock, and their equivalents, hold an annual meeting of Shareholders within one year of the end of each fiscal year. At each such meeting, Shareholders must be afforded the opportunity to discuss Company affairs with management and, if required by the Company's governing documents, to elect directors. A new listing that was not previously subject to a requirement to hold an annual meeting is required to hold its first meeting within one-year after its first fiscal year-end following listing. Of course, IEX's meeting requirement does not supplant any applicable state or federal securities laws concerning annual meetings.

This requirement is not applicable as a result of a Company listing the following types of securities: securities listed pursuant to IEX Rule 14.316 (such as Trust Preferred Securities and Contingent Value Rights), unless the listed security is a common stock or voting preferred stock equivalent (e.g., a callable common stock); Portfolio Depository Receipts and Index Fund Shares listed pursuant to Chapter 16; and Trust Issued Receipts listed pursuant to Chapter 16. Notwithstanding, if the Company also lists common stock or voting preferred stock, or their equivalent, the Company must still hold an annual meeting for the holders of that common stock or voting preferred stock, or their equivalent.

(b) Proxy Solicitation

Each Company that is not a limited partnership shall solicit proxies and provide proxy statements for all meetings of Shareholders and shall provide copies of such proxy solicitation to the Exchange. Limited partnerships that are required to hold an annual meeting of partners are subject to the requirements of IEX Rule 14.407(a)(4)(F).

(c) Quorum

Each Company that is not a limited partnership shall provide for a quorum as specified in its by-laws for any meeting of the holders of common stock; provided, however, that in no case shall such quorum be less than 33 1/3 % of the

outstanding shares of the Company's common voting stock. Limited partnerships that are required to hold an annual meeting of partners are subject to the requirements of IEX Rule 14.407(a)(4)(E).

Rule 14.410. Notification of Noncompliance

A Company must provide the Exchange with prompt notification after an Executive Officer of the Company becomes aware of any noncompliance by the Company with the requirements of this IEX Rule Series 14.400.

Rule 14.411. Review of Related Party Transactions

(a) Each Company that is not a limited partnership shall conduct an appropriate review and oversight of all related party transactions for potential conflict of interest situations on an ongoing basis by the Company's audit committee or another independent body of the board of directors. For purposes of this IEX Rule, the term "related party transaction" shall refer to transactions required to be disclosed pursuant to Item 404 of Regulation S-K under the Act. However, in the case of non-U.S. issuers, the term "related party transactions" shall refer to transactions required to be disclosed pursuant to Form 20-F, Item 7.B.

(b) Limited partnerships shall comply with the requirements of IEX Rule 14.407(a)(4)(G).

Rule 14.412. Shareholder Approval

This IEX Rule sets forth the circumstances under which shareholder approval is required prior to an issuance of securities in connection with: (1) the acquisition of the stock or assets of another company; (2) a change of control; (3) equity-based compensation of officers, directors, employees, or consultants; and (4) transactions other than public offerings. General provisions relating to shareholder approval are set forth in IEX Rule 14.412(e), and the financial viability exception to the shareholder approval requirement is set forth in IEX Rule 14.412(f). Exchange-listed Companies and their representatives are encouraged to use the interpretative letter process described in IEX Rule 14.401(c).

(a) Acquisition of Stock or Assets of Another Company

Shareholder approval is required prior to the issuance of securities in connection with the acquisition of the stock or assets of another company if:

- (1) where, due to the present or potential issuance of common stock, including shares issued pursuant to an earn-out provision or similar type of provision, or securities convertible into or exercisable for common stock, other than a public offering for cash:
 - (A) the common stock has or will have upon issuance voting power equal to or in excess of 20% of the voting power outstanding before the issuance of stock or securities convertible into or exercisable for common stock; or
 - (B) the number of shares of common stock to be issued is or will be equal to or in excess of 20% of the number of shares of common stock outstanding before the issuance of the stock or securities; or
- (2) any director, officer or Substantial Shareholder (as defined by IEX Rule 14.412(e)(3)) of the Company has a 5% or greater interest (or such persons collectively have a 10% or greater interest), directly or indirectly, in the Company or assets to be acquired or in the consideration to be paid in the transaction or series of related

transactions and the present or potential issuance of common stock, or securities convertible into or exercisable for common stock, could result in an increase in outstanding common shares or voting power of 5% or more.

(b) Change of Control

Shareholder approval is required prior to the issuance of securities when the issuance or potential issuance will result in a change of control of the Company.

(c) Equity Compensation

Shareholder approval is required prior to the issuance of securities when a stock option or purchase plan is to be established or materially amended or other equity compensation arrangement made or materially amended, pursuant to which stock may be acquired by officers, directors, employees, or consultants, except for:

- (1) warrants or rights issued generally to all security holders of the Company or stock purchase plans available on equal terms to all security holders of the Company (such as a typical dividend reinvestment plan);
- (2) tax qualified, non-discriminatory employee benefit plans (e.g., plans that meet the requirements of Section 401(a) or 423 of the Internal Revenue Code) or parallel nonqualified plans, provided such plans are approved by the Company's independent compensation committee or a majority of the Company's Independent Directors; or plans that merely provide a convenient way to purchase shares on the open market or from the Company at Market Value;
- (3) plans or arrangements relating to an acquisition or merger as permitted under Supplementary Material .01 to IEX Rule 14.412; or
- (4) issuances to a person not previously an employee or director of the Company, or following a bona fide period of non-employment, as an inducement material to the individual's entering into employment with the Company, provided such issuances are approved by either the Company's independent compensation committee or a majority of the Company's Independent Directors. Promptly following an issuance of any employment inducement grant in reliance on this exception, a Company must disclose in a press release the material terms of the grant, including the recipient(s) of the grant and the number of shares involved.

.01 Shareholder Approval for Stock Option Plans or Other Equity Compensation Arrangements

Employee ownership of Company stock can be an effective tool to align employee interests with those of other Shareholders. Stock option plans or other equity compensation arrangements can also assist in the recruitment and retention of employees, which is especially critical to young, growing Companies, or Companies with insufficient cash resources to attract and retain highly qualified employees. However, these plans can potentially dilute shareholder interests. IEX Rule 14.412(c) ensures that Shareholders have a voice in these situations, given this potential for dilution.

IEX Rule 14.412(c) requires shareholder approval when a plan or other equity compensation arrangement is established or materially amended. For these purposes, a material amendment would include, but not be limited to, the following:

- (1) *any material increase in the number of shares to be issued under the plan (other than to reflect a reorganization, stock split, merger, spinoff or similar transaction);*

- (2) any material increase in benefits to participants, including any material change to: (i) permit a repricing (or decrease in exercise price) of outstanding options, (ii) reduce the price at which shares or options to purchase shares may be offered, or (iii) extend the duration of a plan;
- (3) any material expansion of the class of participants eligible to participate in the plan; and
- (4) any expansion in the types of options or awards provided under the plan.

While general authority to amend a plan would not obviate the need for shareholder approval, if a plan permits a specific action without further shareholder approval, then no such approval would generally be required. However, if a plan contains a formula for automatic increases in the shares available (sometimes called an "evergreen formula"), or for automatic grants pursuant to a dollar-based formula (such as annual grants based on a certain dollar value, or matching contributions based upon the amount of compensation the participant elects to defer), such plans cannot have a term in excess of ten years unless shareholder approval is obtained every ten years. However, plans that do not contain a formula and do not impose a limit on the number of shares available for grant would require shareholder approval of each grant under the plan. A requirement that grants be made out of treasury shares or repurchased shares will not alleviate these additional shareholder approval requirements.

As a general matter, when preparing plans and presenting them for shareholder approval, Companies should strive to make plan terms easy to understand. In that regard, it is recommended that plans meant to permit repricing use explicit terminology to make this clear.

IEX Rule 14.412(c) provides an exception to the requirement for shareholder approval for warrants or rights offered generally to all Shareholders. In addition, an exception is provided for tax qualified, non-discriminatory employee benefit plans as well as parallel nonqualified plans as these plans are regulated under the Internal Revenue Code and Treasury Department regulations. An equity compensation plan that provides non-U.S. employees with substantially the same benefits as a comparable tax qualified, non-discriminatory employee benefit plan or parallel nonqualified plan that the Company provides to its U.S. employees, but for features necessary to comply with applicable foreign tax law, is also exempt from shareholder approval under this section.

Further, the rule provides an exception for inducement grants to new employees because in these cases a Company has an arm's length relationship with the new employees. Inducement grants for these purposes include grants of options or stock to new employees in connection with a merger or acquisition. The rule requires that such issuances be approved by the Company's independent compensation committee or a majority of the Company's Independent Directors. The rule further requires that promptly following an issuance of any employment inducement grant in reliance on this exception, a Company must disclose in a press release the material terms of the grant, including the recipient(s) of the grant and the number of shares involved.

In addition, plans or arrangements involving a merger or acquisition do not require shareholder approval in two situations. First, shareholder approval will not be required to convert, replace or adjust outstanding options or other equity compensation awards to reflect the transaction. Second, shares available under certain plans acquired in acquisitions and mergers may be used for certain post-transaction grants without further shareholder approval. This exception applies to situations where the party which is not a listed company following the transaction has shares available for grant under pre-existing plans that meet the requirements of this IEX Rule 14.412(c). These shares may be used for post-transaction grants of options and other equity awards by the listed Company (after appropriate adjustment of the number of shares to reflect the transaction), either under the pre-existing plan or arrangement or another plan or arrangement, without further shareholder approval, provided: (1) the time during which those shares are available for grants is not extended beyond the period when they would have been available under the pre-existing plan, absent the transaction, and (2) such options and other awards are not granted to individuals who were employed by the granting company or its subsidiaries at the time the merger or acquisition was consummated. IEX would view a plan or arrangement adopted in contemplation of the merger or acquisition transaction as not pre-existing for purposes of this exception. This exception is appropriate because it will not result in any increase in the aggregate potential dilution of the combined enterprise. In this regard, any additional shares available for issuance under a plan or arrangement acquired in connection with a merger or acquisition would be counted by IEX in determining whether the transaction involved the issuance of 20% or more of the Company's outstanding common stock, thus triggering the shareholder approval requirements under IEX Rule 14.412(a).

Inducement grants, tax qualified non-discriminatory benefit plans, and parallel nonqualified plans are subject to approval by either the Company's independent compensation committee or a majority of the Company's Independent Directors. It should also be noted that a Company would not be permitted to use repurchased shares to fund option plans or grants without prior shareholder approval.

For purposes of IEX Rule 14.412(c) and Supplementary Material .01, the term "parallel nonqualified plan" means a plan that is a "pension plan" within the meaning of the Employee Retirement Income Security Act ("ERISA"), 29 U.S.C. §1002 (1999), that is designed to work in parallel with a plan intended to be qualified under Internal Revenue Code Section 401(a), to provide benefits that exceed the limits set forth in Internal Revenue Code Section 402(g) (the section that limits an employee's annual pre-tax contributions to a 401(k) plan), Internal Revenue Code Section 401(a)(17) (the section that limits the amount of an employee's compensation that can be taken into account for plan purposes) and/or Internal Revenue Code Section 415 (the section that limits the contributions and benefits under qualified plans) and/or any successor or similar limitations that may thereafter be enacted. However, a plan will not be considered a parallel nonqualified plan unless: (i) it covers all or substantially all employees of an employer who are participants in the related qualified plan whose annual compensation is in excess of the limit of Code Section 401(a)(17) (or any successor or similar limitation that may hereafter be enacted); (ii) its terms are substantially the same as the qualified plan that it parallels except for the elimination of the limitations described in the preceding sentence; and, (iii) no participant receives employer equity contributions under the plan in excess of 25% of the participant's cash compensation.

(d) Transactions other than Public Offerings

(1) For purposes of Rule 14.412(d):

(A) "Minimum Price" means a price that is the lower of: (i) the closing price (as reflected on iextrading.com) immediately preceding the signing of a binding agreement; or (ii) the average closing price of the common stock (as reflected on iextrading.com) for the five trading days immediately preceding the signing of a binding agreement.

(B) "20% Issuance" means a transaction, other than a public offering as defined in Supplementary Material .03, involving the sale, issuance or potential issuance by the Company of common stock (or securities convertible into or exercisable for common stock), which alone or together with sales by officers, directors or Substantial Shareholders of the Company, equals 20% or more of the common stock or 20% or more of the voting power outstanding before the issuance.

(2) Shareholder approval is required prior to a 20% Issuance at a price that is less than the Minimum Price.

.02 Interpretative Material Regarding the Use of Share Caps to Comply with Rule 14.412

IEX Rule 14.412 limits the number of shares or voting power that can be issued or granted without shareholder approval prior to the issuance of certain securities. (An exception to this IEX Rule is available to Companies when the delay in securing stockholder approval would seriously jeopardize the financial viability of the enterprise as set forth in IEX Rule 14.412(f). However, a share cap is not permissible in conjunction with the financial viability exception provided in IEX Rule 14.412(f), because the application to the Exchange and the notice to Shareholders required in the rule must occur prior to the issuance of any common stock or securities convertible into or exercisable for common stock.) Generally, this limitation applies to issuances of 20% or more of the common stock or 20% or more of the voting power outstanding before the issuance. (While the Exchange notes that this issue is generally implicated with respect to these situations, it may also arise with respect to the 5% threshold set forth in IEX Rule 14.412(a)(2)). Companies sometimes comply with the 20% limitation by placing a "cap" on the number of shares that can be issued in the transaction, such that there cannot, under any circumstances, be an issuance of 20% or more of the common stock or voting power previously outstanding

without prior shareholder approval. If a Company determines to defer a shareholder vote in this manner, shares that are issuable under the cap (in the first part of the transaction) must not be entitled to vote to approve the remainder of the transaction. In addition, a cap must apply for the life of the transaction, unless shareholder approval is obtained. For example, caps that no longer apply if a Company is not listed on the Exchange are not permissible under the Rule. Of course, if shareholder approval is not obtained, then the investor will not be able to acquire 20% or more of the common stock or voting power outstanding before the transaction and would continue to hold the balance of the original security in its unconverted form.

Companies have also attempted to cap the issuance of shares at below 20% but have also provided an alternative outcome based upon whether shareholder approval is obtained, including, but not limited to a “penalty” or a “sweetener.” Instead, if the terms of a transaction can change based upon the outcome of the shareholder vote, no common shares may be issued prior to the approval of the Shareholders. Companies that engage in transactions with defective caps may be subject to delisting. For example, a Company issues a convertible preferred stock or debt instrument that provides for conversions of up to 20% of the total shares outstanding with any further conversions subject to shareholder approval. However, the terms of the instrument provide that if Shareholders reject the transaction, the coupon or conversion ratio will increase or the Company will be penalized by a specified monetary payment, including a rescission of the transaction. Likewise, a transaction may provide for improved terms if shareholder approval is obtained. The Exchange believes that in such situations the cap is defective because the presence of the alternative outcome has a coercive effect on the shareholder vote, and thus may deprive Shareholders of their ability to freely exercise their vote. Accordingly, the Exchange will not accept a cap that defers the need for shareholder approval in such situations.

Companies having questions regarding this policy are encouraged to contact IEX Regulation, which will provide a written interpretation of the application of IEX Rules to a specific transaction, upon prior written request of the Company.

.03 Definition of a Public Offering

IEX Rule 14.412(d) provides that shareholder approval is required for a 20% Issuance at a price that is less than the Minimum Price. Under this IEX Rule, however, shareholder approval is not required for a “public offering.”

Companies are encouraged to consult with IEX Regulation in order to determine if a particular offering is a “public offering” for purposes of the shareholder approval rules. Generally, a firm commitment underwritten securities offering registered with the Securities and Exchange Commission will be considered a public offering for these purposes. Likewise, any other securities offering which is registered with the Securities and Exchange Commission and which is publicly disclosed and distributed in the same general manner and extent as a firm commitment underwritten securities offering will be considered a public offering for purposes of the shareholder approval rules. However, the Exchange staff will not treat an offering as a “public offering” for purposes of the shareholder approval rules merely because they are registered with the Commission prior to the closing of the transaction.

When determining whether an offering is a “public offering” for purposes of these rules, IEX Regulation will consider all relevant factors, including but not limited to:

- (a) the type of offering (including whether the offering is conducted by an underwriter on a firm commitment basis, or an underwriter or placement agent on a best-efforts basis, or whether the offering is self-directed by the Company);
- (b) the manner in which the offering is marketed (including the number of investors offered securities, how those investors were chosen, and the breadth of the marketing effort);
- (c) the extent of the offering's distribution (including the number and identity of the investors who participate in the offering and whether any prior relationship existed between the Company and those investors);
- (d) the offering price (including the extent of any discount to the market price of the securities offered); and
- (e) the extent to which the Company controls the offering and its distribution.

(e) Definitions and Computations Relating to the Shareholder Approval Requirements

- (1) For purposes of making any computation in this paragraph, when determining the number of shares issuable in a transaction, all shares that could be issued are included, regardless of whether they are currently treasury shares. When determining the number of shares outstanding, only shares issued and outstanding are considered. Treasury shares, shares held by a subsidiary, and unissued shares reserved for issuance upon conversion of securities or upon exercise of options or warrants are not considered outstanding.
- (2) Voting power outstanding as used in this IEX Rule refers to the aggregate number of votes which may be cast by holders of those securities outstanding which entitle the holders thereof to vote generally on all matters submitted to the Company's security holders for a vote.
- (3) An interest consisting of less than either 5% of the number of shares of common stock or 5% of the voting power outstanding of a Company or party shall not be considered a substantial interest or cause the holder of such an interest to be regarded as a "Substantial Shareholder."
- (4) Where shareholder approval is required, the minimum vote that will constitute shareholder approval shall be a majority of the total votes cast on the proposal. These votes may be cast in person, by proxy at a meeting of Shareholders or by written consent in lieu of a special meeting to the extent permitted by applicable state and federal law and rules (including interpretations thereof), including, without limitation, Regulations 14A and 14C under the Act. Nothing contained in this IEX Rule 14.412(e)(4) shall affect a Company's obligation to hold an annual meeting of Shareholders as required by IEX Rule 14.408.
- (5) Shareholder approval shall not be required for any share issuance if such issuance is part of a court-approved reorganization under the federal bankruptcy laws or comparable foreign laws.

(f) Financial Viability Exception

An exception applicable to a specified issuance of securities may be made upon prior written application to IEX Regulation when:

- (1) the delay in securing stockholder approval would seriously jeopardize the financial viability of the enterprise; and
- (2) reliance by the Company on this exception is expressly approved by the audit committee or a comparable body of the board of directors comprised solely of independent, disinterested directors. IEX Regulation shall respond to each application for such an exception in writing.

A Company that receives such an exception must mail to all Shareholders not later than ten days before issuance of the securities a letter alerting them to its omission to seek the shareholder approval that would otherwise be required. Such notification shall disclose the terms of the transaction (including the number of shares of common stock that could be issued and the consideration received), the fact that the Company is relying on a financial viability exception to the stockholder approval rules, and that the audit committee or a comparable body of the board of directors comprised solely of independent, disinterested directors has expressly approved reliance on the exception. The Company shall also make a public announcement by filing a Form 8-K, where required by SEC rules, or by issuing a press release disclosing the same information as promptly as possible, but no later than ten days before the issuance of the securities.

.04 Interpretive Material Regarding Future Priced Securities and Other Securities with Variable Conversion Terms

Summary

Provisions of this Supplementary Material .04 would apply to any security with variable conversion terms. For example, Future Priced Securities are private financing instruments which were created as an alternative means of quickly raising capital for Companies. The security is generally structured in the form of a convertible security and is often issued via a private placement. Companies will typically receive all capital proceeds at the closing. The conversion price of the Future Priced Security is generally linked to a percentage discount to the market price of the underlying common stock at the time of conversion and accordingly the conversion rate for Future Priced Securities floats with the market price of the common stock. As such, the lower the price of the Company's common stock at the time of conversion, the more shares into which the Future Priced Security is convertible. The delay in setting the conversion price is appealing to Companies who believe that their stock will achieve greater value after the financing is received. However, the issuance of Future Priced Securities may be followed by a decline in the common stock price, creating additional dilution to the existing holders of the common stock. Such a price decline allows holders to convert the Future Priced Security into large amounts of the Company's common stock. As these shares are issued upon conversion of the Future Priced Security, the common stock price may tend to decline further.

For example, a Company may issue \$10 million of convertible preferred stock (the Future Priced Security), which is convertible by the holder or holders into \$10 million of common stock based on a conversion price of 80% of the closing price of the common stock on the date of conversion. If the closing price is \$5 on the date of conversion, the Future Priced Security holders would receive 2,500,000 shares of common stock. If, on the other hand, the closing price is \$1 on the date of conversion, the Future Priced Security holders would receive 12,500,000 shares of common stock.

Unless the Company carefully considers the terms of the securities in connection with several IEX Rules, the issuance of Future Priced Securities could result in a failure to comply with the Exchange listing standards and the concomitant delisting of the Company's securities from the Exchange. The Exchange understands that Companies do not always appreciate this potential consequence. The IEX Rules that bear upon the continued listing qualification of a Company and that must be considered when issuing Future Priced Securities include:

- (a) the shareholder approval rules [see IEX Rule 14.412]*
- (b) the voting rights rules [see IEX Rule 14.413]*
- (c) the bid price requirement [see IEX Rule 14.320(a)(1)]*
- (d) the listing of additional shares rules [see IEX Rule 14.207(e)(2)]*
- (e) the change in control rules [see IEX Rules 14.102 and 14.412(b)]*
- (f) the Exchange's discretionary authority rules [see IEX Rule Series 14.100]*

It is important for Companies to clearly understand that failure to comply with any of these rules could result in the delisting of the Company's securities.

This notice is intended to be of assistance to Companies considering financings involving Future Priced Securities. By adhering to the above requirements, Companies can avoid unintended listing qualifications problems. Companies having any questions about this notice should contact IEX Regulation. The Exchange will provide a Company with a written interpretation of the application of the IEX Rules to a specific transaction, upon request of the Company.

How the Rules Apply

Shareholder Approval

IEX Rule 14.412(d) requires shareholder approval prior to a 20% Issuance at a price that is less than the Minimum Price.

(The Exchange may make exceptions to this requirement when the delay in securing stockholder approval would seriously jeopardize the financial viability of the enterprise and reliance by the Company on this exception is expressly approved by the Audit Committee or a comparable body of the Board of Directors.)

When the Exchange staff is unable to determine the number of shares to be issued in a transaction, it looks to the maximum potential issuance of shares to determine whether there will be an issuance of 20 percent or more of the common stock outstanding. In the case of Future Priced Securities, the actual conversion price is dependent on the market price at the time of conversion and so the number of shares that will be issued is uncertain until the conversion occurs. Accordingly, staff will look to the maximum potential issuance of common shares at the time the Future Priced Security is issued. Typically, with a Future Priced Security, the maximum potential issuance will exceed 20 percent of the common stock outstanding because the Future Priced Security could, potentially, be converted into common stock based on a share price of one cent per share, or less. Further, for purposes of this calculation, the lowest possible conversion price is below the Minimum Price of the stock for purposes of Rule 14.412(d) at the time of issuance of the Future Priced Security. Therefore, shareholder approval must be obtained prior to the issuance of the Future Priced Security. Companies should also be cautioned that obtaining shareholder ratification of the transaction after the issuance of a Future Priced Security does not satisfy the shareholder approval requirements.

Some Future Priced Securities may contain features to obviate the need for shareholder approval by: (1) placing a cap on the number of shares that can be issued upon conversion, such that the holders of the Future Priced Security cannot, without prior shareholder approval, convert the security into 20% or more of the common stock or voting power outstanding before the issuance of the Future Priced Security (See Supplementary Material .02 to IEX Rule 14.412, Interpretative Material Regarding the Use of Share Caps to Comply with IEX Rule 14.412), or (2) placing a floor on the conversion price, such that the conversion price will always be at least as high as the Minimum Price prior to the issuance of the Future Priced Securities. Even when a Future Priced Security contains these features, however, shareholder approval is still required under IEX Rule 14.412(b) if the issuance will result in a change of control. Additionally, discounted issuances of common stock to officers, directors, employees or consultants require shareholder approval pursuant to IEX Rule 14.412(c).

Voting Rights

IEX Rule 14.413 provides:

Voting rights of existing Shareholders of publicly traded common stock registered under Section 12 of the Act cannot be disparately reduced or restricted through any corporate action or issuance.

Supplementary Material .01 to IEX Rule 14.413 also provides rules relating to voting rights of the Exchange Companies.

Under the voting rights rules, a Company cannot create a new class of security that votes at a higher rate than an existing class of securities or take any other action that has the effect of restricting or reducing the voting rights of an existing class of securities. The voting rights rules are typically implicated when the holders of the Future Priced Security are entitled to vote on an as-converted basis or when the holders of the Future Priced Security are entitled to representation on the Board of Directors. The percentage of the overall vote attributable to the Future Priced Security holders and the Future Priced Security holders' representation on the board of directors must not exceed their relative contribution to the Company based on the Minimum Price at the time of the issuance of the Future Priced Security. Staff will consider whether a voting rights violation exists by comparing the Future Priced Security holders' voting rights to their relative contribution to the Company based on the Minimum Price at the time of the issuance of the Future Priced Security. If the voting power or the board percentage exceeds that percentage interest, a violation exists because a new class of securities has been created that votes at a higher rate than an already existing class. Future Priced Securities that vote on an as-converted basis also raise voting rights concerns because of the possibility that, due to a decline in the price of the underlying common stock, the Future Priced Security holder will have voting rights disproportionate to its investment in the Company.

It is important to note that compliance with the shareholder approval rules prior to the issuance of a Future Priced Security does not affect whether the transaction is in violation of the voting rights rule. Furthermore, Shareholders can not otherwise agree to permit

a voting rights violation by the Company. Because a violation of the voting rights requirement can result in delisting of the Company's securities from the Exchange, careful attention must be given to this issue to prevent a violation of the rule.

The Bid Price Requirement

The bid price requirement establishes a minimum bid price for issues listed on the Exchange. The IEX Rules provide that, for an issue to be eligible for continued listing on the Exchange, the minimum bid price per share shall be \$1. An issue is subject to delisting from the Exchange, as described in IEX Rule Series 14.500 if its bid price falls below \$1.

The bid price rules must be thoroughly considered because the characteristics of Future Priced Securities often exert downward pressure on the price of the Company's common stock. Specifically, dilution from the discounted conversion of the Future Priced Security may result in a significant decline in the price of the common stock. Furthermore, there appear to be instances where short selling has contributed to a substantial price decline, which, in turn, could lead to a failure to comply with the bid price requirement. (If used to manipulate the price of the stock, short selling by the holders of the Future Priced Security is prohibited by the antifraud provisions of the securities laws and by the IEX Rules and may be prohibited by the terms of the placement.)

Listing of Additional Shares

IEX Rule 14.207(e)(2) provides:

The Company shall be required to notify the Exchange on the appropriate form no later than 15 calendar days prior to: establishing or materially amending a stock option plan, purchase plan or other equity compensation arrangement pursuant to which stock may be acquired by officers, directors, employees, or consultants without shareholder approval; issuing securities that may potentially result in a change of control of the Company; issuing any common stock or security convertible into common stock in connection with the acquisition of the stock or assets of another company, if any officer or director or Substantial Shareholder of the Company has a 5% or greater interest (or if such persons collectively have a 10% or greater interest) in the Company to be acquired or in the consideration to be paid; or entering into a transaction that may result in the potential issuance of common stock (or securities convertible into common stock) greater than 10% of either the total shares outstanding or the voting power outstanding on a pre-transaction basis.

Companies should be cognizant that under this IEX Rule notification is required at least 15 days prior to issuing any security (including a Future Priced Security) convertible into shares of a class of securities already listed on the Exchange. Failure to provide such notice can result in a Company's removal from the Exchange.

Public Interest Concerns

IEX Rule 14.101 provides:

The Exchange is entrusted with the authority to preserve and strengthen the quality of and public confidence in its market. The Exchange stands for integrity and ethical business practices in order to enhance investor confidence, thereby contributing to the financial health of the economy and supporting the capital formation process. The Exchange Companies, from new public Companies to Companies of international stature, are publicly recognized as sharing these important objectives.

The Exchange, therefore, in addition to applying the enumerated criteria set forth in the Listing Rules, has broad discretionary authority over the initial and continued listing of securities in the Exchange in order to maintain the quality, transparency and integrity of and public confidence in its market; to prevent fraudulent and manipulative acts and practices; to promote just and equitable principles of trade; and to protect investors and the public interest; and to protect the safety and security of the Exchange and its employees. The Exchange may use such discretion to deny initial listing, apply additional or more stringent criteria for the initial or continued listing of particular securities, or suspend or delist particular securities based on any event, condition, or circumstance that exists or occurs that makes initial or continued listing of the securities on the Exchange inadvisable or unwarranted in the opinion of the Exchange, even though the securities meet all enumerated criteria for initial or continued listing on the Exchange.

The returns on Future Priced Securities may become excessive compared with those of public investors in the Company's common securities. In egregious situations, the use of a Future Priced Security may raise public interest concerns under IEX Rule 14.101. In addition to the demonstrable business purpose of the transaction, other factors that the Exchange staff will consider in determining whether a transaction raises public interest concerns include: (1) the amount raised in the transaction relative to the Company's existing capital structure; (2) the dilutive effect of the transaction on the existing holders of common stock; (3) the risk undertaken

by the Future Priced Security investor; (4) the relationship between the Future Priced Security investor and the Company; (5) whether the transaction was preceded by other similar transactions; and (6) whether the transaction is consistent with the just and equitable principles of trade.

Some Future Priced Securities may contain features that address the public interest concerns. These features tend to provide incentives to the investor to hold the security for a longer time period and limit the number of shares into which the Future Priced Security may be converted.

Such features may limit the dilutive effect of the transaction and increase the risk undertaken by the Future Priced Security investor in relationship to the reward available.

Business Combinations with non-IEX Entities Resulting in a Change of Control

IEX Rule 14.102(a) provides:

A Company must apply for initial listing in connection with a transaction whereby the Company combines with, or into, an entity that is not an IEX Company, resulting in a change of control of the Company and potentially allowing such entity to obtain an Exchange Listing. In determining whether a change of control has occurred, the Exchange shall consider all relevant factors including, but not limited to, changes in the management, board of directors, voting power, ownership, and financial structure of the Company. The Exchange shall also consider the nature of the businesses and the relative size of the IEX Company and entity that is not an IEX Company. The Company must submit an application for the post-transaction entity with sufficient time to allow the Exchange to complete its review before the transaction is completed. If the Company's application for initial listing has not been approved prior to consummation of the transaction, the Exchange will issue a Staff Determination Letter as set forth in IEX Rule 14.501 and begin delisting proceedings pursuant to IEX Rule 14.500.

This provision, which applies regardless of whether the Company obtains shareholder approval for the transaction, requires Companies to qualify under the initial listing standards in connection with a combination that results in a change of control. It is important for Companies to realize that in certain instances, the conversion of a Future Priced Security may implicate this provision. For example, if there is no limit on the number of common shares issuable upon conversion, or if the limit is set high enough, the exercise of conversion rights under a Future Priced Security could result in the holders of the Future Priced Securities obtaining control of the listed Company. In such event, a Company may be required to re-apply for initial listing and satisfy all initial listing requirements.

(Amended by SR-IEX-2019-03 eff. March 26, 2019).

Rule 14.413. Voting Rights

Voting rights of existing Shareholders of publicly traded common stock registered under Section 12 of the Act cannot be disparately reduced or restricted through any corporate action or issuance. Examples of such corporate action or issuance include, but are not limited to, the adoption of time-phased voting plans, the adoption of capped voting rights plans, the issuance of super-voting stock, or the issuance of stock with voting rights less than the per share voting rights of the existing common stock through an exchange offer.

• • • Supplementary Material • • •

.01 Voting Rights Policy

The following Voting Rights Policy is based upon, but more flexible than, former Rule 19c-4 under the Act. Accordingly, the Exchange will permit corporate actions or issuances by the Exchange Companies that would have been permitted under former Rule 19c-4, as well as other actions or issuances that are not inconsistent with this policy. In evaluating such other actions or issuances, the Exchange will consider, among other things, the economics of such actions or issuances and the voting rights being granted. The Exchange's

interpretations under the policy will be flexible, recognizing that both the capital markets and the circumstances and needs of the Exchange Companies change over time. The text of the Exchange Voting Rights Policy is as follows:

Companies with Dual Class Structures.

The restriction against the issuance of super voting stock is primarily intended to apply to the issuance of a new class of stock, and Companies with existing dual class capital structures would generally be permitted to issue additional shares of the existing super voting stock without conflict with this policy.

Consultation with the Exchange.

Violation of the Exchange Voting Rights Policy could result in the loss of a Company's Exchange or public trading market. The policy can apply to a variety of corporate actions and securities issuances, not just super voting or so-called "time phase" voting common stock. While the policy will continue to permit actions previously permitted under former Rule 19c-4, it is extremely important that the IEX Companies communicate their intentions to their Exchange representatives as early as possible before taking any action or committing to take any action that may be inconsistent with the policy. The Exchange urges Companies listed on the Exchange not to assume, without first discussing the matter with the Exchange staff, that a particular issuance of common or preferred stock or the taking of some other corporate action will necessarily be consistent with the policy. It is suggested that copies of preliminary proxy or other material concerning matters subject to the policy be furnished to the Exchange for review prior to formal filing.

Review of Past Voting Rights Activities.

In reviewing an application for initial qualification for listing of a security in the Exchange, the Exchange will review the Company's past corporate actions to determine whether another self-regulatory organization (SRO) has found any of the Company's actions to have been a violation or evasion of the SRO's voting rights policy. Based on such review, the Exchange may take any appropriate action, including the denial of the application or the placing of restrictions on such listing. The Exchange will also review whether a Company seeking initial listing of a security in the Exchange has requested a ruling or interpretation from another SRO regarding the application of that SRO's voting rights policy with respect to a proposed transaction. If so, the Exchange will consider that fact in determining its response to any ruling or interpretation that the Company may request on the same or similar transaction.

Non-U.S. Companies.

The Exchange will accept any action or issuance relating to the voting rights structure of a non-U.S. Company that is in compliance with the Exchange's requirements for domestic Companies or that is not prohibited by the Company's home country law.

Rule 14.414. Internal Audit Function

(a) Each Company must establish and maintain an internal audit function to provide management and the audit committee with ongoing assessments of the Company's risk management process and system of internal control. The Company may choose to outsource this function to a third party service provider other than its independent auditor. The audit committee must meet periodically with the internal auditors (or other personnel responsible for this function) and assist the Board in its oversight of the performance of this function. The audit committee should also discuss with the outside auditor the responsibilities, budget and staffing of the internal audit function.

(b) Transition Periods

- (1) A Company listing in conjunction with its initial public offering or a spin-off transaction must comply with the requirements of IEX Rule 14.414(a) within one year of the listing date.
- (2) A Company previously registered pursuant to Section 12(b) of the Exchange Act must satisfy the requirements of IEX Rule 14.414(a) within one year of the listing date to the extent the national securities exchange on which it was listed did not have the same requirement. If the other exchange had a substantially similar requirement

and the company was afforded a transition period that had not expired, the company will have the same transition period as would have been available to it on the other exchange.

Rule 14.500. Failure to Meet Listing Standards

- (a) Securities of a Company that does not meet the listing standards set forth in Chapters 14 and 16 are subject to delisting from the Exchange. This Section sets forth procedures for the independent review, suspension, and delisting of Companies that fail to satisfy one or more standards for continued listing and thus are “deficient” with respect to the listing standards.

IEX Regulation is responsible for identifying deficiencies that may lead to delisting; notifying the Company of the deficiency; and issuing Staff Delisting Determinations and Public Reprimand Letters. Rule 14.501 contains provisions regarding IEX Regulation’s process for notifying Companies of different types of deficiencies and their corresponding consequences.

The Listings Review Committee, upon timely request by a Company, will review a Staff Delisting Determination or Public Reprimand Letter at an oral or written hearing, and issue a Decision that may, among other things, grant an “exception” to the Exchange’s listing standards or affirm a delisting. Rule 14.502 contains provisions relating to the hearings process.

Procedures related to SEC notification of the Exchange’s final Delisting Determinations are discussed in IEX Rule 14.503. Rules applicable to the Listings Review Committee and Advisors are provided in IEX Rule 14.504 and general information relating to the adjudicatory process is provided in IEX Rule 14.505.

A Company’s failure to maintain compliance with the applicable provisions of Chapters 14 and 16 will result in the termination of the listing unless an exception is granted to the Company, as described below. The termination of the Company’s listing will become effective in accordance with the procedures set forth herein, including IEX Rule 14.503.

(b) Definitions

- (1) “Advisor” means an individual employed by the Exchange who is advising the Listings Review Committee with respect to a proceeding under this section.
- (2) “Decision” means a written decision of an Adjudicatory Body.
- (3) “IEX Regulation” is the department of the Exchange responsible for evaluating Company compliance with quantitative and qualitative listing standards and determining eligibility for initial and continued listing of a Company’s securities.
- (4) The “Listings Review Committee” is the committee designated by the Exchange’s Board of Directors to review Company appeals of Staff Delisting Determinations and Public Reprimand Letters. The Listings Review Committee shall be composed of at least five members. Any action by the Listings Review Committee shall require a quorum, which shall be at least three members.
- (5) “Public Reprimand Letter” means a letter issued by Staff or a Decision of the Listings Review Committee in cases where the Company has violated an Exchange corporate governance or notification listing standard (other than one required by Rule 10A-3 of the Act) and Staff or the Listings Review Committee determines that delisting is an inappropriate sanction. In determining whether to issue a Public Reprimand Letter, Staff or the Listings Review Committee will consider whether the violation was inadvertent, whether the violation materially

adversely affected shareholders' interests, whether the violation has been cured, whether the Company reasonably relied on an independent advisor and whether the Company has demonstrated a pattern of violations.

- (6) "Staff" refers to employees of IEX Regulation.
- (7) "Staff Delisting Determination" or "Delisting Determination" is a written determination by IEX Regulation to delist a listed Company's securities for failure to meet a continued listing standard.

(Amended by SR-IEX-2017-14 eff. June 12, 2017).

Rule 14.501. Notification of Deficiency by IEX Regulation

- (a) When IEX Regulation determines that a Company does not meet a listing standard set forth in Chapters 14 and 16, it will immediately notify the Company of the deficiency. As explained in more detail below, deficiency notifications are of four types:
 - (1) Staff Delisting Determinations, which are notifications of deficiencies that, unless appealed, subject the Company to immediate suspension and delisting;
 - (2) notifications of deficiencies for which a Company may submit a plan of compliance for staff review;
 - (3) notifications of deficiencies for which a Company is entitled to an automatic cure or compliance period; and
 - (4) Public Reprimand Letters, except such notification type is not available for unresolved deficiencies from the standards of Rules 14.207(c) {Obligation to File Periodic Financial Reports}, 14.407(a)(4)(D) {Partner Meetings of Limited Partnerships} and 14.408(a) {Meetings of Shareholders}.

Notifications of deficiencies that allow for submission of a compliance plan or an automatic cure or compliance period may result, after review of the compliance plan or expiration of the cure or compliance period, in issuance of a Staff Delisting Determination or a Public Reprimand Letter.

(b) Information Contained in Deficiency Notification and Delisting Determination

Deficiency notifications and Delisting Determinations will:

- (1) inform the Company of the factual bases for Staff's determination of deficiency or delisting, and the quantitative or qualitative standard the Company has failed to satisfy;
- (2) provide the Company with instructions regarding its obligations to disclose the deficiency under Exchange Listing Rules; and
- (3) inform the Company:
 - (A) in the case of a Staff Delisting Determination, that the Company's securities will be suspended as of a date certain; the Company has a right to request review of the Delisting Determination by the Listings Review Committee; and that a request for review within seven days (as set forth in IEX Rule 14.502(a)(1)) will stay the suspension;

- (B) in the case of a deficiency for which the Company may submit a plan of compliance for review by Staff, the deadline by which a plan must be submitted;
- (C) in the case of a deficiency for which the Company is entitled to an automatic cure or compliance period, the expiration date of the cure or compliance period; and
- (D) in the case of a Public Reprimand Letter, an explanation of why Staff concluded the letter is appropriate and the Company's right to request review of the Letter by Listings Review Committee.

(c) Company Disclosure Obligations

A Company that receives a notification of deficiency, Staff Delisting Determination, or Public Reprimand Letter is required to make a public announcement disclosing receipt of the notification and the Rule(s) upon which the deficiency is based. A Company that receives a notification of deficiency or Staff Delisting Determination related to the requirement to file a periodic report contained in IEX Rule 14.207(c)(1) or (2) is required to make the public announcement by issuing a press release disclosing receipt of the notification and the Rule(s) upon which the deficiency is based, in addition to filing any Form 8-K required by SEC rules. In all other cases, the Company may make the public announcement either by filing a Form 8-K, where required by SEC rules, or by issuing a press release. As described in IEX Rule 14.207(b)(1) and Supplementary Material .01 to IEX Rule 14.207 (Disclosure of Material Information), the Company must notify IEX Regulation about the announcement through the electronic disclosure submission system available on the Exchange's Web site, except in emergency situations when notification may instead be provided by telephone or facsimile. If the public announcement is made during System Hours (as defined in IEX Rule 1.160(oo)), the Company must notify IEX Regulation at least ten minutes prior to the announcement. If the public announcement is made outside of System Hours (as defined in IEX Rule 1.160(oo)), the Company must notify IEX Regulation of the announcement at least 10 minutes prior to the start of System Hours (as defined in IEX Rule 1.160(oo)). The Company should make the public announcement as promptly as possible but not more than four business days following receipt of the notification.

• • • **Supplementary Material** • • •

.01 Disclosure of Written Notice of Staff Determination

IEX Rule 14.501(c) requires that a Company make a public announcement by filing a Form 8-K, where required by SEC rules, or by issuing a press release disclosing the receipt of (i) a notice that the Company does not meet a listing standard set forth in Chapter 14 or 16, (ii) a Staff Delisting Determination to limit or prohibit continued listing of the Company's securities under IEX Rule 14.501 as a result of the Company's failure to comply with the continued listing requirements, or (iii) a Public Reprimand Letter; provided, however, that if the notification relates to a failure to meet the requirements of IEX Rules 14.207(c)(1) or (2), the Company must make the public announcement by issuing a press release. Such public announcement shall be made as promptly as possible, but not more than four business days following the receipt of the notification, Staff Delisting Determination, or Public Reprimand Letter, as applicable. In addition to containing all disclosure required by Form 8-K, if applicable, the public announcement must describe each specific basis and concern identified by IEX Regulation in its determination that the Company does not meet the listing standard and identify the Rules upon which the deficiency is based. For example, if the IEX Regulation determines to delist a Company based on its discretionary authority under IEX Rule 14.101, the Company must include in its public announcement the specific concerns cited in the Staff Delisting Determination. In addition, a Company may provide its own analysis of the issues raised in the Staff Delisting Determination.

If the public announcement is not made by the Company within the time allotted or does not include all of the required information, trading of its securities shall be halted (if not already halted), even if the Company appeals the Staff Delisting Determination or Public

Reprimand Letter as set forth in IEX Rule 14.502, and IEX Regulation may make a public announcement with the required information. If the company's failure to make this public announcement is the only basis for a trading halt, IEX would ordinarily resume trading if IEX Regulation makes the public announcement. If the Company fails to make the public announcement by the time that the Hearings Panel issues its Decision, that Decision will also determine whether to delist the Company's securities for failure to make the public announcement.

IEX Rule 14.501(c) does not relieve a Company of its disclosure obligation under the federal securities laws, nor should it be construed as providing a safe harbor under the federal securities laws. It is suggested that the Company consult with corporate/securities counsel in assessing its disclosure obligations under the federal securities laws.

(d) Types of Deficiencies and Notifications

The type of deficiency at issue determines whether the Company will be immediately suspended and delisted, or whether it may submit a compliance plan for review or is entitled to an automatic cure or compliance period before a Staff Delisting Determination is issued. In the case of a deficiency not specified below, Staff will issue the Company a Staff Delisting Determination or a Public Reprimand Letter.

(1) Deficiencies that Immediately Result in a Staff Delisting Determination.

Staff's notice will inform the Company that its securities are immediately subject to suspension and delisting when:

- (A) a Company fails to timely solicit proxies; or
- (B) Staff has determined, under its discretionary authority in IEX Rule 14.101, that the Company's continued listing raises a public interest concern.

(2) Deficiencies for which a Company may Submit a Plan of Compliance for Staff Review.

- (A) Submission of Plan of Compliance. Unless the Company is currently under review by the Listings Review Committee for a Staff Delisting Determination, IEX Regulation may accept and review a plan to regain compliance when a Company is deficient with respect to one of the standards listed in subsections (i) through (vi) below. In accordance with Rule 14.501(d)(2)(C), plans provided pursuant to subsections (i) through (iv) and (vi) below must be provided generally within 45 calendar days, and in accordance with Rule 14.501(d)(2)(F), plans provided pursuant to subsection (v) must be provided generally within 60 calendar days.
 - (i) all quantitative deficiencies from standards that do not provide a compliance period;
 - (ii) deficiencies from the standards of IEX Rules 14.405 (Board of Directors and Committees) or 14.407(a)(4)(C) (Independent Directors/Audit Committee of Limited Partnerships) where the cure period of the Rule is not applicable;
 - (iii) deficiencies from the standards of IEX Rules 14.408(a) {Meetings of Shareholders}, 14.408 (c) {Quorum}, 14.411 {Review of Related Party Transactions}, 14.412 {Shareholder Approval}, 14.207(c)(3) {Auditor Registration}, 14.208(a) {Direct Registration Program}, 14.406 {Code of Conduct}, 14.407(a)(4)(D) {Partner Meetings of Limited Partners}, 14.407(a)(4)(E) {Quorum of Limited

Partnerships}, 14.407(a)(4)(G) {Related Party Transactions of Limited Partnerships}, 14.413 {Voting Rights}, or 14.414 {Internal Audit Function};

- (iv) failure to make the disclosure required by IEX Rule 14.207(b)(3);
 - (v) failure to file periodic reports as required by IEX Rule 14.207(c)(1) or (2); or
 - (vi) failure to meet a continued listing requirement contained in Chapter 16.
- (B) Staff Alternatives Upon Review of Plan. Staff may request such additional information from the Company as is necessary to make a determination, as described below. In cases other than filing delinquencies and annual meeting deficiencies, which are governed by IEX Rule 14.501(d)(2)(F) and 14.501(d)(2)(G), respectively, upon review of a plan of compliance, Staff may either:
- (i) grant an extension of time to regain compliance not greater than 180 calendar days from the date of Staff's initial notification, unless the Company is currently under review by the Listings Review Committee for a Staff Delisting Determination. If Staff grants an extension, it will inform the Company in writing of the basis for granting the extension and the terms of the extension;
 - (ii) issue a Staff Delisting Determination letter that includes a description of the basis for denying the extension; or
 - (iii) issue a Public Reprimand Letter, as defined in IEX Rule 14.500(b)(5).
- (C) Timeline for Submission of Compliance Plans. Except for deficiencies from the standards of IEX Rule 14.207(c)(1) or (2), Staff's notification of deficiencies that allow for compliance plan review will inform the Company that it has 45 calendar days to submit a plan to regain compliance with the Exchange's listing standard(s). Staff may extend this deadline for up to an additional 5 calendar days upon good cause shown and may request such additional information from the Company as is necessary to make a determination regarding whether to grant such an extension.
- (D) Restrictions on Compliance Plans for Certain Deficiencies. Staff will not accept a plan to achieve compliance with deficiencies in total assets and total revenue, since compliance requires stated levels of assets and revenues during completed fiscal years and therefore can only be demonstrated through audited financial statements. Similarly, a Company may not submit a plan relying on partial-year performance to demonstrate compliance with these standards. A Company may, however, submit a plan that demonstrates current or near-term compliance with the listing requirement relating to stockholders' equity or Market Value of Listed Securities.
- (E) Failure to Meet the Terms of a Staff Extension. If the Company does not regain compliance within the time period provided by all applicable Staff extensions, Staff will immediately issue a Staff Delisting Determination indicating the date on which the Company's securities will be suspended unless it requests review by a Hearings Panel.
- (F) Filing Delinquencies. In the case of deficiencies from the standards of IEX Rule 14.207(c)(1) or (2):

- (i) Staff's notice shall provide the Company with 60 calendar days to submit a plan to regain compliance with the listing standard; provided, however, that the Company shall not be provided with an opportunity to submit such a plan if review under IEX Rule 14.500 of a prior Staff Delisting Determination with respect to the Company is already pending. Staff may extend this deadline for up to an additional 15 calendar days upon good cause shown and may request such additional information from the Company as is necessary to make a determination regarding whether to grant such an extension.
 - (ii) The maximum additional time provided by all exceptions granted by Staff for a deficiency described in paragraph (i) above is 180 calendar days from the due date of the first late periodic report (as extended by Rule 12b-25 under the Act, if applicable). In determining whether to grant an exception, and the length of any such exception, Staff will consider, and the Company should address in its plan of compliance, the Company's specific circumstances, including the likelihood that the filing can be made within the exception period, the Company's past compliance history, the reasons for the late filing, corporate events that may occur within the exception period, the Company's general financial status, and the Company's disclosures to the market. This review will be based on information provided by a variety of sources, which may include the Company, its audit committee, its outside auditors, the staff of the SEC and any other regulatory body.
- (G) Annual Meeting. In the case of deficiencies from the standards of Rules 14.408(a) and 14.407(a)(4)(D):
- (i) Staff's notice shall provide the Company with 45 calendar days to submit a plan to regain compliance with the listing standard; provided, however, that the Company shall not be provided with an opportunity to submit such a plan if review under the Rule Series 14.500 of a prior Staff Delisting Determination with respect to the Company is already pending. Staff may extend this deadline for up to an additional 15 calendar days upon good cause shown and may request such additional information from the Company as is necessary to make a determination regarding whether to grant such an extension.
 - (ii) The maximum additional time provided by all exceptions granted by Staff is 180 calendar days from the deadline to hold the annual meeting (one year after the end of the Company's fiscal year). In determining whether to grant an exception, and the length of any such exception, Staff will consider, and the Company should address in its plan of compliance, the Company's specific circumstances, including the likelihood that the Company would be able to hold an annual meeting within the exception period, the Company's past compliance history, the reasons for the failure to hold the annual meeting timely, corporate events that may occur within the exception period, the Company's general financial status, and the Company's disclosures to the market. This review will be based on information provided by a variety of sources, which may include the Company, its audit committee, its outside auditors, the staff of the SEC and any other regulatory body.

(3) Deficiencies for which the Rules Provide a Specified Cure or Compliance Period.

With respect to deficiencies related to the standards listed in (A) - (E) below, Staff's notification will inform the Company of the applicable cure or compliance period provided by these Rules and discussed below. If the Company does not regain compliance within the specified cure or compliance period, IEX Regulation will immediately issue a Staff Delisting Determination letter.

- (A) **Bid Price Requirement.** A failure to meet the continued listing requirement for minimum bid price shall be determined to exist only if the deficiency continues for a period of 30 consecutive business days. Upon such failure, the Company shall be notified promptly and shall have a period of 180 calendar days from such notification to achieve compliance. Compliance can be achieved during any compliance period by meeting the applicable standard for a minimum of 10 consecutive business days during the applicable compliance period, unless Staff exercises its discretion to extend this 10 day period as discussed in IEX Rule 14.501(d)(3)(F).
- (B) **Market Makers.** A failure to meet the continued listing requirement for a number of Market Makers shall be determined to exist only if the deficiency continues for a period of 10 consecutive business days. Upon such failure, the Company shall be notified promptly and shall have a period of 30 calendar days from such notification to achieve compliance. Compliance can be achieved by meeting the applicable standard for a minimum of 10 consecutive business days during the 30 day compliance period.
- (C) **Market Value of Listed Securities.** A failure to meet the continued listing requirements for Market Value of Listed Securities shall be determined to exist only if the deficiency continues for a period of 30 consecutive business days. Upon such failure, the Company shall be notified promptly and shall have a period of 180 calendar days from such notification to achieve compliance. Compliance can be achieved by meeting the applicable standard for a minimum of 10 consecutive business days during the 180 day compliance period.
- (D) **Market Value of Publicly Held Shares.** A failure to meet the continued listing requirement for Market Value of Publicly Held Shares shall be determined to exist only if the deficiency continues for a period of 30 consecutive business days. Upon such failure, the Company shall be notified promptly and shall have a period of 180 calendar days from such notification to achieve compliance. Compliance can be achieved by meeting the applicable standard for a minimum of 10 consecutive business days during the 180 day compliance period.
- (E) **Independent Director and Audit Committee Rules.** If a Company fails to meet the majority board independence requirement in IEX Rule 14.405(b)(1) due to one vacancy, or because one director ceases to be independent for reasons beyond his/her reasonable control, IEX Regulation will promptly notify the Company and inform it has until the earlier of its next annual shareholders meeting or one year from the event that caused the deficiency to cure the deficiency. However, if the Company's next annual shareholders' meeting is held sooner than 180 days after the event that caused the deficiency, then the Company has 180 days from the event that caused the deficiency to cure it.

If a Company fails to meet the audit committee composition requirements in IEX Rule 14.405(c)(2) because an audit committee member ceases to be independent for reasons outside his/her control, IEX Regulation will promptly notify the Company and inform it that has until the earlier of its next annual shareholders meeting or one year from the occurrence of the event that caused the failure, to cure the deficiency. If the Company fails to meet the audit committee composition requirement due to one vacancy on the audit committee, and the Company is not relying upon a cure period for another member, IEX Regulation will promptly notify the Company and inform it that it has until the earlier of its next annual shareholders meeting or one year from the event that caused the failure to cure the deficiency. However, if the Company's next annual shareholders' meeting is held sooner than 180 days after the event that

caused the deficiency, then the Company has 180 days from the event that caused the deficiency to cure it.

(F) **Staff Discretion Relating to the Price-based Requirements.** If a Company fails to meet the Market Value of Listed Securities, Market Value of Publicly Held Shares, or Bid Price requirements, each of which is related to the Company's security price and collectively called the "Price-based Requirements," compliance is generally achieved by meeting the requirement for a minimum of ten consecutive business days. However, Staff may, in its discretion, require a Company to satisfy the applicable Price-based Requirement for a period in excess of ten consecutive business days, but generally no more than 20 consecutive business days, before determining that the Company has demonstrated an ability to maintain long-term compliance. In determining whether to require a Company to meet the applicable Price-based requirement beyond ten business days, Staff may consider all relevant facts and circumstances, including without limitation:

- (i) the margin of compliance (the amount by which a Company exceeds the applicable Price-based requirement);
- (ii) the trading volume (a lack of trading volume may indicate a lack of bona fide market interest in the security at the posted bid price);
- (iii) the Market Maker quoting activity (the number of Market Makers quoting at or above \$1.00 or the minimum price necessary to satisfy another Price-based Requirement; and the size of their quotes); and
- (iv) the trend of the stock price (is it up or down).

(4) **Public Reprimand Letter.**

Staff's notification may be in the form of a Public Reprimand Letter in cases where the Company has violated an Exchange corporate governance or notification listing standard (other than one required by Rule 10A-3 of the Act) and Staff determines that delisting is an inappropriate sanction. In determining whether to issue a public reprimand letter, IEX Regulation will consider whether the violation was inadvertent, whether the violation materially adversely affected shareholders' interests, whether the violation has been cured, whether the Company reasonably relied on an independent advisor and whether the Company has demonstrated a pattern of violations.

(e) **Additional Deficiencies**

IEX Regulation continues to evaluate the compliance of Companies while they are under review by the Listings Review Committee and may identify additional deficiencies. Upon identification of an additional deficiency, Staff will issue an additional notification of deficiency to the Company and send a copy to the Listings Review Committee.

- (1) Staff's notification of the additional deficiency will conform to the requirements set forth in IEX Rule 14.501(b) if:
 - (A) the matter under review by the Listings Review Committee is a Public Reprimand Letter; or

- (B) the additional deficiency identified is one that has an automatic cure or compliance period. If the additional deficiency is one that would in the normal course result in immediate suspension and delisting, or one for which the Company may submit a compliance plan to Staff for review, Staff's notification will instruct the Company to address the issue to the Listings Review Committee at its hearing, unless the hearing for the original deficiency has already taken place. If the hearing has already taken place, Staff's notification will instruct the Company to provide in writing, within a specified time period, a submission that addresses the deficiency to the Listings Review Committee before which its matter is pending.

Rule 14.502. Review of Staff Determinations by the Listings Review Committee

When a Company receives a Staff Delisting Determination or a Public Reprimand Letter issued by IEX Regulation it may request in writing that the Listings Review Committee review the matter in a written or an oral hearing. This section sets forth the procedures for requesting a hearing before the Listings Review Committee, describes the Listings Review Committee and the possible outcomes of a hearing, and sets forth Listings Review Committee procedures.

(a) Procedures for Requesting and Preparing for a Hearing

(1) Timely Request Stays Delisting

- (A) A Company may, within seven calendar days of the date of the Staff Delisting Determination notification or Public Reprimand Letter request a written or oral hearing before the Listings Review Committee to review the Staff Delisting Determination or Public Reprimand Letter. Subject to the limitation in paragraph (B) below, a timely request for a hearing will stay the suspension and delisting action pending the issuance of a written Listings Review Committee Decision. Requests for hearings should be submitted in writing to the General Counsel.
- (B) A request for a hearing shall ordinarily stay the delisting action pending the issuance of a Listings Review Committee Decision. However, if the Staff Delisting Determination relates to deficiencies from the standards of IEX Rule 14.207(c)(1) or (2), which require a Company to timely file its periodic reports with the Commission, the delisting action will only be stayed for 15 calendar days from the deadline to request a hearing unless the Company specifically requests and the Listings Review Committee grants a further stay. A request for a further stay must include an explanation of why such a stay would be appropriate and should be included in the Company's request for a hearing. Based on that submission and any recommendation provided by Staff, the Listings Review Committee will determine whether to grant the Company a further stay. In determining whether to grant the stay, the Listings Review Committee will consider the Company's specific circumstances, including the likelihood that the filing can be made within any exception period that could subsequently be granted, the Company's past compliance history, the reasons for the late filing, corporate events that may occur within the exception period, the Company's general financial status, and the Company's disclosures to the market. The Listings Review Committee will notify the Company of its conclusion as soon as is practicable, but in no event more than 15 calendar days following the deadline to request the hearing. In the event the Listings Review Committee determines not to grant the Company a stay, the Company's securities will be immediately suspended and will remain

suspended unless the Listings Review Committee Decision issued after the hearing determines to reinstate the securities.

(2) Failure to Request Results in Immediate Delisting

If a Company fails to request in writing a hearing within seven calendar days, it waives its right to request review of a Delisting Determination or Public Reprimand Letter. In that event, IEX Regulation will take action to suspend trading of the securities and follow procedures to delist the securities.

(3) Fees

Within 15 calendar days of the date of the Staff Delisting Determination or Public Reprimand Letter the Company must submit a hearing fee to the Exchange, to cover the cost of the hearing, as follows:

(A) when the Company has requested a written hearing, \$1,000; or

(B) when the Company has requested an oral hearing, whether in person or by telephone, \$5,000.

(4) Scheduling of Hearings

The General Counsel will schedule hearings to take place, to the extent practicable, within 45 days of the request for a hearing, at a location determined by the General Counsel. The General Counsel will send written acknowledgment of the Company's hearing request and inform the Company of the date, time, and location of the hearing, and deadlines for written submissions to the Listings Review Committee. The Company will be provided at least ten calendar days notice of the hearing unless the Company waives such notice.

(5) Submissions from Company

The Company may submit to the General Counsel a written plan of compliance and request that the Listings Review Committee grant an exception to the listing standards for a limited time period, as permitted by IEX Rule 14.502(b)(1)(A) or may set forth specific grounds for the Company's contention that the issuance of a Staff Delisting Determination or Public Reprimand Letter was in error, and may also submit public documents or other written material in support of its position, including any information not available at the time of the Staff Determination. The Listings Review Committee will review the written record, as described in IEX Rule 14.505(a), before the hearing.

(6) Presentation at Hearing

At an oral hearing, the Company may make such presentation as it deems appropriate, including the appearance by its officers, directors, accountants, counsel, investment bankers, or other persons, and the Listings Review Committee may question any representative appearing at the hearing. Hearings are generally scheduled to last one hour, but the Hearings Panel may extend the time. The General Counsel or his or her designee will arrange for and keep on file a transcript of oral hearings.

(b) Scope of the Listings Review Committee's Discretion

(1) The Listings Review Committee may, where it deems appropriate:

- (A) grant an exception to the continued listing standards for a period not to exceed 180 days from the date of the Staff Delisting Determination with respect to the deficiency for which the exception is granted;
 - (B) suspend and delist the Company's securities;
 - (C) issue a Decision that serves as a Public Reprimand Letter in cases where the Company has violated an Exchange corporate governance or notification listing standard (other than one required by Rule 10A-3 of the Act) and the Listings Review Committee determines that delisting is an inappropriate sanction. In determining whether to issue a Public Reprimand Letter, the Listings Review Committee will consider whether the violation was inadvertent, whether the violation materially adversely affected shareholders' interests, whether the violation has been cured, whether the Company reasonably relied on an independent advisor and whether the Company has demonstrated a pattern of violations;
 - (D) find the Company in compliance with all applicable listing standards; or
 - (E) in the case of a Company that fails to file a periodic report (e.g., Form 10-K, 10-Q, 20-F, 40-F, or N-CSR), the Listings Review Committee may grant an exception for a period not to exceed 360 days from the due date of the first such late periodic report. The Company can regain compliance with the requirement by filing that periodic report and any other delinquent reports with due dates falling before the end of the exception period. In determining whether to grant an exception, and the length of any such exception, the Listings Review Committee will consider the Company's specific circumstances, including the likelihood that the filing can be made within the exception period, the Company's past compliance history, the reasons for the late filing, corporate events that may occur within the exception period, the Company's general financial status, and the Company's disclosures to the market. This review will be based on information provided by a variety of sources, which may include the Company, its audit committee, its outside auditors, the staff of the SEC and any other regulatory body.
 - (F) In the case of a Company or Limited Partnership that fails to hold an annual meeting, the Listings Review Committee may grant an exception for a period not to exceed 360 days from the deadline to hold the annual meeting (one year after the end of the Company's fiscal year).
- (2) The Listings Review Committee may consider any failure to meet any quantitative or qualitative standard for continued listing, including failures previously not considered by Staff. The Company will be given written notice of such consideration and an opportunity to respond.
 - (3) Under the authority described in IEX Rule 14.101, the Listings Review Committee may subject the Company to additional or more stringent criteria for the continued listing of particular securities based on any event, condition, or circumstance that exists or occurs that makes continued listing of the securities inadvisable or unwarranted in its opinion, even though the securities meet all enumerated criteria for continued listing on the Exchange.

(c) Listings Review Committee Procedures

- (1) Decision

After the hearing, the General Counsel, on behalf of the Listings Review Committee, will issue a Decision that meets the requirements of IEX Rule 14.505(c) and has been approved by at least a majority of the members of the Listings Review Committee in attendance. The Listings Review Committee Decision shall be promptly provided to the Company, and is effective immediately upon issuance, unless it specifies to the contrary. If the Listings Review Committee is deadlocked, the Chair's vote shall count twice, or if the Chair is not in attendance, the vote of the next most senior member of the Listings Review Committee shall count twice.

(2) **Form 25 Notification of Delisting**

If the Listings Review Committee issues a Decision to delist the Company's securities, IEX Regulation will immediately take action to suspend trading of the securities, unless the Decision specifies to the contrary, and the Exchange will follow the procedures described in IEX Rule 14.503 to submit an application on Form 25 to the SEC to strike the security from listing.

(3) **Procedures Applicable for Recurring Deficiencies**

(A) **Listings Review Committee Monitor**

The Listings Review Committee may, after a Company regains compliance with all applicable listing standards, monitor the Company's continued compliance for up to one year after the compliance date, if the Listings Review Committee concludes that there is a likelihood that the issuer will fail to maintain compliance with one or more listing standards during that period. If the Listings Review Committee or IEX Regulation determines that a Company under Listings Review Committee monitor fails any listing standard during the monitor period, the Staff will issue a Staff Delisting Determination and the General Counsel or his or her designee will promptly schedule a new hearing. The hearing may be oral or written, at the Company's election.

Notwithstanding IEX Rule 14.501(d)(2), the Company will not be permitted to provide IEX Regulation with a plan of compliance with respect to any deficiency that arises during the monitor period, and IEX Regulation will not be permitted to grant additional time for the Company to regain compliance with respect to any deficiency. The Listings Review Committee will consider the Company's compliance history when rendering its Decision.

(B) **No Listings Review Committee Monitor**

If the Listings Review Committee has not opted to monitor a Company that has regained compliance with the listing standards requiring the Company to maintain certain levels of stockholders' equity or to timely file periodic reports, and within one year of the date the Company regained compliance with such listing standard, IEX Regulation finds the Company again out of compliance with the requirement that was the subject of the exception, then, notwithstanding IEX Rule 14.501(d)(2), IEX Regulation will not allow the Company to provide it with a plan of compliance or grant additional time for the Company to regain compliance. Rather, IEX Regulation will promptly issue a Staff Delisting Determination, and the Company may request review by the Listings Review Committee. The Listings Review Committee will consider the Company's compliance history when rendering its Decision.

(4) **Request for Listings Review Committee Reconsideration**

A Company may request, in writing, that the Listings Review Committee reconsider a Listings Review Committee Decision only upon the basis that a mistake of material fact existed at the time of the Listings Review

Committee Decision. The Company's request for reconsideration shall be made within seven calendar days of the date of issuance of the Listings Review Committee Decision. A Company's request for reconsideration will not stay a delisting determination or suspension of trading of the Company's securities, unless the Listings Review Committee, before the scheduled date for suspension, issues a written determination staying the suspension and/or reversing the determination to delist.

If the Listings Review Committee grants a Company's reconsideration request, it will issue a modified Decision meeting the requirements of IEX Rule 14.505(c) within 15 calendar days of the date of the original Listings Review Committee Decision.

(Amended by SR-IEX-2017-41 eff. December 4, 2017).

Rule 14.503. Finality of Delisting Determination

When the Exchange has made a final determination to delist a Company's securities, it will follow procedures consistent with the Act to strike the security from listing. The Exchange's determination to delist a Company's securities is final when, after a Delisting Determination has been issued, all available reconsideration procedures and periods available under these Rules have expired.

The Exchange will issue a press release and post a notice on its website announcing its final determination to remove a security from listing, consistent with Rule 12d2-2 under the Act. Under Rule 12d2-2, the Exchange must disseminate this public notice not less than 10 days before the delisting becomes effective and maintain the website notice until the delisting is effective. Following the public notification, the Exchange will file an application on Form 25 with the Commission to delist the security, and will promptly provide a copy of that Form 25 to the Company. The delisting of the security becomes effective 10 days after the Form 25 is filed pursuant to Rule 12d2-2(d)(1) under the Act, unless the Commission postpones the delisting pursuant to Rule 12d2-2(d)(3).

Rule 14.504. Rules Applicable to the Listings Review Committee and Advisors

(a) Ex Parte Communications

(1) No Ex parte Communications

No member of the staff of IEX Regulation or its counsel, and no Company representative will make or knowingly cause to be made an ex parte communication relevant to the merits of a proceeding under this Section to the Listings Review Committee, any member thereof or any Advisor. Similarly, neither the Listings Review Committee, any member thereof nor any Advisor will make or knowingly cause to be made an ex parte communication relevant to the merits of a proceeding to a Company representative, a member of the staff of IEX Regulation or its counsel.

- (2) If an ex parte communication as described in paragraph (1) is made, received or caused to be made, the person making such ex parte communication will place a copy of it, or its substance if it is an oral communication, in the record of the proceeding. Staff of IEX Regulation or the Company, as applicable, will be permitted to respond to the ex parte communication, and any response will be placed in the record of the proceeding.

(b) Recusal or Disqualification

No person will participate as a member of the Listings Review Committee, the staff of IEX Regulation, or Advisor to either thereof, in a matter as to which he or she has a conflict of interest or bias, or circumstances otherwise exist

where his or her fairness might reasonably be questioned. In any such case, the person will recuse himself or herself, or will be disqualified. The Chair of the Listings Review Committee shall have authority to order the disqualification of a member of the Listings Review Committee and a majority of the Listings Review Committee excluding the Chair, shall have authority to order the disqualification of the Chair. A Company that has requested a review by the Listings Review Committee shall provide such information as determined by IEX necessary to enable IEX and the members of the Listings Review Committee, the staff of IEX Regulation, or an Advisor to either thereof to determine whether he or she has a conflict of interest or bias, or circumstances otherwise existing where his or her fairness might reasonably be questioned.

(Amended by SR-IEX-2017-41 eff. December 4, 2017).

Rule 14.505. Adjudicatory Process: General Information

(a) Record on Review

At each proceeding under this Section, the written record may consist of the following items, as applicable: correspondence between the Exchange and the Company; the Company's public filings; information released to the public by the Company; written submissions, exhibits, or requests submitted by either the Company or IEX Regulation and responses thereto; and any additional information considered by the Listings Review Committee as part of the review process. The written record will be supplemented by the transcript of any hearings held during the review process and all Decisions issued.

At each review under this Section, the Company will be informed of the contents of the written record. The Company will be provided a copy of any documents in the record that were not provided by the Company or are not publicly available, at least three calendar days before the deadline for Company submissions, unless the Company waives this production.

If additional issues arising under Chapter 14 or 16 are considered, as permitted by IEX Rule 14.500, the notice of such consideration and any response to such notice shall be made a part of the record.

(b) Additional Information Requested or Considered

At each proceeding under this Section, the Listings Review Committee, as part of its review:

- (1) may request additional information from the Company or IEX Regulation; and
- (2) may consider additional information available from other sources it deems relevant. The Company and IEX Regulation will be afforded written notice and an opportunity to address the significance of any information requested or considered, and the notice, responses to the notice, and the information considered will be made part of the record.

(c) Contents of Decisions

Each Listings Review Committee written Decision will include:

- (1) a statement describing the procedural history of the proceeding, including investigations or reviews undertaken by IEX Regulation;
- (2) the quantitative or qualitative standard that the Company is alleged to have failed to satisfy;

- (3) a statement setting forth the findings of fact with respect to the Company;
- (4) the conclusions of the Listings Review Committee as to whether the Company has failed to satisfy the quantitative or qualitative standards for initial or continued listing; and
- (5) a statement of the Listings Review Committee in support of its disposition of the matter, and, if applicable, the rationale for any exception to the initial or continued listing requirements granted.

(d) Correction of Clerical Errors

The Listings Review Committee may correct clerical or other non-substantive errors in its Decisions either on their own motion or at the request of a Company. A copy of any such corrected Decision will be provided to the Company.

(e) Computation and Adjustment of Time

- (1) Except as described in paragraph (B) below, in counting any time under this Section, the day of the act, event, or default from which the period of time begins to run, is not to be included. The last day of the period is included, unless it is a Saturday, Sunday, federal holiday, or Exchange holiday in which case the period runs until the end of the next day that is not a Saturday, Sunday, federal holiday or Exchange holiday.
- (2) When Staff determines whether a deficiency has occurred with respect to the Price, Market Value of Listed Securities, or Market Value of Publicly Held Shares requirements, the first trading day that the Price or Market Value is below required standards is included in computing the total number of consecutive trading days of default. Similarly, when Staff determines whether a Company has regained compliance with the Price, Market Value of Listed Securities, or Market Value of Publicly Held Shares requirements, the first trading day that the Price or Market Value is at or above required standards is included in computing the total number of consecutive trading days.
- (3) If the Office of General Counsel determines that notice required to be provided under this Section was not properly given or that other extenuating circumstances exist, the Office of General Counsel may adjust the periods of time provided by the rules for the filing of written submissions, the scheduling of hearings, or the performance of other procedural actions by the Company or the Listings Review Committee, as applicable, to allow the Company or the Listings Review Committee the time contemplated by these rules.
- (4) A Company may waive any notice period specified in this Section.

(f) Delivery of Documents

Delivery of any document under this Section may be made by electronic delivery, hand delivery, facsimile, regular mail, or overnight courier. Delivery will be considered timely if the electronic delivery, hand delivery, fax, or overnight courier is received on or before the relevant deadline. If a Company has not specified a facsimile number, e-mail address, or street address, delivery will be made to the last known facsimile number, e-mail address, and street address. If a Company is represented by counsel or a representative, delivery may be made to the counsel or representative.

(g) Document Retention Procedures

Any document submitted to the Exchange in connection with a proceeding under this Section will be retained in accordance with applicable record retention policies.

(h) Documentation of Decisions

IEX Regulation or the Advisor to the Listings Review Committee, as applicable, shall document the date on which a Decision with respect to a Company is implemented.

(i) Re-Listing of a Company

A Company that has been the subject of a Decision by the Listings Review Committee to delist such Company shall be required, prior to re-listing, to comply with the requirements for initial listing. A Company that has been suspended but that has not been the subject of such a Decision shall be required, prior to re-listing, to comply with requirements for continued listing.

(j) Voluntary Delisting

- (1) A Company may voluntarily terminate its listing upon compliance with all requirements of Rule 12d2-2(c) under the Act. In part, Rule 12d2-2(c) requires that the Company may delist by filing an application on Form 25 with the Commission, provided that the Company: (i) complies with all applicable laws in effect in the state in which it is incorporated and with the applicable IEX Rules; (ii) provides notice to the Exchange no fewer than 10 days before the Company files the Form 25 with the Commission, including a statement of the material facts relating to the reasons for delisting; and (iii) contemporaneous with providing notice to the Exchange, publishes notice of its intent to delist, along with its reasons therefore, via a press release and on its web site, if it has one. Any notice provided on the Company's web site pursuant to Rule 12d2-2(c) must remain available until the delisting has become effective. The Company must also provide a copy of the Form 25 to the Exchange simultaneously with its filing with the Commission. The Exchange will provide notice on its web site of the Company's intent to delist as required by Rule 12d2-2(c)(3).
- (2) A Company that seeks to voluntarily delist a class of securities pursuant to IEX Rule 14.505(j)(1) that has received notice from the Exchange, pursuant to IEX Rule 14.500 or otherwise, that it fails to comply with one or more requirements for continued listing, or that is aware that it is below such continued listing requirements notwithstanding that it has not received such notice from the Exchange, must disclose this fact (including the specific continued listing requirement that it is below) in: (i) its statement of all material facts relating to the reasons for withdrawal from listing provided to the Exchange along with written notice of its determination to withdraw from listing required by Rule 12d2-2(c)(2)(ii) under the Act; and (ii) its press release and web site notice required by Rule 12d2-2(c)(2)(iii) under the Act.

(k) Disclosure of Public Reprimand Letter

A Company that receives a Listings Review Committee Decision that serves as a Public Reprimand Letter must make a public announcement by filing a Form 8-K, where required by SEC rules, or by issuing a press release disclosing the receipt of the Decision, including the Rule(s) upon which the Decision was based. As described in IEX Rule 14.207(b)(1) and Supplementary Material .01 to IEX Rule 14.207, the Company must notify the IEX Regulation about the announcement through the electronic disclosure submission system available on the Exchange's Web site, except in emergency situations when notification may instead be provided by telephone or facsimile. If the public announcement is made during System Hours (as defined in IEX Rule 1.160(oo)), the Company must notify IEX Regulation at least ten minutes prior to the announcement. If the public announcement is made outside of System

Hours (as defined in IEX Rule 1.160(oo)), the Company must notify IEX Regulation of the announcement at least ten minutes prior to the start of System Hours (as defined in IEX Rule 1.160(oo)). The Company should make the public announcement as promptly as possible but not more than four business days following receipt of the Decision.

(l) Disclosure by IEX

In order to maintain the quality of and public confidence in its market and to protect investors and the public interest, IEX may, at any level of a proceeding under this IEX Rule 14.500, make a public announcement, including by press release, describing a notification, Public Reprimand Letter, Staff Delisting Determination, Adjudicatory Body Decision, or other event involving a Company's listing or trading on IEX.

(Amended by SR-IEX-2017-14 eff. June 12, 2017).

Rule 14.600. Listed Company Fees

Rule 14.601.

(a) This rule sets forth the required fees for IEX Companies.

(b) Annual Fee. Each IEX Company shall pay to IEX a \$50,000 all-inclusive annual fee. The fee will be assessed on January 1st for the upcoming calendar year, subject to a pro-rata refund if the IEX Company ceases to be listed on IEX during the calendar year for which such fee was paid. No annual fee will be assessed in the first calendar year of listing.

(c) Credits. An IEX Company that prior to or within 120 calendar days of the first IEX listing, announces its intent to transfer its listing to IEX in the Company's press release issued pursuant to Rule 12d2-2(c)(2)(iii) under the Act announcing its intent to withdraw its securities from listing on its current national securities exchange will receive a credit against the annual listing fee specified in paragraph (b) of this IEX Rule. The credit will also apply to the first IEX listing if such listing is a transfer from another national securities exchange. The credit will be the greater of \$250,000 or the amount of any nonrefundable listing fees actually paid by the IEX Company to another listing exchange during the calendar year in which it lists on IEX if the IEX Company is no longer listed on such other exchange upon listing on IEX. The credit will be applied annually against IEX listed company fees until exhausted, for such time as the IEX Company is continuously listed on IEX.

(d) Other Fees. An IEX Company is not subject to any other listing fees.

(Amended by SR-IEX-2017-30 eff. September 26, 2017).

Rule 14.602. Products and Services Available to Listed Companies

The Exchange offers all listed companies the same optional complimentary services through access to IEX Issuer, a market information analytics platform consisting of access to a team of market professionals and web-based content, that provide real-time market intelligence, fundamental and technical trading analysis, and real-time market information. In addition, IEX Issuer may, from time to time, provide information about products and services from third-party vendors that IEX determines may be relevant to listed issuers. Provision of any products and services from a third-party vendor would need to be effected through arrangements directly between the listed issuer and the third-party vendor, without any subsidy or other involvement by the Exchange. A description of all products and services available through IEX Issuer is provided on the Exchange's website.

CHAPTER 16. OTHER SECURITIES

Rule 16.101. Preamble to the Listing Requirements for Other Securities

(a) This section contains the requirements for listing other securities on IEX.

- (b) The replacement of, or any significant modification to, the index, portfolio, or Reference Asset underlying a security listed under Chapter 16 of the IEX Rules (including, but not limited to, a significant modification to the index methodology, a change in the index provider, or a change in control of the index provider) is considered a Substitution Listing Event. The Company must notify IEX at least fifteen calendar days in advance of the effective date of any Substitution Listing Event. Companies should note that these types of changes may affect the Company's compliance with the listing requirements and may require IEX to file a new rule filing pursuant to Section 19(b)(1) of the Act and for such rule filing to be approved by the SEC or otherwise take effect (as applicable), before the product subject to the Substitution Listing Event can be listed or traded. IEX has sole discretion as to whether it chooses to submit a rule filing designed to permit the continued listing of the security and, if submitted, whether to withdraw such filing. As such, Companies are encouraged to consult with IEX staff sufficiently in advance of such changes to allow review and preparation of a rule filing and SEC approval, if necessary.
- (c) If a Company effectuates any change, including a Substitution Listing Event, which requires the filing of a proposed rule change pursuant to Section 19(b)(1) of the Act and such rule filing has not yet been approved by the SEC or has not taken effect (as applicable), then IEX will immediately halt trading in the applicable security until such rule filing is approved or takes effect. If a rule filing is required but IEX determines not to submit one or withdraws the rule filing after it is submitted, or the SEC disapproves the rule filing, IEX will immediately commence delisting procedures with respect to such security.
- (d) A Company with securities listed under Chapter 16 must provide IEX with prompt notification after the Company becomes aware of any noncompliance by the Company with the requirements of Chapter 16.

(Amended by SR-IEX-2016-21 eff. December 21, 2016; amended by SR-IEX-2017-14 eff. June 12, 2017).

Rule 16.105. Exchange Traded Funds: Portfolio Depository Receipts and Index Fund Shares

(a) Portfolio Depository Receipts

- (1) Definitions. The following terms shall, unless the context otherwise requires, have the meanings herein specified:
 - (A) Portfolio Depository Receipt. The term "Portfolio Depository Receipt" means a security:
 - (i) that is based on a unit investment trust ("Trust") which holds the securities which comprise an index or portfolio underlying a series of Portfolio Depository Receipts;
 - (ii) that is issued by the Trust in a specified aggregate minimum number in return for a "Portfolio Deposit" consisting of specified numbers of shares of stock and/or a cash amount, a specified portfolio of fixed income securities and/or a cash amount and/or a combination of the above;
 - (iii) that, when aggregated in the same specified minimum number, may be redeemed from the Trust which will pay to the redeeming holder the stock and/or cash, fixed income securities and/or cash and/or a combination thereof then comprising the "Portfolio Deposit"; and
 - (iv) that pays holders a periodic cash payment corresponding to the regular cash dividends or distributions declared with respect to the component securities of the securities index or portfolio of securities underlying the Portfolio Depository Receipts, less certain expenses and other charges as set forth in the Trust prospectus.

- (B) **Reporting Authority.** The term "Reporting Authority" in respect to a particular series of Portfolio Depository Receipts means IEX, a wholly-owned subsidiary of IEX, an institution (including the Trustee for a series of Portfolio Depository Receipts), or a reporting service designated by IEX or its subsidiary as the official source for calculating and reporting information relating to such series, including, but not limited to, any current index or portfolio value; the current value of the portfolio of securities required to be deposited to the Trust in connection with issuance of Portfolio Depository Receipts; the amount of any dividend equivalent payment or cash distribution to holders of Portfolio Depository Receipts, net asset value, and other information relating to the creation, redemption or trading of Portfolio Depository Receipts.

Nothing in this paragraph shall imply that an institution or reporting service that is the source for calculating and reporting information relating to Portfolio Depository Receipts must be designated by IEX; the term "Reporting Authority" shall not refer to an institution or reporting service not so designated.

- (C) **U.S. Component Stock.** The term "U.S. Component Stock" shall mean an equity security that is registered under Sections 12(b) or 12(g) of the Act, or an American Depository Receipt, the underlying equity security of which is registered under Sections 12(b) or 12(g) of the Act.

- (2) IEX requires that Members provide to all purchasers of a series of Portfolio Depository Receipts a written description of the terms and characteristics of such securities, not later than the time a confirmation of the first transaction in such series is delivered to such purchaser. In addition, Members shall include such a written description with any sales material relating to a series of Portfolio Depository Receipts that is provided to customers or the public. Any other written materials provided by a Member to customers or the public making specific reference to a series of Portfolio Depository Receipts as an investment vehicle must include a statement in substantially the following form: "A circular describing the terms and characteristics of [the series of Portfolio Depository Receipts] has been prepared by [Trust name] and is available from your broker or IEX. It is recommended that you obtain and review such circular before purchasing [the series of Portfolio Depository Receipts]. In addition, upon request you may obtain from your broker a prospectus for [the series of Portfolio Depository Receipts]."

A Member carrying an omnibus account for a non-Member broker-dealer is required to inform such non-Member that execution of an order to purchase a series of Portfolio Depository Receipts for such omnibus account will be deemed to constitute agreement by the non-Member to make such written description available to its customers on the same terms as are directly applicable to Members and member organizations under this IEX Rule.

Upon request of a customer, a Member shall also provide a prospectus for the particular series of Portfolio Depository Receipts.

- (3) **Equity.** IEX may approve a series of Portfolio Depository Receipts for listing and trading pursuant to Rule 19b-4(e) under the Act, provided each of the following criteria is satisfied:

 - (e) All securities in the index or portfolio shall be U.S. Component Stocks listed on IEX or another national securities exchange and shall be NMS Stocks as defined in Rule 600 of Regulation NMS under the Act.
- (ii) International or global index or portfolio. Components of an index or portfolio underlying a series of Portfolio Depositary Receipts listed pursuant to Rule 19b-4(e) under the Act that consist of either only Non-U.S. Component Stocks or both U.S. Component Stocks and Non-U.S. Component Stocks shall meet the following criteria on an initial and continued listing basis:

On an initial and continued listing basis, each component stock of the index or portfolio shall be either

- (a) a U.S. Component Stock that is listed on a national securities exchange and is an NMS Stock as defined in Rule 600 of Regulation NMS under the Act; or
 - (b) a Non-U.S. Component Stock that is listed and traded on an exchange that has last-sale reporting.
- (B) Index Methodology and Calculation. All requirements set forth in this paragraph must be satisfied on both an initial and continued listing basis.

If the index value does not change during some or all of the period when trading is occurring on IEX (for example, for indexes of Non-U.S. Component Stocks because of time zone differences or holidays in the countries where such indexes' component stocks trade), then the last official calculated index value must remain available throughout IEX's system hours; and

 - (iii) Any advisory committee, supervisory board, or similar entity that advises a Reporting Authority or that makes decisions on the index or portfolio composition, methodology and related matters, must implement and maintain, or be subject to, procedures designed to prevent the use and dissemination of material non-public information regarding the applicable index.
- (C) Disseminated Information. The Reporting Authority will disseminate for each series of Portfolio Depository Receipts an estimate, updated at least every 15 seconds, of the value of a share of each series

(the "Intraday Indicative Value") during the Regular Market Session. The Intraday Indicative Value may be based, for example, upon current information regarding the required deposit of securities and cash amount to permit creation of new shares of the series or upon the index value. The Intraday Indicative Value will be updated at least every 15 seconds during the Regular Market Session to reflect changes in the exchange rate between the U.S. dollar and the currency in which any component stock is denominated. - (4) Fixed Income. Fixed Income Securities are debt securities that are notes, bonds, debentures or evidence of indebtedness that include, but are not limited to, U.S. Department of Treasury securities ("Treasury Securities"), government-sponsored entity securities ("GSE Securities"), municipal securities, trust preferred securities, supranational debt and debt of a foreign country or subdivision thereof. IEX may approve a series of Portfolio Depository Receipts based on Fixed Income Securities for listing and trading pursuant to Rule 19b-4(e) under the Act provided such portfolio or index: (i) has been reviewed and approved for the trading of options, Portfolio Depository Receipts, Index Fund Shares, Index-Linked Exchangeable Notes or Index-Linked Securities by the Commission under Section 19(b) of the Act and the rules thereunder and the conditions set forth in the Commission's approval order continue to be satisfied; or (ii) the following criteria are satisfied:

IEX will consider for listing and trading equity index-linked securities ("Equity Index-Linked Securities") and commodity-linked securities ("Commodity-Linked Securities"), fixed income index-linked securities ("Fixed Income Index-Linked Securities"), futures-linked securities ("Futures-Linked Securities") and multifactor index-linked securities ("Multifactor Index-Linked Securities" and, together with Equity Index- Linked Securities, Commodity-Linked Securities, Fixed Income Index- Linked Securities and Futures-Linked Securities, "Linked Securities") that in each case meet the applicable criteria of this IEX Rule.

Equity Index-Linked Securities are securities that provide for the payment at maturity of a cash amount based on the performance of an underlying equity index or indexes (an "Equity Reference Asset").

The payment at maturity with respect to Commodity-Linked Securities is based on one or more physical Commodities or Commodity futures, options or other Commodity derivatives, Commodity-Related Securities, or a basket or index of any of the foregoing (any such basis for payment is referred to below as the "Commodity Reference Asset"). The terms "Commodity" and "Commodity-Related Security" are defined in IEX Rule 16.127.

The payment at maturity with respect to Fixed Income Index-Linked Securities is based on the performance of one or more indexes or portfolios of notes, bonds, debentures or evidence of indebtedness that include, but are not limited to, U.S. Department of Treasury securities ("Treasury Securities"), government-sponsored entity securities ("GSE Securities"), municipal securities, trust preferred securities, supranational debt and debt of a foreign country or a subdivision thereof or a basket or index of any of the foregoing (a "Fixed Income Reference Asset").

The payment at maturity with respect to Futures-Linked Securities is based on the performance of an index of (a) futures on Treasury Securities, GSE Securities, supranational debt and debt of a foreign country or a subdivision thereof, or options or other derivatives on any of the foregoing; or (b) interest rate futures or options or derivatives on the foregoing in this subparagraph (b); or (c) CBOE Volatility Index (VIX) Futures (a "Futures Reference Asset").

The payment at maturity with respect to Multifactor Index-Linked Securities is based on the performance of any combination of two or more Equity Reference Assets, Commodity Reference Assets, Fixed Income Reference Assets or Futures Reference Assets (a "Multifactor Reference Asset", and together with Equity Reference Asset, Commodity Reference Asset, Fixed Income Reference Asset and Futures Reference Asset, "Reference Assets"). A Multifactor Reference Asset may include as a component a notional investment in cash or a cash equivalent based on a widely accepted overnight loan interest rate, LIBOR, Prime Rate, or an implied interest rate based on observed market spot and foreign currency forward rates.

Linked Securities may or may not provide for the repayment of the original principal investment amount. IEX will consider Linked Securities for listing and trading pursuant to Rule 19b-4(e) under the Act, provided:

- (a) Both the issue and the issuer of such security initially meet and continuously maintain the criteria for other securities set forth in IEX Rule 16.130(a), except that if the security is traded in \$1,000 denominations or is redeemable at the option of holders thereof on at least a weekly basis, then no minimum number of holders and no minimum public distribution of trading units shall be required.
- (b) The issue has a term of not less than one (1) year and not greater than thirty (30) years.
- (c) The issue must, on an initial and continued listing basis, be the non-convertible debt of the Company.

- (d) On an initial and continued listing basis, the payment at maturity may or may not provide for a multiple of the direct or inverse performance of an underlying index, indexes or Reference Asset; however, in no event will a loss (negative payment) at maturity be accelerated by a multiple that exceeds three times the performance of an underlying index, indexes or Reference Asset.
- (e) On an initial and continued listing basis, the Company will be expected to have a minimum tangible net worth in excess of \$250,000,000 (if the Linked Securities are fully and unconditionally guaranteed by an affiliate of the Company, IEX will rely on such affiliate's tangible net worth for purposes of this requirement). In the alternative, the Company will be expected to have a minimum tangible net worth of \$150,000,000 and the original issue price of the Linked Securities, combined with all of the Company's other Linked Securities listed on a national securities exchange or otherwise publicly traded in the United States, must not be greater than 25 percent of the Company's tangible net worth at the time of issuance (if the Linked Securities are fully and unconditionally guaranteed by an affiliate of the Company, IEX will apply the provisions of this paragraph to such affiliate instead of the Company and will include in its calculation all Linked Securities that are fully and unconditionally guaranteed by such affiliate). Government issuers and supranational entities will be evaluated on a case-by-case basis.
- (f) On an initial and continued listing basis, the Company is in compliance with Rule 10A-3 under the Act.
- (g) Maintenance and Dissemination—(i) If the index is maintained by a broker-dealer, the broker-dealer shall erect and maintain a "firewall" around the personnel who have access to information concerning changes and adjustments to the index and the index shall be calculated by a third party who is not a broker-dealer. (ii) Unless the Commission order applicable under paragraph (k) or (l) hereof provides otherwise, the current value of the index or the Reference Asset (as applicable) will be widely disseminated at least every 15 seconds during the Regular Market Session, except as provided in the next clause (iii). (iii) The values of the following indexes need not be calculated and widely disseminated at least every 15 seconds if, after the close of trading, the indicative value of the Equity Index-Linked Security based on one or more of such indexes is calculated and disseminated to provide an updated value: CBOE S&P 500 BuyWrite Index(sm), CBOE DJIA Buy Write Index(sm), CBOE NASDAQ-100 BuyWrite Index(sm). (iv) If the value of a Linked Security is based on more than one index, then the dissemination requirement of this paragraph (g) applies to the composite value of such indexes. (v) In the case of a Commodity-Linked Security that is periodically redeemable, the indicative value of the subject Commodity-Linked Security must be calculated and widely disseminated by one or more major market data vendors on at least a 15-second basis during the Regular Market Session. The provisions of sections (ii), (iii) and (v) of this paragraph shall be satisfied on an initial and continued listing basis.
- (h) Trading Halts. In the case of Linked Securities, if the indicative value (if required to be disseminated) or the Reference Asset value is not being disseminated as required, or if the value of the index is not being disseminated as required, IEX may halt trading during the day on which such interruption occurs. IEX will halt trading no later than the beginning of trading following the trading day when the interruption commenced if such interruption persists at this time.
- (i) Surveillance Procedures. FINRA will implement and maintain on behalf of IEX written surveillance procedures for Linked Securities. IEX will enter into adequate comprehensive surveillance sharing agreements for non-U.S. securities, as applicable.
- (j) Linked Securities will be treated as equity instruments. Furthermore, for the purpose of fee determination, Linked Securities shall be deemed and treated as Other Securities.

(k) Linked Securities

(1) Equity Index-Linked Securities Criteria

- (A) In the case of an Equity Index-Linked Security, each underlying index is required to have at least ten (10) component securities. In addition, the index or indexes to which the security is linked shall either:
- (i) have been reviewed and approved for the trading of options or other derivatives by the Commission under Section 19(b)(2) of the Act and rules thereunder and the conditions set forth in the Commission's approval order, including comprehensive surveillance sharing agreements for non-U.S. stocks, continue to be satisfied, or
 - (ii) the index or indexes meet the following criteria:
 - (a) Each component security has a minimum market value of at least \$75 million, except that for each of the lowest weighted component securities in the index that in the aggregate account for no more than 10% of the weight of the index, the market value can be at least \$50 million;
 - (b) Each component security shall have trading volume in each of the last six months of not less than 1,000,000 shares, except that for each of the lowest weighted component securities in the index that in the aggregate account for no more than 10% of the weight of the index, the trading volume shall be at least 500,000 shares in each of the last six months;
 - (c) Indexes based upon the equal-dollar or modified equal-dollar weighting method will be rebalanced at least semiannually;
 - (d) In the case of a capitalization-weighted or modified capitalization-weighted index, the lesser of the five highest weighted component securities in the index or the highest weighted component securities in the index that in the aggregate represent at least 30% of the total number of component securities in the index, each have an average monthly trading volume of at least 2,000,000 shares over the previous six months;
 - (e) No underlying component security will represent more than 25% of the weight of the index, and the five highest weighted component securities in the index do not in the aggregate account for more than 50% of the weight of the index (60% for an index consisting of fewer than 25 component securities);
 - (f) 90% of the index's numerical value and at least 80% of the total number of component securities will meet the then current criteria for standardized option trading on a national securities exchange or a national securities association, provided, however, that an index will not be subject to this requirement if (a) no underlying component security represents more than 10% of the dollar weight of the index and (b) the index has a minimum of 20 components; and

- (g) All component securities shall be either (A) securities (other than securities of a foreign issuer and American Depositary Receipts ("ADRs")) that are (i) issued by a 1934 Act reporting company or by an investment company registered under the Investment Company Act of 1940 that, in each case, has securities listed on a national securities exchange and (ii) an "NMS stock" (as defined in Rule 600 of Regulation NMS under the Act), or (B) securities of a foreign issuer or ADRs, provided that securities of a foreign issuer (including when they underlie ADRs) whose primary trading market outside the United States is not a member of the Intermarket Surveillance Group ("ISG") or a party to a comprehensive surveillance sharing agreement with IEX will not in the aggregate represent more than 20% of the dollar weight of the index.

(B) Continued Listing Criteria

- (i) IEX will commence delisting or removal proceedings (unless the Commission has approved the continued trading of the subject Equity Index-Linked Security), if any of the standards set forth above in paragraph A are not continuously maintained, except that:
 - (a) the criteria that no single component represent more than 25% of the dollar weight of the index and the five highest dollar weighted components in the index cannot represent more than 50% (or 60% for indexes with less than 25 components) of the dollar weight of the index, need only be satisfied at the time the index is rebalanced; and
 - (b) Component stocks that in the aggregate account for at least 90% of the weight of the index each shall have a minimum global monthly trading volume of 500,000 shares, or minimum global notional volume traded per month of \$12,500,000, averaged over the last six months.
- (ii) In connection with an Equity Index-Linked Security that is listed pursuant to paragraph (i)(A)(1) above, IEX will commence delisting or removal proceedings (unless the Commission has approved the continued trading of the subject Equity Index- Linked Security) if an underlying index or indexes fails to satisfy the maintenance standards or conditions for such index or indexes as set forth by the Commission in its order under Section 19(b)(2) of the Act approving the index or indexes for the trading of options or other derivatives.
- (iii) IEX will consider the suspension of trading in, and will initiate delisting proceedings under IEX Rule Series 14.500 (unless the Commission has approved the continued trading of the subject Equity Index-Linked Security), under any of the following circumstances:
 - (a) if the aggregate market value or the principal amount of the Equity Index-Linked Securities publicly held is less than \$400,000;
 - (b) if an interruption to the dissemination of the value of the index or composite value of the indexes persists past the trading day in which it occurred or is no longer calculated or widely disseminated on at least a 15-second basis with respect to indexes containing only securities listed on a national securities exchange, or on at least a 60- second basis with respect to indexes containing foreign country securities, provided, however, that, if the

official index value does not change during some or all of the period when trading is occurring on IEX (for example, for indexes of foreign country securities, because of time zone differences or holidays in the countries where such indexes' component stocks trade) then the last calculated official index value must remain available throughout IEX System Hours; or

- (c) if such other event shall occur or condition exists which in the opinion of IEX makes further dealings on IEX inadvisable.

(iv) Equity-Linked Index Rebalancing. Equity-Linked Indexes will be rebalanced at least annually.

(2) Reference Asset Criteria for Commodity-Linked Securities

(A) In the case of a Commodity-Linked Security, the Reference Asset shall meet the criteria in either subparagraph (1) or subparagraph (2) below:

- (i) The Reference Asset to which the security is linked shall have been reviewed and approved for the trading of Commodity-Related Securities or options or other derivatives by the Commission under Section 19(b)(2) of the Act and rules thereunder and the conditions set forth in the Commission's approval order, including with respect to comprehensive surveillance sharing agreements, continue to be satisfied.
- (ii) The pricing information for each component of a Reference Asset other than a Currency must be derived from a market which is an ISG member or affiliate or with which IEX has a comprehensive surveillance sharing agreement. Notwithstanding the previous sentence, pricing information for gold and silver may be derived from the London Bullion Market Association. The pricing information for each component of a Reference Asset that is a Currency must be either: (1) the generally accepted spot price for the currency exchange rate in question; or (2) derived from a market of which (a) is an ISG member or affiliate or with which IEX has a comprehensive surveillance sharing agreement and (b) is the pricing source for a currency component of a Reference Asset that has previously been approved by the Commission. A Reference Asset may include components representing not more than 10% of the dollar weight of such Reference Asset for which the pricing information is derived from markets that do not meet the requirements of this subparagraph (2), provided, however, that no single component subject to this exception exceeds 7% of the dollar weight of the Reference Asset. The term "Currency," as used in this subparagraph, shall mean one or more currencies, or currency options, futures, or other currency derivatives, Commodity-Related Securities if their underlying Commodities are currencies or currency derivatives, or a basket or index of any of the foregoing.

(B) The issue must meet the following continued listing criteria:

- (i) IEX will commence delisting or removal proceedings if any of the initial listing criteria described above are not continuously maintained.
- (ii) IEX will consider the suspension of trading in, and will initiate delisting proceedings under IEX Rule Series 14.500, under any of the following circumstances:

- (a) If the aggregate market value or the principal amount of the Commodity-Linked Securities publicly held is less than \$400,000;
- (b) An interruption to the dissemination of the value of the Commodity Reference Asset is no longer calculated or available and a new Commodity Reference Asset persists past the trading day in which it occurred or is substituted, unless the new Commodity Reference Asset meets the requirements of this IEX Rule; or
- (c) If such other event shall occur or condition exists which in the opinion of IEX makes further dealings on IEX inadvisable.

(3) Fixed Income Index-Linked Securities Listing Standards

(A) The issue must meet one of the criteria set forth in either (1) or (2) below.

(i) The Fixed Income Reference Asset to which the security is linked shall have been reviewed and approved for the trading of options, Index Fund Shares, or other derivatives by the Commission under Section 19(b)(2) of the Securities Exchange Act of 1934 and rules thereunder and the conditions set forth in the Commission's approval order, continue to be satisfied.

(ii) The issue must meet the following initial listing criteria:

- (a) Components of the Fixed Income Reference Asset that in the aggregate account for at least 75% of the weight of the Fixed Income Reference Asset must each have a minimum original principal amount outstanding of \$100 million or more;
- (b) A component of the Fixed Income Reference Asset may be a convertible security, however, once the convertible security component converts to the underlying equity security, the component is removed from the Fixed Income Reference Asset;
- (c) No component of the Fixed Income Reference Asset (excluding Treasury Securities and GSE Securities) will represent more than 30% of the dollar weight of the Fixed Income Reference Asset, and the five highest dollar weighted components in the Fixed Income Reference Asset will not in the aggregate account for more than 65% of the dollar weight of the Fixed Income Reference Asset;
- (d) An underlying Fixed Income Reference Asset (excluding one consisting entirely of exempted securities) must include a minimum of 13 non-affiliated issuers; and

issuers that are a government of a foreign country or a political subdivision of a foreign country.

- (B) In addition, the value of the Fixed Income Reference Asset must be widely disseminated to the public by one or more major market vendors at least once per business day.
- (C) The issue must meet the following continued listing criteria:
 - (i) IEX will commence delisting or removal proceedings if any of the initial listing criteria described above are not continuously maintained.
 - (ii) IEX will consider the suspension of trading in, and will initiate delisting proceedings under the IEX Rule Series 14.500, under any of the following circumstances:
 - (a) if the aggregate market value or the principal amount of the Fixed Income Index-Linked Securities publicly held is less than \$400,000;
 - (b) an interruption to the dissemination of the value of the Fixed Income Reference Asset persists past the trading day in which it occurred or is no longer calculated or available and a new Fixed Income Reference Asset is substituted, unless the new Fixed Income Reference Asset meets the requirements of this IEX Rule 16.110(k); or
 - (c) if such other event shall occur or condition exists which in the opinion of IEX makes further dealings inadvisable.

(4) Futures-Linked Securities Listing Standards

- (A) The issue must meet the initial listing standard set forth in either (1) or (2) below:
 - (i) The Futures Reference Asset to which the security is linked shall have been reviewed and approved for the trading of Futures- Linked Securities or options or other derivatives by the Commission under Section 19(b)(2) of the Act and rules thereunder and the conditions set forth in the Commission's approval order, including with respect to comprehensive surveillance sharing agreements, continue to be satisfied, or
 - (ii) the pricing information for components of a Futures Reference Asset must be derived from a market which is an ISG member or affiliate or with which IEX has a comprehensive surveillance sharing agreement. A Futures Reference Asset may include components representing not more than 10% of the dollar weight of such Futures Reference Asset for which the pricing information is derived from markets that do not meet the requirements of this subparagraph (2); provided, however, that no single component subject to this exception exceeds 7% of the dollar weight of the Futures Reference Asset.
- (B) In addition, the issue must meet both of the following initial listing criteria:
 - (i) the value of the Futures Reference Asset must be calculated and widely disseminated by one or more major market data vendors on at least a 15-second basis during the Regular Market Session (as defined in IEX Rule 11.110); and

- (ii) in the case of Futures-Linked Securities that are periodically redeemable, the value of a share of each series (the "Intraday Indicative Value") of the subject Futures-Linked Securities must be calculated and widely disseminated by IEX or one or more major market data vendors on at least a 15-second basis during the Regular Market Session (as defined in IEX Rule 11.110).

(C) The issue must meet the following continued listing criteria:

- (i) IEX will commence delisting or removal proceedings if any of the initial listing criteria described above are not continuously maintained.

 - (b) an interruption to the dissemination of the value of the Futures Reference Asset persists past the trading day in which it occurred or is no longer calculated or available and a new Futures Reference Asset is substituted, unless the new Futures Reference Asset meets the requirements of this IEX Rule 16.110(k); or
 - (c) if such other event shall occur or condition exists which in the opinion of IEX makes further dealings on IEX inadvisable.

(5) Multifactor Index-Linked Securities Listing Standards

(A) The issue must meet the following initial listing standards set forth in either (1) or (2) below:

- (i) each component of the Multifactor Reference Asset to which the security is linked shall have been reviewed and approved for the trading of either options, Index Fund Shares, or other derivatives under Section 19(b)(2) of the Act and rules thereunder and the conditions set forth in the Commission's approval order continue to be satisfied, or

(Amended by SR-IEX-2017-14 eff. June 12, 2017).

Rule 16.111. Trading of Certain Derivative Securities

(a) Index-Linked Exchangeable Notes

Index-Linked Exchangeable Notes which are exchangeable debt securities that are exchangeable at the option of the holder (subject to the requirement that the holder in most circumstances exchange a specified minimum amount of notes), on call by the issuer or at maturity for a cash amount (the "Cash Value Amount") based on the reported market prices of the underlying stocks of an underlying index will be considered for listing and trading by IEX pursuant to Rule 19b-4(e) under the Act, provided:

- (1) Both the issue and the issuer of such security initially meet and continuously maintain the requirements of IEX Rule 16.130, Listing Requirements for Securities Not Specified Above (Other Securities), except that the minimum public distribution shall be 150,000 notes with a minimum of 400 public note-holders, except, if traded in thousand dollar denominations or redeemable at the option of the holders thereof on at least a weekly basis, then no minimum public distribution and no minimum number of holders.
- (2) The issue has a minimum term of one year.
- (3) On an initial and continued listing basis, the issuer will be expected to have a minimum tangible net worth in excess of \$250,000,000 and annual income from continuing operations before income taxes substantially exceeding \$1,000,000 in the most recently completed fiscal year or in two of the three most recently completed fiscal years. In the alternative, the issuer will be expected: (A) to have a minimum tangible net worth of \$150,000,000 and annual income from continuing operations before income taxes substantially exceeding \$1,000,000 in the most recently completed fiscal year or in two of the three most recently completed fiscal years; and (B) not to have issued Index-Linked Exchangeable Notes where the original issue price of all the issuer's other index-linked exchangeable note offerings (combined with other index-linked exchangeable note offerings of the issuer's affiliates) listed on a national securities exchange exceeds 25% of the issuer's net worth.
- (4) The index to which an exchangeable-note is linked shall either be (A) indices that have been created by a third party and been reviewed and have been approved for the trading of options or other derivatives securities (each, a "Third-Party Index") either by the Commission under Section 19(b) of the Act and rules thereunder or by IEX under rules adopted pursuant to Rule 19b-4(e); or (B) indices which the issuer has created and for which IEX will have obtained approval from either the Commission pursuant to Section 19(b) and rules thereunder or from IEX under IEX Rules adopted pursuant to Rule 19b-4(e) (each an "Issuer Index"). The Issuer Indices and their underlying securities must meet one of the following on an initial and continued listing basis:
 - (A) the procedures and criteria set forth in NASDAQ Options Market ("NOM") Rules, Chapter XIV, Section 6(b) and (c), or
 - (B) the criteria set forth in IEX Rules 16.115(b)(3) and (4), the index concentration limits set forth in NOM Rule Chapter XIV, Section 6, and NOM Rule Chapter XIV, Section 6(b)(12) insofar as it relates to NOM Rule Chapter XIV, Section 6(b)(6).
- (5) Index-Linked Exchangeable Notes will be treated as equity instruments.

(6) This section contains the continued listing requirements for Index-Linked Exchangeable Notes. If a series of Index-Linked Exchangeable Notes does not satisfy these requirements, IEX may halt trading in the securities and will initiate delisting proceedings pursuant to IEX Rule Series 14.500.

- (a) The Intraday Indicative Value of the subject Index-Linked Exchangeable Notes must be calculated and widely disseminated by IEX or one or more major market data vendors on at least a 15- second basis during the Regular Market Session (as defined in IEX Rule 1.160(gg)). For purposes of this IEX Rule, the term "Intraday Indicative Value" means an estimate of the value of a note or a share of the series of Index-Linked Exchangeable Notes. If an interruption to the dissemination persists past the trading day in which it occurred, IEX may halt trading in the securities and will initiate delisting proceedings pursuant to the Rule Series 14.500.
- (b) The value of the underlying index must be publicly available to investors, on a real time basis, every 15 seconds. - (c) Beginning twelve months after the initial issuance of a series of index-linked exchangeable notes, IEX will consider the suspension of trading in, and will initiate delisting proceedings under IEX Rule Series 14.500 of, that series of Index-Linked Exchangeable Notes under any of the following circumstances:
 - (A) if the series has fewer than 50,000 notes issued and outstanding;
 - (A) if the market value of all Index-Linked Exchangeable Notes of that series issued and outstanding is less than \$1,000,000;
 - (d) If IEX submits a rule filing pursuant to Section 19(b) of the Act to permit the listing and trading of Index-Linked Exchangeable Notes that do not otherwise meet the standards set forth in this rule and any of the statements or representations regarding (a) the index composition, (b) the index or intraday indicative values, or (c) the applicability of IEX listing rules specified in such proposals are not continuously maintained;
 - (e) if any of the requirements set forth in this rule are not continuously maintained; or
 - (f) if such other event shall occur or such other condition exists which in the opinion of IEX makes further dealings on IEX inadvisable.

(b) Equity Gold Shares

- (1) The provisions of this sub-paragraph (b) apply only to Equity Gold Shares that represent units of fractional undivided beneficial interest in and ownership of the Equity Gold Trust. While Equity Gold Shares are not technically Index Fund Shares and thus are not covered by IEX Rule 16.105, all other rules that reference "Index Fund Shares" shall also apply to Equity Gold Shares.
- (2) Except to the extent that specific provisions in this IEX Rule govern, or unless the context otherwise requires, the provisions of all other IEX Rules and policies shall be applicable to the trading of Equity Gold Shares on IEX.

(3) The provisions set forth in IEX Rule 16.111(d) shall also apply to Equity Gold Shares.

(c) Trust Certificates

IEX will consider for trading, whether by listing or pursuant to unlisted trading privileges, certificates ("Trust Certificates") representing an interest in a special purpose trust (the "Trust") created pursuant to a trust agreement. The Trust will only issue Trust Certificates. Trust Certificates may or may not provide for the repayment of the original principal investment amount.

- (1) Trust Certificates pay an amount at maturity which is based upon the performance of specified assets as set forth below:
 - (A) an underlying index or indexes of equity securities (an "Equity Reference Asset");
 - (B) instruments that are direct obligations of the issuing company, either exercisable throughout their life (i.e., American style) or exercisable only on their expiration date (i.e., European style), entitling the holder to a cash settlement in U.S. dollars to the extent that the foreign or domestic index has declined below (for a put warrant) or increased above (for a call warrant) the pre-stated cash settlement value of the index ("Index Warrants"); or
 - (C) a combination of two or more Equity Reference Assets or Index Warrants.
- (2) IEX will file separate proposals under Section 19(b) of the Act before listing and trading Trust Certificates. Any of the statements or representations regarding (a) the description of the index, reference assets, or trust holdings; (b) limitations on index composition, reference assets, or trust holdings; (c) dissemination and availability of the index, reference asset, or intraday indicative values, or (d) the applicability of IEX listing rules specified in such proposals shall constitute continued listing standards.

Rule 16.112. Reserved.

Rule 16.113. Paired Class Shares

(a) IEX will consider for trading, whether by listing or pursuant to unlisted trading privileges, Paired Class Shares that meet the criteria of this IEX Rule.

(b) Applicability. This IEX Rule is applicable only to Paired Class Shares. Except to the extent inconsistent with this IEX Rule, or unless the context otherwise requires, the Operating Agreement and all other rules and procedures of the Board of Directors shall be applicable to the trading on IEX of such securities. Paired Class Shares are included within the definition of "security" or "securities" as such terms are used in the Operating Agreement and Rules of IEX.

- (c) IEX will file separate proposals under Section 19(b) of the Act before listing and trading Paired Class Shares. In addition, prior to a substitute or replacement Underlying Benchmark being selected for the Fund, IEX must file a related proposed rule change pursuant to Rule 19b-4 under the Act to continue listing and trading the Paired Class Shares. Any statements or representations included in the applicable rule proposal under Section 19(b) regarding: (a) the description of the portfolio or reference assets; (b) limitations on portfolio holdings or reference assets; (c) dissemination and availability of the reference asset, or intraday indicative values; or (d) the applicability of IEX listing rules specified in such proposals shall constitute continued listing standards.
- (d) Paired Class Shares. The term "Paired Class Share" means a security: (1) that is issued by a trust (the "Trust") on behalf of a segregated series (the "Fund") as part of a pair of shares of opposing classes whose respective underlying values move in opposite directions as the value of the Fund's Underlying Benchmark (defined in IEX Rule 16.113(f)) varies from its starting level, where one constituent of the pair is positively linked to the Fund's Underlying Benchmark ("Up Shares") and the other constituent is inversely linked to the Fund's Underlying Benchmark ("Down Shares"); (2) that is issued in exchange for cash; (3) the issuance proceeds of which are invested and reinvested in highly rated short-term financial instruments that mature within 90 calendar days and that serve the functions of (i) covering the Fund's expenses, (ii) providing income distributions to investors, based on income (after expenses) from the financial instruments held by the Fund, (iii) providing cash proceeds for regular and special distributions to be made in cash in lieu of Paired Class Shares, and (iv) providing cash proceeds to be paid upon the redemption of Paired Class Shares; (4) that represents a beneficial interest in the Fund; (5) the value of which is determined by the underlying value of the Fund that is attributable to the class of which such security is a part, which security underlying value will either (i) increase as a result of an increase in the Underlying Benchmark and decrease as a result of a decrease in the Underlying Benchmark (in the case of an Up Share) or (ii) increase as a result of a decrease in the Underlying Benchmark and decrease as the result of an increase in the Underlying Benchmark (in the case of a Down Share); (6) that, when timely aggregated in a specified minimum number or amount of securities, along with an equal number or amount of the securities of the opposite class that constitute the other part of the pair, may be redeemed for a distribution of cash on specified dates by authorized parties; and (7) that may be subject to mandatory redemption of all Paired Class Shares under specified circumstances.
- (e) Distributions. A Fund may engage in scheduled regular distributions, special distributions that are automatically triggered upon the Underlying Benchmark exceeding a fixed rate of change since the prior distribution, and corrective distributions that are automatically triggered when the trading price of a Paired Class Share deviates by a specified amount from its underlying value for a specified period of time.
- (f) Designation. IEX may trade, either by listing or pursuant to unlisted trading privileges, Paired Class Shares whose values are based on an index or other numerical variable ("Underlying Benchmark") whose value reflects the value of assets, prices, price volatility or other economic interests ("Reference Asset"). Each issue of Up Shares or Down Shares of a Fund shall be designated as a separate series and shall be identified by a unique symbol.

 - (C) if the Underlying Benchmark is maintained by a broker-dealer or investment advisor, the broker-dealer or investment advisor shall erect and maintain a "firewall" around the personnel who have access to information concerning changes and adjustments to the Underlying Benchmark.
- (2) Continued Listing—IEX will consider the suspension of trading in and will initiate delisting proceedings under IEX Rule Series 14.500 of a Fund's Paired Class Shares under any of the following circumstances:

 - (B) if an interruption to the dissemination of the intraday level of the Underlying Benchmark persists past the trading day in which it occurred, or a substitute or replacement Underlying Benchmark based on the same Reference Asset, is no longer calculated or available on at least a 15-second delayed basis during the Regular Market Session from a source unaffiliated with the sponsor, the custodian, the trustee of the Trust, the Fund or IEX that is a major market data vendor (e.g., Reuters or Bloomberg);
 - (C) if the underlying value per share of each Up Share and Down Share of a Fund is no longer made available on a daily basis to all market participants at the same time;
 - (D) if an interruption to the dissemination of the estimate of the value of a share of the series of Paired Class Shares (the "Intraday Indicative Value") of the underlying value of each listed Up Share and Down Share of the Fund persists past the trading day in which it occurred or is no longer made available on at least a 15-second delayed basis by a major market vendor during the Regular Market Session;

 - (G) if any of the requirements set forth in this rule are not continuously maintained; or
 - (H) if such other event shall occur or condition exists which in the opinion of IEX makes further dealings on IEX inadvisable.

(4) Trustee. The following requirements apply on an initial and continued listing basis:

In cases where, for any reason, an individual has been appointed as trustee, a qualified trust company or banking institution must be appointed co-trustee; and

(B) No change is to be made in the trustee of a listed issue without prior notice to and approval of IEX.

No registered Market Maker shall trade in the applicable securities or physical commodities included in, or options, futures or options on futures on, the Reference Asset of the Underlying Benchmark of any Paired Class Shares or any other derivatives based on such Reference Asset or based on any security or Reference Asset included in the Underlying Benchmark, in an account in which a registered Market Maker, directly or indirectly, controls trading activities, or has a direct interest in the profits or losses thereof, which has not been reported to IEX as required by this IEX Rule.

(2) In addition to the existing obligations under IEX rules regarding the production of books and records, (see e.g., IEX Rule 4.550), a registered Market Maker in Paired Class Shares shall make available to IEX such books, records or other information pertaining to transactions by such entity or registered or non-registered employee affiliated with such entity for its or their own accounts for trading the applicable securities or physical commodities included in, or options, futures or options on futures on, the Reference Asset of the Underlying Benchmark of any Paired Class Shares or any other derivatives based on such Reference Asset or based on any security or Reference Asset included in the Underlying Benchmark, as may be requested by IEX.

- (2) IEX may submit a rule filing pursuant to Section 19(b) of the Act to permit the listing and trading of SEEDS that do not otherwise meet the standards set forth in this rule. - (ii) has a minimum net worth of \$150 million.

- (B) In addition, the market value of a SEEDS offering, when combined with the market value of all other SEEDS offerings previously completed by the Company and traded on the NASDAQ Global, NASDAQ Global Select Market or another national securities exchange, may not be greater than 25 percent of the Company's net worth at the time of issuance.

- (2) Issue Listing Standards – SEEDS shall meet the following criteria on both an initial and continued listing basis. If a series of SEEDS does not satisfy these requirements, IEX may halt trading in the securities and will initiate delisting proceedings pursuant to IEX Rule Series 14.500.

The issue must have:

- (i) a minimum public distribution of one million SEEDS;

 - (b) a non-U.S. company (including a Company that is traded in the United States through sponsored ADRs) (for purposes of this paragraph, a non-U.S. company is any company formed or incorporated outside of the United States) if:

1. IEX or its subsidiaries has a comprehensive surveillance sharing agreement in place with the primary exchange in the country where the security is primarily traded (in the case of an ADR, the primary exchange on which the security underlying the ADR is traded);

(C) Limits on the Number of SEEDS Linked to a Particular Security

- (i) The issuance of SEEDS relating to any underlying U.S. security may not exceed five percent of the total outstanding shares of such underlying security. The issuance of SEEDS relating to any underlying non-U.S. security or sponsored ADR may not exceed:

Rule 16.125. Index Warrants

(a) Definitions

- (1) "Index Warrants" means instruments that are direct obligations of the issuing company, either exercisable throughout their life (i.e., American style) or exercisable only on their expiration (i.e., European style), entitling the holder to a cash settlement in U.S. dollars to the extent that the index has declined below (for a put warrant) or increased above (for a call warrant) the pre-stated cash settlement value of the index. Index Warrants may be based on either foreign or domestic indexes.
- (2) IEX may submit a rule filing pursuant to Section 19(b) of the Act to permit the listing and trading of Index Warrants that do not otherwise meet the standards set forth in this rule. Any of the statements or representations regarding (a) the index composition or reference assets; (b) limitations on the index or reference assets; (c) dissemination and availability of the index, reference asset, or intraday indicative values; or (d) the applicability of IEX listing rules specified in such proposals, constitute continued listing standards.

(b) Listing Requirements. Index Warrants listed pursuant to this rule shall meet the following criteria on an initial and continued listing basis. If any of these criteria are not continuously maintained, IEX will consider the suspension of trading in, and will initiate delisting proceedings under IEX Rule Series 14.500 of, the series of Index Warrants.

- (1) An Index Warrant may be listed if it substantially meets the following criteria:
 - (A) The minimum public distribution shall be at least 1 million warrants.
 - (B) The minimum number of Public Holders shall be at least 400.
 - (C) The Market Value of the outstanding Index Warrants shall be at least \$4 million.
 - (D) The issuer of the Index Warrants must have a minimum tangible net worth in excess of \$150 million.
 - (E) The term of the Index Warrant shall be for a period from one to five years.
 - (F) Limitations on Issuance. Where a Company has a minimum tangible net worth in excess of \$150 million but less than \$250 million, IEX will not list stock Index Warrants of the Company if the value of such warrants plus the aggregate value, based upon the original issuing price, of all outstanding stock index,

currency index and currency warrants of the Company and its affiliates combined that are listed for trading on IEX or another national securities exchange exceeds 25% of the Company's net worth.

- (G) A.M. Settlement. The terms of stock Index Warrants for which 25% or more of the value of the underlying index is represented by securities that are traded primarily in the United States must provide that the opening prices of the stocks comprising the index will be used to determine (i) the final settlement value (i.e., the settlement value for warrants that are exercised at expiration) and (ii) the settlement value for such warrants that are valued on either of the two business days preceding the day on which the final settlement value is to be determined.
- (H) Automatic Exercise. All stock Index Warrants and any other cash- settled warrants must include in their terms provisions specifying (i) the time by which all exercise notices must be submitted and (ii) that all unexercised warrants that are in the money (or that are in the money by a stated amount) will be automatically exercised on their expiration date or on or promptly following the date on which such warrants are delisted by IEX (if such warrant issue has not been listed on another national securities exchange).
- (I) Foreign Country Securities. In instances where the stock index underlying a warrant is comprised in whole or in part with securities traded outside the United States, the foreign country securities or American Depositary Receipts ("ADRs") thereon that (i) are not subject to a comprehensive surveillance agreement, and (ii) have less than 50% of their global trading volume in dollar value within the United States, shall not, in the aggregate represent more than 20% of the weight of the index, unless such index is otherwise approved for warrant or option trading.
- (J) Changes in Number of Warrants Outstanding. Issuers of stock Index Warrants either will make arrangements with warrant transfer agents to advise IEX immediately of any change in the number of warrants outstanding due to the early exercise of such warrants or will provide this information themselves. With respect to stock Index Warrants for which 25% or more of the value of the underlying index is represented by securities traded primarily in the United States, such notice shall be filed with IEX no later than 4:30 p.m. Eastern Time, on the date when the settlement value for such warrants is determined. Such notice shall be filed in such form and manner as may be prescribed by IEX from time to time.
- (K) Only eligible broad-based indexes can underlie Index Warrants. For purposes of this subparagraph, eligible broad-based indexes shall include those indexes approved by the Commission to underlie Index Warrants or index options traded on a national securities exchange.
- (L) Rule Proposal Representations. Index Warrants must continue to comply with any statements or representations included in the applicable rule proposal under Section 19(b) regarding (a) the index composition or reference asset; (b) the description of the index or reference asset; (c) limitations on the index or reference assets; (d) dissemination and availability of the index, reference asset, or intraday indicative values; or (e) the applicability of IEX listing rules specified in such proposals.

Any Index Warrant listed pursuant to this paragraph shall not be required to meet the requirements of IEX Rule 14.203(h), 14.203(a), or 14.320. IEX may apply additional or more stringent criteria as necessary to protect investors and the public interest.

(Amended by SR-IEX-2017-14 eff. June 12, 2017).

- (b) **Applicability.** This IEX Rule is applicable only to Commodity-Related Securities. Except to the extent inconsistent with this IEX Rule, or unless the context otherwise requires, the provisions of all other IEX Rules shall be applicable to the trading on IEX of such securities. Commodity-Related Securities are included within the definition of "security" or "securities" as such terms are used in the IEX Rules.
- (c) **Definitions.** The following terms shall, unless the context otherwise requires, have the meaning herein specified:
 - (1) **Commodity-Related Security.** The term "Commodity-Related Security" means a security that is issued by a trust, partnership, commodity pool or similar entity that invests, directly or through another entity, in any combination of commodities, futures contracts, options on futures contracts, forward contracts, commodity swaps, or other related derivatives, or the value of which is determined by the value of commodities, futures contracts, options on futures contracts, forward contracts, commodity swaps, or other related derivatives.

No market maker shall trade in, or exercise investment discretion with respect to, such underlying commodities, futures contracts, options on futures contracts, forward contracts, commodity swaps, or other related derivatives, in an account in which a market maker, directly or indirectly, controls trading activities, or has an interest in the profits or losses thereof, that has not been reported as required by this IEX Rule.
- (f) The member acting as a registered market maker in a Commodity-Related Security shall make available to IEX Regulation such books, records or other information pertaining to transactions by such entity or registered or non-registered employee affiliated with such entity for its or their own accounts for trading commodities, futures contracts,

- (h) IEX requires that members provide all purchasers of a newly issued Commodity-Related Security a prospectus for such Commodity-Related Security.

No Options Member or person associated with an Options Member shall circulate, in any manner, rumors of a character which might affect market conditions in any security; provided, however, that this Rule shall not prohibit discussion of unsubstantiated information, so long as its source and unverified nature are disclosed.

Rule 19.130. Prevention of Misuse of Material Nonpublic Information

- (a) Every Options Member shall establish, maintain and enforce written policies and procedures reasonably designed, taking into consideration the nature of the Options Member's business, to prevent the misuse of material nonpublic information by such Options Member or persons associated with such Options Member in violation of the federal securities laws or the Rules thereunder, and the Exchange Rules.
- (b) Misuse of material nonpublic information includes, but is not limited to:
 - (1) trading in any securities issued by a corporation, or in any related securities or related options or other derivative securities, while in possession of material nonpublic information concerning that corporation;
 - (2) trading in an underlying security or related options or other derivative securities, while in possession of material nonpublic information concerning imminent transactions in the underlying security or related securities; and
 - (3) disclosing to another person any material nonpublic information involving a corporation whose shares are publicly traded or disclosing an imminent transaction in an underlying security or related securities for the purpose of facilitating the possible misuse of such material nonpublic information.
- (c) Each Options Member shall establish, maintain and enforce the following policies and procedures as appropriate for the nature of each Options Member's business:
 - (1) All associated persons must be advised in writing of the prohibition against the misuse of material nonpublic information.
 - (2) Signed attestations from the Options Member and all associated persons affirming their awareness of, and agreement to abide by, the aforementioned prohibitions must be maintained for at least three (3) years, the first two (2) years in an easily accessible place.
 - (3) Records of all brokerage accounts maintained by the Options Member and all associated persons must be acquired and maintained for at least three (3) years, the first two (2) years in an easily accessible place, and such brokerage accounts must be reviewed periodically by the Options Member for the purpose of detecting the possible misuse of material nonpublic information.
 - (4) Any business dealings the Options Member may have with any corporation whose securities are publicly traded, or any other circumstances that may result in the Options Member receiving, in the ordinary course of business, material nonpublic information concerning any such corporation, must be identified and documented.
- (d) Options Members for which the Exchange is the designated examining authority ("DEA") that are required to file SEC Form X-17A-5 with the Exchange on an annual or more frequent basis must file contemporaneously with the submission for the calendar year end ITSFEA compliance acknowledgements stating that the procedures mandated by this Rule have been established, enforced and maintained.
- (e) Any Options Member or associated person who becomes aware of any possible misuse of material nonpublic information must promptly notify the Exchange.
- (f) It may be considered conduct inconsistent with just and equitable principles of trade for any Options Member or

person associated with an Options Member who has knowledge of all material terms and conditions of:

- (1) an order and a solicited order;
- (2) an order being facilitated; or
- (3) orders being crossed;

the execution of which are imminent, to enter, based on such knowledge, an order to buy or sell an option for the same underlying security as any option that is the subject of the order, or an order to buy or sell the security underlying such class, or an order to buy or sell any related instrument until (a) the terms and conditions of the order and any changes in the terms and conditions of the order of which the Options Member or person associated with the Options Member has knowledge are disclosed, or (b) the trade can no longer reasonably be considered imminent in view of the passage of time since the order was received. The terms of an order are “disclosed” to Options Members when the order is entered into the IEX Options Book.

Rule 19.140. Disciplinary Action by Other Organizations

Every Options Member shall promptly notify the Exchange in writing of any disciplinary action, including the basis therefore, taken by any national securities exchange or registered securities association, clearing corporation, commodity futures market or government regulatory body against the Options Member or its associated persons who are directly involved in derivatives trading, and shall similarly notify the Exchange of any disciplinary action taken by the Options Member itself against any of its associated persons who are directly involved in derivatives trading involving suspension, termination, the withholding of commissions or imposition of fines in excess of \$2,500, or any other significant limitation on activities.

Rule 19.150. Other Restrictions on Options Members

Whenever the Exchange shall find that an Options Member has failed to perform on its contracts or is insolvent or is in such financial or operational condition or is otherwise conducting business in such a manner that it cannot safely conduct business with Customers, creditors or the Exchange, the Exchange may summarily suspend the Options Member in accordance with Chapter 25 (Discipline and Summary Suspensions) or may impose such conditions and restrictions upon the Options Member as the Exchange considers reasonably necessary for the protection of the Exchange, IEX Options, and the Customers of such Options Member.

Rule 19.160. Position Limits

(a) Except in accordance with Rule 19.170 or with the prior permission of the Chief Executive Officer of the Exchange or their designee, to be confirmed in writing, no Options Member shall make, for any account in which it has an interest or for the account of any customer, an opening transaction on any exchange if the Options Member has reason to believe that as a result of such transaction the Options Member or its customer would, acting alone or in concert with others, directly or indirectly:

- (1) control (as defined in paragraph (f) below) an aggregate position in an options contract traded on the Exchange in excess of 25,000 or 50,000 or 75,000 or 200,000 or 250,000 options contracts (whether long or short) of the put type and the call type on the same side of the market respecting the same underlying security, combining for purposes of this position limit long positions in put options with short positions in call options, and short positions in put options with long positions in call options, or such other number of options contracts as may be fixed from time to time by the Exchange as the position limit for one or more classes or

series of options; or

- (2) exceed the applicable position limit fixed from time to time by another exchange for an options contract not traded on the Exchange, when the Options Member is not a member of the other exchange on which the transaction was effected.
- (b) Should an Options Member have reason to believe that a position in any account in which it has an interest or for the account of any customer is in excess of the applicable limit, such Options Member shall promptly take the action necessary to bring the position into compliance.
- (c) Reasonable notice shall be given of each new position limit fixed by the Exchange.
- (d) Limits shall be determined in the following manner:
 - (1) A 25,000 contract limit applies to those options having an underlying security that does not meet the requirements for a higher options contract limit.
 - (2) To be eligible for the 50,000 contract limit, either the most recent six (6) month trading volume of the underlying security must have totaled at least twenty (20) million shares, or the most recent six (6) month trading volume of the underlying security must have totaled at least fifteen (15) million shares and the underlying security must have at least forty (40) million shares currently outstanding.
 - (3) To be eligible for the 75,000 contract limit, either the most recent six (6) month trading volume of the underlying security must have totaled at least forty (40) million shares or the most recent six (6) month trading volume of the underlying security must have totaled at least thirty (30) million shares and the underlying security must have at least 120 million shares currently outstanding.
 - (4) To be eligible for the 200,000 contract limit, either the most recent six (6) month trading volume of the underlying security must have totaled at least eighty (80) million shares or the most recent six (6) month trading volume of the underlying security must have totaled at least sixty (60) million shares and the underlying security must have at least 240 million shares currently outstanding.
 - (5) To be eligible for the 250,000 contract limit, either the most recent six (6) month trading volume of the underlying security must have totaled at least 100 million shares or the most recent six (6) month trading volume of the underlying security must have totaled at least seventy-five (75) million shares and the underlying security must have at least 300 million shares currently outstanding.
- (e) Every six (6) months, the Exchange will review the status of underlying securities to determine which limit should apply. A higher limit will be effective on the date set by the Exchange, while any change to a lower limit will take effect after the last expiration then trading, unless the requirement for the same or a higher limit is met at the time of the intervening six (6) month review. If, however, subsequent to a six (6) month review, an increase in volume and/or outstanding shares would make a stock eligible for a higher position limit prior to the next review, the Exchange in its discretion may immediately increase such position limit.
- (f) Control exists under this Rule 19.160 when it is determined that an individual or entity makes investment decisions for an account or accounts, or materially influences directly or indirectly the actions of any person who makes investment decisions.
 - (1) Control will be presumed in the following circumstances, and will be presumed to continue until determined otherwise pursuant to paragraph (f)(2) below:
 - (A) among all parties to a joint account who have authority to act on behalf of the account.

(B) among all general partners to a partnership account.

(C) when an individual or entity holds an ownership interest of ten percent (10%) or more in an entity (ownership interest of less than ten percent (10%) will not preclude aggregation), or shares in ten percent (10%) or more of profits and losses of an account.

(D) when accounts have common directors or management.

(E) where a person has the authority to execute transactions in an account.

(2) Control, presumed by one or more of the above findings or circumstances, can be rebutted by proving that the factor does not exist or by showing other factors which negate the presumption of control. The rebuttal proof must be submitted by affidavit and/or such other documentary evidence as may be appropriate in the circumstances. The Exchange will also consider the following factors in determining if aggregation of accounts is required:

(A) similar patterns of trading activity among separate entities.

(B) the sharing of kindred business purposes and interests.

(C) whether there is common supervision of the entities which extends beyond assuring adherence to each entity's investment objectives and/or restrictions.

(D) the degree of contact and communication between directors and/or managers of separate accounts.

(3) Initial determinations under this paragraph (f) shall be made by the IEX Regulation. The initial determination may be reviewed by the President or his designee, based upon a report by the IEX Regulation. An Options Member or customer directly affected by such a determination may ask the President or his designee to reconsider, but may not request any other review or appeal except in the context of a disciplinary proceeding. The decision to grant non-aggregation under this paragraph (f) shall not be retroactive.

Rule 19.170. Exemptions from Position Limits

(a) Equity Hedge Exemption. The following qualified hedging transactions and positions described in paragraphs (1) through (5) and (7) below shall be exempt from established position limits as prescribed under Rule 19.160(d). Hedge transactions and positions established pursuant to paragraphs six (6) and eight (8) below are subject to a position limit equal to five (5) times the standard limit established under Rule 19.160(d). The equity hedge exemption is in addition to the standard limit and other exemptions available under Rules.

- (1) Where each options contract is "hedged" or "covered" by 100 shares of the underlying security or securities convertible into such underlying security, or, in the case of an adjusted options contract, the same number of shares represented by the adjusted contract; (i) long call and short stock; (ii) short call and long stock; (iii) long put and long stock; (iv) short put and short stock.
- (2) A long call position accompanied by a short put position, where the long call expires with the short put, and the strike price of the long call and short put is equal, and where each long call and short put position is hedged with 100 shares (or other adjusted number of shares) of the underlying security or securities convertible into such stock ("reverse conversion").
- (3) A short call position accompanied by a long put position where the short call expires with the long put, and the strike price of the short call and long put is equal, and where each short call and long put position is hedged with 100 shares (or other adjusted number of shares) of the underlying security or securities convertible into such stock ("conversion").
- (4) A short call position accompanied by a long put position, where the short call expires with the long put, and the strike price of the short call equals or exceeds the long put, and where each short call and long put position

is hedged with 100 shares of the underlying security (or other adjusted number of shares). Neither side of the short call, long put position can be in-the-money at the time the position is established (“collar”).

(5) A long call position accompanied by a short put position where the long call expires with the short put and the strike price of the long call equals or exceeds the short put and where each long call and short put position is hedged with 100 shares of the underlying security (or other adjusted number of shares). Neither side of the long call, short put position can be in-the-money at the time the position is established (“reverse collar”).

(6) A long call position accompanied by a short put position with the same strike price and a short call position accompanied by a long put position with a different strike price (“box spread”).

(7) An equity option position is delta neutral, subject to the following:

(A) The term “delta neutral” refers to an equity options position that is hedged, in accordance with a permitted pricing model as defined in paragraph (iii) below, by a position in the underlying security or one or more instruments relating to the underlying security, for the purpose of offsetting the risk that the value of the options position will change with incremental changes in the price of the security underlying the option position.

(B) An equity options position of an Options Member or non-Options Member affiliate of an Options Member that is delta neutral shall be exempt from established position limits. An equity options position that is not delta neutral shall be subject to position limits in accordance with Rule 19.160 (subject to the availability of other position limit exemptions). Only the options contract equivalent of the net delta of such position shall be subject to the appropriate position limit. The “options contract equivalent of the net delta” is the net delta divided by the number of shares underlying the options contract. The term “net delta” means, at any time, the number of shares (either long or short) required to offset the risk that the value of an equity option position will change with incremental changes in the price of the security underlying the option position, as determined in accordance with a permitted pricing model.

(C) A “permitted pricing model” means:

(i) A pricing model maintained and operated by the Options Clearing Corporation (“OCC Model”);

(ii) A pricing model maintained and used by an Options Member subject to consolidated supervision by the SEC pursuant to Appendix E of SEC Rule 15c3-1, or by an affiliate that is part of such Options Member’s consolidated supervised holding company group, in accordance with its internal risk management control system and consistent with the requirements of Appendices E or G, as applicable, to SEC Rule 15c3-1 and SEC Rule 15c3-4 under the Exchange Act, as amended from time to time, in connection with the calculation of risk-based deductions from capital or capital allowances for market risk thereunder, provided that the Options Member or affiliate of an Options Member relying on this exemption in connection with the use of such model is an entity that is part of such Options Member’s consolidated supervised holding company group;

(iii) A pricing model maintained and used by a financial holding company or a company treated as a financial holding company under the Bank Holding Company Act of 1956, or by an affiliate that is part of either such company’s consolidated supervised holding company group, in accordance with its internal risk management control system and consistent with:

(a) the requirements of the Board of Governors of the Federal Reserve System, as amended from time to time, in connection with the calculation of risk based adjustments to capital for market risk under capital requirements of the Board of Governors of the Federal

Reserve System, provided that the Options Member or affiliate of an Options Member relying on this exemption in connection with the use of such model is an entity that is part of such company's consolidated supervised holding company group; or

(b) the standards published by the Basel Committee on Banking Supervision, as amended from time to time and as implemented by such company's principal regulator, in connection with the calculation of risk-based deductions or adjustments to or allowances for the market risk capital requirements of such principal regulator applicable to such company - where "principal regulator" means a member of the Basel Committee on Banking Supervision that is the home country consolidated supervisor of such company - provided that the Options Member or affiliate of an Options Member relying on this exemption in connection with the use of such model is an entity that is part of such company's consolidated supervised holding company group.

(iv) A pricing model maintained and used by an OTC derivatives dealer registered with the SEC pursuant to SEC Rule 15c3-1(a)(5) in accordance with its internal risk management control system and consistent with the requirements of Appendix F to SEC Rule 15c3-1 and SEC Rule 15c3-4 under the Exchange Act, as amended from time to time, in connection with the calculation of risk-based deductions from capital for market risk thereunder, provided that only such OTC derivatives dealer and no other affiliated entity (including an Options Member) may rely on this subparagraph (iv);

(v) A pricing model used by a national bank under the National Bank Act maintained and used in accordance with its internal risk management control system and consistent with the requirements of the Office of the Comptroller of the Currency, as amended from time to time, in connection with the calculation of risk-based adjustments to capital for market risk under capital requirements of the Office of the Comptroller of the Currency, provided that only such national bank and no other affiliated entity (including an Options Member) may rely on this subparagraph (v).

(D) Effect on Aggregation of Account Positions.

(i) Options Members and non-Options Member affiliates who rely on this exemption must ensure that the permitted pricing model is applied to all positions in or relating to the security underlying the relevant option position that are owned or controlled by such Options Member or non-Options Member affiliate.

(ii) Notwithstanding subparagraph (D)(i), the net delta of an option position held by an entity entitled to rely on this exemption, or by a separate and distinct trading unit of such entity, may be calculated without regard to positions in or relating to the security underlying the option position held by an affiliated entity or by another trading unit within the same entity, provided that:

(a) the entity demonstrates to the Exchange's satisfaction that no control relationship, as defined in Rule 19.160(f), exists between such affiliates or trading units; and

(b) the entity has provided the Exchange written notice in advance that it intends to be considered separate and distinct from any affiliate or, as applicable, which trading units within the entity are to be considered separate and distinct from each other for purposes of this exemption.

(iii) Notwithstanding subparagraph (D)(i) or (D)(ii), an Options Member or non-Options Member affiliate who relies on this exemption shall designate, by prior written notice to the Exchange, each trading unit or entity whose option positions are required under Rules to be aggregated with the option positions of such Options Member or non-Options Member affiliate that is relying on this exemption for purposes of compliance with Exchange position limits or exercise limits. In any such case:

(a) the permitted pricing model shall be applied, for purposes of calculating such Options Member's or affiliate's net delta, only to the positions in or relating to the security underlying any relevant option position owned and controlled by those entities and trading units who are relying on this exemption; and

(b) the net delta of the positions owned or controlled by the entities and trading units who are relying on this exemption shall be aggregated with the nonexempt option positions of all other entities and trading units whose options positions are required under Rules to be aggregated with the option positions of such Options Member or affiliate.

(E) Obligations of Options Members and Affiliates.

(i) An Options Member that relies on this exemption for a proprietary equity options position:

(a) must provide a written certification to the Exchange that it is using a permitted pricing model pursuant to subparagraph (C) above; and

(b) by such reliance authorizes any other person carrying for such Options Member an account including, or with whom such Options Member has entered into, a position in or relating to a security underlying the relevant option position to provide to the Exchange or the Clearing Corporation such information regarding such account or position as the Exchange or Clearing Corporation may request as part of the Exchange's confirmation or verification of the accuracy of any net delta calculation under this exemption.

(ii) The equity option positions of a non-Options Member relying on this exemption must be carried by an Options Member with which it is affiliated.

(iii) An Options Member carrying an account that includes an equity option position for a non-Options Member affiliate that intends to rely on this exemption must obtain from such non-Options Member:

(a) a written certification to the Exchange that it is using a permitted pricing model pursuant to subparagraph (C) above; and

(b) a written statement confirming that such non-Options Member affiliate:

(1) is relying on this exemption;

(2) will use only a permitted pricing model for purposes of calculating the net delta of its option positions for purposes of this exemption;

(3) will promptly notify the Options Member if it ceases to rely on this exemption;

(4) authorizes the Options Member to provide to the Exchange or the Clearing Corporation such information regarding positions of the non-Options Member affiliate as the Exchange or Clearing Corporation may request as part of the

Exchange's confirmation or verification of the accuracy of any net delta calculation under this exemption; and

- (5) if the non-Options Member affiliate is using the OCC Model, has duly executed and delivered to the Exchange such documents as the Exchange may require to be executed and delivered to the Exchange as a condition to reliance on this exemption.

(F) Reporting. Each Options Member that holds or carries an account that relies on this exemption shall report, in accordance with Rule 19.190, all equity option positions (including those that are delta neutral) that are reportable thereunder. Each such Options Member on its own behalf or on behalf of a designated aggregation unit pursuant to Rule 19.170(a)(7)(D) shall also report, in accordance with Rule 19.190, for each such account that holds an equity option position subject to this exemption in excess of the levels specified in this Rule 19.170, the net delta and the options contract equivalent of the net delta of such position.

(G) Records. Each Options Member relying on this exemption shall:

- (i) retain, and undertake reasonable efforts to ensure that any non-Options Member affiliate of the Options Member relying on this exemption retains, a list of the options, securities and other instruments underlying each option position net delta calculation reported to the Exchange hereunder, and
- (ii) produce such information to the Exchange upon request.

(8) A listed option position hedged on a one-for-one basis with an over-the-counter ("OTC") option position on the same underlying security. The strike price of the listed option position and corresponding OTC option position must be within one strike of each other and no more than one expiration month apart.

(9) For those strategies described under (2), (3), (4), and (5) above, one component of the option strategy can be an OTC options contract guaranteed or endorsed by the firm maintaining the proprietary position or carrying the customer account.

(10) An OTC options contract is defined as an options contract that is not listed on a National Securities Exchange or cleared at the Options Clearing Corporation.

(b) Market Maker Exemption. The provisions set forth below apply only to Market Makers seeking an exemption to the standard position limits in all options traded on the Exchange for the purpose of assuring that there is sufficient depth and liquidity in the marketplace, and not to confer a right upon the Market Maker applying for an exemption.

(1) In light of the procedural safeguards, the purpose of this exemption process, and the prohibition against the granting of retroactive exemptions, decisions granting or denying exemptions are not subject to review under Chapter 9 (Code of Procedure) of the Rules.

(2) An exemption may be granted for the purpose of maintaining a fair and orderly market in the options on a given underlying security.

(3) Generally, an exemption will be granted only to a Market Maker who has requested an exemption, who is appointed to the options class in which the exemption is requested pursuant to Rule 23.120 (for Registered Market Makers) or Rule 23.130 (for Specialists), whose positions are near the current position limit and who is significant in terms of daily volume. The positions must generally be within ten percent (10%) of the limits contained in Rule 19.160 for equity options.

- (4) If an exemption is granted, it will be effective at the time the decision is communicated, and retroactive exemptions will not be granted.
- (5) The size and length of an exemption will be determined on a case by case basis; however, an exemption usually will be granted until the nearest expiration. The exemption may specify the extent to which the resulting position may be carried in options in one or more expiration cycles.
- (6) Procedures for Market Makers nearing the limits due to general market conditions:
 - (A) A request for an exemption from the established position and exercise limits must be in writing and must state the specific reasons why an exemption should be granted.
 - (B) The request should be submitted to the Exchange no later than 1:00 p.m. for same-day review.
 - (C) Review of the request will be conducted informally, i.e., the Exchange may receive information in such manner as is most effective, in its discretion, to ascertain whether an exemption is necessary to maintain depth and liquidity in the market.
 - (D) The Exchange will communicate the exemption decision to the requesting Market Maker and his or its Clearing Member as soon as possible, generally on the day following review.
- (7) Requests for instant exemptions may be made for extraordinary situations, such as when there is an order imbalance or a Market Maker is near the limits intraday. Following immediate review of the situation, the Exchange will decide whether an exemption is warranted.
- (8) Exemptions Granted by Other Options Exchanges. A Market Maker may rely upon any available exemptions from applicable position limits granted from time to time by another options exchange for any options contract traded on the Exchange provided that such Market Maker:
 - (A) provides the Exchange with a copy of any written exemption issued by another options exchange or a written description of any exemption issued by another options exchange other than in writing containing sufficient detail for IEX Regulation to verify the validity of that exemption with the issuing options exchange, and
 - (B) fulfills all conditions precedent for such exemption and complies at all times with the requirements of such exemption with respect to the Market Maker's trading on the Exchange.
- (c) Firm Facilitation Exemption. To the extent that the following procedures and criteria are satisfied, an Options Member may receive and maintain for its proprietary account an exemption ("facilitation exemption") from the applicable standard position limit in non-multiply-listed options traded on the Exchange for the purpose of facilitating, pursuant to the provisions of Rule 23.200, (1) orders for its own Public Customer (one that will have the resulting position carried with the firm) or (2) orders received from or on behalf of a Public Customer for execution only against the Options Member's proprietary account.
 - (1) The Options Member must receive approval from the Exchange prior to executing facilitating trades.
 - (2) The facilitation exemption shall be granted to the Options Member owning or controlling the account in which the exempt options positions are held. For purposes of this paragraph (c), control shall be determined in accordance with the provision of 19.160(f).
 - (3) Exchange approval may be given on the basis of verbal representations, in which event the Options Member shall, within a period of time to be designated by the Exchange, furnish the appropriate forms and documentation substantiating the basis for the exemption. The approval for the facilitation exemption will

specify the maximum number of contracts that may be exempt under this paragraph (c). In no event may the aggregate exempted position under this paragraph (c) exceed twice the applicable standard limit.

- (4) The facilitation exemption is in addition to the standard limit and other exemptions available under these Rules. An Options Member so approved is hereinafter referred to as a "facilitation firm."
- (5) The facilitation firm must provide all information required by the Exchange on approved forms and keep such information current. The facilitation firm shall promptly provide to the Exchange any information or documents requested concerning the exempted options positions and the positions hedging them.
- (6) The facilitation firm shall comply with the following provision regarding the execution of its Public Customer Order and its own facilitating order:
 - (A) the orders must be executed pursuant to Rule 23.200.
- (7) To remain qualified, a facilitation firm must, within five (5) business days after the execution of a facilitation exemption order, hedge all exempt options positions that have not previously been liquidated, and furnish the Exchange with documentation reflecting the resulting hedging positions.
- (8) The facilitation firm shall:
 - (A) liquidate and establish its Public Customer's and its own options and stock positions or their equivalent in an orderly fashion, and not in a manner calculated to cause unreasonable price fluctuations or unwarranted price changes; and not initiate or liquidate its Public Customer's or its own stock position or its equivalent with an equivalent index options position with a view toward taking advantage of any differential in price between a group of securities and an overlying stock index option.
 - (B) promptly notify the Exchange of any material change in the exempted options position or the hedge.
 - (C) not increase the exempted options position once it is closed unless approval is received again pursuant to a reapplication under this paragraph (c).
- (9) Violation of any of these provisions, absent reasonable justification or excuse, shall result in withdrawal of the facilitation exemption and may form the basis for subsequent denial of an application for a facilitation exemption hereunder.

Rule 19.180. Exercise Limits

- (a) Except with the prior permission of the President or his designee, to be confirmed in writing, no Options Member shall exercise, for any account in which it has an interest or for the account of any customer, a long position in any options contract where such Options Member or customer, acting alone or in concert with others, directly or indirectly, has or will have:
 - (1) exercised within any five (5) consecutive business days aggregate long positions in any class of options traded on the Exchange in excess of 25,000 or 50,000 or 75,000 or 200,000 or 250,000 options contracts or such other number of options contracts as may be fixed from time to time by the Exchange as the exercise limit for that class of options; or
 - (2) exceeded the applicable exercise limit fixed from time to time by another exchange for an options class not traded on the Exchange, when the Options Member is not a member of the other exchange which lists the options class.
- (b) Reasonable notice shall be given of each new exercise limit fixed by the Exchange by posting notice thereof by the

Exchange.

(c) Limits shall be determined in the manner described in Rule 19.160.

(d) For an Options Member that has been granted an exemption to position limits pursuant to Rule 19.170(a), the number of contracts which can be exercised over a five (5) business day period shall equal the Options Member's exempted position.

Rule 19.190. Reports Related to Position Limits

(a) In a manner and form prescribed by the Exchange, each Options Member shall report to the Exchange the name, address, and social security or tax identification number of any customer who, acting alone, or in concert with others, on the previous business day maintained aggregate long or short positions on the same side of the market of 200

or more contracts of any single class of options contracts dealt in on the Exchange. The report shall indicate for each such class of options, the number of options contracts comprising each such position and, in the case of short positions, whether covered or uncovered.

- (b) In addition to the reporting requirement described in paragraph (a) of this Rule, each Options Member (other than an Options Market Maker) that maintains a position in excess of 10,000 equity options contracts on the same side of the market on behalf of its own account or for the account of a customer, shall report information as to whether such positions are hedged, and provide documentation as to how such contracts are hedged, in a manner and form prescribed by the Exchange. In addition, whenever the Exchange determines based on a report to the Exchange or otherwise, that a higher margin requirement is necessary in light of the risks associated with an under-hedged equity option position in excess of 10,000 contracts on the same side of the market, the Exchange may consider imposing additional margin upon the account maintaining such under-hedged position, pursuant to its authority under Rule 29.130 (Margin Required is Minimum). Additionally, it should be noted that the clearing firm carrying the account will be subject to capital charges under SEC Rule 15c3-1 to the extent of any margin deficiency resulting from the higher margin requirements.
- (c) In addition to the reports required by paragraph (a) of this Rule, each Options Member shall report promptly to the Exchange any instance in which the Options Member has reason to believe that a customer, acting alone or in concert with others, has exceeded or is attempting to exceed the position limits established pursuant to Rule 19.160 (Position Limits).
- (d) For purposes of this rule, the term "customer" in respect of any Options Member shall include the member, any general or special partner of the Options Member, any officer or director of the Options Member, or any participant, as such, in any joint, group or syndicate account with the Options Member or with any partner, officer or director thereof.

Rule 19.200. Liquidation Positions

- (a) Whenever the Exchange shall find that a person or group of persons acting in concert holds or controls, or is obligated in respect of, an aggregate position (whether long or short) in all options contracts or one or more classes or series traded on IEX Options in excess of the applicable position limit established pursuant to Rule 19.160 (Position Limits), it may order all Options Members carrying a position in options contracts of such classes or series for such person or persons to liquidate such positions as expeditiously as possible, consistent with the maintenance of a fair and orderly market.
- (b) Whenever such an order is given, no Options Member shall accept any order to purchase, sell or exercise any options contract for the account of the person or persons named in the order, unless and until the Exchange expressly approves such person or persons for options transactions.

Rule 19.210. Other Restrictions on Options Transactions and Exercises

- (a) IEX Options may impose such restrictions on transactions or exercises in one or more series of options of any class traded on IEX Options as the Exchange in its judgment deems advisable in the interests of maintaining a fair and orderly market in options contracts or in underlying securities, or otherwise deems advisable in the public interest or for the protection of investors.
 - (1) During the effectiveness of such restrictions, no Options Member shall, for any account in which it has an interest or for the account of any Customer, engage in any transaction or exercise in contravention of such restrictions.

- (2) Notwithstanding the foregoing, during the ten (10) business days prior to the expiration date of a given series of options, no restriction on exercise under this Rule may be in effect with respect to that series of options.
- (b) Whenever the issuer of a security underlying a call option traded on IEX Options is engaged or proposes to engage in a public underwritten distribution (“public distribution”) of such underlying security or securities exchangeable for or convertible into such underlying security, the underwriters may request that IEX Options impose restrictions upon all opening writing transactions in such options at a “discount” where the resulting short position will be uncovered (“uncovered opening writing transactions”).
- (1) In addition to a request, the following conditions are necessary for the imposition of restrictions:
- (A) less than a majority of the securities to be publicly distributed in such distribution are being sold by existing security holders;
 - (B) the underwriters agree to notify the Exchange upon the termination of their stabilization activities; and
 - (C) the underwriters initiate stabilization activities in such underlying security on a national securities exchange when the price of such security is either at a “minus” or “zero minus” tick.
- (2) Upon receipt of such a request and determination that the conditions listed above are met, the Exchange shall impose the requested restrictions as promptly as possible but no earlier than fifteen (15) minutes after the Options Members shall have been notified and shall terminate such restrictions upon request of the underwriters or when the Exchange otherwise discovers that stabilizing transactions by the underwriters has been terminated.
- (3) For purposes of paragraph (b) of this Rule, an uncovered opening writing transaction in a call option will be deemed to be effected at a “discount” when the premium in such transaction is either:
- (A) in the case of a distribution of the underlying security not involving the issuance of rights and in the case of a distribution of securities exchangeable for or convertible into the underlying security, less than the amount by which the underwriters’ stabilization bid for the underlying security exceeds the exercise price of such option; or
 - (B) in the case of a distribution being offered pursuant to rights, less than the amount by which the underwriters’ stabilization bid in the underlying security at the subscription price exceeds the exercise price of such option.

Rule 19.220. Mandatory Systems Testing

- (a) Each Options Member that the Exchange designates as required to participate in a system test must conduct or participate in the testing of its computer systems to ascertain the compatibility of such systems with the Exchange’s systems in the manner and frequency prescribed by the Exchange. The Exchange will designate Options Members as required to participate in a system test based on: (1) the category of the Options Member (Market Maker, OEF, or Clearing Member); (2) the computer system(s) the Options Member uses; and (3) the manner in which the Options Member connects to the Exchange. The Exchange will give Options Members reasonable notice of any mandatory systems test, which notice will specify the nature of the test and Options Members’ obligations in participating in the test.
- (b) Every Options Member required by the Exchange to conduct or participate in testing of computer systems shall provide to the Exchange such reports relating to the testing as the Exchange may prescribe. Options Members shall maintain adequate documentation of tests required by this Rule and results of such testing for examination by the

Exchange.

- (c) An Options Member that is subject to this Rule and that fails to conduct or participate in the tests, fails to file the required reports, or fails to maintain the required documentation, may be subject to a summary suspension or other action taken pursuant to Chapter 25 (Records, Reports and Audits) and/or a disciplinary action pursuant to Chapter 8 (Investigations and Sanctions).

Rule 19.230. Limits on Outstanding Uncovered Short Positions

- (a) Whenever it is determined from the reports of uncovered short positions submitted pursuant to Rule 25.110 (Reports of Uncovered Short Positions), viewed in light of current market conditions in options and in underlying securities, that there are outstanding an excessive number of uncovered short positions in options contracts of a given class traded on IEX Options or that an excessively high percentage of outstanding short positions in options contracts of a given class traded on IEX Options are uncovered, the Exchange may determine to prohibit Options Members from any further opening writing transactions on any exchange in options contracts of that class unless the resulting short position will be covered, and the Exchange may prohibit the uncovering of any existing covered short positions in one or more series of options of that class, as it deems appropriate in the interest of maintaining a fair and orderly market in options contracts or in underlying securities.
- (b) The Exchange may exempt transactions of Options Market Makers from restrictions imposed under this Rule. Such restrictions shall be rescinded upon a determination that they are no longer appropriate.

CHAPTER 20. SECURITIES TRADED ON IEX OPTIONS

Rule 20.100. Designation of Securities

Securities traded on IEX Options are options contracts, each of which is designated by reference to the issuer of the underlying security, expiration month, exercise price and type (put or call).

Rule 20.110. Rights and Obligations of Holders and Writers

The rights and obligations of holders and writers are set forth in the Rules of the Clearing Corporation.

Rule 20.120. Criteria for Underlying Securities

- (a) Underlying securities with respect to which put or call options contracts are approved for listing and trading on IEX Options must meet the following criteria:
- (1) the security must be registered with the SEC and be an “NMS stock” as defined in Rule 600 of Regulation NMS under the Exchange Act; and
 - (2) the security shall be characterized by a substantial number of outstanding shares that are widely held and actively traded.
- (b) In addition, the Exchange shall from time to time establish standards to be considered in evaluating potential underlying securities for listing on IEX Options. There are many relevant factors which must be considered in arriving at such a determination, and the fact that a particular security may meet the standards established by the Exchange does not necessarily mean that it will be selected as an underlying security. The Exchange may give

consideration to maintaining diversity among various industries and issuers in selecting underlying securities. Notwithstanding the foregoing, an underlying security will not be selected unless:

- (1) There are a minimum of seven (7) million shares of the underlying security which are owned by persons other than those required to report their stock holdings under Section 16(a) of the Exchange Act.
- (2) There are a minimum of 2,000 holders of the underlying security.
- (3) The issuer is in compliance with any applicable requirements of the Exchange Act or Rules thereunder.
- (4) Trading volume (in all markets in which the underlying security is traded) has been at least 2,400,000 shares in the preceding twelve (12) months.
- (5) Either:
 - (A) if the underlying security is a “covered security” as defined under Section 18(b)(1)(A) of the Securities Act of 1933: (1) the market price per share of the underlying security has been at least \$3.00 for the previous three consecutive business days preceding the date on which the Exchange submits a certificate to the Options Clearing Corporation for listing and trading, as measured by the closing price reported in the primary market in which the underlying security is traded; however, (2) the requirements set forth in (5)(A)(1) will be waived during the three days following its initial public offering day for an underlying security having a market capitalization of at least \$3 billion based upon the offering price of its initial public offering, and may be listed and traded starting on or after the second business day following the initial public offering day; or
 - (B) if the underlying security is not a “covered security,” the market price per share of the underlying security has been at least \$7.50 for the majority of business days during the three (3) calendar months preceding the date of selection, as measured by the lowest closing price reported in any market in which the underlying security traded on each of the subject days.

(c) Securities of Restructured Companies

- (1) Definitions. The following definitions shall apply to the provisions of this paragraph (c):
 - (A) “Restructuring Transaction” refers to a spin-off, reorganization, recapitalization, restructuring or similar corporate transaction.
 - (B) “Restructure Security” refers to an equity security that a company issues, or anticipates issuing, as the result of a Restructuring Transaction of the company.
 - (C) “Original Equity Security” refers to a company’s equity security that is issued and outstanding prior to the effective date of a Restructuring Transaction of the company.
 - (D) “Relevant Percentage” refers to either: (i) twenty-five percent (25%), when the applicable measure determined with respect to the Original Equity Security or the business it represents includes the business represented by the Restructure Security; or (ii) thirty-three and one-third percent (33-1/3%), when the applicable measure determined with respect to the Original Equity Security or the business it represents excludes the business represented by the Restructure Security.
- (2) “Share” and “Number of Shareholder” Standards. In determining whether a Restructure Security satisfies the share standard set forth in paragraph (b)(1) of this Rule (the “Share Standard”) or the number of holders standard set forth in paragraph (b)(2) of this Rule (the “Number of Shareholders Standard”), the Exchange

may rely upon the facts and circumstances that it expects to exist on the option's intended listing date, rather than on the date on which the Exchange selects for options trading the underlying Restructure Security.

(A) The Exchange may assume that: (i) both the "Share" and "Number of Shareholders" Standards are satisfied if, on the option's intended listing date, the Exchange expects no fewer than forty (40) million shares of the Restructure Security to be issued and outstanding; and (ii) either such Standard is satisfied if, on the option's intended listing day, the Exchange expects the Restructure Security to be listed on an exchange or automatic quotation system that has, and is subject to, an initial listing requirement that is no less stringent than the Standard in question.

(B) The Exchange may not rely on any such assumption, however, if a reasonable Exchange investigation or that of another exchange demonstrates that either the Share Standard or Number of Shareholders Standard will not in fact be satisfied on an option's intended listing date.

(C) In addition, in the case of a Restructuring Transaction in which the shares of a Restructure Security are issued or distributed to the holders of shares of an Original Equity Security, the Exchange may determine that either the Share Standard or the Number of Shareholders Standard is satisfied based upon the Exchange's knowledge of the outstanding shares or number of shareholders of the Original Equity Security.

(3) "Trading Volume" Standard. In determining whether a Restructure Security that is issued or distributed to the holders of shares of an Original Equity Security (but not a Restructure Security that is issued pursuant to a public offering or rights distribution) satisfies the trading volume standard set forth in Rule 20.120(b)(4) (the "Trading Volume Standard"), the Exchange may consider the trading volume history of the Original Equity Security prior to the "ex-date" of the Restructuring Transaction if the Restructure Security satisfies the "Substantiality Test" set forth in subparagraph (5) below.

(4) "Market Price" Standard. In determining whether a Restructure Security satisfies the market price history standard set forth in Rule 20.120(b)(5) (the "Market Price Standard"), the Exchange may consider the market price history of the Original Equity Security prior to the "ex-date" of the Restructuring Transaction if:

(A) the Restructure Security satisfies the "Substantiality Test" set forth in subparagraph (5) below; and

(B) in the case of the application of the Market Price Standard to a Restructure Security that is distributed pursuant to a public offering or a rights distribution: (i) the Restructure Security trades "regular way" on an exchange or automatic quotation system for at least the five (5) trading days immediately preceding the date of selection; and (ii) at the close of trading on each trading day on which the Restructure Security trades "regular way" prior to the date of selection, and the opening of trading on the date of selection, the market price of the Restructure Security was at least \$7.50, or, if the Restructure Security is a "covered security," as defined in Rule 20.120(b)(5)(A), the market price of the Restructure Security was at least \$3.00.

(5) The "Substantiality Test" A Restructure Security satisfies the "Substantiality Test" if:

(A) the Restructure Security has an aggregate market value of at least \$500 million; or (B) at least one of the following conditions is met:

(i) the aggregate market value of the Restructure Security equals or exceeds the Relevant Percentage of the aggregate market value of the Original Equity Security;

- (ii) the aggregate book value of the assets attributed to the business represented by the Restructure Security equals or exceeds both \$50 million and the Relevant Percentage of the aggregate book value of the assets attributed to the business represented by the Original Equity Security; or
- (iii) the revenues attributed to the business represented by the Restructure Security equals or exceeds both \$50 million and the Relevant Percentage of the revenues attributed to the business represented by the Original Equity Security.

- (6) A Restructure Security's aggregate market value may be determined from "when issued" prices, if available.
- (7) In calculating comparative aggregate market values for the purpose of assessing whether a Restructure Security qualifies to underlie an option, the Exchange shall use the Restructure Security's closing price on its primary market on the last business day prior to the selection date or the Restructure Security's opening price on its primary market on the selection date and shall use the corresponding closing or opening price of the related Original Equity Security.
- (8) In calculating comparative asset values and revenues, the Exchange shall use either: (A) the issuer's latest annual financial statements or (B) the issuer's most recently available interim financial statements (so long as such interim financial statements cover a period of not less than three months), whichever are more recent. Those financial statements may be audited or unaudited and may be pro forma.
- (9) Except in the case of a Restructure Security that is distributed pursuant to a public offering or rights distribution, the Exchange may not rely upon the trading volume or market price history of an Original Equity Security as paragraph (c) of this Rule permits for any trading day unless it relies upon both of those measures for that trading day.
- (10) Once the Exchange commences to rely upon a Restructure Security's trading volume and market price history for any trading day, the Exchange may not rely upon the trading volume and market price history of the security's related Original Equity Security for any trading day thereafter.
- (11) "When Issued" Trading Prohibited. The Exchange shall not list for trading options contracts that overlie a Restructure Security that is not yet issued and outstanding, regardless of whether the Restructure Security is trading on a "when issued" basis or on another basis that is contingent upon the issuance or distribution of shares.
- (d) In considering underlying securities, the Exchange shall ordinarily rely upon information made publicly available by the issuer and/or the markets in which the security is traded.
- (e) The word "security" shall be broadly interpreted to mean any equity security, as defined in Rule 3a11-1 under the Exchange Act, which is appropriate for options trading, and the word "shares" shall mean the unit of trading of such security.
- (f) Securities deemed appropriate for options trading shall include nonconvertible preferred stock issues and American Depositary Receipts ("ADRs") if they meet the criteria and standards set forth in this Rule and if, in the case of ADRs:
- (1) The Exchange has in place an effective surveillance sharing agreement with the primary exchange in the home country where the security underlying the ADR is traded; or
 - (2) the combined trading volume of the ADR and other related ADRs and securities (as defined below) occurring in the U.S. ADR market or in markets with which the Exchange has in place an effective surveillance sharing

agreement represents (on a share equivalent basis) at least fifty percent (50%) of the combined worldwide trading volume in the ADR, the security underlying the ADR, other classes of common stock related to the underlying security, and ADRs overlying such other stock (together “other related ADRs and securities”) over the three month period preceding the date of selection of the ADR for options trading; or

(3)

(A) the combined trading volume of the ADR and other related ADRs and securities occurring in the U.S. ADR market and in markets where the Exchange has in place an effective surveillance sharing agreement, represents (on a share equivalent basis) at least twenty percent (20%) of the combined worldwide trading volume in the ADR and in other related ADRs and securities over the three month period preceding the date of selection of the ADR for options trading,

(B) the average daily trading volume for the security in the U.S. markets over the three (3) months preceding the selection of the ADR for options trading is 100,000 or more shares, and

(C) the trading volume is at least 60,000 shares per day in U.S. markets on a majority of the trading days for the three (3) months preceding the date of selection of the ADR for options trading (“Daily Trading Volume Standard”),

(D) or the SEC otherwise authorizes the listing.

(g) Securities deemed appropriate for options trading shall include shares issued by registered closed-end management investment companies that invest in the securities of issuers based in one or more foreign countries (“International Funds”) if they meet the criteria and standards set forth in this Rule and either:

(1) the Exchange has a market information sharing agreement with the primary home exchange for each of the securities held by the fund, or

(2) the International Fund is classified as a diversified fund as that term is defined by Section 5(b) of the Investment Company Act of 1940, as amended, and the securities held by the fund are issued by issuers based in five (5) or more countries.

(h) A “market information sharing agreement” for purposes of this Rule is an agreement that would permit the Exchange to obtain trading information relating to the securities held by the fund including the identity of the member of the foreign exchange executing a trade. International Fund shares not meeting the criteria of paragraph (i) shall be deemed appropriate for options trading if the SEC specifically authorizes the listing thereof.

(i) Securities deemed appropriate for options trading shall include shares or other securities (“Fund Shares”), including but not limited to Partnership Units as defined in this Rule, that are principally traded on a national securities exchange and are defined as an “NMS stock” under Rule 600 of Regulation NMS, and that (1) represent interests in registered investment companies (or series thereof) organized as open-end management investment companies, unit investment trusts or similar entities, and that hold portfolios of securities comprising or otherwise based on or representing investments in indexes or portfolios of securities (or that hold securities in one or more other registered investment companies that themselves hold such portfolios of securities) (“Funds”) and/or financial instruments including, but not limited to, stock index futures contracts, options on futures, options on securities and indexes, equity caps, collars and floors, swap agreements, forward contracts, repurchase agreements and reverse repurchase agreements (the “Financial Instruments”), and money market instruments, including, but not limited to, U.S. government securities and repurchase agreements (the “Money Market Instruments”) constituting or otherwise based on or representing an investment in an index or portfolio of

securities and/or Financial Instruments and Money Market Instruments, or (2) represent commodity pool interests principally engaged, directly or indirectly, in holding and/or managing portfolios or baskets of securities, commodity futures contracts, options on commodity futures contracts, swaps, forward contracts and/or options on physical commodities and /or non U.S. currency ("Commodity Pool ETFs") or (3) represent interests in a trust or similar entity that holds a specified non-U.S. currency or currencies deposited with the trust or similar entity when aggregated in some specified minimum number may be surrendered to the trust by the beneficial owner to receive the specified non-U.S. currency or currencies and pays the beneficial owner interest and other distributions on the deposited non-U.S. currency or currencies, if any, declared and paid by the trust ("Currency Trust Shares"), or (4) represent interests in the SPDR Gold Trust or are issued by the iShares COMEX Gold Trust or iShares Silver Trust; provided that all of the following conditions are met:

- (1) The Fund Shares either (A) meet the criteria and standards set forth in paragraphs (a) and (b) of this Rule above; or (B) the Fund Shares are available for creation or redemption each business day in cash or in kind from the investment company, commodity pool or other entity at a price related to net asset value, and the investment company, commodity pool or other entity is obligated to provide that Fund Shares may be created even if some or all of the securities and/or cash required to be deposited have not been received by the Fund, the unit investment trust or the management investment company, provided the authorized creation participant has undertaken to deliver the securities and/or cash as soon as possible and such undertaking is secured by the delivery and maintenance of collateral consisting of cash or cash equivalents satisfactory to the Fund, all as described in the Fund's or unit trust's prospectus; and
- (2) The Fund Shares meet the following criteria:
 - (A) the Fund Shares are listed pursuant to generic listing standards for series of portfolio depository receipts or index fund shares based on international or global indexes under which a comprehensive surveillance sharing agreement is not required; or
 - (B) any non-U.S. component stocks of the index or portfolio on which the Fund Shares are based that are not subject to comprehensive surveillance agreements do not in the aggregate represent more than 50% of the weight of the index or portfolio;
 - (C) stocks for which the primary market is in any one country that is not subject to a comprehensive surveillance agreement do not represent 20% or more of the weight of the index;
 - (D) stocks for which the primary market is in any two countries that are not subject to comprehensive surveillance agreements do not represent 33% or more of the weight of the index;
 - (E) For Commodity Pool ETFs that engage in holding and/or managing portfolios or baskets commodity futures contracts, options on commodity futures contracts, swaps, forward contracts, options on physical commodities, options on non-U.S. currency and/or securities, the Exchange has entered into a comprehensive surveillance sharing agreement with the marketplace or marketplaces with last sale reporting that represent(s) the highest volume in such commodity futures contracts and/or options on commodity futures contracts on the specified commodities or non-U.S. currency, which are utilized by the national securities exchange where the underlying Commodity Pool ETFs are listed and traded; and
 - (F) For Currency Trust Shares, the Exchange has entered into a comprehensive surveillance sharing agreement with the marketplace or marketplaces with last sale reporting that represent(s) the highest volume in derivatives (options or futures) on the specified non-U.S. currency, which are utilized by the national securities exchange where the underlying Currency Trust Shares are listed and traded.

(j) Securities deemed appropriate for options trading shall include shares or other securities (“Trust Issued Receipts”) that are principally traded on a national securities exchange or through the facilities of a national securities association and reported as a national market security, and that represent ownership of the specific deposited securities held by a trust, provided:

- (1) the Trust Issued Receipts (A) meet the criteria and standards for underlying securities set forth in paragraph (b) to this Rule; or (B) must be available for issuance or cancellation each business day from the Trust in exchange for the underlying deposited securities; and
- (2) not more than 20% of the weight of the Trust Issued Receipt is represented by ADRs on securities for which the primary market is not subject to a comprehensive surveillance agreement.

(k) Notwithstanding the requirements set forth in paragraphs (b)(1), (b)(2), (b)(4), and (b)(5) above, options may be listed for trading on IEX Options if:

- (1) the underlying security meets the guidelines for continued listing in Rule 20.130 (Withdrawal of Approval of Underlying Securities); and
- (2) options on such underlying security are listed and traded on at least one other national securities exchange.

The Exchange shall employ the same procedures to qualify underlying securities pursuant to this subsection (k) as it employs in qualifying underlying securities pursuant to other subsections of this Rule.

(l) Index-Linked Securities

(1) Securities deemed appropriate for options trading shall include shares or other securities (“Equity Index-Linked Securities,” “Commodity-Linked Securities,” “Currency-Linked Securities,” “Fixed Income Index-Linked Securities,” “Futures-Linked Securities,” and “Multifactor Index-Linked Securities,” collectively known as “Index-Linked Securities”) that are principally traded on a national securities exchange and an “NMS Stock” (as defined in Rule 600 of Regulation NMS under the Securities Exchange Act of 1934), and represent ownership of a security that provides for the payment at maturity, as described below:

- (A) Equity Index-Linked Securities are securities that provide for the payment at maturity of a cash amount based on the performance of an underlying index or indexes of equity securities (“Equity Reference Asset”);
- (B) Commodity-Linked Securities are securities that provide for the payment at maturity of a cash amount based on the performance of one or more physical commodities or commodity futures, options on commodities, or other commodity derivatives or Commodity-Based Trust Shares or a basket or index of any of the foregoing (“Commodity Reference Asset”);
- (C) Currency-Linked Securities are securities that provide for the payment at maturity of a cash amount based on the performance of one or more currencies, or options on currencies or currency futures or other currency derivatives or Currency Trust Shares (as defined in this Rule), or a basket or index of any of the foregoing (“Currency Reference Asset”);
- (D) Fixed Income Index-Linked Securities are securities that provide for the payment at maturity of a cash amount based on the performance of one or more notes, bonds, debentures or evidence of indebtedness that include, but are not limited to, U.S. Department of Treasury securities (“Treasury Securities”), government-sponsored entity securities (“GSE Securities”), municipal securities, trust preferred securities, supranational debt and debt of a foreign country or a subdivision thereof or a

basket or index of any of the foregoing ("Fixed Income Reference Asset");

(E) Futures-Linked Securities are securities that provide for the payment at maturity of a cash amount based on the performance of an index of (i) futures on Treasury Securities, GSE Securities, supranational debt and debt of a foreign country or a subdivision thereof, or options or other derivatives on any of the foregoing; or (ii) interest rate futures or options or derivatives on the foregoing in this subparagraph (ii) ("Futures Reference Asset"); and (F) Multifactor Index-Linked Securities are securities that provide for the payment at maturity of a cash amount based on the performance of any combination of two or more Equity Reference Assets, Commodity Reference Assets, Currency Reference Assets, Fixed Income Reference Assets, or Futures Reference Assets ("Multifactor Reference Asset");

(2) For purposes of paragraph (l) of this Rule, Equity Reference Assets, Commodity Reference Asset, Currency Reference Assets, Fixed Income Reference Assets, Futures Reference Assets together with Multifactor Reference Assets, collectively will be referred to as "Reference Assets."

(3)

(A) The Index-Linked Securities must meet the criteria and guidelines for underlying securities set forth in sub-section (b) of this Rule; or

(B) the Index-Linked Securities must be redeemable at the option of the holder at least on a weekly basis through the issuer at a price related to the applicable underlying Reference Asset. In addition, the issuing company is obligated to issue or repurchase the securities in aggregation units for cash, or cash equivalents, satisfactory to the issuer of Index-Linked Securities which underlie the option as described in the Index-Linked Securities prospectus.

(4) The Exchange will implement surveillance procedures for options on Index-Linked Securities, including adequate comprehensive surveillance sharing agreements with markets trading in non-U.S. components, as applicable.

(m) "Partnership Unit" means a security (1) that is issued by a partnership that invests in any combination of futures contracts, options on futures contracts, forward contracts, commodities (as defined in Section 1(a)(4) of the Commodity Exchange Act) and/or securities; and (2) that is issued and redeemed daily in specified aggregate amounts at net asset value.

Rule 20.130. Withdrawal of Approval of Underlying Securities

(a) If put or call options contracts with respect to an underlying security are approved for listing and trading on IEX Options, such approval shall continue in effect until such approval is affirmatively withdrawn by the Exchange. Whenever the Exchange determines that an underlying security previously approved for IEX Options Transactions does not meet the then current requirements for continuance of such approval or for any other reason should no longer be approved, the Exchange shall not open for trading any additional series of options of the class covering that underlying security and shall prohibit any opening purchase transactions in series of options of that class previously opened to the extent it deems such action necessary or appropriate; provided, however, that where exceptional circumstances have caused an underlying security not to comply with the Exchange's current approval maintenance requirements, regarding number of publicly held shares of publicly held principal amount, number of shareholders, trading volume or market price the Exchange may, in the interest of maintaining a fair and orderly market or for the protection of investors, determine to continue to open additional series of options contracts of the class covering that underlying security.

- (b) An underlying security will not be deemed to meet the Exchange's requirements for continued approval whenever any of the following occur:
- (1) There are fewer than 6,300,000 shares of the underlying security held by persons other than those who are required to report their security holdings under Section 16(a) of the Exchange Act.
 - (2) There are fewer than 1,600 holders of the underlying security.
 - (3) The trading volume (in all markets in which the underlying security is traded) has been less than 1,800,000 shares in the preceding twelve (12) months.
 - (4) The underlying security ceases to be an "NMS stock" as defined in Rule 600 of Regulation NMS under the Exchange Act.
 - (5) If an underlying security is approved for options listing and trading under the provisions of Rule 20.120 (Criteria for Underlying Securities), the trading volume of the Original Security (as therein defined) prior to but not after the commencement of trading in the Restructure Security (as therein defined), including "when-issued" trading, may be taken into account in determining whether the trading volume requirement of paragraph (b)(3) above is satisfied.
- (c) In considering whether any of the events specified in paragraph (b) of this Rule have occurred with respect to an underlying security, the Exchange shall ordinarily rely on information made publicly available by the issuer and/or the markets in which such security is traded.
- (d) If prior to the delisting of a class of options contracts covering an underlying security that has been found not to meet the Exchange's requirements for continued approval, the Exchange determines that the underlying security again meets the Exchange's requirements, the Exchange will open for trading additional series of options of that class and may lift any restriction on opening purchase transactions imposed by this Rule.
- (e) Whenever the Exchange announces that approval of an underlying security has been withdrawn for any reason or that the Exchange has been informed that the issuer of an underlying security has ceased to be in compliance with SEC reporting requirements, each Options Member shall, prior to effecting any transaction in options contracts with respect to such underlying security for a Customer, inform such Customer of such fact and of the fact that the Exchange may prohibit further transactions in such options contracts to the extent it shall deem such action necessary and appropriate.
- (f) If an ADR was initially deemed appropriate for options trading on the grounds that fifty percent (50%) or more of the worldwide trading volume (on a share-equivalent basis) in the ADR and other related ADRs and securities takes place in U.S. markets or in markets with which the Exchange has in place an effective surveillance sharing agreement, or if an ADR was initially deemed appropriate for options trading based on the daily trading volume standard in Rule 20.120 (Criteria for Underlying Securities), the Exchange may not open for trading additional series of options on the ADR unless:
- (1) the percentage of worldwide trading volume in the ADR and other related securities that takes place in the U.S. and in markets with which the Exchange has in place effective surveillance sharing agreements for any consecutive three (3) month period is either: (A) at least thirty percent (30%) without regard to the average daily trading volume in the ADR, or (B) at least fifteen percent (15%) when the average U.S. daily trading volume in the ADR for the previous three (3) months is at least 70,000 shares; or

- (2) the Exchange then has in place an effective surveillance sharing agreement with the primary exchange in the home country where the security underlying the ADR is traded; or
 - (3) the SEC has otherwise authorized the listing thereof.
- (g) Fund Shares approved for options trading pursuant to Rule 20.120 (Criteria for Underlying Securities) will not be deemed to meet the requirements for continued approval, and the Exchange shall not open for trading any additional series of options contracts of the class covering such Fund Shares if the security is delisted from trading as provided in subparagraph (b)(4) of this Rule. In addition, the Exchange shall consider the suspension of opening transactions in any series of options of the class covering Fund Shares in any of the following circumstances:
- (1) In the case of options covering Fund Shares approved pursuant to Rule 20.120, in accordance with the terms of subparagraphs (b)(1), (2) and (3) of this Rule;
 - (2) In the case of options covering Fund Shares approved pursuant to Rule 20.120(i), following the initial twelve-month period beginning upon the commencement of trading in the Fund Shares on a national securities exchange and are defined as NMS stock under Rule 600 of Regulation NMS, there were fewer than 50 record and/or beneficial holders of such Fund Shares for 30 consecutive days;
 - (3) the value of the index, non-U.S. currency, portfolio of commodities including commodity futures contracts, options on commodity futures contracts, swaps, forward contracts and/or options on physical commodities and/or Financial Instruments or Money Market Instruments, or portfolio of securities on which the Fund Shares are based is no longer calculated or available; or
 - (4) such other event occurs or condition exists that in the opinion of the Exchange makes further dealing in such options on IEX Options inadvisable.
- (h) Securities initially approved for options trading pursuant to paragraph (j) of Rule 20.120 (Criteria for Underlying Securities) (such securities are defined and referred to in that paragraph as "Trust Issued Receipts") shall not be deemed to meet the Exchange's requirements for continued approval, and the Exchange shall not open for trading any additional series of options contracts of the class covering such Trust Issued Receipts, whenever the Trust Issued Receipts are delisted and trading in the Receipts is suspended on a national securities exchange, or the Trust Issued Receipts are no longer traded as national market securities through the facilities of a national securities association. In addition, the Exchange shall consider the suspension of opening transactions in any series of options of the class covering Trust Issued Receipts in any of the following circumstances:
- (1) in accordance with the terms of paragraph (b) of this Rule in the case of options covering Trust Issued Receipts when such options were approved pursuant to subparagraph (j)(1)(A) under Rule 20.120 (Criteria for Underlying Securities);
 - (2) upon annual review, the Trust has more than 60 days remaining until termination and there are fewer than 50 record and/or beneficial holders of Trust Issued Receipts for 30 consecutive days;
 - (3) the Trust has fewer than 50,000 receipts issued and outstanding;
 - (4) the market value of all receipts issued and outstanding is less than \$1,000,000; or
 - (5) such other event shall occur or condition exist that in the opinion of the Exchange makes further dealing in such options on IEX Options inadvisable.
- (i) For Trust Issued Receipts approved for options trading pursuant to paragraph (j) of Rule 20.120 (Criteria for Underlying Securities) that are also Holding Company Depositary Receipts ("HOLDRs"), the Exchange will not

open additional series of options overlying HOLDERS (without prior Commission approval) if: (1) the proportion of securities underlying standardized equity options to all securities held in a HOLDERS trust is less than 80% (as measured by their relative weightings in the HOLDERS trust); or (2) less than 80% of the total number of securities held in a HOLDERS trust underlie standardized equity options.

(j) Index Linked Securities

Absent exceptional circumstances, Index-Linked Securities ("Securities") initially approved for options trading pursuant to paragraph (l) of Rule 20.120 (Criteria for Underlying Securities) shall not be deemed to meet the Exchange's requirements for continued approval, and the Exchange shall not open for trading any additional series or option contracts of the class covering such Securities whenever the underlying Securities are delisted and trading in the Securities is suspended on a national securities exchange, or the Securities are no longer an "NMS Stock" (as defined in Rule 600 of Regulation NMS under the Securities Exchange Act of 1934). In addition, the Exchange shall consider the suspension of opening transactions in any series of options of the class covering Index-Linked Securities in any of the following circumstances:

- (1) the underlying Index-Linked Security fails to comply with the terms of paragraph (l) of Rule 20.120 (Criteria for Underlying Securities);
- (2) in accordance with the terms of paragraph (b) of this Rule, in the case of options covering Index-Linked Securities when such options were approved pursuant to paragraph (l) of Rule 20.120 (Criteria for Underlying Securities), except that, in the case of options covering Index-Linked Securities approved pursuant to Rule 20.120(l)(3)(B) that are redeemable at the option of the holder at least on a weekly basis, then option contracts of the class covering such Securities may only continue to be open for trading as long as the Securities are listed on a national securities exchange and are "NMS" stock as defined in Rule 600 of Regulation NMS;
- (3) in the case of any Index-Linked Security trading pursuant to paragraph (l) of Rule 20.120 (Criteria for Underlying Securities), the value of the Reference Asset is no longer calculated; or
- (4) such other event shall occur or condition exist that in the opinion of the Exchange make further dealing in such options on the Exchange inadvisable.

(k) Inadequate Volume Delisting

Absent exceptional circumstances, a security initially approved for options trading may be deemed by the Exchange not to meet the requirements for continued approval, in which case the Exchange will not open for trading any additional series of equity options contracts of the class of options and may determine to delist the class of options if it meets the following criteria:

- (1) the option has been trading on the Exchange not less than six (6) months; and
- (2) the Exchange average daily volume ("ADV") of the entire class of options over the last six (6) month period was less than twenty (20) contracts.

If the option is singly listed only on the Exchange, the Exchange will cease to add new series and may delist the class of options when there is no remaining open interest. Should the Exchange determine to delist an equity option pursuant to this subsection, it will provide notification of the determination to delist such option not less than three (3) days prior to the scheduled delisting date.

.01 If an options series is listed but restricted to closing transactions on another national securities exchange, the Exchange may list such series (even if such series would not otherwise be eligible for listing under the Exchange's rules), which shall also be restricted to closing transactions on the Exchange.

Rule 20.140. Series of Options Contracts Open for Trading

- (a) After a particular class of options has been approved for listing and trading on IEX Options by the Exchange, the Exchange from time to time may open for trading series of options in that class. Only options contracts in series of options currently open for trading may be purchased or written on IEX Options. Prior to the opening of trading in a given series, the Exchange will fix the expiration month, year and exercise price of that series. For Quarterly Options Series and Short Term Options Series, the Exchange will fix a specific expiration date and exercise price, as provided in Supplementary Material .04 and .05, respectively. For Monthly Options Series, the Exchange will fix a specific expiration date and exercise price, as provided in Supplementary Material .07.
- (b) Except for Short Term Options Series, Monthly Options Series, and Quarterly Options Series, at the commencement of trading on IEX Options of a particular class of options, IEX Options will open a minimum of one (1) series of options in that class. The exercise price of the series will be fixed at a price per share, relative to the underlying stock price in the primary market at about the time that class of options is first opened for trading on IEX Options. Supplementary Material .04 will govern the procedures for opening Quarterly Options Series. Supplementary Material .05 will govern the procedures for opening Short Term Options Series. Supplementary Material .07 will govern the procedures for opening Monthly Options Series.
- (c) Additional series of options of the same class may be opened for trading on IEX Options when the Exchange deems it necessary to maintain an orderly market, to meet Customer demand or when the market price of the underlying stock moves more than five strike prices from the initial exercise price or prices. The opening of a new series of options shall not affect the series of options of the same class previously opened. New series of options on an individual stock may be added until the beginning of the month in which the options contract will expire. Due to unusual market conditions, the Exchange, in its discretion, may add a new series of options on an individual stock until the close of trading on the business day prior to expiration.
- (d) Except as otherwise provided in this Rule and the Supplementary Materials hereto, the interval between strike prices of series of options on individual stocks will be:
- (1) \$2.50 or greater where the strike price is \$25.00 or less;
 - (2) \$5.00 or greater where the strike price is greater than \$25.00; and
 - (3) \$10.00 or greater where the strike price is greater than \$200.00, except as provided in (d)(5) below.
 - (4) The interval between strike prices of series of options on Fund Shares approved for options trading pursuant to Rule 20.120(i) shall be fixed at a price per share which is reasonably close to the price per share at which the underlying security is traded in the primary market at or about the same time such series of options is first open for trading on IEX Options, or at such intervals as may have been established on another options exchange prior to the initiation of trading on IEX Options. Notwithstanding any other provision regarding the interval between strike prices of series of options on Fund Shares in this Rule, the interval between strike prices of

series of options on Standard & Poor's Depository Receipts Trust ("SPY"), iShares S&P 500 Index ETF ("IVV"), SPDR® Gold Shares ("GLD"), and the DIAMONDS Trust ("DIA") will be \$1 or greater.

- (5) The Exchange may list series in intervals of \$5 or greater where the strike price is more than \$200 in up to five (5) options classes on individual stocks. The Exchange may list \$5 strike prices on any other options classes designated by other securities exchanges that employ a similar \$5 Strike Price Program.
- (e) The Exchange will open at least one expiration month for each class of options open for trading on IEX Options.
- (f) The interval of strike prices may be \$2.50 in any multiply-traded options class to the extent permitted on IEX Options by the SEC or once another exchange trading that options class lists strike prices of \$2.50 on such options class.
- (g) Notwithstanding the requirements set forth in this Rule and any Supplementary Material thereto:
 - (1) During the expiration week of an options class that is selected for the Short Term Options Series Program pursuant to Supplementary Material .05 of this Rule ("Short Term Options"), the strike price intervals for the related non-Short Term Options ("Related non-Short Term Options") shall be the same as the strike price intervals for the Short Term Options.
 - (2) During the week before the expiration week of a Short Term Options series, the Exchange shall open the related non-Short Term Options for trading in Short Term Options intervals in the same manner permitted by Supplementary Material .05 of this Rule.

• • • Supplementary Material • • •

.01 The interval between strike prices of series of options on individual stocks may be \$2.50 or greater where the strike price is \$25 or less, provided however, that IEX Options may not list \$2.50 intervals below \$50 (e.g. \$12.50, \$17.50) for any class included within the \$1 Strike Price Program, as detailed below in Supplementary Material .02, if the addition of \$2.50 intervals would cause the class to have strike price intervals that are \$0.50 apart. For series of options on Exchange-Traded Fund Shares that satisfy the criteria set forth in Rule 20.120(i), the interval of strike prices may be \$1 or greater where the strike price is \$200 or less or \$5 or greater where the strike price is over \$200. Exceptions to the strike price intervals above are set forth in Supplementary Materials .02 and .03 below.

.02 The interval between strike prices of series of options on individual stocks may be:

- (a) *\$1.00 or greater ("1 Strike Prices") provided the strike price is \$50 or less, but not less than \$1. The listing of \$1 strike prices shall be limited to options classes overlying no more than one hundred fifty (150) individual stocks (the "1 Strike Price Program") as specifically designated by IEX Options. IEX Options may list 1 Strike Prices on any other options classes if those classes are specifically designated by other national securities exchanges that employ a similar 1 Strike Price Program under their respective rules. If a class participates in the 1 Strike Price Program, \$2.50 strike price intervals are not permitted between \$1 and \$50 for non-LEAPS and LEAPS.*
- (b) *To be eligible for inclusion into the 1 Strike Price Program, an underlying security must close below \$50 in the primary market on the previous trading day. After a security is added to the 1 Strike Price Program, IEX Options may list 1 Strike Prices from \$1 to \$50 that are no more than \$5 from the closing price of the underlying on the preceding day. For example, if the underlying security closes at \$13, IEX Options may list strike prices from \$8 to \$18. IEX Options may not list series with \$1 intervals within \$0.50 of an existing strike price in the same series, except that strike prices of \$2, \$3, \$4, \$5 and \$6 shall be permitted within \$0.50 of an existing strike price for classes also selected to participate in the \$0.50 Strike Program.*
A security shall remain in the 1 Strike Price Program until otherwise designated by IEX Options.
- (c) *Delisting Policy. For options classes selected to participate in the 1 Strike Price Program, the Exchange will, on a monthly basis, review series that were originally listed under the 1 Strike Price Program with strike prices that are more than \$5 from the current value of an options class and delist those series with no open interest in both the put and the call series having a: (1) strike*

higher than the highest strike price with open interest in the put and/or call series for a given expiration month; and (2) strike lower than the lowest strike price with open interest in the put and/or call series for a given expiration month. If the Exchange identifies series for delisting pursuant to this policy, the Exchange shall notify other options exchanges with similar delisting policies regarding the eligible series for delisting, and shall work jointly with such other exchanges to develop a uniform list of series to be delisted so as to ensure uniform series delisting of multiply listed options classes.

Notwithstanding the above delisting policy, the Exchange may grant Options Member requests to add strikes and/or maintain strikes in series of options classes traded pursuant to the \$1 Strike Price Program that are eligible for delisting.

.03

- (a) The options exchanges may select up to 200 options classes on individual stocks for which the interval of strike prices will be \$2.50 where the strike price is greater than \$25 but less than \$50. The 200 options classes are selected by the various options exchanges pursuant to any agreement mutually agreed to by the individual exchanges and approved by the Commission. The strike price interval may be \$2.50 in any multiply traded option once another exchange trading that option selects such option, as part of this program.
- (b) In addition, on any options class that has been selected as part of the \$2.50 Strike Price Program pursuant to paragraph (a) above, the Exchange may list \$2.50 strike prices between \$50 and \$75, provided the \$2.50 strike prices between \$50 and \$75 are no more than \$10 from the closing price of the underlying stock in its primary market on the preceding day. For example, if an options class has been selected as part of \$2.50 Strike Price Program, and the underlying stock closes at \$48.50 in its primary market, the Exchange may list the \$52.50 strike price and the \$57.50 strike price on the next business day. If an underlying security closes at \$54, the Exchange may list the \$52.50 strike price, the \$57.50 strike price, and the \$62.50 strike price on the next business day.
- (c) An options class shall remain in the \$2.50 Strike Price Program until otherwise designated by the Exchange and a decertification notice is sent to the Options Clearing Corporation.

.04 Quarterly Options Series Program: The Exchange may list and trade P.M. settled options series that expire at the close of business on the last business day of a calendar quarter ("Quarterly Options Series"). The Exchange may list Quarterly Options Series for up to five (5) currently listed options classes that are options on exchange traded funds ("ETF"). In addition, the Exchange may also list Quarterly Options Series on any options classes that are selected by other securities exchanges that employ a similar program under their respective rules.

- (a) The Exchange may list series that expire at the end of the next consecutive four (4) calendar quarters, as well as the fourth quarter of the next calendar year.
- (b) Initial Series. The strike price of each Quarterly Options Series will be fixed at a price per share, with at least two, but no more than five, strike prices above and at least two, but no more than five, strike prices below the value of the underlying index or price of the underlying security at about the time that a Quarterly Options Series is opened for trading on the Exchange. The Exchange will list strike prices for Quarterly Options Series that are reasonably related to the current price of the underlying security or current index value of the underlying index to which such series relates at about the time such series of options is first opened for trading on the Exchange. The term "reasonably related to the current price of the underlying security or index value of the underlying index" means that the exercise price is within 30% of the current underlying security price or index value.
- (c) Additional Series. Additional Quarterly Options Series of the same class may be opened for trading on the Exchange when the Exchange deems it necessary to maintain an orderly market, to meet customer demand or when the market price of the underlying security moves substantially from the initial exercise price or prices. To the extent that any additional strike prices are listed by the Exchange, such additional strike prices shall be within thirty percent (30%) above or below the closing price of the underlying ETF (or "Fund Shares") as defined in Rule 20.120(i) on the preceding day. The Exchange may also open additional strike prices of Quarterly Options Series in ETF options that are more than 30% above or below the current price of the underlying ETF provided that demonstrated customer interest exists for such series, as expressed by institutional, corporate, or individual customers or their brokers. Options Market Makers trading for their own account shall not be considered when determining customer interest under this provision. The opening of new Quarterly Options Series shall not affect the series of options of the same class previously opened. In addition to the initial listed series, the Exchange may list up to sixty (60) additional series per expiration month for each Quarterly Options Series in ETF options.

- (d) The interval between strike prices on Quarterly Options Series shall be the same as the interval for strike prices for series in that same options class that expire in accordance with the normal monthly expiration cycle.
- (e) **Delisting Policy.** With respect to Quarterly Options Series added pursuant to the above paragraphs, the Exchange will, on a monthly basis review series that are outside of a range of five (5) strikes above and five (5) strikes below the current price of the ETF, and delist series with no open interest in both the call and the put series having a (1) strike higher than the highest price with open interest in the put and/or call series for a given expiration month; and (2) strike lower than the lowest strike price with open interest in the put and/or the call series for a given expiration month.
- Notwithstanding the above referenced delisting policy, customer requests to add strikes and/or maintain strikes in Quarterly Options Series eligible for delisting shall be granted. In connection with the above referenced delisting policy, if the Exchange identifies series for delisting, the Exchange shall notify other options exchanges with similar delisting policies regarding eligible series for delisting, and shall work with such other exchanges to develop a uniform list of series to be delisted, so as to help to ensure uniform delisting of multiply listed Quarterly Options Series in ETF options.
- .05 Short Term Options Series Program.** After an options class has been approved for listing and trading on IEX Options, the Exchange may open for trading on any Thursday or Friday that is a business day ("Short Term Options Opening Date") series of options on that class that expire on each of the next five (5) Fridays that are business days and are not Fridays in which standard expiration options series, Monthly Options Series, or Quarterly Options Series expire ("Friday Short Term Options Expiration Dates"). The Exchange may have no more than a total of five Friday Short Term Options Expiration Dates ("Short Term Options Weekly Expirations"). If IEX Options is not open for business on the respective Thursday or Friday, the Short Term Options Opening Date for Short Term Options Weekly Expirations will be the first business day immediately prior to that respective Thursday or Friday. Similarly, if IEX Options is not open for business on the Friday that the options are set to expire, the Short Term Options Expiration Date for Short Term Options Weekly Expirations will be the first business day immediately prior to that Friday. Regarding Short Term Options Series:
- (a) The Exchange may select up to fifty (50) currently listed options classes on which Short Term Options Series may be opened on any Short Term Options Opening Date. In addition to the 50 options class restriction, the Exchange also may list Short Term Options Series on any options classes that are selected by other securities exchanges that employ a similar program under their respective rules. For each options class eligible for participation in the Short Term Options Series Program, the Exchange may open up to thirty (30) Short Term Options Series for each expiration date in that class. The Exchange may also open Short Term Options Series that are opened by other securities exchanges in options classes selected by such exchanges under their respective short term options rules.
- (b) With the exception of Short Term Options Daily Expirations, no Short Term Options Series may expire in the same week in which standard expiration options series on the same class expire or, in the case of Monthly Options Series and Quarterly Options Series, on an expiration that coincides with an expiration of a Monthly Options Series or Quarterly Options Series, respectively, on the same class.
- (c) **Initial Series.** The Exchange may open up to thirty (30) initial series for each options class that participates in the Short Term Options Series Program. The strike price of each Short Term Options Series will be fixed at a price per share, with approximately the same number of strike prices being opened above and below the calculated value of the underlying security at about the time that the Short Term Options Series are initially opened for trading on the Exchange (e.g., if seven (7) series are initially opened, there will be at least three (3) strike prices above and three (3) strike prices below the value of the underlying security). Any strike prices listed by the Exchange shall be reasonably close to the price of the underlying equity security and within the following parameters: (i) if the price of the underlying is less than or equal to \$20, strike prices shall be not more than 100% above or below the price of the underlying security; and (ii) if the price of the underlying security is greater than \$20, strike prices shall be not more than fifty (50%) above or below the price of the underlying security.
- (d) **Additional Series.** If the Exchange opens less than thirty (30) Short Term Options Series for a Short Term Options Expiration Date, additional series may be opened for trading on the Exchange when the Exchange deems it necessary to maintain an orderly market, to meet customer demand, or when the market price of the underlying security moves substantially from the exercise price or prices of the series already opened. Any additional strike prices listed by the Exchange shall be reasonably close to the price of the underlying equity security and within the following parameters: (i) if the price of the underlying is less than or equal to \$20, strike prices shall be not more than 100% above or below the price of the underlying security; and (ii) if the price of the

underlying security is greater than \$20, strike prices shall be not more than fifty (50%) above or below the price of the underlying security. The Exchange may also open additional strike prices of Short Term Options Series that are more than 50% above or below the current value of the underlying security (if the price is greater than \$20); provided that demonstrated customer interest exists for such series, as expressed by institutional, corporate or individual customers or their brokers, provided that such strike prices comply with the Options Listing Procedures Plan. Market Makers trading for their own account shall not be considered when determining customer interest under this provision. The opening of the new Short Term Options Series shall not affect the series of options of the same class previously opened. In the event that the underlying security has moved such that there are no series that are at least 10% above or below the current price of the underlying security and all existing series have open interest, the Exchange may list additional series, in excess of the thirty series per class limit set forth in paragraph (c) above, that are between 10% and 30% above or below the price of the underlying security. In the event that the underlying security has moved such that there are no series that are at least 10% above or below the current price of the underlying security, the Exchange will delist any series with no open interest in both the call and the put series having a: (i) strike higher than the highest price with open interest in the put and/or call series for a given expiration week; and (ii) strike lower than the lowest strike price with open interest in the put and/or the call series for a given expiration week. Notwithstanding any other provisions in this Rule, Short Term Options Series may be added up to and including on the Short Term Options Expiration Date for that options series.

(e) **Strike Interval.** The interval between strike prices on Short Term Options Series shall be the same as the strike prices for series in that same options class that expire in accordance with the normal monthly expiration cycle. During the expiration week of an options class that is selected for the Short Term Options Series Program pursuant to this rule ("Short Term Options"), the strike price intervals for the related non-Short Term Options ("Related non-Short Term Options") shall be the same as the strike price intervals for the Short Term Options. If the class does not trade in \$1 strike price intervals, the strike price interval for Short Term Options Series may be (i) \$0.50 or greater where the strike price is less than \$100; (ii) \$1.00 or greater where the strike price is between \$100 and \$150; or (iii) \$2.50 or greater for strike prices greater than \$150. During the week before the expiration week of a Short Term Options Series, the Exchange shall open the related non-Short Term Options for trading in Short Term Options intervals in the same manner permitted by this Supplementary Material .05.

(f) **Strike Interval Limitations.** Notwithstanding paragraph (e) above, when Short Term Options Series in equity options (excluding options on ETFs and ETNs) have an expiration more than 21 days from the listing date, the strike interval for each options class will be based on the table below, which specifies the applicable interval for listing.

Tier	Average Daily Volume	Share Price					
		Less than \$2.50	\$2.50 to less than \$25	\$25 to less than \$75	\$75 to less than \$150	\$150 to less than \$500	\$500 or greater
1	Greater than 5,000	\$0.50	\$0.50 for strikes less than \$100 in Short Term Options Series Program classes and classes that trade in \$1 increments in non-Short Term Options Series \$1.00 for strikes between \$100 and \$150 for classes that do not otherwise trade in \$1.00 increments in non-Short Term Options Series	\$1.00 for strikes less than \$150 \$2.50 for strikes greater than \$150	\$1.00 for strikes less than \$150 \$2.50 for strikes greater than \$150	\$5.00	\$5.00

			\$2.50 for strikes greater than \$150				
2	Greater than 1,000 to 5,000	\$0.50	\$1.00 for strikes less than \$150 \$2.50 for strikes greater than \$150	\$1.00 for strikes less than \$150 \$2.50 for strikes greater than \$150	\$1.00 for strikes less than \$150 \$2.50 for strikes greater than \$150	\$5.00	\$10.00
3	0 to 1,000	\$0.50	\$2.50	\$5.00	\$5.00	\$5.00	\$10.00

(1) The Share Price is the closing price on the primary market on the last day of the calendar quarter. In the event of a corporate action, the Share Price of the surviving company is utilized.

(2) The Average Daily Volume is the total number of options contracts traded in a given security for the applicable calendar quarter divided by the number of trading days in the applicable calendar quarter. Beginning on the second trading day in the first month of each calendar quarter, the Average Daily Volume is calculated by utilizing data from the prior calendar quarter based on Customer-cleared volume at OCC. For options listed on the first trading day of a given calendar quarter, the Average Daily Volume is calculated using the quarter prior to the last trading calendar quarter.

(3) Options that are newly eligible for listing pursuant to Rule 20.120 and designated to participate in the Short Term Options Program will not be subject to this paragraph (f) until after the end of the first full calendar quarter following the date the options class was first listed for trading on any options market.

(g) Notwithstanding the requirements set forth in this Rule and any Supplementary Materials thereto, the Exchange may open for trading Short Term Options Series on the Short Term Options Opening Date that expire on the Short Term Options Expiration Date at \$0.50 strike price intervals for options classes that trade in one dollar increments and are in the Short Term Options Series Program.

(h) Short Term Options Daily Expirations

In addition to the above, the Exchange may open for trading series of options on the symbols provided in Table 1 below that expire at the close of business on each of the next two Mondays, Tuesdays, Wednesdays, and Thursdays, respectively, that are business days beyond the current week and are not business days on which standard expiration options series, Monthly Options Series or Quarterly Options Series expire ("Short Term Options Daily Expirations"). The Exchange may have no more than a total of two Short Term Options Daily Expirations beyond the current week for each of Monday, Tuesday, Wednesday, and Thursday expirations at one time. Short Term Options Daily Expirations would be subject to this Supplementary Material .05.

Table 1

Symbol	Number of Expirations			
	Monday	Tuesday	Wednesday	Thursday

IWM	2	2	2	2
QQQ	2	2	2	2

USO	0	0	2	0
UNG	0	0	2	0
GLD	2	0	2	0
SLV	2	0	2	0

With respect to Monday expirations for symbols defined in Table 1 above ("Monday Expirations"), the Exchange may open for trading on any Friday or Monday that is a business day series of options on the symbols provided in Table 1 above that expire at the close of business on each of the next two Mondays that are business days and are not business days on which standard expiration options series, Monthly Options Series, or Quarterly Options Series expire ("Monday Short Term Options Expiration Date"), provided that Monday Expirations that are listed on a Friday must be listed at least one business week and one business day prior to the expiration. With respect to Tuesday expirations for symbols defined in Table 1 above ("Tuesday Expirations"), the Exchange may open for trading on any Monday or Tuesday that is a business day series of options on the symbols provided in Table 1 above that expire at the close of business on each of the next two Tuesdays that are business days and are not business days on which standard expiration options series, Monthly Options Series, or Quarterly Options Series expire ("Tuesday Short Term Options Expiration Date"). With respect to Wednesday expirations for symbols defined in Table 1 above ("Wednesday Expirations"), the Exchange may open for trading on any Tuesday or Wednesday that is a business day series of options on the symbols provided in Table 1 above that expire at the close of business on each of the next two Wednesdays that are business days and are not business days on which standard expiration options series, Monthly Options Series, or Quarterly Options Series expire ("Wednesday Short Term Options Expiration Date"). With respect to Thursday expirations for symbols defined in Table 1 above ("Thursday Expirations"), the Exchange may open for trading on any Wednesday or Thursday that is a business day series of options on the symbols provided in Table 1 above that expire at the close of business on each of the next two Thursdays that are business days and are not business days on which standard expiration options series, Monthly Options Series, or Quarterly Options Series expire ("Thursday Short Term Options Expiration Date"). Monday Short Term Options Expiration Dates, Tuesday Short Term Options Expiration Dates, Wednesday Short Term Options Expiration Dates, and Thursday Short Term Options Expiration Dates, together with Friday Short Term Options Expiration Dates, are collectively "Short Term Options Expiration Dates." If the Exchange is not open for business on a Monday, the Monday Short Term Options Expiration Date will be the business day immediately following that Monday. If the Exchange is not open for business on a Tuesday, Wednesday, or Thursday, the Tuesday Short Term Options Expiration Date, Wednesday Short Term Options Expiration Date, and Thursday Short Term Options Expiration Date, respectively, will be the first business day immediately prior to that Tuesday, Wednesday, or Thursday, respectively.

.06 The interval between strike prices of series of options on individual stocks may be \$0.50 or greater beginning at \$.50 where the strike price is \$5.50 or less, but only for options classes whose underlying security closed at or below \$5.00 in its primary market on the previous trading day and which have national average daily volume that equals or exceeds 1,000 contracts per day as determined by The Options Clearing Corporation during the preceding three calendar months. The listing of \$0.50 strike prices shall be limited to options classes overlying no more than 20 individual stocks (the "\$0.50 Strike Program") as specifically designated by IEX Options. IEX Options may list \$0.50 strike prices on any other options classes if those classes are specifically designated by other securities exchanges that employ a similar \$0.50 Strike Program under their respective rules. A stock shall remain in the \$0.50 Strike Program until otherwise designated by IEX Options.

.07 Monthly Options Series Program. The Exchange may list and trade options series that expire at the close of business on the last business day of a calendar month ("Monthly Options Series").

(a) Classes. The Exchange may list Monthly Options Series for up to five currently listed options classes that are options on ETFs. In addition, the Exchange may also list Monthly Options Series on any options classes that are selected by other securities exchanges that employ a similar program under their respective rules.

- (b) *Expiration.* The Exchange may list 12 expirations for Monthly Options Series. Monthly Options Series expirations need not be for consecutive months; however, the expiration date of a nonconsecutive expiration may not be beyond what would be considered the last expiration date if the maximum number of expirations were listed consecutively. No Monthly Options Series may expire on a date that coincides with an expiration date of a Quarterly Options Series in the same index or ETF class. Other expirations in the same class are not counted as part of the maximum numbers of Monthly Options Series expirations for a class.
- (c) *Settlement.* Monthly Options Series will be P.M.-settled.
- (d) *Initial Series.* The strike price of each Monthly Options Series will be fixed at a price per share, with at least two, but no more than five, strike prices above and at least two, but no more than five, strike prices below the value of the underlying index or price of the underlying security at about the time that a Monthly Options Series is opened for trading on the Exchange. The Exchange will list strike prices for Monthly Options Series that are reasonably related to the current price of the underlying security or current index value of the underlying index to which such series relates at about the time such series of options is first opened for trading on the Exchange. The term “reasonably related to the current price of the underlying security or index value of the underlying index” means that the exercise price is within 30% of the current underlying security price or index value.
- (e) *Additional Series.* Additional Monthly Options Series of the same class may be open for trading on the Exchange when the Exchange deems it necessary to maintain an orderly market, to meet customer demand, or when the market price of the underlying security moves substantially from the initial exercise price or prices. To the extent that any additional strike prices are listed by the Exchange, such additional strike prices will be within 30% above or below the closing price of the underlying index or security on the preceding day. The Exchange may also open additional strike prices of Monthly Options Series that are more than 30% above or below the current price of the underlying index or security, provided that demonstrated customer interest exists for such series, as expressed by institutional, corporate, or individual customers or their brokers. Market Makers trading for their own account will not be considered when determining customer interest under this provision. The opening of the new Monthly Options Series will not affect the series of options in the same class previously opened.
- (f) *Strike Interval.* The interval between strike prices on Monthly Options Series will be the same as the interval for strike prices for series in that same options class that expire in accordance with the normal monthly expiration cycle.
- (g) *Delisting Policy.*
- (1) With respect to Monthly Options Series added pursuant to subparagraphs (a) through (f) above, the Exchange will, on a monthly basis, review series that are outside a range of five strikes above and five strikes below the current price of the underlying index or security, and delist series with no open interest in both the put and the call series having a: (A) strike higher than the highest strike price with open interest in the put and/or call series for a given expiration month; and (B) strike lower than the lowest strike price with open interest in the put and/or call series for a given expiration month.
 - (2) Notwithstanding the above referenced delisting policy, customer requests to add strikes and/or maintain strikes in Monthly Options Series in series eligible for delisting shall be granted.
 - (3) In connection with the above referenced delisting policy, if the Exchange identifies series for delisting, the Exchange will notify other options exchanges with similar delisting policies regarding eligible series for delisting and will work with such other exchanges to develop a uniform list of series to be delisted, so as to ensure uniform series delisting of multiply listed Monthly Options Series.

.08 Low Priced Stock Strike Price Interval Program

- (a) *Eligibility for the Low Priced Stock Strike Price Interval Program.* To be eligible for inclusion in the Low Priced Stock Strike Price Interval Program, an underlying stock must (1) close below \$2.50 in its primary market on the previous trading day; and (2) have an average daily trading volume of at least 1,000,000 shares per day for the three preceding calendar months.
- (b) *Strike Prices To Be Added.* After a stock is added to the Low Priced Stock Strike Price Interval Program, the Exchange may list \$0.50 strike price intervals from \$0.50 up to \$2.00.
- (1) For the purpose of adding strikes under the Low Priced Stock Strike Price Interval Program, the “price of the underlying stock” is measured in the same way as “the price of the underlying security” is measured as set forth in Section 3(g) the

Options Listing Procedures Plan.

- (2) No additional series in \$0.50 intervals may be listed if the underlying stock closes above \$2.50 in its primary market. Additional series in \$0.50 intervals may not be added until the underlying stock again closes below \$2.50.
-

Rule 20.150. Adjustments

Options contracts shall be subject to adjustments in accordance with the Rules of the Clearing Corporation. The Exchange will announce adjustments, and such changes will be effective for all subsequent transactions in that series at the time specified in the announcement.

Rule 20.160. Long-Term Options Contracts

Notwithstanding conflicting language in Rule 20.140 (Series of Options Contracts Open for Trading), the Exchange may list long-term options contracts that expire from twelve (12) to thirty-nine (39) months from the time they are listed. There may be up to ten (10) additional expiration months for options on SPY and up to six (6) additional expiration months for all other options classes. Strike price interval, bid/ask differential and continuity rules shall not apply to such options series until the time to expiration is less than nine (9) months.

CHAPTER 21. REGULATION OF TRADING ON IEX OPTIONS

Rule 21.100. Access and Conduct on the IEX Options Market

(a) Access to IEX Options

Unless otherwise provided in the Rules, no one but an Options Member or a person associated with an Options Member shall effect any IEX Options Transactions.

(b) IEX Options Conduct

Options Members and persons employed by or associated with any Options Member, while using the facilities of IEX Options, shall not engage in conduct: (1) inconsistent with the maintenance of a fair and orderly market; (2) apt to impair public confidence in the operations of the Exchange; or (3) inconsistent with the ordinary and efficient conduct of business. Activities that shall violate the provisions of this paragraph (b) include, but are not limited to, the following:

- (1) failure of an Options Market Maker to provide quotations in accordance with Rule 23.150 (Market Maker Quotations);
- (2) failure of an Options Market Maker to bid or offer within the ranges specified by Rule 23.140 (Obligations of Market Makers);
- (3) failure of an Options Member to supervise a person employed by or associated with such Options Member adequately to ensure that person's compliance with this paragraph (b);
- (4) failure to maintain adequate procedures and controls that permit the Options Member to effectively monitor and supervise the entry of orders by users to prevent the prohibited practices set forth in this paragraph (b)

and Rule 19.110 (Conduct and Compliance with Rules);

(5) failure to abide by a determination of the Exchange;

(6) effecting transactions that are manipulative as provided in Rule 10.110 (Market Manipulation) or any other rule of the Exchange;

(7) refusal to provide information requested by the Exchange; and

(8) failure to abide by the provisions of Rule 23.200.

(c) Subject to the Rules, the Exchange will provide access to the System to Options Members in good standing that wish to conduct business on IEX Options.

(d) Pursuant to the Rules and the arrangements referred to in this Chapter 21, the Exchange may:

(1) suspend a User's access to the System following a warning which may be made in writing or verbally (and subsequently confirmed in writing); or

(2) terminate a User's access to the System by notice in writing.

Rule 21.110. Surveillance

Personnel from the Exchange shall monitor and surveil options trading on IEX Options in order to ensure the maintenance of a fair and orderly market.

Rule 21.120. Trading Halts

(a) Halts.

The Exchange may halt trading in any options contract in the interests of a fair and orderly market. The following are among the factors that shall be considered in determining whether the trading in an options contract should be halted:

(1) trading in the underlying security has been halted, or suspended in the primary market;

(2) the opening of such underlying security has been delayed because of unusual circumstances;

(3) occurrence of an act of God or other event outside the Exchange's control;

(4) a System technical failure or failures including, but not limited to, the failure of a part of the central processing system, a number of Options Member trading applications, or the electrical power supply to the system itself or any related system; or

(5) other unusual conditions or circumstances are present.

(b) In the event the Exchange determines to halt trading, all trading in the effected class or classes of options shall be halted and the Exchange shall process new and existing orders and quotes in a series in accordance with Rule 22.160(g). IEX Options shall disseminate through its trading facilities and over OPRA a symbol with respect to such class or classes of options indicating that trading has been halted. A record of the time and duration of the halt shall be made available to vendors.

(c) No Options Member or person associated with an Options Member shall effect a trade on IEX Options in any options class in which trading has been halted under the provisions of this Rule during the time in which the halt remains in effect.

• • • Supplementary Material • • •

.01 The Exchange shall nullify any transaction that occurs:

- (a) during a trading halt in the affected option on the Exchange; or
 - (b) with respect to equity options (including options overlying ETFs), during a regulatory halt as declared by the primary listing market for the underlying security.
-

Rule 21.130. Resumption of Trading After a Halt

Trading in an option that has been the subject of a halt under Rule 21.120 (Trading Halts) shall be resumed as described in Rule 22.160 upon the determination by the Exchange that the conditions which led to the halt are no longer present or that the interests of a fair and orderly market are best served by a resumption of trading.

Rule 21.140. Unusual Market Conditions

- (a) IEX Options staff may determine that the level of trading activities or the existence of unusual market conditions is such that IEX Options is incapable of collecting, processing, and making available to quotation vendors the data for the option in a manner that accurately reflects the current state of the market on IEX Options. Upon making such a determination, the Exchange shall designate the market in such option to be “fast”, and the Exchange shall halt trading in the class or classes so affected.
- (b) The Exchange will monitor the activity or conditions that caused a fast market to be declared, and shall review the condition of such market at least every thirty (30) minutes. Regular trading procedures shall be resumed when the Exchange determines that the conditions supporting a fast market declaration no longer exist.
- (c) The Exchange shall halt trading in all options whenever the equities markets initiate a market wide trading halt (commonly known as the “market-wide circuit breaker”) in response to extraordinary market conditions.

Rule 21.150. Nullification and Adjustment of Options Transactions including Obvious Errors

The Exchange may nullify a transaction or adjust the execution price of a transaction in accordance with this Rule. However, the determination as to whether a trade was executed at an erroneous price may be made by mutual agreement of the affected parties to a particular transaction. A trade may be nullified or adjusted on the terms that all parties to a particular transaction agree, provided, however, that such agreement to nullify or adjust must be conveyed to the Exchange in a manner prescribed by the Exchange prior to 8:30 a.m. Eastern Time on the first trading day following the execution. It is considered conduct inconsistent with just and equitable principles of trade for any Options Member to use the mutual adjustment process to circumvent any applicable Exchange rule, the Act or any of the rules and regulations thereunder.

(a) Definitions

- (1) “Customer.” For purposes of this Rule, a Customer shall not include any broker-dealer or Professional.
- (2) “Erroneous Sell/Buy Transaction.” For purposes of this Rule, an “erroneous sell transaction” is one in which the price received by the person selling the option is erroneously low, and an “erroneous buy transaction” is

one in which the price paid by the person purchasing the option is erroneously high.

(3) “Official.” For purposes of this Rule, an Official is an Officer of the Exchange or such other employee designee of the Exchange that is trained in the application of this Rule.

(4) “Size Adjustment Modifier.” For purposes of this Rule, the Size Adjustment Modifier will be applied to individual transactions as follows:

Number of Contracts per Execution	Adjustment - TP Plus/Minus
1-50	N/A
51-250	2 times adjustment amount
251-1000	2.5 times adjustment amount
1001 or more	3 times adjustment amount

(b) “Theoretical Price.” Upon receipt of a request for review and prior to any review of a transaction execution price, the “Theoretical Price” for the option must be determined. For purposes of this Rule, if the applicable options series is traded on at least one other options exchange, then the Theoretical Price of an options series is the last NBB just prior to the trade in question with respect to an erroneous sell transaction or the last NBO just prior to the trade in question with respect to an erroneous buy transaction unless one of the exceptions in subparagraphs (b)(1) through (3) below exists. For purposes of this provision, when a single order received by the Exchange is executed at multiple price levels, the last NBB and last NBO just prior to the trade in question would be the last NBB and last NBO just prior to the Exchange’s receipt of the order. The Exchange will rely on this paragraph (b) and Supplementary Material .03 of this Rule when determining Theoretical Price.

(1) “Transactions at the Open.” To the extent any transactions occur through the opening process as described in Rule 22.160, the Exchange will determine the Theoretical Price if there is no NBB or NBO for the affected series just prior to the erroneous transaction or if the bid/ask differential of the NBB and NBO just prior to the erroneous transaction is equal to or greater than the Minimum Amount set forth in the chart contained in sub-paragraph (b)(3) below. If the bid/ask differential is less than the Minimum Amount, the Theoretical Price is the NBB or NBO just prior to the erroneous transaction.

(2) “No Valid Quotes.” The Exchange will determine the Theoretical Price if there are no quotes or no valid quotes for comparison purposes. Quotes that are not valid are:

(A) all quotes in the applicable options series published at a time where the last NBB is higher than the last NBO in such series (a “crossed market”);

(B) quotes published by the Exchange that were submitted by either party to the transaction in question;

(C) quotes published by another options exchange if either party to the transaction in question submitted the quotes in the series representing such options exchange’s best bid or offer, provided that the Exchange will only consider quotes invalid on other options exchanges in up to twenty-five (25) total options series that the party identifies to the Exchange the quotes which were submitted by such party and published by other options exchanges; and

(D) quotes published by another options exchange against which the Exchange has declared self-help.

(3) Wide Quotes.

- (A) The Exchange will determine the Theoretical Price if the bid/ask differential of the NBB and NBO for the affected series just prior to the erroneous transaction was equal to or greater than the Minimum Amount set forth below and there was a bid/ask differential less than the Minimum Amount during the 10 seconds prior to the transaction. If there was no bid/ask differential less than the Minimum Amount during the 10 seconds prior to the transaction then the Theoretical Price of an options series is the last NBB or NBO just prior to the transaction in question, as set forth in paragraph (b) above.

Bid Price at Time of Trade	Minimum Amount
Below \$2.00	\$0.75
\$2.00 to \$5.00	\$1.25
Above \$5.00 to \$10.00	\$1.50
Above \$10.00 to \$20.00	\$2.50
Above \$20.00 to \$50.00	\$3.00
Above \$50.00 to \$100.00	\$4.50
Above \$100.00	\$6.00

(B) Customer Transactions Occurring Within 10 Seconds or Less After an Opening or Re-Opening:

- (i) The Exchange will determine the Theoretical Price if the bid/ask differential of the NBB and NBO for the affected series just prior to the Customer's erroneous transaction was equal to or greater than the Minimum Amount set forth in paragraph (A) above and there was a bid/ask differential less than the Minimum Amount during the 10 seconds prior to the transaction.
- (ii) If there was no bid/ask differential less than the Minimum Amount during the 10 seconds prior to the transaction, then the Exchange will determine the Theoretical Price if the bid/ask differential of the NBB and NBO for the affected series just prior to the Customer's erroneous transaction was equal to or greater than the Minimum Amount set forth in paragraph (A) above and there was a bid/ask differential less than the Minimum Amount anytime during the 10 seconds after an opening or reopening.
- (iii) If there was no bid/ask differential less than the Minimum Amount during the 10 seconds following an Opening or Re-Opening, then the Theoretical Price of an options series is the last NBB or NBO just prior to the Customer transaction in question, as set forth in paragraph (b) above.
- (iv) Customer transactions occurring more than 10 seconds after an opening or re-opening are subject to paragraph (A) above.

(c) Obvious Errors.

- (1) Definition. For purposes of this Rule, an Obvious Error will be deemed to have occurred when the Exchange

receives a properly submitted filing where the execution price of a transaction is higher or lower than the Theoretical Price for the series by an amount equal to at least the amount shown below:

Theoretical Price	Minimum Amount
Below \$2.00	\$0.25
\$2.00 to \$5.00	\$0.40
Above \$5.00 to \$10.00	\$0.50
Above \$10.00 to \$20.00	\$0.80
Above \$20.00 to \$50.00	\$1.00
Above \$50.00 to \$100.00	\$1.50
Above \$100.00	\$2.00

(2) Time Deadline. A party that believes that it participated in a transaction that was the result of an Obvious Error must notify Exchange Market Operations in the manner specified from time to time by the Exchange in a circular distributed to Options Members. Such notification must be received by Exchange Market Operations within the timeframes specified below:

(A) Customer Orders. For an execution of a Customer order, a filing must be received by the Exchange within thirty (30) minutes of the execution, subject to sub-paragraph (C) below; and

(B) “Non-Customer” Orders. For an execution of any order other than a Customer order, a filing must be received by the Exchange within fifteen (15) minutes of the execution, subject to sub-paragraph (C) below.

(C) Linkage Trades. Any other options exchange will have a total of forty-five (45) minutes for Customer orders and thirty (30) minutes for non-Customer orders, measured from the time of execution on the Exchange, to file with the Exchange for review of transactions routed to the Exchange from that options exchange and executed on the Exchange (“linkage trades”). This includes filings on behalf of another options exchange filed by a third-party routing broker if such third-party broker identifies the affected transactions as linkage trades. In order to facilitate timely reviews of linkage trades the Exchange will accept filings from either the other options exchange or, if applicable, the third-party routing broker that routed the applicable order(s). The additional fifteen (15) minutes provided with respect to linkage trades shall only apply to the extent the options exchange that originally received and routed the order to the Exchange itself received a timely filing from the entering participant (i.e., within 30 minutes if a Customer order or 15 minutes if a non-Customer order).

(3) Official Acting on Own Motion. An Official may review a transaction believed to be erroneous on his/her own motion in the interest of maintaining a fair and orderly market and for the protection of investors. A transaction reviewed pursuant to this paragraph may be nullified or adjusted only if it is determined by the Official that the transaction is erroneous in accordance with the provisions of this Rule, provided that the time deadlines of sub-paragraph (c)(2) above shall not apply. The Official shall act as soon as possible after becoming aware of the transaction, and ordinarily would be expected to act on the same day that the

transaction occurred. In no event shall the Official act later than 8:30 a.m. Eastern Time on the next trading day following the date of the transaction in question. A party affected by a determination to nullify or adjust a transaction pursuant to this provision may appeal such determination in accordance with paragraph (I) below; however, a determination by an Official not to review a transaction or determination not to nullify or adjust a transaction for which a review was conducted on an Official's own motion is not appealable. If a transaction is reviewed and a determination is rendered pursuant to another provision of this Rule, no additional relief may be granted under this provision.

(4) Adjust or Bust. If it is determined that an Obvious Error has occurred, the Exchange shall take one of the actions listed below. Upon taking final action, the Exchange shall promptly notify both parties to the trade electronically or via telephone.

(A) Non-Customer Transactions. Where neither party to the transaction is a Customer, the execution price of the transaction will be adjusted by the Official pursuant to the table below. Any non-Customer Obvious Error exceeding 50 contracts will be subject to the Size Adjustment Modifier defined in subparagraph (a)(4) above.

Theoretical Price	Buy Transaction Adjustment - TP Plus	Sell Transaction Adjustment - TP Minus
Below \$3.00	\$0.15	\$0.15
At or above \$3.00	\$0.30	\$0.30

(B) Customer Transactions. Where at least one party to the Obvious Error is a Customer, the execution price of the transaction will be adjusted by the Official pursuant to the table immediately above. Any Customer Obvious Error exceeding 50 contracts will be subject to the Size Adjustment Modifier defined in subparagraph (a)(4) above. However, if such adjustment(s) would result in an execution price higher (for buy transactions) or lower (for sell transactions) than the Customer's limit price, the trade will be nullified, subject to sub-paragraph (C) below.

(C) If any Options Member submits requests to the Exchange for review of transactions pursuant to this rule, and in aggregate that Options Member has 200 or more Customer transactions under review concurrently and the orders resulting in such transactions were submitted during the course of 2 minutes or less, where at least one party to the Obvious Error is a non-Customer, the Exchange will apply the non-Customer adjustment criteria set forth in subparagraph (A) above to such transactions.

(d) Catastrophic Errors.

(1) Definition. For purposes of this Rule, a Catastrophic Error will be deemed to have occurred when the execution price of a transaction is higher or lower than the Theoretical Price for the series by an amount equal to at least the amount shown below:

Theoretical Price	Minimum Amount
Below \$2.00	\$0.50
\$2.00 to \$5.00	\$1.00
Above \$5.00 to \$10.00	\$1.50

Above \$10.00 to \$20.00	\$2.00
Above \$20.00 to \$50.00	\$2.50
Above \$50.00 to \$100.00	\$3.00
Above \$100.00	\$4.00

(2) Time Deadline. A party that believes that it participated in a transaction that was the result of a Catastrophic Error must notify Exchange Market Operations in the manner specified from time to time by the Exchange in a circular distributed to Options Members. Such notification must be received by Exchange Market Operations by 8:30 a.m. Eastern Time on the first trading day following the execution. For transactions in an expiring options series that take place on an expiration day, a party must notify Exchange Market Operations within 45 minutes after the close of trading that same day.

(3) Adjust or Bust. If it is determined that a Catastrophic Error has occurred, the Exchange shall take action as set forth below. Upon taking final action, the Exchange shall promptly notify both parties to the trade electronically or via telephone. In the event of a Catastrophic Error, the execution price of the transaction will be adjusted by the Official pursuant to the table below. Any Customer order subject to this subparagraph will be nullified if the adjustment would result in an execution price higher (for buy transactions) or lower (for sell transactions) than the Customer's limit price.

Theoretical Price	Buy Transaction Adjustment - TP Plus	Sell Transaction Adjustment - TP Minus
Below \$2.00	\$0.50	\$0.50
\$2.00 to \$5.00	\$1.00	\$1.00
Above \$5.00 to \$10.00	\$1.50	\$1.50
Above \$10.00 to \$20.00	\$2.00	\$2.00
Above \$20.00 to \$50.00	\$2.50	\$2.50
Above \$50.00 to \$100.00	\$3.00	\$3.00
Above \$100.00	\$4.00	\$4.00

(e) Significant Market Events.

(1) Definition. For purposes of this Rule, a Significant Market Event will be deemed to have occurred when: criterion (A) below is met or exceeded or the sum of all applicable event statistics, where each is expressed as a percentage of the relevant threshold in criteria (A) through (D) below, is greater than or equal to 150% and 75% or more of at least one category is reached, provided that no single category can contribute more than 100% to the sum and any category contributing more than 100% will be rounded down to 100%. All criteria set forth below will be measured in aggregate across all exchanges.

(A) Transactions that are potentially erroneous would result in a total Worst-Case Adjustment Penalty of \$30,000,000, where the Worst-Case Adjustment Penalty is computed as the sum, across all potentially erroneous trades, of:

- (i) \$0.30 (i.e., the largest Transaction Adjustment value listed in sub-paragraph (e)(3)(A) below); times
- (ii) the contract multiplier for each traded contract; times
- (iii) the number of contracts for each trade; times
- (iv) the appropriate Size Adjustment Modifier for each trade, if any, as defined in sub-paragraph (e)(3)(A) below.

(B) Transactions involving 500,000 options contracts are potentially erroneous;

(C) Transactions with a notional value (i.e., number of contracts traded multiplied by the option premium multiplied by the contract multiplier) of \$100,000,000 are potentially erroneous;

(D) 10,000 transactions are potentially erroneous.

(2) **Coordination with Other Options Exchanges.** To ensure consistent application across options exchanges, in the event of a suspected Significant Market Event, the Exchange shall initiate a coordinated review of potentially erroneous transactions with all other affected options exchanges to determine the full scope of the event. When this paragraph is invoked, the Exchange will promptly coordinate with the other options exchanges to determine the appropriate review period as well as select one or more specific points in time prior to the transactions in question and use one or more specific points in time to determine Theoretical Price. Other than the selected points in time, if applicable, the Exchange will determine Theoretical Price in accordance with paragraph (b) above.

(3) **Adjust or Bust.** If it is determined that a Significant Market Event has occurred then, using the parameters agreed as set forth in sub-paragraph (e)(2) above, if applicable, an Official will determine whether any or all transactions under review qualify as Obvious Errors. The Exchange shall take one of the actions listed below with respect to all transactions that qualify as Obvious Errors pursuant to sub-paragraph (c)(1) above. Upon taking final action, the Exchange shall promptly notify both parties to the trade electronically or via telephone.

(A) The execution price of each affected transaction will be adjusted by an Official to the price provided below unless both parties agree to adjust the transaction to a different price or agree to bust the trade. In the context of a Significant Market Event, any error exceeding 50 contracts will be subject to the Size Adjustment Modifier defined in sub-paragraph (a)(4) above.

Theoretical Price	Buy Transaction Adjustment - TP Plus	Sell Transaction Adjustment - TP Minus
Below \$3.00	\$0.15	\$0.15
At or above \$3.00	\$0.30	\$0.30

(B) Where at least one party to the transaction is a Customer, the trade will be nullified if the adjustment would result in an execution price higher (for buy transactions) or lower (for sell transactions) than the

Customer's limit price.

- (4) Nullification of Transactions. If the Exchange, in consultation with other options exchanges, determines that timely adjustment is not feasible due to the extraordinary nature of the situation, then the Exchange will nullify some or all transactions arising out of the Significant Market Event during the review period selected by the Exchange and other options exchanges consistent with this paragraph. To the extent the Exchange, in consultation with other options exchanges, determines to nullify less than all transactions arising out of the Significant Market Event, those transactions subject to nullification will be selected based upon objective criteria with a view toward maintaining a fair and orderly market and the protection of investors and the public interest.
- (5) Final Rulings. With respect to rulings made pursuant to this paragraph, the number of affected transactions is such that immediate finality is necessary to maintain a fair and orderly market and to protect investors and the public interest. Accordingly, rulings by the Exchange pursuant to this paragraph are non-appealable.
- (f) Trading Halts. The Exchange shall nullify any transaction that occurs during a trading halt in the affected option on the Exchange pursuant to Rule 21.120.
- (g) Erroneous Print in Underlying. A trade resulting from an erroneous print(s) disseminated by the underlying market that is later nullified by that underlying market shall be adjusted or busted as set forth in sub-paragraph (c)(4) of this Rule, provided a party notifies the Exchange Market Operations in a timely manner as set forth below. For purposes of this paragraph, a trade resulting from an erroneous print(s) shall mean any options trade executed during a period of time for which one or more executions in the underlying security are nullified and for one second thereafter. If a party believes that it participated in an erroneous transaction resulting from an erroneous print(s) pursuant to this paragraph it must notify Exchange Market Operations within the timeframes set forth in sub-paragraph (c)(2) above, with the allowed notification timeframe commencing at the time of notification by the underlying market(s) of nullification of transactions in the underlying security. If multiple underlying markets nullify trades in the underlying security, the allowed notification timeframe will commence at the time of the first market's notification. For the purposes of this paragraph, the underlying (which includes, but is not limited to, the underlying or related Fund Share(s), HOLDRS(s) and/or index value(s), and/or related futures product(s)) and the relevant underlying market(s) will be designated by the Exchange and announced to Options Members via an Exchange Notice. To qualify for consideration as an "underlying," the Fund Shares or HOLDRS and related instrument must be derived from or designed to track the same underlying index.
- (h) Erroneous Quote in Underlying. A trade resulting from an erroneous quote(s) in the underlying security shall be adjusted or busted as set forth in sub-paragraph (c)(4) this Rule, provided a party notifies Exchange Market Operations in a timely manner as set forth below. An erroneous quote occurs when the underlying security has a width of at least \$1.00 and has a width at least five times greater than the average quote width for such underlying security during the time period encompassing two minutes before and after the dissemination of such quote. For purposes of this paragraph, the average quote width shall be determined by adding the quote widths of sample quotations at regular 15-second intervals during the four-minute time period referenced above (excluding the quote(s) in question) and dividing by the number of quotes during such time period (excluding the quote(s) in question). If a party believes that it participated in an erroneous transaction resulting from an erroneous quote(s) pursuant to this paragraph it must notify Exchange Market Operations in accordance with sub-paragraph (c)(2) above. For the purposes of this paragraph, the underlying (which includes, but is not limited to, the underlying or related Fund Share(s), HOLDRS(s) and/or index value(s), and/or related futures product(s)) and the relevant underlying market(s) will be designated by the Exchange and announced to Options Members via an Exchange Notice. To qualify for consideration as an "underlying," the Fund Shares or HOLDRS and related instrument must

be derived from or designed to track the same underlying index.

- (i) Stop (and Stop-Limit) Order Trades Triggered by Erroneous Trades. Transactions resulting from the triggering of a Stop or Stop-Limit order by an erroneous trade in an options contract shall be nullified by the Exchange, provided a party notifies the Exchange's Market Operations in a timely manner as set forth below. If a party believes that it participated in an erroneous transaction pursuant to this paragraph it must notify the Exchange's Market Operations within the timeframes set forth in sub-paragraph (c)(2) above, with the allowed notification timeframe commencing at the time of notification of the nullification of transaction(s) that triggered the stop or Stop-Limit order.
- (j) Linkage Trades. If the Exchange routes an order pursuant to the Plan (as defined in Rule 28.100(18)) that results in a transaction on another options exchange (a "Linkage Trade") and such options exchange subsequently nullifies or adjusts the Linkage Trade pursuant to its rules, the Exchange will perform all actions necessary to complete the nullification or adjustment of the Linkage Trade.
- (k) Verifiable Disruptions or Malfunctions of Exchange Systems.

- (1) Transactions arising out of a "verifiable disruption or malfunction" in the use or operation of any Exchange automated quotation, dissemination, execution, or communication system may either be nullified or adjusted by an Official. Transactions that qualify for price adjustment will be adjusted to Theoretical Price, as defined in paragraph (b) above.
- (2) Absent extraordinary circumstances, any such action of an Official pursuant to this paragraph (k) shall be initiated within sixty (60) minutes of the occurrence of the erroneous transaction that resulted from a verifiable disruption or malfunction. Each Options Member involved in the transaction shall be notified as soon as practicable.
- (3) Any Options Member aggrieved by the action of an Official taken pursuant to paragraph (k)(1) above, may appeal such action in accordance with the provision of paragraph (l) below.

(l) Appeals.

If an Options Member affected by a determination made under this Rule 21.150 so requests within the time permitted below, the Error Panel ("Error Panel") will review decisions made by the IEX Official under this Rule, including whether an obvious error occurred and whether the correct determination was made.

Error Panel.

- (1) Composition. The Error Panel will be comprised of the Exchange's Chief Regulatory Officer ("CRO") or a designee of the CRO, and representatives from four (4) Options Members. Two (2) of the representatives must be directly engaged in market-making activity ("MM Representatives") and two (2) of the representatives must be employed by non-Market Maker Options Members ("Non-MM Representatives"). To qualify as a representative of an Options Member other than an Options Member engaged in market making, a person must
 - (A) be employed by an Options Member whose revenues from options market making activity do not exceed ten percent (10%) of its total revenues; or
 - (B) have as his or her primary responsibility the handling of Public Customer orders or supervisory responsibility over persons with such responsibility, and not have any responsibilities with respect to market making activities.

- (2) The Exchange shall designate at least ten (10) MM Representatives and at least ten (10) Non-MM Representatives to be called upon to serve on the Error Panel as needed. In no case shall an Error Panel include a person affiliated with a party to the trade in question. To the extent reasonably possible, the Exchange shall call upon the designated representatives to participate on an Error Panel on an equally frequent basis.
- (3) A request for review on appeal must be made in writing via e-mail or other electronic means specified from time to time by the Exchange in a circular distributed to Options Members within thirty (30) minutes after the party making the appeal is given notification of the initial determination being appealed. The Error Panel shall review the facts and render a decision as soon as practicable, but generally on the same trading day as the execution(s) under review. On requests for appeal received after 3:00 p.m. Eastern Time, a decision will be rendered as soon as practicable, but in no case later than the trading day following the date of the execution under review.
- (4) The Error Panel may overturn or modify an action taken by the IEX Official under this Rule. All determinations by the Error Panel shall constitute final action by the Exchange on the matter at issue.
- (5) If the Error Panel votes to uphold the decision made pursuant to paragraph (1)(1) above, the Exchange will assess a \$500.00 fee against the Options Member(s) who initiated the request for appeal. In addition, in instances where the Exchange, on behalf of an Options Member, requests a determination by another market center that a transaction is clearly erroneous, the Exchange will pass any resulting charges through to the relevant Options Member.
- (6) Any determination by an Officer or by the Error Panel shall be rendered without prejudice as to the rights of the parties to the transaction to submit their dispute to arbitration.

.01 Limit Up-Limit Down State. An execution will not be subject to review as an Obvious Error or Catastrophic Error pursuant to paragraph (c) or (d) of this Rule if it occurred while the underlying security was in a "Limit State" or "Straddle State," as defined in the Plan to Address Extraordinary Market Volatility Pursuant to Rule 608 of Regulation NMS under the Act. Nothing in this provision shall prevent such execution from being reviewed on an Official's own motion pursuant to sub-paragraph (c)(3) of this Rule, or a bust or adjust pursuant to paragraphs (e) through (k) of this Rule.

.02 For the purposes of this Rule, to the extent the provisions of this Rule would result in the Exchange applying an adjustment of an erroneous sell transaction to a price lower than the execution price or an erroneous buy transaction to a price higher than the execution price, the Exchange will not adjust or nullify the transaction, but rather, the execution price will stand.

.03 Exchange Determining Theoretical Price. For purposes of this Rule, when the Exchange must determine Theoretical Price pursuant to sub-paragraphs (b)(1)-(3) of this Rule (i.e., at the open, when there are no valid quotes or when there is a wide quote), then the Exchange will determine Theoretical Price as follows:

- (a) *The Exchange will request Theoretical Price from the third party vendor defined in paragraph (d) below ("TP Provider") to which the Exchange and all other options exchanges have subscribed. The Exchange will apply the Theoretical Price provided by the TP Provider, except as otherwise described below.*
- (b) *To the extent an Official of the Exchange believes that the Theoretical Price provided by the TP Provider is fundamentally incorrect and cannot be used consistent with the maintenance of a fair and orderly market, the Official shall contact the TP Provider to notify the TP Provider of the reason the Official believes such Theoretical Price is inaccurate and to request a review and correction of the calculated Theoretical Price. The Exchange shall also promptly provide electronic notice to other options*

exchanges that the TP Provider has been contacted consistent with this paragraph and include a brief explanation of the reason for the request.

- (c) An Official of the Exchange may determine the Theoretical Price if the TP Provider has experienced a systems issue that has rendered its services unavailable to accurately calculate Theoretical Price and such issue cannot be corrected in a timely manner.
- (d) The current TP Provider to which the Exchange and all other options exchanges have subscribed is: Cboe Livevol, LLC. Neither the Exchange, the TP Provider, nor any affiliate of the TP Provider (the TP Provider and its affiliates are referred to collectively as the "TP Provider"), makes any warranty, express or implied, as to the results to be obtained by any person or entity from the use of the TP Provider pursuant to this Supplementary Material .06. The TP Provider does not guarantee the accuracy or completeness of the calculated Theoretical Price. The TP Provider disclaims all warranties of merchantability or fitness for a particular purpose or use with respect to such Theoretical Price. Neither the Exchange nor the TP Provider shall have any liability for any damages, claims, losses (including any indirect or consequential losses), expenses, or delays, whether direct or indirect, foreseen or unforeseen, suffered by any person arising out of any circumstance or occurrence relating to the use of such Theoretical Price or arising out of any errors or delays in calculating such Theoretical Price.

When entering orders on IEX Options, each Options Member shall submit order information in such form as may be prescribed by the Exchange in order to allow IEX Options to properly prioritize and match orders and report resulting transactions to the Clearing Corporation.

- (b) An Options Member must ensure that each options order received from a Customer for execution on IEX Options is recorded and time-stamped immediately. - (14) put/call;

(15) price or price limit, price range or strategy price;

(16) special instructions; and

(17) such other information as may be required by IEX Options.

(c) An Options Member that employs an electronic system for order routing or order management which complies with IEX Options requirements will be deemed to be complying with the requirements of this Rule if the required information is recorded in electronic form rather than in written form.

(d) In addition to any related requirement under applicable securities laws, information recorded pursuant to this Rule must be retained by Options Members for a period of no less than three (3) years after the date of the transaction.

Rule 21.170. Failure to Pay Premium

(a) When the Clearing Corporation shall reject a IEX Options Transaction because of the failure of the Clearing Member acting on behalf of the purchaser to pay the aggregate premiums due thereon as required by the Rules of the Clearing Corporation, the Options Member acting as or on behalf of the writer shall have the right either to cancel the transaction by giving notice thereof to the Clearing Member or to enter into a closing writing transaction in respect of the same options contract that was the subject of the rejected IEX Options Transaction for the account of the defaulting Clearing Member.

(b) Such action shall be taken as soon as possible, and in any event not later than 10:00 A.M. Eastern Time on the business day following the day the IEX Options Transaction was rejected by the Clearing Corporation.

Rule 21.180. Prohibition on Transactions Off the Exchange

(a) No rule, stated policy, or practice of the Exchange may prohibit or condition, or be construed to prohibit or condition, or otherwise limit, directly or indirectly, the ability of any Options Member acting as agent to effect any transaction otherwise than on the Exchange with another person (except when such Options Member also is acting as agent for such other person in such transaction) in any equity security listed on the Exchange or to which unlisted trading privileges on the Exchange have been extended.

(b) No rule, stated policy, or practice of the Exchange may prohibit or condition, or be construed to prohibit, condition, or otherwise limit, directly or indirectly, the ability of any Options Member to effect any transaction otherwise than on the Exchange in any reported security listed and registered on the Exchange or as to which unlisted trading privileges on the Exchange have been extended (other than a put option or call option issued by the Clearing Corporation) which is not a covered security.

Rule 21.190. Transfers of Positions

(a) Permissible Transfers. Notwithstanding the prohibition set forth in Rule 21.180, existing positions in options listed on the Exchange of an Options Member or of a non-Member that are to be transferred on, from, or to the books of a Clearing Member may be transferred off the Exchange if the transfer involves one or more of the following events:

(1) an adjustment or transfer in connection with the correction of a bona fide error in the recording of a transaction or the transferring of a position to another account, provided that the original trade documentation confirms the error;

(2) the transfer of positions from one account to another account where no change in ownership is involved (i.e., accounts of the same Person (as defined in Rule 1.160)), provided the accounts are not in separate aggregation

units or otherwise subject to information barrier or account segregation requirements;

(3) the consolidation of accounts where no change in ownership is involved;

(4) a merger, acquisition, consolidation, or similar non-recurring transaction for a person;

(5) the dissolution of a joint account in which the remaining Options Member assumes the positions of the joint account;

(6) the dissolution of a corporation or partnership in which a former nominee of the corporation or partnership assumes the positions;

(7) positions transferred as part of an Options Member's capital contribution to a new joint account, partnership, or corporation;

(8) the donation of positions to a not-for-profit corporation;

(9) the transfer of positions to a minor under the Uniform Gifts to Minors Act; Or the transfer of positions through operation of law from death, bankruptcy, or otherwise.

(b) Netting. Unless otherwise permitted by paragraph (f), when effecting a transfer pursuant to paragraph (a), no position may net against another position ("netting"), and no position transfer may result in preferential margin or haircut treatment.

(c) Transfer Price. The transfer price, to the extent it is consistent with applicable laws, rules, and regulations, including rules of other self-regulatory organizations, and tax and accounting rules and regulations, at which a transfer is effected may be:

(1) the original trade prices of the positions that appear on the books of the transferring Clearing Member, in which case the records of the transfer must indicate the original trade dates for the positions; provided, transfers to correct errors under subparagraph (a)(1) must be transferred at the correct original trade prices;

(2) mark-to-market prices of the positions at the close of trading on the transfer date;

(3) mark-to-market prices of the positions at the close of trading on the trade date prior to the transfer date; or

(4) the then-current market price of the positions at the time the transfer is effected.

(d) Prior Written Notice. An Options Member(s) and its Clearing Member(s) (to the extent that the Options Member is not self-clearing) must submit to the Exchange, in a manner determined by the Exchange, written notice prior to effecting a transfer from or to the account(s) of an Options Member(s), except that notification is not required for transfers effected pursuant to subparagraph (a)(1) or (a)(2) of this Rule.

(1) The notice must indicate (A) the Exchange-listed options positions to be transferred, (B) the nature of the transaction, (C) the enumerated provision(s) under paragraph (a) pursuant to which the positions are being transferred, (D) the name of the counterparty(ies), (E) the anticipated transfer date, (F) the method for determining the transfer price under paragraph (c) above, and (G) any other information requested by the Exchange.

(2) Receipt of notice of a transfer does not constitute a determination by the Exchange that the transfer was effected or reported in conformity with the requirements of this Rule. Notwithstanding submission of written notice to Exchange, Options Members and Clearing Members that effect transfers that do not conform to the requirements of this Rule will be subject to appropriate disciplinary action in accordance with the Rules.

(e) Records. Each Options Member and each Clearing Member that is a party to a transfer must make and retain

records of the information provided in the notice to the Exchange pursuant to subparagraph (d)(1), as well as information on (1) the actual Exchange-listed options transferred; (2) the actual transfer date; and (3) the actual transfer price (and the original trade dates, if applicable). The Exchange may also request the Options Member or Clearing Member to provide other information.

- (f) **Presidential Exemptions.** In addition to the exemptions set forth in paragraph (a) of this Rule, the Exchange President (or senior-level designee) may grant an exemption from the requirement of Rule 21.180, on his or her own motion or upon application of the Options Member (with respect to the Options Member's positions) or a Clearing Member (with respect to positions carried and cleared by the Clearing Member), when, in the judgment of the President or his or her designee, allowing the transfer is necessary or appropriate for the maintenance of a fair and orderly market and the protection of investors and is in the public interest, including due to unusual or extraordinary circumstances, such as the possibility that the market value of the person's positions will be compromised by having to comply with the requirement to trade on the Exchange pursuant to the normal auction process or when, in the judgment of the president or his or her designee, market conditions make trading on the Exchange impractical.
- (g) **Routine, Recurring Transfers.** The transfer procedure set forth in this Rule is intended to facilitate non-routine, non-recurring movements of positions and is not to be used repeatedly or routinely, except for transfers between accounts of the same person pursuant to subparagraph (a)(2). The transfer procedure may not be used in circumvention of the normal auction process.
- (h) **Exchange-Listed Options.** The transfer procedure set forth in this Rule is only applicable to positions in options listed on the Exchange. Transfers of positions in Exchange listed options may also be subject to applicable laws, rules, and regulations, including rules of other self-regulatory organizations. Transfers of non-Exchange listed options and other financial instruments are not governed by this Rule.

Rule 21.200. Off-Exchange RWA Transfers

Notwithstanding Rule 21.180, existing positions in options listed on the Exchange of an Options Member or non-Member (including an affiliate of an Options Member) may be transferred on, from, or to the books of a Clearing Member off the Exchange if the transfer establishes a net reduction of risk-weighted assets attributable to those the Options Member or non-Member's options positions (an "RWA Transfer").

- (a) RWA Transfers include, but are not limited to: (1) a transfer of options positions from Clearing Corporation member A to Clearing Corporation member B that net (offset) with positions held at Clearing Corporation member B, and thus closes all or part of those positions, and (2) a transfer of positions from a bank-affiliated Clearing Corporation member to a nonbank-affiliated Clearing Corporation member.
- (b) RWA Transfers may occur on a routine, recurring basis.
- (c) RWA Transfers may result in the netting of positions.
- (d) No RWA Transfer may result in preferential margin or haircut treatment.
- (e) No RWA Transfer may result in a change in ownership (i.e., an RWA transfer must occur between accounts of the same Person (as defined in Rule 1.160)).
- (f) No prior written notice to the Exchange is required for RWA Transfers.
- (g) Off-Exchange transfers of positions in Exchange-listed options may be subject to applicable laws, rules, and regulations, including rules of other self-regulatory organizations. Transfers of non-Exchange listed options and

other financial instruments are not governed by this Rule.

Rule 21.210. In-Kind Exchange of Options Positions and Fund Shares and UIT Interests

Notwithstanding Rule 21.180, positions in options listed on the Exchange may be transferred off the Exchange by an Options Member in connection with transactions (a) to purchase or redeem creation units of Fund Shares between an authorized participant and the issuer of such Fund Shares or (b) to create or redeem units of a unit investment trust ("UIT") between a broker-dealer and the issuer of such UIT units, which transfers would occur at the price(s) used to calculate the net asset value of such Fund Shares or UIT units, respectively. For purposes of this Rule:

- (a) an "authorized participant" is an entity that has a written agreement with the issuer of Fund Shares or one of its service providers, which allows the authorized participant to place orders for the purchase and redemption of creation units (i.e., specified numbers of Fund Shares);
- (b) an "issuer of Fund Shares" is an entity registered with the Commission as an open-end management investment company under the Investment Company Act of 1940; and
- (c) an "issuer of UIT units" is a trust registered with the Commission as a unit investment trust under the Investment Company Act of 1940.

Rule 21.220. LIMITATION OF LIABILITY

(a) NEITHER THE EXCHANGE, IEX SERVICES, NOR ANY OF ITS AGENTS, EMPLOYEES, CONTRACTORS, OFFICERS, DIRECTORS, SHAREHOLDERS, COMMITTEE MEMBERS OR AFFILIATES ("EXCHANGE RELATED PERSONS") SHALL BE LIABLE TO ANY USER, OR SUCCESSORS, REPRESENTATIVES OR CUSTOMERS THEREOF, OR ANY PERSONS ASSOCIATED THEREWITH, FOR ANY LOSS, DAMAGES, CLAIM OR EXPENSE:

- (1) GROWING OUT OF THE USE OR ENJOYMENT OF ANY FACILITY OF THE EXCHANGE, INCLUDING, WITHOUT LIMITATION, THE SYSTEM; OR
- (2) ARISING FROM OR OCCASIONED BY ANY INACCURACY, ERROR OR DELAY IN, OR OMISSION OF OR FROM THE COLLECTION, CALCULATION, COMPILATION, MAINTENANCE, REPORTING OR DISSEMINATION OF ANY INFORMATION DERIVED FROM THE SYSTEM OR ANY OTHER FACILITY OF THE EXCHANGE, RESULTING EITHER FROM ANY ACT OR OMISSION BY THE EXCHANGE OR ANY EXCHANGE RELATED PERSON, OR FROM ANY ACT CONDITION OR CAUSE BEYOND THE REASONABLE CONTROL OF THE EXCHANGE OR ANY EXCHANGE RELATED PERSON, INCLUDING, BUT NOT LIMITED TO, FLOOD, EXTRAORDINARY WEATHER CONDITIONS, EARTHQUAKE OR OTHER ACTS OF GOD, FIRE, WAR, TERRORISM, INSURRECTION, RIOT, LABOR DISPUTE, ACCIDENT, ACTION OF GOVERNMENT, COMMUNICATIONS OR POWER FAILURE, OR EQUIPMENT OR SOFTWARE MALFUNCTION.

(b) EACH OPTIONS MEMBER EXPRESSLY AGREES, IN CONSIDERATION OF THE ISSUANCE OF ITS MEMBERSHIP IN THE EXCHANGE, TO RELEASE AND DISCHARGE THE EXCHANGE, IEX SERVICES, AND ALL EXCHANGE OR IEX SERVICES RELATED PERSONS OF AND FROM ALL CLAIMS AND DAMAGES ARISING FROM THEIR ACCEPTANCE AND USE OF THE FACILITIES OF THE EXCHANGE (INCLUDING, WITHOUT LIMITATION, THE SYSTEM).

(c) NEITHER THE EXCHANGE, IEX SERVICES, NOR ANY EXCHANGE OR IEX SERVICES RELATED PERSON MAKES ANY EXPRESS OR IMPLIED WARRANTIES OR CONDITIONS TO USERS AS TO RESULTS THAT ANY PERSON OR PARTY MAY OBTAIN FROM THE SYSTEM FOR TRADING OR FOR ANY OTHER PURPOSE, AND ALL WARRANTIES OF

MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE, TITLE, AND NON-INFRINGEMENT WITH RESPECT TO THE SYSTEM ARE HEREBY DISCLAIMED.

(d) NOTWITHSTANDING PARAGRAPH (a) ABOVE, AND SUBJECT TO THE EXPRESS LIMITS SET FORTH BELOW, THE EXCHANGE MAY COMPENSATE OPTIONS MEMBERS FOR LOSSES DIRECTLY RESULTING FROM THE SYSTEMS' ACTUAL FAILURE TO CORRECTLY PROCESS AN ORDER, MESSAGE, OR OTHER DATA, PROVIDED THE EXCHANGE HAS ACKNOWLEDGED RECEIPT OF THE ORDER, MESSAGE OR DATA.

(1) AS TO ANY ONE OR MORE CLAIMS MADE BY A SINGLE OPTIONS MEMBER UNDER THIS IEX RULE ON A SINGLE TRADING DAY, THE EXCHANGE SHALL NOT BE LIABLE IN EXCESS OF THE LARGER OF \$100,000, OR THE AMOUNT OF ANY RECOVERY OBTAINED BY THE EXCHANGE UNDER ANY APPLICABLE INSURANCE MAINTAINED BY THE EXCHANGE.

(2) AS TO THE AGGREGATE OF ALL CLAIMS MADE BY ALL OPTIONS MEMBERS UNDER THIS IEX RULE ON A SINGLE TRADING DAY, THE EXCHANGE SHALL NOT BE LIABLE IN EXCESS OF THE LARGER OF \$250,000 OR THE AMOUNT OF ANY RECOVERY OBTAINED BY THE EXCHANGE UNDER ANY APPLICABLE INSURANCE MAINTAINED BY THE EXCHANGE.

(3) AS TO THE AGGREGATE OF ALL CLAIMS MADE BY ALL OPTIONS MEMBERS UNDER THIS IEX RULE DURING A SINGLE CALENDAR MONTH, THE EXCHANGE SHALL NOT BE LIABLE IN EXCESS OF THE LARGER OF \$500,000, OR THE AMOUNT OF ANY RECOVERY OBTAINED BY THE EXCHANGE UNDER ANY APPLICABLE INSURANCE MAINTAINED BY THE EXCHANGE.

(e) IN THE EVENT THAT ALL OF THE CLAIMS MADE UNDER THIS IEX RULE CANNOT BE FULLY SATISFIED BECAUSE IN THE AGGREGATE THEY EXCEED THE APPLICABLE MAXIMUM LIMITATIONS PROVIDED IN THIS IEX RULE 21.220, THEN THE MAXIMUM PERMITTED AMOUNT WILL BE PROPORTIONALLY ALLOCATED AMONG ALL SUCH CLAIMS ARISING ON A SINGLE TRADING DAY OR DURING A SINGLE CALENDAR MONTH, AS APPLICABLE, BASED ON THE PROPORTION THAT EACH SUCH CLAIM BEARS TO THE SUM OF ALL SUCH CLAIMS.

(f) ALL CLAIMS FOR COMPENSATION PURSUANT TO THIS IEX RULE SHALL BE IN WRITING AND MUST BE SUBMITTED NO LATER THAN THE OPENING OF TRADING ON THE NEXT BUSINESS DAY FOLLOWING THE DAY ON WHICH THE USE OF THE EXCHANGE GAVE RISE TO SUCH CLAIMS. ONCE IN RECEIPT OF A CLAIM, THE EXCHANGE WILL VERIFY THAT:

(i) A VALID ORDER WAS ACCEPTED INTO THE EXCHANGE'S SYSTEMS; AND (ii) AN EXCHANGE SYSTEM FAILURE OR A NEGLIGENT ACT OR OMISSION OF AN EXCHANGE EMPLOYEE OCCURRED DURING THE EXECUTION OR HANDLING OF THAT ORDER.

CHAPTER 22. TRADING SYSTEMS

Rule 22.100. Definitions

The following definitions apply to Chapter 22 for the trading of options listed on IEX Options.

(a) The term "System" means the automated trading system used by IEX Options for the trading of options contracts.

The System includes:

- (1) an order execution service that enables Users to automatically execute transactions in System Securities; and provides Users with sufficient monitoring and updating capability to participate in an automated execution environment;
 - (2) a trade reporting service that submits “locked-in” trades for clearing to a registered clearing agency for clearance and settlement; transmits last-sale reports of transactions automatically to the Options Price Reporting Authority for dissemination to the public and industry, and provides participants with monitoring and risk management capabilities to facilitate participation in a “locked-in” trading environment; and
 - (3) a data feed(s) that can be used to display with or without attribution to Users’ orders on both the bid and offer side of the market for price levels then within IEX Options using the MPV (as defined in Rule 22.140) applicable to that security.
- (b) The term “System Securities” shall mean all options that are currently trading on IEX Options pursuant to Chapter 20 above.
- (c) The term “Order” shall mean a single order submitted to the System by a User designated for display (price and size) on an anonymous basis by the Exchange.
- (d) The term “Order Type” shall mean the unique processing prescribed for designated orders, subject to the restrictions set forth in paragraph (l) below with respect to bulk messages, that are eligible for entry into the System. An Order Type applied to a bulk message applies to each bid and offer within that bulk message. Unless otherwise specified in the Exchange Rules or the context indicates otherwise, the Exchange determines which of the following Order Types are available on a class or system basis.
- (1) “Limit orders” are orders (including bulk messages) to buy or sell an option at a specified price or better. A Limit order is marketable when, for a Limit order to buy, at the time it is entered into the System, the order is priced at the current inside offer or higher, or for a Limit order to sell, at the time it is entered into the System, the order is priced at the current inside bid or lower.
 - (2) “Market orders” are orders to buy or sell at the best price available at the time of execution. Market orders to buy or sell an option traded on IEX Options will be rejected if they are received when the underlying security is subject to a “Limit State” or “Straddle State” as defined in the Plan to Address Extraordinary Market Volatility Pursuant to Rule 608 of Regulation NMS under the Exchange Act (the “Limit Up-Limit Down Plan”). Bulk messages may not be Market orders.
 - (3) “Attributable Orders” are Market or Limit orders which display the User’s MPID for purposes of trading on the Exchange. Use of attributable orders is voluntary. Attributable orders may not be available for all Exchange processes. The Exchange will distribute a circular to Options Members specifying the processes for which the attributable order-type shall be available.
- (e) The term “Handling Instruction” shall mean an additional instruction a User designates on an order, subject to the restrictions set forth in paragraph (l) below with respect to bulk messages. A Handling Instruction applied to a bulk message applies to each bid and offer within that bulk message. Unless otherwise specified in the Exchange Rules or the context indicates otherwise, the Exchange determines which of the following Handling Instructions are available on a class or system basis.
- (1) “Book Only” is an instruction that an order is to be ranked and executed on the Exchange pursuant to Rule 22.170 (Order Display and Book Processing), or to be repriced or cancelled, as appropriate, without routing

away to another options exchange.

(2) “Post Only” is an instruction that an order is to be ranked and executed on the Exchange pursuant to Rule 22.170 (Order Display and Book Processing) or cancelled, as appropriate, without routing away to another options exchange except that the order will not remove liquidity from the IEX Options Book. The System reprices, cancels or rejects (in accordance with User Instructions) a bid (offer) designated as Post Only with a price that locks or crosses the Exchange’s best offer (bid). A Market order cannot be designated as Post Only.

(3) “Intermarket Sweep Orders” or “ISO” are orders that shall have the meaning provided in Rule 28.100 (Definitions). Such orders may be executed at one or multiple price levels in the System without regard to Protected Quotations at other options exchanges (i.e., may trade through such quotations). The Exchange relies on the marking of an order as an ISO when handling such order, and thus, it is the entering Options Member’s responsibility, not the Exchange’s responsibility, to comply with the requirements relating to ISOs. ISOs are not eligible for routing pursuant to Rule 22.180 (Order Routing). A Market order cannot be designated as an Intermarket Sweep Order. Market Makers may not designate bulk messages as ISOs.

(f) The term “Order Size” shall mean the number of contracts up to 999,999 associated with the Order.

(g) The term “Time in Force” shall mean the period of time that the System will hold an order, subject to the restrictions set forth in paragraph (l) below with respect to bulk messages, for potential execution. A Time-in-Force applied to a bulk message applies to each bid and offer within that bulk message. Unless otherwise specified in the Exchange Rules or the context indicates otherwise, the Exchange determines which of the following Times-in-Force are available on a class or system basis.

(1) “Immediate Or Cancel” or “IOC” shall mean, for an order so designated, an order that is to be executed in whole or in part as soon as such order is received. The portion not so executed immediately on the Exchange or another options exchange is cancelled and is not posted to the IEX Options Book. IOC orders that are not designated as Book Only and that cannot be executed in accordance with Rule 22.170 on the System when reaching the Exchange will be eligible for routing away pursuant to Rule 22.180. Market Makers may designate bulk messages as IOC.

(2) “Day” shall mean, for an order so designated, an order to buy or sell which, if not executed expires at market close. Market Makers may designate bulk messages as Day.

(h) The term “Anti-Internalization Qualifier (“AIQ”) modifier” shall mean a modifier appended to an order that restricts interactions with contra-side orders as set forth below. Any incoming order designated with an AIQ modifier will be prevented from executing against a resting opposite side order also designated with an AIQ modifier and originating from the same MPID, Options Member identifier, trading group identifier, or Sponsored Participant identifier (any such identifier, a “Unique Identifier”). The AIQ modifier on the incoming order controls the interaction between two orders marked with AIQ modifiers. AIQ modifiers will not be applicable during the Opening Process. Subject to the restrictions set forth in paragraph (l) below with respect to bulk messages, orders may contain the following AIQ modifiers:

(1) Cancel Newest (“CN”). An incoming order marked with the “CN” modifier will not execute against opposite side resting interest marked with any AIQ modifier originating from the same Unique Identifier. The incoming order marked with the AIQ modifier will be cancelled back to the originating User(s). The resting order marked with an AIQ modifier will remain on the IEX Options Book.

(2) Cancel Oldest (“CO”). An incoming order marked with the “CO” modifier will not execute against opposite side resting interest marked with any AIQ modifier originating from the same Unique Identifier. The resting order

marked with the AIQ modifier will be cancelled back to the originating User(s). The incoming order marked with the CO modifier will remain on the IEX Options Book.

(3) Cancel Both (“CB”). An incoming order marked with the “CB” modifier will not execute against opposite side resting interest marked with any AIQ modifier originating from the same Unique Identifier. The entire size of both orders will be cancelled back to the originating User(s).

(4) Cancel Smallest (“CS”). An incoming order marked with the “CS” modifier will not execute against opposite side resting interest marked with any AIQ modifier originating from the same Unique Identifier. If both orders are equivalent in size, then both orders will be cancelled back to the originating User. If the orders are not equivalent in size, then the smaller of the two orders will be cancelled back to the originating User and the larger order will remain on or post to the IEX Options Book.

(i) The term “Price Adjust” shall mean the re-pricing mechanism through which the System re-prices orders to comply with the order protection and trade through restrictions of the Options Order Protection and Locked/Crossed Market Plan, as further described below.

(1) An order that, at the time of entry, would lock or cross a Protected Quotation of another options exchange or the Exchange will be ranked and displayed by the System at one MPV (as defined in Rule 22.140) below the current NBO (for bids) or to one MPV (as defined in Rule 22.140) above the current NBB (for offers) (“Price Adjust”).

(2) In the event the NBBO changes such that an order subject to Price Adjust would not lock or cross a Protected Quotation, the order will receive a new timestamp, and will be displayed at the price that originally locked the NBO (for bids) or NBB (for offers) on entry. All orders that are re-ranked and re-displayed pursuant to Price Adjust will retain their priority as compared to other orders subject to Price Adjust based upon the time such orders were initially received by the Exchange. Following the initial ranking and display of an order subject to Price Adjust, an order will only be re-ranked and re-displayed to the extent it achieves a more aggressive price.

(3) The ranked and displayed price of an order subject to Price Adjust to buy (sell) that has been repriced will be repriced higher (lower) only one time. If after that repricing, the ranked and displayed price could be repriced higher (lower) again, the order will remain at its last ranked price and displayed price.

(j) The term “MPID” means the unique market participant identifier assigned to a User and shall refer to what the System uses to identify the User and the clearing number for the execution of orders and quotes submitted to the System with that MPID. A User may obtain one or more MPIDs from the Exchange (in a form and manner determined by the Exchange). The Exchange assigns an MPID to its Users.

(1) Each MPID corresponds to a single User and a single clearing number of a Clearing Member with the Clearing Corporation.

(2) A User may obtain multiple MPIDs, which may be for the same or different clearing numbers.

(3) A User is able (in a form and manner determined by the Exchange) to designate which of its MPIDs may be used for each of its ports. If a User submits an order or quote through a port with an MPID not enabled for that port, the System cancels or rejects the order or quote.

(k) The term “port” includes the following types of ports:

(1) A “physical port” provides a physical connection to the System. A physical port may provide access to multiple logical ports.

- (2) A “logical port” or “application session” provides Users with the ability within the System to accomplish a specific function through a connection, such as order entry, data receipt, or access to information.
- (l) The term “bulk message” shall mean a single electronic message a Market Maker submits to the Exchange in which the Market Maker may enter, modify, or cancel up to an Exchange-specified number of bids and offers (which number the Exchange announces via Exchange notice and publicly available technical specifications). However, Market Makers may only submit a single quote with a Time-in-Force of IOC in a bulk message. In addition, an IOC quote will not execute against resting interest with a Capacity of Market Maker. Market Makers may submit bulk messages through a logical port, subject to the following:
- (1) bulk messages must contain a Time-in-Force of Day or IOC;
 - (2) a Market Maker may only submit bulk messages for a class in which the Market Maker has an appointment in that class;
 - (3) bulk messages with a Time-in-Force of Day are implicitly designated as Post Only; and
 - (4) the System cancels, rejects, or reprices a bulk message bid (offer) that does not have a Time-in-Force of IOC and has a price that locks or crosses the Exchange best offer (bid) or ABO (ABB).
- (m) The term “Cancel Back” shall mean an instruction a User designates on an order (including bulk messages, in the case of a Market Maker) to not be subject to the Price Adjust process pursuant to paragraph (i) above. The System cancels or rejects an order with a Cancel Back instruction (immediately at the time the System receives the order or upon return to the System after being routed away) if displaying the order on the IEX Options Book would create a violation of Rule 28.120, or if the order cannot otherwise be executed or displayed in the IEX Options Book at its limit price. The System executes a Book Only – Cancel Back order against resting orders.
- (n) The term “latency mechanism” shall mean a delay of 350 microseconds of latency that is added to each incoming order and quote message prior to processing by the System. Due to force majeure events and acts of third parties, the Exchange does not guarantee that the delay will always be consistent. The Exchange will periodically monitor such latency and will make adjustments to the latency as reasonably necessary to achieve consistency with the latency as soon as commercially practicable. If the Exchange determines to increase or decrease the duration of the delay, it will do so only pursuant to an effective rule filing submitted pursuant to Section 19 of the Exchange Act.

Rule 22.110. Days and Hours of Business

- (a) The Exchange will begin accepting orders beginning at 8:00 a.m. Eastern Time, as described in Rule 22.160. Orders and bids and offers shall be open and available until 4:00 p.m. Eastern Time except for options contracts on Fund Shares, as defined in Rule 20.120(i), and option contracts on exchange-traded notes including Index-Linked Securities, as defined in Rule 20.120(l), which may close as of 4:15 p.m. Eastern Time.
- (b) Except as set forth in paragraph (a) above or in unusual conditions as may be determined by the Exchange, hours during which transactions in options on individual stocks may be made on IEX Options shall correspond to the normal business days and hours for business set forth in the rules of the primary market trading the securities underlying options traded on IEX Options.
- (c) IEX Options shall not be open for business on any holiday observed by the Exchange.

Rule 22.120. Units of Trading

The unit of trading in each series of options traded on IEX Options shall be the unit of trading established for that series by the Clearing Corporation pursuant to the Rules of the Clearing Corporation and the agreements of the Exchange with the Clearing Corporation.

Rule 22.130. Meaning of Premium Quotes and Orders

(a) General

Except as provided in paragraph (b), orders shall be expressed in terms of dollars per unit of the underlying security. For example, a bid of “5” shall represent a bid of \$500 for an options contract having a unit of trading consisting of 100 shares of an underlying security, or a bid of \$550 for an options contract having a unit of trading consisting of 110 shares of an underlying security.

(b) Special Cases.

Orders for an options contract for which IEX Options has established an adjusted unit of trading in accordance with Rule 22.120 (Units of Trading) shall be expressed in terms of dollars per 1/100 part of the total securities and/or other property constituting such adjusted unit of trading. For example, an offer of “3” shall represent an offer of \$300 for an options contract having a unit of trading consisting of 100 shares of an underlying security plus ten (10) rights.

Rule 22.140. Minimum Increments

(a) The following principles apply to the minimum quoting increments (also known as “minimum price variation” or “MPV”) for options contracts traded on IEX Options:

- (1) if the options series is trading at less than \$3.00, five (5) cents;
- (2) if the options series is trading at \$3.00 or higher, ten (10) cents; and
- (3) if the options series is trading pursuant to the Penny Interval Program one (1) cent if the options series is trading at less than \$3.00, five (5) cents if the options series is trading at \$3.00 or higher, unless for QQQ, SPY, or IWM where the minimum quoting increment will be one cent for all series regardless of price.

(b) The minimum trading increment for options contracts traded on IEX Options will be one (1) cent for all series.

(c) Requirements for Penny Interval Program. The Exchange will list options classes for the Penny Interval Program (“Penny Program”) with minimum quoting requirements (“penny increments”) of one cent (\$0.01) and five cents (\$0.05), as set forth in paragraph (a) above. The list of the options classes included in the Penny Program will be announced by the Exchange via a circular distributed to Options Members and published by the Exchange on its website.

(1) Initial Selection. The Penny Program will apply only to the 363 most actively traded multiply listed options classes, based on OCC’s National Cleared Volume, that (i) currently quote in penny increments, or (ii) overlie securities priced below \$200, or any index at an index level below \$200. Eligibility for inclusion in the Penny Program will be limited to those classes already operating under penny programs of other options exchanges at the time IEX Options is launched.

(2) Annual Review. In December of each year, OCC will rank all multiply listed options classes based on National Cleared Volume for the six full calendar months from June 1 through November 30 for determination of the most actively traded options classes.

A. Addition to the Penny Program. Based on the Annual Review, any options class not in the Penny Program

that is among the 300 most actively traded multiply listed options classes overlying securities priced below \$200, or an index at an index level below \$200, will be added to the Penny Program on the first trading day of January.

B. Removal from the Penny Program. Except as provided in subparagraphs (c)(3) – (6) below, based on the Annual Review, any options class in the Penny Program that falls outside the 425 most actively traded multiply listed options classes will be removed from the Penny Program on the first trading day of April.

(3) Newly listed Options Classes. The Exchange may add to the Penny Program a newly listed options class provided that (i) it is among the 300 most actively traded multiply listed options classes, as ranked by National Cleared Volume at OCC, in its first full calendar month of trading and (ii) the underlying security is priced below \$200 or the underlying index is at an index level below \$200. Any options class added under this provision will be added on the first trading day of the month after it qualifies and will remain in the Penny Program for one full calendar year, after which it will be subject to the Annual Review stated in subparagraph (c)(2) above.

(4) Classes with Significant Growth in Activity. The Exchange may add any options class to the Penny Program, provided that (i) it is among the 75 most actively traded multiply listed options classes, as ranked by National Cleared Volume at OCC, in the past six full calendar months of trading and (ii) the underlying security is priced below \$200 or the underlying index is at an index level below \$200. Any options class added under this provision will be added on the first trading day of the second full month after it qualifies and will remain in the Penny Program for the rest of the calendar year, after which it will be subject to the Annual Review stated in subparagraph (c)(2) above.

(5) Corporate Actions. If a corporate action involves one or more options classes in the Penny Program, all adjusted and unadjusted series of the options class will be included in the Penny Program. Any new options class added to the Penny Program under this provision will remain in the Penny Program for at least one full calendar year, after which it will be subject to the Annual Review stated in subparagraph (c)(2) above.

(6) Delisted or Ineligible Options Classes. Any series in an options class participating in the Penny Program in which the underlying security has been delisted, or are identified by OCC as ineligible for opening customer transactions, will continue to quote pursuant to the terms of the Penny Program until all such options have expired.

Rule 22.150. Entry of Orders

Users can enter orders into the System, subject to the following requirements and conditions:

(a) Users shall be permitted to transmit to the System multiple orders at a single as well as multiple price levels. However, a Market Maker may enter only one bid and one offer for a series per MPID using bulk messages. Each order a User submits to the Exchange must contain the minimum information identified in the Exchange's technical specifications.

(b) The System shall time-stamp an order which shall determine the time ranking of the order for purposes of processing the order.

(c) Orders can be entered into the System (or previously entered orders cancelled) beginning at 8:00 a.m. Eastern Time, subject to Rule 22.160, until market close. Orders received prior to the opening of the System will be rejected.

(d) For each System Security, the aggregate size of all orders at the best price to buy and sell resident in the System and eligible for display will be transmitted for display to the appropriate network processor.

- (e) Subject to the exceptions contained in paragraph (b) of 28.110 (Order Protection), an order will not be executed at a price that trades through another options exchange. An order that is designated by an Options Member as routable will be routed in compliance with applicable Trade-Through restrictions.
- (f) Any order entered with a price that would lock or cross a Protected Quotation of another options exchange that is not eligible for routing, the Price Adjust process as defined in paragraph (i) of Rule 22.100, or SUM as defined in paragraph (a) of Rule 22.270 will be cancelled.

Rule 22.160. Market Opening Procedures

- (a) This Rule is applicable to all series that trade on the Exchange. The following are definitions for purposes of this Chapter 22 that are applicable to trading on IEX Options:
 - (1) “Opening Process” means the opening or reopening of a series for trading either with or without a trade on the IEX Options Book.
 - (A) “Core Opening Process” means the process that opens trading after the beginning of Core Trading Hours.
 - (B) “Trading Halt Opening Process” means the process that reopens trading following a trading halt.
 - (2) “Eligible Interest” means any quote or order that may be entered into the System electronically beginning at 8:00 a.m. Eastern Time or during the Opening Process and is eligible to participate in the Opening Process. Quotes designated Day, Limit orders designated Day, and Market orders are eligible to participate in the Opening Process. Limit orders and quotes with a Time in Force of IOC are not eligible to participate in the Opening Process and may only be entered following the transition to continuous trading, as described in subsection (d).
 - (3) “Market for the Underlying Security” means either the primary listing market, the primary volume market (defined as the market with the most liquidity in that underlying security for the previous two calendar months), or the first market to open the underlying security, as determined by the Exchange on a class by class basis and announced to Members on the Exchange’s website.
 - (4) “Opening Trigger” means the information disseminated by the Market for the Underlying Security that triggers the Opening Process for a series to begin.
 - (A) For a Core Opening Process, the Opening Trigger is when the Market for the Underlying Security first disseminates at or after 9:30 a.m. Eastern Time both a two-sided quote and a trade of any size that is at or within the quote.
 - (B) For a Trading Halt Opening Process, the Opening Trigger is when the Market for the Underlying Security disseminates at the end of a trading halt or pause a resume message, a two-sided quote, and a trade of any size that is at or within the quote.
 - (5) “Valid Width National Best Bid or Offer” or “Valid Width NBBO” means the combination of all Away Market quotes, any combination of IEX Options Market Maker orders and quotes received from a minimum number of Away Markets, and a minimum number of IEX Options Market Makers within a specified bid/ask differential

each as established and published by the Exchange on its website. The Valid Width NBBO will be configurable by the underlying, and tables with valid width differentials will be posted by IEX Options on its website. Away Markets that are crossed will void all Valid Width NBBO calculations. If any Market Maker orders or quotes on IEX Options are crossed internally, then all such orders and quotes will be excluded from the Valid Width NBBO calculation. If any Market Maker orders or quotes on IEX Options are locking or crossing the ABBO, the Market Maker's orders or quotes will be considered to be at the locked or crossed ABBO price for purposes of calculating the Valid Width NBBO.

(6) "Away Best Bid or Offer" or "ABBO" means the best bid(s) or offer(s) disseminated by other Eligible Exchanges (defined in Rule 28.100(a)(7)) and calculated by the Exchange based on market information received by the Exchange from OPRA.

(7) "Away Market" means any national securities exchange that has qualified for participation in the Options Clearing Corporation pursuant to the provisions of the rules of the Options Clearing Corporation (1) with which the Exchange maintains an electronic linkage, and (2) that provides instantaneous responses to orders routed from the Exchange.

(b) *Opening Order Ranking.* If there is an imbalance of orders and quotes that are potentially eligible to participate in the Opening Process, orders and quotes on the side of an imbalance (i.e., the side with more interest) are not guaranteed to participate in the Opening Process and will be ranked pursuant to Rule 22.170, provided that:

(1) Market orders will be ranked ahead of Limit orders and quotes.

(2) Limit orders and quotes will be ranked based on their limit price and not the price at which they would participate in the Opening Process.

(3) The Exchange will allocate orders and quotes at the same price in the Opening Process as set forth in Rule 22.170, except that the participation entitlements to a DMM or Specialist specified in Rule 22.170(f)(2) - (3) will not be available during the Opening Process.

(c) *Opening Process.* Upon receipt of the Opening Trigger for an underlying security, the Exchange will disseminate a message to market participants indicating the initiation of the Opening Process, as set forth below, for each options series for that underlying security. Following the dissemination of the Opening Trigger, the System will pause for a period of time no longer than one-half second to allow the market place to absorb this information. In the case of a Trading Halt, the Opening Process shall occur when trading resumes pursuant to Rule 21.130. Regular Market Hours trading shall commence or, in the case of a Trading Halt, resume when the Opening Process concludes.

(1) *Criteria for the Opening.* The opening of trading or resumption of trading after a halt of securities by the System will be dependent on the following criteria, provided the ABBO is not crossed.

(A) If there is locking or crossing interest on IEX Options or interest that locks or crosses the NBBO, a Valid Width NBBO must be present.

(B) If there is no locking or crossing interest on IEX Options and no interest that locks or crosses the NBBO, then the Exchange will open dependent upon one of the following:

① A Valid Width NBBO is present;

① A certain number of other options exchanges (as determined by the Exchange and posted by IEX Options on its website) have disseminated a firm quote on OPRA; or

① A certain period of time (as determined by the Exchange and posted by IEX Options on its website) has elapsed.

(2) Opening Process Where There is Locking or Crossing Interest on IEX Options or Interest that Locks or Crosses the NBBO.

(A) Determining the Opening Price. After the Opening Trigger has occurred and/or the trading halt has been lifted and the criteria for opening set forth in subsection (c)(1)(A) above have been met, in each case where there are orders or quotes with internally locking or crossing prices, or orders that lock or cross the NBBO for a particular option series, the System will determine a single price at which such option series will be opened (the "Opening Price"). The Opening Price of a series will be the midpoint of the Valid Width NBBO, rounded up if necessary (the "NBBO Midpoint").

(B) Matching Orders and Quotes in the System. After establishing an Opening Price, orders and quotes in the System that are priced equal to or more aggressively than the Opening Price will be matched based on the Opening Order Ranking defined in subparagraph (b) above. Matches will occur until there is no remaining volume or there is no imbalance of orders. All orders and quotes or portions thereof that are matched pursuant to the Opening Process will be executed at the Opening Price.

(C) Unexecuted Contracts. Eligible Interest that is not executed in whole or in part will be handled at the conclusion of the Opening Process as set forth in subparagraph (d) below.

(D) Execution and Reporting. All Eligible Interest executed in the Opening Process shall be executed at the Opening Price, trade reported anonymously, and disseminated via a national market system plan.

(3) Opening Process Where There is No Locking or Crossing Interest on IEX Options and no Interest that Locks or Crosses the NBBO. After the Opening Trigger has occurred and the criteria for opening set forth in subsection (1)(B) above have been met, and where there are no contracts in a particular series that would execute at any price, the System shall open such options for trading without determining an Opening Price. The System will open such series by disseminating via a national market system plan the Exchange's best bid and offer among quotes and orders that exist in the System at that time. Orders in the System will be handled at the conclusion of the Opening Process as set forth in subparagraph (d) below.

(d) *Transition to Continuous Trading.* When transitioning to continuous trading following the Opening Process, orders and quotes received prior to and not executed in full during the Opening Process will be transitioned to the continuous Order Book and handled in accordance with existing IEX rules, as applicable.

(e) *Deviation from Standard Opening Process.* The Exchange's Market Operations personnel may deviate from the standard manner of the Opening Process when necessary, including to delay or compel the opening of any series in any option class, or adjusting the timing of the Opening Process in any option class, when necessary in the interests of commencing or maintaining a fair and orderly market, in the event of unusual market conditions, or in the public interest. The Exchange will make and maintain records to document all determinations to deviate from the standard manner of the Opening Process, and periodically review these determinations for consistency with the interests of a fair and orderly market.

- (f) *Certain Locking or Crossing Orders or Quotes.* If any order or quote entered by a Market Maker on IEX Options using the same MPID is locking or crossing another order or quote entered by the same Market Maker using the same MPID on IEX Options during the Opening Process, then the System will cancel the oldest of the Market Maker's locking or crossing order or quote prior to execution.
- (g) *Order Processing During a Trading Halt.* The Exchange will process new and existing orders and quotes in a series during a trading halt as follows:
- (1) cancel all resting Market Maker quotes;
 - (2) re-price all other resting orders on the IEX Options Book to their limit price;
 - (3) accept and process all cancellations;
 - (4) reject incoming Limit orders designated IOC;
 - (5) accept all other incoming order and quote messages and instructions until the Trading Halt Opening Process, at which point, paragraph (c) of this Rule will govern the entry of incoming orders, quotes, and order instructions; and
 - (6) disseminate a zero bid and zero offer quote to OPRA and proprietary data feeds.

(Amended by SR-IEX-2026-15 eff. May 12, 2026.)

Rule 22.170. Order Display and Book Processing

All bids or offers made and accepted on IEX Options in accordance with the Exchange Rules shall constitute binding contracts, subject to applicable requirements of the Exchange Rules and the Rules of the Clearing Corporation. A System order is an order that is entered into the System for display and/or execution as appropriate. Such orders are executable against marketable contra-side orders in the System. System orders shall be executed through the IEX Options Book process set forth below:

- (a) *Priority on the Exchange.* The highest bid and lowest offer shall have priority on the Exchange.
- (b) *Base Allocation Algorithm — Pro-Rata.* Under this method, resting quotes and orders on the IEX Options Book are prioritized according to price. If there are two or more quotes or orders at the best price, then the contracts are allocated proportionally according to size (in a pro-rata fashion), rounded down to the nearest whole contract. If there are residual contracts to be filled, the quote or order with the largest remaining size (based on the pro rata calculation) will receive the first contract, and each successive contract (if any) will be allocated to each subsequent quote or order based on size (largest to smallest). If there are two or more quotes or orders with the same remaining size, then the quote or order with the first time priority will be allocated the next contract. Each successive contract (if any) will be allocated in the same manner.
- (c) *Price Improvement.* Any potential price improvement resulting from an execution in the System shall accrue to the party that is removing liquidity previously posted to the IEX Options Book.
- (d) *IEX Options.* Listed options that are the subject of a trading halt initiated pursuant to Rule 21.120 (Trading Halts), shall open for trading at the time specified by the Exchange pursuant to Rule 21.130. When the System opens, orders shall be added to the IEX Options Book in pro-rata priority and executed as described above in paragraph

(b) above.

(e) AIQ. Pursuant to Rule 22.100(h), Users may direct that orders entered into the System not execute against orders entered under the same Unique Identifier. In such a case, the System will not permit such orders to execute against one another, regardless of priority ranking.

(f) Priority Overlays. The Exchange may apply one or more of the priority overlays to a class in any sequence, except if the Exchange applies any participation entitlement pursuant to subparagraph (2) or the small order priority pursuant to subparagraph (3), it must apply the Priority Customer overlay in subparagraph (1) ahead of the participation entitlement and small-size order priority in the priority sequence. After the System executes an incoming order subject to the applicable priority overlays, the System executes any remaining orders resting on the IEX Options Book (which are non-Priority Customer orders if the Exchange applies any of the overlays in subparagraphs (1) through (3)) pursuant to paragraph (b) above.

(1) Priority Customer Overlay. A Priority Customer order at the highest bid or lowest offer has priority over orders and quotes of all other market participants at that price. If there are two or more Priority Customer orders at the same price, the System prioritizes them in the order in which the System received them (i.e., in time priority).

(2) Specialist/DMM Participation Entitlement. The Exchange may apply one or more of the Specialist and DMM participation entitlements (in any sequence) to a class. With respect to Specialists, for each incoming order, if the Specialist has a quote at the NBBO, its participation entitlement is equal to the greater of (i) the proportion of the total size at the best price represented by the size of its quote, or (ii) sixty percent (60%) of the contracts to be allocated if there is only one (1) other non-Priority Customer at the NBBO and forty percent (40%) if there are two (2) or more other non-Priority Customers at the NBBO, or (iii) one (1) contract. For purposes of allocation, all non-Priority Customer interest at a certain price level shall be aggregated. With respect to DMMs, for each incoming order, if the order is a Directed Order designating the DMM, and the DMM has a quote at the national best bid or offer ("NBBO"), its participation entitlement is equal to the greater of (i) the proportion of the total size at the best price represented by the size of its quote, or (ii) sixty percent (60%) of the contracts to be allocated if there is only one (1) other non-Priority Customer at the NBBO and forty percent (40%) if there are two (2) or more other non-Priority Customers at the NBBO, or (iii) one (1) contract. For purposes of allocation, all non-Priority Customer interest at a certain price level shall be aggregated.

(A) Only one participation entitlement may apply to a trade. If the Exchange applies a DMM participation entitlement and Specialist participation entitlement to a class, and both a DMM and Specialist have a quote at the highest bid or lowest offer, the DMM will receive an entitlement on a trade and the Specialist will not, irrespective of whether the Specialist participation entitlement is ahead of the DMM participation entitlement in the priority sequence.

(B) The participation entitlement is based on the number of non-Priority Customer contracts remaining after the Priority Customer overlay is applied.

(3) Small-Size Order Entitlement (1 - 5 Lot). If an incoming order has five or fewer contracts ("small-size order"), and the Specialist in the class has a quote at the highest bid or lowest offer, it has priority to execute against the entire size of the order or quote that does not execute against any Priority Customer orders at that price.

(A) If a small-size order is preferred to a DMM who is not the Specialist in the class, the DMM has a quote at the BBO, and the Exchange has applied the DMM participation entitlement, then the DMM receives its participation entitlement, and the small-size order entitlement does not apply to execution of that

order. If the DMM does not have a quote at the BBO, but the Specialist in the class does have a quote at the BBO, then the Specialist receives the small-size order entitlement.

(B) If a small-size order is preferred to a Specialist, the Specialist has a quote at the BBO, and the Exchange has applied the DMM and Specialist participation entitlement, the Specialist receives the small-size order entitlement, and the participation entitlement does not apply to execution of that order.

(C) The Exchange reviews this provision on a quarterly basis, and will reduce the size of small-size orders if they comprise more than 40% of the volume executed on the Exchange.

(g) Latency Mechanism.

(1) The Exchange will apply the latency mechanism to:

(A) order and quote messages from a User;

(2) The Exchange will not apply the Latency Mechanism to the following:

(A) outbound communications to a User;

(B) inbound and outbound communications between the Exchange and an Away Market regarding a routed order;

(C) inbound communications from Away Market data feeds and OPRA;

(D) order processing and order execution on the IEX Options Book; and

(E) outbound communications (e.g., bids, offers, and trades) to the Exchange's proprietary data feeds and to OPRA.

Rule 22.180. Order Routing

(a) General. For System Securities, the order routing process shall be available to Users from 9:30 a.m. Eastern Time until market close, and shall route orders as follows. Users can designate orders that have not been executed in full by the System pursuant to Rule 22.170 above as either available for routing or not available for routing. Orders designated as not available for routing and bulk messages, which are not eligible for routing, shall follow the book processing rules set forth in Rule 22.170 above.

(1) Routing of Market Orders. With respect to an order that is eligible for routing, the System will designate Market orders as IOC or ISO with a limit price and will cause such orders to be routed to one or more options exchanges for potential execution, per the entering User's instructions, in compliance the Options Order Protection and Locked/Crossed Market Plan. After the System receives responses to orders that were routed away, to the extent an order is not executed in full through the routing process, the System will cancel any unexecuted portion back to the User.

(2) Routing of Marketable Limit Orders. With respect to an order that is eligible for routing, the System will designate marketable Limit orders as IOC or ISO with a limit price and will cause such orders to be routed for execution to one or more options exchanges for potential execution, per the entering User's instructions, in compliance the Options Order Protection and Locked/Crossed Market Plan. After the System receives responses to orders that were routed away, to the extent an order is not executed in full through the routing process, the System will process the balance of such order as follows. Depending on parameters set by the User when the incoming order was originally entered, the System will either: (i) process the unfilled balance

of an order as an order with a Book Only instruction subject to the price adjust process as defined in Rule 22.100(i), if applicable, or (ii) repeat the process described above by executing against the IEX Options Book and/or routing orders to other options exchanges until the original, incoming order is executed in its entirety or its limit price is reached. If the order's limit price is reached, the order will be posted in the IEX Options Book.

- (3) Routing Table. The System will consider the quotations only of accessible markets when routing. The term "System routing table" refers to the proprietary process for determining the specific options exchanges to which the System routes orders and the order in which it routes them. The Exchange reserves the right to route orders simultaneously or sequentially and to modify the System routing table at any time without notice.
- (b) Priority of Routed Orders. Orders that have been routed by the System to other options exchanges are not ranked and maintained in the IEX Options Book pursuant to Rule 22.170, and therefore are not available to execute against incoming orders. Once routed by the System, an order becomes subject to the rules and procedures of the destination options exchange including, but not limited to, order cancellation. If a routed order is subsequently returned, in whole or in part, that order, or its remainder, shall receive a new time stamp reflecting the time of its return to the System.
- (c) Users whose orders are routed to other options exchanges shall be obligated to honor such trades that are executed on other options exchanges to the same extent they would be obligated to honor a trade executed on IEX Options.
- (d) IEX Options shall route orders in options via IEX Services LLC, which serves as the Outbound Router of the Exchange, as defined in Rule 2.220 (IEX Services LLC as Outbound Router). The function of the Outbound Router will be to route orders in options listed and open for trading on IEX Options by transmitting such orders to one or more routing brokers that are not affiliated with the Exchange to other options exchanges ("Routing Services") pursuant to the Exchange Rules on behalf of IEX Options. The Outbound Router is subject to regulation as a facility of the Exchange, including the requirement to file proposed rule changes under Section 19 of the Exchange Act. Use of the Routing Services described in this subparagraph (d) to route orders to other market centers is optional. Parties that do not desire to use these Routing Services must designate orders as not available for routing.
 - (1) For each routing broker used by the Exchange, an agreement will be in place between the Exchange and the routing broker that will, among other things, restrict the use of any confidential and proprietary information that the routing broker receives to legitimate business purposes necessary for routing orders at the direction of the Exchange.
 - (2) The Exchange shall establish and maintain procedures and internal controls reasonably designed to adequately restrict the flow of confidential and proprietary information between the Exchange and the routing broker, and any other entity, including any affiliate of the routing broker, and, if the routing broker or any of its affiliates engages in any other business activities other than providing routing services to the Exchange, between the segment of the routing broker or affiliate that provides the other business activities and the segment of the routing broker that provides the routing services.
 - (3) The Exchange may not use a routing broker for which the Exchange or any affiliate of the Exchange is the designated examining authority.
 - (4) The Exchange will provide its Routing Services in compliance with the provisions of the Act and the rules thereunder, including, but not limited to, the requirements in Section 6(b)(4) and (5) of the Act that the rules

of a national securities exchange provide for the equitable allocation of reasonable dues, fees, and other charges among its members and issuers and other persons using its facilities, and not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

- (5) For all Routing Services, the Exchange will determine the logic that provides when, how, and where orders are routed away to other options exchanges.
- (6) The routing broker will receive routing instructions from the Exchange, to route orders to other options exchanges and report such executions back to the Exchange. The routing broker cannot change the terms of an order or the routing instructions, nor does the routing broker have any discretion about where to route an order.
- (7) Any bid or offer entered on the Exchange routed to another options exchange via a routing broker that results in an execution shall be binding on the User that entered such bid/offer.
- (e) Market Access. In addition to the Exchange Rules regarding routing to away options exchanges, IEX Services LLC, as defined in Rule 2.220, has, pursuant to Rule 15c3-5 under the Exchange Act, implemented certain tests designed to mitigate the financial and regulatory risks associated with providing the Exchange's Users with access to such away options exchanges. Pursuant to the policies and procedures developed by IEX Services LLC to comply with Rule 15c3-5, if an order or series of orders are deemed to be erroneous or duplicative, would cause the entering User's credit exposure to exceed a preset credit threshold, or are non-compliant with applicable pre-trade regulatory requirements (as defined in Rule 15c3-5), IEX Services LLC will reject such orders prior to routing and/or seek to cancel any orders that have been routed.

Rule 22.190. Anonymity

- (a) Aggregated and individual transaction reports produced by the System will indicate the details of a User's transactions, including the contra party's MPID, capacity, and clearing firm account number.
- (b) The Exchange shall reveal a User's identity when a registered clearing agency ceases to act for a participant, or the User's clearing firm, and the registered clearing agency determines not to guarantee the settlement of the User's trades.
- (c) The Exchange shall reveal a User's identity for regulatory purposes or to comply with an order of an arbitrator or court.

Rule 22.200. Transaction Price Binding

The price at which an order is executed shall be binding notwithstanding that an erroneous report in respect thereto may have been rendered, or no report rendered. A report shall not be binding if an order was not actually executed but was reported to have been executed in error.

Rule 22.210. Clearing Member Give Up

- (a) General. For each transaction in which a User participates, the User may indicate, at the time of the trade or through post-trade allocation, any OCC number of the Clearing Member through which the transaction will be cleared ("give up"). The Clearing Member that is given up must be a Designated Give Up or a Guarantor of the User as set forth in paragraph (b) below. Clearing Members may elect to Opt In, as defined and described in paragraph (c) below, and restrict one or more of its OCC number(s) ("Restricted OCC Number"). A User may give up a Restricted OCC Number provided the User has written authorization as described in paragraph (c)(2) below ("Authorized User") and

provided the Restricted OCC Number belongs to a Designated Give Up of the User.

(b) Designated Give Ups.

- (1) **Definition of Designated Give Up.** For purposes of this Rule, a Designated Give Up of a User refers to a Clearing Member identified to the Exchange by that User as a Clearing Member the User requests the ability to give up and that has been processed by the Exchange as a Designated Give Up.
- (2) **Definition of Guarantor.** For purposes of this Rule, a “Guarantor” of an executing User refers to a Clearing Member that has issued a Letter of Guarantee for the executing User under the Exchange Rules that are in effect at the time of the execution of the applicable trade.
- (3) **Identification of Designated Give Up.** Every User (other than a Market Maker) must identify, in a form and manner prescribed by the Exchange and in advance of giving up any Clearing Member that is not a Guarantor for the User, any Designated Give Ups. A User shall only give up (A) a Clearing Member that has previously been identified and processed by the Exchange as a Designated Give Up for that User, provided that the Designated Give Up has not Opted In, or provided that the User is an Authorized User of that Designated Give Up, or (B) a Guarantor for that User.
- (4) **Non-Market Makers.** Any User (other than a Market Maker) may designate, pursuant to subparagraph (b)(3) above, any Clearing Member other than its Guarantor, as a Designated Give Up.
- (5) **Market Makers.** For each transaction in which a Market Maker participates, a Guarantor of the Market Maker shall be the Clearing Member through which the transaction will be cleared.
- (6) **Guarantors.** A Guarantor for a User will be enabled to be given up for that User without any further action by the Clearing Member or User.
- (7) **Removal of Designated Give Up.** If a User (other than a Market Maker) no longer wants the ability to give up a particular Designated Give Up, the User must notify the Exchange, in a form and manner prescribed by the Exchange.

(c) Opt In. Clearing Members may request the Exchange restrict one or more of their OCC clearing numbers (“Opt In”) as described in subparagraph (c)(1) below. If a Clearing Member Opts In, the Exchange will require written authorization from the Clearing Member permitting a User to give up a Clearing Member’s Restricted OCC Number. An Opt In would remain in effect until the Clearing Member terminates the Opt In as described in subparagraph (c)(3) below. If a Clearing Member does not Opt In, that Clearing Member’s OCC number would be subject to give up by any User.

- (1) **Clearing Member Process to Opt In.** A Clearing Member may Opt In by sending a completed “Clearing Member Restriction Form” listing all Restricted OCC Numbers and Authorized Users. A Clearing Member may elect to restrict one or more OCC clearing numbers that are registered in its name at OCC. The Clearing Member would be required to submit the Clearing Member Restriction Form to the Exchange’s Market Operations as described on the form. Once submitted, the Exchange requires ninety days before a Restricted OCC Number is effective within the System.
- (2) **User Give Up Process for Restricted OCC Numbers.** A User desiring to give up a Restricted OCC Number must become an Authorized User. The Clearing Member will be required to authorize a User as described in subparagraph (1) or (3), unless the Restricted OCC Number is already subject to a Letter of Guarantee that the User is a party to.
- (3) **Amendments to Authorized Users or Restricted OCC Numbers.** A Clearing Member may amend its Authorized

Users or Restricted OCC Numbers by submitting a new Clearing Member Restriction Form to the Exchange's Market Operations indicating the amendment as described on the form. Once a Restricted OCC Number is effective within the System pursuant to paragraph (1) above, the Exchange may permit the Clearing Member to authorize, or remove authorization for, a User to Give Up the Restricted OCC Number intra-day only in unusual circumstances, and on the next business day in all regular circumstances. The Exchange will promptly notify Users if they are no longer authorized to give up a Clearing Member's Restricted OCC Number. If a Clearing Member removes a Restricted OCC Number, any User may give up that OCC clearing number once the removal has become effective on or before the next business day, provided that the User has identified the Clearing Member as a Designated Give Up.

(d) System. The Exchange's trading systems shall only accept orders that identify an effective Designated Give Up or a Guarantor. For any Restricted OCC Number, the Exchange's trading systems will only accept orders for that number from an Authorized User that has also designated that Clearing Member as a Designated Give Up.

(e) Notice. The Exchange shall notify a Clearing Member, in writing and as soon as practicable, of each User that has identified the Clearing Member as a Designated Give Up pursuant to subparagraph (b)(3) above. The Exchange shall notify a User, in writing and as soon as practicable, of each Clearing Member that has identified the User as an Authorized User pursuant to subparagraph (c) above.

(f) Other Give Up Changes.

(1) Give Up Changes Made by Executing User. If the executing User has the ability through an Exchange system to do so, the User may change the give up on the trade to another Designated Give Up, provided it's an Authorized User for any Restricted OCC Number, or to its Guarantor. The ability of an executing User to make any give up change will end at the trade input cutoff time established by the Clearing Corporation (or fifteen minutes thereafter if the Exchange receives and is able to process a request to extend its time of final trade submission to the Clearing Corporation) ("Trade Date Cutoff Time").

(2) Give Up Changes Made by Designated Give Up to Affiliates and Back Office Agents. If a Designated Give Up has the ability through an Exchange system to do so, the Designated Give Up may change the give up on a trade to (A) another Clearing Member affiliated with the Designated Give Up or (B) a Clearing Member that is a back office agent for the Designated Give Up. The ability to make such a change will end at the Trade Date Cutoff Time.

(3) Give Up Changes Made by Designated Give Ups or Guarantors and Clearing Members on T+1. If a Designated Give Up (or Guarantor) and a Clearing Member have the ability through an Exchange system to do so, the Designated Give Up (or Guarantor) and Clearing Member may each enter trade records into the Exchange's systems on the next trading day ("T+1") that would effect a transfer of a trade in nonexpired options series from that Designated Give Up (or Guarantor) to that Clearing Member. The ability to make such a change will end at 12:00 p.m. Eastern Time on T+1 ("T+1 Cutoff Time"). The Designated Give Up (or Guarantor) will notify the Exchange and all the parties to the trade, in writing, of any such change.

(g) Responsibility. For purposes of the Exchange Rules, a Clearing Member will be financially responsible for all trades for which it is the give up at the Applicable Cutoff Time. Nothing in this Rule will preclude a different party from being responsible for the trade outside of the Exchange pursuant to the Rules of the Options Clearing Corporation, any agreement between the applicable parties, other applicable rules and regulations, arbitration, court proceedings or otherwise. For purposes of this Rule, the "Applicable Cutoff Time" shall refer to the cutoff time for non-expiring options series and to the Trade Date Cutoff Time for expiring options series.

(h) Misuse. An intentional misuse of this Rule is impermissible, and may be treated as a violation of Rule 3.110.

• • • **Supplementary Material** • • •

.01 Nothing herein will be deemed to preclude the clearance of Exchange transactions by a non-User pursuant to the By-Laws of the Options Clearing Corporation so long as a Clearing Member who is a User is also designated as having responsibility under these Rules for the clearance of such transactions.

Rule 22.220. Submission for Clearance

- (a) All options transactions effected on IEX Options shall be submitted for clearance to the Clearing Corporation, and all such transactions shall be subject to the Rules of the Clearing Corporation. Every Clearing Member shall be responsible for the clearance of IEX Options Transactions of such Clearing Member and of each User that gives up such Clearing Member's name pursuant to a letter of authorization, letter of guarantee or other authorization given by such Clearing Member to such User, which authorization must be submitted to the Exchange, and the Exchange shall assume no responsibility with respect to any unmatched trade or for any delays or errors in the reporting to it of trade information.
- (b) On each business day at or prior to such time as may be prescribed by the Clearing Corporation, IEX Options shall furnish the Clearing Corporation a report of each Clearing Member's matched trades.

Rule 22.230. Message Traffic Mitigation

For the purpose of message traffic mitigation, based on IEX Options' traffic with respect to target traffic levels and in accordance with IEX Options' overall objective of reducing both peak and overall traffic:

- (a) IEX Options will periodically delist options with an average daily volume ("ADV") of less than 100 contracts. The Exchange will, on a monthly basis, determine the ADV for each series listed on IEX Options and delist the current series and not list the next series after expiration where the ADV is less than 100 contracts. For options series traded solely on IEX Options, the Exchange will delay delisting until there is no open interest in that options series.
- (b) IEX Options will implement a process by which an outbound quote message that has not been sent, but is about to be sent, will not be sent if a more current quote message for the same series is available for sending. This replace on queue functionality will be applied to all options series listed on IEX Options in real time and will not delay the sending of any messages.
- (c) IEX Options will also prioritize price update messages and send out price updates before sending size update messages. This functionality will be applied to all options series listed on the IEX Options and in conjunction with the previously described replace on queue functionality will ensure that IEX Options quote update messages are the most current and relevant available.
- (d) All message traffic mitigation mechanisms which are used on IEX Options will be identical to the OPRA "top of the book" broadcast.

Rule 22.240. Data Dissemination

- (a) Dissemination of Quotations. The Exchange will disseminate to quotation vendors the highest bid and the lowest offer, and the aggregate quotation size associated therewith that is available, in accordance with the requirements

of Rule 602 of Regulation NMS under the Exchange Act.

(b) Exchange Data Products. The Exchange offers the following data products free of charge, except as otherwise noted in the Fee Schedule:

- (1) IEX Options DEEP. IEX Options DEEP is an uncompressed data feed that offers depth of book quotations and execution information based on options orders entered into the System.
- (2) IEX Options TOPS. IEX Options TOPS is an uncompressed data feed that offers top of book quotations and execution information based on options orders entered into the System.
- (3) DROP. DROP is an uncompressed data feed that offers information regarding the options trading activity of a specific User. DROP is only available to the User to whom the specific data relates and those recipients expressly authorized by the User.

(c) Notification of Priority Customer Interest on the IEX Options Book.

- (1) The Exchange will make available to market participants through OPRA an indication that there is Priority Customer interest included in the BBO disseminated by the Exchange.
- (2) The Exchange will identify Priority Customer Orders as such on messages disseminated by the Exchange through its IEX Options DEEP and IEX Options TOPS data feeds.

(Amended by SR-IEX-2026-18 eff. June 25, 2026.)

Rule 22.250. Pre-Trade and Activity-Based Risk Controls

(a) The following are definitions for purposes of this Rule:

(1) “Pre-Trade Risk Controls” refer to the following optional limits, each of which an Options Member may utilize with respect to its trading activity on the Exchange.

(A) “Single-Order Risk Controls” refer to the following:

- (i) controls related to the maximum dollar amount for a single order to be applied one time (“Single Order Maximum Notional Value Risk Limit”) and the maximum number of contracts that may be included in a single order before it can be traded (“Single Order Maximum Quantity Risk Limit”);
- (ii) controls related to the price of an order or quote (including percentage-based and dollar-based controls);
- (iii) controls related to the order types or modifiers that can be utilized;
- (iv) controls to restrict the options classes transacted; and
- (v) controls to prohibit duplicative orders.

(2) “Activity-Based Risk Controls” refer to activity-based risk limits that may be applied to orders and quotes in an options class based on specified thresholds measured over the course of an Interval. The Activity-Based Risk Controls available on the Exchange are:

(A) “Transaction-Based Risk Limit” refers to a pre-established limit on the number of an Options Member’s orders and quotes executed in a specified class of options per Interval;

- (B) “Volume-Based Risk Limit” refers to a pre-established limit on the number of contracts of an Options Member’s orders and quotes that can be executed in a specified class of options per Interval; or
- (C) “Percentage-Based Risk Limit” refers to a pre-established limit on the percentage of contracts executed in a specified class of options as measured against the full size of an Options Member’s orders and quotes executed per Interval. To determine whether an Options Member has breached the specified percentage limit, the Exchange calculates the percent of each order or quote in a specified class of options that is executed during an Interval (each, a “percentage”), and sums up those percentages. This risk limit will be breached if the sum of the percentages exceeds the pre-established limit.

(3) “Global Risk Control” refers to a pre-established limit on the number of times an Options Member may breach its Activity-Based Risk Controls per Interval.

(4) “Interval” refers to the configurable time period during which the Exchange will determine if an Activity-Based Risk Control or the Global Risk Control has been breached.

(5) “MPID Group” refers to two or more MPIDs belonging to the same Options Member that are configured with the Exchange for the purposes of establishing risk limits for such MPIDs. The Exchange may limit the number of MPID Groups an Options Member can configure, which will be announced via a circular distributed to Options Members.

(b) Setting and Adjusting Pre-Trade, Activity-Based, and Global Risk Controls.

- (1) Pre-Trade, Activity-Based and Global Risk Controls may be set and adjusted before the beginning of a trading day or during the trading day.
- (2) Pre-Trade, Activity-Based and Global Risk Controls can be set at the MPID or MPID Group level, or both, depending on the risk control. Additionally, Pre-Trade Risk Controls to restrict the options class(es) transacted must be set per options class.

(c) Automated Breach Actions. The Exchange will automatically take the following actions.

(1) Pre-Trade Risk Controls.

(A) Breach Action for Pre-Trade Risk Controls.

- (i) A Limit order or quote that breaches any Single-Order Risk Control will be rejected.
- (ii) A Market order that arrives during the Opening Process will be cancelled if the quantity remaining to trade after the Opening Process breaches the Single Order Maximum Notional Value Risk Limit. At all other times, a Market order that triggers or breaches any Single-Order Risk Control will be rejected.
- (iii) A Limit order or quote that would breach a price control under paragraph (a)(1)(A)(ii) above will be rejected or cancelled as specified in Rule 22.260(a) (Limit Order Price Protection).

(2) Activity-Based Risk Controls

- (A) An Options Member acting as a Market Maker is required to apply one of the Activity-Based Risk Controls to all of its orders and quotes. An Options Member that is not acting as a Market Maker may, but is not required to, apply one of the Activity-Based Risk Controls to its orders.
- (B) To determine when an Activity-Based Risk Control has been breached, the Exchange will maintain a

trade counter that will be incremented every time an order or quote trades and will aggregate the number of contracts traded during each such execution, subject to any adjustments resulting from the Priority Customer Multiplier set forth in subparagraph (c)(2)(B)(i) of this Rule. An Options Member may opt to exclude any orders or quotes designated IOC from being considered by a trade counter.

(i) Priority Customer Multiplier. An Options Member may opt to specify a percentage (between 0% and 100%) of executions against Priority Customer orders to count toward the Options Member's Activity-Based Risk Controls.

(C) Cancel and Block. When an Options Member's Activity-Based Risk Control has been breached, the Exchange will reject new order and quote messages and related instructions, and will cancel all unexecuted orders and quotes in the IEX Options Book for that Options Member in that particular class.

(D) If an Options Member breaches an Activity-Based Risk Control, the Automated Breach Action will be applied to its orders and quotes in the affected class of options.

(E) The Exchange will specify by Trading Alert any applicable minimum, maximum and/or default settings for the Activity-Based Risk Controls, subject to the following:

(i) For the Transaction-Based Risk Limit, the minimum setting will not be less than one and the maximum setting will not be more than 2,000.

(ii) For the Volume-Based Risk Limit, the minimum setting will not be less than one and the maximum setting will not be more than 500,000.

(iii) For the Percentage-Based Risk Limit, the minimum setting will not be less than 50 and the maximum setting will not be more than 200,000.

(F) The Exchange will specify by Trading Alert the Interval for the Activity-Based Risk Controls, subject to the following:

(i) The Interval will not be less than 100 milliseconds and will not be greater than 300,000 milliseconds, inclusive of the duration of any trading halt occurring within that time.

(ii) For transactions occurring in the Core Opening Process, per Rule 22.160, the applicable time period is the lesser of (i) the time between the Core Opening Process of a series and the initial transaction or (ii) the Interval.

(3) Global Risk Controls

(A) If the Global Risk Control limit is breached, the Exchange will Cancel and Block, per paragraph (c)(2)(C) above.

(B) If an Options Member breaches the Global Risk Control, the Automated Breach Action will be applied to all orders and quotes of the Options Member in all classes of options regardless of which class(es) of options caused the underlying breach of Activity-Based Risk Controls.

(C) The Exchange will specify by Trading Alert any applicable minimum, maximum and/or default settings for the Global Risk Control, provided that the minimum setting will not be less than 25 and the maximum setting will not be more than 100.

(D) The Exchange will specify by Trading Alert the Interval for the Global Risk Controls, subject to the following:

- (i) The Interval will not be less than 100 milliseconds and will not be greater than 300,000 milliseconds, inclusive of the duration of any trading halt occurring within that time.
- (ii) For transactions occurring in the Core Opening Process, per Rule 22.160, the applicable time period is the lesser of (i) the time between the Core Opening Process of a series and the initial transaction or (ii) the Interval.

(d) Reinstatement of Options Member After Automated Breach Action. If a “Cancel and Block” Automated Breach Action has been triggered, the Exchange will not reinstate the Options Member’s ability to enter orders and quotes and related instructions on the Exchange without the consent of the Options Member, which may be provided via automated contact if it was a breach of an Activity-Based Risk Control or a Global Risk Control.

(e) Kill Switch Actions. An Options Member can direct the Exchange to take one or more of the following actions with respect to orders and quotes for an MPID:

- (1) Cancel all unexecuted orders and quotes in the IEX Options Book; or
- (2) Block the entry of any new order and quote messages and related instructions, provided that the Exchange will continue to accept instructions from the Options Member to cancel one or more orders or quotes in full, and later, reverse that block.

(f) With respect to the Activity-Based and Global Risk Controls (as well as Kill Switch Actions), any marketable interest that is executable against an order or quote that is received prior to the time the applicable threshold is triggered and processed by the System will be automatically executed up to the size of the resting order or quote, regardless of whether the execution would cause the Options Member to exceed its pre-set risk threshold(s).

• • • *Supplementary Material* • • •

.01 The Pre-Trade, Activity-Based, and Global Risk Controls described in this Rule are meant to supplement, and not replace, the Options Member’s own internal systems, monitoring, and procedures related to risk management and are not designed for compliance with Rule 15c3-5 under the Exchange Act. Responsibility for compliance with all Exchange and SEC rules remains with the Options Member.

.02 An Options Member may set price controls under paragraph (a)(1)(A)(ii) above, that are equal to or more restrictive than levels set out in Rule 22.260(a) regarding Limit Order Price Protection.

(Amended by SR-IEX-2026-15 eff. May 12, 2026; amended by SR-IEX-2026-27 eff. August 13, 2026)

Rule 22.260. Additional Price Protection Mechanisms and Risk Controls

The System’s acceptance and execution of orders, quotes, and bulk messages, as applicable, are subject to the price protection mechanisms and risk controls in Rule 22.250, this Rule and as otherwise set forth in the Exchange Rules. All numeric values established by the Exchange pursuant to this Rule will be maintained by the Exchange in publicly available specifications and/or published in a circular distributed to Options Members. Unless otherwise specified the price protections set forth in this Rule, including the numeric values established by the Exchange, may not be disabled or adjusted. The Exchange may share any of a User’s risk settings with the Clearing Member that clears transactions on behalf of the User.

(a) Limit Order Price Protection

- (1) Each trading day, a Limit order or quote to buy (sell) will be rejected, or cancelled (if resting), if it is priced a Specified Threshold equal to or above (below) the Reference Price, rounded down to the nearest price within the MPV for the series ("Limit Order Price Protection"). Limit Order Price Protection will not be applied to a Limit order or quote if there is no Reference Price.
 - (A) A Limit order or quote that arrives when a series is open will be evaluated for Limit Order Price Protection on arrival.
 - (B) A Limit order or quote received during the Opening Process will be evaluated for Limit Order Price Protection after the Opening Process concludes.
 - (C) A Limit order or quote resting on the IEX Options Book before a trading halt will be evaluated for Limit Order Price Protection again after the Trading Halt Auction concludes.
- (2) Reference Price. The Reference Price for calculating Limit Order Price Protection for an order or quote to buy (sell) will be the NBO (NBB), provided that, immediately following the Opening Process, the Reference Price will be the Opening Price or, if none, the offer (bid) of the Valid Width NBBO price, or, if none, the NBO (NBB). For purposes of calculating Limit Order Price Protection, the Exchange will not use an adjusted NBBO.
- (3) Specified Threshold. Unless determined otherwise by the Exchange and announced by Trading Alert, the Specified Threshold applicable to Limit Order Price Protection will be:

Reference Price	Specified Threshold
\$0.00 to \$1.00	\$0.30
\$1.01 to \$10.00	50%
\$10.01 to \$20.00	40%
\$20.01 to \$50.00	30%
\$50.01 to \$100.00	20%
\$100.01 and higher	10%

(b) Reserved

- (c) Market Order NBBO Width Protection. If a User submits a Market order to the System when the NBBO width is greater than x% of the midpoint of the NBBO, subject to a minimum and maximum dollar value (the Exchange determines "x" and the minimum and maximum dollar values on a class-by-class basis), the System cancels or rejects the Market order.

(d) Price Reasonability Checks

- (1) The Exchange will apply Price Reasonability Checks defined in paragraphs (2) and (3) of this Rule to all Limit orders and quotes during continuous trading on each trading day, subject to the following:
 - (A) A Limit order or quote received during a pre-open state will be subject to the Price Reasonability Checks after an Auction concludes. A Limit order or quote that was resting on the IEX Options Book before a trading halt will be subject to the Price Reasonability Checks again after the Trading Halt

Auction. A put option message to buy will be subject to the Arbitrage Check regardless of when it arrives.

(B) If the calculation of the Price Reasonability Check is not consistent with the MPV for the series, it will be rounded down to the nearest price within the applicable MPV.

(C) The Price Reasonability Checks will not apply to:

- (i) any options series for which the underlying security has a non-standard cash or stock deliverable as part of a corporate action;
- (ii) any options series for which the underlying security is identified as over-the-counter (“OTC”); and
- (iii) any options series for which the Exchange determines it is necessary to exclude underlying securities in the interests of maintaining a fair and orderly market, which the Exchange will announce by Trading Alert.

(2) Arbitrage Checks for buy orders or quotes.

(A) Puts. Order or quote messages to buy for put options will be rejected if the price of the order or quote is equal to or greater than the strike price of the option.

(B) Calls. Order or quote messages to buy for call options will be rejected or canceled (if resting) if the price of the order or quote is equal to or greater than the price of the last trade (of any size) of the underlying security on the Primary Market, plus a specified threshold to be determined by the Exchange and announced by Trading Alert.

(3) Intrinsic Value Checks for sell orders or quotes.

(A) The Intrinsic Value for a put option is equal to the strike price minus the price of the last trade (of any size) of the underlying security on the Primary Market.

(B) The Intrinsic Value for a call option is equal to the price of the last trade (of any size) of the underlying security on the Primary Market minus the strike price.

(C) ISOs to sell are not subject to the Intrinsic Value Check described in this paragraph (3).

(D) Puts and calls.

(i) Orders or quotes to sell for both puts and calls will be rejected or canceled (if resting) if the price of the order or quote is equal to or lower than its Intrinsic Value, minus a specified threshold to be determined by the Exchange and announced by Trading Alert.

(ii) The threshold percentage is based on the NBB, provided that, immediately following the Opening Process, it is based on the Opening Price or, if none, the offer (bid) of the Valid Width NBBO price, or, if none, the NBB. For purposes of determining the Intrinsic Value, the Exchange will not use an adjusted NBBO. The Intrinsic Value Check for sell orders and quotes will not be applied if the Intrinsic Value cannot be calculated.

(E) Automated Breach Action for Market Makers. If a Market Maker's order or quote message is rejected or cancelled (if resting) pursuant to paragraph (2) or (3) of this Rule, the Exchange will Cancel and Block orders and quotes in the affected class of options per Rule 22.250(c)(2)(C).

(i) Global Risk Control Trigger. This breach will be counted towards the Market Maker's Global Risk Control limit per Rule 22.250(a)(3).

- (ii) Reinstatement of Market Maker After Automated Breach Action. The Exchange will not reinstate the Market Maker's ability to enter orders and quotes and related instructions on the Exchange in that class of options (other than instructions to cancel one or more orders/quotes in full) without the consent of the Market Maker, which may be provided via automated contact.

(e) Drill-Through Protection.

- (1) If a buy (sell) order enters the IEX Options Book at the conclusion of the Opening Process or would execute or post to the IEX Options Book when it enters the IEX Options Book, the System executes the order up to a buffer amount (the Exchange determines the buffer amount on a class and premium basis) above (below) the offer (bid) limit of the Valid Width NBBO or the NBO (NBB) that existed at the time of entry into the IEX Options Book, respectively (the "drill-through price").
- (2) The System cancels or rejects any Market order with a Time-in-Force of IOC (or unexecuted portion) or Limit order with a Time-in-Force of IOC or (or unexecuted portion) not executed pursuant to paragraph (1).
- (3) The System enters a Limit order with a Time-in-Force of Day (or unexecuted portion) not executed pursuant to paragraph (1) in the IEX Options Book with a displayed price equal to the drill-through price.
 - (A) The order (or unexecuted portion) rests in the IEX Options Book at the drill-through price for the duration of consecutive time periods. The Exchange determines on a class-by-class basis the length of the time period in milliseconds, which may not exceed three seconds. Each time period is referred to as an "iteration" and the Exchange determines on a class-by-class basis the total number of iterations. Such determination shall be announced by a Trading Alert.
 - (B) Following the end of each period, the System adds (if a buy order) or subtracts (if a sell order) one buffer amount (the Exchange determines the buffer amount on a class-by-class basis) to the drill-through price displayed during the preceding period (each new price becomes the "drill-through price"). The order (or unexecuted portion) rests in the IEX Options Book at that new drill-through price during the subsequent period. If at any time during this process, the NBO (NBB) changes to be below (above) the current drill-through price, such NBO (NBB) will become the new drill-through price for sell (buy) orders, and a new iteration will immediately begin. Any buy (sell) Limit order with a price that is less (greater) than the new drill-through price will be entered in the IEX Options Book at its limit price.
 - (C) The System applies a timestamp to the order (or unexecuted portion) based on the time it enters or is re-priced in the IEX Options Book for priority purposes.
 - (D) If a Market or Limit order in a series enters the IEX Options Book while the drill-through process is in progress in that series and would be subject to the drill-through protection, the order joins the ongoing drill-through process in the then-current iteration and at the then-current drill-through price.
 - (E) The System prioritizes orders that are part of the same drill-through iteration
 - (i) based on the time the System enters or reprices them in the IEX Options Book (i.e., in time priority) when, after an iteration, the new drill-through price makes the order(s) marketable against resting orders and
 - (ii) in accordance with the base allocation algorithm described in Rule 22.170(b) when executing against any incoming interest.
 - (F) The order continues through this process until the earliest of the following to occur:

- (i) the order fully executes;
- (ii) the User cancels the order;
- (iii) the buy (sell) order's limit price is less (greater) than the drill-through price at any time during application of the drill-through mechanism, in which case the order rests in the IEX Options Book at its limit price;
- (iv) The order has rested in the IEX Options Book for the maximum number of iterations, as set forth in a Trading Alert, in which case the order is cancelled back to the originating User.

(G) The drill-through protection mechanism applies during all trading sessions.

(4) This protection does not apply to bulk messages, Post Only, or ISOs.

(f) Automated Breach Action for Market Makers. If a Market Maker's order or quote message is rejected or cancelled (if resting) pursuant to paragraph (d)(2) or (d)(3) of this Rule, the Exchange will Cancel and Block orders and quotes in the affected class of options per Rule 22.250(c)(2)(C).

- (1) Global Risk Control Trigger. This breach will be counted towards the Market Maker's Global Risk Control limit per Rule 22.250(a)(3).
- (2) Reinstatement of Market Maker After Automated Breach Action. The Exchange will not reinstate the Market Maker's ability to enter orders and quotes and related instructions on the Exchange in that class of options (other than instructions to cancel one or more orders/quotes without the consent of the Market Maker, which may be provided via automated contact).

(Amended by SR-IEX-2026-15 eff. May 12, 2026; amended by SR-IEX-2026-27 eff. August 13, 2026; SR-IEX-2026-31 eff. September 8, 2026.)

Rule 22.270. Step Up Mechanism ("SUM")

This Rule governs the operation of the Step Up Mechanism ("SUM"). SUM is a feature within the System that provides automated order handling in designated classes trading for qualifying orders that are not automatically executed by the System.

- (a) SUM Eligibility. The Exchange determines eligible order size, eligible order type, eligible order capacity (e.g., Priority Customer orders, non-Market Maker non-Priority Customer orders, and Market Maker orders), and classes in which SUM is activated. Bulk messages are not eligible for SUM. The Exchange does not initiate the SUM process if the NBBO is crossed. SUM automatically processes upon receipt of:
 - (1) an eligible order that is marketable against the BBO that is not the NBBO; or
 - (2) an eligible order that would improve the Exchange's BBO and that is marketable against the ABBO.
- (b) Order Handling and Responses. Upon receipt of an order eligible for SUM pursuant to paragraph (a):
 - (1) the System electronically exposes the order at the NBBO immediately upon receipt. The order is exposed for a period of time determined by the Exchange on a class-by-class basis, which period of time may not exceed one second.
 - (2) All Users may submit responses to the exposure message.
 - (3) Responses

- (A) must be limited to the size of the order being exposed;
- (B) may be modified, cancelled or replaced any time during the exposure period; and
- (C) are cancelled back at the end of the exposure period if unexecuted.

(c) Allocation of Exposed Orders.

- (1) Any responses priced at the prevailing NBBO or better will immediately trade against the order (in time priority).
- (2) If during the exposure period the Exchange receives an unrelated order (or quote) on the opposite side of the market from the exposed order that could trade against the exposed order at the prevailing NBBO price or better, then the orders will trade at the prevailing NBBO price. The exposure period will not terminate if a quantity remains on the exposed order after such trade.
- (3) Responses that are not immediately executable based on the prevailing NBBO may become executable during the exposure period based on changes to the NBBO. In the event of a change to the NBBO and at the conclusion of the exposure period, the Exchange will evaluate remaining responses as well as the ABBO and execute any remaining portion of the exposed order to the fullest extent possible at the best price(s) by executing against responses and unrelated orders.
- (4) Following the exposure period, the Exchange will route the remaining portion of the exposed order to other exchanges, unless otherwise instructed by the User. Any portion of a routed order that returns unfilled shall trade against the Exchange's best bid/offer unless another exchange is quoting at a better price in which case new orders shall be generated and routed to trade against such better prices.
- (5) All executions on the Exchange pursuant to this paragraph will comply with Rule 28.110.

(d) Early Termination of Exposure Period. In addition to the receipt of a response, or unrelated order or quote, to trade the entire exposed order at the NBBO or better, the exposure period also terminates prior to its expiration, and the System processes the exposed order in accordance with paragraph (c) above if during the exposure period:

- (1) the NBBO updates such that the exposed order is no longer marketable against the prevailing NBBO; or
- (2) the Exchange is displaying an unrelated order on the same side of the market as the exposed order and such displayed order is subsequently locked or crossed by another options exchange.

CHAPTER 23. MARKET PARTICIPANTS

Rule 23.100 Registration of Market Makers

- (a) A Market Maker is an Options Member with Registered Options Traders registered pursuant to Rule 23.110. Market Makers are registered with the Exchange for the purpose of making transactions as dealer-specialist in accordance with the provisions of this Chapter. Options Members registered as Market Makers have certain rights and bear certain responsibilities beyond those of other Options Members. All Market Makers are designated as specialists on the Exchange for all purposes under the Exchange Act and the rules and regulations thereunder.
- (b) To register as a Specialist or as a Registered Market Maker, an Options Member shall file an application in writing on such forms as the Exchange may prescribe. Applications shall be reviewed by the Exchange, which shall consider an applicant's market making ability and such other factors as the Exchange deems appropriate. After

reviewing the application, the Exchange shall either approve or disapprove the applicant's registration as a Specialist or as a Registered Market Maker as described in Rules 23.130(b)(1) and 23.120(a), respectively. Once approved, a Specialist may apply to the Exchange to be considered for appointment as a Specialist in one or more options classes traded on the Exchange. The appointment of a Specialist shall be in accordance with Rule 23.130(g).

- (c) The registration of any Options Member as a Specialist or as a Registered Market Maker may be suspended or terminated by the Exchange upon a determination that such Options Member has failed to properly perform as a Market Maker.
- (d) These Rules place no limit on the number of qualifying entities that may become Market Makers. However, based on system constraints, capacity restrictions or other factors relevant to protecting the integrity of the System, the Exchange may limit access to the System, for a period to be determined in the Exchange's discretion, pending any action required to address the issue of concern to the Exchange. To the extent that the Exchange places permanent limitations on access to the System on any Options Member(s), such limits shall be objectively determined and submitted to the Commission for approval pursuant to a rule change filing under Section 19(b) of the Exchange Act.

Rule 23.110 Registered Options Traders

- (a) Market Maker quotations and orders may be submitted to the System only by Registered Options Traders ("ROT"). An ROT is permitted to enter quotes and orders only for the account of the Market Maker with which he is associated.
- (b) Registration of Registered Options Traders. The Exchange may, upon receiving an application in writing from a Market Maker on a form prescribed by the Exchange, approve a person as an ROT.
 - (1) ROTs may be: (i) individual Options Members registered with the Exchange as Market Makers, or (ii) officers, partners, employees or associated persons of Options Members that are registered with the Exchange as Market Makers.
 - (2) To be approved as an ROT, a person must demonstrate knowledge of the Exchange Rules by passing an examination prescribed by the Exchange in accordance with Rule 2.160(i).
 - (3) The Exchange may require a Market Maker to provide additional information the Exchange considers necessary to establish whether a person should be approved.
 - (4) A person may be conditionally approved as an ROT subject to any conditions the Regulatory Function considers appropriate in the interests of maintaining a fair and orderly market.
- (c) Suspension or Withdrawal of Registration.
 - (1) The Exchange may suspend or withdraw the registration previously given to a person to be an ROT if the Exchange determines that:
 - (A) the person has caused the Market Maker to fail to comply with the Exchange Rules;
 - (B) the person is not properly performing the responsibilities of an ROT;
 - (C) the person has failed to meet the conditions set forth under paragraph (b) above; or
 - (D) the Exchange believes it is in the best interest of fair and orderly markets.
 - (2) If the Exchange suspends the registration of a person as an ROT, the Market Maker must not allow the person

to submit quotes and/or orders into the System.

- (3) The registration of an ROT will be withdrawn upon the written request of the Options Member for which the ROT is registered. Such written request shall be submitted on the form prescribed by the Exchange.

Rule 23.120 Registered Market Makers

(a) Appointment by the Exchange.

- (1) The Exchange shall appoint Registered Market Makers to one or more classes of options contracts traded on the Exchange. In making such appointments the Exchange shall consider:
- (A) the financial resources available to the Market Maker,
 - (B) the Market Maker's experience and expertise in market making or options trading,
 - (C) the preferences of the Market Maker to receive appointment(s) in specific options class(es), and
 - (D) the maintenance and enhancement of competition among Market Makers in each class of options contracts to which they are appointed.

(b) Allocation of Options Classes.

- (1) Allocation to Registered Market Makers.
- (A) The Exchange (1) will allocate options classes and make appointments of Registered Market Makers to those classes, and (2) upon prior written notice, may limit the number of Market Makers in a class of options contracts traded on the Exchange as set forth in Rule 23.120(c).

(c) Number of Registered Market Makers Quoting per Class.

- (1) There is no limit on the number of Options Members that may become Registered Market Makers unless the Exchange determines to impose a limit based on system constraints, capacity restrictions, or other factors relevant to protecting the integrity of the System. The Exchange will not impose any such limitations until it has submitted objective standards for imposing the limits to the SEC for its review and approval.

- (d) No appointment of a Registered Market Maker shall be without the Registered Market Maker's consent to such appointment, provided that refusal to accept an appointment may be deemed sufficient cause for termination or suspension of a Registered Market Maker's registration.

- (e) The Exchange may suspend or terminate any appointment of a Registered Market Maker under this Rule and may make additional appointments or change the options classes included in a Registered Market Maker's appointed classes whenever, in the Exchange's judgment, the interests of a fair and orderly market are best served by such action.

- (f) The Exchange shall periodically conduct an evaluation of Registered Market Makers to determine whether they have fulfilled performance standards relating to, among other things, quality of markets, competition among Registered Market Makers, observance of ethical standards, administrative factors, regulatory matters, and other such data as may be pertinent. Failure by a Registered Market Maker to meet minimum performance standards may result in, among other things:

- (1) suspension, termination or restriction of an appointment to one or more of the options classes within the Market Maker's appointed classes;
- (2) restriction of appointments to additional options classes in the Market Maker's appointed classes; or

(3) suspension, termination, or restriction of the Market Maker's registration.

• • • **Supplementary Material** • • •

.01 Registered Market Makers shall request appointments to (and relinquishment of appointments from) one or more classes of options contracts traded on the Exchange pursuant to Rule 23.120(a) via an Exchange approved electronic interface, which request must be submitted prior to 6:00 p.m. Eastern Time of the business day immediately preceding the next trading day. The Exchange approved electronic interface will also ensure that, before any appointment request (or relinquishment of an appointment) is approved, any limit on the number of Options Members that may become Market Makers established by Rule 23.100(d) has not been exceeded. Appointments (and relinquishment of appointments) shall become effective on the day after the request is submitted, provided that it has been approved. Approvals and denials of appointments (and relinquishment of appointments) shall be communicated by the Exchange in a form and manner prescribed by the Exchange.

Rule 23.130 Specialists

(a) General Provisions

- (1) **Specialist Defined.** A Specialist is an individual or entity that has been deemed qualified by the Exchange for the purpose of making transactions on the Exchange in accordance with the provisions of Rule 23.100. Each Specialist thereof must be registered with the Exchange as a Market Maker. Any Options Member registered as a Market Maker with the Exchange is eligible to be qualified as a Specialist.
- (2) **Eligible Issues.** A Specialist may be allocated any one or more of the options issues opened for trading at the Exchange subject to the concentration limits set forth in Rule 23.130(g)(1)(B).

(b) Qualification of Specialists.

- (1) **Qualification of Specialists.** The qualification of Specialists shall be conducted by the Exchange. The Specialist Qualification Process is as follows:
 - (A) Applications for qualification as a Specialist shall be general and shall not specify a particular options issue or issues. Applicants for qualification as a Specialist may present any matter they wish the Exchange to consider in conjunction with its decision. The Exchange may require that presentation to be solely or partially in writing, and may require the submission of additional information from an applicant.
 - (B) The Exchange may also specify one or more conditions on the applicant in respect to any representations made in the application process, including but not limited to representations regarding capital operations, personnel or technical resources.
- (2) **Disqualification of Specialists.**
 - (A) The Exchange may disqualify any Specialist due to a material financial, operational or personnel change warranting immediate action.
- (3) **Resignation of Specialists.**
 - (A) A Specialist or interim Specialist who fails to give a ten-day written notice of resignation to the Exchange may be subject to formal disciplinary action pursuant to IEX Rule Series 9.200.
- (4) **Interim Specialists.**

- (A) If a Specialist has been relieved of an appointment or resigns or if the allocation otherwise becomes vacant, the Exchange may designate an interim Specialist pending the conclusion of a new Specialist selection process. The designation of an interim Specialist is not a prejudgment of the new Specialist selection process.

(c) Obligations of Specialists

(1) Each Specialist must meet the following obligations:

- (A) Assure that disseminated market quotations are accurate;
- (B) Honor guaranteed markets and any better markets pledged during the allocation process;
- (C) Generate and automatically update two-sided market quotations with size in all appointed series in accordance with Rule 23.150(c);
- (D) Fulfill general Market Maker obligations under Rule 23.140;
- (E) With respect to trading as a Specialist, effect trades that have a high degree of correlation with the overall pattern of trading for each series in the options issues involved;
- (F) Maintain communications with member firms in order to respond to suggestions and complaints;
- (G) Respond to competition by offering competitive markets and competitively-priced services;
- (H) Maintain a cash or liquid asset position of at least \$1,000,000. In the event that two or more Specialists are associated with each other and deal for the same Specialist account, this requirement will apply to such Specialists collectively, rather than to each Specialist individually;
- (I) Fully satisfy conditions of appointments pursuant to Subsection (b)(1)(B) of this Rule; and
- (J) Promptly inform the Exchange of any material change in financial or operational condition or in personnel.

(d) Rights of Specialists:

An Options Member assigned Specialist status in an issue is entitled to all rights and privileges normally associated with the assumption of the Specialist obligations in that issue during the allocation period. However, Specialist status in a particular options issue is not attached in any way to the status of the Options Member. In addition, when an Options Member is allocated an issue, any individual who represents the Specialist organization waives all rights to such allocation in the event that such individual separates from the Options Member.

(e) Specialist Performance of Market Maker Functions.

Specialists must perform all obligations provided in Chapter 23 of these Rules.

(f) Evaluation of Specialist Performance.

- (1) The Exchange shall periodically evaluate Specialists to determine whether each has fulfilled performance standards relating to, among other things: 1) quality of markets, 2) the Exchange's market share, 3) observance of ethical standards, 4) administrative factors, 5) regulatory matters, and such other data as may be pertinent.
- (2) In addition to meeting certain performance standards as described above, the Exchange will also take into

consideration when evaluating a Specialist, the Specialist's compliance with any Market Maker obligations set forth in Exchange Rules, including, but not limited to, Rules 23.120, 23.140, and 23.150.

(3) A finding by the Exchange that a Specialist has failed to meet minimum performance standards may result in one or more of the following actions: 1) moratorium on the allocation of new options issues, 2) reallocation of existing options; and 3) other disciplinary actions as deemed appropriate under the rules of the Exchange.

(A) A failure to meet minimum performance standards by a Specialist may form the basis for the Exchange to take an adverse action (as defined in Rule 1.160(c)) against the Specialist. Any Specialist affected by a decision of the Exchange shall be informed in writing of the decision, which decision shall include the findings, conclusions, any remedial action to be taken under this rule and the basis for such actions. Specialists have the right to appeal the Exchange's decision pursuant to IEX Rule Series 9.500, which governs adverse actions.

(g) Allocation of Options Classes.

(1) Allocation to Specialists.

(A) The Exchange may appoint one (1) Specialist to each options class traded on the Exchange.

(B) The allocation of options classes to Specialists will be effected by the Exchange. The Exchange will select that candidate who appears best able to perform the functions of a Specialist in the designated options classes. Factors to be considered for selection include, but are not limited to, the following: experience with trading the options issue; adequacy of capital; willingness to promote the Exchange as a marketplace; operational capacity; support personnel; history of adherence to Exchange rules and securities laws; evaluations made pursuant to Rule 23.130(f) and any other criteria specified in this Rule. The Exchange will also consider the number and quality of issues that have been allocated, reallocated or transferred to a Specialist.

(C) Transfer of Issues. Issues allocated to a Specialist may not be transferred to another firm without the express approval of the Exchange.

(2) Reallocation:

(A) Reallocation in General. The Exchange may, at its discretion, reassign an options issue or issues to a new or existing Specialist or designate such issue as a non-Specialist issue under any of the following circumstances:

(i) If upon review, the Exchange determines, in its discretion, that a Specialist has not met minimum performance standards pursuant to Rule 23.130(e); of these Rules or has not met any condition of such Specialist's appointment under Rule 23.130(b)(1); or

(ii) If a Specialist incurs a material financial, operational or personnel change; or

(iii) If for any reason the Specialist is no longer eligible for appointment, resigns or fails to perform any duties required to be performed under this Rule. The incumbent Specialist shall remain eligible to apply for the subject allocation in the new selection process.

(B) Review of Exchange Decisions:

(i) Any decision of the Exchange with respect to the qualification or disqualification of a Specialist pursuant to Rule 23.130(b)(2) or with respect to the allocation or reallocation of an issue may be deemed an adverse action by Exchange. The Specialist shall have the right to appeal the

Exchange's adverse action pursuant to IEX Rule Series 9.500, which governs adverse actions.

• • • **Supplementary Material** • • •

.01 Specialists shall request appointments to (and relinquishment of appointments from) one or more classes of options contracts traded on the Exchange pursuant to Rule 23.130(b) via an Exchange approved electronic interface, which request must be submitted prior to 6:00 p.m. Eastern Time of the business day immediately preceding the next trading day. The Exchange approved electronic interface will also ensure that, before any appointment request (or relinquishment of an appointment) is approved, any limit on the number of Options Members that may become Market Makers established by Rule 23.100(d) has not been exceeded. Appointments (and relinquishment of appointments) shall become effective on the day after the request is submitted, provided that it has been approved. Approvals and denials of appointments (and relinquishment of appointments) shall be communicated by the Exchange in a form and manner prescribed by the Exchange.

Rule 23.140 Obligations of Market Makers

- (a) General. Transactions of a Market Maker should constitute a course of dealing reasonably calculated to contribute to the maintenance of a fair and orderly market, and Market Makers should not make bids or offers or enter into transactions that are inconsistent with such a course of dealings.
- (b) Appointment. With respect to each options class to which a Registered Market Maker is appointed under Rule 23.120 or a Specialist is appointed under Rule 23.130, the Market Maker has a continuous obligation to engage, to a reasonable degree under the existing circumstances, in dealings for his own account when there exists, or it is reasonably anticipated that there will exist, a lack of price continuity, a temporary disparity between the supply of and demand for a particular options contract, or a temporary distortion of the price relationships between options contracts of the same class. Without limiting the foregoing, a Market Maker is expected to perform the following activities in the course of maintaining a fair and orderly market:
- (1) To compete with other Market Makers to improve the market in all series of options classes to which the Market Maker is appointed.
 - (2) To make markets that, absent changed market conditions, will be honored for the number of contracts entered into the System in all series of options classes to which the Market Maker is appointed.
 - (3) To update market quotations in response to changed market conditions in all series of options classes to which the Market Maker is appointed.
 - (4)
 - (A) To price options contracts fairly by, among other things, bidding and offering so as to create differences of no more than \$5 between the bid and offer ("bid/ask differentials") following the opening rotation in an equity options contract;
 - (B) The Exchange may establish differences other than the bid/ask differentials described in (A) above for one or more options series or classes.
 - (5) The bid/ask differentials stated in subparagraph (b)(4) of this Rule shall not apply to in-the-money options where the underlying security's market is wider than the differentials set forth above. For these options, the

bid/ask differential may be as wide as the quotation on the primary market of the underlying security.

- (c) Specialists. In addition to the obligations contained in this Rule for Market Makers generally, for options classes to which a Market Maker is an appointed Specialist, it shall have the responsibility to submit valid width quotes in each series not later than one minute following the dissemination of a quote or trade by the market for the underlying security.
- (d) Classes of Options To Which Not Appointed. With respect to classes of options to which a Market Maker is not appointed, it should not engage in transactions for an account in which it has an interest that are disproportionate in relation to, or in derogation of, the performance of his obligations as specified in paragraph (b) above with respect to those classes of options to which it is appointed. Market Makers should not:
 - (1) Individually or as a group, intentionally or unintentionally, dominate the market in options contracts of a particular class, or
 - (2) Effect purchases or sales on the Exchange except in a reasonable and orderly manner.

• • • **Supplementary Material** • • •

.01 It shall not be considered a violation of Rule 23.140(c) if the Specialist assigned in a particular equity options class has not submitted valid width quotes in any series of such class within one minute following the dissemination of a quote or trade by the market for the underlying security if the affected series of such class have opened for trading within such one minute period, unless the Specialist demonstrates a pattern or practice of not submitting valid width quotes within one minute following the dissemination of a quote or trade by the market for the underlying security, irrespective of whether the series have opened for trading.

Rule 23.150 Market Maker Quotations

- (a) Options Classes. A quotation may only be entered by a Market Maker, and only in the options classes to which the Registered Market Maker is appointed under Rule 23.120 or the Specialist is appointed under Rule 23.130.
- (b) Price and Size Associated with Quotes. A Market Maker's bid and offer for a series of options contracts shall state a price accompanied by the number of contracts at that price the Market Maker is willing to buy or sell upon receipt of an order or upon interaction with a quotation entered by another Market Maker on the Exchange.
 - (1) Price. The price of Market Maker quotes shall be in the minimum trading increments applicable to the security under Rule 22.140.
 - (2) Size. The initial size of Market Maker incoming quotes must be for the minimum number of contracts, which minimum number shall be at least one (1) contract. The minimum number of contracts will be determined by the Exchange on a class-by-class basis and announced to the Options Members through a circular.
- (c) Two-Sided Quotes. A Market Maker that enters a bid (offer) in an options series in an appointed class on the Exchange must enter an offer (bid) within the spread allowable under Rule 23.140(b)(4), to qualify for the requirements set forth in paragraph (e) below.
- (d) Firm Quotes.
 - (1) Market Maker bids and offers are firm for orders and Market Maker quotations both under this Rule and Rule 602 of Regulation NMS under the Exchange Act ("Rule 602 of Reg NMS") for the number of contracts specified according to the requirements of paragraph (b) above. Market Maker bids and offers are not firm

under this Rule and Rule 602 of Reg NMS if:

- (A) a System malfunction or other circumstance impairs the Exchange's ability to disseminate or update market quotes in a timely and accurate manner.
- (B) the level of trading activities or the existence of unusual market conditions is such that the Exchange is incapable of collecting, processing, and making available to quotation vendors the data for the option in a manner that accurately reflects the current state of the market on the Exchange, and as a result, the market in the option is declared to be "fast" pursuant to Rule 21.140.
- (C) during trading rotations; or
- (D) any of the circumstances provided in paragraph (c)(4) of Rule 602 of Reg NMS exist.

(e) Continuous Quotes. The following quoting requirements shall apply:

(1) Specialists.

- (A) A Specialist must provide continuous two-sided quotations throughout the trading day in its appointed issues for 90% of the time the Exchange is open for trading in each issue. Such quotations must meet the legal quote width requirements of Rule 23.140(b)(4). These obligations will apply to all of the Specialist's appointed issues collectively, rather than on an issue-by-issue basis. Compliance with this obligation will be determined on a monthly basis.
- (B) If a technical failure or limitation of a system of the Exchange prevents a Specialist from maintaining, or prevents a Specialist from communicating to the Exchange, timely and accurate electronic quotes in an issue, the duration of such failure will not be considered in determining whether the Specialist has satisfied the 90% quoting standard with respect to that option issue. The Exchange may consider other exceptions to this continuous electronic quote obligation based on demonstrated legal or regulatory requirements or other mitigating circumstances.

(2) Registered Market Makers.

- (A) A Registered Market Maker must provide continuous two-sided quotations throughout the trading day in its appointed issues for 60% of the time the Exchange is open for trading in each issue. Such quotations must meet the legal quote width requirements of Rule 23.140(b)(4). These obligations will apply to all of the Registered Market Maker's appointed issues collectively, rather than on an issue-by-issue basis. Compliance with this obligation will be determined on a monthly basis.
- (B) If a technical failure or limitation of a system of the Exchange prevents a Registered Market Maker from maintaining, or prevents a Registered Market Maker from communicating to the Exchange, timely and accurate electronic quotes in an issue, the duration of such failure shall not be considered in determining whether the Registered Market Maker has satisfied the 60% quoting standard with respect to that option issue. The Exchange may consider other exceptions to this continuous electronic quote obligation based on demonstrated legal or regulatory requirements or other mitigating circumstances.

(3) Directed Market Makers

- (A) A Directed Market Maker (DMM), as defined in Rule 17.100, must provide continuous two-sided quotations throughout the trading day in issues for which it receives Directed Orders for 90% of the time the Exchange is open for trading in each issue. Such quotations must meet the legal quote width requirements of Rule 23.140(b)(4). These obligations will apply collectively to all series in all of the

issues for which the DMM receives Directed Orders, rather than on an issue-by-issue basis. Compliance with this obligation will be determined on a monthly basis.

(B) If a technical failure or limitation of a system of the Exchange prevents a DMM from maintaining, or prevents a DMM from communicating to the Exchange, timely and accurate electronic quotes in an issue, the duration of such failure shall not be considered in determining whether the DMM has satisfied the 90% quoting standard with respect to that option issue. The Exchange may consider other exceptions to this continuous electronic quote obligation based on demonstrated legal or regulatory requirements or other mitigating circumstances.

(4) A Market Maker may be called upon by an IEX Official to submit a single quote or maintain continuous quotes in one or more series of an option issue within its appointment whenever, in the judgment of such IEX Official, it is necessary to do so in the interest of maintaining fair and orderly markets.

• • • Supplementary Material • • •

.01 The obligations set forth in paragraph (e) of this Rule do not apply to Market Makers with respect to adjusted option series, to series of options on cash equity securities with a time to expiration of nine months or greater. For purposes of this Rule, an adjusted option series is a series of options wherein, as a result of a corporate action by the issuer of the underlying security, one option contract in the series represents the delivery of other than 100 shares of underlying stock or Exchange-Traded Fund Shares.

(f) Temporary Withdrawal of Quotations by the Specialist. A Specialist may apply to the Exchange to withdraw temporarily from its Specialist status in an options class. The Specialist must base its request on demonstrated legal or regulatory requirements that necessitate its temporary withdrawal, or provide the Exchange an opinion of counsel certifying that such legal or regulatory basis exists. The Exchange will act promptly on such a request, and, if the request is granted, the Exchange will temporarily reassign the options class to another Specialist.

(g) Options Classes Other Than Those to Which Appointed.

(1) A Market Maker is considered an OEF under these Rules in all classes in which the Market Maker has no appointment.

(2) A Market Maker may enter all other order types permitted to be entered by non-Customer participants under the Exchange Rules when the Market Maker is seeking to buy or sell options in all classes in which the Market Maker has no appointment.

(3) The total number of contracts a Market Maker (both Registered Market Makers and Specialists) may execute in classes in which it has no appointment may not exceed twenty-five percent (25%) of the total number of all contracts the Market Maker executes on the Exchange in any calendar quarter.

(h) If a Market Maker has designated that its quotations shall be subject to Rule 23.150(h) it shall be subject to cancellation or repricing, as selected by the Market Maker, under the following circumstances:

(1) Options Risk Parameter. The Exchange utilizes real time relative quoting activity of Protected Quotations in securities underlying each listed options series and a proprietary mathematical calculation (the “quote instability calculation”) to assess the probability of an imminent change to the current best Protected Bid of the Away Markets (as defined in IEX Rule 22.160(a)(7)) to a lower price or imminent change to the current best Protected Offer of the Away Markets to a higher price for a particular listed options series. The

Exchange will determine on a class-by-class basis whether to apply the Options Risk Parameter, which determination will be communicated by Trading Alert.

- (A) For each options series, the System maintains a real-time estimate of the sensitivity of the series to changes in the midpoint of the best Protected Bid and best Protected Offer of the Signal Exchanges (as defined in IEX Rule 11.190(g)) for the underlying security (based on a Black-Scholes assessment). When there is an update to the best Protected Bid or best Protected Offer of the Signal Exchanges for the underlying security, the System uses the formula described in Supplementary Material .04 to this subparagraph to calculate whether to generate a quote instability determination for each options series overlying the underlying security. The System independently assesses whether to generate a quote instability determination affecting resting bids and offers for each options series.
- (B) A quote instability determination may only be generated at least 200 microseconds after a prior quote instability determination for a particular options series on the same side of the market (i.e., affecting resting bids or offers). A quote instability determination is generated by the System when, pursuant to the quote instability predefined calculation, the quote instability factor is greater than the defined quote instability threshold and the option series delta absolute value is within a specified range, as set forth in Supplementary Material 0.4.
- (C) If a quote instability determination is generated for an options series being quoted by a Market Maker and the quote is above (below) the price level of the quote instability determination, the quote will be cancelled or repriced to the price level of the quote instability determination, as selected by the Market Maker.

• • • Supplementary Material • • •

.01 Once an NMS Stock has entered either a Limit or Straddle State, the Exchange shall relieve Specialists and Registered Market Makers from the following quotation obligations for options on the affected underlying NMS Stock:

- (1) the minimum size requirement set forth in Options Rule 23.150(b)(2);
- (2) the requirement to submit two-sided quotes set forth in Options Rule 23.150(c); and
- (3) the continuous quoting obligation set forth in Options Rule 23.150(e).

The relief described in this Supplementary Material .01 shall terminate when the Limit or Straddle State no longer exists in the affected NMS Stock.

.02 The Exchange may consider other exceptions to Market Maker quotation obligations based on demonstrated legal or regulatory requirements or other mitigating circumstances.

.03 The obligations set forth in Rule 23.150(e)(1) and (2) do not apply to options series with a time to expiration of nine (9) months or greater, nor to intra-day add-on series. That limitation, however, does not prevent Specialists or Registered Market Makers from quoting such long-term and intra-day add-on options series and does not prevent Specialists or Registered Market Makers from receiving Directed Orders and the participation entitlement in such series in accordance with the provisions set forth in Rule 22.170(f)(2).

.04 Quote instability calculation.

- (1) Sensitivity Parameter. The Exchange's proprietary quote instability calculation used to determine the sensitivity parameter for an options series is defined by the following formula that utilizes the variables defined below:
 - (a) underlying_price: midpoint of the best Protected Bid and best Protected Offer of the Signal Exchanges for the

underlying security

- (b) *underlying_price_lagged*: midpoint of the best Protected Bid and best Protected Offer of the Signal Exchanges for the underlying security *U_TIME_WINDOW* milliseconds prior OR *U_UPDATE_WINDOW* updates ago, whichever is more recent.
- (c) *U_TIME_WINDOW* : 20
- (d) *U_UPDATE_WINDOW* : 100
- (e) *underlying_change*: *underlying_price* - *underlying_price_lagged*
- (f) *underlying_change_down*: *underlying_change* if negative, otherwise 0
- (g) *underlying_change_up*: *underlying_change* if positive, otherwise 0
- (h) *strike_price*: strike price of the options series
- (i) *contract*: options series is a Call or Put
- (j) *time_to_expiry*: fraction of regular market hours left in trading day plus dates til expiry for the instrument, annualized (divided by 365), with a minimum value of *TTE_MIN* := 0.00005
- (k) *implied_volatility*: function of *strike_price*, *time_to_expiry*, *contract*, *underlying_price*, and price of the options series. See Supplementary Material .05.
- (l) *delta_intermediate*:

$$\frac{\ln\left(\frac{\text{underlying_price}}{\text{strike_price}}\right) + \frac{\text{time_to_expiry} * \text{implied_volatility}^2}{2}}{\text{implied_volatility} * \sqrt{\text{time_to_expiry}}}$$

- (m) *delta_call*: *cdf_approximation(delta_intermediate)*
- (n) *cdf_approximation(x)*:= 1 / (1 + exp(-1.65451*x))
- (o) *delta_put*: *delta_call* - 1
- (p) *delta_absolute_value*: if *contract* = Call, *delta_call*, else |*delta_put*|
- (q) *Delta Bound Band*: To be periodically determined by the Exchange at or within a range of 0 - 1. The current *Delta Bound Band* is 0 - 1. If the Exchange determines to change the *Delta Bound Band*, based on its assessment of relevant factors that would optimize application of the ORP, it will submit a rule filing pursuant to Rule 19b-4(f) under the Exchange Act specifying a new *Delta Bound Band*.
- (r) *instrument_PBB/PBO_lagged*: value of *PBB/PBO* for the instrument *U_TIME_WINDOW* milliseconds prior or *U_UPDATE_WINDOW* updates ago, whichever is more recent.

(2) Upon an update to the best Protected Bid or best Protected Offer of the Signal Exchanges for the underlying security, the System performs the following calculations:

- (a) *quote_instability_factor_up*: if *contract* = Call, *delta_call* * *underlying_change_up/instrument_PBO_lagged*, else, *delta_put* * *underlying_change_down/instrument_PBO_lagged*
- (b) *quote_instability_factor_down*: if *contract* = Call, -1**delta_call* * *underlying_change_down/instrument_PBB_lagged*, else, -1**delta_put* * *underlying_change_up/instrument_PBB_lagged*
- (c) Model will generate a quote instability determination "up" at a price level equal to:
*instrument_PBO_lagged**(1+*quote_instability_factor_up*), rounded to the nearest MPV, if *quote_instability_factor_up* > *Quote Instability Threshold* and *delta_absolute_value* is within *Delta Bound Band*

- (d) Model will generate a quote instability determination “down” at a price level equal to:

$$\text{instrument_PBB_lagged} * (1 - \text{quote_instability_factor_down})$$
rounded to the nearest MPV, if

$$\text{quote_instability_factor_down} > \text{Quote Instability Threshold}$$
and $\text{delta_absolute_value}$ is within Delta Bound Band
- (e) Quote Instability Threshold: To be periodically determined by the Exchange within a range of 0% – 100%, reflecting the difference between the quote instability determination price level and the then-current price of the option as a percent of the then-current price of the option. The current Quote Instability Threshold is 0.1%. If the Exchange determines to change the Quote Instability Threshold, based on its assessment of relevant factors that would optimize application of the ORP, it will submit a rule filing pursuant to Rule 19b-4(f) under the Exchange Act specifying a new Quote Instability Threshold.

.05 Calculation of implied_volatility:

The Exchange will compute a value for implied_volatility that is shared across all options series with the same underlying whenever it receives an update to the best Protected Bid or best Protected Offer of the Signal Exchanges for the underlying security. Upon the first such update of each half-hour of System operation, the System will compute the following variables:

- (a) $\text{vol_reference_instrument}$: Call instrument with earliest expiration date from the current date with closest strike_price to underlying_mid without exceeding underlying_mid
- (b) ref_mid : midpoint of the best Protected Bid and best Protected Offer of the Away Markets for the $\text{vol_reference_instrument}$ after it is identified
- (c) $\text{ref_time_to_expiry}$: fraction of regular market hours left in trading day plus dates til expiry for $\text{vol_reference_instrument}$, annualized (divided by 365), with a minimum value of TTE_MIN

From these variables and the value of underlying_price defined in Supplementary Material .04 (1)(a) above, the System will compute implied_volatility as follows:

$$\text{implied_volatility} := \text{ref_mid} / (0.4 * \text{underlying_price} * \text{sqrt}(\text{ref_time_to_expiry}))$$

The Exchange may determine to update its implied volatility computation more frequently than each half-hour of System operation, based on its assessment of relevant factors that would optimize application of the ORP, it will submit a rule filing pursuant to Rule 19b-4(f) under the Exchange Act specifying the new timing for implied volatility computation.

(Amended by SR-LEX-2026-28 eff. Aug. 13, 2026.)

Rule 23.160. Securities Accounts and Orders of Market Makers

- (a) Identification of Accounts. In a manner prescribed by the Exchange, each Market Maker shall file with the Exchange and keep current a list identifying all accounts for stock, options and related securities trading in which the Market Maker may, directly or indirectly, engage in trading activities or over which it exercises investment discretion. No Market Maker shall engage in stock, options or related securities trading in an account which has not been reported pursuant to this Rule.
- (b) Reports of Orders. Each Market Maker shall, upon request and in the form prescribed by the Exchange, report to the Exchange every order entered by the Market Maker for the purchase or sale of (1) a security underlying options traded on IEX Options, or (2) a security convertible into or exchangeable for such underlying security, as well as opening and closing positions in all such securities held in each account reported pursuant to paragraph (a) of this Rule. The report pertaining to orders must include the terms of each order, identification of the brokerage firms

through which the orders were entered, the times of entry or cancellation, the times report of execution were received and, if all or part of the order was executed, the quantity and execution price.

(c) Joint Accounts. No Market Maker shall, directly or indirectly, hold any interest or participate in any joint account for buying or selling any options contract unless each participant in such joint account is an Options Member and unless such account is reported to, and not disapproved by, the Exchange. Such reports in a form prescribed by the Exchange shall be filed with the Exchange before any transaction is effected on IEX Options for such joint account. A participant in a joint account must:

- (1) Be either a Market Maker or a Clearing Member that carries the joint account.
- (2) File and keep current a completed application on such form as is prescribed by the Exchange.
- (3) Be jointly and severally responsible for assuring that the account complies with all Exchange Rules.
- (4) Not be a Market Maker registered to the same options classes to which the joint account holder is also registered as a Market Maker.

• • • Supplementary Material • • •

.01 Reports of accounts and transactions required to be filed with IEX Options pursuant to this Rule relate only to accounts in which a Market Maker, as an individual, directly or indirectly controls trading activities or has a direct interest in the profits or losses of such account. Such reports would be required for accounts over which a Market Maker exercises investment discretion as well as a Market Maker's proprietary accounts.

Rule 23.170. Letters of Guarantee

- (a) Required of Each Options Member. No Options Member shall make any transactions on IEX Options unless a Letter of Guarantee has been issued for such Options Member by a Clearing Member and filed with the Exchange, and unless such Letter of Guarantee has not been revoked pursuant to paragraph (c) of this Rule.
- (b) Terms of Letter of Guarantee. A Letter of Guarantee shall provide that the issuing Clearing Member accepts financial responsibilities for all IEX Options Transactions made by the guaranteed Options Member.
- (c) Revocation of Letter of Guarantee. A Letter of Guarantee filed with the Exchange shall remain in effect until a written notice of revocation has been filed with the Exchange by the Guarantor Clearing Member. A revocation shall in no way relieve a Clearing Member of responsibility for transactions guaranteed prior to the effective date of such revocation.

Rule 23.180. Financial Requirements for Market Makers

- (a) Each Market Maker shall maintain (i) net liquidating equity in its Market Maker account of not less than \$200,000, and in conformity with such guidelines as the Exchange may establish from time to time, and (ii) net capital sufficient to comply with the requirements of Exchange Act Rule 15c3-1. Each Market Maker which is a Clearing Member shall also maintain net capital sufficient to comply with the requirements of the Clearing Corporation. This equity requirement, as well as all other provisions of the section (including capital maintenance requirements), applies to each Market Maker account, without regard to the number of Market Maker accounts per firm. The term "net liquidating equity" means the sum of positive cash balances and long securities positions less negative cash

balances and short securities positions.

- (b) Each Market Maker that makes an arrangement to finance his transactions as a Market Maker must identify in writing to the Exchange the source of the financing and its terms. The Exchange must be informed immediately of the intention of any party to terminate or change any such arrangement.

Rule 23.190. Mass Cancellation of Trading Interest

A User may simultaneously cancel or remove all or a subset of its bids, offers, and orders in all series of options or in all options for a specified underlying security by requesting the Exchange to effect such cancellation. A User may also request that the Exchange block all or a subset of its new inbound bids, offers, and orders in all series of options or in all options for a specified underlying security. The block will remain in effect until the User requests the Exchange remove the block.

Rule 23.200. Order Exposure Requirements

With respect to orders routed to IEX Options, Options Members may not execute as principal orders they represent as agent unless (a) agency orders are first exposed on IEX Options for at least one (1) second or (b) the Options Member has been bidding or offering on IEX Options for at least one (1) second prior to receiving an agency order that is executable against such bid or offer.

• • • Supplementary Material • • •

.01 This Rule prevents Options Members from executing agency orders to increase its economic gain from trading against the order without first giving other trading interest on IEX Options an opportunity to either trade with the agency order or to trade at the execution price when the Options Member was already bidding or offering on the book. However, the Exchange recognizes that it may be possible for an Options Member to establish a relationship with a customer or other person to deny agency orders the opportunity to interact on IEX Options and to realize similar economic benefits as it would achieve by executing agency orders as principal. It will be a violation of this Rule for an Options Member to be a party to any arrangement designed to circumvent this Rule by providing an opportunity for a customer to regularly execute against agency orders handled by the Options Member immediately upon their entry into IEX Options.

.02 It will be a violation of this Rule for an Options Member to cause the execution of an order it represents as agent on IEX Options against orders it solicited from Options Members and non-Options Member broker-dealers, whether such solicited orders are entered into IEX Options directly by the Options Member or by the solicited party (either directly or through another Options Member), if the Options Member fails to expose orders on IEX Options as required by this Rule.

.03 Prior to or after submitting an order to IEX Options, an Options Member cannot inform another Options Member or any other third party of any of the terms of the order.

CHAPTER 24. EXERCISES AND DELIVERIES

Rule 24.100. Exercise of Options Contracts

- (a) Subject to the restrictions set forth in Rule 19.180 (Exercise Limits) and to such restrictions as may be imposed

pursuant to Rule 19.210 (Other Restrictions on Options Transactions and Exercises) or pursuant to the Rules of the Clearing Corporation, an outstanding options contract may be exercised during the time period specified in the Rules of the Clearing Corporation by the tender to the Clearing Corporation of an exercise notice in accordance with the Rules of the Clearing Corporation. An exercise notice may be tendered to the Clearing Corporation only by the Clearing Member in the account of which such options contract is carried with the Clearing Corporation. Options Members may establish fixed procedures as to the latest time they will accept exercise instructions from customers.

(b) Special procedures apply to the exercise of equity options on the business day of their expiration, or, in the case of an options contract expiring on a day that is not a business day, on the last business day before their expiration ("expiring options"). Unless waived by the Clearing Corporation, expiring options are subject to the Exercise-by-Exception ("Ex-by-Ex") procedure under Clearing Corporation Rule 805. This Rule provides that, unless contrary instructions are given, options contracts that are in-the-money by specified amounts shall be automatically exercised. In addition to the Rules of the Clearing Corporation, the following IEX Options requirements apply with respect to expiring options. Options holders desiring to exercise or not exercise expiring options must either:

- (1) take no action and allow exercise determinations to be made in accordance with the Clearing Corporation's Ex-by-Ex procedure where applicable; or
- (2) submit a "Contrary Exercise Advice" (or "CEA") to IEX Options through the participant's clearing firm as specified in paragraph (d) below.

(c) Exercise cut-off time.

Options holders have until 5:30 p.m. Eastern Time on the business day immediately prior to the expiration date or, in the case of Quarterly Options Series, on the expiration date, to make a final decision to exercise or not exercise an expiring option. Options Members may not accept exercise instructions for customer or non-customer accounts after 5:30 p.m. Eastern Time.

(d) Submission of Contrary Exercise Advices. A Contrary Exercise Advice is a communication either: (A) to not exercise an option that would be automatically exercised under the Clearing Corporation's Ex-by-Ex procedure, or (B) to exercise an option that would not be automatically exercised under the Clearing Corporation's Ex-by-Ex procedure.

- (1) A Contrary Exercise Advice may be submitted to IEX Options by an Options Member by using the Clearing Corporation's ENCORE system (or successor system), a Contrary Exercise Advice form of any other national securities exchange of which the firm is a member and where the option is listed, or such other method as IEX Options may prescribe. A Contrary Exercise Advice may be canceled by filing an "Advice Cancel" with IEX Options or resubmitted at any time up to the submission cut-off times specified below.
- (2) Deadline for CEA Submission for Customer Accounts. An Options Member has until 7:30 p.m. Eastern Time to submit a Contrary Exercise Advice.
- (3) Deadline for CEA Submission for Non-Customer Accounts. An Options Member has until 7:30 p.m. Eastern Time to submit a Contrary Exercise Advice if such Options Member employs an electronic submission procedure with time stamp for the submission of exercise instructions by options holders. An Options Member

is required to manually submit a Contrary Exercise Advice by 5:30 p.m. Eastern Time for non-customer accounts if such Options Member does not employ an electronic submission procedure with time stamp for the submission of exercise instructions by options holders.

(e) If the Clearing Corporation has waived the Ex-by-Ex procedure for an options class, Options Members must either:

- (1) submit to IEX Options, a Contrary Exercise Advice, in a manner specified by IEX Options, within the time limits specified in paragraph (d) above if the holder intends to exercise the option; or
- (2) take no action and allow the option to expire without being exercised.

In cases where the Ex-by-Ex procedure has been waived, the Rules of the Clearing Corporation require that Options Members wishing to exercise such options must submit an affirmative Exercise Notice to the Clearing Corporation, whether or not a Contrary Exercise Advice has been filed with IEX Options.

(f) An Options Member that has accepted the responsibility to indicate final exercise decisions on behalf of another Options Member or non-Options Member broker-dealer shall take the necessary steps to ensure that such decisions are properly indicated to IEX Options. Such Options Member may establish a processing cut-off time prior to IEX Options' exercise cut-off time at which it will no longer accept final exercise decisions in expiring options from options holders for whom it indicates final exercise decisions. Each Options Member that indicates final exercise decisions through another broker-dealer is responsible for ensuring that final exercise decisions for all of its proprietary (including market maker) and public customer account positions are indicated in a timely manner to such broker-dealer.

(g) Notwithstanding the foregoing, Options Members may make final exercise decisions after the exercise cut-off time but prior to expiration without having submitted a Contrary Exercise Advice in the circumstances listed below. A memorandum setting forth the circumstance giving rise to instructions after the exercise cutoff time shall be maintained by the Options Member and a copy thereof shall be filed with IEX Options no later than 12:00 noon Eastern Time on the first business day following the respective expiration. An exercise decision after the exercise cut-off time may be made:

- (1) in order to remedy mistakes or errors made in good faith; or
- (2) where exceptional circumstances have restricted an options holder's ability to inform an Options Member of a decision regarding exercise, or an Options Member's ability to receive an options holder's decision by the cut-off time. The burden of establishing any of the above exceptions rests solely on the Options Member seeking to rely on such exceptions.

(h) In the event IEX Options provides advance notice on or before 5:30 p.m. Eastern Time on the business day immediately prior to the last business day before the expiration date indicating that a modified time for the close of trading in equity options on such last business day before expiration will occur, then the deadline to make a final decision to exercise or not exercise an expiring option shall be 1 hour 30 minutes following the time announced for the close of trading on that day instead of the 5:30 p.m. Eastern Time deadline found in paragraph (c) of this Rule. However, an Options Member has until 7:30 p.m. Eastern Time to deliver a Contrary Exercise Advice or Advice Cancel to IEX Options for customer accounts and non-customer accounts where such Options Member employs an electronic submission procedure with time stamp for the submission of exercise instructions. For non-customer

accounts, Options Members that do not employ an electronic procedure with time stamp for the submission of exercise instructions are required to deliver a Contrary Exercise Advice or Advice Cancel within 1 hour and 30 minutes following the time announced for the close of trading on that day instead of the 5:30 p.m. Eastern Time deadline found in paragraph (d) of this Rule.

(i) Modification of cut-off time.

(1) IEX Options may establish extended cut-off times for decision to exercise or not exercise an expiring option and for the submission of Contrary Exercise Advices on a case-by-case basis due to unusual circumstances. For purposes of this subparagraph (i)(1), an “unusual circumstance” includes, but is not limited to, increased market volatility; significant order imbalances; significant volume surges and/or systems capacity constraints; significant spreads between the bid and offer in underlying securities; internal system malfunctions affecting the ability to disseminate or update market bids and offers and/or execute or route orders; or other similar occurrences.

(2) IEX Options with at least one (1) business day prior advance notice, by 12:00 noon Eastern Time on such day, may establish a reduced cut-off time for the decision to exercise or not exercise an expiring option and for the submission of Contrary Exercise Advices on a case-by-case basis due to unusual circumstances; provided, however, that under no circumstances should the exercise cut-off time and the time for submission of a Contrary Exercise Advice be before the close of trading. For purposes of this subparagraph (i)(2), an “unusual circumstance” includes, but is not limited to, a significant news announcement concerning the underlying security of an options contract that is scheduled to be released just after the close on the business day immediately prior to expiration.

(j) Submitting or preparing an exercise instruction, contrary exercise advice or advice cancel after the applicable exercise cut-off time in any expiring options on the basis of material information released after the cut-off time is activity inconsistent with just and equitable principles of trade.

(k) The failure of any Options Member to follow the procedures in this Rule may result in the assessment of a fine, which may include but is not limited to disgorgement of potential economic gain obtained or loss avoided by the subject exercise, as determined by IEX Options.

• • • **Supplementary Material** • • •

.01 For purposes of this Rule, the terms “customer account” and “non-customer account” have the same meaning as defined in the Clearing Corporation By-Laws Article I(C)(28) and Article I(N)(2), respectively.

.02 Each Options Member shall prepare a memorandum of every exercise instruction received showing the time when such instruction was so received. Such memoranda shall be subject to the requirements of SEC Rule 17a-4(b).

.03 Each Options Member shall establish fixed procedures to ensure secure time stamps in connection with their electronic systems employed for the recording of submissions to exercise or not exercise expiring options.

.04 The filing of a Contrary Exercise Advice required by this Rule does not serve to substitute as the effective notice to the Clearing Corporation for the exercise or non-exercise of expiring options.

Rule 24.110. Allocation of Exercise Notices

- (a) Each Options Member shall establish fixed procedures for the allocation of exercise notices assigned in respect of a short position in such Options Member's customers' accounts. The allocation shall be on a "first in, first out," or automated random selection basis that has been approved by the Exchange, or on a manual random selection basis that has been specified by the Exchange. Each Options Member shall inform its customers in writing of the method it uses to allocate exercise notices to its customers' account, explaining its manner of operation and the consequences of that system.
- (b) Each Options Member shall report its proposed method of allocation to the Exchange and obtain the Exchange's prior approval thereof, and no Options Member shall change its method of allocation unless the change has been reported to and approved by the Exchange. The requirements of this paragraph shall not be applicable to allocation procedures submitted to and approved by another SRO having comparable standards pertaining to methods of allocation.
- (c) Each Options Member shall preserve for a three-year period sufficient work papers and other documentary materials relating to the allocation of exercise notices to establish the manner in which allocation of such exercise notices is in fact being accomplished.

Rule 24.120. Delivery and Payment

- (a) Delivery of the underlying security upon the exercise of an options contract, and payment of the aggregate exercise price in respect thereof, shall be in accordance with the Rules of the Clearing Corporation.
- (b) As promptly as possible after the exercise of an options contract by a customer, the Options Member shall require the customer to make full cash payment of the aggregate exercise price in the case of a call options contract, or to deposit the underlying security in the case of a put options contract, or to make the required margin deposit in respect thereof if the transaction is effected in a margin account, in accordance with Exchange Rules, the provisions of Chapter 29 and the applicable regulations of the Federal Reserve Board.
- (c) As promptly as practicable after the assignment to a customer of an exercise notice the Options Member shall require the customer to deposit the underlying security in the case of a call options contract if the underlying security is not carried in the customer's account, or to make full cash payment of the aggregate exercise price in the case of a put options contract, or in either case to deposit the required margin in respect thereof if the transaction is effected in a margin account, in accordance with Exchange Rules, the provisions of Chapter 29, and the applicable regulations of the Federal Reserve Board.

CHAPTER 25. RECORDS, REPORTS AND AUDITS

Rule 25.100. Maintenance, Retention and Furnishing of Books, Records and Other Information

- (a) Each Options Member shall make, keep current and preserve such books and records as the Exchange may prescribe pursuant to Exchange Rules and as may be prescribed by the Exchange Act and the rules and regulations thereunder.
- (b) No Options Member shall refuse to make available to the Exchange such books, records or other information as may

be called for under Exchange Rules or as may be requested in connection with an investigation by the Exchange.

- (c) All Options Members shall prepare and make available all books and records as required by Exchange Rules in English and U.S. dollars.

Rule 25.110. Reports of Uncovered Short Positions

- (a) Upon request of the Exchange, each Options Member shall submit a report of the total uncovered short positions in each options contract of a class dealt in on IEX Options showing:

- (1) positions carried by such Options Member for its own account; and
- (2) positions carried by such Options Member for the accounts of Customers, provided that the Options Member shall not report positions carried for the accounts of other Options Members where such other Options Members report the positions themselves.

- (b) Such report shall be submitted not later than the second business day following the date the request is made.

Rule 25.120. Financial Reports and Audits

Each Options Member shall submit to the Exchange answers to financial questionnaires, reports of income and expenses and additional financial information in the type, form, manner and time prescribed by the Exchange under Exchange Rules.

Rule 25.130. Automated Submission of Trade Data

- (a) An Options Member shall submit requested trade data elements, in such automated format as may be prescribed by the Exchange from time to time, in regard to a transaction(s) that is the subject of the particular request for information.

- (b) If the transaction was a proprietary transaction effected or caused to be effected by the Options Member for any account in which such Options Member, or any person associated with the Options Member, is directly or indirectly interested, the Options Member shall submit or cause to be submitted, any or all of the following information as requested by the Exchange:

- (1) Clearing house number or alpha symbol as used by the Options Member submitting the data;
- (2) Clearing house number(s) or alpha symbol(s) as may be used from time to time, of the Options Member(s) on the opposite side of the transaction;
- (3) Identifying symbol assigned to the security and where applicable for the options month and series symbols;
- (4) Date transaction was executed;
- (5) Number of options contracts for each specific transaction and whether each transaction was an opening or closing purchase or sale, as well as:
 - (A) the number of shares traded or held by accounts for which options data is submitted;
 - (B) where applicable, the number of shares for each specific transaction and whether each transaction was a purchase, sale or short sale;
- (6) Transaction price;
- (7) Account number; and

(8) Market center where transaction was executed.

(c) If the transaction was effected or caused to be effected by the Options Member for any Customer, such Options Member shall submit or cause to be submitted any or all the following information as requested by the Exchange:

(1) Data elements (1) through (8) of paragraph (b) above;

(2) If the transaction was effected for a Public Customer, customer name, address(es), branch office number, representative number, whether the order was discretionary, solicited or unsolicited, date the account was opened and employer name and tax identification number(s); and

(3) If the transaction was effected for an Options Member's broker-dealer customer, whether the broker-dealer was acting as a principal or agent on the transaction or transactions that are the subject of the Exchange's request.

(d) In addition to the above trade data elements, an Options Member shall submit such other information in such automated format as may be prescribed by the Exchange, as may from time to time be required.

(e) The Exchange may grant exceptions, in such cases and for such time periods as it deems appropriate, from the requirement that the data elements prescribed in paragraphs (b) and (c) above be submitted to the Exchange in an automated format.

Rule 25.140. Regulatory Cooperation

Eligibility to transact business with the public shall be based upon an OEF's meeting the general requirements set forth in this Chapter and the net capital requirements set forth in Exchange Act Rule 15c3-1 (Net Capital Requirements). Such approval may be withdrawn if any such requirements cease to be met.

Rule 27.110. Opening of Accounts

No OEF shall accept an order from a Public Customer to purchase or write an options contract unless the Public Customer's account has been approved for options transactions in accordance with the provisions of this Rule.

(b) Diligence in Opening Account.

In approving a Public Customer's account for options transactions, an OEF shall exercise due diligence to learn the essential facts as to the Public Customer and his investment objectives and financial situation, and shall make a record of such information, which shall be retained in accordance with SEC Rule 17a-4 under the Exchange Act. Based upon such information, the branch office manager or other Options Principal shall approve in writing the Public Customer's account for options transactions; provided, that if the branch office manager is not an Options Principal, his approval shall within a reasonable time be confirmed by an Options Principal.

Information provided shall be considered together with other information available in determining whether and to what extent to approve the account for options transactions.

(c) Verification of Public Customer Background and Financial Information.

The background and financial information upon which the account of every new Public Customer that is a natural person has been approved for options trading, including all of the information required in paragraph (b)(2) of this Rule, unless the information is included in the Public Customer's account agreement, shall be sent to the Public Customer for verification or correction within fifteen (15) days after the Public Customer's account has been approved for options transactions. A copy of the background and financial information on file with the OEF shall also be sent to the Public Customer for verification within fifteen (15) days after the OEF becomes aware of any material change in the Public Customer's financial situation. (b) Duty to Supervise - Non-Options Member Accounts.

Every OEF shall develop and implement a written program for the review of its non-Options Member Public Customer accounts and all orders in such accounts, insofar as such accounts and orders relate to options contracts.

(c) Duty to Supervise - Uncovered Short Options.

Every OEF shall develop and implement specific written procedures concerning the manner of supervision of Public Customer accounts maintaining uncovered short (written) options positions (which for the purposes of this Rule shall include combinations and any transactions that involve naked writing) and specifically providing for frequent supervisory review of such accounts.

(d) Maintenance of Public Customer Records.

Background and financial information of Public Customers who have been approved for options transactions shall be maintained at the principal supervisory office having jurisdiction over the office servicing a Public Customer's account, or shall have readily accessible and promptly retrievable, information to permit review of each Public Customer's options account on a timely basis to determine:

- (1) the compatibility of options transactions with investment objectives and with the types of transactions for which the account was approved;
- (2) the size and frequency of options transactions;
- (3) commission activity in the account;
- (4) profit or loss in the account;
- (5) undue concentration in any options class or classes; and
- (6) compliance with the provisions of Regulation T of the Federal Reserve Board.

Rule 27.130. Suitability of Recommendations

- (a) Every OEF, Options Principal or representative who recommends to a Public Customer the purchase or sale (writing) of any options contract shall have reasonable grounds for believing that the recommendation is not unsuitable for such Public Customer on the basis of the information furnished by such Public Customer after reasonable inquiry as to his investment objectives, financial situation and needs, and any other information known by such OEF, Options Principal or representative.
- (b) No OEF, Options Principal or representative shall recommend to a Public Customer an opening transaction in any options contract unless the person making the recommendation has a reasonable basis for believing at the time of making the recommendation that the Public Customer has such knowledge and experience in financial matters that he may reasonably be expected to be capable of evaluating the risks of the recommended transaction, and is financially able to bear the risks of the recommended position in the options contract.

Rule 27.140. Discretionary Accounts

(a) Authorization and Approval Required

No OEF shall exercise any discretionary power with respect to trading in options contracts in a Public Customer's account unless such Public Customer has given prior written authorization and the account has been accepted in writing by an Options Principal.

(1) Each participant shall designate specific Options Principals to review discretionary accounts. An Options Principal other than the Options Principal who accepted the account shall review the acceptance of each discretionary account to determine that the Options Principal accepting the account had a reasonable basis for believing that the Public Customer was able to understand and bear the risks of the strategies or transactions proposed, and the reviewing Options Principal shall maintain a record of the basis for his determination.

(2) Every discretionary order shall be identified as discretionary on the order at the time of its entry into IEX Options market. Discretionary accounts shall receive frequent appropriate supervisory review by an Options Principal who is not exercising the discretionary authority.

(b) Record of Transactions.

A record shall be made of every options transaction for an account with respect to which an OEF is vested with any discretionary power, such record to include the name of the Public Customer, options class and series, number of contracts, premium, and date and time when such transaction took place.

(c) Excessive Transactions Prohibited.

No OEF shall effect with or for any Public Customer's account with respect to which such Options Member is vested with any discretionary power any transactions of purchase or sale of options contracts that are excessive in size or frequency in view of the financial resources and character of such account.

(d) Options Programs.

Where the discretionary account utilizes options programs involving the systematic use of one or more options strategies, the Public Customer shall be furnished with a written explanation of the nature and risks of such programs.

(e) Discretion as to Price or Time Excepted.

This Rule shall not apply to discretion as to the price at which or the time when an order given by a customer for the purchase or sale of a definite number of options contracts in a specified security shall be executed, except that the authority to exercise time and price discretion will be considered to be in effect only until the end of the business day on which the customer granted such discretion, absent a specific, written contrary indication signed and dated by the customer. Any exercise of time and price discretion must be reflected on the order ticket.

(f) Any participant that does not utilize computerized surveillance tools for the frequent and appropriate review of discretionary account activity must establish and implement procedures to require Options Principal qualified individuals who have been designated to review discretionary accounts to approve and initial each discretionary order on the day entered.

Rule 27.150. Confirmation of Public Orders

- (a) Every OEF shall promptly furnish to each Public Customer a written confirmation of each transaction in options contracts that shows the underlying security, type of options, expiration month, exercise price, number of options contracts, premium, commissions, date of transaction and settlement date, and shall indicate whether the transaction is a purchase or sale and whether a principal or agency transaction.
- (b) The confirmation shall, by appropriate symbols, distinguish between IEX Options transactions and other transactions in options contracts though such confirmation does not need to specify the exchange or exchanges on which such options contracts were executed.

Rule 27.160. Statement of Accounts to Public Customers

- (a) Every OEF shall send to its Public Customers a statement of account showing security and money positions, entries, interest charges and any special charges that have been assessed against such account during the period covered by the statement; provided, however, that such charges need not be specifically delineated on the statement if they are otherwise accounted for on the statement and have been itemized on transaction confirmations.
- (b) With respect to options Public Customers having a general (margin) account, the Public Customer statement shall also provide the mark-to-market price and market value of each options position and other security position in the general (margin) account, the total market value of all positions in the account, the outstanding debit or credit balance in the account, and the general (margin) account equity. For purposes of this paragraph (b), general (margin) account equity shall be computed by subtracting the total of the short security values and any debit balance from the total of the long security values and any credit balance.
- (c) The Public Customer statement shall bear a legend stating that further information with respect to commissions and other charges related to the execution of listed options transactions has been included in confirmations of such transactions previously furnished to the Public Customer, and that such information will be made available to the Public Customer promptly upon request.
- (d) Public Customer statements shall bear a legend requesting that the Public Customer promptly advise the Options Member of any material change in the Public Customer's investment objectives or financial situation.
- (e) Public Customer statements shall be sent at least quarterly to all accounts having a money or a security position during the preceding quarter and at least monthly to all accounts having an entry during the preceding month.

Rule 27.170. Statements of Financial Condition to Public Customers

Every OEF shall send to each of its Public Customers statements of the Options Member's financial condition as required by SEC Rule 17a-5 under the Exchange Act.

Rule 27.180. Statement of Accounts to Public Customers

No OEF shall address any communications to a Public Customer in care of any other person unless either: (a) the Public Customer, within the preceding twelve (12) months, has instructed the OEF in writing to send communications in care of such other persons, or (b) duplicate copies are sent to the Public Customer at some other address designated in writing by him.

Rule 27.190. Delivery of Current Options Disclosure Documents and Prospectus

- (a) Options Disclosure Documents.

Every OEF shall deliver a current options disclosure document issued by the OCC to each customer at or prior to the time such customer's account is approved for options transactions. Where a customer is a broker or dealer, the OEF shall take reasonable steps to assure that such broker or dealer is furnished reasonable quantities of current options disclosure documents, as requested by the broker or dealer, to enable it to comply with the requirements of this Rule.

- (1) The term "current options disclosure document" means, as to any category of underlying security, the most recent edition of such document that meets the requirements of Rule 9b-1 under the Exchange Act.
- (2) A copy of each amendment to an options disclosure document shall be furnished to each customer who was previously furnished the options disclosure document to which the amendment pertains, not later than the time a confirmation of a transaction in the category of options to which the amendment pertains is delivered to such customer. The Exchange will advise OEFs when an options disclosure document is amended.

(b) The written description of risks required by this Rule shall be in a format prescribed by the Exchange or in a format developed by the Options Member, provided it contains substantially similar information as the prescribed Exchange format and has received prior written approval of the Exchange.

(c) Below is a sample risk description for use by OEFs to satisfy the requirements of paragraph (b) of this Rule:

Special Statement for Uncovered Options Writers.

There are special risks associated with uncovered options writing which expose the investor to potentially significant loss. Therefore, this type of strategy may not be suitable for all Public Customers approved for options transactions.

1. The potential loss of uncovered call writing is unlimited. The writer of an uncovered call is in an extremely risky position, and may incur large losses if the value of the underlying instrument increases above the exercise price.
2. As with writing uncovered calls, the risk of writing uncovered put options is substantial. The writer of an uncovered put option bears a risk of loss if the value of the underlying instrument declines below the exercise price. Such loss could be substantial if there is a significant decline in the value of the underlying instrument.
3. Uncovered options writing is thus suitable only for the knowledgeable investor who understands the risks, has the financial capacity and willingness to incur potentially substantial losses, and has sufficient liquid assets to meet applicable margin requirements. In this regard, if the value of the underlying instrument moves against an uncovered writer's options position, the investor's broker may request significant additional margin payments. If an investor does not make such margin payments, the broker may liquidate stock or options positions in the investor's account with little or no prior notice in accordance with the investor's margin agreement.
4. For combination writing, where the investor writes both a put and a call on the same underlying instrument, the potential risk is unlimited.
5. If a secondary market in options were to become unavailable, investors could not engage in closing transactions, and an options writer would remain obligated until expiration or assignment.
6. The writer of an American-Style option is subject to being assigned an exercise at any time after he has written the option until the option expires. By contrast, the writer of a European-style option is subject to exercise assignment only during the exercise period. NOTE: It is expected that you will read the booklet entitled CHARACTERISTICS AND RISKS OF STANDARDIZED OPTIONS available from your broker. In

particular, your attention is directed to the chapter entitled Risks of Buying and Writing Options. This statement is not intended to enumerate all of the risks entailed in writing uncovered options.

Rule 27.200 Restrictions on Pledge and Lending of Public Customers' Securities

- (a) No OEF shall lend, either to itself or to others, securities carried for the account of any Public Customer, unless such OEF shall first have obtained a separate written authorization from such Public Customer permitting the lending of the securities.
- (b) Regardless of any agreement between an OEF and a Public Customer authorizing the OEF to lend or pledge such securities, no OEF shall lend or pledge more of such securities than is fair and reasonable in view of the indebtedness of the Public Customer to such OEF, except such lending as may be specifically authorized under paragraph (c) of this Rule.
- (c) No OEF shall lend securities carried for the account of any Public Customer that have been fully paid for, or that are in excess of the amount that may be loaned in view of the indebtedness of the Public Customer, unless such OEF first obtains from such Public Customer a separate written authorization designating the particular securities to be loaned.
- (d) No OEF shall hold securities carried for the account of any Public Customer that have been fully paid for, or that are in excess of the amount that may be pledged in view of the indebtedness of the Public Customer, unless such securities are segregated and identified by a method that clearly indicates the interest of such Public Customer in those securities.

Rule 27.210 Transactions of Certain Public Customers

- (a) No OEF shall execute any transaction in securities or carry a position in any security in which:
 - (1) an officer or employee of the Exchange or any national securities exchange that is a participant of the Clearing Corporation, or an officer or employee of a corporation in which the Exchange, or such other exchange, owns the majority of the capital stock, is directly or indirectly interested, without the prior written consent of the Exchange; or
 - (2) a partner, officer, director, principal shareholder or employee of another OEF is directly or indirectly interested, without the consent of such other OEF.
- (b) Where the required consent has been granted, duplicate reports of the transaction and position shall promptly be sent to the Exchange or OEF, as the case may be.

Rule 27.220 Guarantees

No OEF shall guarantee a Public Customer against loss in his account or in any transaction effected with or for such Public Customer.

Rule 27.230 Profit Sharing

- (a) No OEF or person associated with an OEF shall share directly or indirectly in the profits or losses in any Public Customer's account, whether carried by such OEF or any other OEF unless the person associated with an OEF obtains prior written consent from the OEF employing such person and such OEF or person associated with an OEF obtains prior written consent from the Public Customer.

- (b) Where such consent is obtained, the OEF, person associated with an OEF or Options Principal shall share in the profits or losses in such account only in direct proportion to the financial contribution made to the account by such person.

Rule 27.240 Assuming Losses

No OEF shall assume for its own account any position established for a Public Customer in a security traded on the Exchange after a loss to the Public Customer has been established or ascertained, unless the position was created by the OEF's mistake or unless approval of the Exchange has first been obtained.

Rule 27.250 Communications with Public Customers

Options Members and associated persons of Options Members shall be bound to comply with the Communications with Public Customers rule of FINRA, as applicable, as though said rules were part of these Rules.

Rule 27.260 Public Customer Complaints

- (a) Every OEF conducting a non-Options Member Public Customer business shall make and keep current a separate central log, index or other file for all options-related complaints, through which these complaints can easily be identified and retrieved.
- (b) The term "options-related complaint" shall mean any written statement by a Public Customer or person acting on behalf of a Public Customer alleging a grievance arising out of or in connection with listed options.
- (c) The central file shall be located at the principal place of business of the Options Member or such other principal office as shall be designated by the OEF.
- (1) Each options-related complaint received by a branch office of an OEF shall be forwarded to the office in which the separate, central file is located not later than thirty (30) days after receipt by the branch office.
 - (2) A copy of every options-related complaint shall be maintained at the branch office that is the subject of a complaint.
- (d) At a minimum, the central file shall include:
- (1) identification of complainant;
 - (2) date complaint was received;
 - (3) identification of the representative servicing the account, if applicable;
 - (4) a general description of the subject of the complaint; and
 - (5) a record of what action, if any, has been taken by the Options Member with respect to the complaint.

.01 Notwithstanding the exceptions set forth above, in the event of a Crossed Market, unless an order is marked ISO, the Exchange will not execute any portion of a bid at a price more than the greater of 5 cents or 0.5 percent higher than the lowest Protected Offer or any portion of an offer that would execute at a price more than the greater of 5 cents or 0.5 percent lower than the highest Protected Bid. Upon instruction from a User, the Exchange will cancel any incoming order from such User in the event of a Crossed Market.

.02 To the extent an incoming order is executable because a Protected Bid is crossing a Protected Offer as set forth in paragraph (b)(3) of this Rule but such incoming order is eligible for routing and there is a Protected Bid or Protected Offer available at another options exchange that is better priced than the bid or offer against which the order would execute on the Exchange, the Exchange will first seek to route the order to such better priced quotation pursuant to Rule 22.180.
