

Avetta University

Elevating Safety and compliance across your supply chain

Avetta University is Avetta's learning platform designed to support health and safety programs, workforce readiness, and compliance across industries, regions, and job roles.

It provides clients, suppliers, and workers with access to a comprehensive and evolving library of standardized safety and compliance eTraining, along with centralized Avetta product training – all in one place.

A Comprehensive eTraining Library

Avetta University offers training across a broad range of workplace safety, operational risk, and compliance topics, including:

- Core workplace health and safety fundamentals
- High-risk activities and hazard awareness
- Emergency preparedness and response
- Chemical, electrical, and environmental safety
- Role-based and task-specific training
- Regionally relevant compliance topics
- Refresher and re-certification training

Training content is designed to support diverse industries and work environments

and is aligned with recognized health and safety and regulatory expectations. The library continues to evolve as risks, regulations, and customer needs change.

Centralized Avetta Product Training

Avetta University also serves as a centralized hub for Avetta product education, helping users better understand and use Avetta solutions, including:

- Analytics
- Connect
- Worker Management
- Workforce Management

Training resources include on-demand learning, videos, and user guides.

Why it Matters

- Supports consistent training across suppliers, contractors, and workers
- Helps organizations address common safety and compliance gaps
- Improves workforce preparedness and confidence
- Enables flexible, on-demand access to training

Avetta University helps organizations strengthen their safety culture and build confidence across the supply chain.
