Help the dinosaur find a waterfall.

If

1. If a dinosaur wanted to brush his teeth,
   How big would his toothbrush be?
   A regular one wouldn't do the job,
   He'd have to use a tree!

2. If a dinosaur wanted to take a bath,
   How much space would it take?
   A bathtub wouldn't work at all,
   He'd have to use a lake!

3. If a dinosaur wanted a shower instead,
   Would he find himself too tall?
   Not if he wandered through the land
   And found a waterfall!

4. If a dinosaur wanted to brush her curls,
   Could she find a brush somewhere?
   I suppose she could, but would she try?
   Dinosaurs don't have hair!
