

Peter Ray Homes

House and Land Packages

At Peter Ray Homes, we make building your dream home simple with our Turn-Key Packages. With just a 10% deposit upfront and the remaining balance due at settlement, you can enjoy a stress-free journey to a brand-new home that's fully completed and ready for you to move in.

Our plans are thoughtfully designed for each site, ensuring every home is practical and stylish.

Because Peter Ray Homes owns the sections we sell, there are no delays. This means your new home can get underway as soon as you're ready. Another advantage is that you can continue living comfortably in your current home during the build, using your savings or existing equity for the deposit. Then, when your new home is complete, you can time the sale and handover of your current property to perfectly align with moving into your brand-new home.

One deposit

After your initial deposit, no payment is required until completion, keeping everything simple and stress-free.

No hidden extras

Just move in and enjoy knowing everything has been planned, priced, and delivered with transparency from the start.

Stay in your current home

While we build there's no need to move twice or arrange temporary accommodation, making the transition smooth and convenient.

Designed and ready to go

On your chosen section - and not limited to ours. If you've already found a section you love, let us know and talk to us and we can tailor a Turn-Key package specifically to suit your site and vision.
