

European Society for the Study of Tourette Syndrome

ESSTS

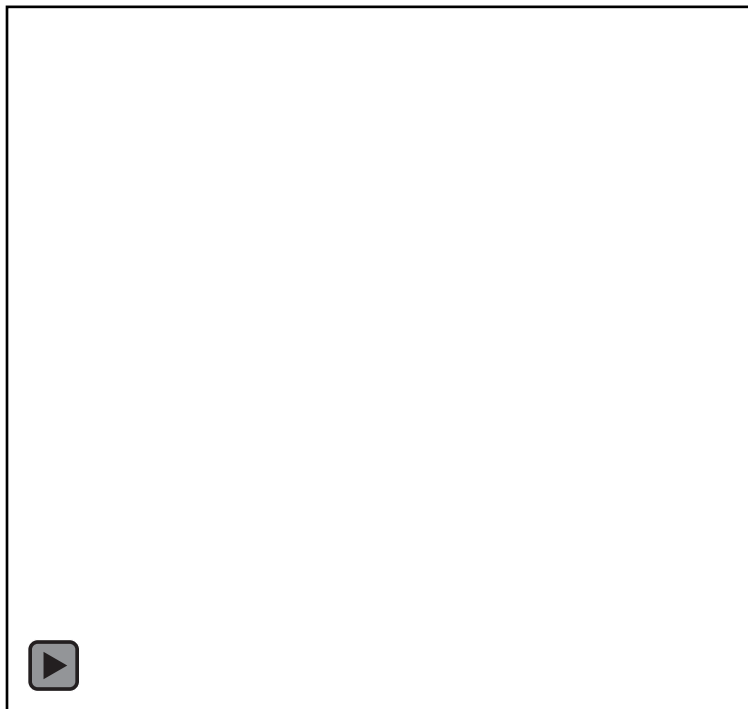

Copenhagen, DENMARK | June 13-15, 2018

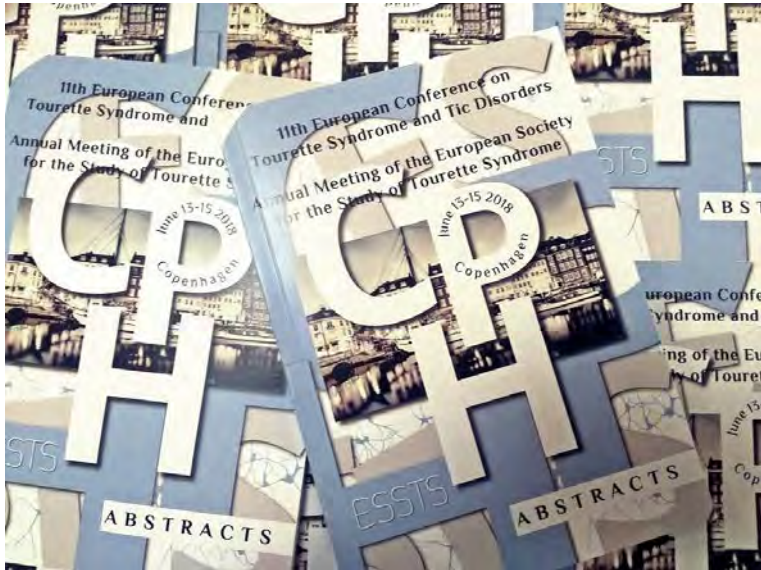

Lookbook

Everything started on June 13...

(Technically, much much earlier for the organisers... 😊)

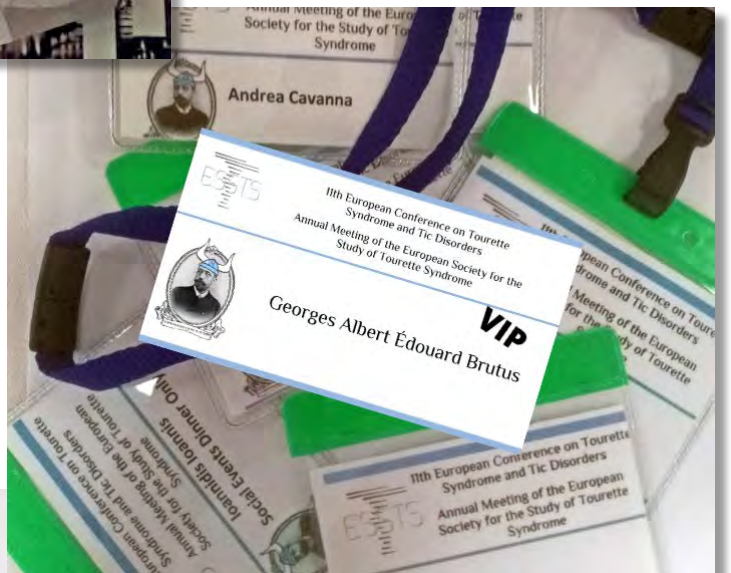

Prepping...

Abstract books 2018

Badging-up

Look who's talking!

Off we go!

Registration desk
😊

Our outstanding
support committee!

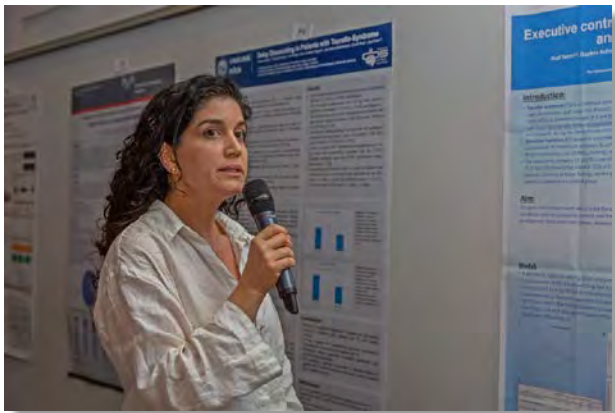

Time for the
certificates of
attendance

On stage / backstage

Fun facts I

(OR...how the Danish organisers made their colleagues, family and friends pitch-in! ☺)

1) Chef in the house; Susanne Muncks' son preparing the canal cruise snacks

2) Lone Aaslet's daughter babysat for the daughter of one of the English delegates.

3) Nurses & MDs at the neuropediatric department were dragged into the backyard for the entire week prior to the Conference and were forced to rehearse the morning & dinner songs during their lunchbreak....

Fun facts II

4) Nanette and multi-talented hubby composed the lyrics!

Morning song

Melody: Oh when the saints...

Oh, when the tics, are marching in
Oh, when the tics are marching in
We will learn how to treat them
And stop the tics from marching in

We'll use BT, and any drug
We'll use BT and any drug
Testing canna'diol
Yes, testing cannabidiol

Etiology, immunity
Etiology immunity
We will learn about genetics
And also auto-immunity

What about co - morbidity
What about comorbidity
We will find effective treatment
Get rid of co - morbidity

So now we start, the day begins
So now we start the day begins
We will learn and also have fun
Yes, let it start, the day begins

Dinner song

Melody: When you're happy and you know it...

When you're happy and you know it, clap your hands
When you're happy and you know it, clap your hands
When you're happy, and you know it, and you really want to show it
When you're happy and you know it, clap your hands

Now we're gathered here and we are having fun
In the long light evenings with the Danish sun
We are eating, we are drinking, we are singing, having fun
Now we're gathered here and we are having fun

We have learned a lot today, and now we're smart
About genetics, PANDAS, newest state of art
And tomorrow we'll learn more, and become a lot more smart
We will learn a lot and we will be so smart

We've been sailing in the evening on the boat
We've been running in the morning by the coast
Now we're here in Tivoli, we're as happy as can be
We're in Tivoli as happy as can be

When you're happy and you know it, clap your hands
When you're happy and you know it, clap your hands
When you're happy, and you know it, and you really want to show it
When you're happy and you know it, clap your hands

5) Judy Grejsen and Liselotte preparing at machine pace the registration paperwork as D-day approaches!

6) The morning running route is a part of the official annual «Women's run» in CPH. And despite attracting mostly female participation... ESSTS secretary Christos showed-up and made it to the finish line!

Thank you!
