

10th ESSTS meeting

Feedback of the Varese conference

TS school

- Tammy: great session. We should include more interactions overall in our talks.
- Translation process was not ideal.
- Online TS school in February: it should not be free. For members: free, otherwise: 40 euros for juniors, 80 euros for senior? Re-discuss.
 - o We should book a date
- Should we deliver a more comprehensive training, about ADHD, OCD etc. We can invite somebody who can teach and can give a talk.
- Invite speaker for both TS-school AND conference.
- Involve and attract sponsors for TS-school as well.

Behavioural therapy

- No specific feedback.
- Is someone interested in Greece to give that talk?
- Make BT workshops available as independent events, as previously with FR & IT sessions; for local professionals that won't be attending the entire conference.

TTAG meeting

- A shame that it is a parallel session (one comment): to think about.
- They want an hour to talk during the meeting. Ask Kinga? However, there are not so many sessions...
- Kirsten: wants to ask for videos of patients to get research going using AI
- Meeting with TTAG during the summer: date to be determined.

Underrepresented session

- Ask another country every year? (short session)

Sessions

- Kevin Black: great session -> let's ask him again, and ask him to do another session (Andreas' idea)?
- Clinical rounds:
 - o We should not have put abstracts in the cases; We should include cases with videos only.
 - o Only Tammy presenting? (+ one from the host country?)
 - o More time to discuss.
- Oral presentations: went fine
 - o Too long the first day: we should have it finished earlier during the day? End the day with a more dynamic session?

- Tammy: suggests only two oral rounds ?
- Posters: should we reorganize the session?
 - It depends on the space...
 - Christelle: it should be walking arounds, people standing by their posters at set times.
 - Nanette: it's a shame that people don't present their work.
 - Prices should be for juniors only, but seniors still can present OP.
- Session of Pilates by Tara? Anna will check if there is room
- Speed networking: reorganize. Experts located on the desk? pre-registration of juniors?
- Christelle: we should ask for conflicts of interest

Raising money: Natalia will create a spreadsheet, and everyone will be responsible for one or several ideas.

Anna's salary: +10k more, spread it in a way that will be adjusted.

Travel grants: *I missed the info.* (See below Anna's addendum)

Social event: *I missed the info.* (See below Anna's addendum)

ADDENDUM

Emalex: depending on their study results, propose a "Diamond" type of sponsorship, a level not available to other sponsors.

Include "satellite symposium" (leave it generic) in the list of the services offered per sponsorship level.

Travel grants: Mary will sponsor a 4th travel grant, in lieu of her membership.

Social event: Positive feedback. Important aspect/highlight of the conference.
