

ESSTS 11th meeting, minutes

Topics for next conference

- Focus on ADHD, session:
 1. overview ADHD in people with tics
 2. treatment
 3. Comorbid ADHD and tics in CBT
 4. sleep
 5. Physiopathology?
 - o Speaker from Israel?
 - o Samuel Cortese and Edmund Sonuga-Burke (UK) -> Tammy asked
 - o Isabel Heyman
 - o Kerstin von Plessen -> Nanette will ask
 - o Enigma: data on ADHD? Kirsten will look into it
 - o Let's ask each speaker to do two topics (otherwise, too expensive)
- Same session
 - o Christos Ganos about pathophysiology (co-author of last paper or overview)
 - o Overview on the role of iron in brain in TS/study on D1 receptor availability
 - o Third topic about animal models? DBS?
- Kevin Black: provisional tics (opening keynote) + usual overview talk -> Nanette will write to him
- The year after next year: Alexander Munchau about AI, what's the use in clinics? But for now, no results yet.
- Three speakers from abroad max.
- Underrepresented country
- Neurodiversity and TS, labels: to coach with TTAG; debate with Seonaid
- Christelle will draft a programme

Deadline for abstracts

- 1st Sunday of March 2025

Social event

- PLOES (within walking distance) vs BLE (spectacular, but no by walking distance)
- We could afford to rent a bus

Tourette day event in Athens: Saturday 23 November

- Introduce Tourette Greece to public, teachers, local professionals
- Free event

Date online TS school 5 February 16h

- Kirsten will come back to Christelle (regarding ski holidays!)

Poster for research about rage outburst

For lunch breaks: boxes are perfect (cheaper and we can take them to go out) for one day, and buffet for the other day.
