## Athens 2024 seminar: Introduction to Tourette syndrome (TS) for the general public

The [European Society for the Study of Tourette Syndrome](https://essts.org) (ESSTS) in collaboration with [Tics & Tourette Around the Globe](https://ttag.org) (TTAG) are organising a one-day seminar on Tourette syndrome in Athens, Greece.

We are aiming at disseminating specialised knowledge, addressing recurrent misconceptions, and accommodating concerns and queries from the audience in a comprehensive manner.

This event is dedicated to the newly founded patient association, **Tourette Greece**, which we are certain will mark a shift in raising awareness nationally, and we shall continue to support through our activities.

All the talks will be held in **English**. Greek-speaking collaborators will be present and eager to facilitate with the occasional linguistic difficulties.

### When

Saturday, [23 November](#) 2024, [10:00-17:00](#)

(See detailed programme below)

### Where

Philippos Hotel, Mitseon 3, Athens 117 42

### For whom

-General public: parents, family members and people touched by Tourette syndrome.

-Healthcare professionals: a round table for discussion with the speakers will be held in the afternoon.

### Registration

Attendance is **FREE** of charge.

Online registration is mandatory to secure your participation.

[Register](#)

### Room capacity

40 Attendees

**Kindly note:**

- This event is strictly available to **adults and minors aged 16-17** years old. Underaged attendees will not be permitted access.
- The seminar is offered for educational purposes; clinical consultations with any of the invited healthcare professionals will not be provided onsite.
- Only registered participants may attend the event. We will regrettably not be able to admit other non-registered visitors accompanying you.
