

training course  
on Tourette Syndrome

# TS-school Athens

Tuesday 20<sup>th</sup> May 2025, 1pm-6pm EEST

Eugenides Foundation

This is our 4<sup>th</sup> edition of the TS-school, a training course for TS beginners. The course is open to clinicians (physicians, psychologists, psychotherapists, nurses, medical students) and other professionals who are interested in the clinical aspects of TS.

The presentations and the Q&A session will be held in English.

The invited lecturers are world-renowned TS experts including board members of the ESSTS.

This year's TS-school features an additional talk with **emphasis on ADHD**.

All clinically relevant topics will be covered, including:

Diagnosis and definition of tic disorders

Nature of tics

Course of TS

Comorbidities

Focus on ADHD

Differential diagnoses

Assessments

Pathophysiology including genetics

Treatment

ESSTS

## Lecturers
