Life Enrichment – Peterson Meadows has an array of activities and events to engage our residents' talents and interests. In early 2015 the Wesley Willows Life Enrichment program was introduced at the Peterson Meadows campus make sure we are meeting the needs and desires of our residents. The dimensions of Life Enrichment we focus to are:

Spiritual – ensures that residents in all walks of life on the campus have opportunities for spiritual care and practices while respecting differences in philosophy and theology.

Physical – Fitness classes for body and mind help maintain physical endurance, balance, mobility, and mental acuity.

Intellectual – Opportunities abound for stimulation and growth.

Community – Support of residents and staff, individuals or groups, in giving back to the surrounding community.

Emotional – Creating a sense of community. Residents and Staff look out for each other and support each other.

Nutritional – Offering opportunities for residents to have delicious meals in a formal setting or in the comfort of their own home.

Social – to be happy through connections and to offer support for those who want to create their own fun.

These dimensions are areas of focus for staff, residents, families, and friends as we work together to provide meaningful opportunities for Inspiring Senior to Celebrate Life.
