

Reflection 1

- 1. What course would you like to revise, and why? Please include course number and title as well as share what program(s) it's included within.**

I am interested in revising EDA 325 which is a SPED course focused on providing students with an understanding of diversity beyond the disability and what this looks like across all phases of teaching and learning as a special educator. Our course is open to not only SPED majors, but students across the college in social work, counseling and general education (k-12, ESL, and literacy).

- 2. Which CRSE competencies are (or are likely to be upon your revision) addressed in this course? This can be changed later.**

COMPETENCY 1: Reflect on One's Cultural Lens
COMPETENCY 2: Identify, Deepen Understanding of, and Take Steps to Address Bias in the System
COMPETENCY 3: Design and Facilitate Culturally Relevant Learning that Brings Real World Experiences into Educational Spaces
COMPETENCY 4: Provide all Learners with Equitable and Differentiated Opportunities to Learn and Succeed
COMPETENCY 5: Promote Asset-based Perspectives about Differences
COMPETENCY 6: Collaborate with Families and Communities through Authentic Engagement Practices

- 3. What do you hope to get out of this process? What benefits do you anticipate?**

I hope to be able to revise some of my activities accordingly. I also hope to enhance my teaching and learning as an educator or color. More so, I want my students to grow in their competencies and awareness of self, others and special education students.

- 4. What challenges do you anticipate?**

Time will be a challenge and also developing activities that enable full application of the competencies. Additionally, many students have not engaged the CRSE competencies before and if so, perhaps not in a way that they manipulate them, which makes this constructivist and developmental.

5. How do you think your colleagues will respond? For example, will they be motivated, indifferent, or want to join you and revise their own syllabi?

I think my colleagues will be excited and eager to engage with me around this course revision. We are quite open to teaching effectiveness and as such, course enhancement and revision are welcome.

6. How will you include your colleagues in this project?

I am not sure? That is something yet to be pondered, since I am away from the campus and visiting at another.
