

## Reflection 2

1. Please share your finalized course objectives and/or learning outcomes. If possible, also list the course objectives and/or learning outcomes as they were before this month's revisions.

2. What changes or additions to course objectives and learning outcomes did you make? Why? Consider both macro changes and micro-ones, such as tweaks in existing wording.

I added language specific to the CRSE Competencies and I also aligned the objectives with major course assessments. I feel like I still need to add an objective related to theory and the readings. I'm still thinking through this. This was harder than expected!

**3. How did you identify opportunities for integrating CRSE into your course objectives and learning outcomes? What did you need to review or do to see where these changes could be made?**

I had to look over my major course assessments and think about the outcomes. I realized that my objectives weren't explicit.

**4. How did you approach balancing breadth and depth in selecting CRSE Competencies, course objectives, and learning outcomes? What factors informed your choices? (For example, content of other courses in the program, your own time/knowledge/capacity, bureaucratic barriers...)**

I'm not sure I did yet. I feel like I will need to do an overview from week to week to see how things are mapping out.

**5. What, if any, approval do you anticipate needing for any changes to course objectives or learning outcomes?**

I will submit the changes but don't anticipate any pushback.

**6. To what extent or in what ways did your small group (either during the Feb. 13-14 meeting or afterwards) help you with your syllabus revisions this month?**

I missed the last session so wasn't able to do this.
