

## Reflection 1

**1. What course would you like to revise, and why? Please include course number and title as well as share what program(s) it's included within.**

The course I would like to revise is EDU508 Secondary School Methods and Materials. This course is in the Master Teacher and Special Education Program, which is a fully online accelerated program. The course is 7 weeks long.

**2. Which CRSE competencies are (or are likely to be upon your revision) addressed in this course? This can be changed later.**

The CRSE Competencies I would like to address in this course through the revision process include CRSE Competency 3: Design and Facilitate Culturally Relevant Learning that Brings Real World Experiences into Educational Spaces A-F, Competency 4: Provide All Learners with Equitable and Differentiated Opportunities to Learn and Succeed A, C-D, Competency 8: Establish High Expectations for Each Learner and Treat Them as Capable and Deserving of Achieving Success A-E, and Competency 9: Educate Oneself About Microaggressions and their Impact on Diverse Learners, Educators, and Families, and Actively Disrupt the Practice by Naming and Challenging its Use A-G (I am not 100% sure about Competency 9).

I think the general areas of the above Competencies are included in this course, but I don't think they are included specifically to address the Competencies. This course requires students to design a Project Based Learning unit with other group members, so I think the Competencies I listed above apply to both the learner aspect as well as the educator aspect.

**3. What do you hope to get out of this process? What benefits do you anticipate?**

What I hope to get out of this process is how to make minor adjustments and implement minor changes that make a major impact.

The benefits I anticipate are becoming more knowledgeable about and more comfortable working with the CRSE Competencies. Another benefit I anticipate is growing my network through my CoP.

**4. What challenges do you anticipate?**

The challenges I anticipate include having time to work on the revisions after meeting with my CoP and a chance that some of the revisions I want/need to make aren't going to work for the existing structure and modality of the course.

**5. How do you think your colleagues will respond? For example, will they be motivated, indifferent, or want to join you and revise their own syllabi?**

I think my colleague will want to join me in revising future courses after I go through this process with my CoP. She is grateful that I am taking this on without her right now.

**6. How will you include your colleagues in this project?**

I will include my colleagues in this project by keeping my Program Director up to date after each of my monthly meetings. I will share revisions I made to get her input, so I know how to move forward in the next month's work.
