

Accelerate Your Career at Your Own Pace

Traditional professional development wasn't built with women and diverse professionals in mind — or with busy schedules and caregiving responsibilities in mind either.

Accelerate closes that gap.

The Program

A library of expert-built, self-paced virtual courses covering the skills that move careers forward: OKRs, business finance, career planning, and more. Every module is under two hours, with no deadlines and no cohort to keep pace with — progress happens on your time.

Measurable Results

Participants who complete the program receive a certificate of completion, access to an ongoing network of industry professionals, and a library of business acumen they can return to as careers and companies transform.

PROGRAM OFFERINGS

Three complete programs for career support regardless of seniority level.

ACCELERATE

Our core program covers what execs wish they'd known earlier — practical lessons on OKRs, leadership career planning, and other fundamentals that actually move careers forward.

KICKSTART YOUR CAREER

A mini-program with content on topics such as customer experience, leveraging your personal brand, managing up, and more!

FINANCE FOUNDATIONS

Make confident financial decisions — from reading financial statements, building business plans, and raising capital to budgeting, investing, and planning for retirement.
