

Goat Serum

General information

Other animal sera are used in various applications, e.g. autologous cell culture systems or immunohistological methods. Porcine serum is often used in cultures that proliferate mycoplasma or viruses. Goat and Sheep Serum are used in immunohistochemistry and to eliminate non-specific binding reactions.

Applications

- Autologous cell culture systems
- Immunohistochemistry
- Immunoblotting
- Immunofluorescence
- Immunoprecipitation

Test parameters

- pH
- Osmolality
- Endotoxin
- Total protein
- Hemoglobin
- Mycoplasma
- Sterility

Precautions and disclaimer

This product is for research use only. Please consult the Material Safety Data Sheet for information regarding hazards and safe handling practices.

Ordering information

Catalogue number	Pack size
LTGS500	500 ml
LTGS100	100 ml
