

CHO|FIRST Starter Kit

General information

The CHO First™ consists of two media and two feed supplements that are built out of the same basis of raw materials. All parts of the system are animal component free and do not contain any hydrolysates.

Thus, the CHO First™ is fully chemically defined.

- CHO First A for selective adaption – not rich in nutrients but balanced to adapt efficiently
- CHO First E for production – non selective and rich in nutrients for an efficient production
- CHO First Feed 1 & CHO First Feed 2 supplements – rich in nutrients for a balanced predetermined feeding strategy

This innovative combination allows an easy installation, easy feeding & easy scale-up process for achieving the best results.

Precautions and disclaimer

This product is for research use only. Please consult the Material Safety Data Sheet for information regarding hazards and safe handling practices.
