

Cryopreservation Medium Serum-free

General information

Is a serum-free cryoprotective medium based on an organic preservation medium containing 10 % DMSO. Its special formulation ensures high viability of cells and makes it particularly suitable for applications in stem cell research, such as embryonic and adult stem cells, induced pluripotent cells (IPS) as well as mesenchymal and hematopoietic stem cells.

Applications:

- Cryopreservation of a wide range of cell types with high viability
- Ready-to-use solution
- For cell banking
- For stem cell storage

Product specifications

Sterility	Tested
Storage	+2 °C to +8 °C. Is a light sensitive solution. It should be protected from light during shipping and storage.

Precautions and disclaimer

This product is for research use only. Please consult the Material Safety Data Sheet for information regarding hazards and safe handling practices.

Caution: contains Dimethyl Sulfoxide (DMSO). Do not breathe gas/fumes/vapour/spray. Avoid contact with eyes and skin. Irritant to eyes, respiratory system and skin. S23 S24/25.
