Automated Beverage System

Selling Guide

ABS 2.0

## Upgrade your drive-thru by letting ABS 2.0 work for you

Cornelius is proud to unveil ABS 2.0. Building on a strong foundation, ABS 2.0 offers improved reliability with the same speed, same POS and same footprint using the same beverage system infrastructure as the legacy ABS 1.0. Meet increased demand while consistently serving your customers the delicious soft drinks they've come to love.

- New thermo resistant material and improved conveyor design increases reliability, uptime, and profitability over \$22K
- Added cup dispensers to increase overall beverage throughput by 20%
- Increased ice capacity and cup staging by over 50%
- New easy to read user interface improves order accuracy and consistency

# ABS 2.0

## Automated Beverage System

Selling Guide

At McDonald's restaurants, speed of service is essential. **With 70% of your revenue coming from drive thru sales, it is critical for your business to meet increased demand** while serving consistent, refreshing soft-drinks. **Keep your customer satisfied with shorter drive thru lines** using the innovative ABS 2.0.

### More Reliable

ABS 2.0 has **new conveyor and thermo resistant materials** that stands up to intense kitchen environments **increasing reliability, uptime, and profitability.**

### Restaurant Flexibility

Our customized unit gives restaurants **more flexibility to dispense various cup sizes** (clear cup capability) and provide **equipment training to crew** using the new programable cleaning feature.

### Improved Capacity

Improve speed of service with **53% more ice capacity** along with **20% more cup staging** and **50% more drink staging.**

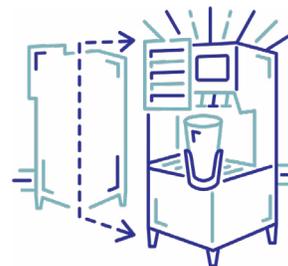

### Dual Monitor Display

Enhance communication and **improve order accuracy** with **dual 7" touchscreens** supporting both drive thru and lobby orders—NP6 SP9 compatible.

### Ease of Cleaning

Make cleaning easy using **digitally integrated cleaning instructions.** Ease sanitation while **enhancing reliability and drink quality.**

### Drop-In Replacement

**ABS 2.0 fits in the same footprint** using the **same beverage system infrastructure** including chiller, recirculate, and/or BRP **as the legacy ABS 1.0.**

For more information about **ABS 2.0** or to place an order, contact your Marmon Foodservice McDonald's sales representative or authorized distributor.
