Brand Mapping

Note: The IDC Pro comes standard with the most popular brand and flavor icons pre-loaded. The Brand Mapping application allows you to assign this brand artwork.

If you would like to create your own icon, please reference the “Brand Icon Library” at this website:

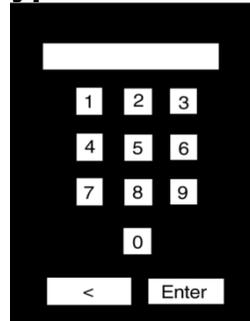

<http://newproducts-cornelius.com/resources/>.

Access Service Screen

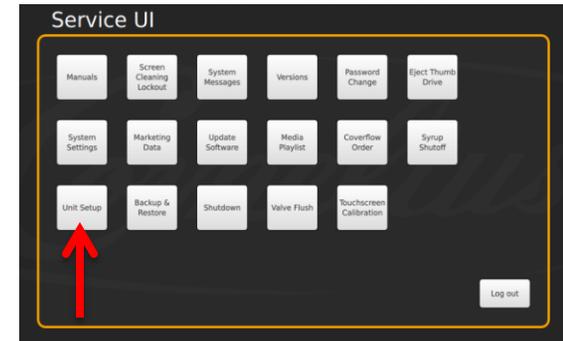

Tap each corner of the merchandiser screen in a counterclockwise direction, starting in the upper right corner to form a “C.”

Type Service Pin

Type in your passcode to access the Service menu. The default passcode to access the entire service menu is “3333” which will be yours unless you have changed it.

View Service Screen

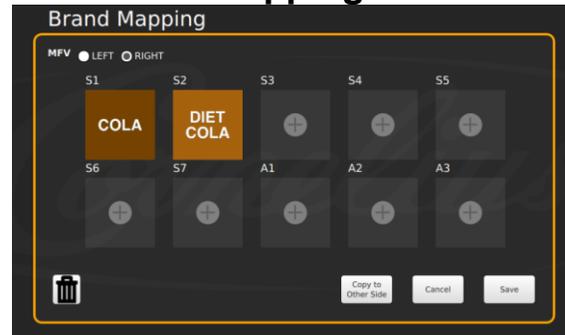

Select the “Unit Setup” button.

Unit Setup Screen

Select the “**Brand Mapping**” button.

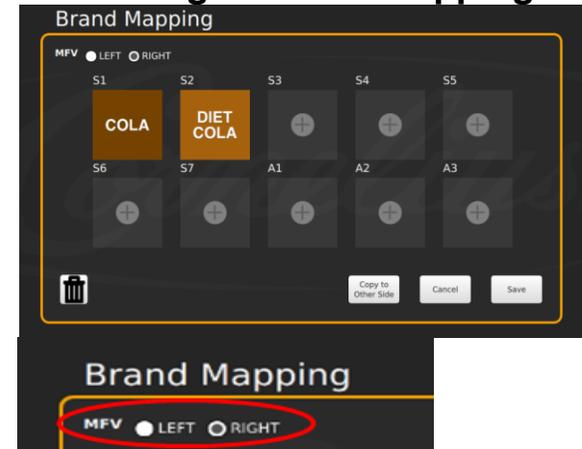

Brand Mapping Screen

You will see the current brands displayed on your unit. Each brand is related to the syrup line number they are connected to. For example: “Cola” is connected to line ‘S1.’

If it is not known which syrup line a brand is tied to, we recommend contacting your installer for this information prior to making edits.

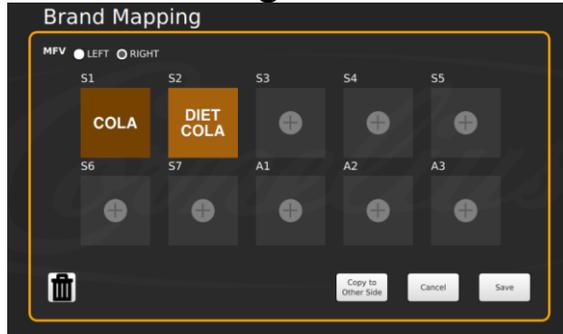

Left/Right Nozzle Mapping

Prior to editing your syrup brand icons, make sure you have selected the correct valve you would like to edit (Left or Right) select which side in the upper left hand corner. In the example above, the right valve is being edited.

Adding New Syrup Brand

Adding Brands

To add a new brand, select the  button of the syrup line number tied to which syrup you will be adding. In the example above, we will be adding Ginger Ale to syrup line 'S3'

Choose Brand From Library

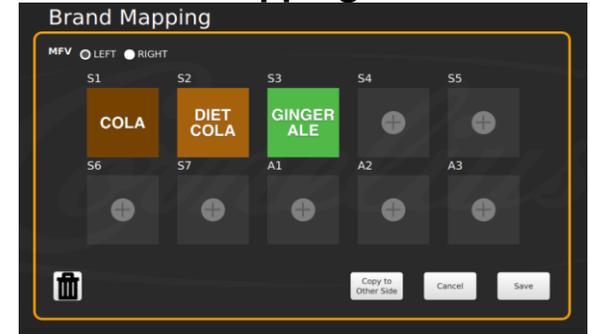

After selecting the  button, you will need to select the appropriate brand icon artwork for the brand you will be adding.

If the appropriate artwork is not present, or you need custom graphics created, please reference the "Brand Icon Library" at this website:

<http://newproducts-cornelius.com/resources/>

Brand Mapping Screen

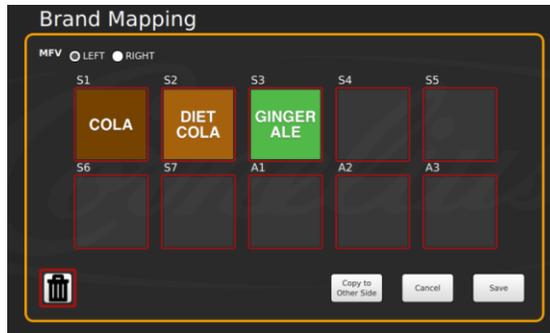

If you would like to edit your other valve with the same syrup brand icon settings

as this valve, select the  button.

Once you have added the appropriate icon to all active syrup lines, select "Save."

Removing Existing Syrup Brand

Remove Brands

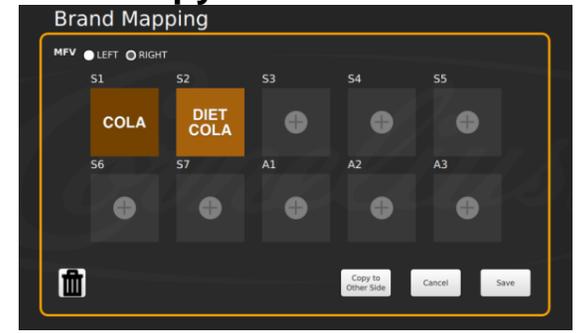

To remove an existing brand icon from your unit, first select the  symbol, which will create a red border around each icon.

Remove Brands

While the brand icons are outlined in red, select the icon you'd like to remove. Once completed, select "Save." (**Note:** Ginger Ale is being removed in the above example.)

Copy to Other Side

If you would like to have the same setup shown on the other side

(left/right), select .
