INSTALLATION INSTRUCTIONS

FOR INSTALLING TWO-FLAVOR DISPENSING VALVE KIT ON VENTURE POST-MIX DISPENSER

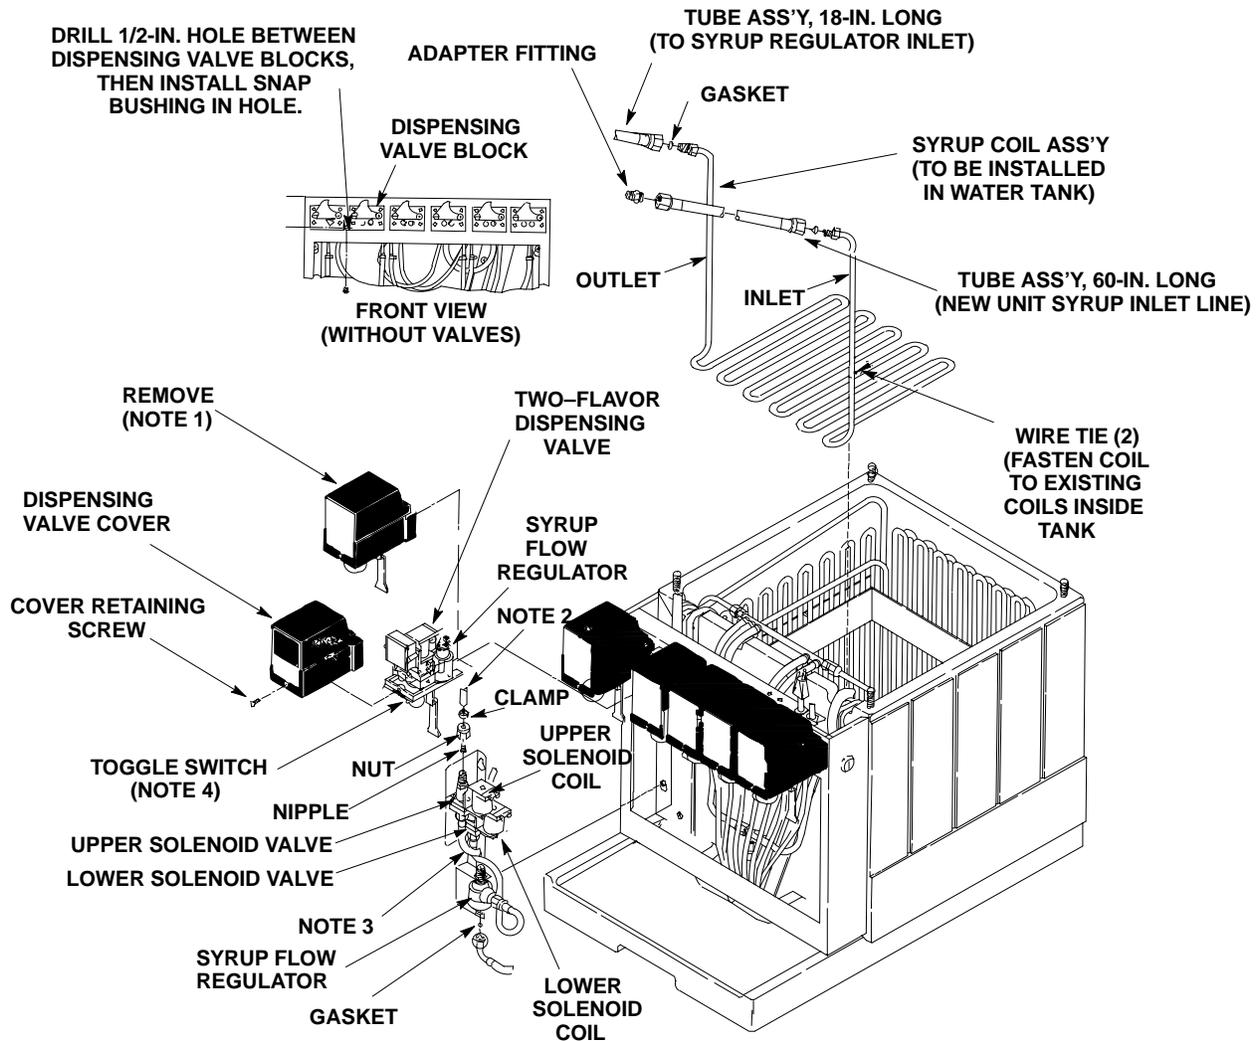

FIGURE 1. PARTS IDENTIFICATION

NOTE 1—Regardless of unit, *always* remove next to the last dispensing valve on left-hand side (facing front of unit).

NOTE 2—This tube *must* be disconnected from syrup coil providing syrup to removed dispensing valve. A fitting set *must* be installed on end of tube, then tube must be connected to upper solenoid valve outlet.

NOTE 3—This tube must be connected to syrup coil mentioned in step 2.

NOTE 4—Toggle switch in right-hand position will dispense the same syrup that was dispensed from the old valve. Toggle switch in left-handed position will dispense new-flavor syrup.
