

INSTALLATION INSTRUCTIONS

NORDIC B230-AP PLASTIC BINS

SAFETY

**WARNING:**

Before starting installation, read and understand all safety label and warnings on the machine. Also review and understand all safety instructions in the owners, installation and service manuals.

Failure to comply could result in serious injury, death or damage to the equipment.

QUALIFIED SERVICE PERSONNEL

**WARNING:**

Only trained and certified electrical, plumbing and refrigeration technicians should service this unit.

All wiring and plumbing must conform to national and local codes. Failure to comply could result in serious injury, death or equipment damage.

SAFETY PRECAUTIONS

This unit has been specifically designed to provide protection against personal injury. To ensure continued protection observe the following:

**WARNING:**

Disconnect power to the unit before servicing. Follow all lock out/tag out procedures established by the user. Verify all power is off to the unit before performing any work.

Failure to comply could result in serious injury, death or damage to the equipment.

**CAUTION:**

Always be sure to keep area around the unit clean and free of clutter.

Failure to keep this area clean may result in injury or equipment damage.

1. Remove the screw at right front and set aside.
2. Set the adapter in place on the right end of the bin and mark the location. Remove the 1/4 x 5/8 gasket from under the adapter and clean the surface with rubbing alcohol. Remove protective paper from the tape and set it in place on the adapter, press down firmly, and reinstall the screw.
3. Add two strips of 1/8 x 1/2 gasket on top of the adapter left side.
4. Seal the edges of the adapter with silicone, as shown..
