

# INSTALLATION INSTRUCTIONS

## DB275 ADAPTER LID KIT P/N 629087574

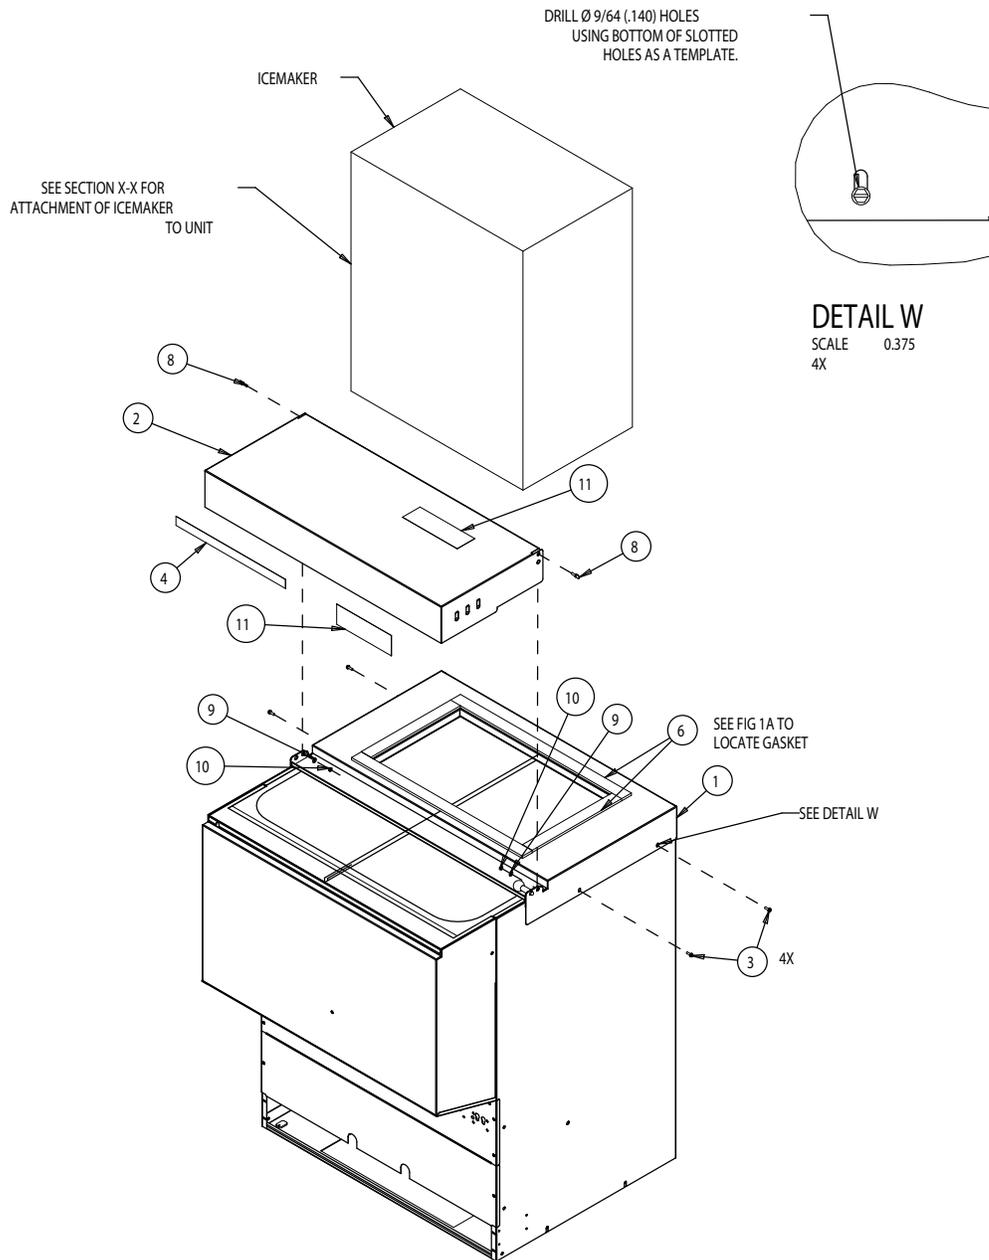

FOR THE FOLLOWING ICEMAKERS:

- Manitowoc IB600C/800C/1000C - 22" Wide
- Scotsman CME686/810 Eclipse - 22" Wide

### Parts List

Item No.	Part No.	Description	Qty.
1	620046123	Icemaker Adapter Lid	1
2	620050505	Manual Fill Cover	1
3	70217	Screw # 8 x 1/2" Lg. Sheet metal	4
4	91957	Label, Warning	1
5	629087574INS	Installation Manual	1
6	620710110	Gasket	8 Ft.
7	70170	Thumb Screw # 8-32 X 1/2" Lg. SS	2
8	620706635	Shoulder Screw # 10-32	2
9	70056	# 10 Flatwasher	2
10	70017	# 10-32 Nyloc Nut	2
11	620920655	Label Bullet Latch Operation	2

1. Unpack kit. Refer to Figure 1 for component details.

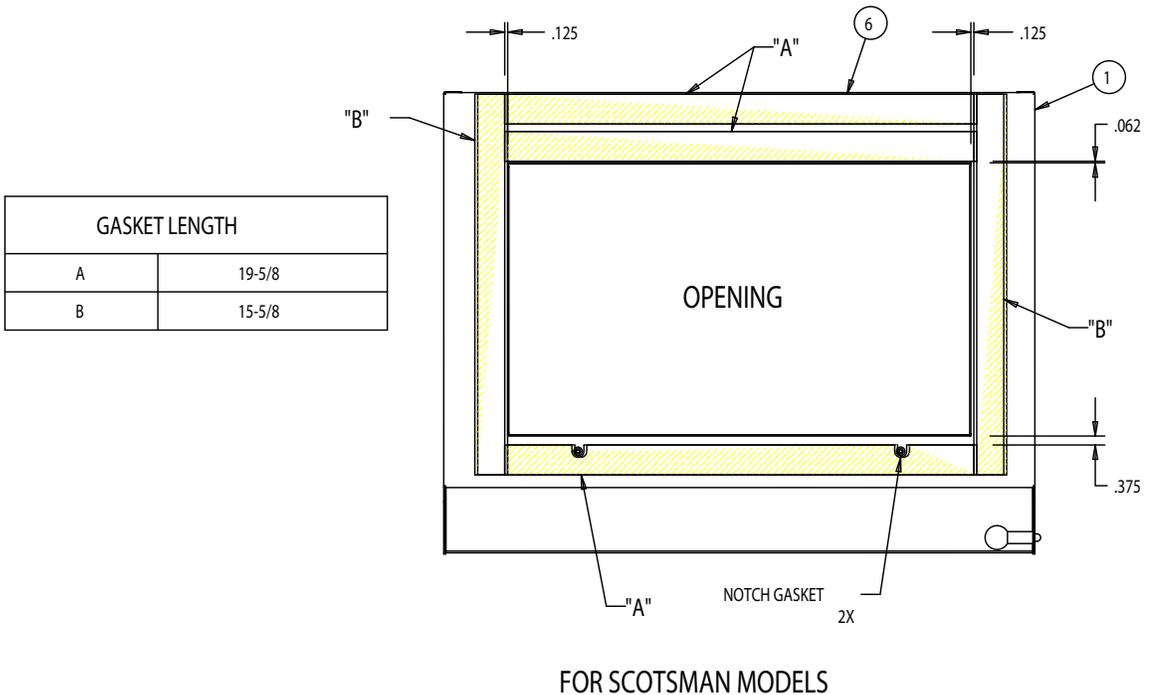

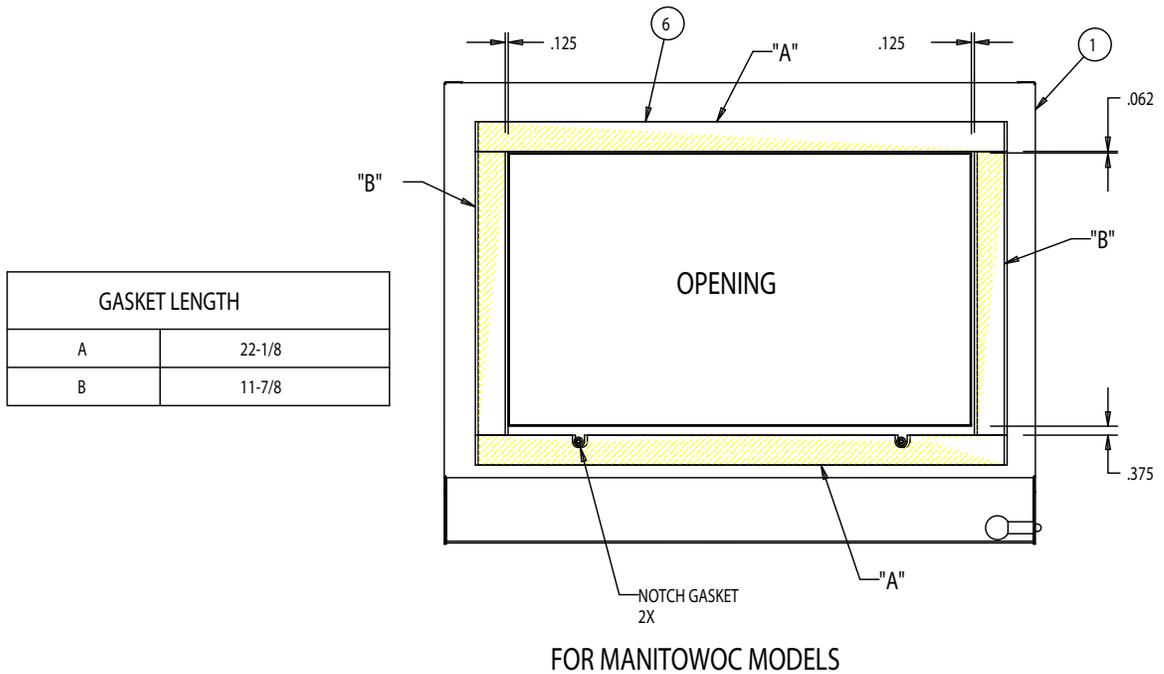

**FIGURE 1**

2. Set the icemaker adapter lid (item 1) onto the dispenser. Using the slotted holes on the side of the lid as a template, drill (4) .141 diameter holes at the bottom of the slots (Figure 1, detail W).

**NOTE: Use extreme care not to drill into the hopper. Use a drill stop to ensure that the drill bit does not penetrate deeper than 1/4 in. past the sheet metal. Failure to do so could result in a hole in the ice storage hopper.**

3. Fasten the lid to the dispenser with (4) #8 sheet metal screws (item 3), two on each side. Refer to Figure 1. Do not tighten the screws at this point.
4. Seal the icemaker to the adapter lid as follows:

A. Refer to Figure 2 and install the adhesive-backed gasket (item 6) in position on the lid.

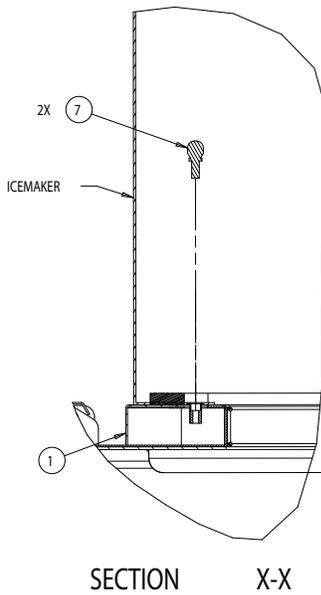

**FIGURE 2**

B. Remove the front panel of the icemaker and set the icemaker onto the lid. Position the icemaker so that the mounting holes on the front of the icemaker base line up with the threaded nutserts on the adapter lid.

**IMPORTANT: Do not slide the icemaker into position on the lid. Lift and set the icemaker onto the gasket to avoid damaging the gasket seal.**

5. Secure the icemaker base to the lid with thumbscrews (item 7 – see Section X-X of Figure 3).

**FIGURE 3**

- C. Trim the excess gasket at the rear of the icemaker base for Manitowoc models.
6. Follow the icemaker manufacturer's instructions to complete the installation of the icemaker.
7. Secure the manual fill cover (item 1) to the adapter lid (item 2) with the (2) shoulder screws (item 8), washers (item 9), and locknuts (item 10) as shown in Figure 1. Check for proper operation of the manual fill cover by opening and closing the cover. The cover latch should engage in the full open position and hold the cover open. Pull the red knob on the latch to release the cover.
8. Apply the labels (items 4 & 11) to the manual fill cover.
