

# INSTALLATION INSTRUCTIONS

## EDXXX AUXILIARY WATER LINE

**⚠ WARNING:**

Disconnect power to the unit before servicing. Follow all lock out/tag out procedures established by the user. Verify all power is off to the unit before performing any work.

**Failure to comply could result in serious injury, death or damage to the equipment.**

**⚠ WARNING:**

Water and CO<sub>2</sub> to the system must be turned off and the system depressurized prior to performing this service.

**Failure to comply could result in serious injury, death or damage to the equipment.**

1. Remove the lower front panel to expose the manifold.

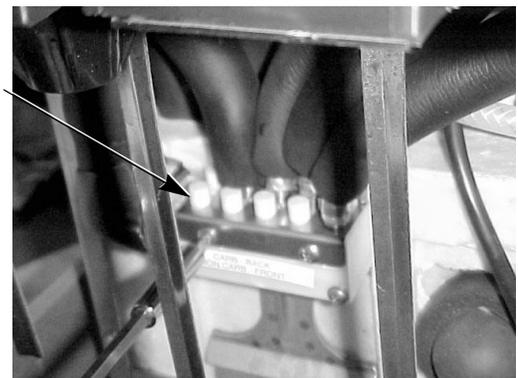

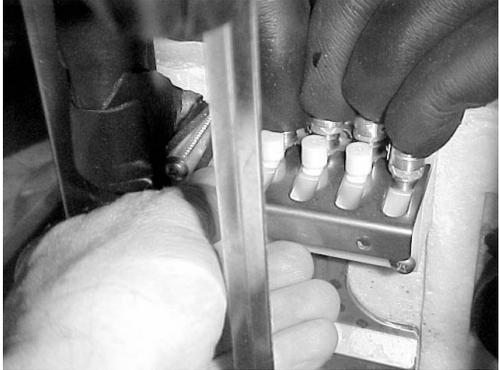

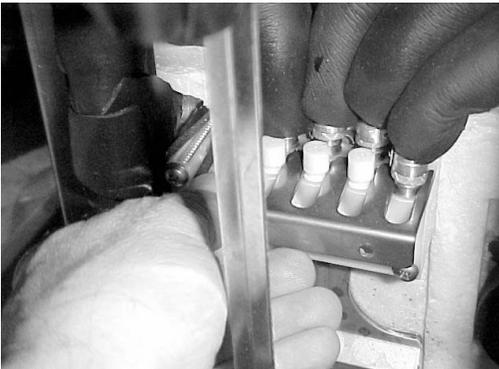

Manifold

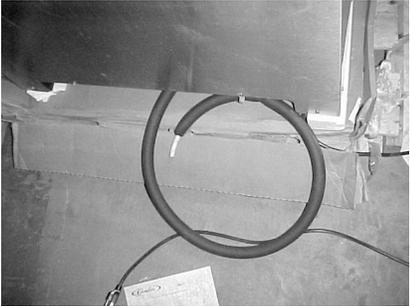

2. Remove the retainer by removing the two screws that hold the retainer in place.

Water Row

<p>3. Slide the retainer forward and remove it. Set it aside for re-installation later.</p>	
<p>4. Remove and discard a plug from the front row of the manifold. The front row is water and the back row is soda water.</p>	
<p>5. Install the auxiliary water line into the open port of the manifold. Fitting and O-rings should be lubricated with an appropriate lubricant.</p>	
<p>6. Re-install the retainer.</p>	

<p>7. Re-install the screws.</p> <p><b>⚠ WARNING:</b> All fittings and plugs must be properly secured with the retainer.</p>	
<p>8. Rout the water line out the access panel of the dispenser.</p>	
<p>9. Connect the auxiliary waterline to the appropriate equipment.</p>	
<p>10. Pressurize all the lines and check all the connections for leaks.</p>	
<p>11. Reassemble the unit and place the unit back in service.</p>
