

INSTALLATION INSTRUCTIONS

DF/ED Icemaker Adapter Kit For Scotsman

SAFETY INSTRUCTION

**WARNING:**

Before starting installation, read and understand all safety label and warnings on the machine. Also review and understand all safety instructions in the owners, installation and service manuals.

Failure to comply could result in serious injury, death or damage to the equipment.

QUALIFIED SERVICE PERSONNEL

**WARNING:**

Only trained and certified electrical, plumbing and refrigeration technicians should service this unit.

All wiring and plumbing must conform to national and local codes. Failure to comply could result in serious injury, death or equipment damage.

SAFETY PRECAUTIONS

This unit has been specifically designed to provide protection against personal injury. To ensure continued protection observe the following:

**WARNING:**

Disconnect power to the unit before servicing. Follow all lock out/tag out procedures established by the user. Verify all power is off to the unit before performing any work.

Failure to comply could result in serious injury, death or damage to the equipment.

**WARNING:**

All ice baffle plates and bin stats, if included or recommended in this kit, must be installed as directed in this manual or the equipment manufacturer's instructions.

Failure to comply could result in serious injury, death or damage to the equipment.

**WARNING:**

All of the attachment screws and plates must be installed as directed in this manual.

Failure to comply could result in serious injury, death or damage to the equipment.

**CAUTION:**

Always be sure to keep area around the unit clean and free of clutter.

Failure to keep this area clean may result in injury or equipment damage.

APPLICATION

The following instructions are applicable for Prodigy Series - N/0422/0622/0922/1322 only.

INSTALLATION INSTRUCTIONS

Perform the following procedure to Install the Adapter Kit:

1. Remove the plastic hopper lids from the top of the dispenser.
2. Install soft ice agitator kit (sold separately) into the dispenser.

NOTE: This soft ice agitator kit is required for proper dispenser operation using “compressed” or “soft” ice types. Failure to install this kit may result in undesirable beverage quality.

3. Unpack the adapter kit, see Figure 1.

Figure 1.

4. Fasten lid to the dispenser with (4) #8-32 machine screws, (two on each side).
5. Install ice deflector in adapter opening using four #8-32 screws, see Figure 1. **DO NOT** completely tighten screws at this time.
6. Set Icemaker onto the adapter kit. See 6. for typical installation.

Figure 2.

NOTE: Be sure to center the ice drop opening of the Icemaker directly over the deflector plate. Failure to do so may result in un-even hopper fill.

7. Tighten the four ice deflector mounting screws.
8. Follow the Icemaker manufacturing instructions to complete the installation of the Icemaker.
9. Install Icemaker bin thermostat just underneath ice deflector. See (Figure 3.) for location area.

Figure 3.

NOTE: Failure to install a bin thermostat correctly may result in inadequate hopper fill, ice dispense issues, hopper “ice bridging”, and/or possible damage to the Icemaker.

10. Apply a continuous bead of NSF International (NSF) listed silastic sealant (Dow 732 or equivalent) to seal the Icemaker to the top of the adapter lid. All excess sealant must be wiped away immediately.
11. Place the manual fill cover in position over the flange on the lid assembly and the front access hopper opening.
12. Re-connect electrical power to the dispenser.
13. Verify function and operation of both Icemaker and dispenser.
