# ADA HANDLE INSTALLATION INSTRUCTIONS

## SAFETY INSTRUCTIONS

### **WARNING:**

Before starting installation, read and understand all safety label and warnings on the machine. Also review and understand all safety instructions in the owners, installation and service manuals.

**Failure to comply could result in serious injury, death or damage to the equipment.**

## QUALIFIED SERVICE PERSONNEL

### **WARNING:**

Only trained and certified electrical, plumbing and refrigeration technicians should service this unit.

**All wiring and plumbing must conform to national and local codes. Failure to comply could result in serious injury, death or equipment damage.**

## SAFETY PRECAUTIONS

This unit has been specifically designed to provide protection against personal injury. To ensure continued protection observe the following:

### **WARNING:**

Disconnect power to the unit before servicing. Follow all lock out/tag out procedures established by the user. Verify all power is off to the unit before performing any work.

**Failure to comply could result in serious injury, death or damage to the equipment.**

### **CAUTION:**

Always be sure to keep area around the unit clean and free of clutter.

**Failure to keep this area clean may result in injury or equipment damage.**

# INSTRUCTIONS

**Table 1. Bill Of Material**

Item	Qty.	Part No.	Description
1	1	620055972	ADA Handle
2	1	629097128INS	ADA Handle Installation Instructions
3	1	629097128	Kit Viper ADA SPH Handle Prototype

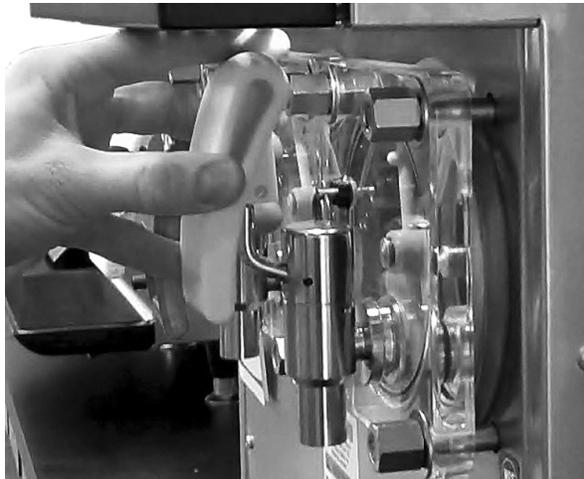

1. This procedure may be performed while the unit is running, but spillage may occur when removing the old handle and attaching the new one. It is recommended that the barrel be depressurized before starting this procedure.

2. Use a pair of gas pliers to rotate and pull the old handle off of the valve stem.

**Figure 1.**

3. Press the new ADA handle down onto the valve stem.

**Figure 2.**

4. The system is now ready for normal operation.

**⚠ IMPORTANT:**

Make sure the handle is properly seated all the way down on the valve stem.
