

INSTALLATION INSTRUCTIONS

ICER P/N 165520000 FOR SPEED FILLERS

1. To exchange the right-hand icer drop panel, with the left-hand icer drop panel, remove 6 thumb screws holding the plastic portion panel, then remove the panel.
2. Tilt the icer drop panel vertically and lift out.
3. Install the left-hand icer drop panel by reversing the procedures stated above.
4. Ice portion tubes must be sized to match the desired ice portion amount. The portion tube panel must be positioned accordingly by using the thumb screws and raising or lowering the portion tube panel to match the ice portion tube length.
