

INSTALLATION INSTRUCTIONS FOR
TJ150/CRYSTAL TIPS KIT (2085)

Please follow these instruction to install your TJ150 ice dispenser and Crystal Tips 200/300/400 icemaker.

1. Install the dispenser on top of counter following the owner's manual instructions.
2. Place dispenser cover on top of the dispenser with its flanges facing down in order to wrap around the dispenser rim. Make sure that the 4 holes on the cover walls match the corresponding holes on the sides of the ice dispensing cabinet.
3. Secure cover to dispenser using the #8-32 screws (4) provided in the hardware bag.
4. Install gasket on dispenser cover as close to edge of opening as possible as shown in Figure 1.

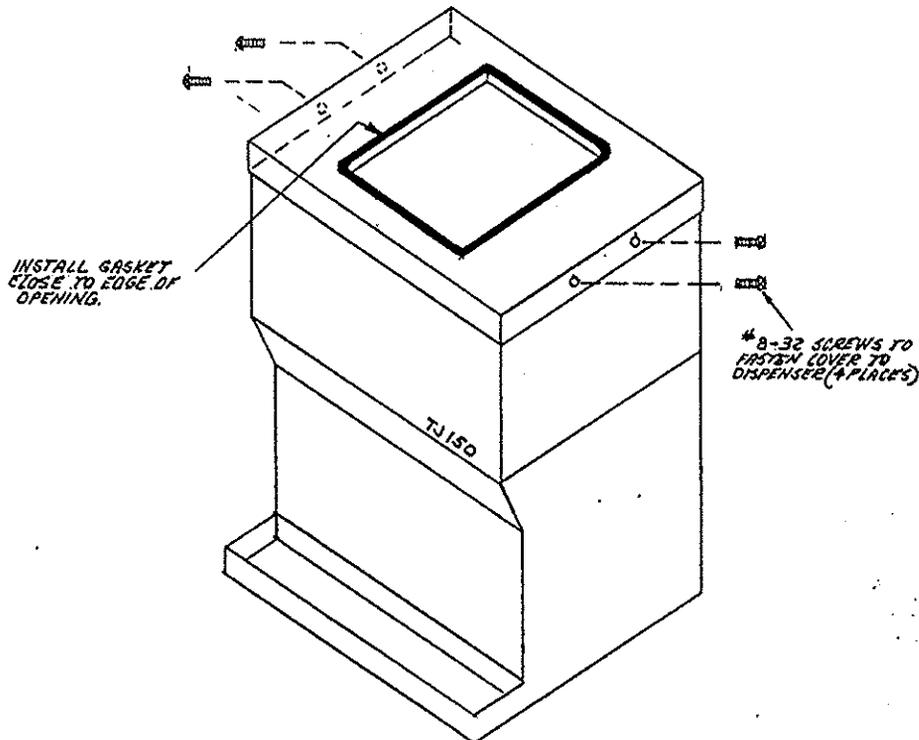

Figure 1

5. Using a screwdriver or wrench, remove the middle screws from the left and right lower sides of the icemaker as shown in Figure 2. Use these 2 screws to secure one of the 90-degree angle brackets on each side of the icemaker.

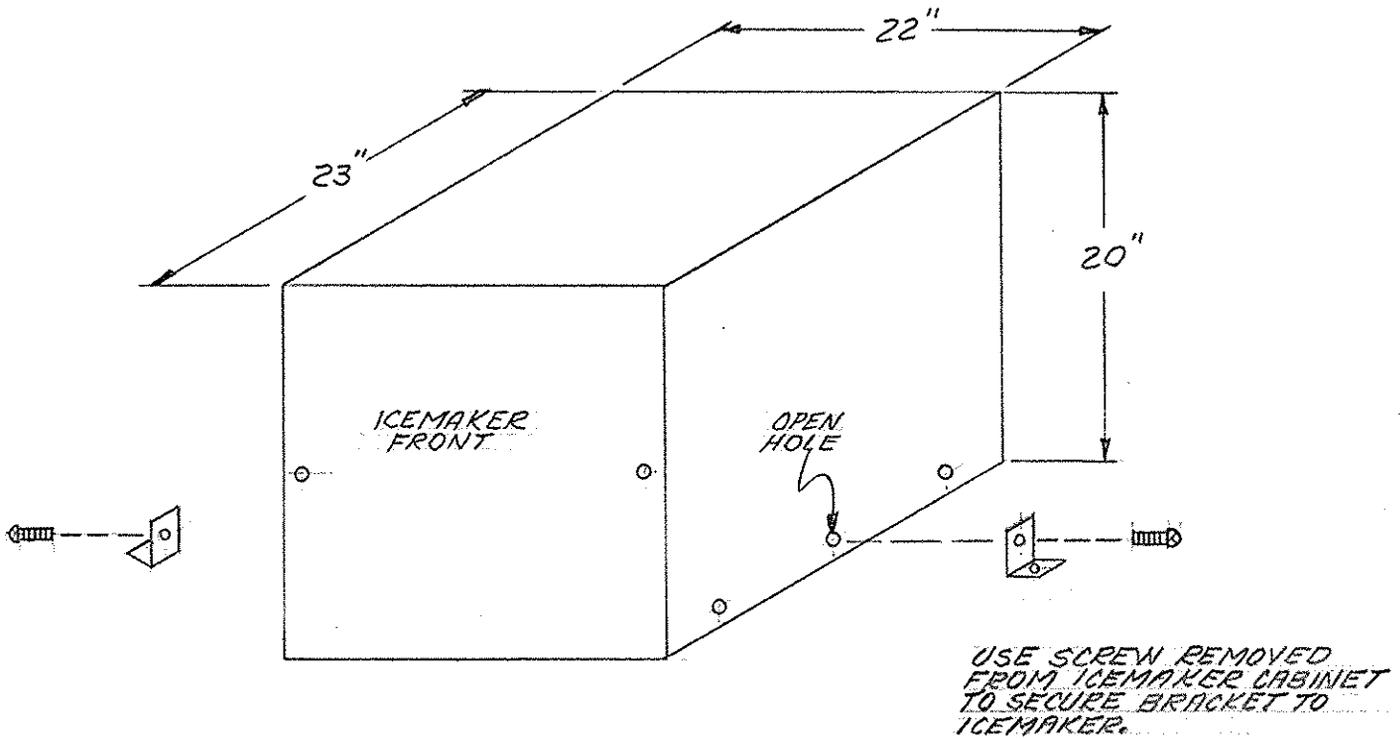

Figure 2

6. Finger-tighten the U-shaped bracket to the bottom of the icemaker using the 2 thumb screws provided with this kit and the two holes available on the base. Install the thermostat capillary tube as shown in Figure 3.

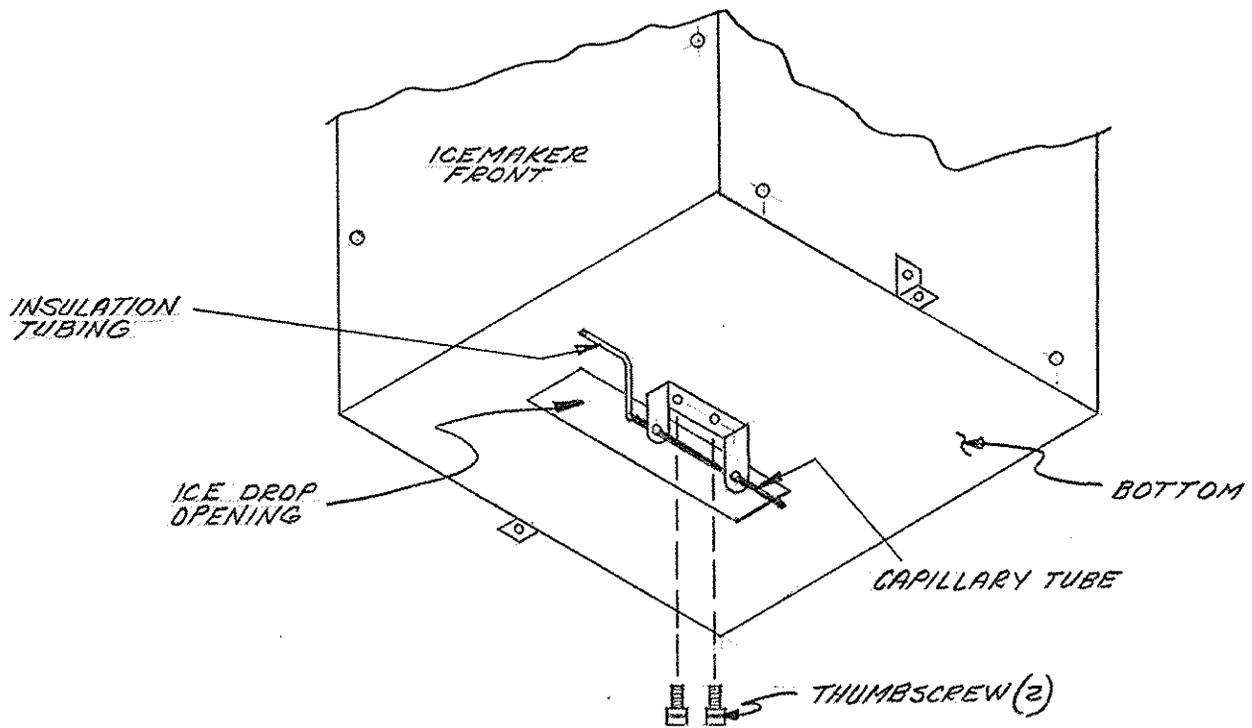

Figure 3

7. Using the remaining (2) 8-32 screws in the kit, fasten the icemaker/brackets assembly to the dispenser/cover assembly as shown in Figure 4 below.

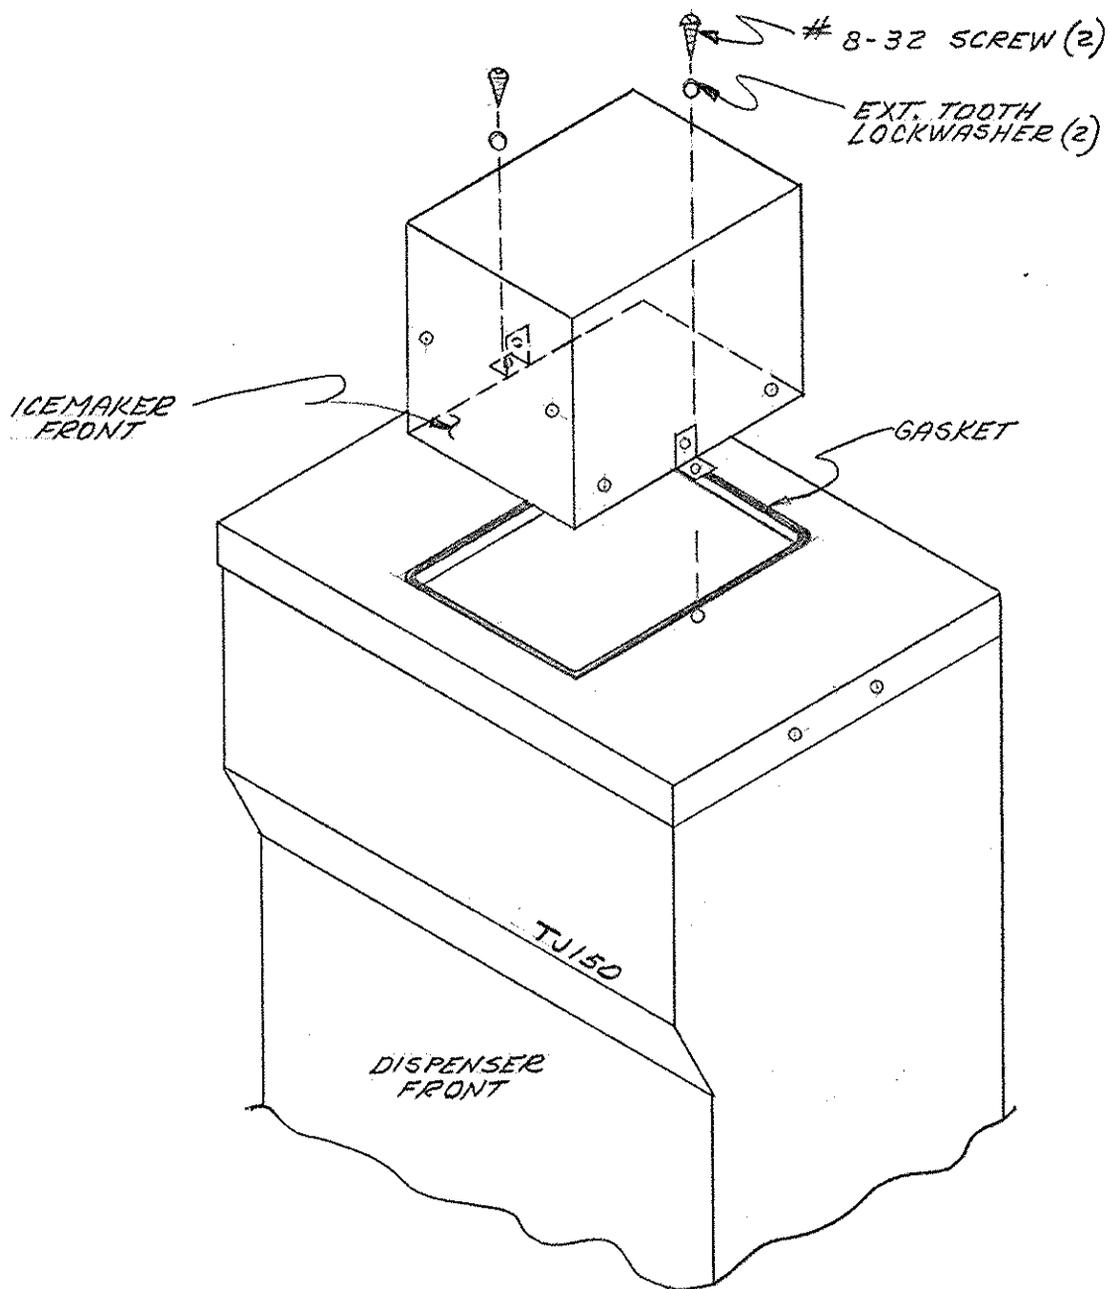

Figure 4

8. Follow Crystal Tips instructions to complete the icemaker installation.

PARTS LIST
