

KIT 02118

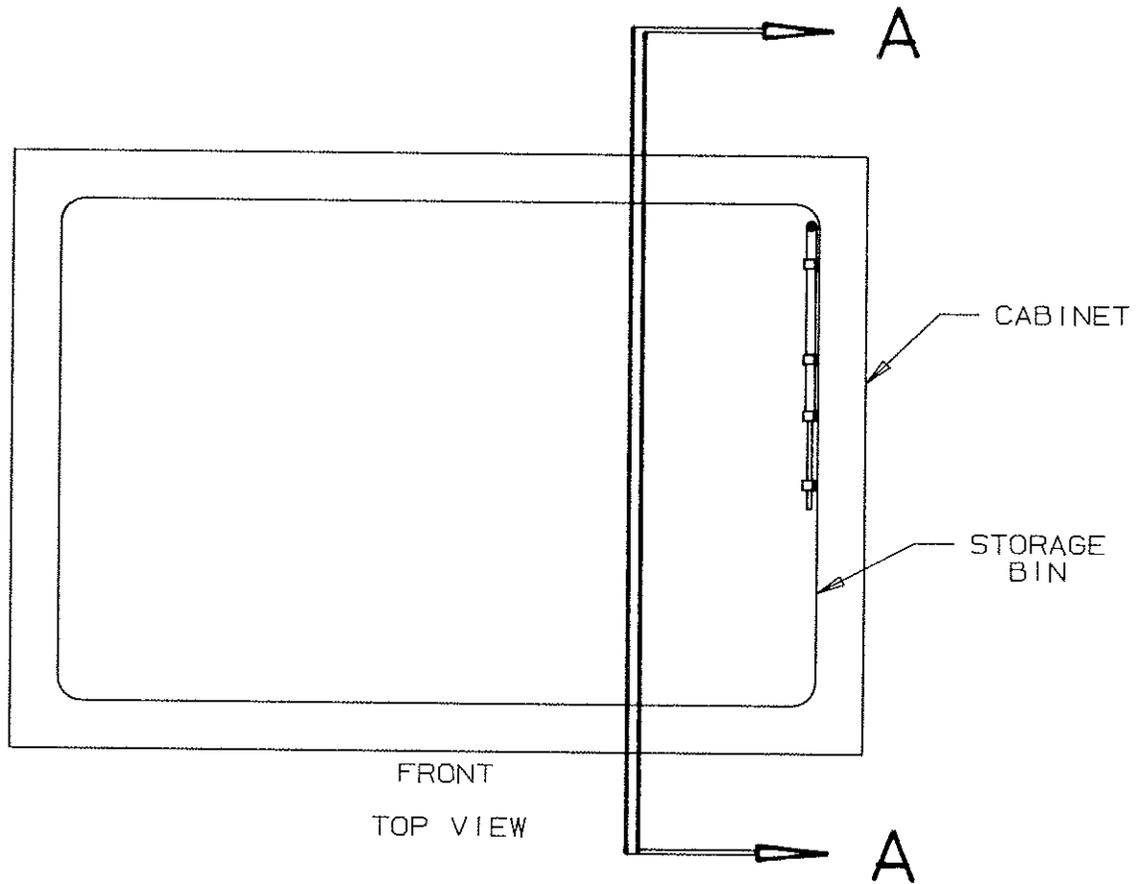

INSTALLATION INSTRUCTIONS

For installing an Ice Craft Cuber, Model Series IC 400/500/600 on a REMCOR® TJ300 Dispenser:

1. Refer to Figure 2 and locate mounting holes for securing Bin Level Control Bulb to Dispenser Storage Bin Wall. Drill and tap for #8-32 thumbscrews.
2. Seal ice maker to top of dispenser as follows (Refer to Figure 3):
  - A. Locate gasket around opening on dispenser top cover.
  - B. Set ice maker on dispenser cover.
  - C. Locate mounting brackets on ice maker and dispenser. Drill .136 diameter holes into ice maker and dispenser sheet metal for securing brackets.
3. Route the Bin Level Control Bulb and secure to the Storage Bin Wall as shown in Figure 3.
4. Follow Ice Craft's instructions to complete the installation of the ice maker.
