INSTALLATION INSTRUCTIONS

HOSHIZAKI KM 1200 SERIES ICEMAKER/REMCOR® TJ300 DISPENSER

Use Figure 1 as a guide for the following installation procedure:

1. Seal the icemaker to the dispenser rear cover as follows:
  - A. Run a bead of RTV around the opening in the dispenser cover.
  - B. Locate the icemaker as shown on the dispenser.
  - C. Wipe away excess RTV immediately.
2. Locate and drill holes into the dispenser rear cover and icemaker cabinet for mounting the rear icemaker brackets.
3. Follow the manufacturer's instructions to complete the installation of the icemaker.
