

## INSTALLATION INSTRUCTIONS

For installing a lighted display on REMCOR® TJ90 or TJ150 hinged panel model dispensers, using Figure 1 as a guide:

1. Disconnect power to unit.
2. Remove hinged front panel, discard. Drill out pop rivets for hinges and discard.
3. Remove inner panel. With inner panel off, hang lighted display on unit using 3/16" diameter pop rivets (5) supplied in kit.
4. Make proper electrical connections and dress cord with cable ties per Figure 1 to prevent cord interference with cabinet.
5. Replace inner panel, adjust right side of cabinet with catch of lighted display.
6. Close display; connect power to unit. Unit is now ready for operation.
