

KIT NO. 2212

INSTALLATION INSTRUCTIONS

Hoshizaki Model KM630 Icemaker/REMCOR® Model TJ200 or TJ250 Dispenser.

1. Seal icemaker to dispenser top cover as follows:
 - a. Locate outline of icemaker on dispenser cover as shown in attached sketch.
 - b. Run a bead of RTV around the inside of the icemaker outline on the cover; (3 sides) as shown.
 - c. Position the icemaker on the dispenser cover.
 - d. Wipe away any excess RTV immediately.
2. Install adhesive backed gasket strip on dispenser cover.
3. Using the mounting brackets as templates, locate and drill holes in the icemaker cabinet for the #10 sheet-metal screws provided in the Kit. Install brackets.
4. Follow the icemaker manufacturer's instructions to complete the installation. Check that the ice level control bracket does not interfere with the agitator in the dispenser ice storage hopper. "Raise" the icemaker control bracket if required.
